(d) Bring a claim against any employer, former employer, or prospective employer for wrongful discharge, discrimination, or any similar cause of action or remedy, based on the employer, former employer, or prospective employer prohibiting the employee, former employee, or prospective employee from being under the influence of marijuana while at work or disciplining the employee or former employee, up to and including termination from employment, for working or attempting to work while under the influence of marijuana.

(2) No Medical Marijuana Cultivation Facility, Medical Marijuana Testing Facility, Medical Marijuana Dispensary Facility, or Medical Marijuana-Infused Products Manufacturing Facility, or entity with a transportation certification shall be owned, in whole or in part, or have as an officer, director, board member, manager, or employee, any individual with a disqualifying felony offense. A "disqualifying felony offense" is a violation of, and conviction or guilty plea to, state or federal law that is, or would have been, a felony under Missouri law, regardless of the sentence imposed, unless the Department determines that:

(a) The person's conviction was for the medical use of marijuana or assisting in the medical use of marijuana; or

(b) The person's conviction was for a non-violent crime for which he or she was not incarcerated and that is more than five years old; or

(c) More than five years have passed since the person was released from parole or probation, and he or she has not been convicted of any subsequent criminal offenses.

The Department may consult with and rely on the records, advice and recommendations of the Attorney General and the Department of Public Safety, or their successor entities, in applying this subdivision.

(3) All Medical Marijuana Cultivation Facility, Medical Marijuana Dispensary Facility, and Medical Marijuana-Infused Products Manufacturing Facility licenses, entities with Medical Marijuana Testing Facility certifications, and entities with transportation certifications shall be held by entities that are majority owned by natural persons who have been citizens of the state of Missouri for at least one year prior to the application for such license or certification. Notwithstanding the foregoing, entities outside the state of Missouri may own a minority stake in such entities.

(4) No Medical Marijuana Cultivation Facility, Medical Marijuana Dispensary Facility, or Medical Marijuana-Infused Products Manufacturing Facility shall manufacture, package or label marijuana or marijuana-infused products in a false or misleading manner. No person shall sell any product in a manner designed to cause confusion between a marijuana or marijuana-infused product and any product not containing marijuana. A violation of this subdivision shall be punishable by an appropriate and proportional Department sanction, up to and including loss of license.

(5) All edible marijuana-infused products shall be sold in individual, child-resistant containers that are labeled with dosage amounts, instructions for use, and estimated length of effectiveness. All marijuana and marijuana-infused products shall be sold in containers clearly and conspicuously labeled, in a font size at least as large as the largest other font size used on the package, as containing "Marijuana," or a "Marijuana-Infused Product." Violation of this prohibition shall subject the violator to Department sanctions, including an administrative penalty.

(6) No individual shall serve as the Primary caregiver for more than three Qualifying Patients.

(7) No Qualifying Patient shall consume marijuana for medical use in a public place, unless provided by law. Violation of this prohibition shall subject the violator to sanctions as provided by general law.

(8) No person shall extract resins from marijuana using dangerous materials or combustible gases without a Medical Marijuana-Infused Products Manufacturing Facility license. Violation of this prohibition shall subject the violator to Department sanctions, including an administrative penalty and, if applicable, loss of their identification card, certificate, or license for up to one year.

(9) All Qualifying Patient cultivation shall take place in an enclosed, locked facility that is equipped with security devices that permit access only by the Qualifying Patient or by such patient's Primary caregiver. Two Qualifying Patients, who both hold valid Qualifying Patient cultivation identification cards, may share one enclosed, locked facility. No more than twelve Qualifying Patient or Primary caregiver cultivated flowering marijuana plants may be cultivated in a single, enclosed locked facility, except when a Primary caregiver also holds a Qualifying Patient cultivation identification card, in which case no more than eighteen flowering marijuana plants may be cultivated in a single, enclosed, locked facility.

(10) No Medical Marijuana Cultivation Facility, Medical Marijuana Dispensary Facility, Medical Marijuana-Infused Products Manufacturing Facility, Medical Marijuana Testing Facility, or entity with a transportation certification shall assign, sell, give, lease, sublicense, or otherwise transfer its license or certificate to any other entity without the express consent of the Department, not to be unreasonably withheld.

(11) Unless allowed by the local government, no new Medical Marijuana Cultivation Facility, Medical Marijuana Testing Facility, Medical Marijuana Dispensary Facility, or Medical Marijuana-Infused Products Manufacturing Facility shall be initially sited within one thousand feet of any then-existing elementary or secondary school, child day-care center, or church. No local government shall prohibit Medical Marijuana

Cultivation Facilities, Medical Marijuana Testing Facilities, Medical Marijuana-Infused Products Manufacturing Facilities, or Medical Marijuana Dispensary Facilities, or entities with a transportation certification either expressly or through the enactment of ordinances or regulations that make their operation unduly burdensome in the jurisdiction. However, local governments may enact ordinances or regulations not in conflict with this section, or with regulations enacted pursuant to this section, governing the time, place, and manner of operation of such facilities in the locality. A local government may establish civil penalties for violation of an ordinance or regulations governing the time, place, and manner of operation of a Medical Marijuana Cultivation Facility, Medical Marijuana Testing Facility, Medical Marijuana-Infused Products Manufacturing Facility, Medical Marijuana Dispensary Facility, or entity holding a transportation certification that may operate in such locality.

(12) Unless superseded by federal law or an amendment to this Constitution, a physician shall not certify a qualifying condition for a patient by any means other than providing a physician certification for the patient, whether handwritten, electronic, or in another commonly used format. A Qualifying Patient must obtain a new physician certification at least annually.

(13) A physician shall not issue a certification for the medical use of marijuana for a non-emancipated Qualifying Patient under the age of eighteen without the written consent of the Qualifying Patient's parent or legal guardian. The Department shall not issue a Qualifying Patient identification card on behalf of a non-emancipated Qualifying Patient under the age of eighteen without the written consent of the Qualifying Patient's parent or legal guardian. Such card shall be issued to one of the parents or guardians and not directly to the patient. Only a parent or guardian may serve as a Primary caregiver for a non-emancipated Qualifying Patient under the age of eighteen. Only the Qualifying Patient's parent or guardian shall purchase or possess medical marijuana for a non-emancipated Qualifying Patient under the age of eighteen. A parent or guardian shall supervise the administration of medical marijuana to a non-emancipated Qualifying Patient under the age of eighteen

(14) Nothing in this section shall be construed as mandating health insurance coverage of medical marijuana for Qualifying Patient use.

(15) Real and personal property used in the cultivation, manufacture, transport, testing, distribution, sale, and administration of marijuana for medical use or for activities otherwise in compliance with this section shall not be subject to asset forfeiture solely because of that use.

8. **Severability**

The provisions of this section are severable, and if any clause, sentence, paragraph or section of this measure, or an application thereof, is adjudged invalid by any court of competent jurisdiction, the other provisions shall continue to be in effect to the fullest extent possible.

9. **Effective Date**

The provisions of this section shall become effective on December 6, 2018.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-054)

Subject

Initiative petition from Sheila Dundon regarding a proposed constitutional amendment to Article XVI of the Constitution of Missouri. (Received November 29, 2016)

Date

December 19, 2016

Description

This proposal would amend Article XVI of the Constitution of Missouri.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** and the **Lieutenant Governor's Office**.

Joy Sweeney, Executive Director, Council for Drug Free Youth provided information for this initiative petition to the State Auditor's office.

Assumptions

Officials from the **Attorney General's office** indicated this proposal authorizes the Department of Health and Senior Services to issue new licenses for the cultivation, manufacture, dispensing, sale, testing, tracking, and transportation of marijuana for medical use. It requires their department to promulgate rules necessary for the implementation and enforcement of the proposal, develop forms and issue standards in addition to licensure and certification of facilities. The proposal requires a minimum of 60 licenses for cultivation facilities (one per every 100,000 inhabitants), a minimum of 85 licenses for manufacturing facilities (one per 70,000 in inhabitants), and a minimum of 192 medical marijuana dispensary facilities (24 per each Congressional district). Licensure and certification is subject to AHC appeal and judicial review. AGO assumes it would need 2 AAG Is to provide legal representation regarding issuance, denial, and discipline of licenses and promulgation of and challenges to administrative rules. If adopted this proposal would increase AGO operating expenses of $139,474 for FY2018; $150,610 for FY2019; and $152,155 for FY2020.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Higher Education** indicated this initiative petition would not have a fiscal impact on their department.

Officials from the **Department of Health and Senior Services** indicated the costs will be $0 for fiscal year 2018, $3,062,147 for fiscal year 2019, and $7,035,064 for fiscal year 2020. The revenues will be $0 for fiscal year 2018, $1,134,000 for fiscal year 2019, and $12,124,800 for fiscal year 2020.

This proposal is not an entire duplication, however; Section 192.945, RSMo allows their department to issue a hemp extract registration card for persons suffering from intractable epilepsy. The hemp extract registration card allows for the legal possession and use of cannabidiol (CBD) oil. This proposal allows for the legal use of marijuana for persons who are issued a registration card due to a debilitating medical condition. Under this proposal, patients with intractable epilepsy could also qualify to receive a registration card for medical marijuana use.

Rental space for 97 FTE located in Jefferson City: 97.00 FTE x 230 sq ft/FTE x $21.00/sq. ft. = $468,510.

The proposed language would legalize the use of marijuana for medicinal purposes. There could be an unknown impact on small businesses that serve as cultivators, manufacturers, dispensary facilities, testing and/or transportation centers.

Total	-	309,634.50	309,653.50

The proposed constitutional amendment requires their department to issue annual registrations for patients and their designated caregivers, patient and caregiver cultivators, medical marijuana cultivation facilities, medical marijuana dispensary facilities, and medical marijuana-infused products manufacturing facilities. In addition, the amendment

requires their department to certify seed-to-sale tracking systems, transportation entities, and testing facilities.

The proposal allows for the following registration/license fees to be collected:

	Initial Application and Annual Renewal
Qualifying Patient ID Card	$25.00
Primary Caregiver ID Card	$25.00
Patient or Caregiver Cultivation ID Card	$100.00

	Within 3 years of Effective Date of Proposal (December 6, 2018 – December 6, 2021)		After 3 years of Effective Date (after December 6, 2021)	
	Initial Application or Renewal Application Non-Refundable License Fee (3 yr. license)	Annual Licensing Fee	Initial Application or Renewal Application Non-Refundable License Fee (3 yr. license)	Annual Licensing Fee
Medical Marijuana Cultivation Facility	$10,000	$25,000	$5,000	$25,000
Medical Marijuana Dispensary Facility	$6,000	$10,000	$3,000	$10,000
Medical Marijuana-Infused Products Manufacturing	$6,000	$10,000	$3,000	$10,000

	Certification Fee
Seed-to-Sale Tracking System	Up to $5,000
Medical Marijuana Testing Facility	Up to $5,000

The provisions of this section shall become effective on December 6, 2018. According to the proposed provisions of this section, they shall make available to the public all license application forms (cultivation, dispensary, manufacturing and testing facilities) and the application forms for qualifying patients, caregivers, and qualifying patient cultivation identification cards within 180 days of the effective date of the section (June 6, 2019). They shall accept all applications for patients, caregivers and cultivators no later than 210 days following the effective date of this section (July 6, 2019). They shall accept applications for dispensary facilities, testing facilities, cultivation facilities, manufacturing facilities, seed-to-sale tracking systems, and transportation entities no later than 240 days after the effective date of this section (August 6, 2019). The provisions of this section also allow any applicant for a license to pre-file their application fee with them beginning 30 days after the effective date of this section (January 6, 2019). For purposes of this fiscal note, it is assumed that the first fees for license applications (pre-file) would be accepted January 6, 2019 (FY 2019). The first fees for patient, caregivers, and cultivators are assumed to be collected beginning July 1, 2019 (FY 2020). The first certification fees (seed-to-sale, testing, and transportation) are assumed to be collected beginning July 1, 2019 (FY 2020) as well.

The estimations for the number of each type of registration, license and certification issued each year are detailed under the headings Division of Community and Public Health (DCPH) and Applications for Patient and Caregiver Identification below.. The total estimate of collected fees equals $1,134,000 for FY 2019 and $12,124,800 for FY 2020.

Section 1.3(2)(e) allows them to issue rules creating a range of administrative penalties related to implementation and enforcement of rules that ensure the right to, availability, and safe use of marijuana for medical use. These administrative penalties could include penalty fees but the fee amounts and frequency of penalties issued is unknown at this time.

Section 1.4(1) of the proposed amendment mandates each licensed Medical Marijuana Dispensary facility to collect a four percent tax on the retail sale of all medical marijuana products sold to be collected by the Department of Revenue (DOR). The amount of tax that will be collected is unknown and is referred to the DOR for these estimations.

The DOR may retain up to five percent of the annual taxes collected. The rest of the tax collected is to be deposited by the DOR into the Missouri Veterans' Health and Care Fund. This fund shall consist of all fees and taxes collected by this proposed section.

Division of Community and Public Health (DCPH)

Section 1.3(1) authorizes them to grant or refuse licenses and certifications for the cultivation, manufacture, dispensing, sale, testing, tracking, and transportation of marijuana for medical use as provided by the provisions of Section 1. This section also authorizes them to suspend, fine, restrict, or revoke such licenses and certifications upon any violation of this section or a rule promulgated by them pursuant to this section. They

shall develop such rules, forms, licenses, identification cards, and applications as necessary to implement provisions of this section. They are also required to certify at least two commercially available software products that licensees must use for seed-to-sale tracking standards and issue standards for the certification of secure transportation of marijuana an marijuana-infused products. They are to prepare annually a publicly available report accounting to the Governor for the efficient discharge of all responsibilities assigned to them by this section. They must also establish a system to numerically score applicants for licenses and certificates when the number of applicants are more than the minimum required.

Section 1.3(2) permits them to issue any rules necessary to ensure the right to, availability and safe use of marijuana for medical use by qualifying patients. This includes addressing: requirements for inspections, investigations, searches, seizures, and such additional enforcement activities that may become necessary; the creation of a range of administrative penalties; development of individual identification cards for owner, officers, managers, contractors, employees, and other support staff of entities licensed pursuant to this section; security requirements for any premises licensed; regulation of the storage and transportation of marijuana for medical use; sanitary requirements for the preparation of medical marijuana-infused products; labeling and packaging standards; and records to be kept by the licensees, state licensing procedures for initial licenses, renewals and reinstatements.

Section 1.3(3) requires them to issue rules regarding independent testing and certification for medical marijuana licensees to ensure products that are sold for human consumption are correctly labeled and do not contain contaminants that are injurious to health.

Section 1.3(4) requires them to issue rules to provide for the standards and certification of Medical Marijuana Testing Facilities. They shall certify, if possible, at least two Medical Marijuana Testing Facility entities.

Section 1.3(6) requires them to make available to the public license application forms and (for all types of licensees including testing facilities) and instructions within 180 days of the effective date of this section.

Section 1.3(7) requires them to make available to the public application forms and accompanying instructions for qualifying patients, qualifying patient or caregiver cultivation, and primary caregiver identification cards within 180 days of the effective date of this section. They are also required to accept these applications within 210 days of the effective date of this section.

Section 1.3(18) requires them to begin accepting license and certification application forms and instructions (for dispensary facilities, testing facilities, cultivation facilities, manufacturing facilities, seed-to-sale tracking systems, and transportation entities) no later than 240 days from the effective date and shall either approve or deny within 150 days after submission.

Section 1.3(19) requires them to process a qualifying patient identification card within 30 days of receipt of the application.

Section 1.3(20) requires them to process a primary caregiver identification card within 30 days of receipt of the application.

Information Technology Services Division (ITSD)

Support of an IT vendor to build a data system to support the administration and reporting requirements indicated in Section 1 of Article XVI (Right to Access Medical Marijuana). The system would be used by the department to process applications to include issuance of licenses and identification cards.

Division of Administration

Specific program impact for their department is in the Division of Community and Public Health (DCPH). Each application and license transaction will have an associated fee transaction, which impacts the Division of Administration (DA).

One full-time attorney would be required to assist in drafting emergency and proposed regulations and forms; perform legal research and provide day-to-day legal counsel to the program; and, represent their department in appeals of licensure and identification card denials.

The proposed amendment requires them to adjust (increase or decrease) registration and license fees according to the Consumer Price Index as published by the U.S. Department of Labor. The change in fees collected (increase or decrease) due to this provision is unable to be determined at this time.

Also, the initial application and renewal licensing fees for a cultivation facility, manufacturing facility, and dispensing facility decrease in half after three years from the effective date of this proposal.

Division of Community and Public Health (DCPH)

Applications for Patient and Caregiver Identification

Section 1 requires them to issue registration cards for qualified patients and their caregivers. A study by the nonprofit entity ProCon organization, updated March 2016, published the rates of patient registration cards issued for each state with a medical marijuana program (http://medicalmarijuana.procon.org/view.resource.php?resourceID=005889). This study found that Oregon was issuing qualified patient cards at a ratio of 19.2 per 1,000 state residents. For purposes of this fiscal note, the State of Oregon's program will be benchmarked in regard to the number of patient and primary caregiver registrants. While the Oregon program was initiated in May 1999 and therefore has an established program,

the state of Missouri's chronic disease rates are generally higher and the qualifying medical conditions accepted under Missouri's proposal are broader than those of Oregon.

Calculation of applications:

- Patients: According to the 2015 U.S. Census Bureau information, Missouri's population is at 6,083,672. Applying the rate of 19.2 applications per 1,000 residents, Missouri would estimate issuing 116,807 patient registration cards annually ((6,083,672/1,000) x 19.2)).
- Caregivers: According to the October 1, 2016 data on Oregon's Medical Marijuana Program Website, the ratio of patient registration cards to caregiver cards is calculated at 2.29. Calculating this same ratio, Missouri would estimate issuing 51,007 caregiver cards annually (116,807/2.29).

The proposed effective date of the medical marijuana program is December 6, 2018. They are required to have the applications for the qualifying patient and caregiver identification cards available within 180 days of the effective date (June 6, 2019). Section 1.3(6) requires them to begin accepting applications for the qualifying patient and caregiver cards no later than 210 days from the effective date (July 6, 2019). For purposes of this fiscal note analysis, it is assumed that they will begin accepting applications July 1, 2019 (FY 2020). They will collect an application fee of $25 per card, per Section 1.3(19) and 1.3(20). It is assumed that the fees will be collected in the same fiscal year the applications are received. It is also assumed that ten percent of the initial applicants will submit a renewal application within the same fiscal year.

	FY 2018	FY 2019	FY 2020
Qualifying Patient Initial Applications	0	0	116,807
Qualifying Patient Renewal Applications	0	0	11,681
Caregiver Initial Applications	0	0	51,007
Caregiver Renewal Applications	0	0	5,101
Total Patient & Caregiver Identification Cards	0	0	184,596
Total Patient & Caregiver Application Fees	$0	$0	$4,614,900

Applications for Patient or Caregiver Cultivation Identification Cards

Section 1 requires them to issue identification cards for a qualifying patient or his or her primary caregiver for purposes of cultivating up to six flowering marijuana plants for the exclusive use of the qualifying patient. For purposes of this fiscal note, it is estimated that 10 percent of the qualifying patients will grow marijuana for themselves or it will be grown by their designated primary caregiver. Therefore, it is estimated that 11,681 (116,807 x .10) will be issued in FY 2020. They will collect an annual application fee of $100 per Section 1.3(12). It is also assumed that ten percent of the initial applicants will renew their application within the same fiscal year.

	FY 2018	FY 2019	FY 2020
Cultivation Initial Applications	0	0	11,681
Cultivation Renewal Applications	0	0	1,168
Total Cultivation Identification Cards	0	0	12,849
Total Cultivation Identification Fees	$0	$0	$1,284,900

Application and Licensing of Medical Marijuana Cultivation Facilities

Section 1 authorizes them to establish the application and licensing process of medical marijuana cultivation facilities. For purposes of this fiscal note analysis, it is estimated that 61 facilities will apply and become licensed to fully operate cultivation facilities by the end of FY 2020. This estimate is based on the assumption that they will limit the number of cultivation facilities licensed at the minimum required of one facility per 100,000 residents (6,083,672 Missouri residents/100,000 residents per facility = 61 facilities) as allowed per Section 1.3(15). They must accept applications within 210 days of the effective date of the proposal and therefore assumes that applications will be accepted beginning July 1, 2019 (FY 2020). However, section 1.3(11) allows any application for a license to pre-file their application fee with them beginning 30 days after the effective date (January 6, 2019). They estimates that half of the cultivation facilities that will be licensed in FY 2020 will pre-file their fee in FY 2019. The proposed amendment sets the initial application fee at $10,000 with an additional $25,000 fee for each year of the license for the facilities applying during this time period.

	FY 2018	FY 2019	FY 2020
Cultivation Facility Applications	0	0	61
Cultivation Facility Application Fees ($10,000)	$0	$300,000 (pre-file)	$310,000
Cultivation Facility Annual Licenses	0	0	61
Cultivation Facility Annual License Fees ($25,000)	$0	$0	$1,525,000
Total Cultivation App & License Fees	$0	$300,000	$1,835,000

Application and Licensing of Medical Marijuana Dispensing Facilities

Section 1 authorizes them to establish the application and licensing process of medical marijuana dispensing facilities. For purposes of this fiscal note analysis, it is estimated that 192 facilities will apply and become licensed to fully operate dispensing facilities by the end of FY 2020. This estimate is based on the assumption that they will limit the number of dispensing facilities licensed at the minimum required of twenty-four (24) licenses per each of the current eight U.S. Congressional Districts (24 facilities x 8 districts = 192 facilities) as allowed per Section 1.3(17). They must accept applications within 210 days of the effective date of the proposal and therefore assumes that applications will be accepted beginning July 1, 2019 (FY 2020). However, section 1.3(11) allows any application for a license to pre-file their application fee with them beginning 30 days after the effective date (January 6, 2019). They estimate that half of the dispensing facilities that will be licensed in FY 2020 will pre-file their fee in FY 2019. The proposed amendment sets the initial

application fee at $6,000 with an additional $10,000 fee for each year of the license for the facilities applying during this time period.

	FY 2018	FY 2019	FY 2020
Dispensing Facility Applications	0	0	192
Dispensing Facility Application Fees ($6,000)	$0	$576,000 (pre-file fees)	$576,000
Dispensing Facility Annual Licenses	0	0	192
Dispensing Facility Annual License Fees ($10,000)	$0	$0	$1,920,000
Total Dispensing App & License Fees	$0	$576,000	$2,496,000

Application and Licensing of Medical Marijuana-Infused Products Manufacturing Facilities

Section 1 authorizes them to establish the application and licensing process of medical marijuana-infused products manufacturing facilities. For purposes of this fiscal note analysis, it is estimated that 87 facilities will apply and become licensed to fully operate medical marijuana-infused products manufacturing facilities by the end of FY 2020. This estimate is based on the assumption that they will limit the number of manufacturing facilities licensed at the minimum required of one facility per 70,000 residents (6,083,672 Missouri residents/70,000 residents per facility = 87 facilities) as allowed per Section 1.3(16). They must accept applications within 210 days of the effective date of the proposal and therefore assumes that applications will be accepted beginning July 1, 2019 (FY 2020). However, section 1.3(11) allows any application for a license to pre-file their application fee with them beginning 30 days after the effective date (January 6, 2019). They estimate that half of the medical marijuana-infused products manufacturing facilities that will be licensed in FY 2020 will pre-file their fee in FY 2019. The proposed amendment sets the initial application fee at $6,000 with an additional $10,000 fee for each year of the license for the facilities applying during this time period.

	FY 2018	FY 2019	FY 2020
Manufacturing Facility Applications	0	0	87
Manufacturing Facility Application Fees ($6,000)	$0	$258,000	$264,000
Manufacturing Facility Annual Licenses	0	0	87
Manufacturing Facility Annual License Fees ($10,000)	$0	$0	$870,000
Total Manufacturing Application & License Fees	$0	$258,000	$1,134,000

Certification of Seed-to-Sale Tracking Systems, Transportation Entities, and Medical Marijuana Testing Facilities

Section 1.3.(1)(d) requires them to certify at least two commercially available systems that licensees may use as their seed-to-sale tracking system. For purposes of this fiscal note, it is estimated that they will issue certifications for two commercially available systems.

Section 1.3.(1)(e) requires them to certify entities which demonstrate compliance with transportation standards in order to transport marijuana and marijuana-infused products. For purposes of this fiscal note, it is estimated that all licensed medical marijuana cultivation facilities and marijuana-infused products manufacturing facilities will obtain certification to transport marijuana and marijuana-infused products. Therefore, it is estimated that they will issue 148 certifications for transportation (61 cultivation facilities + 87 manufacturing facilities = 148 total facilities). The certification process will occur simultaneous with the licensure of the facilities.

Section 1.3.(4) requires them to certify at least two facilities as Medical Marijuana Testing Facilities. It is estimated that only two facilities will be certified. The certification will occur in FY 2020.

Section 1.3.(1)(f) allows the department to charge a fee not to exceed $5,000 for any certification issued. It is assumed that they will charge a fee of $5,000 for each certification issued.

	FY 2018	FY 2019	FY 2020
Seed-to-Sale Tracking System Certifications	0	0	2
Transportation Entity Certifications	0	0	148
Medical Marijuana Testing Facility Certifications	0	0	2

Patient or Caregiver Cultivation Fees	$0	$0	$1,284,900
Cultivation Facility Fees	$0	$300,000	$1,835,000
Dispensing Facility Fees	$0	$576,000	$2,496,000
Infused Products Manufacturing Fees	$0	$258,000	$1,134,000
Certification Fees	$0	$0	$760,000
Total Fees	**$0**	**$1,134,000**	**$12,124,800**

Program Operations: Staffing

Section 1 requires the establishment of a medical marijuana program through promulgation of rules and implementation of those rules for administration of patient and caregiver identification cards; patient or caregiver cultivation identification cards; licensing of medical marijuana cultivation facilities, dispensing facilities and infused products manufacturing facilities; and certification of seed-to-sale tracking systems, transportation entities, and medical marijuana testing facilities. This also includes the development of all program applications and forms, identification cards, and a computerized database system to allow for the electronic storage of and processing of data needed to issue identification

cards and licenses. As a result, DCPH anticipates the need to hire the following staff beginning on December 6, 2018 (FY 2019) to begin development of the program/system:

One Program Manager Broad Band 2 ($65,000) – will serve as Chief of the Medical Marijuana Bureau. Duties will include overall program management, including involvement in rule promulgation, development of forms, program policies and procedures, information system development, and initial program set-up. This position will also supervise the two Unit (Program) Coordinators, two Investigator III positions, a Health Program Representative III, and a Bureau Administrative Office Support Assistant.

Two Program Coordinators (A30, $50,112, Step H) – will serve as Unit Coordinators. One unit will be responsible for processing patient and caregiver applications, including patient or caregiver cultivation applications. The other unit will be responsible for the applications and licensing and/or certification of the medical marijuana cultivation facilities, dispensing facilities, infused-products manufacturing facilities; testing facilities, transportation entities, and seed-to-sale tracking systems. These positions will be involved in the initial program development with the Bureau Chief, hiring of staff, and development of training for staff. Once the program is operational, the Coordinators responsibilities extend to implementation and maintenance of the program, responsibility for meeting application decision deadlines, and ongoing management responsibilities.

One Health Program Representative III (A24, $39,708. Step G) – duties will include assistance in rule promulgation, program policies and procedures, forms development, information system development/troubleshooting and maintenance, and initial program set-up. This position will serve as the liaison between the Units and IT work on system maintenance and enhancements. This position will also certify the seed-to-sale tracking systems that are commercially available to use by the licensed facilities. This position will also be responsible for establishing materials to educate the public about the program and exhibiting at conferences or other venues to education physicians and the general public.

One Administrative Office Support Assistant (A15, $28,668, Step F) – duties will include providing administrative assistance to the Bureau Chief, Program Coordinators, Investigators, Inspectors, and HPR III positions. As allowed, this position will also assist in initial processing of patient and caregiver applications for registration cards.

The following staff will be hired to begin March 1, 2019. This hire date will allow for training and final program preparation to occur prior to the required release dates for the application forms for patients and caregivers, patient or caregiver cultivators, certifications, and facility licenses:

Two Investigator III positions (A25, $41,184, Step G) – these positions will investigate all instances/complaints of possible fraud or negligence on the behalf of a recommending physician, a registered patient and/or caregiver, a cultivator, or a medical marijuana facility. With a new program of this size and the legalization of something that remains illegal for the majority of the population, it is anticipated that they will receive a fair number of calls reporting instances of possible violations. While two is estimated for purposes of this fiscal

note, it may be necessary to add additional staff after the program is operational for some time. The additional costs remain unknown.

Two Grain Inspector IV positions (A23, $38,304, Step G) – these positions will complete the onsite inspections of the medical marijuana cultivation facilities to monitor compliance with the specific requirements outlined in the proposed amendment and rules that need to be met for initial and continued licensure of a facility. These positions will also be responsible for certifying the cultivation facilities as transportation entities. This specialty position was chosen because the most technical piece involves the process of testing plants for molds, mildew, and pesticides and making sure the facilities are dealing with these issues in a proper way.

One Grain Inspector Compliance Coordinator (A28, $46,056, Step G) – this position coordinates and supervises the work of the Grain Inspector positions; ensuring inspections are completed consistently and timely. This position will also provide technical assistance to the inspectors and make final action decisions/recommendations for problem inspections.

Four Environmental Public Health Specialist IV positions (A27, $44,352, Step G) – these positions will complete the onsite inspections of the medical marijuana dispensing and the medical-marijuana infused-products manufacturing facilities to monitor compliance with the specific requirements outlined in the proposed amendment and rules that need to be met for initial and continued licensure of a facility. These positions will also be responsible for certifying the manufacturing facilities as transportation entities. This specialty position was chosen because the most technical piece involves ensuring sanitation requirements are met and the infused-products are labeled and packaged correctly.

One Environmental Public Health Specialist V position (A28, $46,056, Step G) – this position coordinates and supervises the work of the EPHS IV positions; ensuring inspections are completed consistently and timely. This position also provides technical assistance to the environmental specialists and makes final action decisions/recommendations for problem inspections.

One Health Facilities Consultant (A29, $48,852, Step H) – this position will complete the inspections of the Medical Marijuana Testing Facilities in order to monitor compliance with the specific requirements needed to obtain and maintain certification. This position will also provide technical assistance to the testing facilities to assist with obtaining and maintaining the certification. This specialty position was chosen as this classification currently completes the inspections of other medical laboratories certified by the state.

49 Senior Office Support Assistant (SOSA) positions (A12, $26,340, Step F) – duties will include processing of paper applications to include opening and date stamping of mail, entry of application information into the electronic registry, initial verification of applicant and physician identification, initial application review to include determination of application approval or denial (including incomplete status), preparation of patient and caregiver identification cards, preparation of patient/caregiver cultivation identification cards, initial processing of medical marijuana facility applications, preparation of identification cards for

all owners and employees of the medical marijuana facility licensees, processing revoked cards, and answering of phones and assisting telephone callers.

24 Health Program Representative II (HPR II) positions (A21, $35,640, Step G) – duties will include supervision of the SOSA positions and quality assurance checks of the application entry and initial verification completed by the SOSAs. This position will have responsibility for final approval of application incomplete notices, rejects, revocations, and card issuances. This position will ensure application process deadlines as mandated by proposed amendment are met. This position will also verify all registrations of owners and employees associated with the licensed medical marijuana facilities, including coordination with the Inspectors and Environmental Public Health Specialists for final issuance of facility licenses.

For fiscal note purposes they calculated 45 minutes per patient and caregiver application and 45 minutes per patient or caregiver cultivation application.

197,445 (184,596 patient and caregiver apps + 12,849 cultivation apps) X .75/hour / 2,080 hours per year per staff = 71.2 staff (round to 71 staff).

They calculated 14 hours for the processing of a dispensing facility license application and 15 hours for the processing of the cultivation and manufacturing facility license (additional hour for processing transportation certification application).

(192 dispensing facilities x 14 hours) + (61 cultivation facilities x 15 hours) + (87 infused products manufacturing facilities x 15 hours) = 4,908 total hours/divided by 2,080 hrs/year per staff = 2.4 staff (round to 2 staff). This is a total of 73 processing staff (SOSA and HPR II positions).

Printing Costs

They will print individual identification cards for the qualified patient, caregiver, patient or caregiver cultivation identification card, and identification cards for each owner, board member, employee of the licensed facilities. The cards are encoded with a magnetic stripe for security and linkage to the IT system for dispensing purposes. DCPH will purchase a card delivery system with the ability to print the card with the magnetic stripe, attach the card to a personalized letter, and secure in an envelope ready for mailing. The initial cost of the card delivery system is estimated at $277,000. In addition there will be an annual equipment preventative maintenance fee of $34,000. The average supply cost to print each card is $0.59/card.

They are estimating the number of identification cards to be printed each year per facility licensed to be 25 for a cultivation facility, 10 for a dispensing facility, and 25 for a manufacturing facility. (61 cultivation facilities x 25 = 1,525 cards, 192 dispensing facilities x 10 = 1,920 cards, 87 manufacturing facilities x 25 = 2,175 cards) License certificates will be printed for each facility on special certificate paper (heat sensitive ink background) provided by state printing at a cost of approximately $200 per 1,000 pieces of

certificate paper. The license certificates and identification cards for facilities will not be produced until FY 2020 when the facility becomes licensed.

DCPH will print 100,000 brochures each year the program is operational at a cost of $0.06 per brochure. This brochure will provide the public with information about the medical cannabis program and assistance in completing a valid registration.

FY 2019

- 100,000 brochures ($0.06 per brochure) = $6,000

FY 2020

- 184,596 patient and caregiver cards + 12,849 cultivation cards + 1,525 identification cards for cultivation facilities, 1,920 identification cards for dispensing facilities + 2,175 for manufacturing facilities = 203,065 cards x $0.59 per card/print supplies = $119,808
- 492 Certificates for facility licenses and certifications ($200/1,000) = $200
- 100,000 brochures ($0.06 per brochure) = $6,000

Mailing Costs

Each qualifying patient and primary caregiver will receive his/her card in the mail. If the patient or caregiver applied for a cultivation identification card, that card will be mailed separately. Each licensed facility will be mailed a copy of their license and identification cards. It is estimated that 10 percent of the registered participants, caregivers and patient/caregiver cultivators will submit a change request to their application requiring a change notification receipt by mailing. It is projected that five percent of all applications will be incomplete and requires mailing of an incomplete notice. It is also projected that 25 percent of the printed brochures (25,000) along with paper applications will be mailed to the public upon request. The other printed brochures will be available for distribution at conferences and other public venues.

Projected mailings are as follows:

	FY 2018	FY 2019	FY 2020
Patient and Caregiver ID Cards	0	0	184,596
Cultivation ID Cards	0	0	12,849
Facility Certificates	0	0	492
Facility Identification Cards	0	0	5,620
Change Request Notifications	0	0	17,774
Incomplete Notifications	0	0	8,887
Brochures/app mailed	0	25,000	25,000
Total mailings	**0**	**25,000**	**255,218**

FY 2019

- 25,000 envelopes ($41 per 1,000) = 25 X $41 = $1,025
- Postage (25,000 x $0.39/postage rate) = $9,750

FY 2020

- 255,218 envelopes ($41 per 1,000) = 256 X $41 = $10,496
- Postage (255,218 x $0.39/postage rate) = $99,535

Criminal Records Check

Section 1.3.(2)(h) suggests that individual identification cards for owners, officers, managers, contractors, employees and other support staff of the licensed facilities shall include a fingerprint-based federal and state criminal record check in accordance with U.S. Public Law 92-544. Section 1.7(2) states no licensed facility shall have an owner, officer, manager, contractor, employee or other support staff with a disqualifying felony offense. They assumes that as part of the facility license application, the facilities would need to submit a current finger print based criminal record report as would be promulgated in rule. Therefore, they assume no cost for obtaining the fingerprint check.

Information Technology Services Division (ITSD)

Application Storage Costs

In order to manage the final storage of paper applications submitted, Content Manager for electronic scanning and storage will be utilized. The costs for Content Manager are estimated at $132 per month for the state data server costs, $234 for an annual license for each user who needs to view files and $828 for an annual license for each position with ability to scan/import documents. Content Manager services will not be acquired until FY 2020.

Information Systems Development

Estimating a 12 month project duration with a project team consisting of 4 IT Consultants. Applications will be received as paper submissions to the department. System will print licenses and identification cards for physical delivery to the applicant. The system will be hosted in the State Data Center (SDC) on existing virtual servers. Disk space has been estimated at 50 GB for Development and Test with 150 GB estimated for Production. While we have estimated for a system build it is possible COTS solutions are available at a similar cost. Estimated costs are detailed above in the ITSD-DHSS table.

Division of Administration

DHSS-DA assumes one Accounting Clerk can process 30,000 receipt transactions per year. An Accounting Generalist I/II would be needed to supervise for every five Account Clerks.

Accounting Clerk (A12, $26,340, Step F) duties would include:

- Open and sort mail;
- Process and enter receipts in the department computer system;
- Prepare bank deposits and cash receipts documents;
- Reconcile daily receipts;
- Distribute supporting documentation program.

Accounting Generalist I/II (A25, $41,184, Step G) duties would include:

- Supervise and review the work of Accounting Clerks who are processing the fees.

Each application and license would have a fee transaction.

FY2019	FY2020	Transaction
0	184,596	Patient & Caregiver Application
0	12,849	Patient & Caregiver Cultivation Application
30	92	Cultivation Facility Application
96	288	Dispensing Facility Application
43	131	Manufacturing Facility Application
0	152	Certifications
169	198,108	Total Number of Transactions
	6.00 FTE	Accounting Clerk
	1.00 FTE	Accounting Generalist I/II

Office of General Counsel

Legal Counsel ($50,000)

One full-time attorney would be needed to assist in drafting emergency and proposed regulations and forms; perform legal research and provide day-to-day legal counsel to the program; and represent the department in appeals of licensure and identification card denials.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated their department would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated a fiscal impact of $11,229 in fiscal year 2019, $35,262 in fiscal year 2020, $67,160 in fiscal year 2025 and thereafter.

Results of studies at this time show conflicting results on the criminal impacts of current medical marijuana laws. However, with the increased licensing and regulation there are also increased possibilities of secondary crimes through false physician recommendations, non-compliance in registration, illegal possession, vehicular infractions or injury, and theft. While many of these violations may carry only municipal or licensing level penalties, some would ultimately fall under felony charges.

Thus, the expected impact of IP 18-51 should bring about 2 new prison admissions and 3 new field admissions in the first year of enactment (FY19). The maximum impact should be expected by FY25 and will lead to an additional 3 offenders in prison and 18 offenders in the field.

In addition, this proposal would be impactful to their department in that we currently test our staff for marijuana use and discipline accordingly. If our staff were to live in a household, or visit another person, who is legally using medical marijuana they would then be exposed to second-hand smoke and would likely test positive themselves. There would be no way for us to determine which of our staff are innocently exposed from those who are abusing this substance illegally.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** indicated total fund costs for General Revenue will be $242,855 for fiscal year 2018, $124,921 for fiscal year 2019, and $126,460 for fiscal year 2020, which includes information technology (IT) related costs of $150,012 for fiscal year 2018, $30,752 for fiscal year 2019, and $31,521 for fiscal year 2020 for IT consultants.

This legislation increases total state revenue by an unknown amount from the sales tax collected on the sale of medical marijuana.

Section 4
The legislation levies a four percent tax on the retail sale of medical marijuana by Medical Marijuana Dispensary Facilities. Their department may retain up to five percent for the cost of collection. The petition creates the Missouri Veterans' Health and Care Fund. The Commissioner of Administration may make cash operating transfers to the fund to meet cash requirements in advance of receiving revenues. The tax levied by this section is separate and in addition to any general state and local sales tax that applies to retail sales. Because their department does not have enforcement responsibilities, it may make more sense for the taxes to be paid to the Department of Health and Senior Services and then sent to their department for deposit into the fund.

Administrative Impact:

Collections & Tax Assistance:
This section will see additional registrations, registration phone calls, business tax account update requests, and delinquent phone contacts from the additional businesses registering to collect sales tax on medical marijuana. Collections and Tax Assistance requires two (2) Revenue Processing Technicians I (Range 10, Step L) per 24,000 additional contacts to the registration section and 15,000 contacts annually on the delinquent tax line. Each technician requires CARES equipment.

Business Tax Processing:
Although the legislation bases the four percent tax on the retail selling price, it is separate from sales and use tax. This tax needs to be reported and deposited separately from sales and use tax. This would require new reporting forms and a new program to track and distribute receipts. This will include a new program within the Integrated Tax System.

Officials from the **Department of Public Safety - Office of Director and the Division of Alcohol and Tobacco Control** each indicated they see no fiscal impact due to this initiative petition.

Officials from the **Missouri State Highway Patrol** indicated for the Criminal Records Fund estimated revenue of $179,040 and estimated costs of $67,140 for fiscal year 2018, unknown impact for fiscal year 2019, and unknown impact for fiscal year 2020.

For each fingerprint-based background check processed, the state retains the $20 state fee and $2 of the federal charge for a pass-thru fee.

The proposed legislation would allow medical marijuana for medical use and provide that it shall be taxed at four percent of the retail price.

According to the 2015 United States Census Bureau's census estimate, Missouri's population was 6,083,672. Based on this total, the number of Cultivation Facilities, Dispensary Facilities, and Infused Products Manufacturing Facilities is as follows:

Cultivation Facilities
Assuming a limit is set at the minimum of 1 facility per 100,000 inhabitants per the proposed amendment, 60 licenses for cultivation facilities may be issued. Further estimating an average of 25 employees per facility, the total number of criminal record checks for employees, owners etc. of Cultivation Facilities equals 1,500 (60 x 25).

Dispensing Facilities
Assuming the maximum number of licenses that will be issued in each of the eight United States Congressional Districts in the state of Missouri is 24, the maximum number of licenses issued for Dispensing facilities equals 192 (24 x 8). Further estimating 10 employees per facility, the total number of criminal record checks for employees, owners etc. of Dispensary Facilities equals 1,920 (192 x 10).

Infused Products Manufacturing Facilities
Assuming a limit is set at the minimum of 1 facility per 70,000 inhabitants (per the proposed constitutional amendment) the number of facilities would equal 87 (6,083,672 / 70,000). Further estimating an average of 25 employees per facility, the total number of criminal record checks for employees, owners, etc. of Cultivation Facilities equals 2,175 (87 x 25).

The estimated number of state and federal fingerprint-based criminal record checks estimated to be generated with the passage of this amendment is 5,595 (1,500 for

Cultivation Facilities; 1,920 - Dispensing Facilities; 2,175 - Infused Products Manufacturing Facilities).

The charge for each background check processed is $40.30. Twenty dollars for the state fingerprint check, $12 for the federal check, and an $8.30 charge for the statewide applicant fingerprinting contractor fee ($20 + $12 + 8.30 = $40.30). Of this amount, the state retains the $20 fee and $2 of the federal charge of $12 for a pass-thru fee. The $8.30 charge is paid directly to the vendor at the time of application.

Estimated Revenue FY18
5,595 x $32 (state/federal background check) $179,040

Estimated Expense FY18
5,595 x $12 (federal background check charge) $67,140

Subsequent yearly background checks will be based on turnover.

Estimated Revenue FY19 and beyond
??? x $32 (state/federal background check)

Estimated Expense FY19 and beyond
??? x $12 (federal background check charge)

Officials from the **Department of Social Services** indicated no fiscal impact on their department.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated no fiscal impact.

Officials from the **Office of Administration** (OA) indicated:

Article XVI, Section 1 allows the Department of Health and Senior Services (DHSS) to grant or refuse state licenses for the cultivation, manufacture, distribution, and sale of marijuana for medical use. This authority includes the creation and imposition of administrative penalties; however, no actual amounts are given.

The article establishes facility license fees for medical marijuana cultivation facilities, medical marijuana dispensary facilities, and medical marijuana-infused products manufacturing facilities. Table 1 outlines the fees and renewal periods by facility license

type. In addition to facility fees, Section 3 creates certifications for a seed-to-sale system, transportation, and medical marijuana testing facilities. DHSS is allowed to charge up to $5,000 per certification and must certify at least two seed-to-sale tracking systems and two testing facilities; however, no minimum requirement was listed for the transportation of medical marijuana.

Table 1: Facility License and Annual Fees

Section	Facility License Type	License Fee* Years 1-3	License Fee* Years 3+	Annual Fee*	Renewal Period
3 (8)	medical marijuana cultivation facilities	$10,000	$5,000	$25,000	Every 3 years
3 (9)	medical marijuana dispensary facilities	$6,000	$3,000	$10,000	Every 3 years
3 (10)	medical marijuana-infused products manufacturing facilities	$6,000	$3,000	$10,000	Every 3 years

**License fees and annual fees shall be adjusted each year in accordance with the Consumer Price Index as published by the U.S. Department of Labor.*

Section 3 (12) allows qualifying patients, or his or her primary caregiver, to obtain an identification card allowing for personal cultivation of up to six flowering marijuana plants. Section 3 (19) and Section 3 (20) establish identification cards for qualifying patients of medical marijuana and primary caregivers. Table 2 outlines the fees and renewal periods for the different identification cards.

Table 2: Identification Fees

Section	Identification Type	Fee*	Renewal Period
3 (12)	Personal Cultivation I.D. Card	$100	annually
3 (19)	Qualifying Patient - Identification card	$25	annually
3 (20)	Primary Caregiver - Identification card	$25	annually

**License fees and annual fees shall be adjusted each year in accordance with the Consumer Price Index as published by the U.S. Department of Labor.*

Section 3 (15) states that DHSS may restrict the number of licenses for medical marijuana cultivation facilities; however, the number may not be limited to less than one license per one hundred thousand inhabitants of Missouri. Section 3 (16) states that DHSS may restrict the number of licenses for marijuana-infused products manufacturing facilities; however, the number may not be limited to less than one license per seventy thousand inhabitants of Missouri. Section 3 (17) states that DHSS may limit the number of dispensary facilities to twenty-four licenses in each United States Congressional district. Table 3 outlines the facility count limits and estimates what the facility counts would be based on 2010 U.S. Census data should these limits be implemented. Once the minimum number of facilities has been established, any decrease in the number of inhabitants within Missouri, or changes to the number or boundaries of the Congressional Districts, shall have no impact to the established minimum number of licenses allowed by the article.

Table 3: Facility Count Limits			
Section	**Facility Type**	**Minimum Limit**	**Facility Count**
3 (15)	cultivation facilities	1 per 100,000	60
3 (16)	marijuana-infused products manufacturing facilities	1 per 70,000	86
3 (17)	medical marijuana dispensaries	24 per U.S. Congressional District	192

Section 4 (1) creates a 4% sales tax on the retail sale of marijuana for medical use sold at medical dispensary facilities within the state. Revenues from this tax shall be paid to the Department of Revenue (DOR). DOR may retain up to five percent for collection costs. The remainder shall be deposited in the Missouri Veterans' Health and Care Fund.

Section 4 (2) creates the Missouri Veterans' Health and Care Fund in the state treasury which will consist of taxes and fees collected under this section. This fund shall be a dedicated fund and shall stand appropriated without further legislative action. DHSS shall be appropriated an amount necessary to carry out this section. The remainder shall be transferred to the Missouri Veterans' Commission for health and care services for military veterans.

Section 9 states that the effective date of Article XVI would be December 6, 2018. However, B&P estimates that revenue generation would not begin until at least June 2019 for patients and July 2019 for facilities given the provisions in Section 3.

Using data from Arizona, which has a similar medical marijuana law, B&P estimates that up to 65,547 patients and caregivers could utilize this bill. Of these, up to 2,000 may gain approval for personal cultivation. B&P estimates that annual fees for patients, caregivers, and personal cultivation could generate approximately $1.4M annually by FY 2021, assuming growth is similar to that seen with the Arizona medical marijuana program.

B&P estimates that license fees for medical marijuana facilities could generate approximately $2.3M in FY 2020, and $1.1M every three years thereafter. The initiative petition does not specify whether these facilities would pay the annual fee and a license renewal fee every three years. Therefore, B&P assumes that both would need to be paid in the third year of a license. Table 4 outlines the revenues from the license and annual fees.

Table 4: License and Annual Fees by Patient and Facility Type					
Patient and Facility Type	**Revenue Generated by License Fees**				
	FY 2019	**FY 2020***	**FY 2021***	**FY 2022***	**FY 2023***
Patients and Caregivers**	$87,000	$1,046,000	$1,186,000	$1,704,000	$1,737,000
Personal Cultivation**	$17,000	$200,000	$204,000	$208,000	$212,000
Cultivation Facilities^		$600,000	$1,531,000	$1,561,000	$1,905,000
Infused Product Manufacturer^		$516,000	$879,000	$896,000	$1,183,000
Dispensary^		$1,152,000	$1,962,000	$2,000,000	$2,642,000
Total	**$104,000**	**$3,514,000**	**$5,762,000**	**$6,369,000**	**$7,679,000**

**Assumes 2% inflation*

***Assumes growth similar to that seen in the medical marijuana program in Arizona*

^ Assumes a 1.2% turnover rate in facility licenses

Section 4 requires a four percent sales tax to be applied to all sales of marijuana products, in addition to current state and local sales tax. Based on sales data from Arizona during 2014 of $110M and 2015 of approximately $155.7M, B&P calculates that this provision could increase TSR by $6.6M and GR by $4.7M once fully implemented. Table 5 outlines the estimated revenues from each tax and where revenues will be directed.

Table 5: Sales Tax Revenues					
Sales Tax Fund	**Revenue Generated by Sales Tax**				
	FY 2019	**FY 2020***	**FY 2021***	**FY 2022***	**FY 2023***
Missouri Veterans' Health and Care Fund		$2,200,000	$6,229,000	$6,229,000	$6,229,000
General Revenue		$1,650,000	4,672,000	4,672,000	4,672,000
Education		$550,000	$1,557,000	$1,557,000	$1,557,000
Parks, Soil, and Water		$55,000	$156,000	$156,000	$156,000
Conservation		$69,000	$195,000	$195,000	$195,000
Total	**$0**	**$4,524,000**	**$12,809,000**	**$12,809,000**	**$12,809,000**

**Based on sales data from Arizona during 2014 and 2015*

B&P estimates that all provisions in this initiative petition could increase TSR by $2.3M and GR by $1.7M in FY20. In FY21, TSR could increase by $6.6M and GR by $4.7M. This initiative petition will not impact the calculations under 18(e).

^^Based on sales data from Arizona during 2014 and 2015

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated no fiscal impact on their office.

Officials from the **Secretary of State's office** indicated their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted

each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any impact on their office.

Officials from the **State Treasurer's office** indicated this would have no fiscal impact on their office.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from the **City of Kansas City** indicated sales taxes could be collected. No amount can be reasonably estimated.

Officials from the **City of Raymore** indicated no fiscal impact.

Officials from the **City of St. Joseph** indicated this will not have a fiscal impact on the local government.

Officials from **University of Missouri** indicated the University of Missouri Health Care (MUHC) has reviewed the proposed initiative petition and determined that the fiscal impact should not exceed $100,000 annually.

Joy Sweeney, Executive Director, Council for Drug Free Youth provided the following information for this initiative petition.

Fiscal Impact of Marijuana Legalization

The fiscal impact of marijuana legalization is far reaching. Colorado has provided a great deal of data for Missouri to utilize to determine the impact legalization will have here.

The information in this report is from The Rocky Mountain High Intensity Drug Trafficking Area (HIDTA) Report[1], and it provides a basis of study for the effects of the legalization of marijuana, including fiscal ramifications. The American Society of Addiction Medicine (ASAM) "asserts that the anticipated public health costs of marijuana legalization are significant…"[2] **It is important to note the various costs incurred with legalization, including enforcement, prevention, education, treatment, medical costs, etc.** By utilizing the HIDTA Report, Missouri can predict the cost to the state. A summary of their findings follows:

Colorado tracked data from three waves of marijuana legalization:

- 2006-2008 is the "early medical marijuana era"
- 2009-Present is the "medical marijuana commercialization and expansion era"
- 2013-Present is the "recreational marijuana era"

<u>Impaired Driving</u>

Marijuana-related traffic deaths increased 48 percent in the three-year average (2013-2015) since Colorado legalized recreational marijuana compared to the three-year average (2010-2012) prior to legalization.

During the same time, all traffic deaths increased 11 percent.

Marijuana-related traffic deaths increased 62 percent from 71 to 115 persons after recreational marijuana was legalized in 2013.

In 2009, Colorado marijuana-related traffic deaths involving operators testing positive for marijuana represented 10 percent of all traffic fatalities. By 2015, that number doubled to 21 percent.

The Colorado State Patrol DUID Program 2015 data includes:

- 77 percent (665) of the 862 DUIDs involved marijuana
- 40 percent (347) of the 862 DUIDs involved marijuana only

Average Marijuana Related Fatalities increased 48% between 2008-2012 and 58% between 2012-2015.

Operators involved in fatalities testing positive for marijuana more than tripled:

- 2006 was 4.03%
- 2009 was 6.41%
- 2013 was 8.97%

---

[1] *Rocky Mountain High Intensity Drug Trafficking Area*. "The Legalization of Marijuana in Colorado: The Impact". Volume 4, September 2016. http://www.rmhidta.org/html/2016%20FINAL%20Legalization%20of%20Marijuana%20in%20Colorado%20The%20Impact.pdf

[2] American Society of Addiction Medicine, *State-Level Proposals to Legalize Marijuana*, http://www.asam.org/advocacy/find-a-policy-statement/view-policy-statement/public-policy-statements/2012/07/30/state-level-proposals-to-legalize-marijuana, July 2012.

- 2015 was 12.06%

Effects on Youth

From school years 2008-2014, **drug related suspensions/expulsions increased 40%.**
58% of all drug related expulsions were for marijuana.

Past month marijuana use for youth aged 12-17 reports:

National rates	Colorado rates
2008-6.72 % of youth	2008-8.75% of youth
2014-7.22% of youth	2014-11.74% of youth

Referrals to Law Enforcement

In 2006, total drug related referrals to law enforcement were 23.4%; compared to alcohol at 8%.
In 2016, total referrals were 29.7%, compared to 4.3% for alcohol.
In the 2015/16 school year, 73% of all drug related referrals were for marijuana.

Emergency Room Visits Related to Marijuana

2012-9,982
2013-12,888
2014-18,255
From 2012-2014, there was a 49% increase.

Total of all hospitalizations that were marijuana related:
2000-2,541
2013-8,078
2014-9,856

The national **average percent of children ages 0-5 reported for marijuana exposure** from 2010-2013 was 4.97%. **In Colorado it was 17.81%**

Between 2003 and 2013, accidental marijuana exposure to youth under age six increased by about 150 percent.

Treatment Admissions for Marijuana

Data from Colorado from 2005-2013 doesn't demonstrate a definitive trend and averages about 6,500 admissions a year….There may be a drop in treatment admissions for marijuana abuse among adults because of a reduction in criminal justice referrals through diversion and drug courts due to fewer people entering the system.

73.6% of youth in the Denver Health Clinic youth are male, the mean age is 15.8 years, and 98.1% are there primarily for cannabis use disorder.

Other Pertinent Information

- As of January 2016, there were 424 retail marijuana stores in the state of Colorado compared to 322 Starbucks and 202 McDonald's.
- 68 percent of local jurisdictions have banned medical and recreational marijuana businesses.
- From 2014 to 2015, property crime increased 6.2 percent, violent crime increased 6.7 percent, and all crime increased 6.2 percent.
- 93% of CO medical marijuana card holders obtained it to treat "severe pain"

The State Auditor's office did not receive a response from the **Department of Elementary and Secondary Education, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, St. Louis Community College,** and the **Lieutenant Governor's Office**.

Fiscal Note Summary

This proposal is estimated to generate annual taxes and fees of $18 million for state operating costs and veterans programs, and $6 million for local governments. Annual state operating costs are estimated to be $7 million.

The Honorable Nicole Galloway
State Auditor
State Capitol Building
Jefferson City, MO 65101

RE: Petition approval request from Sheila Dundon regarding a proposed constitutional amendment to Article XVI, version 3 (2018-053)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Sheila Dundon on November 28, 2016.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

Jason Kander

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Article XVI is created by enacting one new section to be known as Section 1 of Article XVI, to read as follows:

Section 1. Right to Access Medical Marijuana

1. **Purposes**

This section is intended to permit state-licensed physicians to recommend marijuana for medical purposes to patients with serious illnesses and medical conditions. The section allows patients with qualifying medical conditions the right to discuss freely with their physicians the possible benefits of medical marijuana use, the right of their physicians to provide professional advice concerning the same, and the right to use medical marijuana for treatment under the supervision of a physician.

This section is intended to make only those changes to Missouri laws that are necessary to protect patients, their primary caregivers, and their physicians from civil and criminal penalties, and to allow for the limited legal production, distribution, sale and purchase of marijuana for medical use. This section is not intended to change current civil and criminal laws governing the use of marijuana for nonmedical purposes. The section does not allow for the public use of marijuana and driving under the influence of marijuana.

2. **Definitions**

(1) "Administer" means the direct application of marijuana to a Qualifying Patient by way of any of the following methods:

(a) Ingestion of capsules, teas, oils, and other marijuana-infused products;

(b) Vaporization or smoking of dried flowers, buds, plant material, extracts, or oils;

(c) Application of ointments or balms;

(d) Transdermal patches and suppositories;

(e) Consuming marijuana-infused food products; or

(f) Any other method recommended by a Qualifying Patient's physician.

(2) "Department" means the Department of Health and Senior Services, or its successor agency.

(3) "Entity" means a natural person, corporation, professional corporation, nonprofit corporation, cooperative corporation, unincorporated association, business trust, limited liability company, general or limited partnership, limited liability partnership, joint venture, or any other legal entity.

(4) "Flowering plant" means a marijuana plant from the time it exhibits the first signs of sexual maturity through harvest.

(5) "Marijuana" or "Marihuana" means ***Cannabis indica***, ***Cannabis sativa***, and ***Cannabis ruderalis***, hybrids of such species, and any other strains commonly understood within the scientific community to constitute marijuana, as well as resin extracted from the plant and marijuana-infused products. "Marijuana" or "Marihuana" do not include industrial hemp containing a crop-wide average tetrahydrocannabinol concentration that does not exceed three-tenths of one percent on a dry weight basis, or commodities or products manufactured from industrial hemp.

(6) "Marijuana-Infused Products" means products that are infused with marijuana or an extract thereof and are intended for use or consumption other than by smoking, including, but not limited to, edible products, ointments, tinctures and concentrates.

(7) "Medical Marijuana Cultivation Facility" means a facility licensed by the Department, to acquire, cultivate, process, store, transport, and sell marijuana to a Medical

Marijuana Dispensary Facility, Medical Marijuana Testing Facility, or to a Medical Marijuana-Infused Products Manufacturing Facility.

(8) "Medical Marijuana Dispensary Facility" means a facility licensed by the Department, to acquire, store, sell, transport, and deliver marijuana, marijuana-infused products, and drug paraphernalia used to administer marijuana as provided for in this section to a Qualifying Patient, a Primary caregiver, another Medical Marijuana Dispensary Facility, a Medical Marijuana Testing Facility, or a Medical Marijuana-Infused Products Manufacturing Facility.

(9) "Medical Marijuana-Infused Products Manufacturing Facility" means a facility licensed by the Department, to acquire, store, manufacture, transport, and sell marijuana-infused products to a Medical Marijuana Dispensary Facility, a Medical Marijuana Testing Facility, or to another Medical Marijuana-Infused Products Manufacturing Facility.

(10) "Medical Marijuana Testing Facility" means a facility certified by the Department, to acquire, test, certify, and transport marijuana.

(11) "Medical use" means the production, possession, delivery, distribution, transportation, or administration of marijuana or a marijuana-infused product, or drug paraphernalia used to administer marijuana or a marijuana-infused product, for the benefit of a Qualifying Patient to mitigate the symptoms or effects of the patient's qualifying medical condition.

(12) "Physician" means an individual who is licensed and in good standing to practice medicine or osteopathy under Missouri law.

(13) "Physician certification" means a document, whether handwritten, electronic or in another commonly used format, signed by a physician and stating that, in the physician's professional opinion, the patient suffers from a qualifying medical condition.

(14) "Primary caregiver" means an individual twenty-one years of age or older who has significant responsibility for managing the well-being of a Qualifying Patient and who is designated as such on the primary caregiver's application for an identification card under this section or in other written notification to the Department.

(15) "Qualifying medical condition" means the condition of, symptoms related to, or side-effects from the treatment of:

(a) Cancer;

(b) Epilepsy;

(c) Glaucoma;

(d) Intractable migraines unresponsive to other treatment;

(e) A chronic medical condition that causes severe, persistent pain or persistent muscle spasms, including but not limited to those associated with multiple sclerosis, seizures, Parkinson's disease, and Tourette's syndrome;

(f) Debilitating psychiatric disorders, including, but not limited to, post-traumatic stress disorder, if diagnosed by a state licensed psychiatrist;

(g) Human immunodeficiency virus or acquired immune deficiency syndrome;

(h) A chronic medical condition that is normally treated with a prescription medication that could lead to physical or psychological dependence, when a physician determines that medical use of marijuana could be effective in treating that condition and would serve as a safer alternative to the prescription medication;

(i) Any terminal illness; or

(j) In the professional judgment of a physician, any other chronic, debilitating or other medical condition, including, but not limited to, hepatitis C, amyotrophic lateral sclerosis, inflammatory bowel disease, Crohn's disease, Huntington's disease, autism, neuropathies, sickle cell anemia, agitation of Alzheimer's disease, cachexia, and wasting syndrome.

(16) "Qualifying Patient" means a Missouri resident diagnosed with at least one qualifying medical condition.

3. **Creating Patient Access to Medical Marijuana**

(1) In carrying out the implementation of this section, the Department shall have the authority to:

(a) Grant or refuse state licenses and certifications for the cultivation, manufacture, dispensing, sale, testing, tracking, and transportation of marijuana for medical use as provided by law; suspend, fine, restrict, or revoke such licenses and certifications upon a violation of this section or a rule promulgated pursuant to this section; and impose any administrative penalty authorized by this section or any rule promulgated pursuant to this section.

(b) Promulgate rules and emergency rules necessary for the proper regulation and control of the cultivation, manufacture, dispensing, and sale of marijuana for medical use and for the enforcement of this section so long as patient access is not restricted unreasonably and such rules are reasonably necessary for patient safety or to restrict access to only licensees and Qualifying Patients.

(c) Develop such forms, certificates, licenses, identification cards, and applications as are necessary for, or reasonably related to, the administration of this section or any of the rules promulgated under this section;

(d) Require a seed-to-sale tracking system that tracks medical marijuana from either the seed or immature plant stage until the medical marijuana or medical marijuana-infused product is sold to a Qualifying Patient or Primary Caregiver to ensure that no medical marijuana grown by a Medical Marijuana Cultivation Facility or manufactured by a Medical Marijuana-Infused Products Manufacturing Facility is sold or otherwise transferred except by a Medical Marijuana Dispensary Facility. The Department shall certify, if possible, at least two commercially available systems to licensees as compliant with its tracking standards and issue standards for the creation or use of other systems by licensees.

(e) Issue standards for the secure transportation of Marijuana and Marijuana-Infused Products. The Department shall certify entities which demonstrate compliance with its transportation standards to transport Marijuana and Marijuana-Infused Products to a Medical Marijuana Cultivation Facility, a Medical Marijuana-Infused Products Manufacturing Facility, a Medical Marijuana Dispensary Facility, a Medical Marijuana Testing Facility, or another entity with a transportation certification. The Department shall develop or adopt from any other governmental agency such safety and security standards as are reasonably necessary for the transportation of marijuana. Any entity licensed or certified pursuant to this section shall be allowed to transport cannabis.

(f) The Department may charge a fee not to exceed $5,000 for any certification issued pursuant to this section.

(g) Prepare and transmit annually a publicly available report accounting to the Governor for the efficient discharge of all responsibilities assigned to the Department under this section;

(h) Establish a system to numerically score competing medical marijuana licensee and certificate applicants, only in cases where more applicants apply than the minimum number of licenses or certificates as calculated by this section, which scoring shall be limited to an analysis of the following: (i) the character, veracity, background, qualifications, and relevant experience of principal officers or managers; (ii) the business plan proposed by the applicant, which in the case of cultivation facilities and dispensaries shall include the ability to maintain an adequate supply of marijuana, plans to ensure safety and security of Qualifying Patients and the community, procedures to be used to prevent diversion, and any plan for making Marijuana available to low-income Qualifying Patients; (iii) site security; (iv) experience in a legal cannabis market; (v) in the case of Medical Marijuana Testing Facilities, the experience of their personnel with testing marijuana, food or drugs for toxins and/or potency and health care industry experience; (vi) the potential for positive economic impact in the site community; (vii) in the case of Medical Marijuana Cultivation Facilities, capacity or experience with agriculture, horticulture, and health care; (viii) in the case of Medical Marijuana Dispensary Facilities, capacity or experience with health care, the suitability of the proposed location, and its accessibility for patients; (ix) in the case of Medical Marijuana-Infused Products Manufacturing Facilities, capacity or experience with food and beverage manufacturing; and (x) maintaining competitiveness in the marijuana for medical use marketplace. In ranking applicants and awarding licenses and certificates, the Department may consult or contract with other public agencies with relevant expertise regarding these factors. The Department shall lift or ease any limit on the number of licensees or certificate holders in order to meet the demand for marijuana for medical use by Qualifying Patients.

(2) The Department shall issue any rules or emergency rules necessary for the implementation and enforcement of this section and to ensure the right to, availability, and safe use of marijuana for medical use by Qualifying Patients. In developing such rules or emergency rules, the Department may consult with other public agencies. In addition to any other rules or emergency rules necessary to carry out the mandates of this section, the Department may issue rules or emergency rules relating to the following subjects:

(a) Compliance with, enforcement of, or violation of any provision of this section or any rule issued pursuant to this section, including procedures and grounds for denying, suspending, fining, restricting, or revoking a state license or certification issued pursuant to this section;

(b) Specifications of duties of officers and employees of the Department;

(c) Instructions or guidance for local authorities and law enforcement officers;

(d) Requirements for inspections, investigations, searches, seizures, and such additional enforcement activities as may become necessary from time to time;

(e) Creation of a range of administrative penalties for use by the Department;

(f) Prohibition of misrepresentation and unfair practices;

(g) Control of informational and product displays on licensed premises provided that the rules may not prevent or unreasonably restrict appropriate signs on the property of the Medical Marijuana Dispensary Facility, product display and examination by the Qualifying Patient and/or Primary caregiver, listings in business directories including phone books, listings in marijuana-related or medical publications, or the sponsorship of health or not for profit charity or advocacy events;

(h) Development of individual identification cards for owners, officers, managers, contractors, employees, and other support staff of entities licensed or certified pursuant to this section, including a fingerprint-based federal and state criminal record check in accordance with U.S. Public Law 92-544, or its successor provisions, as may be required by the Department prior to issuing a card and procedures to ensure that cards for new applicants are issued within fourteen days. Applicants licensed pursuant to this section shall submit fingerprints to the Missouri state highway patrol for the purpose of conducting a state and federal fingerprint-based criminal background check. The Missouri state highway patrol, if necessary, shall forward the fingerprints to the Federal Bureau of Investigation (FBI) for the purpose of conducting a fingerprint-based criminal background check. Fingerprints shall be submitted pursuant to 43.543 and fees shall be paid pursuant to 43.530;

(i) Security requirements for any premises licensed or certified pursuant to this section, including, at a minimum, lighting, physical security, video, alarm requirements, and other minimum procedures for internal control as deemed necessary by the Department to properly administer and enforce the provisions of this section, including reporting requirements for changes, alterations, or modifications to the premises;

(j) Regulation of the storage of, warehouses for, and transportation of marijuana for medical use;

(k) Sanitary requirements for, including, but not limited to, the preparation of medical Marijuana-Infused Products;

(l) The specification of acceptable forms of picture identification that a Medical Marijuana Dispensary Facility may accept when verifying a sale;

(m)Labeling and packaging standards;

(n) Records to be kept by licensees and the required availability of the records;

(o) State licensing procedures, including procedures for renewals, reinstatements, initial licenses, and the payment of licensing fees;

(p) The reporting and transmittal of tax payments;

(q) Authorization for the Department of Revenue to have access to licensing information to ensure tax payment and the effective administration of this section; and

(r) Such other matters as are necessary for the fair, impartial, stringent, and comprehensive administration of this section.

(3) The Department shall issue rules or emergency rules for a medical marijuana and medical marijuana-infused products independent testing and certification program for medical marijuana licensees and requiring licensees to test medical marijuana using one or more impartial, independent laboratories to ensure, at a minimum, that products sold for human consumption do not contain contaminants that are injurious to health, to ensure correct labeling and measure potency. The Department shall not require any medical marijuana or medical marijuana-infused products to be tested more than once prior to sale.

(4) The Department shall issue rules or emergency rules to provide for the certification of and standards for Medical Marijuana Testing Facilities, including the requirements for equipment and qualifications for personnel, but shall not require certificate holders to have any federal agency licensing or have any relationship with a federally licensed testing facility. The Department shall certify, if possible, at least two entities as Medical Marijuana Testing Facilities. No Medical Marijuana Testing Facility shall be owned by an entity under substantially common control, ownership, or management as

a Medical Marijuana Cultivation Facility, Medical Marijuana-Infused Product Manufacturing Facility, or Medical Marijuana Dispensary Facility.

(5) The Department shall maintain the confidentiality of reports or other information obtained from an applicant or licensee containing any individualized data, information, or records related to the licensee or its operation, including sales information, financial records, tax returns, credit reports, cultivation information, testing results, and security information and plans, or revealing any patient information, or any other records that are exempt from public inspection pursuant to state or federal law. Such reports or other information may be used only for a purpose authorized by this section. Any information released related to patients may be used only for a purpose authorized by federal law and this section, including verifying that a person who presented a patient identification card to a state or local law enforcement official is lawfully in possession of such card.

(6) Within one hundred eighty days of the effective date of this section, the Department shall make available to the public license application forms and application instructions for Medical Marijuana Cultivation Facilities, Medical Marijuana Testing Facilities, Medical Marijuana Dispensary Facilities, and Medical Marijuana-Infused Products Manufacturing Facilities.

(7) Within one hundred eighty days of the effective date of this section, the Department shall make available to the public application forms and application instructions for Qualifying Patient, Qualifying Patient cultivation, and Primary caregiver identification cards. Within two hundred ten days of the effective date of this section, the Department shall begin accepting applications for such identification cards.

(8) An entity may apply to the Department for and obtain one or more licenses to grow marijuana as a Medical Marijuana Cultivation Facility. Each facility in operation shall require a separate license, but multiple licenses may be utilized in a single facility. Each indoor facility utilizing artificial lighting may be limited by the Department to thirty thousand square feet of flowering plant canopy space. Each outdoor facility utilizing natural lighting may be limited by the Department to two thousand eight hundred flowering plants. Each greenhouse facility using a combination of natural and artificial lighting may be limited by the Department, at the election of the licensee, to two thousand eight hundred flowering plants or thirty thousand square feet of flowering plant canopy. The license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The Department shall charge each applicant a non-refundable fee of ten thousand dollars per license application or renewal for all applicants filing an application within three years of the effective date of this section and shall charge each applicant a non-refundable fee of five thousand dollars per license application or renewal thereafter. Once granted, the Department shall charge each licensee an annual fee of twenty-five thousand dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. No more than three Medical Marijuana Cultivation Facility licenses shall be issued to any entity under substantially common control, ownership, or management.

(9) An entity may apply to the Department for and obtain one or more licenses to operate a Medical Marijuana Dispensary Facility. Each facility in operation shall require a separate license. A license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The Department shall charge each applicant a non-refundable fee of six thousand dollars per license application or renewal for each applicant filing an application within three years of the effective date of this section and shall charge each applicant a non-refundable fee of three thousand dollars per license application or renewal thereafter. Once granted, the Department shall charge each licensee an annual fee of ten thousand dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. No more than five Medical Marijuana Dispensary Facility licenses shall be issued to any entity under substantially common control, ownership, or management.

(10) An entity may apply to the Department for and obtain one or more licenses to operate a Medical Marijuana-Infused Products Manufacturing Facility. Each facility in operation shall require a separate license. A license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The Department shall charge each applicant a non-refundable fee of six thousand dollars per license application or renewal for each applicant filing an application within three years of the effective date of this section and shall charge each applicant a non-refundable fee of three thousand dollars per license application or renewal thereafter. Once granted, the Department shall charge each licensee an annual fee of ten thousand dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. No more than three Medical Marijuana-Infused Products Manufacturing Facility licenses shall be issued to any entity under substantially common control, ownership, or management.

(11) Any applicant for a license authorized by this section may pre-file their application fee with the Department beginning 30 days after the effective date of this section.

(12) Except for good cause, a Qualifying Patient or his or her Primary caregiver may obtain an identification card from the Department to cultivate up to six flowering marijuana plants for the exclusive use of that Qualifying Patient. The card shall be valid for twelve months from its date of issuance and shall be renewable with the annual submittal of a new or updated physician's certification. The Department shall charge an annual fee for the card of one hundred dollars, with such rate to be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency.

(13) The Department may set a limit on the amount of marijuana that may be purchased by or on behalf of a single Qualifying Patient in a thirty day period, provided that limit is not less than four ounces of dried, unprocessed marijuana, or its equivalent. Any such limit shall not apply to a Qualifying Patient with written certification from two independent physicians that there are compelling reasons why the Qualifying Patient needs a greater amount than the limit established by the Department.

(14) The Department may set a limit on the amount of marijuana that may be possessed by or on behalf of each qualifying patient, provided that limit is not less than a sixty day supply of dried, unprocessed marijuana, or its equivalent. A Primary caregiver may possess a separate legal limit for each Qualifying Patient under their care and a separate legal limit for themselves if they are a Qualifying Patient. Qualifying Patients cultivating marijuana for medical use may possess up to a ninety day supply, so long as the supply remains on property under their control. Any such limit shall not apply to a Qualifying Patient with written certification from two independent physicians that there are compelling reasons for additional amounts. Possession of between the legal limit and up to twice the legal limit shall subject the possessor to Department sanctions, including an administrative penalty and loss of their patient identification card for up to a year. Purposefully possessing amounts in excess of twice the legal limit shall be punishable by imprisonment of up to one year and a fine of up to two thousand dollars.

(15) The Department may restrict the aggregate number of licenses granted for Medical Marijuana Cultivation Facilities, provided, however, that the number may not be limited to fewer than one license per every one hundred thousand inhabitants, or any portion thereof, of the state of Missouri, according to the most recent census of the United States. A decrease in the number of inhabitants in the state of Missouri shall have no impact.

(16) The Department may restrict the aggregate number of licenses granted for Marijuana-Infused Products Manufacturing Facilities, provided, however, that the number may not be limited to fewer than one license per every seventy thousand inhabitants, or any portion thereof, of the state of Missouri, according to the most

recent census of the United States. A decrease in the number of inhabitants in the state of Missouri shall have no impact.

(17) The Department may restrict the aggregate number of licenses granted for Medical Marijuana Dispensary Facilities, provided, however, that the number may not be limited to fewer than twenty-four licenses in each United States Congressional district in the state of Missouri pursuant to the map of each of the eight congressional districts as drawn and effective on the effective date of this section. Future changes to the boundaries of or the number of congressional districts shall have no impact.

(18) The Department shall begin accepting license and certification applications for Medical Marijuana Dispensary Facilities, Medical Marijuana Testing Facilities, Medical Marijuana Cultivation Facilities, Medical Marijuana-Infused Products Manufacturing Facilities, seed-to-sale tracking systems, and for transportation of marijuana no later than two hundred forty days after the effective date of this section. Applications for licenses and certifications under this section shall be approved or denied by the Department no later than one hundred fifty days after their submission. If the Department fails to carry out its non-discretionary duty to approve or deny an application within one hundred fifty days of submission, an applicant may immediately seek a court order compelling the Department to approve or deny the application.

(19) Qualifying Patients under this section shall obtain and annually renew an identification card or cards from the Department. The Department shall charge a fee of twenty-five dollars per year per card with such fee to be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor or its successor agency. Upon receiving an application for a Qualifying Patient identification card or Qualifying Patient cultivation identification card, the Department shall, within thirty days, either issue the card or provide a written explanation for its denial. If the Department fails to deny and fails to issue a card to an eligible Qualifying Patient within thirty days, then their physician certification shall serve as their Qualifying Patient identification card or Qualifying Patient cultivation identification card for up to one year from the date of physician certification. All initial applications for or renewals of a Qualifying Patient identification card or Qualifying Patient cultivation identification card shall be accompanied by a physician certification that is less than thirty days old.

(20) Primary caregivers under this section shall obtain and annually renew an identification card from the Department. The Department shall charge a fee of twenty-five dollars per year, with such fee to be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. Upon receiving an application for a Primary caregiver identification card, the Department shall, within thirty days, either issue the card or provide a written explanation for its denial.

(21) All marijuana for medical use sold in Missouri shall be cultivated in a licensed Medical Marijuana Cultivation Facility located in Missouri.

(22) All marijuana-infused products for medical use sold in the state of Missouri shall be manufactured in a Medical Marijuana-Infused Products Manufacturing Facility.

(23) The denial of a license, license renewal, or identification card by the Department shall be appealable to the Administrative Hearing Commission, or its successor entity. Following the exhaustion of administrative review, denial of a license, license renewal, or identification card by the Department shall be subject to judicial review as provided by law.

(24) No elected official shall interfere directly or indirectly with the Department's obligations and activities under this section.

(25) The Department shall not have the authority to apply or enforce any rule or regulation that would impose an undue burden on any one or more licensees or

certificate holders, any Qualifying Patients, or act to undermine the purposes of this section.

4. **Taxation and Reporting**

(1) A tax is levied upon the retail sale of marijuana for medical use sold at Medical Marijuana Dispensary Facilities within the state. The tax shall be at a rate of four percent of the retail price. The tax shall be collected by each licensed Medical Marijuana Dispensary Facility and paid to the Department of Revenue. After retaining no more than five percent for its actual collection costs, amounts generated by the tax levied in this section shall be deposited by the Department of Revenue into the Missouri Veterans' Health and Care Fund. Licensed entities making retail sales within the state shall be allowed approved credit for returns provided the tax was paid on the returned item and the purchaser was given the refund or credit.

(2) There is hereby created in the state treasury the "Missouri Veterans' Health and Care Fund," which shall consist of taxes and fees collected under this section. The State Treasurer shall be custodian of the fund, and he or she shall invest monies in the fund in the same manner as other funds are invested. Any interest and monies earned on such investments shall be credited to the fund. Notwithstanding any other provision of law, any monies remaining in the fund at the end of a biennium shall not revert to the credit of the general revenue fund. The Commissioner of Administration is authorized to make cash operating transfers to the fund for purposes of meeting the cash requirements of the Department in advance of it receiving annual application, licensing, and tax revenue, with any such transfers to be repaid as provided by law. The fund shall be a dedicated fund and shall stand appropriated without further legislative action as follows:

(a) First, to the Department, an amount necessary for the Department to carry out this section, including repayment of any cash operating transfers, payments made through contract or agreement with other state and public agencies necessary to carry out this section, and a reserve fund to maintain a reasonable working cash balance for the purpose of carrying out this section;

(b) Next, the remainder of such funds shall be transferred to the Missouri Veterans Commission for health and care services for military veterans, including the following purposes: operations, maintenance and capital improvements of the Missouri Veterans Homes, the Missouri Service Officer's Program, and other services for veterans approved by the Commission, including, but not limited to, health care services, mental health services, drug rehabilitation services, housing assistance, job training, tuition assistance, and housing assistance to prevent homelessness. The Missouri Veterans Commission shall contract with other public agencies for the delivery of services beyond its expertise.

(c) All monies from the taxes authorized under this subsection shall provide additional dedicated funding for the purposes enumerated above and shall not replace existing dedicated funding.

(3) For all retail sales of marijuana for medical use, a record shall be kept by the seller which identifies, by secure and encrypted patient number issued by the seller to the qualifying patient involved in the sale, all amounts and types of marijuana involved in the sale and the total amount of money involved in the sale, including itemizations, taxes collected and grand total sale amounts. All such records shall be kept on the premises in a readily available format and be made available for review by the Department and the Department of Revenue upon request. Such records shall be retained for five years from the date of the sale.

(4) The tax levied pursuant to this subsection is separate from, and in addition to, any general state and local sales and use taxes that apply to retail sales, which shall continue to be collected and distributed as provided by general law.

(5) Except as authorized in this subsection, no additional taxes shall be imposed on the sale of marijuana for medical use.

(6) The fees and taxes provided for in this Article XVI, Section 1 shall be fully enforceable notwithstanding any other provision in this Constitution purportedly prohibiting or restricting the taxes and fees provided for herein.

(7) The unexpended balance existing in the fund shall be exempt from the provisions of section 33.080 relating to the transfer of unexpended balances to the general revenue fund.

5. **Additional Patient, Physician, Caregiver and Provider Protections**

(1) Except as provided in this section, the possession of marijuana in quantities less than the limits of this section, or established by the Department, and transportation of marijuana from a Medical Marijuana Dispensary Facility to the Qualifying Patient's residence shall not subject the possessor to arrest, criminal or civil liability, or sanctions under Missouri law, provided that the possessor produces on demand to the appropriate authority a valid Qualifying Patient identification card; a valid Qualifying Patient cultivation identification card; a valid physician certification while making application for an identification card; or a valid Primary caregiver identification card. Production of the respective equivalent identification card or authorization issued by another state or political subdivision of another state shall also meet the requirements of this subdivision.

(2) No patient shall be denied access to or priority for an organ transplant because they hold a Qualifying Patient identification card or use marijuana for medical use.

(3) A physician shall not be subject to criminal or civil liability or sanctions under Missouri law or discipline by the Missouri State Board of Registration for the Healing Arts, or its successor agency, for owning, operating, investing in, being employed by, or contracting with any entity licensed or certified pursuant to this section or issuing a physician certification to a patient diagnosed with a qualifying medical condition in a manner consistent with this section and legal standards of professional conduct.

(4) A health care provider shall not be subject to civil or criminal prosecution under Missouri law, denial of any right or privilege, civil or administrative penalty or sanction, or disciplinary action by any accreditation or licensing board or commission for owning, operating, investing in, being employed by, or contracting with any entity licensed or certified pursuant to this section or providing health care services that involve the medical use of marijuana consistent with this section and legal standards of professional conduct.

(5) A Medical Marijuana Testing Facility shall not be subject to civil or criminal prosecution under Missouri law, denial of any right or privilege, civil or administrative penalty or sanction, or disciplinary action by any accreditation or licensing board or commission for providing laboratory testing services that relate to the medical use of marijuana consistent with this section and otherwise meeting legal standards of professional conduct.

(6) A health care provider shall not be subject to mandatory reporting requirements for the medical use of marijuana by non-emancipated Qualifying Patients under eighteen years of age in a manner consistent with this section and with consent of a parent or guardian.

(7) A Primary caregiver shall not be subject to criminal or civil liability or sanctions under Missouri law for purchasing, transporting, or administering marijuana for medical use to a qualifying patient or participating in the patient cultivation of up to six flowering marijuana plants per patient in a manner consistent with this section and generally established legal standards of personal or professional conduct.

(8) An attorney shall not be subject to disciplinary action by the state bar association or other professional licensing body for owning, operating, investing in, being employed by, contracting with, or providing legal assistance to prospective or licensed Medical Marijuana Testing Facilities, Medical Marijuana Cultivation Facilities, Medical Marijuana Dispensary Facilities, Medical Marijuana-Infused Products Manufacturing Facilities, Qualifying Patients, Primary caregivers, physicians, health care providers or others related to activity that is no longer subject to criminal penalties under state law pursuant to this section.

(9) Actions and conduct by Qualifying Patients, Primary Caregivers, Medical Marijuana Testing Facilities, Medical Marijuana Cultivation Facilities, Medical Marijuana-Infused Products Manufacturing Facilities, or Medical Marijuana Dispensary Facilities licensed or registered with the Department, or their employees or agents, as permitted by this section and in compliance with Department regulations and other standards of legal conduct, shall not be subject to criminal or civil liability or sanctions under Missouri law, except as provided for by this section.

(10) Nothing in this section shall provide immunity for negligence, either common law or statutorily created, nor criminal immunities for operating a vehicle, aircraft, dangerous device, or navigating a boat under the influence of marijuana.

(11) It is the public policy of the state of Missouri that contracts related to marijuana for medical use that are entered into by Qualifying Patients, Primary Caregivers, Medical Marijuana Testing Facilities, Medical Marijuana Cultivation Facilities, Medical Marijuana-Infused Products Manufacturing Facilities, or Medical Marijuana Dispensary Facilities and those who allow property to be used by those entities, should be enforceable. It is the public policy of the state of Missouri that no contract entered into by Qualifying Patients, Primary Caregivers, Medical Marijuana Testing Facilities, Medical Marijuana Cultivation Facilities, Medical Marijuana-Infused Products Manufacturing Facilities, or Medical Marijuana Dispensary Facilities, or by a person who allows property to be used for activities that are exempt from state criminal penalties by this section, shall be unenforceable on the basis that activities related to medical marijuana may be prohibited by federal law.

6. **Legislation**

Nothing in this section shall limit the General Assembly from enacting laws consistent with this section, or otherwise effectuating the patient rights of this section. The legislature shall not enact laws that hinder the right of Qualifying Patients to access marijuana for medical use as granted by this section.

7. **Additional Provisions**

(1) Nothing in this section permits a person to:

(a) Consume marijuana for medical use in a jail or correctional facility;

(b) Undertake any task under the influence of marijuana when doing so would constitute negligence or professional malpractice; or

(c) Operate, navigate, or be in actual physical control of any dangerous device or motor vehicle, aircraft or motorboat while under the influence of marijuana; or

(d) Bring a claim against any employer, former employer, or prospective employer for wrongful discharge, discrimination, or any similar cause of action or remedy, based on the employer, former employer, or prospective employer prohibiting the employee, former employee, or prospective employee from being under the influence of marijuana while at work or disciplining the employee or former employee, up to and including termination from employment, for working or attempting to work while under the influence of marijuana.

(2) No Medical Marijuana Cultivation Facility, Medical Marijuana Testing Facility, Medical Marijuana Dispensary Facility, or Medical Marijuana-Infused Products Manufacturing Facility, or entity with a transportation certification shall be owned, in whole or in part, or have as an officer, director, board member, manager, or employee, any individual with a disqualifying felony offense. A "disqualifying felony offense" is a violation of, and conviction or guilty plea to, state or federal law that is, or would have been, a felony under Missouri law, regardless of the sentence imposed, unless the Department determines that:

(a) The person's conviction was for the medical use of marijuana or assisting in the medical use of marijuana; or

(b) The person's conviction was for a non-violent crime for which he or she was not incarcerated and that is more than five years old; or

(c) More than five years have passed since the person was released from parole or probation, and he or she has not been convicted of any subsequent criminal offenses.

The Department may consult with and rely on the records, advice and recommendations of the Attorney General and the Department of Public Safety, or their successor entities, in applying this subdivision.

(3) All Medical Marijuana Cultivation Facility, Medical Marijuana Dispensary Facility, and Medical Marijuana-Infused Products Manufacturing Facility licenses, entities with Medical Marijuana Testing Facility certifications, and entities with transportation certifications shall be held by entities that are majority owned by natural persons who have been citizens of the state of Missouri for at least one year prior to the application for such license or certification. Notwithstanding the foregoing, entities outside the state of Missouri may own a minority stake in such entities.

(4) No Medical Marijuana Cultivation Facility, Medical Marijuana Dispensary Facility, or Medical Marijuana-Infused Products Manufacturing Facility shall manufacture, package or label marijuana or marijuana-infused products in a false or misleading manner. No person shall sell any product in a manner designed to cause confusion between a marijuana or marijuana-infused product and any product not containing marijuana. A violation of this subdivision shall be punishable by an appropriate and proportional Department sanction, up to and including loss of license.

(5) All edible marijuana-infused products shall be sold in individual, child-resistant containers that are labeled with dosage amounts, instructions for use, and estimated length of effectiveness. All marijuana and marijuana-infused products shall be sold in containers clearly and conspicuously labeled, in a font size at least as large as the largest other font size used on the package, as containing "Marijuana," or a "Marijuana-Infused Product." Violation of this prohibition shall subject the violator to Department sanctions, including an administrative penalty.

(6) No individual shall serve as the Primary caregiver for more than three Qualifying Patients.

(7) No Qualifying Patient shall consume marijuana for medical use in a public place, unless provided by law. Violation of this prohibition shall subject the violator to sanctions as provided by general law.

(8) No person shall extract resins from marijuana using dangerous materials or combustible gases without a Medical Marijuana-Infused Products Manufacturing Facility license. Violation of this prohibition shall subject the violator to Department sanctions, including an administrative penalty and, if applicable, loss of their identification card, certificate, or license for up to one year.

(9) All Qualifying Patient cultivation shall take place in an enclosed, locked facility that is equipped with security devices that permit access only by the Qualifying Patient or by such patient's Primary caregiver. Two Qualifying Patients, who both hold valid Qualifying Patient cultivation identification cards, may share one enclosed, locked facility. No more than twelve Qualifying Patient or Primary caregiver cultivated flowering marijuana plants may be cultivated in a single, enclosed locked facility, except when a Primary caregiver also holds a Qualifying Patient cultivation identification card, in which case no more than eighteen flowering marijuana plants may be cultivated in a single, enclosed, locked facility.

(10) No Medical Marijuana Cultivation Facility, Medical Marijuana Dispensary Facility, Medical Marijuana-Infused Products Manufacturing Facility, Medical Marijuana Testing Facility, or entity with a transportation certification shall assign, sell, give, lease, sublicense, or otherwise transfer its license or certificate to any other entity without the express consent of the Department, not to be unreasonably withheld.

(11) Unless allowed by the local government, no new Medical Marijuana Cultivation Facility, Medical Marijuana Testing Facility, Medical Marijuana Dispensary Facility, or Medical Marijuana-Infused Products Manufacturing Facility shall be initially sited within one thousand feet of any then-existing elementary or secondary school, child day-care center, or church. No local government shall prohibit Medical Marijuana

Cultivation Facilities, Medical Marijuana Testing Facilities, Medical Marijuana-Infused Products Manufacturing Facilities, or Medical Marijuana Dispensary Facilities, or entities with a transportation certification either expressly or through the enactment of ordinances or regulations that make their operation unduly burdensome in the jurisdiction. However, local governments may enact ordinances or regulations not in conflict with this section, or with regulations enacted pursuant to this section, governing the time, place, and manner of operation of such facilities in the locality. A local government may establish civil penalties for violation of an ordinance or regulations governing the time, place, and manner of operation of a Medical Marijuana Cultivation Facility, Medical Marijuana Testing Facility, Medical Marijuana-Infused Products Manufacturing Facility, Medical Marijuana Dispensary Facility, or entity holding a transportation certification that may operate in such locality.

(12) Unless superseded by federal law or an amendment to this Constitution, a physician shall not certify a qualifying condition for a patient by any means other than providing a physician certification for the patient, whether handwritten, electronic, or in another commonly used format. A Qualifying Patient must obtain a new physician certification at least annually.

(13) A physician shall not issue a certification for the medical use of marijuana for a non-emancipated Qualifying Patient under the age of eighteen without the written consent of the Qualifying Patient's parent or legal guardian. The Department shall not issue a Qualifying Patient identification card on behalf of a non-emancipated Qualifying Patient under the age of eighteen without the written consent of the Qualifying Patient's parent or legal guardian. Such card shall be issued to one of the parents or guardians and not directly to the patient. Only a parent or guardian may serve as a Primary caregiver for a non-emancipated Qualifying Patient under the age of eighteen. Only the Qualifying Patient's parent or guardian shall purchase or possess medical marijuana for a non-emancipated Qualifying Patient under the age of eighteen. A parent or guardian shall supervise the administration of medical marijuana to a non-emancipated Qualifying Patient under the age of eighteen

(14) Nothing in this section shall be construed as mandating health insurance coverage of medical marijuana for Qualifying Patient use.

(15) Real and personal property used in the cultivation, manufacture, transport, testing, distribution, sale, and administration of marijuana for medical use or for activities otherwise in compliance with this section shall not be subject to asset forfeiture solely because of that use.

8. **Severability**

The provisions of this section are severable, and if any clause, sentence, paragraph or section of this measure, or an application thereof, is adjudged invalid by any court of competent jurisdiction, the other provisions shall continue to be in effect to the fullest extent possible.

9. **Effective Date**

The provisions of this section shall become effective on December 6, 2018.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-053)

Subject

Initiative petition from Sheila Dundon regarding a proposed constitutional amendment to Article XVI of the Constitution of Missouri. (Received November 29, 2016)

Date

December 19, 2016

Description

This proposal would amend Article XVI of the Constitution of Missouri.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** and the **Lieutenant Governor's Office**.

Joy Sweeney, Executive Director, Council for Drug Free Youth provided information for this initiative petition to the State Auditor's office.

Assumptions

Officials from the **Attorney General's office** indicated this proposal authorizes the Department of Health and Senior Services to issue new licenses for the cultivation, manufacture, dispensing, sale, testing, tracking, and transportation of marijuana for medical use. It requires their department to promulgate rules necessary for the implementation and enforcement of the proposal, develop forms and issue standards in addition to licensure and certification of facilities. The proposal requires a minimum of 60 licenses for cultivation facilities (one per every 100,000 inhabitants), a minimum of 85 licenses for manufacturing facilities (one per 70,000 in inhabitants), and a minimum of 192 medical marijuana dispensary facilities (24 per each Congressional district). Licensure and certification is subject to AHC appeal and judicial review. AGO assumes it would need 2 AAG Is to provide legal representation regarding issuance, denial, and discipline of licenses and promulgation of and challenges to administrative rules. If adopted this proposal would increase AGO operating expenses of $139,474 for FY2018; $150,610 for FY2019; and $152,155 for FY2020.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Higher Education** indicated this initiative petition would not have a fiscal impact on their department.

Officials from the **Department of Health and Senior Services** indicated the costs will be $0 for fiscal year 2018, $3,062,147 for fiscal year 2019, and $7,035,064 for fiscal year 2020. The revenues will be $0 for fiscal year 2018, $1,134,000 for fiscal year 2019, and $12,124,800 for fiscal year 2020.

This proposal is not an entire duplication, however; Section 192.945, RSMo allows their department to issue a hemp extract registration card for persons suffering from intractable epilepsy. The hemp extract registration card allows for the legal possession and use of cannabidiol (CBD) oil. This proposal allows for the legal use of marijuana for persons who are issued a registration card due to a debilitating medical condition. Under this proposal, patients with intractable epilepsy could also qualify to receive a registration card for medical marijuana use.

Rental space for 97 FTE located in Jefferson City: 97.00 FTE x 230 sq ft/FTE x $21.00/sq. ft. = $468,510.

The proposed language would legalize the use of marijuana for medicinal purposes. There could be an unknown impact on small businesses that serve as cultivators, manufacturers, dispensary facilities, testing and/or transportation centers.

The proposed constitutional amendment requires their department to issue annual registrations for patients and their designated caregivers, patient and caregiver cultivators, medical marijuana cultivation facilities, medical marijuana dispensary facilities, and medical marijuana-infused products manufacturing facilities. In addition, the amendment

requires their department to certify seed-to-sale tracking systems, transportation entities, and testing facilities.

The proposal allows for the following registration/license fees to be collected:

	Initial Application and Annual Renewal
Qualifying Patient ID Card	$25.00
Primary Caregiver ID Card	$25.00
Patient or Caregiver Cultivation ID Card	$100.00

	Within 3 years of Effective Date of Proposal (December 6, 2018 – December 6, 2021)		After 3 years of Effective Date (after December 6, 2021)	
	Initial Application or Renewal Application Non-Refundable License Fee (3 yr. license)	Annual Licensing Fee	Initial Application or Renewal Application Non-Refundable License Fee (3 yr. license)	Annual Licensing Fee
Medical Marijuana Cultivation Facility	$10,000	$25,000	$5,000	$25,000
Medical Marijuana Dispensary Facility	$6,000	$10,000	$3,000	$10,000
Medical Marijuana-Infused Products Manufacturing	$6,000	$10,000	$3,000	$10,000

	Certification Fee
Seed-to-Sale Tracking System	Up to $5,000
Medical Marijuana Testing Facility	Up to $5,000

The provisions of this section shall become effective on December 6, 2018. According to the proposed provisions of this section, they shall make available to the public all license application forms (cultivation, dispensary, manufacturing and testing facilities) and the application forms for qualifying patients, caregivers, and qualifying patient cultivation identification cards within 180 days of the effective date of the section (June 6, 2019). They shall accept all applications for patients, caregivers and cultivators no later than 210 days following the effective date of this section (July 6, 2019). They shall accept applications for dispensary facilities, testing facilities, cultivation facilities, manufacturing facilities, seed-to-sale tracking systems, and transportation entities no later than 240 days after the effective date of this section (August 6, 2019). The provisions of this section also allow any applicant for a license to pre-file their application fee with them beginning 30 days after the effective date of this section (January 6, 2019). For purposes of this fiscal note, it is assumed that the first fees for license applications (pre-file) would be accepted January 6, 2019 (FY 2019). The first fees for patient, caregivers, and cultivators are assumed to be collected beginning July 1, 2019 (FY 2020). The first certification fees (seed-to-sale, testing, and transportation) are assumed to be collected beginning July 1, 2019 (FY 2020) as well.

The estimations for the number of each type of registration, license and certification issued each year are detailed under the headings Division of Community and Public Health (DCPH) and Applications for Patient and Caregiver Identification below.. The total estimate of collected fees equals $1,134,000 for FY 2019 and $12,124,800 for FY 2020.

Section 1.3(2)(e) allows them to issue rules creating a range of administrative penalties related to implementation and enforcement of rules that ensure the right to, availability, and safe use of marijuana for medical use. These administrative penalties could include penalty fees but the fee amounts and frequency of penalties issued is unknown at this time.

Section 1.4(1) of the proposed amendment mandates each licensed Medical Marijuana Dispensary facility to collect a four percent tax on the retail sale of all medical marijuana products sold to be collected by the Department of Revenue (DOR). The amount of tax that will be collected is unknown and is referred to the DOR for these estimations.

The DOR may retain up to five percent of the annual taxes collected. The rest of the tax collected is to be deposited by the DOR into the Missouri Veterans' Health and Care Fund. This fund shall consist of all fees and taxes collected by this proposed section.

Division of Community and Public Health (DCPH)

Section 1.3(1) authorizes them to grant or refuse licenses and certifications for the cultivation, manufacture, dispensing, sale, testing, tracking, and transportation of marijuana for medical use as provided by the provisions of Section 1. This section also authorizes them to suspend, fine, restrict, or revoke such licenses and certifications upon any violation of this section or a rule promulgated by them pursuant to this section. They

shall develop such rules, forms, licenses, identification cards, and applications as necessary to implement provisions of this section. They are also required to certify at least two commercially available software products that licensees must use for seed-to-sale tracking standards and issue standards for the certification of secure transportation of marijuana an marijuana-infused products. They are to prepare annually a publicly available report accounting to the Governor for the efficient discharge of all responsibilities assigned to them by this section. They must also establish a system to numerically score applicants for licenses and certificates when the number of applicants are more than the minimum required.

Section 1.3(2) permits them to issue any rules necessary to ensure the right to, availability and safe use of marijuana for medical use by qualifying patients. This includes addressing: requirements for inspections, investigations, searches, seizures, and such additional enforcement activities that may become necessary; the creation of a range of administrative penalties; development of individual identification cards for owner, officers, managers, contractors, employees, and other support staff of entities licensed pursuant to this section; security requirements for any premises licensed; regulation of the storage and transportation of marijuana for medical use; sanitary requirements for the preparation of medical marijuana-infused products; labeling and packaging standards; and records to be kept by the licensees, state licensing procedures for initial licenses, renewals and reinstatements.

Section 1.3(3) requires them to issue rules regarding independent testing and certification for medical marijuana licensees to ensure products that are sold for human consumption are correctly labeled and do not contain contaminants that are injurious to health.

Section 1.3(4) requires them to issue rules to provide for the standards and certification of Medical Marijuana Testing Facilities. They shall certify, if possible, at least two Medical Marijuana Testing Facility entities.

Section 1.3(6) requires them to make available to the public license application forms and (for all types of licensees including testing facilities) and instructions within 180 days of the effective date of this section.

Section 1.3(7) requires them to make available to the public application forms and accompanying instructions for qualifying patients, qualifying patient or caregiver cultivation, and primary caregiver identification cards within 180 days of the effective date of this section. They are also required to accept these applications within 210 days of the effective date of this section.

Section 1.3(18) requires them to begin accepting license and certification application forms and instructions (for dispensary facilities, testing facilities, cultivation facilities, manufacturing facilities, seed-to-sale tracking systems, and transportation entities) no later than 240 days from the effective date and shall either approve or deny within 150 days after submission.

Section 1.3(19) requires them to process a qualifying patient identification card within 30 days of receipt of the application.

Section 1.3(20) requires them to process a primary caregiver identification card within 30 days of receipt of the application.

Information Technology Services Division (ITSD)

Support of an IT vendor to build a data system to support the administration and reporting requirements indicated in Section 1 of Article XVI (Right to Access Medical Marijuana). The system would be used by the department to process applications to include issuance of licenses and identification cards.

Division of Administration

Specific program impact for their department is in the Division of Community and Public Health (DCPH). Each application and license transaction will have an associated fee transaction, which impacts the Division of Administration (DA).

One full-time attorney would be required to assist in drafting emergency and proposed regulations and forms; perform legal research and provide day-to-day legal counsel to the program; and, represent their department in appeals of licensure and identification card denials.

The proposed amendment requires them to adjust (increase or decrease) registration and license fees according to the Consumer Price Index as published by the U.S. Department of Labor. The change in fees collected (increase or decrease) due to this provision is unable to be determined at this time.

Also, the initial application and renewal licensing fees for a cultivation facility, manufacturing facility, and dispensing facility decrease in half after three years from the effective date of this proposal.

Division of Community and Public Health (DCPH)

Applications for Patient and Caregiver Identification

Section 1 requires them to issue registration cards for qualified patients and their caregivers. A study by the nonprofit entity ProCon organization, updated March 2016, published the rates of patient registration cards issued for each state with a medical marijuana program (http://medicalmarijuana.procon.org/view.resource.php?resourceID=005889). This study found that Oregon was issuing qualified patient cards at a ratio of 19.2 per 1,000 state residents. For purposes of this fiscal note, the State of Oregon's program will be benchmarked in regard to the number of patient and primary caregiver registrants. While the Oregon program was initiated in May 1999 and therefore has an established program,

the state of Missouri's chronic disease rates are generally higher and the qualifying medical conditions accepted under Missouri's proposal are broader than those of Oregon.

Calculation of applications:

- Patients: According to the 2015 U.S. Census Bureau information, Missouri's population is at 6,083,672. Applying the rate of 19.2 applications per 1,000 residents, Missouri would estimate issuing 116,807 patient registration cards annually ((6,083,672/1,000) x 19.2)).
- Caregivers: According to the October 1, 2016 data on Oregon's Medical Marijuana Program Website, the ratio of patient registration cards to caregiver cards is calculated at 2.29. Calculating this same ratio, Missouri would estimate issuing 51,007 caregiver cards annually (116,807/2.29).

The proposed effective date of the medical marijuana program is December 6, 2018. They are required to have the applications for the qualifying patient and caregiver identification cards available within 180 days of the effective date (June 6, 2019). Section 1.3(6) requires them to begin accepting applications for the qualifying patient and caregiver cards no later than 210 days from the effective date (July 6, 2019). For purposes of this fiscal note analysis, it is assumed that they will begin accepting applications July 1, 2019 (FY 2020). They will collect an application fee of $25 per card, per Section 1.3(19) and 1.3(20). It is assumed that the fees will be collected in the same fiscal year the applications are received. It is also assumed that ten percent of the initial applicants will submit a renewal application within the same fiscal year.

	FY 2018	FY 2019	FY 2020
Qualifying Patient Initial Applications	0	0	116,807
Qualifying Patient Renewal Applications	0	0	11,681
Caregiver Initial Applications	0	0	51,007
Caregiver Renewal Applications	0	0	5,101
Total Patient & Caregiver Identification Cards	0	0	184,596
Total Patient & Caregiver Application Fees	$0	$0	$4,614,900

Applications for Patient or Caregiver Cultivation Identification Cards

Section 1 requires them to issue identification cards for a qualifying patient or his or her primary caregiver for purposes of cultivating up to six flowering marijuana plants for the exclusive use of the qualifying patient. For purposes of this fiscal note, it is estimated that 10 percent of the qualifying patients will grow marijuana for themselves or it will be grown by their designated primary caregiver. Therefore, it is estimated that 11,681 (116,807 x .10) will be issued in FY 2020. They will collect an annual application fee of $100 per Section 1.3(12). It is also assumed that ten percent of the initial applicants will renew their application within the same fiscal year.

	FY 2018	FY 2019	FY 2020
Cultivation Initial Applications	0	0	11,681
Cultivation Renewal Applications	0	0	1,168
Total Cultivation Identification Cards	0	0	12,849
Total Cultivation Identification Fees	$0	$0	$1,284,900

Application and Licensing of Medical Marijuana Cultivation Facilities

Section 1 authorizes them to establish the application and licensing process of medical marijuana cultivation facilities. For purposes of this fiscal note analysis, it is estimated that 61 facilities will apply and become licensed to fully operate cultivation facilities by the end of FY 2020. This estimate is based on the assumption that they will limit the number of cultivation facilities licensed at the minimum required of one facility per 100,000 residents (6,083,672 Missouri residents/100,000 residents per facility = 61 facilities) as allowed per Section 1.3(15). They must accept applications within 210 days of the effective date of the proposal and therefore assumes that applications will be accepted beginning July 1, 2019 (FY 2020). However, section 1.3(11) allows any application for a license to pre-file their application fee with them beginning 30 days after the effective date (January 6, 2019). They estimates that half of the cultivation facilities that will be licensed in FY 2020 will pre-file their fee in FY 2019. The proposed amendment sets the initial application fee at $10,000 with an additional $25,000 fee for each year of the license for the facilities applying during this time period.

	FY 2018	FY 2019	FY 2020
Cultivation Facility Applications	0	0	61
Cultivation Facility Application Fees ($10,000)	$0	$300,000 (pre-file)	$310,000
Cultivation Facility Annual Licenses	0	0	61
Cultivation Facility Annual License Fees ($25,000)	$0	$0	$1,525,000
Total Cultivation App & License Fees	$0	$300,000	$1,835,000

Application and Licensing of Medical Marijuana Dispensing Facilities

Section 1 authorizes them to establish the application and licensing process of medical marijuana dispensing facilities. For purposes of this fiscal note analysis, it is estimated that 192 facilities will apply and become licensed to fully operate dispensing facilities by the end of FY 2020. This estimate is based on the assumption that they will limit the number of dispensing facilities licensed at the minimum required of twenty-four (24) licenses per each of the current eight U.S. Congressional Districts (24 facilities x 8 districts = 192 facilities) as allowed per Section 1.3(17). They must accept applications within 210 days of the effective date of the proposal and therefore assumes that applications will be accepted beginning July 1, 2019 (FY 2020). However, section 1.3(11) allows any application for a license to pre-file their application fee with them beginning 30 days after the effective date (January 6, 2019). They estimate that half of the dispensing facilities that will be licensed in FY 2020 will pre-file their fee in FY 2019. The proposed amendment sets the initial

application fee at $6,000 with an additional $10,000 fee for each year of the license for the facilities applying during this time period.

	FY 2018	FY 2019	FY 2020
Dispensing Facility Applications	0	0	192
Dispensing Facility Application Fees ($6,000)	$0	$576,000 (pre-file fees)	$576,000
Dispensing Facility Annual Licenses	0	0	192
Dispensing Facility Annual License Fees ($10,000)	$0	$0	$1,920,000
Total Dispensing App & License Fees	$0	$576,000	$2,496,000

Application and Licensing of Medical Marijuana-Infused Products Manufacturing Facilities

Section 1 authorizes them to establish the application and licensing process of medical marijuana-infused products manufacturing facilities. For purposes of this fiscal note analysis, it is estimated that 87 facilities will apply and become licensed to fully operate medical marijuana-infused products manufacturing facilities by the end of FY 2020. This estimate is based on the assumption that they will limit the number of manufacturing facilities licensed at the minimum required of one facility per 70,000 residents (6,083,672 Missouri residents/70,000 residents per facility = 87 facilities) as allowed per Section 1.3(16). They must accept applications within 210 days of the effective date of the proposal and therefore assumes that applications will be accepted beginning July 1, 2019 (FY 2020). However, section 1.3(11) allows any application for a license to pre-file their application fee with them beginning 30 days after the effective date (January 6, 2019). They estimate that half of the medical marijuana-infused products manufacturing facilities that will be licensed in FY 2020 will pre-file their fee in FY 2019. The proposed amendment sets the initial application fee at $6,000 with an additional $10,000 fee for each year of the license for the facilities applying during this time period.

	FY 2018	FY 2019	FY 2020
Manufacturing Facility Applications	0	0	87
Manufacturing Facility Application Fees ($6,000)	$0	$258,000	$264,000
Manufacturing Facility Annual Licenses	0	0	87
Manufacturing Facility Annual License Fees ($10,000)	$0	$0	$870,000
Total Manufacturing Application & License Fees	$0	$258,000	$1,134,000

Certification of Seed-to-Sale Tracking Systems, Transportation Entities, and Medical Marijuana Testing Facilities

Section 1.3.(1)(d) requires them to certify at least two commercially available systems that licensees may use as their seed-to-sale tracking system. For purposes of this fiscal note, it is estimated that they will issue certifications for two commercially available systems.

Section 1.3.(1)(e) requires them to certify entities which demonstrate compliance with transportation standards in order to transport marijuana and marijuana-infused products. For purposes of this fiscal note, it is estimated that all licensed medical marijuana cultivation facilities and marijuana-infused products manufacturing facilities will obtain certification to transport marijuana and marijuana-infused products. Therefore, it is estimated that they will issue 148 certifications for transportation (61 cultivation facilities + 87 manufacturing facilities = 148 total facilities). The certification process will occur simultaneous with the licensure of the facilities.

Section 1.3.(4) requires them to certify at least two facilities as Medical Marijuana Testing Facilities. It is estimated that only two facilities will be certified. The certification will occur in FY 2020.

Section 1.3.(1)(f) allows the department to charge a fee not to exceed $5,000 for any certification issued. It is assumed that they will charge a fee of $5,000 for each certification issued.

	FY 2018	FY 2019	FY 2020
Seed-to-Sale Tracking System Certifications	0	0	2
Transportation Entity Certifications	0	0	148
Medical Marijuana Testing Facility Certifications	0	0	2
Total Certifications	0	0	152
Total Certification Fees ($5,000 ea.)	$0	$0	$760,000

Total Revenue in Application, Licensing, and Certification Fees

	FY 2018	FY 2019	FY 2020
Patient & Caregiver Application Fees	$0	$0	$4,614,900
Patient or Caregiver Cultivation Fees	$0	$0	$1,284,900
Cultivation Facility Fees	$0	$300,000	$1,835,000
Dispensing Facility Fees	$0	$576,000	$2,496,000
Infused Products Manufacturing Fees	$0	$258,000	$1,134,000
Certification Fees	$0	$0	$760,000
Total Fees	**$0**	**$1,134,000**	**$12,124,800**

Program Operations: Staffing

Section 1 requires the establishment of a medical marijuana program through promulgation of rules and implementation of those rules for administration of patient and caregiver identification cards; patient or caregiver cultivation identification cards; licensing of medical marijuana cultivation facilities, dispensing facilities and infused products manufacturing facilities; and certification of seed-to-sale tracking systems, transportation entities, and medical marijuana testing facilities. This also includes the development of all program applications and forms, identification cards, and a computerized database system to allow for the electronic storage of and processing of data needed to issue identification

cards and licenses. As a result, DCPH anticipates the need to hire the following staff beginning on December 6, 2018 (FY 2019) to begin development of the program/system:

One Program Manager Broad Band 2 ($65,000) – will serve as Chief of the Medical Marijuana Bureau. Duties will include overall program management, including involvement in rule promulgation, development of forms, program policies and procedures, information system development, and initial program set-up. This position will also supervise the two Unit (Program) Coordinators, two Investigator III positions, a Health Program Representative III, and a Bureau Administrative Office Support Assistant.

Two Program Coordinators (A30, $50,112, Step H) – will serve as Unit Coordinators. One unit will be responsible for processing patient and caregiver applications, including patient or caregiver cultivation applications. The other unit will be responsible for the applications and licensing and/or certification of the medical marijuana cultivation facilities, dispensing facilities, infused-products manufacturing facilities; testing facilities, transportation entities, and seed-to-sale tracking systems. These positions will be involved in the initial program development with the Bureau Chief, hiring of staff, and development of training for staff. Once the program is operational, the Coordinators responsibilities extend to implementation and maintenance of the program, responsibility for meeting application decision deadlines, and ongoing management responsibilities.

One Health Program Representative III (A24, $39,708. Step G) – duties will include assistance in rule promulgation, program policies and procedures, forms development, information system development/troubleshooting and maintenance, and initial program set-up. This position will serve as the liaison between the Units and IT work on system maintenance and enhancements. This position will also certify the seed-to-sale tracking systems that are commercially available to use by the licensed facilities. This position will also be responsible for establishing materials to educate the public about the program and exhibiting at conferences or other venues to education physicians and the general public.

One Administrative Office Support Assistant (A15, $28,668, Step F) – duties will include providing administrative assistance to the Bureau Chief, Program Coordinators, Investigators, Inspectors, and HPR III positions. As allowed, this position will also assist in initial processing of patient and caregiver applications for registration cards.

The following staff will be hired to begin March 1, 2019. This hire date will allow for training and final program preparation to occur prior to the required release dates for the application forms for patients and caregivers, patient or caregiver cultivators, certifications, and facility licenses:

Two Investigator III positions (A25, $41,184, Step G) – these positions will investigate all instances/complaints of possible fraud or negligence on the behalf of a recommending physician, a registered patient and/or caregiver, a cultivator, or a medical marijuana facility. With a new program of this size and the legalization of something that remains illegal for the majority of the population, it is anticipated that they will receive a fair number of calls reporting instances of possible violations. While two is estimated for purposes of this fiscal

note, it may be necessary to add additional staff after the program is operational for some time. The additional costs remain unknown.

Two Grain Inspector IV positions (A23, $38,304, Step G) – these positions will complete the onsite inspections of the medical marijuana cultivation facilities to monitor compliance with the specific requirements outlined in the proposed amendment and rules that need to be met for initial and continued licensure of a facility. These positions will also be responsible for certifying the cultivation facilities as transportation entities. This specialty position was chosen because the most technical piece involves the process of testing plants for molds, mildew, and pesticides and making sure the facilities are dealing with these issues in a proper way.

One Grain Inspector Compliance Coordinator (A28, $46,056, Step G) – this position coordinates and supervises the work of the Grain Inspector positions; ensuring inspections are completed consistently and timely. This position will also provide technical assistance to the inspectors and make final action decisions/recommendations for problem inspections.

Four Environmental Public Health Specialist IV positions (A27, $44,352, Step G) – these positions will complete the onsite inspections of the medical marijuana dispensing and the medical-marijuana infused-products manufacturing facilities to monitor compliance with the specific requirements outlined in the proposed amendment and rules that need to be met for initial and continued licensure of a facility. These positions will also be responsible for certifying the manufacturing facilities as transportation entities. This specialty position was chosen because the most technical piece involves ensuring sanitation requirements are met and the infused-products are labeled and packaged correctly.

One Environmental Public Health Specialist V position (A28, $46,056, Step G) – this position coordinates and supervises the work of the EPHS IV positions; ensuring inspections are completed consistently and timely. This position also provides technical assistance to the environmental specialists and makes final action decisions/recommendations for problem inspections.

One Health Facilities Consultant (A29, $48,852, Step H) – this position will complete the inspections of the Medical Marijuana Testing Facilities in order to monitor compliance with the specific requirements needed to obtain and maintain certification. This position will also provide technical assistance to the testing facilities to assist with obtaining and maintaining the certification. This specialty position was chosen as this classification currently completes the inspections of other medical laboratories certified by the state.

49 Senior Office Support Assistant (SOSA) positions (A12, $26,340, Step F) – duties will include processing of paper applications to include opening and date stamping of mail, entry of application information into the electronic registry, initial verification of applicant and physician identification, initial application review to include determination of application approval or denial (including incomplete status), preparation of patient and caregiver identification cards, preparation of patient/caregiver cultivation identification cards, initial processing of medical marijuana facility applications, preparation of identification cards for

all owners and employees of the medical marijuana facility licensees, processing revoked cards, and answering of phones and assisting telephone callers.

24 Health Program Representative II (HPR II) positions (A21, $35,640, Step G) – duties will include supervision of the SOSA positions and quality assurance checks of the application entry and initial verification completed by the SOSAs. This position will have responsibility for final approval of application incomplete notices, rejects, revocations, and card issuances. This position will ensure application process deadlines as mandated by proposed amendment are met. This position will also verify all registrations of owners and employees associated with the licensed medical marijuana facilities, including coordination with the Inspectors and Environmental Public Health Specialists for final issuance of facility licenses.

For fiscal note purposes they calculated 45 minutes per patient and caregiver application and 45 minutes per patient or caregiver cultivation application.

197,445 (184,596 patient and caregiver apps + 12,849 cultivation apps) X .75/hour / 2,080 hours per year per staff = 71.2 staff (round to 71 staff).

They calculated 14 hours for the processing of a dispensing facility license application and 15 hours for the processing of the cultivation and manufacturing facility license (additional hour for processing transportation certification application).

(192 dispensing facilities x 14 hours) + (61 cultivation facilities x 15 hours) + (87 infused products manufacturing facilities x 15 hours) = 4,908 total hours/divided by 2,080 hrs/year per staff = 2.4 staff (round to 2 staff). This is a total of 73 processing staff (SOSA and HPR II positions).

Printing Costs

They will print individual identification cards for the qualified patient, caregiver, patient or caregiver cultivation identification card, and identification cards for each owner, board member, employee of the licensed facilities. The cards are encoded with a magnetic stripe for security and linkage to the IT system for dispensing purposes. DCPH will purchase a card delivery system with the ability to print the card with the magnetic stripe, attach the card to a personalized letter, and secure in an envelope ready for mailing. The initial cost of the card delivery system is estimated at $277,000. In addition there will be an annual equipment preventative maintenance fee of $34,000. The average supply cost to print each card is $0.59/card.

They are estimating the number of identification cards to be printed each year per facility licensed to be 25 for a cultivation facility, 10 for a dispensing facility, and 25 for a manufacturing facility. (61 cultivation facilities x 25 = 1,525 cards, 192 dispensing facilities x 10 = 1,920 cards, 87 manufacturing facilities x 25 = 2,175 cards) License certificates will be printed for each facility on special certificate paper (heat sensitive ink background) provided by state printing at a cost of approximately $200 per 1,000 pieces of

certificate paper. The license certificates and identification cards for facilities will not be produced until FY 2020 when the facility becomes licensed.

DCPH will print 100,000 brochures each year the program is operational at a cost of $0.06 per brochure. This brochure will provide the public with information about the medical cannabis program and assistance in completing a valid registration.

FY 2019

- 100,000 brochures ($0.06 per brochure) = $6,000

FY 2020

- 184,596 patient and caregiver cards + 12,849 cultivation cards + 1,525 identification cards for cultivation facilities, 1,920 identification cards for dispensing facilities + 2,175 for manufacturing facilities = 203,065 cards x $0.59 per card/print supplies = $119,808
- 492 Certificates for facility licenses and certifications ($200/1,000) = $200
- 100,000 brochures ($0.06 per brochure) = $6,000

Mailing Costs

Each qualifying patient and primary caregiver will receive his/her card in the mail. If the patient or caregiver applied for a cultivation identification card, that card will be mailed separately. Each licensed facility will be mailed a copy of their license and identification cards. It is estimated that 10 percent of the registered participants, caregivers and patient/caregiver cultivators will submit a change request to their application requiring a change notification receipt by mailing. It is projected that five percent of all applications will be incomplete and requires mailing of an incomplete notice. It is also projected that 25 percent of the printed brochures (25,000) along with paper applications will be mailed to the public upon request. The other printed brochures will be available for distribution at conferences and other public venues.

Projected mailings are as follows:

	FY 2018	FY 2019	FY 2020
Patient and Caregiver ID Cards	0	0	184,596
Cultivation ID Cards	0	0	12,849
Facility Certificates	0	0	492
Facility Identification Cards	0	0	5,620
Change Request Notifications	0	0	17,774
Incomplete Notifications	0	0	8,887
Brochures/app mailed	0	25,000	25,000
Total mailings	**0**	**25,000**	**255,218**

FY 2019

- 25,000 envelopes ($41 per 1,000) = 25 X $41 = $1,025
- Postage (25,000 x $0.39/postage rate) = $9,750

FY 2020

- 255,218 envelopes ($41 per 1,000) = 256 X $41 = $10,496
- Postage (255,218 x $0.39/postage rate) = $99,535

Criminal Records Check

Section 1.3.(2)(h) suggests that individual identification cards for owners, officers, managers, contractors, employees and other support staff of the licensed facilities shall include a fingerprint-based federal and state criminal record check in accordance with U.S. Public Law 92-544. Section 1.7(2) states no licensed facility shall have an owner, officer, manager, contractor, employee or other support staff with a disqualifying felony offense. They assumes that as part of the facility license application, the facilities would need to submit a current finger print based criminal record report as would be promulgated in rule. Therefore, they assume no cost for obtaining the fingerprint check.

Information Technology Services Division (ITSD)

Application Storage Costs

In order to manage the final storage of paper applications submitted, Content Manager for electronic scanning and storage will be utilized. The costs for Content Manager are estimated at $132 per month for the state data server costs, $234 for an annual license for each user who needs to view files and $828 for an annual license for each position with ability to scan/import documents. Content Manager services will not be acquired until FY 2020.

Information Systems Development

Estimating a 12 month project duration with a project team consisting of 4 IT Consultants. Applications will be received as paper submissions to the department. System will print licenses and identification cards for physical delivery to the applicant. The system will be hosted in the State Data Center (SDC) on existing virtual servers. Disk space has been estimated at 50 GB for Development and Test with 150 GB estimated for Production. While we have estimated for a system build it is possible COTS solutions are available at a similar cost. Estimated costs are detailed above in the ITSD-DHSS table.

Division of Administration

DHSS-DA assumes one Accounting Clerk can process 30,000 receipt transactions per year. An Accounting Generalist I/II would be needed to supervise for every five Account Clerks.

Accounting Clerk (A12, $26,340, Step F) duties would include:

- Open and sort mail;
- Process and enter receipts in the department computer system;
- Prepare bank deposits and cash receipts documents;
- Reconcile daily receipts;
- Distribute supporting documentation program.

Accounting Generalist I/II (A25, $41,184, Step G) duties would include:

- Supervise and review the work of Accounting Clerks who are processing the fees.

Each application and license would have a fee transaction.

FY2019	FY2020	Transaction
0	184,596	Patient & Caregiver Application
0	12,849	Patient & Caregiver Cultivation Application
30	92	Cultivation Facility Application
96	288	Dispensing Facility Application
43	131	Manufacturing Facility Application
0	152	Certifications
169	198,108	Total Number of Transactions
	6.00 FTE	Accounting Clerk
	1.00 FTE	Accounting Generalist I/II

Office of General Counsel

Legal Counsel ($50,000)

One full-time attorney would be needed to assist in drafting emergency and proposed regulations and forms; perform legal research and provide day-to-day legal counsel to the program; and represent the department in appeals of licensure and identification card denials.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated their department would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated a fiscal impact of $11,229 in fiscal year 2019, $35,262 in fiscal year 2020, $67,160 in fiscal year 2025 and thereafter.

Results of studies at this time show conflicting results on the criminal impacts of current medical marijuana laws. However, with the increased licensing and regulation there are also increased possibilities of secondary crimes through false physician recommendations, non-compliance in registration, illegal possession, vehicular infractions or injury, and theft. While many of these violations may carry only municipal or licensing level penalties, some would ultimately fall under felony charges.

Thus, the expected impact of IP 18-51 should bring about 2 new prison admissions and 3 new field admissions in the first year of enactment (FY19). The maximum impact should be expected by FY25 and will lead to an additional 3 offenders in prison and 18 offenders in the field.

In addition, this proposal would be impactful to their department in that we currently test our staff for marijuana use and discipline accordingly. If our staff were to live in a household, or visit another person, who is legally using medical marijuana they would then be exposed to second-hand smoke and would likely test positive themselves. There would be no way for us to determine which of our staff are innocently exposed from those who are abusing this substance illegally.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** indicated total fund costs for General Revenue will be $242,855 for fiscal year 2018, $124,921 for fiscal year 2019, and $126,460 for fiscal year 2020, which includes information technology (IT) related costs of $150,012 for fiscal year 2018, $30,752 for fiscal year 2019, and $31,521 for fiscal year 2020 for IT consultants.

This legislation increases total state revenue by an unknown amount from the sales tax collected on the sale of medical marijuana.

Section 4
The legislation levies a four percent tax on the retail sale of medical marijuana by Medical Marijuana Dispensary Facilities. Their department may retain up to five percent for the cost of collection. The petition creates the Missouri Veterans' Health and Care Fund. The Commissioner of Administration may make cash operating transfers to the fund to meet cash requirements in advance of receiving revenues. The tax levied by this section is separate and in addition to any general state and local sales tax that applies to retail sales. Because their department does not have enforcement responsibilities, it may make more sense for the taxes to be paid to the Department of Health and Senior Services and then sent to their department for deposit into the fund.

Administrative Impact:

Collections & Tax Assistance:
This section will see additional registrations, registration phone calls, business tax account update requests, and delinquent phone contacts from the additional businesses registering to collect sales tax on medical marijuana. Collections and Tax Assistance requires two (2) Revenue Processing Technicians I (Range 10, Step L) per 24,000 additional contacts to the registration section and 15,000 contacts annually on the delinquent tax line. Each technician requires CARES equipment.

Business Tax Processing:
Although the legislation bases the four percent tax on the retail selling price, it is separate from sales and use tax. This tax needs to be reported and deposited separately from sales and use tax. This would require new reporting forms and a new program to track and distribute receipts. This will include a new program within the Integrated Tax System.

Officials from the **Department of Public Safety - Office of Director and the Division of Alcohol and Tobacco Control** each indicated they see no fiscal impact due to this initiative petition.

Officials from the **Missouri State Highway Patrol** indicated for the Criminal Records Fund estimated revenue of $179,040 and estimated costs of $67,140 for fiscal year 2018, unknown impact for fiscal year 2019, and unknown impact for fiscal year 2020.

For each fingerprint-based background check processed, the state retains the $20 state fee and $2 of the federal charge for a pass-thru fee.

The proposed legislation would allow medical marijuana for medical use and provide that it shall be taxed at four percent of the retail price.

According to the 2015 United States Census Bureau's census estimate, Missouri's population was 6,083,672. Based on this total, the number of Cultivation Facilities, Dispensary Facilities, and Infused Products Manufacturing Facilities is as follows:

Cultivation Facilities
Assuming a limit is set at the minimum of 1 facility per 100,000 inhabitants per the proposed amendment, 60 licenses for cultivation facilities may be issued. Further estimating an average of 25 employees per facility, the total number of criminal record checks for employees, owners etc. of Cultivation Facilities equals 1,500 (60 x 25).

Dispensing Facilities
Assuming the maximum number of licenses that will be issued in each of the eight United States Congressional Districts in the state of Missouri is 24, the maximum number of licenses issued for Dispensing facilities equals 192 (24 x 8). Further estimating 10 employees per facility, the total number of criminal record checks for employees, owners etc. of Dispensary Facilities equals 1,920 (192 x 10).

Infused Products Manufacturing Facilities
Assuming a limit is set at the minimum of 1 facility per 70,000 inhabitants (per the proposed constitutional amendment) the number of facilities would equal 87 (6,083,672 / 70,000). Further estimating an average of 25 employees per facility, the total number of criminal record checks for employees, owners, etc. of Cultivation Facilities equals 2,175 (87 x 25).

The estimated number of state and federal fingerprint-based criminal record checks estimated to be generated with the passage of this amendment is 5,595 (1,500 for

Cultivation Facilities; 1,920 - Dispensing Facilities; 2,175 - Infused Products Manufacturing Facilities).

The charge for each background check processed is $40.30. Twenty dollars for the state fingerprint check, $12 for the federal check, and an $8.30 charge for the statewide applicant fingerprinting contractor fee ($20 + $12 + 8.30 = $40.30). Of this amount, the state retains the $20 fee and $2 of the federal charge of $12 for a pass-thru fee. The $8.30 charge is paid directly to the vendor at the time of application.

Estimated Revenue FY18
5,595 x $32 (state/federal background check) $179,040

Estimated Expense FY18
5,595 x $12 (federal background check charge) $67,140

Subsequent yearly background checks will be based on turnover.

Estimated Revenue FY19 and beyond
??? x $32 (state/federal background check)

Estimated Expense FY19 and beyond
??? x $12 (federal background check charge)

Officials from the **Department of Social Services** indicated no fiscal impact on their department.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated no fiscal impact.

Officials from the **Office of Administration** (OA) indicated:

Article XVI, Section 1 allows the Department of Health and Senior Services (DHSS) to grant or refuse state licenses for the cultivation, manufacture, distribution, and sale of marijuana for medical use. This authority includes the creation and imposition of administrative penalties; however, no actual amounts are given.

The article establishes facility license fees for medical marijuana cultivation facilities, medical marijuana dispensary facilities, and medical marijuana-infused products manufacturing facilities. Table 1 outlines the fees and renewal periods by facility license

type. In addition to facility fees, Section 3 creates certifications for a seed-to-sale system, transportation, and medical marijuana testing facilities. DHSS is allowed to charge up to $5,000 per certification and must certify at least two seed-to-sale tracking systems and two testing facilities; however, no minimum requirement was listed for the transportation of medical marijuana.

Table 1: Facility License and Annual Fees

Section	Facility License Type	License Fee* Years 1-3	License Fee* Years 3+	Annual Fee*	Renewal Period
3 (8)	medical marijuana cultivation facilities	$10,000	$5,000	$25,000	Every 3 years
3 (9)	medical marijuana dispensary facilities	$6,000	$3,000	$10,000	Every 3 years
3 (10)	medical marijuana-infused products manufacturing facilities	$6,000	$3,000	$10,000	Every 3 years

**License fees and annual fees shall be adjusted each year in accordance with the Consumer Price Index as published by the U.S. Department of Labor.*

Section 3 (12) allows qualifying patients, or his or her primary caregiver, to obtain an identification card allowing for personal cultivation of up to six flowering marijuana plants. Section 3 (19) and Section 3 (20) establish identification cards for qualifying patients of medical marijuana and primary caregivers. Table 2 outlines the fees and renewal periods for the different identification cards.

Table 2: Identification Fees

Section	Identification Type	Fee*	Renewal Period
3 (12)	Personal Cultivation I.D. Card	$100	annually
3 (19)	Qualifying Patient - Identification card	$25	annually
3 (20)	Primary Caregiver - Identification card	$25	annually

**License fees and annual fees shall be adjusted each year in accordance with the Consumer Price Index as published by the U.S. Department of Labor.*

Section 3 (15) states that DHSS may restrict the number of licenses for medical marijuana cultivation facilities; however, the number may not be limited to less than one license per one hundred thousand inhabitants of Missouri. Section 3 (16) states that DHSS may restrict the number of licenses for marijuana-infused products manufacturing facilities; however, the number may not be limited to less than one license per seventy thousand inhabitants of Missouri. Section 3 (17) states that DHSS may limit the number of dispensary facilities to twenty-four licenses in each United States Congressional district. Table 3 outlines the facility count limits and estimates what the facility counts would be based on 2010 U.S. Census data should these limits be implemented. Once the minimum number of facilities has been established, any decrease in the number of inhabitants within Missouri, or changes to the number or boundaries of the Congressional Districts, shall have no impact to the established minimum number of licenses allowed by the article.

Table 3: Facility Count Limits			
Section	**Facility Type**	**Minimum Limit**	**Facility Count**
3 (15)	cultivation facilities	1 per 100,000	60
3 (16)	marijuana-infused products manufacturing facilities	1 per 70,000	86
3 (17)	medical marijuana dispensaries	24 per U.S. Congressional District	192

Section 4 (1) creates a 4% sales tax on the retail sale of marijuana for medical use sold at medical dispensary facilities within the state. Revenues from this tax shall be paid to the Department of Revenue (DOR). DOR may retain up to five percent for collection costs. The remainder shall be deposited in the Missouri Veterans' Health and Care Fund.

Section 4 (2) creates the Missouri Veterans' Health and Care Fund in the state treasury which will consist of taxes and fees collected under this section. This fund shall be a dedicated fund and shall stand appropriated without further legislative action. DHSS shall be appropriated an amount necessary to carry out this section. The remainder shall be transferred to the Missouri Veterans' Commission for health and care services for military veterans.

Section 9 states that the effective date of Article XVI would be December 6, 2018. However, B&P estimates that revenue generation would not begin until at least June 2019 for patients and July 2019 for facilities given the provisions in Section 3.

Using data from Arizona, which has a similar medical marijuana law, B&P estimates that up to 65,547 patients and caregivers could utilize this bill. Of these, up to 2,000 may gain approval for personal cultivation. B&P estimates that annual fees for patients, caregivers, and personal cultivation could generate approximately $1.4M annually by FY 2021, assuming growth is similar to that seen with the Arizona medical marijuana program.

B&P estimates that license fees for medical marijuana facilities could generate approximately $2.3M in FY 2020, and $1.1M every three years thereafter. The initiative petition does not specify whether these facilities would pay the annual fee and a license renewal fee every three years. Therefore, B&P assumes that both would need to be paid in the third year of a license. Table 4 outlines the revenues from the license and annual fees.

Table 4: License and Annual Fees by Patient and Facility Type					
Patient and Facility Type	**Revenue Generated by License Fees**				
	FY 2019	**FY 2020***	**FY 2021***	**FY 2022***	**FY 2023***
Patients and Caregivers**	$87,000	$1,046,000	$1,186,000	$1,704,000	$1,737,000
Personal Cultivation**	$17,000	$200,000	$204,000	$208,000	$212,000
Cultivation Facilities^		$600,000	$1,531,000	$1,561,000	$1,905,000
Infused Product Manufacturer^		$516,000	$879,000	$896,000	$1,183,000
Dispensary^		$1,152,000	$1,962,000	$2,000,000	$2,642,000
Total	**$104,000**	**$3,514,000**	**$5,762,000**	**$6,369,000**	**$7,679,000**

**Assumes 2% inflation*

***Assumes growth similar to that seen in the medical marijuana program in Arizona*

^ Assumes a 1.2% turnover rate in facility licenses

Section 4 requires a four percent sales tax to be applied to all sales of marijuana products, in addition to current state and local sales tax. Based on sales data from Arizona during 2014 of $110M and 2015 of approximately $155.7M, B&P calculates that this provision could increase TSR by $6.6M and GR by $4.7M once fully implemented. Table 5 outlines the estimated revenues from each tax and where revenues will be directed.

Table 5: Sales Tax Revenues					
Sales Tax Fund	**Revenue Generated by Sales Tax**				
	FY 2019	**FY 2020***	**FY 2021***	**FY 2022***	**FY 2023***
Missouri Veterans' Health and Care Fund		$2,200,000	$6,229,000	$6,229,000	$6,229,000
General Revenue		$1,650,000	4,672,000	4,672,000	4,672,000
Education		$550,000	$1,557,000	$1,557,000	$1,557,000
Parks, Soil, and Water		$55,000	$156,000	$156,000	$156,000
Conservation		$69,000	$195,000	$195,000	$195,000
Total	**$0**	**$4,524,000**	**$12,809,000**	**$12,809,000**	**$12,809,000**

**Based on sales data from Arizona during 2014 and 2015*

B&P estimates that all provisions in this initiative petition could increase TSR by $2.3M and GR by $1.7M in FY20. In FY21, TSR could increase by $6.6M and GR by $4.7M. This initiative petition will not impact the calculations under 18(e).

Table 6: Summary of Revenue Generated by Medical Marijuana Taxes and Fees					
Revenue Source	**Revenue Generated by License Fees**

^^Based on sales data from Arizona during 2014 and 2015

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated no fiscal impact on their office.

Officials from the **Secretary of State's office** indicated their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted

each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any impact on their office.

Officials from the **State Treasurer's office** indicated this would have no fiscal impact on their office.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from the **City of Kansas City** indicated sales taxes could be collected. No amount can be reasonably estimated.

Officials from the **City of Raymore** indicated no fiscal impact.

Officials from the **City of St. Joseph** indicated this will not have a fiscal impact on the local government.

Officials from **University of Missouri** indicated the University of Missouri Health Care (MUHC) has reviewed the proposed initiative petition and determined that the fiscal impact should not exceed $100,000 annually.

Joy Sweeney, Executive Director, Council for Drug Free Youth provided the following information for this initiative petition.

Fiscal Impact of Marijuana Legalization

The fiscal impact of marijuana legalization is far reaching. Colorado has provided a great deal of data for Missouri to utilize to determine the impact legalization will have here.

The information in this report is from The Rocky Mountain High Intensity Drug Trafficking Area (HIDTA) Report[1], and it provides a basis of study for the effects of the legalization of marijuana, including fiscal ramifications. The American Society of Addiction Medicine (ASAM) "asserts that the anticipated public health costs of marijuana legalization are significant…"[2] **It is important to note the various costs incurred with legalization, including enforcement, prevention, education, treatment, medical costs, etc.** By utilizing the HIDTA Report, Missouri can predict the cost to the state. A summary of their findings follows:

Colorado tracked data from three waves of marijuana legalization:

- 2006-2008 is the "early medical marijuana era"
- 2009-Present is the "medical marijuana commercialization and expansion era"
- 2013-Present is the "recreational marijuana era"

<u>Impaired Driving</u>

Marijuana-related traffic deaths increased 48 percent in the three-year average (2013-2015) since Colorado legalized recreational marijuana compared to the three-year average (2010-2012) prior to legalization.

During the same time, all traffic deaths increased 11 percent.

Marijuana-related traffic deaths increased 62 percent from 71 to 115 persons after recreational marijuana was legalized in 2013.

In 2009, Colorado marijuana-related traffic deaths involving operators testing positive for marijuana represented 10 percent of all traffic fatalities. By 2015, that number doubled to 21 percent.

The Colorado State Patrol DUID Program 2015 data includes:

- 77 percent (665) of the 862 DUIDs involved marijuana
- 40 percent (347) of the 862 DUIDs involved marijuana only

Average Marijuana Related Fatalities increased 48% between 2008-2012 and 58% between 2012-2015.

Operators involved in fatalities testing positive for marijuana more than tripled:

- 2006 was 4.03%
- 2009 was 6.41%
- 2013 was 8.97%

---

[1] *Rocky Mountain High Intensity Drug Trafficking Area*. "The Legalization of Marijuana in Colorado: The Impact". Volume 4, September 2016. http://www.rmhidta.org/html/2016%20FINAL%20Legalization%20of%20Marijuana%20in%20Colorado%20The%20Impact.pdf

[2] American Society of Addiction Medicine, *State-Level Proposals to Legalize Marijuana*, http://www.asam.org/advocacy/find-a-policy-statement/view-policy-statement/public-policy-statements/2012/07/30/state-level-proposals-to-legalize-marijuana, July 2012.

- 2015 was 12.06%

Effects on Youth

From school years 2008-2014, **drug related suspensions/expulsions increased 40%.**
58% of all drug related expulsions were for marijuana.

Past month marijuana use for youth aged 12-17 reports:

National rates	Colorado rates
2008-6.72 % of youth	2008-8.75% of youth
2014-7.22% of youth	2014-11.74% of youth

Referrals to Law Enforcement

In 2006, total drug related referrals to law enforcement were 23.4%; compared to alcohol at 8%.
In 2016, total referrals were 29.7%, compared to 4.3% for alcohol.
In the 2015/16 school year, 73% of all drug related referrals were for marijuana.

Emergency Room Visits Related to Marijuana

2012-9,982
2013-12,888
2014-18,255
From 2012-2014, there was a 49% increase.

Total of all hospitalizations that were marijuana related:
2000-2,541
2013-8,078
2014-9,856

The national **average percent of children ages 0-5 reported for marijuana exposure** from 2010-2013 was 4.97%. **In Colorado it was 17.81%**

Between 2003 and 2013, accidental marijuana exposure to youth under age six increased by about 150 percent.

Treatment Admissions for Marijuana

Data from Colorado from 2005-2013 doesn't demonstrate a definitive trend and averages about 6,500 admissions a year….There may be a drop in treatment admissions for marijuana abuse among adults because of a reduction in criminal justice referrals through diversion and drug courts due to fewer people entering the system.

73.6% of youth in the Denver Health Clinic youth are male, the mean age is 15.8 years, and 98.1% are there primarily for cannabis use disorder.

Other Pertinent Information

- As of January 2016, there were 424 retail marijuana stores in the state of Colorado compared to 322 Starbucks and 202 McDonald's.
- 68 percent of local jurisdictions have banned medical and recreational marijuana businesses.
- From 2014 to 2015, property crime increased 6.2 percent, violent crime increased 6.7 percent, and all crime increased 6.2 percent.
- 93% of CO medical marijuana card holders obtained it to treat "severe pain"

The State Auditor's office did not receive a response from the **Department of Elementary and Secondary Education, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, St. Louis Community College,** and the **Lieutenant Governor's Office**.

Fiscal Note Summary

This proposal is estimated to generate annual taxes and fees of $18 million for state operating costs and veterans programs, and $6 million for local governments. Annual state operating costs are estimated to be $7 million.

Jefferson City, MO 65101

RE: Petition approval request from Sheila Dundon regarding a proposed constitutional amendment to Article XVI, version 2 (2018-052)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Sheila Dundon on November 28, 2016.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

Jason Kander

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Article XVI is created by enacting one new section to be known as Section 1 of Article XVI, to read as follows:

Section 1. Right to Access Medical Marijuana

1. **Purposes**

This section is intended to permit state-licensed physicians to recommend marijuana for medical purposes to patients with serious illnesses and medical conditions. The section allows patients with qualifying medical conditions the right to discuss freely with their physicians the possible benefits of medical marijuana use, the right of their physicians to provide professional advice concerning the same, and the right to use medical marijuana for treatment under the supervision of a physician.

This section is intended to make only those changes to Missouri laws that are necessary to protect patients, their primary caregivers, and their physicians from civil and criminal penalties, and to allow for the limited legal production, distribution, sale and purchase of marijuana for medical use. This section is not intended to change current civil and criminal laws governing the use of marijuana for nonmedical purposes. The section does not allow for the public use of marijuana and driving under the influence of marijuana.

2. **Definitions**

(1) "Administer" means the direct application of marijuana to a Qualifying Patient by way of any of the following methods:

(a) Ingestion of capsules, teas, oils, and other marijuana-infused products;

(b) Vaporization or smoking of dried flowers, buds, plant material, extracts, or oils;

(c) Application of ointments or balms;

(d) Transdermal patches and suppositories;

(e) Consuming marijuana-infused food products; or

(f) Any other method recommended by a Qualifying Patient's physician.

(2) "Department" means the Department of Health and Senior Services, or its successor agency.

(3) "Entity" means a natural person, corporation, professional corporation, nonprofit corporation, cooperative corporation, unincorporated association, business trust, limited liability company, general or limited partnership, limited liability partnership, joint venture, or any other legal entity.

(4) "Flowering plant" means a marijuana plant from the time it exhibits the first signs of sexual maturity through harvest.

(5) "Marijuana" or "Marihuana" means ***Cannabis indica***, ***Cannabis sativa***, and ***Cannabis ruderalis***, hybrids of such species, and any other strains commonly understood within the scientific community to constitute marijuana, as well as resin extracted from the plant and marijuana-infused products. "Marijuana" or "Marihuana" do not include industrial hemp containing a crop-wide average tetrahydrocannabinol concentration that does not exceed three-tenths of one percent on a dry weight basis, or commodities or products manufactured from industrial hemp.

(6) "Marijuana-Infused Products" means products that are infused with marijuana or an extract thereof and are intended for use or consumption other than by smoking, including, but not limited to, edible products, ointments, tinctures and concentrates.

(7) "Medical Marijuana Cultivation Facility" means a facility licensed by the Department, to acquire, cultivate, process, store, transport, and sell marijuana to a Medical

Marijuana Dispensary Facility, Medical Marijuana Testing Facility, or to a Medical Marijuana-Infused Products Manufacturing Facility.

(8) "Medical Marijuana Dispensary Facility" means a facility licensed by the Department, to acquire, store, sell, transport, and deliver marijuana, marijuana-infused products, and drug paraphernalia used to administer marijuana as provided for in this section to a Qualifying Patient, a Primary caregiver, another Medical Marijuana Dispensary Facility, a Medical Marijuana Testing Facility, or a Medical Marijuana-Infused Products Manufacturing Facility.

(9) "Medical Marijuana-Infused Products Manufacturing Facility" means a facility licensed by the Department, to acquire, store, manufacture, transport, and sell marijuana-infused products to a Medical Marijuana Dispensary Facility, a Medical Marijuana Testing Facility, or to another Medical Marijuana-Infused Products Manufacturing Facility.

(10) "Medical Marijuana Testing Facility" means a facility certified by the Department, to acquire, test, certify, and transport marijuana.

(11) "Medical use" means the production, possession, delivery, distribution, transportation, or administration of marijuana or a marijuana-infused product, or drug paraphernalia used to administer marijuana or a marijuana-infused product, for the benefit of a Qualifying Patient to mitigate the symptoms or effects of the patient's qualifying medical condition.

(12) "Physician" means an individual who is licensed and in good standing to practice medicine or osteopathy under Missouri law.

(13) "Physician certification" means a document, whether handwritten, electronic or in another commonly used format, signed by a physician and stating that, in the physician's professional opinion, the patient suffers from a qualifying medical condition.

(14) "Primary caregiver" means an individual twenty-one years of age or older who has significant responsibility for managing the well-being of a Qualifying Patient and who is designated as such on the primary caregiver's application for an identification card under this section or in other written notification to the Department.

(15) "Qualifying medical condition" means the condition of, symptoms related to, or side-effects from the treatment of:

(a) Cancer;

(b) Epilepsy;

(c) Glaucoma;

(d) Intractable migraines unresponsive to other treatment;

(e) A chronic medical condition that causes severe, persistent pain or persistent muscle spasms, including but not limited to those associated with multiple sclerosis, seizures, Parkinson's disease, and Tourette's syndrome;

(f) Debilitating psychiatric disorders, including, but not limited to, post-traumatic stress disorder, if diagnosed by a state licensed psychiatrist;

(g) Human immunodeficiency virus or acquired immune deficiency syndrome;

(h) A chronic medical condition that is normally treated with a prescription medication that could lead to physical or psychological dependence, when a physician determines that medical use of marijuana could be effective in treating that condition and would serve as a safer alternative to the prescription medication;

(i) Any terminal illness; or

(j) In the professional judgment of a physician, any other chronic, debilitating or other medical condition, including, but not limited to, hepatitis C, amyotrophic lateral sclerosis, inflammatory bowel disease, Crohn's disease, Huntington's disease, autism, neuropathies, sickle cell anemia, agitation of Alzheimer's disease, cachexia, and wasting syndrome.

(16) "Qualifying Patient" means a Missouri resident diagnosed with at least one qualifying medical condition.

3. **Creating Patient Access to Medical Marijuana**

(1) In carrying out the implementation of this section, the Department shall have the authority to:

(a) Grant or refuse state licenses and certifications for the cultivation, manufacture, dispensing, sale, testing, tracking, and transportation of marijuana for medical use as provided by law; suspend, fine, restrict, or revoke such licenses and certifications upon a violation of this section or a rule promulgated pursuant to this section; and impose any administrative penalty authorized by this section or any rule promulgated pursuant to this section.

(b) Promulgate rules and emergency rules necessary for the proper regulation and control of the cultivation, manufacture, dispensing, and sale of marijuana for medical use and for the enforcement of this section so long as patient access is not restricted unreasonably and such rules are reasonably necessary for patient safety or to restrict access to only licensees and Qualifying Patients.

(c) Develop such forms, certificates, licenses, identification cards, and applications as are necessary for, or reasonably related to, the administration of this section or any of the rules promulgated under this section;

(d) Require a seed-to-sale tracking system that tracks medical marijuana from either the seed or immature plant stage until the medical marijuana or medical marijuana-infused product is sold to a Qualifying Patient or Primary Caregiver to ensure that no medical marijuana grown by a Medical Marijuana Cultivation Facility or manufactured by a Medical Marijuana-Infused Products Manufacturing Facility is sold or otherwise transferred except by a Medical Marijuana Dispensary Facility. The Department shall certify, if possible, at least two commercially available systems to licensees as compliant with its tracking standards and issue standards for the creation or use of other systems by licensees.

(e) Issue standards for the secure transportation of Marijuana and Marijuana-Infused Products. The Department shall certify entities which demonstrate compliance with its transportation standards to transport Marijuana and Marijuana-Infused Products to a Medical Marijuana Cultivation Facility, a Medical Marijuana-Infused Products Manufacturing Facility, a Medical Marijuana Dispensary Facility, a Medical Marijuana Testing Facility, or another entity with a transportation certification. The Department shall develop or adopt from any other governmental agency such safety and security standards as are reasonably necessary for the transportation of marijuana. Any entity licensed or certified pursuant to this section shall be allowed to transport cannabis.

(f) The Department may charge a fee not to exceed $5,000 for any certification issued pursuant to this section.

(g) Prepare and transmit annually a publicly available report accounting to the Governor for the efficient discharge of all responsibilities assigned to the Department under this section;

(h) Establish a system to numerically score competing medical marijuana licensee and certificate applicants, only in cases where more applicants apply than the minimum number of licenses or certificates as calculated by this section, which scoring shall be limited to an analysis of the following: (i) the character, veracity, background, qualifications, and relevant experience of principal officers or managers; (ii) the business plan proposed by the applicant, which in the case of cultivation facilities and dispensaries shall include the ability to maintain an adequate supply of marijuana, plans to ensure safety and security of Qualifying Patients and the community, procedures to be used to prevent diversion, and any plan for making Marijuana available to low-income Qualifying Patients; (iii) site security; (iv) experience in a legal cannabis market; (v) in the case of Medical Marijuana Testing Facilities, the experience of their personnel with testing marijuana, food or drugs for toxins and/or potency and health care industry experience; (vi) the potential for positive economic impact in the site community; (vii) in the case of Medical Marijuana Cultivation Facilities, capacity or experience with agriculture, horticulture, and health care; (viii) in the case of Medical Marijuana Dispensary Facilities, capacity or experience with health care, the suitability of the proposed location, and its accessibility for patients; (ix) in the case of Medical Marijuana-Infused Products Manufacturing Facilities, capacity or experience with food and beverage manufacturing; and (x) maintaining competitiveness in the marijuana for medical use marketplace. In ranking applicants and awarding licenses and certificates, the Department may consult or contract with other public agencies with relevant expertise regarding these factors. The Department shall lift or ease any limit on the number of licensees or certificate holders in order to meet the demand for marijuana for medical use by Qualifying Patients.

(2) The Department shall issue any rules or emergency rules necessary for the implementation and enforcement of this section and to ensure the right to, availability, and safe use of marijuana for medical use by Qualifying Patients. In developing such rules or emergency rules, the Department may consult with other public agencies. In addition to any other rules or emergency rules necessary to carry out the mandates of this section, the Department may issue rules or emergency rules relating to the following subjects:

(a) Compliance with, enforcement of, or violation of any provision of this section or any rule issued pursuant to this section, including procedures and grounds for denying, suspending, fining, restricting, or revoking a state license or certification issued pursuant to this section;

(b) Specifications of duties of officers and employees of the Department;

(c) Instructions or guidance for local authorities and law enforcement officers;

(d) Requirements for inspections, investigations, searches, seizures, and such additional enforcement activities as may become necessary from time to time;

(e) Creation of a range of administrative penalties for use by the Department;

(f) Prohibition of misrepresentation and unfair practices;

(g) Control of informational and product displays on licensed premises provided that the rules may not prevent or unreasonably restrict appropriate signs on the property of the Medical Marijuana Dispensary Facility, product display and examination by the Qualifying Patient and/or Primary caregiver, listings in business directories including phone books, listings in marijuana-related or medical publications, or the sponsorship of health or not for profit charity or advocacy events;

(h) Development of individual identification cards for owners, officers, managers, contractors, employees, and other support staff of entities licensed or certified pursuant to this section, including a fingerprint-based federal and state criminal record check in accordance with U.S. Public Law 92-544, or its successor provisions, as may be required by the Department prior to issuing a card and procedures to ensure that cards for new applicants are issued within fourteen days. Applicants licensed pursuant to this section shall submit fingerprints to the Missouri state highway patrol for the purpose of conducting a state and federal fingerprint-based criminal background check. The Missouri state highway patrol, if necessary, shall forward the fingerprints to the Federal Bureau of Investigation (FBI) for the purpose of conducting a fingerprint-based criminal background check. Fingerprints shall be submitted pursuant to 43.543 and fees shall be paid pursuant to 43.530;

(i) Security requirements for any premises licensed or certified pursuant to this section, including, at a minimum, lighting, physical security, video, alarm requirements, and other minimum procedures for internal control as deemed necessary by the Department to properly administer and enforce the provisions of this section, including reporting requirements for changes, alterations, or modifications to the premises;

(j) Regulation of the storage of, warehouses for, and transportation of marijuana for medical use;

(k) Sanitary requirements for, including, but not limited to, the preparation of medical Marijuana-Infused Products;

(l) The specification of acceptable forms of picture identification that a Medical Marijuana Dispensary Facility may accept when verifying a sale;

(m)Labeling and packaging standards;

(n) Records to be kept by licensees and the required availability of the records;

(o) State licensing procedures, including procedures for renewals, reinstatements, initial licenses, and the payment of licensing fees;

(p) The reporting and transmittal of tax payments;

(q) Authorization for the Department of Revenue to have access to licensing information to ensure tax payment and the effective administration of this section; and

(r) Such other matters as are necessary for the fair, impartial, stringent, and comprehensive administration of this section.

(3) The Department shall issue rules or emergency rules for a medical marijuana and medical marijuana-infused products independent testing and certification program for medical marijuana licensees and requiring licensees to test medical marijuana using one or more impartial, independent laboratories to ensure, at a minimum, that products sold for human consumption do not contain contaminants that are injurious to health, to ensure correct labeling and measure potency. The Department shall not require any medical marijuana or medical marijuana-infused products to be tested more than once prior to sale.

(4) The Department shall issue rules or emergency rules to provide for the certification of and standards for Medical Marijuana Testing Facilities, including the requirements for equipment and qualifications for personnel, but shall not require certificate holders to have any federal agency licensing or have any relationship with a federally licensed testing facility. The Department shall certify, if possible, at least two entities as Medical Marijuana Testing Facilities. No Medical Marijuana Testing Facility shall be owned by an entity under substantially common control, ownership, or management as

a Medical Marijuana Cultivation Facility, Medical Marijuana-Infused Product Manufacturing Facility, or Medical Marijuana Dispensary Facility.

(5) The Department shall maintain the confidentiality of reports or other information obtained from an applicant or licensee containing any individualized data, information, or records related to the licensee or its operation, including sales information, financial records, tax returns, credit reports, cultivation information, testing results, and security information and plans, or revealing any patient information, or any other records that are exempt from public inspection pursuant to state or federal law. Such reports or other information may be used only for a purpose authorized by this section. Any information released related to patients may be used only for a purpose authorized by federal law and this section, including verifying that a person who presented a patient identification card to a state or local law enforcement official is lawfully in possession of such card.

(6) Within one hundred eighty days of the effective date of this section, the Department shall make available to the public license application forms and application instructions for Medical Marijuana Cultivation Facilities, Medical Marijuana Testing Facilities, Medical Marijuana Dispensary Facilities, and Medical Marijuana-Infused Products Manufacturing Facilities.

(7) Within one hundred eighty days of the effective date of this section, the Department shall make available to the public application forms and application instructions for Qualifying Patient, Qualifying Patient cultivation, and Primary caregiver identification cards. Within two hundred ten days of the effective date of this section, the Department shall begin accepting applications for such identification cards.

(8) An entity may apply to the Department for and obtain one or more licenses to grow marijuana as a Medical Marijuana Cultivation Facility. Each facility in operation shall require a separate license, but multiple licenses may be utilized in a single facility. Each indoor facility utilizing artificial lighting may be limited by the Department to thirty thousand square feet of flowering plant canopy space. Each outdoor facility utilizing natural lighting may be limited by the Department to two thousand eight hundred flowering plants. Each greenhouse facility using a combination of natural and artificial lighting may be limited by the Department, at the election of the licensee, to two thousand eight hundred flowering plants or thirty thousand square feet of flowering plant canopy. The license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The Department shall charge each applicant a non-refundable fee of ten thousand dollars per license application or renewal for all applicants filing an application within three years of the effective date of this section and shall charge each applicant a non-refundable fee of five thousand dollars per license application or renewal thereafter. Once granted, the Department shall charge each licensee an annual fee of twenty-five thousand dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. No more than three Medical Marijuana Cultivation Facility licenses shall be issued to any entity under substantially common control, ownership, or management.

(9) An entity may apply to the Department for and obtain one or more licenses to operate a Medical Marijuana Dispensary Facility. Each facility in operation shall require a separate license. A license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The Department shall charge each applicant a non-refundable fee of six thousand dollars per license application or renewal for each applicant filing an application within three years of the effective date of this section and shall charge each applicant a non-refundable fee of three thousand dollars per license application or renewal thereafter. Once granted, the Department shall charge each licensee an annual fee of ten thousand dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. No more than five Medical Marijuana Dispensary Facility licenses shall be issued to any entity under substantially common control, ownership, or management.

(10) An entity may apply to the Department for and obtain one or more licenses to operate a Medical Marijuana-Infused Products Manufacturing Facility. Each facility in operation shall require a separate license. A license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The Department shall charge each applicant a non-refundable fee of six thousand dollars per license application or renewal for each applicant filing an application within three years of the effective date of this section and shall charge each applicant a non-refundable fee of three thousand dollars per license application or renewal thereafter. Once granted, the Department shall charge each licensee an annual fee of ten thousand dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. No more than three Medical Marijuana-Infused Products Manufacturing Facility licenses shall be issued to any entity under substantially common control, ownership, or management.

(11) Any applicant for a license authorized by this section may pre-file their application fee with the Department beginning 30 days after the effective date of this section.

(12) Except for good cause, a Qualifying Patient or his or her Primary caregiver may obtain an identification card from the Department to cultivate up to six flowering marijuana plants for the exclusive use of that Qualifying Patient. The card shall be valid for twelve months from its date of issuance and shall be renewable with the annual submittal of a new or updated physician's certification. The Department shall charge an annual fee for the card of one hundred dollars, with such rate to be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency.

(13) The Department may set a limit on the amount of marijuana that may be purchased by or on behalf of a single Qualifying Patient in a thirty day period, provided that limit is not less than four ounces of dried, unprocessed marijuana, or its equivalent. Any such limit shall not apply to a Qualifying Patient with written certification from two independent physicians that there are compelling reasons why the Qualifying Patient needs a greater amount than the limit established by the Department.

(14) The Department may set a limit on the amount of marijuana that may be possessed by or on behalf of each qualifying patient, provided that limit is not less than a sixty day supply of dried, unprocessed marijuana, or its equivalent. A Primary caregiver may possess a separate legal limit for each Qualifying Patient under their care and a separate legal limit for themselves if they are a Qualifying Patient. Qualifying Patients cultivating marijuana for medical use may possess up to a ninety day supply, so long as the supply remains on property under their control. Any such limit shall not apply to a Qualifying Patient with written certification from two independent physicians that there are compelling reasons for additional amounts. Possession of between the legal limit and up to twice the legal limit shall subject the possessor to Department sanctions, including an administrative penalty and loss of their patient identification card for up to a year. Purposefully possessing amounts in excess of twice the legal limit shall be punishable by imprisonment of up to one year and a fine of up to two thousand dollars.

(15) The Department may restrict the aggregate number of licenses granted for Medical Marijuana Cultivation Facilities, provided, however, that the number may not be limited to fewer than one license per every one hundred thousand inhabitants, or any portion thereof, of the state of Missouri, according to the most recent census of the United States. A decrease in the number of inhabitants in the state of Missouri shall have no impact.

(16) The Department may restrict the aggregate number of licenses granted for Marijuana-Infused Products Manufacturing Facilities, provided, however, that the number may not be limited to fewer than one license per every seventy thousand inhabitants, or any portion thereof, of the state of Missouri, according to the most

recent census of the United States. A decrease in the number of inhabitants in the state of Missouri shall have no impact.

(17) The Department may restrict the aggregate number of licenses granted for Medical Marijuana Dispensary Facilities, provided, however, that the number may not be limited to fewer than twenty-four licenses in each United States Congressional district in the state of Missouri pursuant to the map of each of the eight congressional districts as drawn and effective on the effective date of this section. Future changes to the boundaries of or the number of congressional districts shall have no impact.

(18) The Department shall begin accepting license and certification applications for Medical Marijuana Dispensary Facilities, Medical Marijuana Testing Facilities, Medical Marijuana Cultivation Facilities, Medical Marijuana-Infused Products Manufacturing Facilities, seed-to-sale tracking systems, and for transportation of marijuana no later than two hundred forty days after the effective date of this section. Applications for licenses and certifications under this section shall be approved or denied by the Department no later than one hundred fifty days after their submission. If the Department fails to carry out its non-discretionary duty to approve or deny an application within one hundred fifty days of submission, an applicant may immediately seek a court order compelling the Department to approve or deny the application.

(19) Qualifying Patients under this section shall obtain and annually renew an identification card or cards from the Department. The Department shall charge a fee of twenty-five dollars per year per card with such fee to be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor or its successor agency. Upon receiving an application for a Qualifying Patient identification card or Qualifying Patient cultivation identification card, the Department shall, within thirty days, either issue the card or provide a written explanation for its denial. If the Department fails to deny and fails to issue a card to an eligible Qualifying Patient within thirty days, then their physician certification shall serve as their Qualifying Patient identification card or Qualifying Patient cultivation identification card for up to one year from the date of physician certification. All initial applications for or renewals of a Qualifying Patient identification card or Qualifying Patient cultivation identification card shall be accompanied by a physician certification that is less than thirty days old.

(20) Primary caregivers under this section shall obtain and annually renew an identification card from the Department. The Department shall charge a fee of twenty-five dollars per year, with such fee to be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. Upon receiving an application for a Primary caregiver identification card, the Department shall, within thirty days, either issue the card or provide a written explanation for its denial.

(21) All marijuana for medical use sold in Missouri shall be cultivated in a licensed Medical Marijuana Cultivation Facility located in Missouri.

(22) All marijuana-infused products for medical use sold in the state of Missouri shall be manufactured in a Medical Marijuana-Infused Products Manufacturing Facility.

(23) The denial of a license, license renewal, or identification card by the Department shall be appealable to the Administrative Hearing Commission, or its successor entity. Following the exhaustion of administrative review, denial of a license, license renewal, or identification card by the Department shall be subject to judicial review as provided by law.

(24) No elected official shall interfere directly or indirectly with the Department's obligations and activities under this section.

(25) The Department shall not have the authority to apply or enforce any rule or regulation that would impose an undue burden on any one or more licensees or

certificate holders, any Qualifying Patients, or act to undermine the purposes of this section.

4. **Taxation and Reporting**

(1) A tax is levied upon the retail sale of marijuana for medical use sold at Medical Marijuana Dispensary Facilities within the state. The tax shall be at a rate of four percent of the retail price. The tax shall be collected by each licensed Medical Marijuana Dispensary Facility and paid to the Department of Revenue. After retaining no more than five percent for its actual collection costs, amounts generated by the tax levied in this section shall be deposited by the Department of Revenue into the Missouri Veterans' Health and Care Fund. Licensed entities making retail sales within the state shall be allowed approved credit for returns provided the tax was paid on the returned item and the purchaser was given the refund or credit.

(2) There is hereby created in the state treasury the "Missouri Veterans' Health and Care Fund," which shall consist of taxes and fees collected under this section. The State Treasurer shall be custodian of the fund, and he or she shall invest monies in the fund in the same manner as other funds are invested. Any interest and monies earned on such investments shall be credited to the fund. Notwithstanding any other provision of law, any monies remaining in the fund at the end of a biennium shall not revert to the credit of the general revenue fund. The Commissioner of Administration is authorized to make cash operating transfers to the fund for purposes of meeting the cash requirements of the Department in advance of it receiving annual application, licensing, and tax revenue, with any such transfers to be repaid as provided by law. The fund shall be a dedicated fund and shall stand appropriated without further legislative action as follows:

(a) First, to the Department, an amount necessary for the Department to carry out this section, including repayment of any cash operating transfers, payments made through contract or agreement with other state and public agencies necessary to carry out this section, and a reserve fund to maintain a reasonable working cash balance for the purpose of carrying out this section;

(b) Next, the remainder of such funds shall be transferred to the Missouri Veterans Commission for health and care services for military veterans, including the following purposes: operations, maintenance and capital improvements of the Missouri Veterans Homes, the Missouri Service Officer's Program, and other services for veterans approved by the Commission, including, but not limited to, health care services, mental health services, drug rehabilitation services, housing assistance, job training, tuition assistance, and housing assistance to prevent homelessness. The Missouri Veterans Commission shall contract with other public agencies for the delivery of services beyond its expertise.

(c) All monies from the taxes authorized under this subsection shall provide additional dedicated funding for the purposes enumerated above and shall not replace existing dedicated funding.

(3) For all retail sales of marijuana for medical use, a record shall be kept by the seller which identifies, by secure and encrypted patient number issued by the seller to the qualifying patient involved in the sale, all amounts and types of marijuana involved in the sale and the total amount of money involved in the sale, including itemizations, taxes collected and grand total sale amounts. All such records shall be kept on the premises in a readily available format and be made available for review by the Department and the Department of Revenue upon request. Such records shall be retained for five years from the date of the sale.

(4) The tax levied pursuant to this subsection is separate from, and in addition to, any general state and local sales and use taxes that apply to retail sales, which shall continue to be collected and distributed as provided by general law.

(5) Except as authorized in this subsection, no additional taxes shall be imposed on the sale of marijuana for medical use.

(6) The fees and taxes provided for in this Article XVI, Section 1 shall be fully enforceable notwithstanding any other provision in this Constitution purportedly prohibiting or restricting the taxes and fees provided for herein.

(7) The unexpended balance existing in the fund shall be exempt from the provisions of section 33.080 relating to the transfer of unexpended balances to the general revenue fund.

5. **Additional Patient, Physician, Caregiver and Provider Protections**

(1) Except as provided in this section, the possession of marijuana in quantities less than the limits of this section, or established by the Department, and transportation of marijuana from a Medical Marijuana Dispensary Facility to the Qualifying Patient's residence shall not subject the possessor to arrest, criminal or civil liability, or sanctions under Missouri law, provided that the possessor produces on demand to the appropriate authority a valid Qualifying Patient identification card; a valid Qualifying Patient cultivation identification card; a valid physician certification while making application for an identification card; or a valid Primary caregiver identification card. Production of the respective equivalent identification card or authorization issued by another state or political subdivision of another state shall also meet the requirements of this subdivision.

(2) No patient shall be denied access to or priority for an organ transplant because they hold a Qualifying Patient identification card or use marijuana for medical use.

(3) A physician shall not be subject to criminal or civil liability or sanctions under Missouri law or discipline by the Missouri State Board of Registration for the Healing Arts, or its successor agency, for owning, operating, investing in, being employed by, or contracting with any entity licensed or certified pursuant to this section or issuing a physician certification to a patient diagnosed with a qualifying medical condition in a manner consistent with this section and legal standards of professional conduct.

(4) A health care provider shall not be subject to civil or criminal prosecution under Missouri law, denial of any right or privilege, civil or administrative penalty or sanction, or disciplinary action by any accreditation or licensing board or commission for owning, operating, investing in, being employed by, or contracting with any entity licensed or certified pursuant to this section or providing health care services that involve the medical use of marijuana consistent with this section and legal standards of professional conduct.

(5) A Medical Marijuana Testing Facility shall not be subject to civil or criminal prosecution under Missouri law, denial of any right or privilege, civil or administrative penalty or sanction, or disciplinary action by any accreditation or licensing board or commission for providing laboratory testing services that relate to the medical use of marijuana consistent with this section and otherwise meeting legal standards of professional conduct.

(6) A health care provider shall not be subject to mandatory reporting requirements for the medical use of marijuana by non-emancipated Qualifying Patients under eighteen years of age in a manner consistent with this section and with consent of a parent or guardian.

(7) A Primary caregiver shall not be subject to criminal or civil liability or sanctions under Missouri law for purchasing, transporting, or administering marijuana for medical use to a qualifying patient or participating in the patient cultivation of up to six flowering marijuana plants per patient in a manner consistent with this section and generally established legal standards of personal or professional conduct.

(8) An attorney shall not be subject to disciplinary action by the state bar association or other professional licensing body for owning, operating, investing in, being employed by, contracting with, or providing legal assistance to prospective or licensed Medical Marijuana Testing Facilities, Medical Marijuana Cultivation Facilities, Medical Marijuana Dispensary Facilities, Medical Marijuana-Infused Products Manufacturing Facilities, Qualifying Patients, Primary caregivers, physicians, health care providers or others related to activity that is no longer subject to criminal penalties under state law pursuant to this section.

(9) Actions and conduct by Qualifying Patients, Primary Caregivers, Medical Marijuana Testing Facilities, Medical Marijuana Cultivation Facilities, Medical Marijuana-Infused Products Manufacturing Facilities, or Medical Marijuana Dispensary Facilities licensed or registered with the Department, or their employees or agents, as permitted by this section and in compliance with Department regulations and other standards of legal conduct, shall not be subject to criminal or civil liability or sanctions under Missouri law, except as provided for by this section.

(10) Nothing in this section shall provide immunity for negligence, either common law or statutorily created, nor criminal immunities for operating a vehicle, aircraft, dangerous device, or navigating a boat under the influence of marijuana.

(11) It is the public policy of the state of Missouri that contracts related to marijuana for medical use that are entered into by Qualifying Patients, Primary Caregivers, Medical Marijuana Testing Facilities, Medical Marijuana Cultivation Facilities, Medical Marijuana-Infused Products Manufacturing Facilities, or Medical Marijuana Dispensary Facilities and those who allow property to be used by those entities, should be enforceable. It is the public policy of the state of Missouri that no contract entered into by Qualifying Patients, Primary Caregivers, Medical Marijuana Testing Facilities, Medical Marijuana Cultivation Facilities, Medical Marijuana-Infused Products Manufacturing Facilities, or Medical Marijuana Dispensary Facilities, or by a person who allows property to be used for activities that are exempt from state criminal penalties by this section, shall be unenforceable on the basis that activities related to medical marijuana may be prohibited by federal law.

6. **Legislation**

Nothing in this section shall limit the General Assembly from enacting laws consistent with this section, or otherwise effectuating the patient rights of this section. The legislature shall not enact laws that hinder the right of Qualifying Patients to access marijuana for medical use as granted by this section.

7. **Additional Provisions**

(1) Nothing in this section permits a person to:

(a) Consume marijuana for medical use in a jail or correctional facility;

(b) Undertake any task under the influence of marijuana when doing so would constitute negligence or professional malpractice; or

(c) Operate, navigate, or be in actual physical control of any dangerous device or motor vehicle, aircraft or motorboat while under the influence of marijuana; or

(d) Bring a claim against any employer, former employer, or prospective employer for wrongful discharge, discrimination, or any similar cause of action or remedy, based on the employer, former employer, or prospective employer prohibiting the employee, former employee, or prospective employee from being under the influence of marijuana while at work or disciplining the employee or former employee, up to and including termination from employment, for working or attempting to work while under the influence of marijuana.

(2) No Medical Marijuana Cultivation Facility, Medical Marijuana Testing Facility, Medical Marijuana Dispensary Facility, or Medical Marijuana-Infused Products Manufacturing Facility, or entity with a transportation certification shall be owned, in whole or in part, or have as an officer, director, board member, manager, or employee, any individual with a disqualifying felony offense. A "disqualifying felony offense" is a violation of, and conviction or guilty plea to, state or federal law that is, or would have been, a felony under Missouri law, regardless of the sentence imposed, unless the Department determines that:

(a) The person's conviction was for the medical use of marijuana or assisting in the medical use of marijuana; or

(b) The person's conviction was for a non-violent crime for which he or she was not incarcerated and that is more than five years old; or

(c) More than five years have passed since the person was released from parole or probation, and he or she has not been convicted of any subsequent criminal offenses.

The Department may consult with and rely on the records, advice and recommendations of the Attorney General and the Department of Public Safety, or their successor entities, in applying this subdivision.

(3) All Medical Marijuana Cultivation Facility, Medical Marijuana Dispensary Facility, and Medical Marijuana-Infused Products Manufacturing Facility licenses, entities with Medical Marijuana Testing Facility certifications, and entities with transportation certifications shall be held by entities that are majority owned by natural persons who have been citizens of the state of Missouri for at least one year prior to the application for such license or certification. Notwithstanding the foregoing, entities outside the state of Missouri may own a minority stake in such entities.

(4) No Medical Marijuana Cultivation Facility, Medical Marijuana Dispensary Facility, or Medical Marijuana-Infused Products Manufacturing Facility shall manufacture, package or label marijuana or marijuana-infused products in a false or misleading manner. No person shall sell any product in a manner designed to cause confusion between a marijuana or marijuana-infused product and any product not containing marijuana. A violation of this subdivision shall be punishable by an appropriate and proportional Department sanction, up to and including loss of license.

(5) All edible marijuana-infused products shall be sold in individual, child-resistant containers that are labeled with dosage amounts, instructions for use, and estimated length of effectiveness. All marijuana and marijuana-infused products shall be sold in containers clearly and conspicuously labeled, in a font size at least as large as the largest other font size used on the package, as containing "Marijuana," or a "Marijuana-Infused Product." Violation of this prohibition shall subject the violator to Department sanctions, including an administrative penalty.

(6) No individual shall serve as the Primary caregiver for more than three Qualifying Patients.

(7) No Qualifying Patient shall consume marijuana for medical use in a public place, unless provided by law. Violation of this prohibition shall subject the violator to sanctions as provided by general law.

(8) No person shall extract resins from marijuana using dangerous materials or combustible gases without a Medical Marijuana-Infused Products Manufacturing Facility license. Violation of this prohibition shall subject the violator to Department sanctions, including an administrative penalty and, if applicable, loss of their identification card, certificate, or license for up to one year.

(9) All Qualifying Patient cultivation shall take place in an enclosed, locked facility that is equipped with security devices that permit access only by the Qualifying Patient or by such patient's Primary caregiver. Two Qualifying Patients, who both hold valid Qualifying Patient cultivation identification cards, may share one enclosed, locked facility. No more than twelve Qualifying Patient or Primary caregiver cultivated flowering marijuana plants may be cultivated in a single, enclosed locked facility, except when a Primary caregiver also holds a Qualifying Patient cultivation identification card, in which case no more than eighteen flowering marijuana plants may be cultivated in a single, enclosed, locked facility.

(10) No Medical Marijuana Cultivation Facility, Medical Marijuana Dispensary Facility, Medical Marijuana-Infused Products Manufacturing Facility, Medical Marijuana Testing Facility, or entity with a transportation certification shall assign, sell, give, lease, sublicense, or otherwise transfer its license or certificate to any other entity without the express consent of the Department, not to be unreasonably withheld.

(11) Unless allowed by the local government, no new Medical Marijuana Cultivation Facility, Medical Marijuana Testing Facility, Medical Marijuana Dispensary Facility, or Medical Marijuana-Infused Products Manufacturing Facility shall be initially sited within one thousand feet of any then-existing elementary or secondary school, child day-care center, or church. No local government shall prohibit Medical Marijuana

Cultivation Facilities, Medical Marijuana Testing Facilities, Medical Marijuana-Infused Products Manufacturing Facilities, or Medical Marijuana Dispensary Facilities, or entities with a transportation certification either expressly or through the enactment of ordinances or regulations that make their operation unduly burdensome in the jurisdiction. However, local governments may enact ordinances or regulations not in conflict with this section, or with regulations enacted pursuant to this section, governing the time, place, and manner of operation of such facilities in the locality. A local government may establish civil penalties for violation of an ordinance or regulations governing the time, place, and manner of operation of a Medical Marijuana Cultivation Facility, Medical Marijuana Testing Facility, Medical Marijuana-Infused Products Manufacturing Facility, Medical Marijuana Dispensary Facility, or entity holding a transportation certification that may operate in such locality.

(12) Unless superseded by federal law or an amendment to this Constitution, a physician shall not certify a qualifying condition for a patient by any means other than providing a physician certification for the patient, whether handwritten, electronic, or in another commonly used format. A Qualifying Patient must obtain a new physician certification at least annually.

(13) A physician shall not issue a certification for the medical use of marijuana for a non-emancipated Qualifying Patient under the age of eighteen without the written consent of the Qualifying Patient's parent or legal guardian. The Department shall not issue a Qualifying Patient identification card on behalf of a non-emancipated Qualifying Patient under the age of eighteen without the written consent of the Qualifying Patient's parent or legal guardian. Such card shall be issued to one of the parents or guardians and not directly to the patient. Only a parent or guardian may serve as a Primary caregiver for a non-emancipated Qualifying Patient under the age of eighteen. Only the Qualifying Patient's parent or guardian shall purchase or possess medical marijuana for a non-emancipated Qualifying Patient under the age of eighteen. A parent or guardian shall supervise the administration of medical marijuana to a non-emancipated Qualifying Patient under the age of eighteen

(14) Nothing in this section shall be construed as mandating health insurance coverage of medical marijuana for Qualifying Patient use.

(15) Real and personal property used in the cultivation, manufacture, transport, testing, distribution, sale, and administration of marijuana for medical use or for activities otherwise in compliance with this section shall not be subject to asset forfeiture solely because of that use.

8. **Severability**

The provisions of this section are severable, and if any clause, sentence, paragraph or section of this measure, or an application thereof, is adjudged invalid by any court of competent jurisdiction, the other provisions shall continue to be in effect to the fullest extent possible.

9. **Effective Date**

The provisions of this section shall become effective on December 6, 2018.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-052)

Subject

Initiative petition from Sheila Dundon regarding a proposed constitutional amendment to Article XVI of the Constitution of Missouri. (Received November 29, 2016)

Date

December 19, 2016

Description

This proposal would amend Article XVI of the Constitution of Missouri.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** and the **Lieutenant Governor's Office**.

Joy Sweeney, Executive Director, Council for Drug Free Youth provided information for this initiative petition to the State Auditor's office.

Assumptions

Officials from the **Attorney General's office** indicated this proposal authorizes the Department of Health and Senior Services to issue new licenses for the cultivation, manufacture, dispensing, sale, testing, tracking, and transportation of marijuana for medical use. It requires their department to promulgate rules necessary for the implementation and enforcement of the proposal, develop forms and issue standards in addition to licensure and certification of facilities. The proposal requires a minimum of 60 licenses for cultivation facilities (one per every 100,000 inhabitants), a minimum of 85 licenses for manufacturing facilities (one per 70,000 in inhabitants), and a minimum of 192 medical marijuana dispensary facilities (24 per each Congressional district). Licensure and certification is subject to AHC appeal and judicial review. AGO assumes it would need 2 AAG Is to provide legal representation regarding issuance, denial, and discipline of licenses and promulgation of and challenges to administrative rules. If adopted this proposal would increase AGO operating expenses of $139,474 for FY2018; $150,610 for FY2019; and $152,155 for FY2020.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Higher Education** indicated this initiative petition would not have a fiscal impact on their department.

Officials from the **Department of Health and Senior Services** indicated the costs will be $0 for fiscal year 2018, $3,062,147 for fiscal year 2019, and $7,035,064 for fiscal year 2020. The revenues will be $0 for fiscal year 2018, $1,134,000 for fiscal year 2019, and $12,124,800 for fiscal year 2020.

This proposal is not an entire duplication, however; Section 192.945, RSMo allows their department to issue a hemp extract registration card for persons suffering from intractable epilepsy. The hemp extract registration card allows for the legal possession and use of cannabidiol (CBD) oil. This proposal allows for the legal use of marijuana for persons who are issued a registration card due to a debilitating medical condition. Under this proposal, patients with intractable epilepsy could also qualify to receive a registration card for medical marijuana use.

Rental space for 97 FTE located in Jefferson City: 97.00 FTE x 230 sq ft/FTE x $21.00/sq. ft. = $468,510.

The proposed language would legalize the use of marijuana for medicinal purposes. There could be an unknown impact on small businesses that serve as cultivators, manufacturers, dispensary facilities, testing and/or transportation centers.

The proposed constitutional amendment requires their department to issue annual registrations for patients and their designated caregivers, patient and caregiver cultivators, medical marijuana cultivation facilities, medical marijuana dispensary facilities, and medical marijuana-infused products manufacturing facilities. In addition, the amendment

requires their department to certify seed-to-sale tracking systems, transportation entities, and testing facilities.

The proposal allows for the following registration/license fees to be collected:

	Initial Application and Annual Renewal
Qualifying Patient ID Card	$25.00
Primary Caregiver ID Card	$25.00
Patient or Caregiver Cultivation ID Card	$100.00

	Within 3 years of Effective Date of Proposal (December 6, 2018 – December 6, 2021)		After 3 years of Effective Date (after December 6, 2021)	
	Initial Application or Renewal Application Non-Refundable License Fee (3 yr. license)	Annual Licensing Fee	Initial Application or Renewal Application Non-Refundable License Fee (3 yr. license)	Annual Licensing Fee
Medical Marijuana Cultivation Facility	$10,000	$25,000	$5,000	$25,000
Medical Marijuana Dispensary Facility	$6,000	$10,000	$3,000	$10,000
Medical Marijuana-Infused Products Manufacturing	$6,000	$10,000	$3,000	$10,000

	Certification Fee
Seed-to-Sale Tracking System	Up to $5,000
Medical Marijuana Testing Facility	Up to $5,000

The provisions of this section shall become effective on December 6, 2018. According to the proposed provisions of this section, they shall make available to the public all license application forms (cultivation, dispensary, manufacturing and testing facilities) and the application forms for qualifying patients, caregivers, and qualifying patient cultivation identification cards within 180 days of the effective date of the section (June 6, 2019). They shall accept all applications for patients, caregivers and cultivators no later than 210 days following the effective date of this section (July 6, 2019). They shall accept applications for dispensary facilities, testing facilities, cultivation facilities, manufacturing facilities, seed-to-sale tracking systems, and transportation entities no later than 240 days after the effective date of this section (August 6, 2019). The provisions of this section also allow any applicant for a license to pre-file their application fee with them beginning 30 days after the effective date of this section (January 6, 2019). For purposes of this fiscal note, it is assumed that the first fees for license applications (pre-file) would be accepted January 6, 2019 (FY 2019). The first fees for patient, caregivers, and cultivators are assumed to be collected beginning July 1, 2019 (FY 2020). The first certification fees (seed-to-sale, testing, and transportation) are assumed to be collected beginning July 1, 2019 (FY 2020) as well.

The estimations for the number of each type of registration, license and certification issued each year are detailed under the headings Division of Community and Public Health (DCPH) and Applications for Patient and Caregiver Identification below. The total estimate of collected fees equals $1,134,000 for FY 2019 and $12,124,800 for FY 2020.

Section 1.3(2)(e) allows them to issue rules creating a range of administrative penalties related to implementation and enforcement of rules that ensure the right to, availability, and safe use of marijuana for medical use. These administrative penalties could include penalty fees but the fee amounts and frequency of penalties issued is unknown at this time.

Section 1.4(1) of the proposed amendment mandates each licensed Medical Marijuana Dispensary facility to collect a four percent tax on the retail sale of all medical marijuana products sold to be collected by the Department of Revenue (DOR). The amount of tax that will be collected is unknown and is referred to the DOR for these estimations.

The DOR may retain up to five percent of the annual taxes collected. The rest of the tax collected is to be deposited by the DOR into the Missouri Veterans' Health and Care Fund. This fund shall consist of all fees and taxes collected by this proposed section.

Division of Community and Public Health (DCPH)

Section 1.3(1) authorizes them to grant or refuse licenses and certifications for the cultivation, manufacture, dispensing, sale, testing, tracking, and transportation of marijuana for medical use as provided by the provisions of Section 1. This section also authorizes them to suspend, fine, restrict, or revoke such licenses and certifications upon any violation of this section or a rule promulgated by them pursuant to this section. They

shall develop such rules, forms, licenses, identification cards, and applications as necessary to implement provisions of this section. They are also required to certify at least two commercially available software products that licensees must use for seed-to-sale tracking standards and issue standards for the certification of secure transportation of marijuana an marijuana-infused products. They are to prepare annually a publicly available report accounting to the Governor for the efficient discharge of all responsibilities assigned to them by this section. They must also establish a system to numerically score applicants for licenses and certificates when the number of applicants are more than the minimum required.

Section 1.3(2) permits them to issue any rules necessary to ensure the right to, availability and safe use of marijuana for medical use by qualifying patients. This includes addressing: requirements for inspections, investigations, searches, seizures, and such additional enforcement activities that may become necessary; the creation of a range of administrative penalties; development of individual identification cards for owner, officers, managers, contractors, employees, and other support staff of entities licensed pursuant to this section; security requirements for any premises licensed; regulation of the storage and transportation of marijuana for medical use; sanitary requirements for the preparation of medical marijuana-infused products; labeling and packaging standards; and records to be kept by the licensees, state licensing procedures for initial licenses, renewals and reinstatements.

Section 1.3(3) requires them to issue rules regarding independent testing and certification for medical marijuana licensees to ensure products that are sold for human consumption are correctly labeled and do not contain contaminants that are injurious to health.

Section 1.3(4) requires them to issue rules to provide for the standards and certification of Medical Marijuana Testing Facilities. They shall certify, if possible, at least two Medical Marijuana Testing Facility entities.

Section 1.3(6) requires them to make available to the public license application forms and (for all types of licensees including testing facilities) and instructions within 180 days of the effective date of this section.

Section 1.3(7) requires them to make available to the public application forms and accompanying instructions for qualifying patients, qualifying patient or caregiver cultivation, and primary caregiver identification cards within 180 days of the effective date of this section. They are also required to accept these applications within 210 days of the effective date of this section.

Section 1.3(18) requires them to begin accepting license and certification application forms and instructions (for dispensary facilities, testing facilities, cultivation facilities, manufacturing facilities, seed-to-sale tracking systems, and transportation entities) no later than 240 days from the effective date and shall either approve or deny within 150 days after submission.

Section 1.3(19) requires them to process a qualifying patient identification card within 30 days of receipt of the application.

Section 1.3(20) requires them to process a primary caregiver identification card within 30 days of receipt of the application.

Information Technology Services Division (ITSD)

Support of an IT vendor to build a data system to support the administration and reporting requirements indicated in Section 1 of Article XVI (Right to Access Medical Marijuana). The system would be used by the department to process applications to include issuance of licenses and identification cards.

Division of Administration

Specific program impact for their department is in the Division of Community and Public Health (DCPH). Each application and license transaction will have an associated fee transaction, which impacts the Division of Administration (DA).

One full-time attorney would be required to assist in drafting emergency and proposed regulations and forms; perform legal research and provide day-to-day legal counsel to the program; and, represent their department in appeals of licensure and identification card denials.

The proposed amendment requires them to adjust (increase or decrease) registration and license fees according to the Consumer Price Index as published by the U.S. Department of Labor. The change in fees collected (increase or decrease) due to this provision is unable to be determined at this time.

Also, the initial application and renewal licensing fees for a cultivation facility, manufacturing facility, and dispensing facility decrease in half after three years from the effective date of this proposal.

Division of Community and Public Health (DCPH)

Applications for Patient and Caregiver Identification

Section 1 requires them to issue registration cards for qualified patients and their caregivers. A study by the nonprofit entity ProCon organization, updated March 2016, published the rates of patient registration cards issued for each state with a medical marijuana program (http://medicalmarijuana.procon.org/view.resource.php?resourceID=005889). This study found that Oregon was issuing qualified patient cards at a ratio of 19.2 per 1,000 state residents. For purposes of this fiscal note, the State of Oregon's program will be benchmarked in regard to the number of patient and primary caregiver registrants. While the Oregon program was initiated in May 1999 and therefore has an established program,

the state of Missouri's chronic disease rates are generally higher and the qualifying medical conditions accepted under Missouri's proposal are broader than those of Oregon.

Calculation of applications:

- Patients: According to the 2015 U.S. Census Bureau information, Missouri's population is at 6,083,672. Applying the rate of 19.2 applications per 1,000 residents, Missouri would estimate issuing 116,807 patient registration cards annually ((6,083,672/1,000) x 19.2)).
- Caregivers: According to the October 1, 2016 data on Oregon's Medical Marijuana Program Website, the ratio of patient registration cards to caregiver cards is calculated at 2.29. Calculating this same ratio, Missouri would estimate issuing 51,007 caregiver cards annually (116,807/2.29).

The proposed effective date of the medical marijuana program is December 6, 2018. They are required to have the applications for the qualifying patient and caregiver identification cards available within 180 days of the effective date (June 6, 2019). Section 1.3(6) requires them to begin accepting applications for the qualifying patient and caregiver cards no later than 210 days from the effective date (July 6, 2019). For purposes of this fiscal note analysis, it is assumed that they will begin accepting applications July 1, 2019 (FY 2020). They will collect an application fee of $25 per card, per Section 1.3(19) and 1.3(20). It is assumed that the fees will be collected in the same fiscal year the applications are received. It is also assumed that ten percent of the initial applicants will submit a renewal application within the same fiscal year.

	FY 2018	FY 2019	FY 2020
Qualifying Patient Initial Applications	0	0	116,807
Qualifying Patient Renewal Applications	0	0	11,681
Caregiver Initial Applications	0	0	51,007
Caregiver Renewal Applications	0	0	5,101
Total Patient & Caregiver Identification Cards	0	0	184,596
Total Patient & Caregiver Application Fees	$0	$0	$4,614,900

Applications for Patient or Caregiver Cultivation Identification Cards

Section 1 requires them to issue identification cards for a qualifying patient or his or her primary caregiver for purposes of cultivating up to six flowering marijuana plants for the exclusive use of the qualifying patient. For purposes of this fiscal note, it is estimated that 10 percent of the qualifying patients will grow marijuana for themselves or it will be grown by their designated primary caregiver. Therefore, it is estimated that 11,681 (116,807 x .10) will be issued in FY 2020. They will collect an annual application fee of $100 per Section 1.3(12). It is also assumed that ten percent of the initial applicants will renew their application within the same fiscal year.

	FY 2018	FY 2019	FY 2020
Cultivation Initial Applications	0	0	11,681
Cultivation Renewal Applications	0	0	1,168
Total Cultivation Identification Cards	0	0	12,849
Total Cultivation Identification Fees	$0	$0	$1,284,900

Application and Licensing of Medical Marijuana Cultivation Facilities

Section 1 authorizes them to establish the application and licensing process of medical marijuana cultivation facilities. For purposes of this fiscal note analysis, it is estimated that 61 facilities will apply and become licensed to fully operate cultivation facilities by the end of FY 2020. This estimate is based on the assumption that they will limit the number of cultivation facilities licensed at the minimum required of one facility per 100,000 residents (6,083,672 Missouri residents/100,000 residents per facility = 61 facilities) as allowed per Section 1.3(15). They must accept applications within 210 days of the effective date of the proposal and therefore assumes that applications will be accepted beginning July 1, 2019 (FY 2020). However, section 1.3(11) allows any application for a license to pre-file their application fee with them beginning 30 days after the effective date (January 6, 2019). They estimates that half of the cultivation facilities that will be licensed in FY 2020 will pre-file their fee in FY 2019. The proposed amendment sets the initial application fee at $10,000 with an additional $25,000 fee for each year of the license for the facilities applying during this time period.

	FY 2018	FY 2019	FY 2020
Cultivation Facility Applications	0	0	61
Cultivation Facility Application Fees ($10,000)	$0	$300,000 (pre-file)	$310,000
Cultivation Facility Annual Licenses	0	0	61
Cultivation Facility Annual License Fees ($25,000)	$0	$0	$1,525,000
Total Cultivation App & License Fees	$0	$300,000	$1,835,000

Application and Licensing of Medical Marijuana Dispensing Facilities

Section 1 authorizes them to establish the application and licensing process of medical marijuana dispensing facilities. For purposes of this fiscal note analysis, it is estimated that 192 facilities will apply and become licensed to fully operate dispensing facilities by the end of FY 2020. This estimate is based on the assumption that they will limit the number of dispensing facilities licensed at the minimum required of twenty-four (24) licenses per each of the current eight U.S. Congressional Districts (24 facilities x 8 districts = 192 facilities) as allowed per Section 1.3(17). They must accept applications within 210 days of the effective date of the proposal and therefore assumes that applications will be accepted beginning July 1, 2019 (FY 2020). However, section 1.3(11) allows any application for a license to pre-file their application fee with them beginning 30 days after the effective date (January 6, 2019). They estimate that half of the dispensing facilities that will be licensed in FY 2020 will pre-file their fee in FY 2019. The proposed amendment sets the initial

application fee at $6,000 with an additional $10,000 fee for each year of the license for the facilities applying during this time period.

	FY 2018	FY 2019	FY 2020
Dispensing Facility Applications	0	0	192
Dispensing Facility Application Fees ($6,000)	$0	$576,000 (pre-file fees)	$576,000
Dispensing Facility Annual Licenses	0	0	192
Dispensing Facility Annual License Fees ($10,000)	$0	$0	$1,920,000
Total Dispensing App & License Fees	$0	$576,000	$2,496,000

Application and Licensing of Medical Marijuana-Infused Products Manufacturing Facilities

Section 1 authorizes them to establish the application and licensing process of medical marijuana-infused products manufacturing facilities. For purposes of this fiscal note analysis, it is estimated that 87 facilities will apply and become licensed to fully operate medical marijuana-infused products manufacturing facilities by the end of FY 2020. This estimate is based on the assumption that they will limit the number of manufacturing facilities licensed at the minimum required of one facility per 70,000 residents (6,083,672 Missouri residents/70,000 residents per facility = 87 facilities) as allowed per Section 1.3(16). They must accept applications within 210 days of the effective date of the proposal and therefore assumes that applications will be accepted beginning July 1, 2019 (FY 2020). However, section 1.3(11) allows any application for a license to pre-file their application fee with them beginning 30 days after the effective date (January 6, 2019). They estimate that half of the medical marijuana-infused products manufacturing facilities that will be licensed in FY 2020 will pre-file their fee in FY 2019. The proposed amendment sets the initial application fee at $6,000 with an additional $10,000 fee for each year of the license for the facilities applying during this time period.

	FY 2018	FY 2019	FY 2020
Manufacturing Facility Applications	0	0	87
Manufacturing Facility Application Fees ($6,000)	$0	$258,000	$264,000
Manufacturing Facility Annual Licenses	0	0	87
Manufacturing Facility Annual License Fees ($10,000)	$0	$0	$870,000
Total Manufacturing Application & License Fees	$0	$258,000	$1,134,000

Certification of Seed-to-Sale Tracking Systems, Transportation Entities, and Medical Marijuana Testing Facilities

Section 1.3.(1)(d) requires them to certify at least two commercially available systems that licensees may use as their seed-to-sale tracking system. For purposes of this fiscal note, it is estimated that they will issue certifications for two commercially available systems.

Section 1.3.(1)(e) requires them to certify entities which demonstrate compliance with transportation standards in order to transport marijuana and marijuana-infused products. For purposes of this fiscal note, it is estimated that all licensed medical marijuana cultivation facilities and marijuana-infused products manufacturing facilities will obtain certification to transport marijuana and marijuana-infused products. Therefore, it is estimated that they will issue 148 certifications for transportation (61 cultivation facilities + 87 manufacturing facilities = 148 total facilities). The certification process will occur simultaneous with the licensure of the facilities.

Section 1.3.(4) requires them to certify at least two facilities as Medical Marijuana Testing Facilities. It is estimated that only two facilities will be certified. The certification will occur in FY 2020.

Section 1.3.(1)(f) allows the department to charge a fee not to exceed $5,000 for any certification issued. It is assumed that they will charge a fee of $5,000 for each certification issued.

	FY 2018	FY 2019	FY 2020
Seed-to-Sale Tracking System Certifications	0	0	2
Transportation Entity Certifications	0	0	148
Medical Marijuana Testing Facility Certifications	0	0	2
Total Certifications	0	0	152
Total Certification Fees ($5,000 ea.)	$0	$0	$760,000

Total Revenue in Application, Licensing, and Certification Fees

	FY 2018	FY 2019	FY 2020
Patient & Caregiver Application Fees	$0	$0	$4,614,900
Patient or Caregiver Cultivation Fees	$0	$0	$1,284,900
Cultivation Facility Fees	$0	$300,000	$1,835,000
Dispensing Facility Fees	$0	$576,000	$2,496,000
Infused Products Manufacturing Fees	$0	$258,000	$1,134,000
Certification Fees	$0	$0	$760,000
Total Fees	**$0**	**$1,134,000**	**$12,124,800**

Program Operations: Staffing

Section 1 requires the establishment of a medical marijuana program through promulgation of rules and implementation of those rules for administration of patient and caregiver identification cards; patient or caregiver cultivation identification cards; licensing of medical marijuana cultivation facilities, dispensing facilities and infused products manufacturing facilities; and certification of seed-to-sale tracking systems, transportation entities, and medical marijuana testing facilities. This also includes the development of all program applications and forms, identification cards, and a computerized database system to allow for the electronic storage of and processing of data needed to issue identification

cards and licenses. As a result, DCPH anticipates the need to hire the following staff beginning on December 6, 2018 (FY 2019) to begin development of the program/system:

One Program Manager Broad Band 2 ($65,000) – will serve as Chief of the Medical Marijuana Bureau. Duties will include overall program management, including involvement in rule promulgation, development of forms, program policies and procedures, information system development, and initial program set-up. This position will also supervise the two Unit (Program) Coordinators, two Investigator III positions, a Health Program Representative III, and a Bureau Administrative Office Support Assistant.

Two Program Coordinators (A30, $50,112, Step H) – will serve as Unit Coordinators. One unit will be responsible for processing patient and caregiver applications, including patient or caregiver cultivation applications. The other unit will be responsible for the applications and licensing and/or certification of the medical marijuana cultivation facilities, dispensing facilities, infused-products manufacturing facilities; testing facilities, transportation entities, and seed-to-sale tracking systems. These positions will be involved in the initial program development with the Bureau Chief, hiring of staff, and development of training for staff. Once the program is operational, the Coordinators responsibilities extend to implementation and maintenance of the program, responsibility for meeting application decision deadlines, and ongoing management responsibilities.

One Health Program Representative III (A24, $39,708. Step G) – duties will include assistance in rule promulgation, program policies and procedures, forms development, information system development/troubleshooting and maintenance, and initial program set-up. This position will serve as the liaison between the Units and IT work on system maintenance and enhancements. This position will also certify the seed-to-sale tracking systems that are commercially available to use by the licensed facilities. This position will also be responsible for establishing materials to educate the public about the program and exhibiting at conferences or other venues to education physicians and the general public.

One Administrative Office Support Assistant (A15, $28,668, Step F) – duties will include providing administrative assistance to the Bureau Chief, Program Coordinators, Investigators, Inspectors, and HPR III positions. As allowed, this position will also assist in initial processing of patient and caregiver applications for registration cards.

The following staff will be hired to begin March 1, 2019. This hire date will allow for training and final program preparation to occur prior to the required release dates for the application forms for patients and caregivers, patient or caregiver cultivators, certifications, and facility licenses:

Two Investigator III positions (A25, $41,184, Step G) – these positions will investigate all instances/complaints of possible fraud or negligence on the behalf of a recommending physician, a registered patient and/or caregiver, a cultivator, or a medical marijuana facility. With a new program of this size and the legalization of something that remains illegal for the majority of the population, it is anticipated that they will receive a fair number of calls reporting instances of possible violations. While two is estimated for purposes of this fiscal

note, it may be necessary to add additional staff after the program is operational for some time. The additional costs remain unknown.

Two Grain Inspector IV positions (A23, $38,304, Step G) – these positions will complete the onsite inspections of the medical marijuana cultivation facilities to monitor compliance with the specific requirements outlined in the proposed amendment and rules that need to be met for initial and continued licensure of a facility. These positions will also be responsible for certifying the cultivation facilities as transportation entities. This specialty position was chosen because the most technical piece involves the process of testing plants for molds, mildew, and pesticides and making sure the facilities are dealing with these issues in a proper way.

One Grain Inspector Compliance Coordinator (A28, $46,056, Step G) – this position coordinates and supervises the work of the Grain Inspector positions; ensuring inspections are completed consistently and timely. This position will also provide technical assistance to the inspectors and make final action decisions/recommendations for problem inspections.

Four Environmental Public Health Specialist IV positions (A27, $44,352, Step G) – these positions will complete the onsite inspections of the medical marijuana dispensing and the medical-marijuana infused-products manufacturing facilities to monitor compliance with the specific requirements outlined in the proposed amendment and rules that need to be met for initial and continued licensure of a facility. These positions will also be responsible for certifying the manufacturing facilities as transportation entities. This specialty position was chosen because the most technical piece involves ensuring sanitation requirements are met and the infused-products are labeled and packaged correctly.

One Environmental Public Health Specialist V position (A28, $46,056, Step G) – this position coordinates and supervises the work of the EPHS IV positions; ensuring inspections are completed consistently and timely. This position also provides technical assistance to the environmental specialists and makes final action decisions/recommendations for problem inspections.

One Health Facilities Consultant (A29, $48,852, Step H) – this position will complete the inspections of the Medical Marijuana Testing Facilities in order to monitor compliance with the specific requirements needed to obtain and maintain certification. This position will also provide technical assistance to the testing facilities to assist with obtaining and maintaining the certification. This specialty position was chosen as this classification currently completes the inspections of other medical laboratories certified by the state.

49 Senior Office Support Assistant (SOSA) positions (A12, $26,340, Step F) – duties will include processing of paper applications to include opening and date stamping of mail, entry of application information into the electronic registry, initial verification of applicant and physician identification, initial application review to include determination of application approval or denial (including incomplete status), preparation of patient and caregiver identification cards, preparation of patient/caregiver cultivation identification cards, initial processing of medical marijuana facility applications, preparation of identification cards for

all owners and employees of the medical marijuana facility licensees, processing revoked cards, and answering of phones and assisting telephone callers.

24 Health Program Representative II (HPR II) positions (A21, $35,640, Step G) – duties will include supervision of the SOSA positions and quality assurance checks of the application entry and initial verification completed by the SOSAs. This position will have responsibility for final approval of application incomplete notices, rejects, revocations, and card issuances. This position will ensure application process deadlines as mandated by proposed amendment are met. This position will also verify all registrations of owners and employees associated with the licensed medical marijuana facilities, including coordination with the Inspectors and Environmental Public Health Specialists for final issuance of facility licenses.

For fiscal note purposes they calculated 45 minutes per patient and caregiver application and 45 minutes per patient or caregiver cultivation application.

197,445 (184,596 patient and caregiver apps + 12,849 cultivation apps) X .75/hour / 2,080 hours per year per staff = 71.2 staff (round to 71 staff).

They calculated 14 hours for the processing of a dispensing facility license application and 15 hours for the processing of the cultivation and manufacturing facility license (additional hour for processing transportation certification application).

(192 dispensing facilities x 14 hours) + (61 cultivation facilities x 15 hours) + (87 infused products manufacturing facilities x 15 hours) = 4,908 total hours/divided by 2,080 hrs/year per staff = 2.4 staff (round to 2 staff). This is a total of 73 processing staff (SOSA and HPR II positions).

Printing Costs

They will print individual identification cards for the qualified patient, caregiver, patient or caregiver cultivation identification card, and identification cards for each owner, board member, employee of the licensed facilities. The cards are encoded with a magnetic stripe for security and linkage to the IT system for dispensing purposes. DCPH will purchase a card delivery system with the ability to print the card with the magnetic stripe, attach the card to a personalized letter, and secure in an envelope ready for mailing. The initial cost of the card delivery system is estimated at $277,000. In addition there will be an annual equipment preventative maintenance fee of $34,000. The average supply cost to print each card is $0.59/card.

They are estimating the number of identification cards to be printed each year per facility licensed to be 25 for a cultivation facility, 10 for a dispensing facility, and 25 for a manufacturing facility. (61 cultivation facilities x 25 = 1,525 cards, 192 dispensing facilities x 10 = 1,920 cards, 87 manufacturing facilities x 25 = 2,175 cards) License certificates will be printed for each facility on special certificate paper (heat sensitive ink background) provided by state printing at a cost of approximately $200 per 1,000 pieces of

certificate paper. The license certificates and identification cards for facilities will not be produced until FY 2020 when the facility becomes licensed.

DCPH will print 100,000 brochures each year the program is operational at a cost of $0.06 per brochure. This brochure will provide the public with information about the medical cannabis program and assistance in completing a valid registration.

FY 2019

- 100,000 brochures ($0.06 per brochure) = $6,000

FY 2020

- 184,596 patient and caregiver cards + 12,849 cultivation cards + 1,525 identification cards for cultivation facilities, 1,920 identification cards for dispensing facilities + 2,175 for manufacturing facilities = 203,065 cards x $0.59 per card/print supplies = $119,808
- 492 Certificates for facility licenses and certifications ($200/1,000) = $200
- 100,000 brochures ($0.06 per brochure) = $6,000

Mailing Costs

Each qualifying patient and primary caregiver will receive his/her card in the mail. If the patient or caregiver applied for a cultivation identification card, that card will be mailed separately. Each licensed facility will be mailed a copy of their license and identification cards. It is estimated that 10 percent of the registered participants, caregivers and patient/caregiver cultivators will submit a change request to their application requiring a change notification receipt by mailing. It is projected that five percent of all applications will be incomplete and requires mailing of an incomplete notice. It is also projected that 25 percent of the printed brochures (25,000) along with paper applications will be mailed to the public upon request. The other printed brochures will be available for distribution at conferences and other public venues.

Projected mailings are as follows:

	FY 2018	FY 2019	FY 2020
Patient and Caregiver ID Cards	0	0	184,596
Cultivation ID Cards	0	0	12,849
Facility Certificates	0	0	492
Facility Identification Cards	0	0	5,620
Change Request Notifications	0	0	17,774
Incomplete Notifications	0	0	8,887
Brochures/app mailed	0	25,000	25,000
Total mailings	**0**	**25,000**	**255,218**

FY 2019

- 25,000 envelopes ($41 per 1,000) = 25 X $41 = $1,025
- Postage (25,000 x $0.39/postage rate) = $9,750

FY 2020

- 255,218 envelopes ($41 per 1,000) = 256 X $41 = $10,496
- Postage (255,218 x $0.39/postage rate) = $99,535

Criminal Records Check

Section 1.3.(2)(h) suggests that individual identification cards for owners, officers, managers, contractors, employees and other support staff of the licensed facilities shall include a fingerprint-based federal and state criminal record check in accordance with U.S. Public Law 92-544. Section 1.7(2) states no licensed facility shall have an owner, officer, manager, contractor, employee or other support staff with a disqualifying felony offense. They assumes that as part of the facility license application, the facilities would need to submit a current finger print based criminal record report as would be promulgated in rule. Therefore, they assume no cost for obtaining the fingerprint check.

Information Technology Services Division (ITSD)

Application Storage Costs

In order to manage the final storage of paper applications submitted, Content Manager for electronic scanning and storage will be utilized. The costs for Content Manager are estimated at $132 per month for the state data server costs, $234 for an annual license for each user who needs to view files and $828 for an annual license for each position with ability to scan/import documents. Content Manager services will not be acquired until FY 2020.

Information Systems Development

Estimating a 12 month project duration with a project team consisting of 4 IT Consultants. Applications will be received as paper submissions to the department. System will print licenses and identification cards for physical delivery to the applicant. The system will be hosted in the State Data Center (SDC) on existing virtual servers. Disk space has been estimated at 50 GB for Development and Test with 150 GB estimated for Production. While we have estimated for a system build it is possible COTS solutions are available at a similar cost. Estimated costs are detailed above in the ITSD-DHSS table.

Division of Administration

DHSS-DA assumes one Accounting Clerk can process 30,000 receipt transactions per year. An Accounting Generalist I/II would be needed to supervise for every five Account Clerks.

Accounting Clerk (A12, $26,340, Step F) duties would include:

- Open and sort mail;
- Process and enter receipts in the department computer system;
- Prepare bank deposits and cash receipts documents;
- Reconcile daily receipts;
- Distribute supporting documentation program.

Accounting Generalist I/II (A25, $41,184, Step G) duties would include:

- Supervise and review the work of Accounting Clerks who are processing the fees.

Each application and license would have a fee transaction.

FY2019	FY2020	Transaction
0	184,596	Patient & Caregiver Application
0	12,849	Patient & Caregiver Cultivation Application
30	92	Cultivation Facility Application
96	288	Dispensing Facility Application
43	131	Manufacturing Facility Application
0	152	Certifications
169	198,108	Total Number of Transactions
	6.00 FTE	Accounting Clerk
	1.00 FTE	Accounting Generalist I/II

Office of General Counsel

Legal Counsel ($50,000)

One full-time attorney would be needed to assist in drafting emergency and proposed regulations and forms; perform legal research and provide day-to-day legal counsel to the program; and represent the department in appeals of licensure and identification card denials.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated their department would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated a fiscal impact of $11,229 in fiscal year 2019, $35,262 in fiscal year 2020, $67,160 in fiscal year 2025 and thereafter.

Results of studies at this time show conflicting results on the criminal impacts of current medical marijuana laws. However, with the increased licensing and regulation there are also increased possibilities of secondary crimes through false physician recommendations, non-compliance in registration, illegal possession, vehicular infractions or injury, and theft. While many of these violations may carry only municipal or licensing level penalties, some would ultimately fall under felony charges.

Thus, the expected impact of IP 18-51 should bring about 2 new prison admissions and 3 new field admissions in the first year of enactment (FY19). The maximum impact should be expected by FY25 and will lead to an additional 3 offenders in prison and 18 offenders in the field.

In addition, this proposal would be impactful to their department in that we currently test our staff for marijuana use and discipline accordingly. If our staff were to live in a household, or visit another person, who is legally using medical marijuana they would then be exposed to second-hand smoke and would likely test positive themselves. There would be no way for us to determine which of our staff are innocently exposed from those who are abusing this substance illegally.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** indicated total fund costs for General Revenue will be $242,855 for fiscal year 2018, $124,921 for fiscal year 2019, and $126,460 for fiscal year 2020, which includes information technology (IT) related costs of $150,012 for fiscal year 2018, $30,752 for fiscal year 2019, and $31,521 for fiscal year 2020 for IT consultants.

This legislation increases total state revenue by an unknown amount from the sales tax collected on the sale of medical marijuana.

Section 4
The legislation levies a four percent tax on the retail sale of medical marijuana by Medical Marijuana Dispensary Facilities. Their department may retain up to five percent for the cost of collection. The petition creates the Missouri Veterans' Health and Care Fund. The Commissioner of Administration may make cash operating transfers to the fund to meet cash requirements in advance of receiving revenues. The tax levied by this section is separate and in addition to any general state and local sales tax that applies to retail sales. Because their department does not have enforcement responsibilities, it may make more sense for the taxes to be paid to the Department of Health and Senior Services and then sent to their department for deposit into the fund.

Administrative Impact:

Collections & Tax Assistance:
This section will see additional registrations, registration phone calls, business tax account update requests, and delinquent phone contacts from the additional businesses registering to collect sales tax on medical marijuana. Collections and Tax Assistance requires two (2) Revenue Processing Technicians I (Range 10, Step L) per 24,000 additional contacts to the registration section and 15,000 contacts annually on the delinquent tax line. Each technician requires CARES equipment.

Business Tax Processing:
Although the legislation bases the four percent tax on the retail selling price, it is separate from sales and use tax. This tax needs to be reported and deposited separately from sales and use tax. This would require new reporting forms and a new program to track and distribute receipts. This will include a new program within the Integrated Tax System.

Officials from the **Department of Public Safety - Office of Director and the Division of Alcohol and Tobacco Control** each indicated they see no fiscal impact due to this initiative petition.

Officials from the **Missouri State Highway Patrol** indicated for the Criminal Records Fund estimated revenue of $179,040 and estimated costs of $67,140 for fiscal year 2018, unknown impact for fiscal year 2019, and unknown impact for fiscal year 2020.

For each fingerprint-based background check processed, the state retains the $20 state fee and $2 of the federal charge for a pass-thru fee.

The proposed legislation would allow medical marijuana for medical use and provide that it shall be taxed at four percent of the retail price.

According to the 2015 United States Census Bureau's census estimate, Missouri's population was 6,083,672. Based on this total, the number of Cultivation Facilities, Dispensary Facilities, and Infused Products Manufacturing Facilities is as follows:

Cultivation Facilities
Assuming a limit is set at the minimum of 1 facility per 100,000 inhabitants per the proposed amendment, 60 licenses for cultivation facilities may be issued. Further estimating an average of 25 employees per facility, the total number of criminal record checks for employees, owners etc. of Cultivation Facilities equals 1,500 (60 x 25).

Dispensing Facilities
Assuming the maximum number of licenses that will be issued in each of the eight United States Congressional Districts in the state of Missouri is 24, the maximum number of licenses issued for Dispensing facilities equals 192 (24 x 8). Further estimating 10 employees per facility, the total number of criminal record checks for employees, owners etc. of Dispensary Facilities equals 1,920 (192 x 10).

Infused Products Manufacturing Facilities
Assuming a limit is set at the minimum of 1 facility per 70,000 inhabitants (per the proposed constitutional amendment) the number of facilities would equal 87 (6,083,672 / 70,000). Further estimating an average of 25 employees per facility, the total number of criminal record checks for employees, owners, etc. of Cultivation Facilities equals 2,175 (87 x 25).

The estimated number of state and federal fingerprint-based criminal record checks estimated to be generated with the passage of this amendment is 5,595 (1,500 for

Cultivation Facilities; 1,920 - Dispensing Facilities; 2,175 - Infused Products Manufacturing Facilities).

The charge for each background check processed is $40.30. Twenty dollars for the state fingerprint check, $12 for the federal check, and an $8.30 charge for the statewide applicant fingerprinting contractor fee ($20 + $12 + 8.30 = $40.30). Of this amount, the state retains the $20 fee and $2 of the federal charge of $12 for a pass-thru fee. The $8.30 charge is paid directly to the vendor at the time of application.

Estimated Revenue FY18
5,595 x $32 (state/federal background check) $179,040

Estimated Expense FY18
5,595 x $12 (federal background check charge) $67,140

Subsequent yearly background checks will be based on turnover.

Estimated Revenue FY19 and beyond
??? x $32 (state/federal background check)

Estimated Expense FY19 and beyond
??? x $12 (federal background check charge)

Officials from the **Department of Social Services** indicated no fiscal impact on their department.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated no fiscal impact.

Officials from the **Office of Administration** (OA) indicated:

Article XVI, Section 1 through 3 allows the Department of Health and Senior Services (DHSS) to grant or refuse state licenses for the cultivation, manufacture, distribution, and sale of marijuana for medical use. This authority includes the creation and imposition of administrative penalties; however, no actual amounts are given.

The article establishes facility license fees for medical marijuana cultivation facilities, medical marijuana dispensary facilities, and medical marijuana-infused products manufacturing facilities. Table 1 outlines the fees and renewal periods by facility license

type. In addition to facility fees, Section 3 creates certifications for a seed-to-sale system, transportation, and medical marijuana testing facilities. DHSS is allowed to charge up to $5,000 per certification and must certify at least two seed-to-sale tracking systems and two testing facilities; however, no minimum requirement was listed for the transportation of medical marijuana.

Table 1: Facility License and Annual Fees

Section	Facility License Type	License Fee* Years 1-3	License Fee* Years 3+	Annual Fee*	Renewal Period
3 (8)	medical marijuana cultivation facilities	$10,000	$5,000	$25,000	Every 3 years
3 (9)	medical marijuana dispensary facilities	$6,000	$3,000	$10,000	Every 3 years
3 (10)	medical marijuana-infused products manufacturing facilities	$6,000	$3,000	$10,000	Every 3 years

**License fees and annual fees shall be adjusted each year in accordance with the Consumer Price Index as published by the U.S. Department of Labor.*

Section 3 (12) allows qualifying patients, or his or her primary caregiver, to obtain an identification card allowing for personal cultivation of up to six flowering marijuana plants. Section 3 (19) and Section 3 (20) establish identification cards for qualifying patients of medical marijuana and primary caregivers. Table 2 outlines the fees and renewal periods for the different identification cards.

Table 2: Identification Fees

Section	Identification Type	Fee*	Renewal Period
3 (12)	Personal Cultivation I.D. Card	$100	annually
3 (19)	Qualifying Patient - Identification card	$25	annually
3 (20)	Primary Caregiver - Identification card	$25	annually

**License fees and annual fees shall be adjusted each year in accordance with the Consumer Price Index as published by the U.S. Department of Labor.*

Section 3 (15) states that DHSS may restrict the number of licenses for medical marijuana cultivation facilities; however, the number may not be limited to less than one license per one hundred thousand inhabitants of Missouri. Section 3 (16) states that DHSS may restrict the number of licenses for marijuana-infused products manufacturing facilities; however, the number may not be limited to less than one license per seventy thousand inhabitants of Missouri. Section 3 (17) states that DHSS may limit the number of dispensary facilities to twenty-four licenses in each United States Congressional district. Table 3 outlines the facility count limits and estimates what the facility counts would be based on 2010 U.S. Census data should these limits be implemented. Once the minimum number of facilities has been established, any decrease in the number of inhabitants within Missouri, or changes to the number or boundaries of the Congressional Districts, shall have no impact to the established minimum number of licenses allowed by the article.

Table 3: Facility Count Limits			
Section	**Facility Type**	**Minimum Limit**	**Facility Count**
3 (15)	cultivation facilities	1 per 100,000	60
3 (16)	marijuana-infused products manufacturing facilities	1 per 70,000	86
3 (17)	medical marijuana dispensaries	24 per U.S. Congressional District	192

Section 4 (1) creates a 4% sales tax on the retail sale of marijuana for medical use sold at medical dispensary facilities within the state. Revenues from this tax shall be paid to the Department of Revenue (DOR). DOR may retain up to five percent for collection costs. The remainder shall be deposited in the Missouri Veterans' Health and Care Fund.

Section 4 (2) creates the Missouri Veterans' Health and Care Fund in the state treasury which will consist of taxes and fees collected under this section. This fund shall be a dedicated fund and shall stand appropriated without further legislative action. DHSS shall be appropriated an amount necessary to carry out this section. The remainder shall be transferred to the Missouri Veterans' Commission for health and care services for military veterans.

Section 9 states that the effective date of Article XVI would be December 6, 2018. However, B&P estimates that revenue generation would not begin until at least June 2019 for patients and July 2019 for facilities given the provisions in Section 3.

Using data from Arizona, which has a similar medical marijuana law, B&P estimates that up to 65,547 patients and caregivers could utilize this bill. Of these, up to 2,000 may gain approval for personal cultivation. B&P estimates that annual fees for patients, caregivers, and personal cultivation could generate approximately $1.4M annually by FY 2021, assuming growth is similar to that seen with the Arizona medical marijuana program.

B&P estimates that license fees for medical marijuana facilities could generate approximately $2.3M in FY 2020, and $1.1M every three years thereafter. The initiative petition does not specify whether these facilities would pay the annual fee and a license renewal fee every three years. Therefore, B&P assumes that both would need to be paid in the third year of a license. Table 4 outlines the revenues from the license and annual fees.

Table 4: License and Annual Fees by Patient and Facility Type					
Patient and Facility Type	**Revenue Generated by License Fees**				
	FY 2019	**FY 2020***	**FY 2021***	**FY 2022***	**FY 2023***
Patients and Caregivers**	$87,000	$1,046,000	$1,186,000	$1,704,000	$1,737,000
Personal Cultivation**	$17,000	$200,000	$204,000	$208,000	$212,000
Cultivation Facilities^		$600,000	$1,531,000	$1,561,000	$1,905,000
Infused Product Manufacturer^		$516,000	$879,000	$896,000	$1,183,000
Dispensary^		$1,152,000	$1,962,000	$2,000,000	$2,642,000
Total	**$104,000**	**$3,514,000**	**$5,762,000**	**$6,369,000**	**$7,679,000**

**Assumes 2% inflation*

***Assumes growth similar to that seen in the medical marijuana program in Arizona*

^ Assumes a 1.2% turnover rate in facility licenses

Section 4 requires a four percent sales tax to be applied to all sales of marijuana products, in addition to current state and local sales tax. Based on sales data from Arizona during 2014 of $110M and 2015 of approximately $155.7M, B&P calculates that this provision could increase TSR by $6.6M and GR by $4.7M once fully implemented. Table 5 outlines the estimated revenues from each tax and where revenues will be directed.

Table 5: Sales Tax Revenues					
Sales Tax Fund	**Revenue Generated by Sales Tax**				
	FY 2019	**FY 2020***	**FY 2021***	**FY 2022***	**FY 2023***
Missouri Veterans' Health and Care Fund		$2,200,000	$6,229,000	$6,229,000	$6,229,000
General Revenue		$1,650,000	4,672,000	4,672,000	4,672,000
Education		$550,000	$1,557,000	$1,557,000	$1,557,000
Parks, Soil, and Water		$55,000	$156,000	$156,000	$156,000
Conservation		$69,000	$195,000	$195,000	$195,000
Total	**$0**	**$4,524,000**	**$12,809,000**	**$12,809,000**	**$12,809,000**

**Based on sales data from Arizona during 2014 and 2015*

B&P estimates that all provisions in this initiative petition could increase TSR by $2.3M and GR by $1.7M in FY20. In FY21, TSR could increase by $6.6M and GR by $4.7M. This initiative petition will not impact the calculations under 18(e).

Table 6: Summary of Revenue Generated by Medical Marijuana Taxes and Fees

^ Assumes a 1.2% turnover rate in facility licenses

^^Based on sales data from Arizona during 2014 and 2015

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated no fiscal impact on their office.

Officials from the **Secretary of State's office** indicated their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted

each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any impact on their office.

Officials from the **State Treasurer's office** indicated this would have no fiscal impact on their office.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from the **City of Kansas City** indicated sales taxes could be collected. No amount can be reasonably estimated.

Officials from the **City of Raymore** indicated no fiscal impact.

Officials from the **City of St. Joseph** indicated this will not have a fiscal impact on the local government.

Officials from **University of Missouri** indicated the University of Missouri Health Care (MUHC) has reviewed the proposed initiative petition and determined that the fiscal impact should not exceed $100,000 annually.

Joy Sweeney, Executive Director, Council for Drug Free Youth provided the following information for this initiative petition.

Fiscal Impact of Marijuana Legalization

The fiscal impact of marijuana legalization is far reaching. Colorado has provided a great deal of data for Missouri to utilize to determine the impact legalization will have here.

The information in this report is from The Rocky Mountain High Intensity Drug Trafficking Area (HIDTA) Report[1], and it provides a basis of study for the effects of the legalization of marijuana, including fiscal ramifications. The American Society of Addiction Medicine (ASAM) "asserts that the anticipated public health costs of marijuana legalization are significant…"[2] **It is important to note the various costs incurred with legalization, including enforcement, prevention, education, treatment, medical costs, etc.** By utilizing the HIDTA Report, Missouri can predict the cost to the state. A summary of their findings follows:

Colorado tracked data from three waves of marijuana legalization:

- 2006-2008 is the "early medical marijuana era"
- 2009-Present is the "medical marijuana commercialization and expansion era"
- 2013-Present is the "recreational marijuana era"

<u>Impaired Driving</u>

Marijuana-related traffic deaths increased 48 percent in the three-year average (2013-2015) since Colorado legalized recreational marijuana compared to the three-year average (2010-2012) prior to legalization.

During the same time, all traffic deaths increased 11 percent.

Marijuana-related traffic deaths increased 62 percent from 71 to 115 persons after recreational marijuana was legalized in 2013.

In 2009, Colorado marijuana-related traffic deaths involving operators testing positive for marijuana represented 10 percent of all traffic fatalities. By 2015, that number doubled to 21 percent.

The Colorado State Patrol DUID Program 2015 data includes:

- 77 percent (665) of the 862 DUIDs involved marijuana
- 40 percent (347) of the 862 DUIDs involved marijuana only

Average Marijuana Related Fatalities increased 48% between 2008-2012 and 58% between 2012-2015.

Operators involved in fatalities testing positive for marijuana more than tripled:

- 2006 was 4.03%
- 2009 was 6.41%
- 2013 was 8.97%

[1] *Rocky Mountain High Intensity Drug Trafficking Area*. "The Legalization of Marijuana in Colorado: The Impact". Volume 4, September 2016. http://www.rmhidta.org/html/2016%20FINAL%20Legalization%20of%20Marijuana%20in%20Colorado%20The%20Impact.pdf

[2] American Society of Addiction Medicine, *State-Level Proposals to Legalize Marijuana*, http://www.asam.org/advocacy/find-a-policy-statement/view-policy-statement/public-policy-statements/2012/07/30/state-level-proposals-to-legalize-marijuana, July 2012.

- 2015 was 12.06%

Effects on Youth

From school years 2008-2014, **drug related suspensions/expulsions increased 40%.**
58% of all drug related expulsions were for marijuana.

Past month marijuana use for youth aged 12-17 reports:

National rates	Colorado rates
2008-6.72 % of youth	2008-8.75% of youth
2014-7.22% of youth	2014-11.74% of youth

Referrals to Law Enforcement

In 2006, total drug related referrals to law enforcement were 23.4%; compared to alcohol at 8%.
In 2016, total referrals were 29.7%, compared to 4.3% for alcohol.
In the 2015/16 school year, 73% of all drug related referrals were for marijuana.

Emergency Room Visits Related to Marijuana

2012-9,982
2013-12,888
2014-18,255
From 2012-2014, there was a 49% increase.

Total of all hospitalizations that were marijuana related:
2000-2,541
2013-8,078
2014-9,856

The national **average percent of children ages 0-5 reported for marijuana exposure** from 2010-2013 was 4.97%. **In Colorado it was 17.81%**

Between 2003 and 2013, accidental marijuana exposure to youth under age six increased by about 150 percent.

Treatment Admissions for Marijuana

Data from Colorado from 2005-2013 doesn't demonstrate a definitive trend and averages about 6,500 admissions a year….There may be a drop in treatment admissions for marijuana abuse among adults because of a reduction in criminal justice referrals through diversion and drug courts due to fewer people entering the system.

73.6% of youth in the Denver Health Clinic youth are male, the mean age is 15.8 years, and 98.1% are there primarily for cannabis use disorder.

Other Pertinent Information

- As of January 2016, there were 424 retail marijuana stores in the state of Colorado compared to 322 Starbucks and 202 McDonald's.
- 68 percent of local jurisdictions have banned medical and recreational marijuana businesses.
- From 2014 to 2015, property crime increased 6.2 percent, violent crime increased 6.7 percent, and all crime increased 6.2 percent.
- 93% of CO medical marijuana card holders obtained it to treat "severe pain"

The State Auditor's office did not receive a response from the **Department of Elementary and Secondary Education, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, St. Louis Community College,** and the **Lieutenant Governor's Office**.

Fiscal Note Summary

This proposal is estimated to generate annual taxes and fees of $18 million for state operating costs and veterans programs, and $6 million for local governments. Annual state operating costs are estimated to be $7 million.

The Honorable Nicole Galloway
State Auditor
State Capitol Building
Jefferson City, MO 65101

RE: Petition approval request from Sheila Dundon regarding a proposed constitutional amendment to Article XVI, version 1 (2018-051)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Sheila Dundon on November 28, 2016.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

Jason Kander

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Article XVI is created by enacting one new section to be known as Section 1 of Article XVI, to read as follows:

Section 1. Right to Access Medical Marijuana

1. **Purposes**

This section is intended to permit state-licensed physicians to recommend marijuana for medical purposes to patients with serious illnesses and medical conditions. The section allows patients with qualifying medical conditions the right to discuss freely with their physicians the possible benefits of medical marijuana use, the right of their physicians to provide professional advice concerning the same, and the right to use medical marijuana for treatment under the supervision of a physician.

This section is intended to make only those changes to Missouri laws that are necessary to protect patients, their primary caregivers, and their physicians from civil and criminal penalties, and to allow for the limited legal production, distribution, sale and purchase of marijuana for medical use. This section is not intended to change current civil and criminal laws governing the use of marijuana for nonmedical purposes. The section does not allow for the public use of marijuana and driving under the influence of marijuana.

2. **Definitions**

(1) "Administer" means the direct application of marijuana to a Qualifying Patient by way of any of the following methods:

(a) Ingestion of capsules, teas, oils, and other marijuana-infused products;

(b) Vaporization or smoking of dried flowers, buds, plant material, extracts, or oils;

(c) Application of ointments or balms;

(d) Transdermal patches and suppositories;

(e) Consuming marijuana-infused food products; or

(f) Any other method recommended by a Qualifying Patient's physician.

(2) "Department" means the Department of Health and Senior Services, or its successor agency.

(3) "Entity" means a natural person, corporation, professional corporation, nonprofit corporation, cooperative corporation, unincorporated association, business trust, limited liability company, general or limited partnership, limited liability partnership, joint venture, or any other legal entity.

(4) "Flowering plant" means a marijuana plant from the time it exhibits the first signs of sexual maturity through harvest.

(5) "Marijuana" or "Marihuana" means ***Cannabis indica***, ***Cannabis sativa***, and ***Cannabis ruderalis***, hybrids of such species, and any other strains commonly understood within the scientific community to constitute marijuana, as well as resin extracted from the plant and marijuana-infused products. "Marijuana" or "Marihuana" do not include industrial hemp containing a crop-wide average tetrahydrocannabinol concentration that does not exceed three-tenths of one percent on a dry weight basis, or commodities or products manufactured from industrial hemp.

(6) "Marijuana-Infused Products" means products that are infused with marijuana or an extract thereof and are intended for use or consumption other than by smoking, including, but not limited to, edible products, ointments, tinctures and concentrates.

(7) "Medical Marijuana Cultivation Facility" means a facility licensed by the Department, to acquire, cultivate, process, store, transport, and sell marijuana to a Medical

Marijuana Dispensary Facility, Medical Marijuana Testing Facility, or to a Medical Marijuana-Infused Products Manufacturing Facility.

(8) "Medical Marijuana Dispensary Facility" means a facility licensed by the Department, to acquire, store, sell, transport, and deliver marijuana, marijuana-infused products, and drug paraphernalia used to administer marijuana as provided for in this section to a Qualifying Patient, a Primary caregiver, another Medical Marijuana Dispensary Facility, a Medical Marijuana Testing Facility, or a Medical Marijuana-Infused Products Manufacturing Facility.

(9) "Medical Marijuana-Infused Products Manufacturing Facility" means a facility licensed by the Department, to acquire, store, manufacture, transport, and sell marijuana-infused products to a Medical Marijuana Dispensary Facility, a Medical Marijuana Testing Facility, or to another Medical Marijuana-Infused Products Manufacturing Facility.

(10) "Medical Marijuana Testing Facility" means a facility certified by the Department, to acquire, test, certify, and transport marijuana.

(11) "Medical use" means the production, possession, delivery, distribution, transportation, or administration of marijuana or a marijuana-infused product, or drug paraphernalia used to administer marijuana or a marijuana-infused product, for the benefit of a Qualifying Patient to mitigate the symptoms or effects of the patient's qualifying medical condition.

(12) "Physician" means an individual who is licensed and in good standing to practice medicine or osteopathy under Missouri law.

(13) "Physician certification" means a document, whether handwritten, electronic or in another commonly used format, signed by a physician and stating that, in the physician's professional opinion, the patient suffers from a qualifying medical condition.

(14) "Primary caregiver" means an individual twenty-one years of age or older who has significant responsibility for managing the well-being of a Qualifying Patient and who is designated as such on the primary caregiver's application for an identification card under this section or in other written notification to the Department.

(15) "Qualifying medical condition" means the condition of, symptoms related to, or side-effects from the treatment of:

(a) Cancer;

(b) Epilepsy;

(c) Glaucoma;

(d) Intractable migraines unresponsive to other treatment;

(e) A chronic medical condition that causes severe, persistent pain or persistent muscle spasms, including but not limited to those associated with multiple sclerosis, seizures, Parkinson's disease, and Tourette's syndrome;

(f) Debilitating psychiatric disorders, including, but not limited to, post-traumatic stress disorder, if diagnosed by a state licensed psychiatrist;

(g) Human immunodeficiency virus or acquired immune deficiency syndrome;

(h) A chronic medical condition that is normally treated with a prescription medication that could lead to physical or psychological dependence, when a physician determines that medical use of marijuana could be effective in treating that condition and would serve as a safer alternative to the prescription medication;

(i) Any terminal illness; or

(j) In the professional judgment of a physician, any other chronic, debilitating or other medical condition, including, but not limited to, hepatitis C, amyotrophic lateral sclerosis, inflammatory bowel disease, Crohn's disease, Huntington's disease, autism, neuropathies, sickle cell anemia, agitation of Alzheimer's disease, cachexia, and wasting syndrome.

(16) "Qualifying Patient" means a Missouri resident diagnosed with at least one qualifying medical condition.

3. **Creating Patient Access to Medical Marijuana**

(1) In carrying out the implementation of this section, the Department shall have the authority to:

(a) Grant or refuse state licenses and certifications for the cultivation, manufacture, dispensing, sale, testing, tracking, and transportation of marijuana for medical use as provided by law; suspend, fine, restrict, or revoke such licenses and certifications upon a violation of this section or a rule promulgated pursuant to this section; and impose any administrative penalty authorized by this section or any rule promulgated pursuant to this section.

(b) Promulgate rules and emergency rules necessary for the proper regulation and control of the cultivation, manufacture, dispensing, and sale of marijuana for medical use and for the enforcement of this section so long as patient access is not restricted unreasonably and such rules are reasonably necessary for patient safety or to restrict access to only licensees and Qualifying Patients.

(c) Develop such forms, certificates, licenses, identification cards, and applications as are necessary for, or reasonably related to, the administration of this section or any of the rules promulgated under this section;

(d) Require a seed-to-sale tracking system that tracks medical marijuana from either the seed or immature plant stage until the medical marijuana or medical marijuana-infused product is sold to a Qualifying Patient or Primary Caregiver to ensure that no medical marijuana grown by a Medical Marijuana Cultivation Facility or manufactured by a Medical Marijuana-Infused Products Manufacturing Facility is sold or otherwise transferred except by a Medical Marijuana Dispensary Facility. The Department shall certify, if possible, at least two commercially available systems to licensees as compliant with its tracking standards and issue standards for the creation or use of other systems by licensees.

(e) Issue standards for the secure transportation of Marijuana and Marijuana-Infused Products. The Department shall certify entities which demonstrate compliance with its transportation standards to transport Marijuana and Marijuana-Infused Products to a Medical Marijuana Cultivation Facility, a Medical Marijuana-Infused Products Manufacturing Facility, a Medical Marijuana Dispensary Facility, a Medical Marijuana Testing Facility, or another entity with a transportation certification. The Department shall develop or adopt from any other governmental agency such safety and security standards as are reasonably necessary for the transportation of marijuana. Any entity licensed or certified pursuant to this section shall be allowed to transport cannabis.

(f) The Department may charge a fee not to exceed $5,000 for any certification issued pursuant to this section.

(g) Prepare and transmit annually a publicly available report accounting to the Governor for the efficient discharge of all responsibilities assigned to the Department under this section;

(h) Establish a system to numerically score competing medical marijuana licensee and certificate applicants, only in cases where more applicants apply than the minimum number of licenses or certificates as calculated by this section, which scoring shall be limited to an analysis of the following: (i) the character, veracity, background, qualifications, and relevant experience of principal officers or managers; (ii) the business plan proposed by the applicant, which in the case of cultivation facilities and dispensaries shall include the ability to maintain an adequate supply of marijuana, plans to ensure safety and security of Qualifying Patients and the community, procedures to be used to prevent diversion, and any plan for making Marijuana available to low-income Qualifying Patients; (iii) site security; (iv) experience in a legal cannabis market; (v) in the case of Medical Marijuana Testing Facilities, the experience of their personnel with testing marijuana, food or drugs for toxins and/or potency and health care industry experience; (vi) the potential for positive economic impact in the site community; (vii) in the case of Medical Marijuana Cultivation Facilities, capacity or experience with agriculture, horticulture, and health care; (viii) in the case of Medical Marijuana Dispensary Facilities, capacity or experience with health care, the suitability of the proposed location, and its accessibility for patients; (ix) in the case of Medical Marijuana-Infused Products Manufacturing Facilities, capacity or experience with food and beverage manufacturing; and (x) maintaining competitiveness in the marijuana for medical use marketplace. In ranking applicants and awarding licenses and certificates, the Department may consult or contract with other public agencies with relevant expertise regarding these factors. The Department shall lift or ease any limit on the number of licensees or certificate holders in order to meet the demand for marijuana for medical use by Qualifying Patients.

(2) The Department shall issue any rules or emergency rules necessary for the implementation and enforcement of this section and to ensure the right to, availability, and safe use of marijuana for medical use by Qualifying Patients. In developing such rules or emergency rules, the Department may consult with other public agencies. In addition to any other rules or emergency rules necessary to carry out the mandates of this section, the Department may issue rules or emergency rules relating to the following subjects:

(a) Compliance with, enforcement of, or violation of any provision of this section or any rule issued pursuant to this section, including procedures and grounds for denying, suspending, fining, restricting, or revoking a state license or certification issued pursuant to this section;

(b) Specifications of duties of officers and employees of the Department;

(c) Instructions or guidance for local authorities and law enforcement officers;

(d) Requirements for inspections, investigations, searches, seizures, and such additional enforcement activities as may become necessary from time to time;

(e) Creation of a range of administrative penalties for use by the Department;

(f) Prohibition of misrepresentation and unfair practices;

(g) Control of informational and product displays on licensed premises provided that the rules may not prevent or unreasonably restrict appropriate signs on the property of the Medical Marijuana Dispensary Facility, product display and examination by the Qualifying Patient and/or Primary caregiver, listings in business directories including phone books, listings in marijuana-related or medical publications, or the sponsorship of health or not for profit charity or advocacy events;

(h) Development of individual identification cards for owners, officers, managers, contractors, employees, and other support staff of entities licensed or certified pursuant to this section, including a fingerprint-based federal and state criminal record check in accordance with U.S. Public Law 92-544, or its successor provisions, as may be required by the Department prior to issuing a card and procedures to ensure that cards for new applicants are issued within fourteen days. Applicants licensed pursuant to this section shall submit fingerprints to the Missouri state highway patrol for the purpose of conducting a state and federal fingerprint-based criminal background check. The Missouri state highway patrol, if necessary, shall forward the fingerprints to the Federal Bureau of Investigation (FBI) for the purpose of conducting a fingerprint-based criminal background check. Fingerprints shall be submitted pursuant to 43.543 and fees shall be paid pursuant to 43.530;

(i) Security requirements for any premises licensed or certified pursuant to this section, including, at a minimum, lighting, physical security, video, alarm requirements, and other minimum procedures for internal control as deemed necessary by the Department to properly administer and enforce the provisions of this section, including reporting requirements for changes, alterations, or modifications to the premises;

(j) Regulation of the storage of, warehouses for, and transportation of marijuana for medical use;

(k) Sanitary requirements for, including, but not limited to, the preparation of medical Marijuana-Infused Products;

(l) The specification of acceptable forms of picture identification that a Medical Marijuana Dispensary Facility may accept when verifying a sale;

(m)Labeling and packaging standards;

(n) Records to be kept by licensees and the required availability of the records;

(o) State licensing procedures, including procedures for renewals, reinstatements, initial licenses, and the payment of licensing fees;

(p) The reporting and transmittal of tax payments;

(q) Authorization for the Department of Revenue to have access to licensing information to ensure tax payment and the effective administration of this section; and

(r) Such other matters as are necessary for the fair, impartial, stringent, and comprehensive administration of this section.

(3) The Department shall issue rules or emergency rules for a medical marijuana and medical marijuana-infused products independent testing and certification program for medical marijuana licensees and requiring licensees to test medical marijuana using one or more impartial, independent laboratories to ensure, at a minimum, that products sold for human consumption do not contain contaminants that are injurious to health, to ensure correct labeling and measure potency. The Department shall not require any medical marijuana or medical marijuana-infused products to be tested more than once prior to sale.

(4) The Department shall issue rules or emergency rules to provide for the certification of and standards for Medical Marijuana Testing Facilities, including the requirements for equipment and qualifications for personnel, but shall not require certificate holders to have any federal agency licensing or have any relationship with a federally licensed testing facility. The Department shall certify, if possible, at least two entities as Medical Marijuana Testing Facilities. No Medical Marijuana Testing Facility shall be owned by an entity under substantially common control, ownership, or management as

a Medical Marijuana Cultivation Facility, Medical Marijuana-Infused Product Manufacturing Facility, or Medical Marijuana Dispensary Facility.

(5) The Department shall maintain the confidentiality of reports or other information obtained from an applicant or licensee containing any individualized data, information, or records related to the licensee or its operation, including sales information, financial records, tax returns, credit reports, cultivation information, testing results, and security information and plans, or revealing any patient information, or any other records that are exempt from public inspection pursuant to state or federal law. Such reports or other information may be used only for a purpose authorized by this section. Any information released related to patients may be used only for a purpose authorized by federal law and this section, including verifying that a person who presented a patient identification card to a state or local law enforcement official is lawfully in possession of such card.

(6) Within one hundred eighty days of the effective date of this section, the Department shall make available to the public license application forms and application instructions for Medical Marijuana Cultivation Facilities, Medical Marijuana Testing Facilities, Medical Marijuana Dispensary Facilities, and Medical Marijuana-Infused Products Manufacturing Facilities.

(7) Within one hundred eighty days of the effective date of this section, the Department shall make available to the public application forms and application instructions for Qualifying Patient, Qualifying Patient cultivation, and Primary caregiver identification cards. Within two hundred ten days of the effective date of this section, the Department shall begin accepting applications for such identification cards.

(8) An entity may apply to the Department for and obtain one or more licenses to grow marijuana as a Medical Marijuana Cultivation Facility. Each facility in operation shall require a separate license, but multiple licenses may be utilized in a single facility. Each indoor facility utilizing artificial lighting may be limited by the Department to thirty thousand square feet of flowering plant canopy space. Each outdoor facility utilizing natural lighting may be limited by the Department to two thousand eight hundred flowering plants. Each greenhouse facility using a combination of natural and artificial lighting may be limited by the Department, at the election of the licensee, to two thousand eight hundred flowering plants or thirty thousand square feet of flowering plant canopy. The license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The Department shall charge each applicant a non-refundable fee of ten thousand dollars per license application or renewal for all applicants filing an application within three years of the effective date of this section and shall charge each applicant a non-refundable fee of five thousand dollars per license application or renewal thereafter. Once granted, the Department shall charge each licensee an annual fee of twenty-five thousand dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. No more than three Medical Marijuana Cultivation Facility licenses shall be issued to any entity under substantially common control, ownership, or management.

(9) An entity may apply to the Department for and obtain one or more licenses to operate a Medical Marijuana Dispensary Facility. Each facility in operation shall require a separate license. A license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The Department shall charge each applicant a non-refundable fee of six thousand dollars per license application or renewal for each applicant filing an application within three years of the effective date of this section and shall charge each applicant a non-refundable fee of three thousand dollars per license application or renewal thereafter. Once granted, the Department shall charge each licensee an annual fee of ten thousand dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. No more than five Medical Marijuana Dispensary Facility licenses shall be issued to any entity under substantially common control, ownership, or management.

(10) An entity may apply to the Department for and obtain one or more licenses to operate a Medical Marijuana-Infused Products Manufacturing Facility. Each facility in operation shall require a separate license. A license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The Department shall charge each applicant a non-refundable fee of six thousand dollars per license application or renewal for each applicant filing an application within three years of the effective date of this section and shall charge each applicant a non-refundable fee of three thousand dollars per license application or renewal thereafter. Once granted, the Department shall charge each licensee an annual fee of ten thousand dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. No more than three Medical Marijuana-Infused Products Manufacturing Facility licenses shall be issued to any entity under substantially common control, ownership, or management.

(11) Any applicant for a license authorized by this section may pre-file their application fee with the Department beginning 30 days after the effective date of this section.

(12) Except for good cause, a Qualifying Patient or his or her Primary caregiver may obtain an identification card from the Department to cultivate up to six flowering marijuana plants for the exclusive use of that Qualifying Patient. The card shall be valid for twelve months from its date of issuance and shall be renewable with the annual submittal of a new or updated physician's certification. The Department shall charge an annual fee for the card of one hundred dollars, with such rate to be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency.

(13) The Department may set a limit on the amount of marijuana that may be purchased by or on behalf of a single Qualifying Patient in a thirty day period, provided that limit is not less than four ounces of dried, unprocessed marijuana, or its equivalent. Any such limit shall not apply to a Qualifying Patient with written certification from two independent physicians that there are compelling reasons why the Qualifying Patient needs a greater amount than the limit established by the Department.

(14) The Department may set a limit on the amount of marijuana that may be possessed by or on behalf of each qualifying patient, provided that limit is not less than a sixty day supply of dried, unprocessed marijuana, or its equivalent. A Primary caregiver may possess a separate legal limit for each Qualifying Patient under their care and a separate legal limit for themselves if they are a Qualifying Patient. Qualifying Patients cultivating marijuana for medical use may possess up to a ninety day supply, so long as the supply remains on property under their control. Any such limit shall not apply to a Qualifying Patient with written certification from two independent physicians that there are compelling reasons for additional amounts. Possession of between the legal limit and up to twice the legal limit shall subject the possessor to Department sanctions, including an administrative penalty and loss of their patient identification card for up to a year. Purposefully possessing amounts in excess of twice the legal limit shall be punishable by imprisonment of up to one year and a fine of up to two thousand dollars.

(15) The Department may restrict the aggregate number of licenses granted for Medical Marijuana Cultivation Facilities, provided, however, that the number may not be limited to fewer than one license per every one hundred thousand inhabitants, or any portion thereof, of the state of Missouri, according to the most recent census of the United States. A decrease in the number of inhabitants in the state of Missouri shall have no impact.

(16) The Department may restrict the aggregate number of licenses granted for Marijuana-Infused Products Manufacturing Facilities, provided, however, that the number may not be limited to fewer than one license per every seventy thousand inhabitants, or any portion thereof, of the state of Missouri, according to the most

recent census of the United States. A decrease in the number of inhabitants in the state of Missouri shall have no impact.

(17) The Department may restrict the aggregate number of licenses granted for Medical Marijuana Dispensary Facilities, provided, however, that the number may not be limited to fewer than twenty-four licenses in each United States Congressional district in the state of Missouri pursuant to the map of each of the eight congressional districts as drawn and effective on the effective date of this section. Future changes to the boundaries of or the number of congressional districts shall have no impact.

(18) The Department shall begin accepting license and certification applications for Medical Marijuana Dispensary Facilities, Medical Marijuana Testing Facilities, Medical Marijuana Cultivation Facilities, Medical Marijuana-Infused Products Manufacturing Facilities, seed-to-sale tracking systems, and for transportation of marijuana no later than two hundred forty days after the effective date of this section. Applications for licenses and certifications under this section shall be approved or denied by the Department no later than one hundred fifty days after their submission. If the Department fails to carry out its non-discretionary duty to approve or deny an application within one hundred fifty days of submission, an applicant may immediately seek a court order compelling the Department to approve or deny the application.

(19) Qualifying Patients under this section shall obtain and annually renew an identification card or cards from the Department. The Department shall charge a fee of twenty-five dollars per year per card with such fee to be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor or its successor agency. Upon receiving an application for a Qualifying Patient identification card or Qualifying Patient cultivation identification card, the Department shall, within thirty days, either issue the card or provide a written explanation for its denial. If the Department fails to deny and fails to issue a card to an eligible Qualifying Patient within thirty days, then their physician certification shall serve as their Qualifying Patient identification card or Qualifying Patient cultivation identification card for up to one year from the date of physician certification. All initial applications for or renewals of a Qualifying Patient identification card or Qualifying Patient cultivation identification card shall be accompanied by a physician certification that is less than thirty days old.

(20) Primary caregivers under this section shall obtain and annually renew an identification card from the Department. The Department shall charge a fee of twenty-five dollars per year, with such fee to be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. Upon receiving an application for a Primary caregiver identification card, the Department shall, within thirty days, either issue the card or provide a written explanation for its denial.

(21) All marijuana for medical use sold in Missouri shall be cultivated in a licensed Medical Marijuana Cultivation Facility located in Missouri.

(22) All marijuana-infused products for medical use sold in the state of Missouri shall be manufactured in a Medical Marijuana-Infused Products Manufacturing Facility.

(23) The denial of a license, license renewal, or identification card by the Department shall be appealable to the Administrative Hearing Commission, or its successor entity. Following the exhaustion of administrative review, denial of a license, license renewal, or identification card by the Department shall be subject to judicial review as provided by law.

(24) No elected official shall interfere directly or indirectly with the Department's obligations and activities under this section.

(25) The Department shall not have the authority to apply or enforce any rule or regulation that would impose an undue burden on any one or more licensees or

certificate holders, any Qualifying Patients, or act to undermine the purposes of this section.

4. **Taxation and Reporting**

(1) A tax is levied upon the retail sale of marijuana for medical use sold at Medical Marijuana Dispensary Facilities within the state. The tax shall be at a rate of four percent of the retail price. The tax shall be collected by each licensed Medical Marijuana Dispensary Facility and paid to the Department of Revenue. After retaining no more than five percent for its actual collection costs, amounts generated by the tax levied in this section shall be deposited by the Department of Revenue into the Missouri Veterans' Health and Care Fund. Licensed entities making retail sales within the state shall be allowed approved credit for returns provided the tax was paid on the returned item and the purchaser was given the refund or credit.

(2) There is hereby created in the state treasury the "Missouri Veterans' Health and Care Fund," which shall consist of taxes and fees collected under this section. The State Treasurer shall be custodian of the fund, and he or she shall invest monies in the fund in the same manner as other funds are invested. Any interest and monies earned on such investments shall be credited to the fund. Notwithstanding any other provision of law, any monies remaining in the fund at the end of a biennium shall not revert to the credit of the general revenue fund. The Commissioner of Administration is authorized to make cash operating transfers to the fund for purposes of meeting the cash requirements of the Department in advance of it receiving annual application, licensing, and tax revenue, with any such transfers to be repaid as provided by law. The fund shall be a dedicated fund and shall stand appropriated without further legislative action as follows:

(a) First, to the Department, an amount necessary for the Department to carry out this section, including repayment of any cash operating transfers, payments made through contract or agreement with other state and public agencies necessary to carry out this section, and a reserve fund to maintain a reasonable working cash balance for the purpose of carrying out this section;

(b) Next, the remainder of such funds shall be transferred to the Missouri Veterans Commission for health and care services for military veterans, including the following purposes: operations, maintenance and capital improvements of the Missouri Veterans Homes, the Missouri Service Officer's Program, and other services for veterans approved by the Commission, including, but not limited to, health care services, mental health services, drug rehabilitation services, housing assistance, job training, tuition assistance, and housing assistance to prevent homelessness. The Missouri Veterans Commission shall contract with other public agencies for the delivery of services beyond its expertise.

(c) All monies from the taxes authorized under this subsection shall provide additional dedicated funding for the purposes enumerated above and shall not replace existing dedicated funding.

(3) For all retail sales of marijuana for medical use, a record shall be kept by the seller which identifies, by secure and encrypted patient number issued by the seller to the qualifying patient involved in the sale, all amounts and types of marijuana involved in the sale and the total amount of money involved in the sale, including itemizations, taxes collected and grand total sale amounts. All such records shall be kept on the premises in a readily available format and be made available for review by the Department and the Department of Revenue upon request. Such records shall be retained for five years from the date of the sale.

(4) The tax levied pursuant to this subsection is separate from, and in addition to, any general state and local sales and use taxes that apply to retail sales, which shall continue to be collected and distributed as provided by general law.

(5) Except as authorized in this subsection, no additional taxes shall be imposed on the sale of marijuana for medical use.

(6) The fees and taxes provided for in this Article XVI, Section 1 shall be fully enforceable notwithstanding any other provision in this Constitution purportedly prohibiting or restricting the taxes and fees provided for herein.

(7) The unexpended balance existing in the fund shall be exempt from the provisions of section 33.080 relating to the transfer of unexpended balances to the general revenue fund.

5. **Additional Patient, Physician, Caregiver and Provider Protections**

(1) Except as provided in this section, the possession of marijuana in quantities less than the limits of this section, or established by the Department, and transportation of marijuana from a Medical Marijuana Dispensary Facility to the Qualifying Patient's residence shall not subject the possessor to arrest, criminal or civil liability, or sanctions under Missouri law, provided that the possessor produces on demand to the appropriate authority a valid Qualifying Patient identification card; a valid Qualifying Patient cultivation identification card; a valid physician certification while making application for an identification card; or a valid Primary caregiver identification card. Production of the respective equivalent identification card or authorization issued by another state or political subdivision of another state shall also meet the requirements of this subdivision.

(2) No patient shall be denied access to or priority for an organ transplant because they hold a Qualifying Patient identification card or use marijuana for medical use.

(3) A physician shall not be subject to criminal or civil liability or sanctions under Missouri law or discipline by the Missouri State Board of Registration for the Healing Arts, or its successor agency, for owning, operating, investing in, being employed by, or contracting with any entity licensed or certified pursuant to this section or issuing a physician certification to a patient diagnosed with a qualifying medical condition in a manner consistent with this section and legal standards of professional conduct.

(4) A health care provider shall not be subject to civil or criminal prosecution under Missouri law, denial of any right or privilege, civil or administrative penalty or sanction, or disciplinary action by any accreditation or licensing board or commission for owning, operating, investing in, being employed by, or contracting with any entity licensed or certified pursuant to this section or providing health care services that involve the medical use of marijuana consistent with this section and legal standards of professional conduct.

(5) A Medical Marijuana Testing Facility shall not be subject to civil or criminal prosecution under Missouri law, denial of any right or privilege, civil or administrative penalty or sanction, or disciplinary action by any accreditation or licensing board or commission for providing laboratory testing services that relate to the medical use of marijuana consistent with this section and otherwise meeting legal standards of professional conduct.

(6) A health care provider shall not be subject to mandatory reporting requirements for the medical use of marijuana by non-emancipated Qualifying Patients under eighteen years of age in a manner consistent with this section and with consent of a parent or guardian.

(7) A Primary caregiver shall not be subject to criminal or civil liability or sanctions under Missouri law for purchasing, transporting, or administering marijuana for medical use to a qualifying patient or participating in the patient cultivation of up to six flowering marijuana plants per patient in a manner consistent with this section and generally established legal standards of personal or professional conduct.

(8) An attorney shall not be subject to disciplinary action by the state bar association or other professional licensing body for owning, operating, investing in, being employed by, contracting with, or providing legal assistance to prospective or licensed Medical Marijuana Testing Facilities, Medical Marijuana Cultivation Facilities, Medical Marijuana Dispensary Facilities, Medical Marijuana-Infused Products Manufacturing Facilities, Qualifying Patients, Primary caregivers, physicians, health care providers or others related to activity that is no longer subject to criminal penalties under state law pursuant to this section.

(9) Actions and conduct by Qualifying Patients, Primary Caregivers, Medical Marijuana Testing Facilities, Medical Marijuana Cultivation Facilities, Medical Marijuana-Infused Products Manufacturing Facilities, or Medical Marijuana Dispensary Facilities licensed or registered with the Department, or their employees or agents, as permitted by this section and in compliance with Department regulations and other standards of legal conduct, shall not be subject to criminal or civil liability or sanctions under Missouri law, except as provided for by this section.

(10) Nothing in this section shall provide immunity for negligence, either common law or statutorily created, nor criminal immunities for operating a vehicle, aircraft, dangerous device, or navigating a boat under the influence of marijuana.

(11) It is the public policy of the state of Missouri that contracts related to marijuana for medical use that are entered into by Qualifying Patients, Primary Caregivers, Medical Marijuana Testing Facilities, Medical Marijuana Cultivation Facilities, Medical Marijuana-Infused Products Manufacturing Facilities, or Medical Marijuana Dispensary Facilities and those who allow property to be used by those entities, should be enforceable. It is the public policy of the state of Missouri that no contract entered into by Qualifying Patients, Primary Caregivers, Medical Marijuana Testing Facilities, Medical Marijuana Cultivation Facilities, Medical Marijuana-Infused Products Manufacturing Facilities, or Medical Marijuana Dispensary Facilities, or by a person who allows property to be used for activities that are exempt from state criminal penalties by this section, shall be unenforceable on the basis that activities related to medical marijuana may be prohibited by federal law.

6. **Legislation**

Nothing in this section shall limit the General Assembly from enacting laws consistent with this section, or otherwise effectuating the patient rights of this section. The legislature shall not enact laws that hinder the right of Qualifying Patients to access marijuana for medical use as granted by this section.

7. **Additional Provisions**

(1) Nothing in this section permits a person to:

(a) Consume marijuana for medical use in a jail or correctional facility;

(b) Undertake any task under the influence of marijuana when doing so would constitute negligence or professional malpractice; or

(c) Operate, navigate, or be in actual physical control of any dangerous device or motor vehicle, aircraft or motorboat while under the influence of marijuana; or

(d) Bring a claim against any employer, former employer, or prospective employer for wrongful discharge, discrimination, or any similar cause of action or remedy, based on the employer, former employer, or prospective employer prohibiting the employee, former employee, or prospective employee from being under the influence of marijuana while at work or disciplining the employee or former employee, up to and including termination from employment, for working or attempting to work while under the influence of marijuana.

(2) No Medical Marijuana Cultivation Facility, Medical Marijuana Testing Facility, Medical Marijuana Dispensary Facility, or Medical Marijuana-Infused Products Manufacturing Facility, or entity with a transportation certification shall be owned, in whole or in part, or have as an officer, director, board member, manager, or employee, any individual with a disqualifying felony offense. A "disqualifying felony offense" is a violation of, and conviction or guilty plea to, state or federal law that is, or would have been, a felony under Missouri law, regardless of the sentence imposed, unless the Department determines that:

(a) The person's conviction was for the medical use of marijuana or assisting in the medical use of marijuana; or

(b) The person's conviction was for a non-violent crime for which he or she was not incarcerated and that is more than five years old; or

(c) More than five years have passed since the person was released from parole or probation, and he or she has not been convicted of any subsequent criminal offenses.

The Department may consult with and rely on the records, advice and recommendations of the Attorney General and the Department of Public Safety, or their successor entities, in applying this subdivision.

(3) All Medical Marijuana Cultivation Facility, Medical Marijuana Dispensary Facility, and Medical Marijuana-Infused Products Manufacturing Facility licenses, entities with Medical Marijuana Testing Facility certifications, and entities with transportation certifications shall be held by entities that are majority owned by natural persons who have been citizens of the state of Missouri for at least one year prior to the application for such license or certification. Notwithstanding the foregoing, entities outside the state of Missouri may own a minority stake in such entities.

(4) No Medical Marijuana Cultivation Facility, Medical Marijuana Dispensary Facility, or Medical Marijuana-Infused Products Manufacturing Facility shall manufacture, package or label marijuana or marijuana-infused products in a false or misleading manner. No person shall sell any product in a manner designed to cause confusion between a marijuana or marijuana-infused product and any product not containing marijuana. A violation of this subdivision shall be punishable by an appropriate and proportional Department sanction, up to and including loss of license.

(5) All edible marijuana-infused products shall be sold in individual, child-resistant containers that are labeled with dosage amounts, instructions for use, and estimated length of effectiveness. All marijuana and marijuana-infused products shall be sold in containers clearly and conspicuously labeled, in a font size at least as large as the largest other font size used on the package, as containing "Marijuana," or a "Marijuana-Infused Product." Violation of this prohibition shall subject the violator to Department sanctions, including an administrative penalty.

(6) No individual shall serve as the Primary caregiver for more than three Qualifying Patients.

(7) No Qualifying Patient shall consume marijuana for medical use in a public place, unless provided by law. Violation of this prohibition shall subject the violator to sanctions as provided by general law.

(8) No person shall extract resins from marijuana using dangerous materials or combustible gases without a Medical Marijuana-Infused Products Manufacturing Facility license. Violation of this prohibition shall subject the violator to Department sanctions, including an administrative penalty and, if applicable, loss of their identification card, certificate, or license for up to one year.

(9) All Qualifying Patient cultivation shall take place in an enclosed, locked facility that is equipped with security devices that permit access only by the Qualifying Patient or by such patient's Primary caregiver. Two Qualifying Patients, who both hold valid Qualifying Patient cultivation identification cards, may share one enclosed, locked facility. No more than twelve Qualifying Patient or Primary caregiver cultivated flowering marijuana plants may be cultivated in a single, enclosed locked facility, except when a Primary caregiver also holds a Qualifying Patient cultivation identification card, in which case no more than eighteen flowering marijuana plants may be cultivated in a single, enclosed, locked facility.

(10) No Medical Marijuana Cultivation Facility, Medical Marijuana Dispensary Facility, Medical Marijuana-Infused Products Manufacturing Facility, Medical Marijuana Testing Facility, or entity with a transportation certification shall assign, sell, give, lease, sublicense, or otherwise transfer its license or certificate to any other entity without the express consent of the Department, not to be unreasonably withheld.

(11) Unless allowed by the local government, no new Medical Marijuana Cultivation Facility, Medical Marijuana Testing Facility, Medical Marijuana Dispensary Facility, or Medical Marijuana-Infused Products Manufacturing Facility shall be initially sited within one thousand feet of any then-existing elementary or secondary school, child day-care center, or church. No local government shall prohibit Medical Marijuana

Cultivation Facilities, Medical Marijuana Testing Facilities, Medical Marijuana-Infused Products Manufacturing Facilities, or Medical Marijuana Dispensary Facilities, or entities with a transportation certification either expressly or through the enactment of ordinances or regulations that make their operation unduly burdensome in the jurisdiction. However, local governments may enact ordinances or regulations not in conflict with this section, or with regulations enacted pursuant to this section, governing the time, place, and manner of operation of such facilities in the locality. A local government may establish civil penalties for violation of an ordinance or regulations governing the time, place, and manner of operation of a Medical Marijuana Cultivation Facility, Medical Marijuana Testing Facility, Medical Marijuana-Infused Products Manufacturing Facility, Medical Marijuana Dispensary Facility, or entity holding a transportation certification that may operate in such locality.

(12) Unless superseded by federal law or an amendment to this Constitution, a physician shall not certify a qualifying condition for a patient by any means other than providing a physician certification for the patient, whether handwritten, electronic, or in another commonly used format. A Qualifying Patient must obtain a new physician certification at least annually.

(13) A physician shall not issue a certification for the medical use of marijuana for a non-emancipated Qualifying Patient under the age of eighteen without the written consent of the Qualifying Patient's parent or legal guardian. The Department shall not issue a Qualifying Patient identification card on behalf of a non-emancipated Qualifying Patient under the age of eighteen without the written consent of the Qualifying Patient's parent or legal guardian. Such card shall be issued to one of the parents or guardians and not directly to the patient. Only a parent or guardian may serve as a Primary caregiver for a non-emancipated Qualifying Patient under the age of eighteen. Only the Qualifying Patient's parent or guardian shall purchase or possess medical marijuana for a non-emancipated Qualifying Patient under the age of eighteen. A parent or guardian shall supervise the administration of medical marijuana to a non-emancipated Qualifying Patient under the age of eighteen

(14) Nothing in this section shall be construed as mandating health insurance coverage of medical marijuana for Qualifying Patient use.

(15) Real and personal property used in the cultivation, manufacture, transport, testing, distribution, sale, and administration of marijuana for medical use or for activities otherwise in compliance with this section shall not be subject to asset forfeiture solely because of that use.

8. **Severability**

The provisions of this section are severable, and if any clause, sentence, paragraph or section of this measure, or an application thereof, is adjudged invalid by any court of competent jurisdiction, the other provisions shall continue to be in effect to the fullest extent possible.

9. **Effective Date**

The provisions of this section shall become effective on December 6, 2018.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-051)

Subject

Initiative petition from Sheila Dundon regarding a proposed constitutional amendment to Article XVI of the Constitution of Missouri. (Received November 29, 2016)

Date

December 19, 2016

Description

This proposal would amend Article XVI of the Constitution of Missouri.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** and the **Lieutenant Governor's Office**.

Joy Sweeney, Executive Director, Council for Drug Free Youth provided information for this initiative petition to the State Auditor's office.

Assumptions

Officials from the **Attorney General's office** indicated this proposal authorizes the Department of Health and Senior Services to issue new licenses for the cultivation, manufacture, dispensing, sale, testing, tracking, and transportation of marijuana for medical use. It requires their department to promulgate rules necessary for the implementation and enforcement of the proposal, develop forms and issue standards in addition to licensure and certification of facilities. The proposal requires a minimum of 60 licenses for cultivation facilities (one per every 100,000 inhabitants), a minimum of 85 licenses for manufacturing facilities (one per 70,000 in inhabitants), and a minimum of 192 medical marijuana dispensary facilities (24 per each Congressional district). Licensure and certification is subject to AHC appeal and judicial review. AGO assumes it would need 2 AAG Is to provide legal representation regarding issuance, denial, and discipline of licenses and promulgation of and challenges to administrative rules. If adopted this proposal would increase AGO operating expenses of $139,474 for FY2018; $150,610 for FY2019; and $152,155 for FY2020.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated no impact to their department.

Officials from the **Department of Higher Education** indicated this initiative petition would not have a fiscal impact on their department.

Officials from the **Department of Health and Senior Services** indicated the costs will be $0 for fiscal year 2018, $3,062,147 for fiscal year 2019, and $7,035,064 for fiscal year 2020. The revenues will be $0 for fiscal year 2018, $1,134,000 for fiscal year 2019, and $12,124,800 for fiscal year 2020.

This proposal is not an entire duplication, however; Section 192.945, RSMo allows their department to issue a hemp extract registration card for persons suffering from intractable epilepsy. The hemp extract registration card allows for the legal possession and use of cannabidiol (CBD) oil. This proposal allows for the legal use of marijuana for persons who are issued a registration card due to a debilitating medical condition. Under this proposal, patients with intractable epilepsy could also qualify to receive a registration card for medical marijuana use.

Rental space for 97 FTE located in Jefferson City: 97.00 FTE x 230 sq ft/FTE x $21.00/sq. ft. = $468,510.

The proposed language would legalize the use of marijuana for medicinal purposes. There could be an unknown impact on small businesses that serve as cultivators, manufacturers, dispensary facilities, testing and/or transportation centers.

	Total		-	309,634.50	309,653.50

The proposed constitutional amendment requires their department to issue annual registrations for patients and their designated caregivers, patient and caregiver cultivators, medical marijuana cultivation facilities, medical marijuana dispensary facilities, and medical marijuana-infused products manufacturing facilities. In addition, the amendment

requires their department to certify seed-to-sale tracking systems, transportation entities, and testing facilities.

The proposal allows for the following registration/license fees to be collected:

	Initial Application and Annual Renewal
Qualifying Patient ID Card	$25.00
Primary Caregiver ID Card	$25.00
Patient or Caregiver Cultivation ID Card	$100.00

	Within 3 years of Effective Date of Proposal (December 6, 2018 – December 6, 2021)		After 3 years of Effective Date (after December 6, 2021)	
	Initial Application or Renewal Application Non-Refundable License Fee (3 yr. license)	Annual Licensing Fee	Initial Application or Renewal Application Non-Refundable License Fee (3 yr. license)	Annual Licensing Fee
Medical Marijuana Cultivation Facility	$10,000	$25,000	$5,000	$25,000
Medical Marijuana Dispensary Facility	$6,000	$10,000	$3,000	$10,000
Medical Marijuana-Infused Products Manufacturing	$6,000	$10,000	$3,000	$10,000

	Certification Fee
Seed-to-Sale Tracking System	Up to $5,000
Medical Marijuana Testing Facility	Up to $5,000

The provisions of this section shall become effective on December 6, 2018. According to the proposed provisions of this section, they shall make available to the public all license application forms (cultivation, dispensary, manufacturing and testing facilities) and the application forms for qualifying patients, caregivers, and qualifying patient cultivation identification cards within 180 days of the effective date of the section (June 6, 2019). They shall accept all applications for patients, caregivers and cultivators no later than 210 days following the effective date of this section (July 6, 2019). They shall accept applications for dispensary facilities, testing facilities, cultivation facilities, manufacturing facilities, seed-to-sale tracking systems, and transportation entities no later than 240 days after the effective date of this section (August 6, 2019). The provisions of this section also allow any applicant for a license to pre-file their application fee with them beginning 30 days after the effective date of this section (January 6, 2019). For purposes of this fiscal note, it is assumed that the first fees for license applications (pre-file) would be accepted January 6, 2019 (FY 2019). The first fees for patient, caregivers, and cultivators are assumed to be collected beginning July 1, 2019 (FY 2020). The first certification fees (seed-to-sale, testing, and transportation) are assumed to be collected beginning July 1, 2019 (FY 2020) as well.

The estimations for the number of each type of registration, license and certification issued each year are detailed under the headings Division of Community and Public Health (DCPH) and Applications for Patient and Caregiver Identification below.. The total estimate of collected fees equals $1,134,000 for FY 2019 and $12,124,800 for FY 2020.

Section 1.3(2)(e) allows them to issue rules creating a range of administrative penalties related to implementation and enforcement of rules that ensure the right to, availability, and safe use of marijuana for medical use. These administrative penalties could include penalty fees but the fee amounts and frequency of penalties issued is unknown at this time.

Section 1.4(1) of the proposed amendment mandates each licensed Medical Marijuana Dispensary facility to collect a four percent tax on the retail sale of all medical marijuana products sold to be collected by the Department of Revenue (DOR). The amount of tax that will be collected is unknown and is referred to the DOR for these estimations.

The DOR may retain up to five percent of the annual taxes collected. The rest of the tax collected is to be deposited by the DOR into the Missouri Veterans' Health and Care Fund. This fund shall consist of all fees and taxes collected by this proposed section.

Division of Community and Public Health (DCPH)

Section 1.3(1) authorizes them to grant or refuse licenses and certifications for the cultivation, manufacture, dispensing, sale, testing, tracking, and transportation of marijuana for medical use as provided by the provisions of Section 1. This section also authorizes them to suspend, fine, restrict, or revoke such licenses and certifications upon any violation of this section or a rule promulgated by them pursuant to this section. They

shall develop such rules, forms, licenses, identification cards, and applications as necessary to implement provisions of this section. They are also required to certify at least two commercially available software products that licensees must use for seed-to-sale tracking standards and issue standards for the certification of secure transportation of marijuana an marijuana-infused products. They are to prepare annually a publicly available report accounting to the Governor for the efficient discharge of all responsibilities assigned to them by this section. They must also establish a system to numerically score applicants for licenses and certificates when the number of applicants are more than the minimum required.

Section 1.3(2) permits them to issue any rules necessary to ensure the right to, availability and safe use of marijuana for medical use by qualifying patients. This includes addressing: requirements for inspections, investigations, searches, seizures, and such additional enforcement activities that may become necessary; the creation of a range of administrative penalties; development of individual identification cards for owner, officers, managers, contractors, employees, and other support staff of entities licensed pursuant to this section; security requirements for any premises licensed; regulation of the storage and transportation of marijuana for medical use; sanitary requirements for the preparation of medical marijuana-infused products; labeling and packaging standards; and records to be kept by the licensees, state licensing procedures for initial licenses, renewals and reinstatements.

Section 1.3(3) requires them to issue rules regarding independent testing and certification for medical marijuana licensees to ensure products that are sold for human consumption are correctly labeled and do not contain contaminants that are injurious to health.

Section 1.3(4) requires them to issue rules to provide for the standards and certification of Medical Marijuana Testing Facilities. They shall certify, if possible, at least two Medical Marijuana Testing Facility entities.

Section 1.3(6) requires them to make available to the public license application forms and (for all types of licensees including testing facilities) and instructions within 180 days of the effective date of this section.

Section 1.3(7) requires them to make available to the public application forms and accompanying instructions for qualifying patients, qualifying patient or caregiver cultivation, and primary caregiver identification cards within 180 days of the effective date of this section. They are also required to accept these applications within 210 days of the effective date of this section.

Section 1.3(18) requires them to begin accepting license and certification application forms and instructions (for dispensary facilities, testing facilities, cultivation facilities, manufacturing facilities, seed-to-sale tracking systems, and transportation entities) no later than 240 days from the effective date and shall either approve or deny within 150 days after submission.

Section 1.3(19) requires them to process a qualifying patient identification card within 30 days of receipt of the application.

Section 1.3(20) requires them to process a primary caregiver identification card within 30 days of receipt of the application.

Information Technology Services Division (ITSD)

Support of an IT vendor to build a data system to support the administration and reporting requirements indicated in Section 1 of Article XVI (Right to Access Medical Marijuana). The system would be used by the department to process applications to include issuance of licenses and identification cards.

Division of Administration

Specific program impact for their department is in the Division of Community and Public Health (DCPH). Each application and license transaction will have an associated fee transaction, which impacts the Division of Administration (DA).

One full-time attorney would be required to assist in drafting emergency and proposed regulations and forms; perform legal research and provide day-to-day legal counsel to the program; and, represent their department in appeals of licensure and identification card denials.

The proposed amendment requires them to adjust (increase or decrease) registration and license fees according to the Consumer Price Index as published by the U.S. Department of Labor. The change in fees collected (increase or decrease) due to this provision is unable to be determined at this time.

Also, the initial application and renewal licensing fees for a cultivation facility, manufacturing facility, and dispensing facility decrease in half after three years from the effective date of this proposal.

Division of Community and Public Health (DCPH)

Applications for Patient and Caregiver Identification

Section 1 requires them to issue registration cards for qualified patients and their caregivers. A study by the nonprofit entity ProCon organization, updated March 2016, published the rates of patient registration cards issued for each state with a medical marijuana program (http://medicalmarijuana.procon.org/view.resource.php?resourceID=005889). This study found that Oregon was issuing qualified patient cards at a ratio of 19.2 per 1,000 state residents. For purposes of this fiscal note, the State of Oregon's program will be benchmarked in regard to the number of patient and primary caregiver registrants. While the Oregon program was initiated in May 1999 and therefore has an established program,

the state of Missouri's chronic disease rates are generally higher and the qualifying medical conditions accepted under Missouri's proposal are broader than those of Oregon.

Calculation of applications:

- Patients: According to the 2015 U.S. Census Bureau information, Missouri's population is at 6,083,672. Applying the rate of 19.2 applications per 1,000 residents, Missouri would estimate issuing 116,807 patient registration cards annually ((6,083,672/1,000) x 19.2)).
- Caregivers: According to the October 1, 2016 data on Oregon's Medical Marijuana Program Website, the ratio of patient registration cards to caregiver cards is calculated at 2.29. Calculating this same ratio, Missouri would estimate issuing 51,007 caregiver cards annually (116,807/2.29).

The proposed effective date of the medical marijuana program is December 6, 2018. They are required to have the applications for the qualifying patient and caregiver identification cards available within 180 days of the effective date (June 6, 2019). Section 1.3(6) requires them to begin accepting applications for the qualifying patient and caregiver cards no later than 210 days from the effective date (July 6, 2019). For purposes of this fiscal note analysis, it is assumed that they will begin accepting applications July 1, 2019 (FY 2020). They will collect an application fee of $25 per card, per Section 1.3(19) and 1.3(20). It is assumed that the fees will be collected in the same fiscal year the applications are received. It is also assumed that ten percent of the initial applicants will submit a renewal application within the same fiscal year.

	FY 2018	FY 2019	FY 2020
Qualifying Patient Initial Applications	0	0	116,807
Qualifying Patient Renewal Applications	0	0	11,681
Caregiver Initial Applications	0	0	51,007
Caregiver Renewal Applications	0	0	5,101
Total Patient & Caregiver Identification Cards	0	0	184,596
Total Patient & Caregiver Application Fees	$0	$0	$4,614,900

Applications for Patient or Caregiver Cultivation Identification Cards

Section 1 requires them to issue identification cards for a qualifying patient or his or her primary caregiver for purposes of cultivating up to six flowering marijuana plants for the exclusive use of the qualifying patient. For purposes of this fiscal note, it is estimated that 10 percent of the qualifying patients will grow marijuana for themselves or it will be grown by their designated primary caregiver. Therefore, it is estimated that 11,681 (116,807 x .10) will be issued in FY 2020. They will collect an annual application fee of $100 per Section 1.3(12). It is also assumed that ten percent of the initial applicants will renew their application within the same fiscal year.

	FY 2018	FY 2019	FY 2020
Cultivation Initial Applications	0	0	11,681
Cultivation Renewal Applications	0	0	1,168
Total Cultivation Identification Cards	0	0	12,849
Total Cultivation Identification Fees	$0	$0	$1,284,900

Application and Licensing of Medical Marijuana Cultivation Facilities

Section 1 authorizes them to establish the application and licensing process of medical marijuana cultivation facilities. For purposes of this fiscal note analysis, it is estimated that 61 facilities will apply and become licensed to fully operate cultivation facilities by the end of FY 2020. This estimate is based on the assumption that they will limit the number of cultivation facilities licensed at the minimum required of one facility per 100,000 residents (6,083,672 Missouri residents/100,000 residents per facility = 61 facilities) as allowed per Section 1.3(15). They must accept applications within 210 days of the effective date of the proposal and therefore assumes that applications will be accepted beginning July 1, 2019 (FY 2020). However, section 1.3(11) allows any application for a license to pre-file their application fee with them beginning 30 days after the effective date (January 6, 2019). They estimates that half of the cultivation facilities that will be licensed in FY 2020 will pre-file their fee in FY 2019. The proposed amendment sets the initial application fee at $10,000 with an additional $25,000 fee for each year of the license for the facilities applying during this time period.

	FY 2018	FY 2019	FY 2020
Cultivation Facility Applications	0	0	61
Cultivation Facility Application Fees ($10,000)	$0	$300,000 (pre-file)	$310,000
Cultivation Facility Annual Licenses	0	0	61
Cultivation Facility Annual License Fees ($25,000)	$0	$0	$1,525,000
Total Cultivation App & License Fees	$0	$300,000	$1,835,000

Application and Licensing of Medical Marijuana Dispensing Facilities

Section 1 authorizes them to establish the application and licensing process of medical marijuana dispensing facilities. For purposes of this fiscal note analysis, it is estimated that 192 facilities will apply and become licensed to fully operate dispensing facilities by the end of FY 2020. This estimate is based on the assumption that they will limit the number of dispensing facilities licensed at the minimum required of twenty-four (24) licenses per each of the current eight U.S. Congressional Districts (24 facilities x 8 districts = 192 facilities) as allowed per Section 1.3(17). They must accept applications within 210 days of the effective date of the proposal and therefore assumes that applications will be accepted beginning July 1, 2019 (FY 2020). However, section 1.3(11) allows any application for a license to pre-file their application fee with them beginning 30 days after the effective date (January 6, 2019). They estimate that half of the dispensing facilities that will be licensed in FY 2020 will pre-file their fee in FY 2019. The proposed amendment sets the initial

application fee at $6,000 with an additional $10,000 fee for each year of the license for the facilities applying during this time period.

	FY 2018	FY 2019	FY 2020
Dispensing Facility Applications	0	0	192
Dispensing Facility Application Fees ($6,000)	$0	$576,000 (pre-file fees)	$576,000
Dispensing Facility Annual Licenses	0	0	192
Dispensing Facility Annual License Fees ($10,000)	$0	$0	$1,920,000
Total Dispensing App & License Fees	$0	$576,000	$2,496,000

Application and Licensing of Medical Marijuana-Infused Products Manufacturing Facilities

Section 1 authorizes them to establish the application and licensing process of medical marijuana-infused products manufacturing facilities. For purposes of this fiscal note analysis, it is estimated that 87 facilities will apply and become licensed to fully operate medical marijuana-infused products manufacturing facilities by the end of FY 2020. This estimate is based on the assumption that they will limit the number of manufacturing facilities licensed at the minimum required of one facility per 70,000 residents (6,083,672 Missouri residents/70,000 residents per facility = 87 facilities) as allowed per Section 1.3(16). They must accept applications within 210 days of the effective date of the proposal and therefore assumes that applications will be accepted beginning July 1, 2019 (FY 2020). However, section 1.3(11) allows any application for a license to pre-file their application fee with them beginning 30 days after the effective date (January 6, 2019). They estimate that half of the medical marijuana-infused products manufacturing facilities that will be licensed in FY 2020 will pre-file their fee in FY 2019. The proposed amendment sets the initial application fee at $6,000 with an additional $10,000 fee for each year of the license for the facilities applying during this time period.

	FY 2018	FY 2019	FY 2020
Manufacturing Facility Applications	0	0	87
Manufacturing Facility Application Fees ($6,000)	$0	$258,000	$264,000
Manufacturing Facility Annual Licenses	0	0	87
Manufacturing Facility Annual License Fees ($10,000)	$0	$0	$870,000
Total Manufacturing Application & License Fees	$0	$258,000	$1,134,000

Certification of Seed-to-Sale Tracking Systems, Transportation Entities, and Medical Marijuana Testing Facilities

Section 1.3.(1)(d) requires them to certify at least two commercially available systems that licensees may use as their seed-to-sale tracking system. For purposes of this fiscal note, it is estimated that they will issue certifications for two commercially available systems.

Section 1.3.(1)(e) requires them to certify entities which demonstrate compliance with transportation standards in order to transport marijuana and marijuana-infused products. For purposes of this fiscal note, it is estimated that all licensed medical marijuana cultivation facilities and marijuana-infused products manufacturing facilities will obtain certification to transport marijuana and marijuana-infused products. Therefore, it is estimated that they will issue 148 certifications for transportation (61 cultivation facilities + 87 manufacturing facilities = 148 total facilities). The certification process will occur simultaneous with the licensure of the facilities.

Section 1.3.(4) requires them to certify at least two facilities as Medical Marijuana Testing Facilities. It is estimated that only two facilities will be certified. The certification will occur in FY 2020.

Section 1.3.(1)(f) allows the department to charge a fee not to exceed $5,000 for any certification issued. It is assumed that they will charge a fee of $5,000 for each certification issued.

	FY 2018	FY 2019	FY 2020
Seed-to-Sale Tracking System Certifications	0	0	2
Transportation Entity Certifications	0	0	148
Medical Marijuana Testing Facility Certifications	0	0	2
Total Certifications	0	0	152
Total Certification Fees ($5,000 ea.)	$0	$0	$760,000

Total Revenue in Application, Licensing, and Certification Fees

	FY 2018	FY 2019	FY 2020
Patient & Caregiver Application Fees	$0	$0	$4,614,900
Patient or Caregiver Cultivation Fees	$0	$0	$1,284,900
Cultivation Facility Fees	$0	$300,000	$1,835,000
Dispensing Facility Fees	$0	$576,000	$2,496,000
Infused Products Manufacturing Fees	$0	$258,000	$1,134,000
Certification Fees	$0	$0	$760,000
Total Fees	**$0**	**$1,134,000**	**$12,124,800**

Program Operations: Staffing

Section 1 requires the establishment of a medical marijuana program through promulgation of rules and implementation of those rules for administration of patient and caregiver identification cards; patient or caregiver cultivation identification cards; licensing of medical marijuana cultivation facilities, dispensing facilities and infused products manufacturing facilities; and certification of seed-to-sale tracking systems, transportation entities, and medical marijuana testing facilities. This also includes the development of all program applications and forms, identification cards, and a computerized database system to allow for the electronic storage of and processing of data needed to issue identification

cards and licenses. As a result, DCPH anticipates the need to hire the following staff beginning on December 6, 2018 (FY 2019) to begin development of the program/system:

One Program Manager Broad Band 2 ($65,000) – will serve as Chief of the Medical Marijuana Bureau. Duties will include overall program management, including involvement in rule promulgation, development of forms, program policies and procedures, information system development, and initial program set-up. This position will also supervise the two Unit (Program) Coordinators, two Investigator III positions, a Health Program Representative III, and a Bureau Administrative Office Support Assistant.

Two Program Coordinators (A30, $50,112, Step H) – will serve as Unit Coordinators. One unit will be responsible for processing patient and caregiver applications, including patient or caregiver cultivation applications. The other unit will be responsible for the applications and licensing and/or certification of the medical marijuana cultivation facilities, dispensing facilities, infused-products manufacturing facilities; testing facilities, transportation entities, and seed-to-sale tracking systems. These positions will be involved in the initial program development with the Bureau Chief, hiring of staff, and development of training for staff. Once the program is operational, the Coordinators responsibilities extend to implementation and maintenance of the program, responsibility for meeting application decision deadlines, and ongoing management responsibilities.

One Health Program Representative III (A24, $39,708. Step G) – duties will include assistance in rule promulgation, program policies and procedures, forms development, information system development/troubleshooting and maintenance, and initial program set-up. This position will serve as the liaison between the Units and IT work on system maintenance and enhancements. This position will also certify the seed-to-sale tracking systems that are commercially available to use by the licensed facilities. This position will also be responsible for establishing materials to educate the public about the program and exhibiting at conferences or other venues to education physicians and the general public.

One Administrative Office Support Assistant (A15, $28,668, Step F) – duties will include providing administrative assistance to the Bureau Chief, Program Coordinators, Investigators, Inspectors, and HPR III positions. As allowed, this position will also assist in initial processing of patient and caregiver applications for registration cards.

The following staff will be hired to begin March 1, 2019. This hire date will allow for training and final program preparation to occur prior to the required release dates for the application forms for patients and caregivers, patient or caregiver cultivators, certifications, and facility licenses:

Two Investigator III positions (A25, $41,184, Step G) – these positions will investigate all instances/complaints of possible fraud or negligence on the behalf of a recommending physician, a registered patient and/or caregiver, a cultivator, or a medical marijuana facility. With a new program of this size and the legalization of something that remains illegal for the majority of the population, it is anticipated that they will receive a fair number of calls reporting instances of possible violations. While two is estimated for purposes of this fiscal

note, it may be necessary to add additional staff after the program is operational for some time. The additional costs remain unknown.

Two Grain Inspector IV positions (A23, $38,304, Step G) – these positions will complete the onsite inspections of the medical marijuana cultivation facilities to monitor compliance with the specific requirements outlined in the proposed amendment and rules that need to be met for initial and continued licensure of a facility. These positions will also be responsible for certifying the cultivation facilities as transportation entities. This specialty position was chosen because the most technical piece involves the process of testing plants for molds, mildew, and pesticides and making sure the facilities are dealing with these issues in a proper way.

One Grain Inspector Compliance Coordinator (A28, $46,056, Step G) – this position coordinates and supervises the work of the Grain Inspector positions; ensuring inspections are completed consistently and timely. This position will also provide technical assistance to the inspectors and make final action decisions/recommendations for problem inspections.

Four Environmental Public Health Specialist IV positions (A27, $44,352, Step G) – these positions will complete the onsite inspections of the medical marijuana dispensing and the medical-marijuana infused-products manufacturing facilities to monitor compliance with the specific requirements outlined in the proposed amendment and rules that need to be met for initial and continued licensure of a facility. These positions will also be responsible for certifying the manufacturing facilities as transportation entities. This specialty position was chosen because the most technical piece involves ensuring sanitation requirements are met and the infused-products are labeled and packaged correctly.

One Environmental Public Health Specialist V position (A28, $46,056, Step G) – this position coordinates and supervises the work of the EPHS IV positions; ensuring inspections are completed consistently and timely. This position also provides technical assistance to the environmental specialists and makes final action decisions/recommendations for problem inspections.

One Health Facilities Consultant (A29, $48,852, Step H) – this position will complete the inspections of the Medical Marijuana Testing Facilities in order to monitor compliance with the specific requirements needed to obtain and maintain certification. This position will also provide technical assistance to the testing facilities to assist with obtaining and maintaining the certification. This specialty position was chosen as this classification currently completes the inspections of other medical laboratories certified by the state.

49 Senior Office Support Assistant (SOSA) positions (A12, $26,340, Step F) – duties will include processing of paper applications to include opening and date stamping of mail, entry of application information into the electronic registry, initial verification of applicant and physician identification, initial application review to include determination of application approval or denial (including incomplete status), preparation of patient and caregiver identification cards, preparation of patient/caregiver cultivation identification cards, initial processing of medical marijuana facility applications, preparation of identification cards for

all owners and employees of the medical marijuana facility licensees, processing revoked cards, and answering of phones and assisting telephone callers.

24 Health Program Representative II (HPR II) positions (A21, $35,640, Step G) – duties will include supervision of the SOSA positions and quality assurance checks of the application entry and initial verification completed by the SOSAs. This position will have responsibility for final approval of application incomplete notices, rejects, revocations, and card issuances. This position will ensure application process deadlines as mandated by proposed amendment are met. This position will also verify all registrations of owners and employees associated with the licensed medical marijuana facilities, including coordination with the Inspectors and Environmental Public Health Specialists for final issuance of facility licenses.

For fiscal note purposes they calculated 45 minutes per patient and caregiver application and 45 minutes per patient or caregiver cultivation application.

197,445 (184,596 patient and caregiver apps + 12,849 cultivation apps) X .75/hour / 2,080 hours per year per staff = 71.2 staff (round to 71 staff).

They calculated 14 hours for the processing of a dispensing facility license application and 15 hours for the processing of the cultivation and manufacturing facility license (additional hour for processing transportation certification application).

(192 dispensing facilities x 14 hours) + (61 cultivation facilities x 15 hours) + (87 infused products manufacturing facilities x 15 hours) = 4,908 total hours/divided by 2,080 hrs/year per staff = 2.4 staff (round to 2 staff). This is a total of 73 processing staff (SOSA and HPR II positions).

Printing Costs

They will print individual identification cards for the qualified patient, caregiver, patient or caregiver cultivation identification card, and identification cards for each owner, board member, employee of the licensed facilities. The cards are encoded with a magnetic stripe for security and linkage to the IT system for dispensing purposes. DCPH will purchase a card delivery system with the ability to print the card with the magnetic stripe, attach the card to a personalized letter, and secure in an envelope ready for mailing. The initial cost of the card delivery system is estimated at $277,000. In addition there will be an annual equipment preventative maintenance fee of $34,000. The average supply cost to print each card is $0.59/card.

They are estimating the number of identification cards to be printed each year per facility licensed to be 25 for a cultivation facility, 10 for a dispensing facility, and 25 for a manufacturing facility. (61 cultivation facilities x 25 = 1,525 cards, 192 dispensing facilities x 10 = 1,920 cards, 87 manufacturing facilities x 25 = 2,175 cards) License certificates will be printed for each facility on special certificate paper (heat sensitive ink background) provided by state printing at a cost of approximately $200 per 1,000 pieces of

certificate paper. The license certificates and identification cards for facilities will not be produced until FY 2020 when the facility becomes licensed.

DCPH will print 100,000 brochures each year the program is operational at a cost of $0.06 per brochure. This brochure will provide the public with information about the medical cannabis program and assistance in completing a valid registration.

FY 2019

- 100,000 brochures ($0.06 per brochure) = $6,000

FY 2020

- 184,596 patient and caregiver cards + 12,849 cultivation cards + 1,525 identification cards for cultivation facilities, 1,920 identification cards for dispensing facilities + 2,175 for manufacturing facilities = 203,065 cards x $0.59 per card/print supplies = $119,808
- 492 Certificates for facility licenses and certifications ($200/1,000) = $200
- 100,000 brochures ($0.06 per brochure) = $6,000

Mailing Costs

Each qualifying patient and primary caregiver will receive his/her card in the mail. If the patient or caregiver applied for a cultivation identification card, that card will be mailed separately. Each licensed facility will be mailed a copy of their license and identification cards. It is estimated that 10 percent of the registered participants, caregivers and patient/caregiver cultivators will submit a change request to their application requiring a change notification receipt by mailing. It is projected that five percent of all applications will be incomplete and requires mailing of an incomplete notice. It is also projected that 25 percent of the printed brochures (25,000) along with paper applications will be mailed to the public upon request. The other printed brochures will be available for distribution at conferences and other public venues.

Projected mailings are as follows:

	FY 2018	FY 2019	FY 2020
Patient and Caregiver ID Cards	0	0	184,596
Cultivation ID Cards	0	0	12,849
Facility Certificates	0	0	492
Facility Identification Cards	0	0	5,620
Change Request Notifications	0	0	17,774
Incomplete Notifications	0	0	8,887
Brochures/app mailed	0	25,000	25,000
Total mailings	**0**	**25,000**	**255,218**

FY 2019

- 25,000 envelopes ($41 per 1,000) = 25 X $41 = $1,025
- Postage (25,000 x $0.39/postage rate) = $9,750

FY 2020

- 255,218 envelopes ($41 per 1,000) = 256 X $41 = $10,496
- Postage (255,218 x $0.39/postage rate) = $99,535

Criminal Records Check

Section 1.3.(2)(h) suggests that individual identification cards for owners, officers, managers, contractors, employees and other support staff of the licensed facilities shall include a fingerprint-based federal and state criminal record check in accordance with U.S. Public Law 92-544. Section 1.7(2) states no licensed facility shall have an owner, officer, manager, contractor, employee or other support staff with a disqualifying felony offense. They assumes that as part of the facility license application, the facilities would need to submit a current finger print based criminal record report as would be promulgated in rule. Therefore, they assume no cost for obtaining the fingerprint check.

Information Technology Services Division (ITSD)

Application Storage Costs

In order to manage the final storage of paper applications submitted, Content Manager for electronic scanning and storage will be utilized. The costs for Content Manager are estimated at $132 per month for the state data server costs, $234 for an annual license for each user who needs to view files and $828 for an annual license for each position with ability to scan/import documents. Content Manager services will not be acquired until FY 2020.

Information Systems Development

Estimating a 12 month project duration with a project team consisting of 4 IT Consultants. Applications will be received as paper submissions to the department. System will print licenses and identification cards for physical delivery to the applicant. The system will be hosted in the State Data Center (SDC) on existing virtual servers. Disk space has been estimated at 50 GB for Development and Test with 150 GB estimated for Production. While we have estimated for a system build it is possible COTS solutions are available at a similar cost. Estimated costs are detailed above in the ITSD-DHSS table.

Division of Administration

DHSS-DA assumes one Accounting Clerk can process 30,000 receipt transactions per year. An Accounting Generalist I/II would be needed to supervise for every five Account Clerks.

Accounting Clerk (A12, $26,340, Step F) duties would include:

- Open and sort mail;
- Process and enter receipts in the department computer system;
- Prepare bank deposits and cash receipts documents;
- Reconcile daily receipts;
- Distribute supporting documentation program.

Accounting Generalist I/II (A25, $41,184, Step G) duties would include:

- Supervise and review the work of Accounting Clerks who are processing the fees.

Each application and license would have a fee transaction.

FY2019	FY2020	Transaction
0	184,596	Patient & Caregiver Application
0	12,849	Patient & Caregiver Cultivation Application
30	92	Cultivation Facility Application
96	288	Dispensing Facility Application
43	131	Manufacturing Facility Application
0	152	Certifications
169	198,108	Total Number of Transactions
	6.00 FTE	Accounting Clerk
	1.00 FTE	Accounting Generalist I/II

Office of General Counsel

Legal Counsel ($50,000)

One full-time attorney would be needed to assist in drafting emergency and proposed regulations and forms; perform legal research and provide day-to-day legal counsel to the program; and represent the department in appeals of licensure and identification card denials.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated their department would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated a fiscal impact of $11,229 in fiscal year 2019, $35,262 in fiscal year 2020, $67,160 in fiscal year 2025 and thereafter.

Results of studies at this time show conflicting results on the criminal impacts of current medical marijuana laws. However, with the increased licensing and regulation there are also increased possibilities of secondary crimes through false physician recommendations, non-compliance in registration, illegal possession, vehicular infractions or injury, and theft. While many of these violations may carry only municipal or licensing level penalties, some would ultimately fall under felony charges.

Thus, the expected impact of IP 18-51 should bring about 2 new prison admissions and 3 new field admissions in the first year of enactment (FY19). The maximum impact should be expected by FY25 and will lead to an additional 3 offenders in prison and 18 offenders in the field.

In addition, this proposal would be impactful to their department in that we currently test our staff for marijuana use and discipline accordingly. If our staff were to live in a household, or visit another person, who is legally using medical marijuana they would then be exposed to second-hand smoke and would likely test positive themselves. There would be no way for us to determine which of our staff are innocently exposed from those who are abusing this substance illegally.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** indicated total fund costs for General Revenue will be $242,855 for fiscal year 2018, $124,921 for fiscal year 2019, and $126,460 for fiscal year 2020, which includes information technology (IT) related costs of $150,012 for fiscal year 2018, $30,752 for fiscal year 2019, and $31,521 for fiscal year 2020 for IT consultants.

This legislation increases total state revenue by an unknown amount from the sales tax collected on the sale of medical marijuana.

Section 4
The legislation levies a four percent tax on the retail sale of medical marijuana by Medical Marijuana Dispensary Facilities. Their department may retain up to five percent for the cost of collection. The petition creates the Missouri Veterans' Health and Care Fund. The Commissioner of Administration may make cash operating transfers to the fund to meet cash requirements in advance of receiving revenues. The tax levied by this section is separate and in addition to any general state and local sales tax that applies to retail sales. Because their department does not have enforcement responsibilities, it may make more sense for the taxes to be paid to the Department of Health and Senior Services and then sent to their department for deposit into the fund.

Administrative Impact:

Collections & Tax Assistance:
This section will see additional registrations, registration phone calls, business tax account update requests, and delinquent phone contacts from the additional businesses registering to collect sales tax on medical marijuana. Collections and Tax Assistance requires two (2) Revenue Processing Technicians I (Range 10, Step L) per 24,000 additional contacts to the registration section and 15,000 contacts annually on the delinquent tax line. Each technician requires CARES equipment.

Business Tax Processing:
Although the legislation bases the four percent tax on the retail selling price, it is separate from sales and use tax. This tax needs to be reported and deposited separately from sales and use tax. This would require new reporting forms and a new program to track and distribute receipts. This will include a new program within the Integrated Tax System.

Officials from the **Department of Public Safety - Office of Director and the Division of Alcohol and Tobacco Control** each indicated they see no fiscal impact due to this initiative petition.

Officials from the **Missouri State Highway Patrol** indicated for the Criminal Records Fund estimated revenue of $179,040 and estimated costs of $67,140 for fiscal year 2018, unknown impact for fiscal year 2019, and unknown impact for fiscal year 2020.

For each fingerprint-based background check processed, the state retains the $20 state fee and $2 of the federal charge for a pass-thru fee.

The proposed legislation would allow medical marijuana for medical use and provide that it shall be taxed at four percent of the retail price.

According to the 2015 United States Census Bureau's census estimate, Missouri's population was 6,083,672. Based on this total, the number of Cultivation Facilities, Dispensary Facilities, and Infused Products Manufacturing Facilities is as follows:

Cultivation Facilities
Assuming a limit is set at the minimum of 1 facility per 100,000 inhabitants per the proposed amendment, 60 licenses for cultivation facilities may be issued. Further estimating an average of 25 employees per facility, the total number of criminal record checks for employees, owners etc. of Cultivation Facilities equals 1,500 (60 x 25).

Dispensing Facilities
Assuming the maximum number of licenses that will be issued in each of the eight United States Congressional Districts in the state of Missouri is 24, the maximum number of licenses issued for Dispensing facilities equals 192 (24 x 8). Further estimating 10 employees per facility, the total number of criminal record checks for employees, owners etc. of Dispensary Facilities equals 1,920 (192 x 10).

Infused Products Manufacturing Facilities
Assuming a limit is set at the minimum of 1 facility per 70,000 inhabitants (per the proposed constitutional amendment) the number of facilities would equal 87 (6,083,672 / 70,000). Further estimating an average of 25 employees per facility, the total number of criminal record checks for employees, owners, etc. of Cultivation Facilities equals 2,175 (87 x 25).

The estimated number of state and federal fingerprint-based criminal record checks estimated to be generated with the passage of this amendment is 5,595 (1,500 for

Cultivation Facilities; 1,920 - Dispensing Facilities; 2,175 - Infused Products Manufacturing Facilities).

The charge for each background check processed is $40.30. Twenty dollars for the state fingerprint check, $12 for the federal check, and an $8.30 charge for the statewide applicant fingerprinting contractor fee ($20 + $12 + 8.30 = $40.30). Of this amount, the state retains the $20 fee and $2 of the federal charge of $12 for a pass-thru fee. The $8.30 charge is paid directly to the vendor at the time of application.

Estimated Revenue FY18
5,595 x $32 (state/federal background check) $179,040

Estimated Expense FY18
5,595 x $12 (federal background check charge) $67,140

Subsequent yearly background checks will be based on turnover.

Estimated Revenue FY19 and beyond
??? x $32 (state/federal background check)

Estimated Expense FY19 and beyond
??? x $12 (federal background check charge)

Officials from the **Department of Social Services** indicated no fiscal impact on their department.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated no fiscal impact.

Officials from the **Office of Administration** (OA) indicated:

Article XVI, Section 1 allows the Department of Health and Senior Services (DHSS) to grant or refuse state licenses for the cultivation, manufacture, distribution, and sale of marijuana for medical use. This authority includes the creation and imposition of administrative penalties; however, no actual amounts are given.

The article establishes facility license fees for medical marijuana cultivation facilities, medical marijuana dispensary facilities, and medical marijuana-infused products manufacturing facilities. Table 1 outlines the fees and renewal periods by facility license

type. In addition to facility fees, Section 3 creates certifications for a seed-to-sale system, transportation, and medical marijuana testing facilities. DHSS is allowed to charge up to $5,000 per certification and must certify at least two seed-to-sale tracking systems and two testing facilities; however, no minimum requirement was listed for the transportation of medical marijuana.

Table 1: Facility License and Annual Fees

Section	Facility License Type	License Fee* Years 1-3	License Fee* Years 3+	Annual Fee*	Renewal Period
3 (8)	medical marijuana cultivation facilities	$10,000	$5,000	$25,000	Every 3 years
3 (9)	medical marijuana dispensary facilities	$6,000	$3,000	$10,000	Every 3 years
3 (10)	medical marijuana-infused products manufacturing facilities	$6,000	$3,000	$10,000	Every 3 years

**License fees and annual fees shall be adjusted each year in accordance with the Consumer Price Index as published by the U.S. Department of Labor.*

Section 3 (12) allows qualifying patients, or his or her primary caregiver, to obtain an identification card allowing for personal cultivation of up to six flowering marijuana plants. Section 3 (19) and Section 3 (20) establish identification cards for qualifying patients of medical marijuana and primary caregivers. Table 2 outlines the fees and renewal periods for the different identification cards.

Table 2: Identification Fees

Section	Identification Type	Fee*	Renewal Period
3 (12)	Personal Cultivation I.D. Card	$100	annually
3 (19)	Qualifying Patient - Identification card	$25	annually
3 (20)	Primary Caregiver - Identification card	$25	annually

**License fees and annual fees shall be adjusted each year in accordance with the Consumer Price Index as published by the U.S. Department of Labor.*

Section 3 (15) states that DHSS may restrict the number of licenses for medical marijuana cultivation facilities; however, the number may not be limited to less than one license per one hundred thousand inhabitants of Missouri. Section 3 (16) states that DHSS may restrict the number of licenses for marijuana-infused products manufacturing facilities; however, the number may not be limited to less than one license per seventy thousand inhabitants of Missouri. Section 3 (17) states that DHSS may limit the number of dispensary facilities to twenty-four licenses in each United States Congressional district. Table 3 outlines the facility count limits and estimates what the facility counts would be based on 2010 U.S. Census data should these limits be implemented. Once the minimum number of facilities has been established, any decrease in the number of inhabitants within Missouri, or changes to the number or boundaries of the Congressional Districts, shall have no impact to the established minimum number of licenses allowed by the article.

Table 3: Facility Count Limits			
Section	**Facility Type**	**Minimum Limit**	**Facility Count**
3 (15)	cultivation facilities	1 per 100,000	60
3 (16)	marijuana-infused products manufacturing facilities	1 per 70,000	86
3 (17)	medical marijuana dispensaries	24 per U.S. Congressional District	192

Section 4 (1) creates a 4% sales tax on the retail sale of marijuana for medical use sold at medical dispensary facilities within the state. Revenues from this tax shall be paid to the Department of Revenue (DOR). DOR may retain up to five percent for collection costs. The remainder shall be deposited in the Missouri Veterans' Health and Care Fund.

Section 4 (2) creates the Missouri Veterans' Health and Care Fund in the state treasury which will consist of taxes and fees collected under this section. This fund shall be a dedicated fund and shall stand appropriated without further legislative action. DHSS shall be appropriated an amount necessary to carry out this section. The remainder shall be transferred to the Missouri Veterans' Commission for health and care services for military veterans.

Section 9 states that the effective date of Article XVI would be December 6, 2018. However, B&P estimates that revenue generation would not begin until at least June 2019 for patients and July 2019 for facilities given the provisions in Section 3.

Using data from Arizona, which has a similar medical marijuana law, B&P estimates that up to 65,547 patients and caregivers could utilize this bill. Of these, up to 2,000 may gain approval for personal cultivation. B&P estimates that annual fees for patients, caregivers, and personal cultivation could generate approximately $1.4M annually by FY 2021, assuming growth is similar to that seen with the Arizona medical marijuana program.

B&P estimates that license fees for medical marijuana facilities could generate approximately $2.3M in FY 2020, and $1.1M every three years thereafter. The initiative petition does not specify whether these facilities would pay the annual fee and a license renewal fee every three years. Therefore, B&P assumes that both would need to be paid in the third year of a license. Table 4 outlines the revenues from the license and annual fees.

Table 4: License and Annual Fees by Patient and Facility Type					
Patient and Facility Type	**Revenue Generated by License Fees**				
	FY 2019	**FY 2020***	**FY 2021***	**FY 2022***	**FY 2023***
Patients and Caregivers**	$87,000	$1,046,000	$1,186,000	$1,704,000	$1,737,000
Personal Cultivation**	$17,000	$200,000	$204,000	$208,000	$212,000
Cultivation Facilities^		$600,000	$1,531,000	$1,561,000	$1,905,000
Infused Product Manufacturer^		$516,000	$879,000	$896,000	$1,183,000
Dispensary^		$1,152,000	$1,962,000	$2,000,000	$2,642,000
Total	**$104,000**	**$3,514,000**	**$5,762,000**	**$6,369,000**	**$7,679,000**

**Assumes 2% inflation*

***Assumes growth similar to that seen in the medical marijuana program in Arizona*

^ Assumes a 1.2% turnover rate in facility licenses

Section 4 requires a four percent sales tax to be applied to all sales of marijuana products, in addition to current state and local sales tax. Based on sales data from Arizona during 2014 of $110M and 2015 of approximately $155.7M, B&P calculates that this provision could increase TSR by $6.6M and GR by $4.7M once fully implemented. Table 5 outlines the estimated revenues from each tax and where revenues will be directed.

Table 5: Sales Tax Revenues					
Sales Tax Fund	**Revenue Generated by Sales Tax**				
	FY 2019	**FY 2020***	**FY 2021***	**FY 2022***	**FY 2023***
Missouri Veterans' Health and Care Fund		$2,200,000	$6,229,000	$6,229,000	$6,229,000
General Revenue		$1,650,000	4,672,000	4,672,000	4,672,000
Education		$550,000	$1,557,000	$1,557,000	$1,557,000
Parks, Soil, and Water		$55,000	$156,000	$156,000	$156,000
Conservation		$69,000	$195,000	$195,000	$195,000
Total	**$0**	**$4,524,000**	**$12,809,000**	**$12,809,000**	**$12,809,000**

**Based on sales data from Arizona during 2014 and 2015*

B&P estimates that all provisions in this initiative petition could increase TSR by $2.3M and GR by $1.7M in FY20. In FY21, TSR could increase by $6.6M and GR by $4.7M. This initiative petition will not impact the calculations under 18(e).

Table 6: Summary of Revenue Generated by Medical Marijuana Taxes and Fees

^^Based on sales data from Arizona during 2014 and 2015

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated no fiscal impact on their office.

Officials from the **Secretary of State's office** indicated their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted

each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any impact on their office.

Officials from the **State Treasurer's office** indicated this would have no fiscal impact on their office.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from the **City of Kansas City** indicated sales taxes could be collected. No amount can be reasonably estimated.

Officials from the **City of Raymore** indicated no fiscal impact.

Officials from **University of Missouri** indicated the University of Missouri Health Care (MUHC) has reviewed the proposed initiative petition and determined that the fiscal impact should not exceed $100,000 annually.

Joy Sweeney, Executive Director, Council for Drug Free Youth provided the following information for this initiative petition.

Fiscal Impact of Marijuana Legalization

The fiscal impact of marijuana legalization is far reaching. Colorado has provided a great deal of data for Missouri to utilize to determine the impact legalization will have here.

The information in this report is from The Rocky Mountain High Intensity Drug Trafficking Area (HIDTA) Report[1], and it provides a basis of study for the effects of the legalization of marijuana, including fiscal ramifications. The American Society of Addiction Medicine (ASAM) "asserts that the anticipated public health costs of marijuana legalization are significant…"[2] **It is important to note the various costs incurred with legalization, including enforcement, prevention, education, treatment, medical costs, etc.** By utilizing the HIDTA Report, Missouri can predict the cost to the state. A summary of their findings follows:

Colorado tracked data from three waves of marijuana legalization:

- 2006-2008 is the "early medical marijuana era"
- 2009-Present is the "medical marijuana commercialization and expansion era"
- 2013-Present is the "recreational marijuana era"

<u>Impaired Driving</u>

Marijuana-related traffic deaths increased 48 percent in the three-year average (2013-2015) since Colorado legalized recreational marijuana compared to the three-year average (2010-2012) prior to legalization.

During the same time, all traffic deaths increased 11 percent.

Marijuana-related traffic deaths increased 62 percent from 71 to 115 persons after recreational marijuana was legalized in 2013.

In 2009, Colorado marijuana-related traffic deaths involving operators testing positive for marijuana represented 10 percent of all traffic fatalities. By 2015, that number doubled to 21 percent.

The Colorado State Patrol DUID Program 2015 data includes:

- 77 percent (665) of the 862 DUIDs involved marijuana
- 40 percent (347) of the 862 DUIDs involved marijuana only

Average Marijuana Related Fatalities increased 48% between 2008-2012 and 58% between 2012-2015.

Operators involved in fatalities testing positive for marijuana more than tripled:

- 2006 was 4.03%
- 2009 was 6.41%
- 2013 was 8.97%

---

[1] *Rocky Mountain High Intensity Drug Trafficking Area*. "The Legalization of Marijuana in Colorado: The Impact". Volume 4, September 2016. http://www.rmhidta.org/html/2016%20FINAL%20Legalization%20of%20Marijuana%20in%20Colorado%20The%20Impact.pdf

[2] American Society of Addiction Medicine, *State-Level Proposals to Legalize Marijuana*, http://www.asam.org/advocacy/find-a-policy-statement/view-policy-statement/public-policy-statements/2012/07/30/state-level-proposals-to-legalize-marijuana, July 2012.

- 2015 was 12.06%

Effects on Youth

From school years 2008-2014, **drug related suspensions/expulsions increased 40%.**
58% of all drug related expulsions were for marijuana.

Past month marijuana use for youth aged 12-17 reports:

National rates	Colorado rates
2008-6.72 % of youth	2008-8.75% of youth
2014-7.22% of youth	2014-11.74% of youth

Referrals to Law Enforcement

In 2006, total drug related referrals to law enforcement were 23.4%; compared to alcohol at 8%.
In 2016, total referrals were 29.7%, compared to 4.3% for alcohol.
In the 2015/16 school year, 73% of all drug related referrals were for marijuana.

Emergency Room Visits Related to Marijuana

2012-9,982
2013-12,888
2014-18,255
From 2012-2014, there was a 49% increase.

Total of all hospitalizations that were marijuana related:
2000-2,541
2013-8,078
2014-9,856

The national **average percent of children ages 0-5 reported for marijuana exposure** from 2010-2013 was 4.97%. **In Colorado it was 17.81%**

Between 2003 and 2013, accidental marijuana exposure to youth under age six increased by about 150 percent.

Treatment Admissions for Marijuana

Data from Colorado from 2005-2013 doesn't demonstrate a definitive trend and averages about 6,500 admissions a year….There may be a drop in treatment admissions for marijuana abuse among adults because of a reduction in criminal justice referrals through diversion and drug courts due to fewer people entering the system.

73.6% of youth in the Denver Health Clinic youth are male, the mean age is 15.8 years, and 98.1% are there primarily for cannabis use disorder.

Other Pertinent Information

- As of January 2016, there were 424 retail marijuana stores in the state of Colorado compared to 322 Starbucks and 202 McDonald's.
- 68 percent of local jurisdictions have banned medical and recreational marijuana businesses.
- From 2014 to 2015, property crime increased 6.2 percent, violent crime increased 6.7 percent, and all crime increased 6.2 percent.
- 93% of CO medical marijuana card holders obtained it to treat "severe pain"

The State Auditor's office did not receive a response from the **Department of Elementary and Secondary Education, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, St. Louis Community College,** and the **Lieutenant Governor's Office**.

Fiscal Note Summary

This proposal is estimated to generate annual taxes and fees of $18 million for state operating costs and veterans programs, and $6 million for local governments. Annual state operating costs are estimated to be $7 million.

State Capitol Building
Jefferson City, MO 65101

RE: Petition approval request from Timothy Gilio regarding a proposed constitutional amendment to Article IV

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Timothy Gilio on November 28, 2016.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

Jason Kander

If this form is followed substantially and the requirements of section 116.050 and section 116.080 are met, it shall be sufficient, disregarding clerical and merely technical errors.

This measure amends the Missouri Constitution by adding Section 54 to Article IV. This amendment implicitly repeals in part or in whole, and amends various statutes and subsections including but not necessarily limited to RSMo 105.1105, 105.1108, 105.1112, 195.010.(10)(b)(c), 195.010.(10)(d), 195.010.(17)(g), 195.010.(17)(1), 195.010(24), 195.015.4, 195.017.2(4), 195.017.2(4)(z), 195.017.2(4)(ii), 195.140.2(2), 195.202.2, 195.203.3, 195.211.2, 195.211.3, 195.211.4, 195.222.7, 195.223.7, 195.223.8, 263.250.1

Be it resolved by the people of the state of Missouri that the Constitution be amended:

One new section is adopted to be known as Article IV, Section 54 and to read as follows:

1.Cannabis aka marijuana and cannabis hemp shall immediately be removed from Missouri's list of controlled substances and shall no longer be listed among Missouri's drugs schedules.

2. Definitions of terms used in this Act: cannabis and cannabis hemp refer to cannabis marijuana, cannabis sativa, cannabis indica, cannabis ruderalis or any variety of cannabis including any derivative, concentrate, extract, flower leaf particle preparation resin root salt seed stalk stem or any product thereof.

RE: Petition approval request from Sean Soendker Nicholson regarding a proposed constitutional amendment to Article III, version 8 (2018-049)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Sean Soendker Nicholson on November 23, 2016.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

Jason Kander

NOTICE: You are advised that the proposed constitutional amendment may change, repeal, or modify by implication or may be construed by some persons to change, repeal or modify by implication, the following Articles and Sections of the Constitution of Missouri: Article I, Section 8 and the following Sections of the Missouri Revised Statutes: Sections 105.450 through 105.496 and Sections 130.011 through 130.160. The proposed amendment revises Article III of the Constitution by amending Sections 2, 5, 7, and 19 and adopting three new sections to be known as Article III Sections 3, 20(c), and 20(d).

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article III of the Constitution is revised by amending Sections 2, 5, 7, 19, and adopting three new sections to be known as Article III Sections 3, 20(c), and 20(d) to read as follows:

Section 2.

After the effective date of this section, no person serving as a member of or employed by the General Assembly shall act or serve as a paid lobbyist, register as a paid lobbyist, or solicit prospective employers or clients to represent as a paid lobbyist during the time of such service until the expiration of two calendar years after the conclusion of the session of the general assembly in which the member or employee last served and where such service was after the effective date of this section.

(a) No person serving as a member of or employed by the General Assembly shall accept directly or indirectly a gift of any tangible or intangible item, service, or thing of value from any paid lobbyist or lobbyist principal in excess of five dollars per occurrence. This Article shall not prevent Candidates for the General Assembly, including candidates for reelection, or candidates for offices within the senate or house from accepting campaign contributions consistent with this Article and applicable campaign finance law. Nothing in this section shall prevent individuals from receiving gifts, family support or anything of value from those related to them within the fourth degree by blood or marriage. The dollar limitations of this section shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency and rounded to the nearest dollar amount.

(c) The General Assembly shall make no law authorizing unlimited campaign contributions to candidates for the General Assembly, nor any law that circumvents the contribution limits contained in this Constitution. In addition to other campaign contribution limitations or restrictions provided for by law, the amount of contributions made to or accepted by any candidate or candidate committee from any person other than the candidate in any one election for the General Assembly shall not exceed the following:

(1) To elect an individual to the office of state senator, two thousand five hundred dollars; and

(2) To elect an individual to the office of state representative, two thousand dollars.

The contribution limits and other restrictions of this section shall also apply to any person exploring a candidacy for a public office listed in this subsection.

For purposes of this subsection, "base year amount" shall be the contribution limits prescribed in this section. Contribution limits set forth herein shall be adjusted on the first day of January in each even-numbered year hereafter by multiplying the base year amount by the cumulative consumer price index and rounded to the nearest dollar amount, for all years after 2018.

(d) No contribution to a candidate for legislative office shall be made or accepted, directly or indirectly, in a fictitious name, in the name of another person, or by or through another person in such a manner as to, or with the intent to, conceal the identity of the actual source of the contribution. There shall be a rebuttable presumption that a contribution to a candidate for public office is made or accepted with the intent to circumvent the limitations on contributions imposed in this section when a contribution is received from a committee or organization that is primarily funded by a single person, individual, or other committee that has already reached its contribution limit under any law relating to contribution limitations. A committee or organization shall be deemed to be primarily funded by a single person, individual, or other committee when the committee or organization receives more than fifty percent of its annual funding from that single person, individual, or other committee.

(e) In no circumstance shall a candidate be found to have violated limits on acceptance of contributions if the Missouri Ethics Commission, its successor agency, or a court determines that a candidate has taken no action to indicate acceptance of or acquiescence to the making of an expenditure that is deemed a contribution pursuant to this section.

(f) No candidate shall accept contributions from any federal political action committee unless the committee has filed the same financial disclosure reports that would be required of a Missouri political action committee.

Section 3.

(a) There is hereby established the post of "non-partisan state demographer." The non-partisan state demographer shall acquire appropriate information to develop procedures in preparation for drawing legislative redistricting maps on the basis of each federal census for presentation to the house apportionment commission and the senatorial apportionment commission.

(b) The non-partisan state demographer shall be appointed by the Governor through a merit based process. The non-partisan state demographer shall serve a term of five years and may be reappointed. To be eligible for the non-partisan state demographer position an individual shall not have served in a partisan, elected position for four years prior to the appointment. The non-partisan state demographer shall be disqualified from holding office as a member of the general assembly for four years following the date of the presentation of his or her most recent legislative redistricting map to the house apportionment commission or the senatorial apportionment commission.

(c) The house of representatives shall consist of one hundred sixty-three members elected at each general election and apportioned [in the following manner:] as provided in this section.

(1) Within ten days after the population of this state is reported to the President for each decennial census of the United States or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within ten days after such a ruling has been made, the non-partisan state demographer shall begin the preparation of legislative districting plans and maps using the following methods, listed in order of priority:

(a) Districts shall be established on the basis of total population. Legislative districts shall each have a total population as nearly equal as practicable to the ideal population for such districts, determined by dividing the number of districts to be established into the total population of the state reported in the federal decennial census.

(b) Districts shall be established in a manner so as to comply with all requirements of the United States Constitution and applicable federal laws, including, but not limited to, the Voting Rights Act of 1965 (as amended). Notwithstanding any other provision of this Article, districts shall not be drawn with the intent or result of denying or abridging the equal opportunity of racial or language minorities to participate in the political process or diminishing their ability to elect representatives of their choice, whether by themselves or by voting in concert with other persons.

Districts shall be designed in a manner that achieves both partisan fairness and, secondarily,

competitiveness. Partisan fairness means that parties shall be able to translate their popular support into legislative representation with approximately equal efficiency. Competitiveness means that parties' legislative representation shall be substantially and similarly responsive to shifts in the electorate's preferences.

To this end, the non-partisan state demographer shall calculate the average electoral performance of the two parties receiving the most votes in the three preceding elections for governor, for United States Senate, and for President of the United States. This index shall be defined as the total votes received by each party in the three preceding elections for governor, for United States Senate, and for President of the United States, divided by the total votes cast for both parties in these elections. Using this index, the non-partisan state demographer shall calculate the total number of wasted votes for each party, summing across all of the districts in the plan. Wasted votes are votes cast for a losing candidate or for a winning candidate in excess of the fifty percent threshold needed for victory. In any plan of apportionment and map of the proposed districts submitted to the respective apportionment commission, the non-partisan state demographer shall ensure the difference between the two parties' total wasted votes, divided by the total votes cast for the two parties, is as close to zero as practicable.

To promote competitiveness, the non-partisan state demographer shall use the electoral performance index to simulate elections in which the hypothetical statewide vote shifts by one percent, two percent, three percent, four percent, and five percent in favor of each party. The vote in each individual district shall be assumed to shift by the same amount as the statewide vote. The non-partisan state demographer shall ensure that, in each of these simulated elections, the difference between the two parties' total wasted votes, divided by the total votes cast for the two parties, is as close to zero as practicable.

(c) Subject to the requirements of subdivisions (1)(a) and (1)(b), Districts shall be composed of contiguous territory. Areas which meet only at the points of adjoining corners are not contiguous.

(d) To the extent consistent with subdivisions (1)(a) – (1)(c) of this subsection, district boundaries shall coincide with the boundaries of political subdivisions of the state. The number of counties and cities divided among more than one district shall be as small as possible. When there is a choice between dividing local political subdivisions, the more populous subdivisions shall be divided before the less populous, but this preference shall not apply to a legislative district boundary drawn along a county line which passes through a city that lies in more than one county.

(e) Preference shall be that districts are compact in form, but the standards established by subdivisions (1)(a) – (1)(d) of this subsection take precedence over compactness where a conflict arises between compactness and these standards. In general, compact districts are those which are square, rectangular, or hexagonal in shape to the extent permitted by natural or political boundaries.

(2). Within sixty days after the population of this state is reported to the President for each decennial census of the United States [and] or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within sixty days [after notification by the governor] that such a ruling has been made, the congressional district committee of each of the two parties casting the highest vote for governor at the last preceding election shall meet and the members of the committee shall nominate, by a majority vote of the members of the committee present, provided that a majority of the elected members is present, two members of their party, residents in that district, as nominees for reapportionment commissioners. Neither party shall select more than one nominee from any one state legislative district. The congressional committees shall each submit to the governor their list of elected nominees. Within thirty days the governor shall appoint a commission consisting of one name from each list to reapportion the state into one hundred and sixty-three representative districts and to establish the numbers and boundaries of said districts.

If any of the congressional committees fails to submit a list within such time the governor shall appoint a member of his own choice from that district and from the political party of the committee failing to make the appointment.

Members of the commission shall be disqualified from holding office as members of the general assembly for four years following the date of the filing by the commission of its final statement of apportionment.

For the purposes of this Article, the term congressional district committee or congressional district refers to the congressional district committee or the congressional district from which a congressman was last elected, or, in the event members of congress from this state have been elected at large, the term congressional district committee refers to those persons who last served as the congressional district committee for those districts from which congressmen were last elected, and the term congressional district refers to those districts from which congressmen were last elected. Any action pursuant to this section by the congressional district committee shall take place only at duly called meetings, shall be recorded in their official minutes and only members present in person shall be permitted to vote.

(3) Within six months after the population of this state is reported to the President for each decennial census of the United States or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within six months after such a ruling has been made, the non-partisan state demographer shall make public and file with the secretary of state and with the house apportionment commission a tentative plan of apportionment and map of the proposed districts, as well as all demographic and partisan data used in the creation of the plan and map.

The commissioners so selected shall, [on the fifteenth day, excluding Sundays and holidays, after all members have been selected] within ten days of receiving the tentative plan of apportionment and map of the proposed districts, meet in the capitol building and proceed to organize by electing from their number a chairman, vice chairman and secretary[and]. The commission shall adopt an agenda establishing at least three hearing dates on which hearings open to the public shall be held to hear objections or testimony from interested persons. A copy of the agenda shall be filed with the clerk of the house of representatives within twenty-four hours after its adoption. Executive meetings may be scheduled and held as often as the commission deems advisable.

The commission may make changes to the tentative plan of apportionment and map of the proposed districts received from the non-partisan state demographer provided that such changes are consistent with this section and approved by a vote of at least seven-tenths of the commissioners. If no changes are made or approved as provided for in this subsection, the tentative plan of apportionment and map of proposed districts shall become final. Not later than two months of receiving the tentative plan of apportionment and map of the proposed districts, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts.

[The commission shall reapportion the representatives by dividing the population of the state by the number one hundred sixty-three and shall establish each district so that the population of that district shall, as nearly as possible, equal that figure.

Each district shall be composed of contiguous territory as compact as may be.

Not later than five months after the appointment of the commission the commission shall receive the tentative plan of apportionment and map of the proposed districts ordered in subsection 4 of this section and during the ensuing fifteen days shall hold such public hearings as may be necessary to hear objections or testimony of interested persons.

Not later than six months after the appointment of the commission, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts, and no statement shall be valid unless approved by at least seven-tenths of the members.

After the statement is filed members of the house of representatives shall be elected according to such districts until a reapportionment is made as herein provided, except that if the statement is not filed within six months of the time fixed for the appointment of the commission, it shall stand discharged and the house of representatives shall be apportioned by a commission of six members appointed from among the judges of the appellate courts of the state of Missouri by the state supreme court, a majority of whom shall sign and file its apportionment plan and map with the secretary of state within ninety days of the date of the discharge of the apportionment commission. Thereafter members of the house of representatives shall be elected according to such districts until a reapportionment is made as herein provided.]

Each member of the commission shall receive as compensation fifteen dollars a day for each day the commission is in session but not more than one thousand dollars, and, in addition, shall be reimbursed for his actual and necessary expenses incurred while serving as a member of the commission.

No reapportionment shall be subject to the referendum.

Section 5.

(a) The Senate shall consist of thirty-four members elected by the qualified voters of the senatorial [respective] districts for a term of four years. [For the election of senators, the state shall be divided into convenient districts of contiguous territory, as compact and nearly equal in population as may be.] Senatorial districts shall be apportioned as provided for in Article III, Section 7.

Section 7.

(1) Within ten days after the population of this state is reported to the President for each decennial census of the United States or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within ten days after such a ruling has been made, the non-partisan state demographer authorized in Article III Section 3, shall begin the preparation of senatorial districting plans and maps using the same methods and criteria as those required by Article III, Section 3 for the establishment of districts for the House of Representatives.

(2) Within sixty days after the population of this state is reported to the President for each decennial census of the United States, [and] or within sixty days after [notification by the governor that] a reapportionment has been invalidated by a court of competent jurisdiction, the state committee of each of the two political parties casting the highest vote for governor at the last preceding election shall, at a committee meeting duly called, select by a vote of the individual committee members, and thereafter submit to the governor a list of ten persons, and within thirty days thereafter the governor shall appoint a commission of ten members, five from each list, to reapportion the thirty-four senatorial districts and to establish the numbers and boundaries of said districts.

If either of the party committees fails to submit a list within such time the governor shall appoint five members of his own choice from the party of the committee so failing to act.

Members of the commission shall be disqualified from holding office as members of the general assembly for four years following the date of the filing by the commission of its final statement of apportionment.

(3) Within six months after the population of this state is reported to the President for each decennial census of the United States or in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within six months after such a ruling has been made, the non-partisan state demographer shall file with the secretary of state and with the senatorial apportionment commission a tentative plan of apportionment and map of the proposed districts.

The commissioners so selected shall [on the fifteenth day, excluding Sundays and holidays, after all members have been selected] within ten days of receiving the tentative plan of apportionment and map of the proposed districts required by this subsection, meet in the capitol building and proceed to organize by electing from their number a chairman, vice chairman and secretary [and]. The commission shall adopt an agenda establishing at least three hearing dates on which hearings open to the public shall be held to hear objections or testimony from interested persons. A copy of the agenda shall be filed with the secretary of the senate within twenty-four hours after its adoption. Executive meetings may be scheduled and held as often as the commission deems advisable. The commission may make changes to the tentative plan of apportionment and map of the proposed districts received from the non-partisan state demographer provided that such changes are consistent with this Section and the methods and criteria required by Section 3 of this Article for the establishment of districts for the House of Representatives and approved by a vote of at least seven-tenths of the commissioners. If no changes are made or approved as provided for in this subsection, the tentative plan of apportionment and map of proposed districts shall become final. Not later than two months after receiving the tentative plan of apportionment and map of the proposed districts, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts.

[The commission shall reapportion the senatorial districts by dividing the population of the state by the number thirty-four and shall establish each district so that the population of that district shall, as nearly as possible, equal that figure; no county lines shall be crossed except when necessary to add sufficient population to a multi-district county or city to complete only one district which lies partly within such multi-district county or city so as to be as nearly equal as practicable in population. Any county with a population in excess of the quotient obtained by dividing the population of the state by the number thirty-four is hereby declared to be a multi-district county.

Not later than five months after the appointment of the commission the commission shall file with the secretary of state a tentative plan of apportionment and map of the proposed districts and during the ensuing fifteen days shall hold such public hearings as may be necessary to hear objections or testimony of interested persons.

Not later than six months after the appointment of the commission, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts, and no statement shall be valid unless approved by at least seven members.

After the statement is filed senators shall be elected according to such districts until a reapportionment is made as herein provided,

except that if the statement is not filed within six months of the time fixed for the appointment of the commission, it shall stand discharged and the senate shall be apportioned by a commission of six members appointed from among the judges of the appellate courts of the state of Missouri by the state supreme court, a majority of whom shall sign and file its apportionment plan and map with the secretary of state within ninety days of the date of the discharge of the apportionment commission. Thereafter senators shall be elected according to such districts until a reapportionment is made as herein provided.]

Each member of the commission shall receive as compensation fifteen dollars a day for each day the commission is in session, but not more than one thousand dollars, and, in addition, shall be reimbursed for his actual and necessary expenses incurred while serving as a member of the commission.

No reapportionment shall be subject to the referendum.

Section 19.

(a) Senators and representatives shall, in all cases except treason, felony, offenses under this Article, or breach of the peace, be privileged from arrest during the session of the general assembly, and for the fifteen days next before the commencement and after the termination of each session; and they shall not be questioned for any speech or debate in either house in any other place.

(b) Legislative records shall be public records and subject to generally applicable state laws governing public access to public records, including the "Sunshine Law." Legislative records include, but are not limited to, all records, in whatever form or format, of the official acts of the general assembly, of the official acts of legislative committees, of the official acts of members of the general assembly, of individual legislators, their employees and staff, of the conduct of legislative business and all records that are created, stored or distributed through legislative branch facilities, equipment or mechanisms, including electronic. Each member of the general assembly is the custodian of legislative records under the custody and control of the member, their employees and staff. The chief clerk of the house or the secretary of the senate are the custodians for all other legislative records relating to the house and the senate, respectively.

(c) Legislative proceedings, including committee proceedings, shall be public meetings subject to generally applicable law governing public access to public meetings, including the "Sunshine Law." Open public meetings of legislative proceedings shall be subject to recording by citizens, so long as the proceedings are not materially disrupted.

Section 20(c).

No political fundraising activities or political fundraising event by any member of or candidate for the general assembly, including but not limited to the solicitation or delivery of contributions, supporting or opposing any candidate, initiative petition, referendum petition, ballot measure, political party or political committee, shall occur in or on any premises, property or building owned, leased or controlled by the State of Missouri or any agency or division thereof. Any purposeful violation of this section shall be punishable by imprisonment for up to one year or a fine of up to one thousand dollars or both, plus an amount equal to three times the illegal contributions. The Missouri Ethics Commission or its successor agency is authorized to enforce this section as provided by law.

Section 20(d).

If any provision of sections 2, 3, 7, 19, or 20(c) or the application thereof to anyone or to any circumstance is held invalid, the remainder of those provisions and the application of such provisions to others or other circumstances shall not be affected thereby.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-049)

Subject

Initiative petition from Sean Soendker Nicholson regarding a proposed constitutional amendment to Article III. (Received November 23, 2016)

Date

December 13, 2016

Description

This proposal would amend Article III of the Missouri Constitution.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** the **Missouri Ethics Commission,** and the **State Auditor's office.**

Sean Soendker Nicholson provided information as a proponent of the proposal to the State Auditor's office.

Assumptions

Officials from the **Attorney General's office** indicated they assume that any potential costs arising from the adoption of this proposal can be absorbed with existing resources.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated there would be no impact to their department as a result of this initiative petition.

Officials from the **Department of Higher Education** indicated this initiative petition would not have a fiscal impact on their department. They also indicated we haven't mentioned it before now, but Section 2 goes from (a) to (c) – it skips (b).

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no impact.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** indicated this initiative petition has no fiscal impact on their department.

Officials from the **Department of Public Safety** indicated they see no fiscal impact due to this initiative petition.

Officials from the **Department of Social Services** indicated no fiscal impact on their department.

Officials from the **Governor's office** indicated the Governor is responsible for appointing a non-partisan State Demographer; however, there should be no added costs or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated no fiscal impact.

Officials from the **Office of Administration** indicated this initiative petition revises Article III of the Missouri Constitution by amending Sections 2, 5, 7, and 19 and enacting three new sections.

Legislators and their employees are prohibited from lobbying for at least two years after the conclusion of the session during which they vacate office, and from acting as paid consultants while in office. Legislators and their staff are prohibited from accepting a gift in excess of five dollars, per occurrence.

The initiative creates the post of "non-partisan State Demographer" to oversee the redistricting process for the state House and Senate districts. The demographer is to be selected by the Governor through a merit-based system and shall serve a term of five years. This demographer will be unable to hold elected office for four years following the filing of the new legislative districts. The redistricting process shall maximize partisan fairness and competitiveness.

It mandates that legislative records which are created, stored or distributed through legislative branch facilities, equipment or mechanisms shall be public. It allows explicitly identified legislative proceedings as open meetings and authorizes recording of such proceedings by citizens.

Political fundraising activities and events may not be held in any location owned by, or under the control of, the State of Missouri.

Campaign contributions for state senators are limited to $2,500 and representatives are limited to $2,000, with CPI adjustments made in even-numbered years. Also, contributions from federal political action committees are prohibited unless the committee has filed the same financial disclosure reports that would be required of a Missouri political action committee.

This proposal could have an impact on the Office of Administration. There is currently a State Demographer, with statutory duties that extend beyond those of legislative reapportionment. If the existing State Demographer would be expected to assume the role of "Non-partisan State Demographer," there would be no fiscal impact. However, if that post is filled by another individual, the salary and benefits costs would be an estimated $128,513 in FY 2021, adjusted for inflation. In either scenario, the cost for other staff hired for the purposes of redistricting would remain the same.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated no fiscal impact on their office.

Officials from the **Secretary of State's office** indicated their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any significant impact on their office.

Officials from the **State Treasurer's office** indicated this would have no fiscal impact on their office.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from the **City of Columbia** indicated no impact to their city.

Officials from the **City of Kansas City** indicated no direct fiscal impact is anticipated if this proposal is adopted.

Officials from the **City of Raymore** indicated no fiscal impact.

Officials from the **City of St. Joseph** indicated this should not have a fiscal impact on local government.

Officials from the **Metropolitan Community College** indicated there is no anticipated impact for their college.

Officials from the **University of Missouri** indicated there are no anticipated financial impacts.

Officials from the **Missouri Ethics Commission** (MEC) indicated:

possible increased operating costs of $67,478 for the first year implemented, $61,107 for the second year implemented, and $61,734 for the third year implemented.

Prohibiting a statewide elected official, member of the general assembly or paid employee of general assembly from acting, serving, or registering as a lobbyist for a specified period of time after leaving office would require the following of the MEC:

- Provide information to public officials and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo., about the new statutory requirements; examples include providing education, developing informational materials, telephone and email assistance.
- Provide oversight to ensure those individuals leaving the general assembly do not register as a lobbyist with the MEC for the specified period of time. This would entail reviewing lobbyist registrations, at the time of receipt by the MEC, and comparing them to those members of the general assembly who have left office within the specified period of time. For any individual submitting a registration, create the necessary correspondence to the registrant and track the results of the correspondence.
- Respond to written complaints, as established in Section 105.955.14, RSMo., through conducting investigations and the related legal actions. Any significant increase of complaints would require additional Commission resources, including investigative staff.

Implementing prohibition for a member of general assembly, staff/employees of the general assembly to accept specified monetary lobbyist/lobbyist principal gifts would require the following of the MEC:

- Provide information to public officials and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo., about the new statutory requirements; examples include providing education, developing informational materials, telephone and email assistance.
- Provide oversight in adherence to the specific gift prohibition, including reviewing lobbyist reports as established in Section 105.959, RSMo. This oversight, it is assumed, would be primarily from receiving written complaints, as established in Section 105.955.14, RSMo., through conducting investigations and the related legal actions. It is assumed this prohibition would result in a minimal number of complaints; however, if this assumption is incorrect the Commission would require additional staff resources.

Implementing campaign finance limits would require the following of the MEC:

- Provide information to those committee officers and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo. about these limits;

examples include providing education, developing informational materials, telephone and email assistance.

- Provide oversight in campaign finance committee adherence to the specific contribution limits, including reviewing, auditing, and performing cross checks of the reported contributions, as established in Section 105.955.14 (2), (3), RSMo.
- Respond to written complaints, as established in Section 105.955.14, RSMo., through conducting investigations and the related legal actions.

Oversee the prohibition of political fundraising activities or events from occurring on State of Missouri property or any agency or division thereof would require the following of the MEC:

- Provide information to those committee officers and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo. about this provision; examples include providing education, developing informational materials, telephone and email assistance.
- Provide oversight in campaign finance committee adherence to the specific restrictions, including reviewing, auditing, and performing cross checks of the reported fund raising activity, as established in Section 105.955.14 (2), (3), RSMo.
- Respond to written complaints, as established in Section 105.955.14, RSMo., through conducting investigations and the related legal actions.

In regards to all of the provisions outlined above, if the Commission identifies significant violations during the process established in Section 105.955.14 (2), (3), RSMo or complaints received increase significantly an Investigator would be required to provide the proper oversight.

The implementation of contribution limits requires the Missouri Ethics Commission to request additional funding. Below is an outline of the additional funding. In the 2016 November General Election a Constitutional Amendment implementing contribution limits was adopted by voters. At this time, the Missouri Ethics Commission has not received the additional funding required to implement contribution limits.

The proposed provisions would implement campaign finance limits. The implementation of the above responsibilities would require the following additional resources:

•$15,120 in expense and equipment to acquire contract services that would develop the MEC internal search capabilities for oversight of the campaign finance committees' adherence to the specific contribution limits, as established in 105.955.14, RSMo. Current campaign finance data collection would allow the MEC to use search capabilities, providing for a manual review by MEC staff of adherence to the established limits.

•1 Business Analyst to conduct the routine work necessary in reviewing and providing oversight for the proposed legislation. The Business Analyst would review committee reports for compliance, prepare necessary notices, track the receipt of payment, and coordinate the necessary collection efforts. Currently two Business Analysts assist 2,800

committees in filing campaign finance reports, prepare and disseminate 15,000 notices, and review 11,000 campaign finance reports.

•If the Commission identifies significant violations during the process established in Section 105.955.14 (2), (3), RSMo, or complaints received increase significantly an Investigator would be required to provide the proper oversight.

Officials from the **State Auditor's office** (SAO) indicated there is no fiscal impact for their office.

Sean Soendker Nicholson provided the following information as a proponent of this initiative petition.

I am a proponent of this initiative petition. Pursuant to 116.175 RSMo, I submit the following information regarding the initiative petition.

There is no cost to the state over the next two years as a result of passage of any of the initiatives. Any potential costs arising from the adoption of these proposals is minimal and can be absorbed with existing resources from the General Assembly, Missouri Ethics Commission, Attorney General's Office, Office of Administration, and other state agencies.

There is currently a State Demographer, with statutory duties that extend beyond those of legislative reapportionment. The existing State Demographer can be expected to assume the role of Non-partisan State Demographer, and there would be no fiscal impact. Certainly there can be no definitive judgment that the measure would add costs for the state.

The proposals do not establish a new program or agency so there is no duplication of existing programs. There is no federal mandate with regard to the proposals. There will be no fiscal impact on any subdivision of the state. There will be no economic impact on small businesses.

The Missouri Ethics Commission is already required to provide guidance and information to members of the General Assembly and Missouri public about campaign finance rules and lobbying rules, and is already required to respond to written complaints through conducting investigations and the related legal actions.

The State Auditor's office did not receive a response from the **Department of Elementary and Secondary Education, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri,** and **St. Louis Community College.**

Fiscal Note Summary

State governmental entities estimate annual operating costs may increase by $189,000. Local governmental entities expect no fiscal impact.

STATE AUDITOR'S OFFICE

The Honorable Nicole Galloway
State Auditor
State Capitol Building
Jefferson City, MO 65101

RE: Petition approval request from Sean Soendker Nicholson regarding a proposed constitutional amendment to Article III, version 7 (2018-048)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Sean Soendker Nicholson on November 23, 2016.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

Jason Kander

NOTICE: You are advised that the proposed constitutional amendment may change, repeal, or modify by implication or may be construed by some persons to change, repeal or modify by implication, the following Articles and Sections of the Constitution of Missouri: Article I, Section 8 and the following Sections of the Missouri Revised Statutes: Sections 105.450 through 105.496 and Sections 130.011 through 130.160. The proposed amendment revises Article III of the Constitution by amending Sections 2, 5, 7, and 19 and adopting three new sections to be known as Article III Sections 3, 20(c), and 20(d).

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article III of the Constitution is revised by amending Sections 2, 5, 7, 19, and adopting three new sections to be known as Article III Sections 3, 20(c), and 20(d) to read as follows:

Section 2.

After the effective date of this section, no person serving as a member of or employed by the General Assembly shall act or serve as a paid lobbyist, register as a paid lobbyist, or solicit prospective employers or clients to represent as a paid lobbyist during the time of such service until the expiration of two calendar years after the conclusion of the session of the general assembly in which the member or employee last served and where such service was after the effective date of this section.

(a) No person serving as a member of or employed by the General Assembly shall accept directly or indirectly a gift of any tangible or intangible item, service, or thing of value from any paid lobbyist or lobbyist principal in excess of five dollars per occurrence. This Article shall not prevent Candidates for the General Assembly, including candidates for reelection, or candidates for offices within the senate or house from accepting campaign contributions consistent with this Article and applicable campaign finance law. Nothing in this section shall prevent individuals from receiving gifts, family support or anything of value from those related to them within the fourth degree by blood or marriage. The dollar limitations of this section shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency and rounded to the nearest dollar amount.

(c) The General Assembly shall make no law authorizing unlimited campaign contributions to candidates for the General Assembly, nor any law that circumvents the contribution limits contained in this Constitution. In addition to other campaign contribution limitations or restrictions provided for by law, the amount of contributions made to or accepted by any candidate or candidate committee from any person other than the candidate in any one election for the General Assembly shall not exceed the following:

(1) To elect an individual to the office of state senator, two thousand five hundred dollars; and

(2) To elect an individual to the office of state representative, two thousand dollars.

The contribution limits and other restrictions of this section shall also apply to any person exploring a candidacy for a public office listed in this subsection.

For purposes of this subsection, "base year amount" shall be the contribution limits prescribed in this section. Contribution limits set forth herein shall be adjusted on the first day of January in each even-numbered year hereafter by multiplying the base year amount by the cumulative consumer price index and rounded to the nearest dollar amount, for all years after 2018.

(d) No contribution to a candidate for legislative office shall be made or accepted, directly or indirectly, in a fictitious name, in the name of another person, or by or through another person in such a manner as to, or with the intent to, conceal the identity of the actual source of the contribution. There shall be a rebuttable presumption that a contribution to a candidate for public office is made or accepted with the intent to circumvent the limitations on contributions imposed in this section when a contribution is received from a committee or organization that is primarily funded by a single person, individual, or other committee that has already reached its contribution limit under any law relating to contribution limitations. A committee or organization shall be deemed to be primarily funded by a single person, individual, or other committee when the committee or organization receives more than fifty percent of its annual funding from that single person, individual, or other committee.

(e) In no circumstance shall a candidate be found to have violated limits on acceptance of contributions if the Missouri Ethics Commission, its successor agency, or a court determines that a candidate has taken no action to indicate acceptance of or acquiescence to the making of an expenditure that is deemed a contribution pursuant to this section.

(f) No candidate shall accept contributions from any federal political action committee unless the committee has filed the same financial disclosure reports that would be required of a Missouri political action committee.

Section 3.

(a) There is hereby established the post of "non-partisan state demographer." The non-partisan state demographer shall acquire appropriate information to develop procedures in preparation for drawing legislative redistricting maps on the basis of each federal census for presentation to the house apportionment commission and the senatorial apportionment commission.

(b) The non-partisan state demographer shall be selected through the following process. First, state residents may apply for selection to the state auditor using an application developed by the state auditor to determine an applicant's qualifications and expertise relevant to the position. Second, the state auditor shall deliver to the majority leader and minority leader of the senate a list of at least three applicants with sufficient expertise and qualifications, as determined by the state auditor, to perform the duties of the non-partisan state demographer. Third, if the majority leader and minority leader of the senate together agree that a specific applicant should be selected to be the non-partisan state demographer, that applicant shall be selected and the selection process shall cease. Fourth, if the majority leader and minority leader of the senate cannot together agree on an applicant, they may each remove a number of applicants on the state auditor's list equal to one-third of the total number of applicants on that list, rounded down to the next integer, and the state auditor shall then conduct a random lottery of the applicants remaining after removal to select the non-partisan state demographer. The state auditor shall prescribe a time frame and deadlines for this application and selection process that both encourages numerous qualified applicants and avoids delay in selection. The non-partisan state demographer shall serve a term of five years and may be reappointed. To be eligible for the non-partisan state demographer position an individual shall not have served in a partisan, elected position for four years prior to the appointment. The non-partisan state demographer shall be disqualified from holding office as a member of the general assembly for four years following the date of the presentation of his or her most recent legislative redistricting map to the house apportionment commission or the senatorial apportionment commission.

(c) The house of representatives shall consist of one hundred sixty-three members elected at each general election and apportioned [in the following manner:] as provided in this section.

(1) Within ten days after the population of this state is reported to the President for each decennial census of the United States or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within ten days after such a ruling has been made, the non-partisan state demographer shall begin the preparation of legislative districting plans and maps using the following methods, listed in order of priority:

(a) Districts shall be established on the basis of total population. Legislative districts shall each have a total population as nearly equal as practicable to the ideal population for such districts, determined by dividing the number of districts to be established into the total

population of the state reported in the federal decennial census.

(b) Districts shall be established in a manner so as to comply with all requirements of the United States Constitution and applicable federal laws, including, but not limited to, the Voting Rights Act of 1965 (as amended). Notwithstanding any other provision of this Article, districts shall not be drawn with the intent or result of denying or abridging the equal opportunity of racial or language minorities to participate in the political process or diminishing their ability to elect representatives of their choice, whether by themselves or by voting in concert with other persons.

Districts shall be designed in a manner that achieves both partisan fairness and, secondarily, competitiveness. Partisan fairness means that parties shall be able to translate their popular support into legislative representation with approximately equal efficiency. Competitiveness means that parties' legislative representation shall be substantially and similarly responsive to shifts in the electorate's preferences.

To this end, the non-partisan state demographer shall calculate the average electoral performance of the two parties receiving the most votes in the three preceding elections for governor, for United States Senate, and for President of the United States. This index shall be defined as the total votes received by each party in the three preceding elections for governor, for United States Senate, and for President of the United States, divided by the total votes cast for both parties in these elections. Using this index, the non-partisan state demographer shall calculate the total number of wasted votes for each party, summing across all of the districts in the plan. Wasted votes are votes cast for a losing candidate or for a winning candidate in excess of the fifty percent threshold needed for victory. In any plan of apportionment and map of the proposed districts submitted to the respective apportionment commission, the non-partisan state demographer shall ensure the difference between the two parties' total wasted votes, divided by the total votes cast for the two parties, is as close to zero as practicable.

To promote competitiveness, the non-partisan state demographer shall use the electoral performance index to simulate elections in which the hypothetical statewide vote shifts by one percent, two percent, three percent, four percent, and five percent in favor of each party. The vote in each individual district shall be assumed to shift by the same amount as the statewide vote. The non-partisan state demographer shall ensure that, in each of these simulated elections, the difference between the two parties' total wasted votes, divided by the total votes cast for the two parties, is as close to zero as practicable.

(c) Subject to the requirements of subdivisions (1)(a) and (1)(b), Districts shall be composed of contiguous territory. Areas which meet only at the points of adjoining corners are not contiguous.

(d) To the extent consistent with subdivisions (1)(a) – (1)(c) of this subsection, district boundaries shall coincide with the boundaries of political subdivisions of the state. The number of counties and cities divided among more than one district shall be as small as possible. When there is a choice between dividing local political subdivisions, the more populous subdivisions shall be divided before the less populous, but this preference shall not apply to a legislative district boundary drawn along a county line which passes through a city that lies in more than one county.

(e) Preference shall be that districts are compact in form, but the standards established by subdivisions (1)(a) – (1)(d) of this subsection take precedence over compactness where a conflict arises between compactness and these standards. In general, compact districts are those which are square, rectangular, or hexagonal in shape to the extent permitted by natural or political boundaries.

(2). Within sixty days after the population of this state is reported to the President for each decennial census of the United States [and] or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within sixty days [after notification by the governor] that such a ruling has been made, the congressional district committee of each of the two parties casting the highest vote for governor at the last preceding election shall meet and the members of the committee shall nominate, by a majority vote of the members of the committee present, provided that a majority of the elected members is present, two members of their party, residents in that district, as nominees for reapportionment commissioners. Neither party shall select more than one nominee from any one state legislative district. The congressional committees shall each submit to the governor their list of elected nominees. Within thirty days the governor shall appoint a commission consisting of one name from each list to reapportion the state into one hundred and sixty-three representative districts and to establish the numbers and boundaries of said districts.

If any of the congressional committees fails to submit a list within such time the governor shall appoint a member of his own choice from that district and from the political party of the committee failing to make the appointment.

Members of the commission shall be disqualified from holding office as members of the general assembly for four years following the date of the filing by the commission of its final statement of apportionment.

For the purposes of this Article, the term congressional district committee or congressional district refers to the congressional district committee or the congressional district from which a congressman was last elected, or, in the event members of congress from this state have been elected at large, the term congressional district committee refers to those persons who last served as the congressional district committee for those districts from which congressmen were last elected, and the term congressional district refers to those districts from which congressmen were last elected. Any action pursuant to this section by the congressional district committee shall take place only at duly called meetings, shall be recorded in their official minutes and only members present in person shall be permitted to vote.

(3) Within six months after the population of this state is reported to the President for each decennial census of the United States or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within six months after such a ruling has been made, the non-partisan state demographer shall make public and file with the secretary of state and with the house apportionment commission a tentative plan of apportionment and map of the proposed districts, as well as all demographic and partisan data used in the creation of the plan and map.

The commissioners so selected shall, [on the fifteenth day, excluding Sundays and holidays, after all members have been selected] within ten days of receiving the tentative plan of apportionment and map of the proposed districts, meet in the capitol building and proceed to organize by electing from their number a chairman, vice chairman and secretary[and]. The commission shall adopt an agenda establishing at least three hearing dates on which hearings open to the public shall be held to hear objections or testimony from interested persons. A copy of the agenda shall be filed with the clerk of the house of representatives within twenty-four hours after its adoption. Executive meetings may be scheduled and held as often as the commission deems advisable.

The commission may make changes to the tentative plan of apportionment and map of the proposed districts received from the non-

partisan state demographer provided that such changes are consistent with this section and approved by a vote of at least seven-tenths of the commissioners. If no changes are made or approved as provided for in this subsection, the tentative plan of apportionment and map of proposed districts shall become final. Not later than two months of receiving the tentative plan of apportionment and map of the proposed districts, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts.

[The commission shall reapportion the representatives by dividing the population of the state by the number one hundred sixty-three and shall establish each district so that the population of that district shall, as nearly as possible, equal that figure.

Each district shall be composed of contiguous territory as compact as may be.

Not later than five months after the appointment of the commission the commission shall receive the tentative plan of apportionment and map of the proposed districts ordered in subsection 4 of this section and during the ensuing fifteen days shall hold such public hearings as may be necessary to hear objections or testimony of interested persons.

Not later than six months after the appointment of the commission, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts, and no statement shall be valid unless approved by at least seven-tenths of the members.

After the statement is filed members of the house of representatives shall be elected according to such districts until a reapportionment is made as herein provided, except that if the statement is not filed within six months of the time fixed for the appointment of the commission, it shall stand discharged and the house of representatives shall be apportioned by a commission of six members appointed from among the judges of the appellate courts of the state of Missouri by the state supreme court, a majority of whom shall sign and file its apportionment plan and map with the secretary of state within ninety days of the date of the discharge of the apportionment commission. Thereafter members of the house of representatives shall be elected according to such districts until a reapportionment is made as herein provided.]

Each member of the commission shall receive as compensation fifteen dollars a day for each day the commission is in session but not more than one thousand dollars, and, in addition, shall be reimbursed for his actual and necessary expenses incurred while serving as a member of the commission.

No reapportionment shall be subject to the referendum.

Section 5.

(a) The Senate shall consist of thirty-four members elected by the qualified voters of the senatorial [respective] districts for a term of four years. [For the election of senators, the state shall be divided into convenient districts of contiguous territory, as compact and nearly equal in population as may be.] Senatorial districts shall be apportioned as provided for in Article III, Section 7.

Section 7.

(1) Within ten days after the population of this state is reported to the President for each decennial census of the United States or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within ten days after such a ruling has been made, the non-partisan state demographer authorized in Article III Section 3, shall begin the preparation of senatorial districting plans and maps using the same methods and criteria as those required by Article III, Section 3 for the establishment of districts for the House of Representatives.

(2) Within sixty days after the population of this state is reported to the President for each decennial census of the United States, [and] or within sixty days after [notification by the governor that] a reapportionment has been invalidated by a court of competent jurisdiction, the state committee of each of the two political parties casting the highest vote for governor at the last preceding election shall, at a committee meeting duly called, select by a vote of the individual committee members, and thereafter submit to the governor a list of ten persons, and within thirty days thereafter the governor shall appoint a commission of ten members, five from each list, to reapportion the thirty-four senatorial districts and to establish the numbers and boundaries of said districts.

If either of the party committees fails to submit a list within such time the governor shall appoint five members of his own choice from the party of the committee so failing to act.

Members of the commission shall be disqualified from holding office as members of the general assembly for four years following the date of the filing by the commission of its final statement of apportionment.

(3) Within six months after the population of this state is reported to the President for each decennial census of the United States or in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within six months after such a ruling has been made, the non-partisan state demographer shall file with the secretary of state and with the senatorial apportionment commission a tentative plan of apportionment and map of the proposed districts.

The commissioners so selected shall [on the fifteenth day, excluding Sundays and holidays, after all members have been selected] within ten days of receiving the tentative plan of apportionment and map of the proposed districts required by this subsection, meet in the capitol building and proceed to organize by electing from their number a chairman, vice chairman and secretary [and]. The commission shall adopt an agenda establishing at least three hearing dates on which hearings open to the public shall be held to hear objections or testimony from interested persons. A copy of the agenda shall be filed with the secretary of the senate within twenty-four hours after its adoption. Executive meetings may be scheduled and held as often as the commission deems advisable. The commission may make changes to the tentative plan of apportionment and map of the proposed districts received from the non-partisan state demographer provided that such changes are consistent with this Section and the methods and criteria required by Section 3 of this Article for the establishment of districts for the House of Representatives and approved by a vote of at least seven-tenths of the commissioners. If no changes are made or approved as provided for in this subsection, the tentative plan of apportionment and map of proposed districts shall become final. Not later than two months after receiving the tentative plan of apportionment and map of the proposed districts, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts.

[The commission shall reapportion the senatorial districts by dividing the population of the state by the number thirty-four and shall establish each district so that the population of that district shall, as nearly as possible, equal that figure; no county lines shall be crossed except when necessary to add sufficient population to a multi-district county or city to complete only one district which lies partly within such multi-district county or city so as to be as nearly equal as practicable in population. Any county with a population in excess of the quotient obtained by dividing the population of the state by the number thirty-four is hereby declared to be a multi-district county.

Not later than five months after the appointment of the commission the commission shall file with the secretary of state a tentative plan of apportionment and map of the proposed districts and during the ensuing fifteen days shall hold such public hearings as may be necessary to hear objections or testimony of interested persons.

Not later than six months after the appointment of the commission, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts, and no statement shall be valid unless approved by at least seven members.

After the statement is filed senators shall be elected according to such districts until a reapportionment is made as herein provided, except that if the statement is not filed within six months of the time fixed for the appointment of the commission, it shall stand discharged and the senate shall be apportioned by a commission of six members appointed from among the judges of the appellate courts of the state of Missouri by the state supreme court, a majority of whom shall sign and file its apportionment plan and map with the secretary of state within ninety days of the date of the discharge of the apportionment commission. Thereafter senators shall be elected according to such districts until a reapportionment is made as herein provided.]

Each member of the commission shall receive as compensation fifteen dollars a day for each day the commission is in session, but not more than one thousand dollars, and, in addition, shall be reimbursed for his actual and necessary expenses incurred while serving as a member of the commission.

No reapportionment shall be subject to the referendum.

Section 19.

(a) Senators and representatives shall, in all cases except treason, felony, offenses under this Article, or breach of the peace, be privileged from arrest during the session of the general assembly, and for the fifteen days next before the commencement and after the termination of each session; and they shall not be questioned for any speech or debate in either house in any other place.

(b) Legislative records shall be public records and subject to generally applicable state laws governing public access to public records, including the "Sunshine Law." Legislative records include, but are not limited to, all records, in whatever form or format, of the official acts of the general assembly, of the official acts of legislative committees, of the official acts of members of the general assembly, of individual legislators, their employees and staff, of the conduct of legislative business and all records that are created, stored or distributed through legislative branch facilities, equipment or mechanisms, including electronic. Each member of the general assembly is the custodian of legislative records under the custody and control of the member, their employees and staff. The chief clerk of the house or the secretary of the senate are the custodians for all other legislative records relating to the house and the senate, respectively.

(c) Legislative proceedings, including committee proceedings, shall be public meetings subject to generally applicable law governing public access to public meetings, including the "Sunshine Law." Open public meetings of legislative proceedings shall be subject to recording by citizens, so long as the proceedings are not materially disrupted.

Section 20(c).

No political fundraising activities or political fundraising event by any member of or candidate for the general assembly, including but not limited to the solicitation or delivery of contributions, supporting or opposing any candidate, initiative petition, referendum petition, ballot measure, political party or political committee, shall occur in or on any premises, property or building owned, leased or controlled by the State of Missouri or any agency or division thereof. Any purposeful violation of this section shall be punishable by imprisonment for up to one year or a fine of up to one thousand dollars or both, plus an amount equal to three times the illegal contributions. The Missouri Ethics Commission or its successor agency is authorized to enforce this section as provided by law.

Section 20(d).

If any provision of sections 2, 3, 7, 19, or 20(c) or the application thereof to anyone or to any circumstance is held invalid, the remainder of those provisions and the application of such provisions to others or other circumstances shall not be affected thereby.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-048)

Subject

Initiative petition from Sean Soendker Nicholson regarding a proposed constitutional amendment to Article III. (Received November 23, 2016)

Date

December 13, 2016

Description

This proposal would amend Article III of the Missouri Constitution.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** the **Missouri Ethics Commission,** and the **State Auditor's office.**

Sean Soendker Nicholson provided information as a proponent of the proposal to the State Auditor's office.

Assumptions

Officials from the **Attorney General's office** indicated they assume that any potential costs arising from the adoption of this proposal can be absorbed with existing resources.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated there would be no impact to their department as a result of this initiative petition.

Officials from the **Department of Higher Education** indicated this initiative petition would not have a fiscal impact on their department.

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no impact.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** indicated this initiative petition has no fiscal impact on their department.

Officials from the **Department of Public Safety** indicated they see no fiscal impact due to this initiative petition.

Officials from the **Department of Social Services** indicated no fiscal impact on their department.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated no fiscal impact.

Officials from the **Office of Administration** indicated this initiative petition revises Article III of the Missouri Constitution by amending Sections 2, 5, 7, and 19 and enacting three new sections.

Legislators and their employees are prohibited from lobbying for at least two years after the conclusion of the session during which they vacate office, and from acting as paid consultants while in office. Legislators and their staff are prohibited from accepting a gift in excess of five dollars, per occurrence.

The initiative creates the post of "non-partisan State Demographer" to oversee the redistricting process for the state House and Senate districts. The demographer is to be selected by a process involving the State Auditor and the Senate majority and minority leaders. Note that the wording is unclear on this process because the only State Auditor list mentioned in the list of at least three names. Therefore, if each the minority and the majority member are allowed to remove one-third of the list, and the list is only three names, they may each remove one person, leaving only one choice left, so no random lottery would be necessary. This demographer will be unable to hold elected office for four years following the filing of the new legislative districts. The redistricting process shall maximize partisan fairness and competitiveness.

It mandates that legislative records which are created, stored or distributed through legislative branch facilities, equipment or mechanisms shall be public. It allows explicitly identified legislative proceedings as open meetings and authorizes recording of such proceedings by citizens.

Political fundraising activities and events may not be held in any location owned by, or under the control of, the State of Missouri.

Campaign contributions for state senators are limited to $2,500 and representatives are limited to $2,000, with CPI adjustments made in even-numbered years. Also, contributions from federal political action committees are prohibited unless the committee has filed the same financial disclosure reports that would be required of a Missouri political action committee.

This proposal could have an impact on the Office of Administration. There is currently a State Demographer, with statutory duties that extend beyond those of legislative reapportionment. If the existing State Demographer would be chosen to assume the role of "Non-partisan State Demographer," there would be no fiscal impact. However, if that post is filled by another individual, the salary and benefits costs would be an estimated $128,513 in FY 2021, adjusted for inflation. In either scenario, the cost for other staff hired for the purposes of redistricting would remain the same.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated no fiscal impact on their office.

Officials from the **Secretary of State's office** indicated their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any significant impact on their office.

Officials from the **State Treasurer's office** indicated this would have no fiscal impact on their office.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from the **City of Columbia** indicated no impact to their city.

Officials from the **City of Kansas City** indicated no direct fiscal impact is anticipated if this proposal is adopted.

Officials from the **City of Raymore** indicated no fiscal impact.

Officials from the **City of St. Joseph** indicated this should not have a fiscal impact on local government.

Officials from the **Metropolitan Community College** indicated there is no anticipated impact for their college.

Officials from the **University of Missouri** indicated there are no anticipated financial impacts.

Officials from the **Missouri Ethics Commission** (MEC) indicated:

possible increased operating costs of $67,478 for the first year implemented, $61,107 for the second year implemented, and $61,734 for the third year implemented.

Prohibiting a statewide elected official, member of the general assembly or paid employee of general assembly from acting, serving, or registering as a lobbyist for a specified period of time after leaving office would require the following of the MEC:

- Provide information to public officials and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo., about the new statutory requirements; examples include providing education, developing informational materials, telephone and email assistance.
- Provide oversight to ensure those individuals leaving the general assembly do not register as a lobbyist with the MEC for the specified period of time. This would entail reviewing lobbyist registrations, at the time of receipt by the MEC, and comparing them to those members of the general assembly who have left office within the specified period of time. For any individual submitting a registration, create the necessary correspondence to the registrant and track the results of the correspondence.
- Respond to written complaints, as established in Section 105.955.14, RSMo., through conducting investigations and the related legal actions. Any significant increase of complaints would require additional Commission resources, including investigative staff.

Implementing prohibition for a member of general assembly, staff/employees of the general assembly to accept specified monetary lobbyist/lobbyist principal gifts would require the following of the MEC:

- Provide information to public officials and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo., about the new statutory requirements; examples include providing education, developing informational materials, telephone and email assistance.
- Provide oversight in adherence to the specific gift prohibition, including reviewing lobbyist reports as established in Section 105.959, RSMo. This oversight, it is assumed, would be primarily from receiving written complaints, as established in Section 105.955.14, RSMo., through conducting investigations and the related legal actions. It is assumed this prohibition would result in a minimal number of complaints; however, if this assumption is incorrect the Commission would require additional staff resources.

Implementing campaign finance limits would require the following of the MEC:

- Provide information to those committee officers and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo. about these limits;

examples include providing education, developing informational materials, telephone and email assistance.

- Provide oversight in campaign finance committee adherence to the specific contribution limits, including reviewing, auditing, and performing cross checks of the reported contributions, as established in Section 105.955.14 (2), (3), RSMo.
- Respond to written complaints, as established in Section 105.955.14, RSMo., through conducting investigations and the related legal actions.

Oversee the prohibition of political fundraising activities or events from occurring on State of Missouri property or any agency or division thereof would require the following of the MEC:

- Provide information to those committee officers and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo. about this provision; examples include providing education, developing informational materials, telephone and email assistance.
- Provide oversight in campaign finance committee adherence to the specific restrictions, including reviewing, auditing, and performing cross checks of the reported fund raising activity, as established in Section 105.955.14 (2), (3), RSMo.
- Respond to written complaints, as established in Section 105.955.14, RSMo., through conducting investigations and the related legal actions.

In regards to all of the provisions outlined above, if the Commission identifies significant violations during the process established in Section 105.955.14 (2), (3), RSMo or complaints received increase significantly an Investigator would be required to provide the proper oversight.

The implementation of contribution limits requires the Missouri Ethics Commission to request additional funding. Below is an outline of the additional funding. In the 2016 November General Election a Constitutional Amendment implementing contribution limits was adopted by voters. At this time, the Missouri Ethics Commission has not received the additional funding required to implement contribution limits.

The proposed provisions would implement campaign finance limits. The implementation of the above responsibilities would require the following additional resources:

•$15,120 in expense and equipment to acquire contract services that would develop the MEC internal search capabilities for oversight of the campaign finance committees' adherence to the specific contribution limits, as established in 105.955.14, RSMo. Current campaign finance data collection would allow the MEC to use search capabilities, providing for a manual review by MEC staff of adherence to the established limits.

•1 Business Analyst to conduct the routine work necessary in reviewing and providing oversight for the proposed legislation. The Business Analyst would review committee reports for compliance, prepare necessary notices, track the receipt of payment, and coordinate the necessary collection efforts. Currently two Business Analysts assist 2,800

committees in filing campaign finance reports, prepare and disseminate 15,000 notices, and review 11,000 campaign finance reports.

•If the Commission identifies significant violations during the process established in Section 105.955.14 (2), (3), RSMo, or complaints received increase significantly an Investigator would be required to provide the proper oversight.

Officials from the **State Auditor's office** (SAO) indicated any additional costs can be absorbed within current appropriations.

Sean Soendker Nicholson provided the following information as a proponent of this initiative petition.

I am a proponent of this initiative petition. Pursuant to 116.175 RSMo, I submit the following information regarding the initiative petition.

There is no cost to the state over the next two years as a result of passage of any of the initiatives. Any potential costs arising from the adoption of these proposals is minimal and can be absorbed with existing resources from the General Assembly, Missouri Ethics Commission, Attorney General's Office, Office of Administration, and other state agencies.

There is currently a State Demographer, with statutory duties that extend beyond those of legislative reapportionment. The existing State Demographer can be expected to assume the role of Non-partisan State Demographer, and there would be no fiscal impact. Certainly there can be no definitive judgment that the measure would add costs for the state.

The proposals do not establish a new program or agency so there is no duplication of existing programs. There is no federal mandate with regard to the proposals. There will be no fiscal impact on any subdivision of the state. There will be no economic impact on small businesses.

The Missouri Ethics Commission is already required to provide guidance and information to members of the General Assembly and Missouri public about campaign finance rules and lobbying rules, and is already required to respond to written complaints through conducting investigations and the related legal actions.

The State Auditor's office did not receive a response from the **Department of Elementary and Secondary Education, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri,** and **St. Louis Community College.**

Fiscal Note Summary

State governmental entities estimate annual operating costs may increase by $189,000. Local governmental entities expect no fiscal impact.

The Honorable Nicole Galloway
State Auditor
State Capitol Building
Jefferson City, MO 65101

RE: Petition approval request from Sean Soendker Nicholson regarding a proposed constitutional amendment to Article III, version 6 (2018-047)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Sean Soendker Nicholson on November 23, 2016.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

Jason Kander

NOTICE: You are advised that the proposed constitutional amendment may change, repeal, or modify by implication or may be construed by some persons to change, repeal or modify by implication, the following Articles and Sections of the Constitution of Missouri: Article I, Section 8 and the following Sections of the Missouri Revised Statutes: Sections 105.450 through 105.496 and Sections 130.011 through 130.160. The proposed amendment revises Article III of the Constitution by amending Sections 2, 5, 7, and 19 and adopting three new sections to be known as Article III Sections 3, 20(c), and 20(d).

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article III of the Constitution is revised by amending Sections 2, 5, 7, 19, and adopting three new sections to be known as Article III Sections 3, 20(c), and 20(d) to read as follows:

Section 2.

After the effective date of this section, no person serving as a member of or employed by the General Assembly shall act or serve as a paid lobbyist, register as a paid lobbyist, or solicit prospective employers or clients to represent as a paid lobbyist during the time of such service until the expiration of two calendar years after the conclusion of the session of the general assembly in which the member or employee last served and where such service was after the effective date of this section.

(a) No person serving as a member of or employed by the General Assembly shall accept directly or indirectly a gift of any tangible or intangible item, service, or thing of value from any paid lobbyist or lobbyist principal in excess of five dollars per occurrence. This Article shall not prevent Candidates for the General Assembly, including candidates for reelection, or candidates for offices within the senate or house from accepting campaign contributions consistent with this Article and applicable campaign finance law. Nothing in this section shall prevent individuals from receiving gifts, family support or anything of value from those related to them within the fourth degree by blood or marriage. The dollar limitations of this section shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency and rounded to the nearest dollar amount.

(c) The General Assembly shall make no law authorizing unlimited campaign contributions to candidates for the General Assembly, nor any law that circumvents the contribution limits contained in this Constitution. In addition to other campaign contribution limitations or restrictions provided for by law, the amount of contributions made to or accepted by any candidate or candidate committee from any person other than the candidate in any one election for the General Assembly shall not exceed the following:

(1) To elect an individual to the office of state senator, two thousand five hundred dollars; and

(2) To elect an individual to the office of state representative, two thousand dollars.

The contribution limits and other restrictions of this section shall also apply to any person exploring a candidacy for a public office listed in this subsection.

For purposes of this subsection, "base year amount" shall be the contribution limits prescribed in this section. Contribution limits set forth herein shall be adjusted on the first day of January in each even-numbered year hereafter by multiplying the base year amount by the cumulative consumer price index and rounded to the nearest dollar amount, for all years after 2018.

(d) No contribution to a candidate for legislative office shall be made or accepted, directly or indirectly, in a fictitious name, in the name of another person, or by or through another person in such a manner as to, or with the intent to, conceal the identity of the actual source of the contribution. There shall be a rebuttable presumption that a contribution to a candidate for public office is made or accepted with the intent to circumvent the limitations on contributions imposed in this section when a contribution is received from a committee or organization that is primarily funded by a single person, individual, or other committee that has already reached its contribution limit under any law relating to contribution limitations. A committee or organization shall be deemed to be primarily funded by a single person, individual, or other committee when the committee or organization receives more than fifty percent of its annual funding from that single person, individual, or other committee.

(e) In no circumstance shall a candidate be found to have violated limits on acceptance of contributions if the Missouri Ethics Commission, its successor agency, or a court determines that a candidate has taken no action to indicate acceptance of or acquiescence to the making of an expenditure that is deemed a contribution pursuant to this section.

(f) No candidate shall accept contributions from any federal political action committee unless the committee has filed the same financial disclosure reports that would be required of a Missouri political action committee.

Section 3.

(a) There is hereby established the post of "non-partisan state demographer." The non-partisan state demographer shall acquire appropriate information to develop procedures in preparation for drawing legislative redistricting maps on the basis of each federal census for presentation to the house apportionment commission and the senatorial apportionment commission.

(b) The non-partisan state demographer shall be selected through the following process. First, state residents may apply for selection to the state auditor using an application developed by the state auditor to determine an applicant's qualifications and expertise relevant to the position. Second, the state auditor shall deliver to the majority leader and minority leader of the senate a list of at least three applicants with sufficient expertise and qualifications, as determined by the state auditor, to perform the duties of the non-partisan state demographer. Third, if the majority leader and minority leader of the senate together agree that a specific applicant should be selected to be the non-partisan state demographer, that applicant shall be selected and the selection process shall cease. Fourth, if the majority leader and minority leader of the senate cannot together agree on an applicant, they may each remove a number of applicants on the state auditor's list equal to one-third of the total number of applicants on that list, rounded down to the next integer, and the state auditor shall then conduct a random lottery of the applicants remaining after removal to select the non-partisan state demographer. The state auditor shall prescribe a time frame and deadlines for this application and selection process that both encourages numerous qualified applicants and avoids delay in selection. The non-partisan state demographer shall serve a term of five years and may be reappointed. To be eligible for the non-partisan state demographer position an individual shall not have served in a partisan, elected position for four years prior to the appointment. The non-partisan state demographer shall be disqualified from holding office as a member of the general assembly for four years following the date of the presentation of his or her most recent legislative redistricting map to the house apportionment commission or the senatorial apportionment commission.

(c) The house of representatives shall consist of one hundred sixty-three members elected at each general election and apportioned [in the following manner:] as provided in this section.

(1) Within ten days after the population of this state is reported to the President for each decennial census of the United States or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within ten days after such a ruling has been made, the non-partisan state demographer shall begin the preparation of legislative districting plans and maps using the following methods, listed in order of priority:

(a) Districts shall be established on the basis of total population. Legislative districts shall each have a total population as nearly equal as practicable to the ideal population for such districts, determined by dividing the number of districts to be established into the total population of the state reported in the federal decennial census.

(b) Districts shall be established in a manner so as to comply with all requirements of the United States

Constitution and applicable federal laws, including, but not limited to, the Voting Rights Act of 1965 (as amended). Notwithstanding any other provision of this Article, districts shall not be drawn with the intent or result of denying or abridging the equal opportunity of racial or language minorities to participate in the political process or diminishing their ability to elect representatives of their choice, whether by themselves or by voting in concert with other persons.

Districts shall be established in a manner which maximizes partisan fairness and competitiveness treating similarly-situated parties equitably so that each receives the same fraction of legislative seats for a particular vote percentage as the other party would receive if it had received the same percentage of the vote. The non-partisan state demographer shall draw districts that meet as closely as possible the tests for partisan fairness and competitiveness.

To that end, the non-partisan state demographer shall calculate a district party partisan performance index for each district by determining the number of votes cast for the two top vote- getting parties in each district and then calculating the percentage of those votes won by each of the two parties casting the highest vote for governor at the last three preceding gubernatorial elections, for United States Senate at the last three preceding United States Senate elections, and for President of the United States at the last three preceding Presidential elections. The party partisan performance index for each district will then be averaged to create a statewide electoral performance index. Using the resultant statewide electoral performance index, the non-partisan state demographer shall test the plan, simulating an evenly split statewide election by normalizing district party partisan performance indices by the amount by which the statewide electoral performance index varies from fifty percent. In a hypothetical evenly divided statewide election under the proposed plan, the legislative seats should be distributed evenly between parties.

The non-partisan state demographer shall promote competitiveness by ensuring the plan is drawn so as to be equally responsive to surges in the electorate favoring either party. To test this, the non-partisan state demographer shall again use the normalized district-level results within the proposed plan to simulate separate elections in which the hypothetical statewide vote varies from fifty percent by one percent, two percent, three percent, four percent and five percent in favor of each party. The number of additional seats yielded by the simulation for any party for any amount it performs over fifty percent should be matched by the number of seats gained by the other party when it performs the same amount over fifty percent.

(c) Subject to the requirements of subdivisions (1)(a) and (1)(b), districts shall be composed of contiguous territory. Areas which meet only at the points of adjoining corners are not contiguous.

(d) To the extent consistent with subdivisions (1)(a) – (1)(c) of this subsection, district boundaries shall coincide with the boundaries of political subdivisions of the state. The number of counties and cities divided among more than one district shall be as small as possible. When there is a choice between dividing local political subdivisions, the more populous subdivisions shall be divided before the less populous, but this preference shall not apply to a legislative district boundary drawn along a county line which passes through a city that lies in more than one county.

(e) Preference shall be that districts are compact in form, but the standards established by subdivisions (1)(a) – (1)(d) of this subsection take precedence over compactness where a conflict arises between compactness and these standards. In general, compact districts are those which are square, rectangular, or hexagonal in shape to the extent permitted by natural or political boundaries.

(2). Within sixty days after the population of this state is reported to the President for each decennial census of the United States [and] or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within sixty days [after notification by the governor] that such a ruling has been made, the congressional district committee of each of the two parties casting the highest vote for governor at the last preceding election shall meet and the members of the committee shall nominate, by a majority vote of the members of the committee present, provided that a majority of the elected members is present, two members of their party, residents in that district, as nominees for reapportionment commissioners. Neither party shall select more than one nominee from any one state legislative district. The congressional committees shall each submit to the governor their list of elected nominees. Within thirty days the governor shall appoint a commission consisting of one name from each list to reapportion the state into one hundred and sixty-three representative districts and to establish the numbers and boundaries of said districts.

If any of the congressional committees fails to submit a list within such time the governor shall appoint a member of his own choice from that district and from the political party of the committee failing to make the appointment.

Members of the commission shall be disqualified from holding office as members of the general assembly for four years following the date of the filing by the commission of its final statement of apportionment.

For the purposes of this Article, the term congressional district committee or congressional district refers to the congressional district committee or the congressional district from which a congressman was last elected, or, in the event members of congress from this state have been elected at large, the term congressional district committee refers to those persons who last served as the congressional district committee for those districts from which congressmen were last elected, and the term congressional district refers to those districts from which congressmen were last elected. Any action pursuant to this section by the congressional district committee shall take place only at duly called meetings, shall be recorded in their official minutes and only members present in person shall be permitted to vote.

(3) Within six months after the population of this state is reported to the President for each decennial census of the United States or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within six months after such a ruling has been made, the non-partisan state demographer shall make public and file with the secretary of state and with the house apportionment commission a tentative plan of apportionment and map of the proposed districts, as well as all demographic and partisan data used in the creation of the plan and map.

The commissioners so selected shall, [on the fifteenth day, excluding Sundays and holidays, after all members have been selected] within ten days of receiving the tentative plan of apportionment and map of the proposed districts, meet in the capitol building and proceed to organize by electing from their number a chairman, vice chairman and secretary[and]. The commission shall adopt an agenda establishing at least three hearing dates on which hearings open to the public shall be held to hear objections or testimony from interested persons. A copy of the agenda shall be filed with the clerk of the house of representatives within twenty-four hours after its adoption. Executive meetings may be scheduled and held as often as the commission deems advisable.

The commission may make changes to the tentative plan of apportionment and map of the proposed districts received from the non-partisan state demographer provided that such changes are consistent with this section and approved by a vote of at least seven-tenths of the commissioners. If no changes are made or approved as provided for in this subsection, the tentative plan of apportionment and map of proposed districts shall become final. Not later than two months of receiving the tentative plan of apportionment and map of the proposed districts, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts.

[The commission shall reapportion the representatives by dividing the population of the state by the number one hundred sixty-three and shall establish each district so that the population of that district shall, as nearly as possible, equal that figure.

Each district shall be composed of contiguous territory as compact as may be.

Not later than five months after the appointment of the commission the commission shall receive the tentative plan of apportionment and map of the proposed districts ordered in subsection 4 of this section and during the ensuing fifteen days shall hold such public hearings as may be necessary to hear objections or testimony of interested persons.

Not later than six months after the appointment of the commission, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts, and no statement shall be valid unless approved by at least seven-tenths of the members.

After the statement is filed members of the house of representatives shall be elected according to such districts until a reapportionment is made as herein provided, except that if the statement is not filed within six months of the time fixed for the appointment of the commission, it shall stand discharged and the house of representatives shall be apportioned by a commission of six members appointed from among the judges of the appellate courts of the state of Missouri by the state supreme court, a majority of whom shall sign and file its apportionment plan and map with the secretary of state within ninety days of the date of the discharge of the apportionment commission. Thereafter members of the house of representatives shall be elected according to such districts until a reapportionment is made as herein provided.]

Each member of the commission shall receive as compensation fifteen dollars a day for each day the commission is in session but not more than one thousand dollars, and, in addition, shall be reimbursed for his actual and necessary expenses incurred while serving as a member of the commission.

No reapportionment shall be subject to the referendum.

Section 5.

(a) The Senate shall consist of thirty-four members elected by the qualified voters of the senatorial [respective] districts for a term of four years. [For the election of senators, the state shall be divided into convenient districts of contiguous territory, as compact and nearly equal in population as may be.] Senatorial districts shall be apportioned as provided for in Article III, Section 7.

Section 7.

(1) Within ten days after the population of this state is reported to the President for each decennial census of the United States or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within ten days after such a ruling has been made, the non-partisan state demographer authorized in Article III Section 3, shall begin the preparation of senatorial districting plans and maps using the same methods and criteria as those required by Article III, Section 3 for the establishment of districts for the House of Representatives.

(2) Within sixty days after the population of this state is reported to the President for each decennial census of the United States, [and] or within sixty days after [notification by the governor that] a reapportionment has been invalidated by a court of competent jurisdiction, the state committee of each of the two political parties casting the highest vote for governor at the last preceding election shall, at a committee meeting duly called, select by a vote of the individual committee members, and thereafter submit to the governor a list of ten persons, and within thirty days thereafter the governor shall appoint a commission of ten members, five from each list, to reapportion the thirty-four senatorial districts and to establish the numbers and boundaries of said districts.

If either of the party committees fails to submit a list within such time the governor shall appoint five members of his own choice from the party of the committee so failing to act.

Members of the commission shall be disqualified from holding office as members of the general assembly for four years following the date of the filing by the commission of its final statement of apportionment.

(3) Within six months after the population of this state is reported to the President for each decennial census of the United States or in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within six months after such a ruling has been made, the non-partisan state demographer shall file with the secretary of state and with the senatorial apportionment commission a tentative plan of apportionment and map of the proposed districts.

The commissioners so selected shall [on the fifteenth day, excluding Sundays and holidays, after all members have been selected] within ten days of receiving the tentative plan of apportionment and map of the proposed districts required by this subsection, meet in the capitol building and proceed to organize by electing from their number a chairman, vice chairman and secretary [and]. The commission shall adopt an agenda establishing at least three hearing dates on which hearings open to the public shall be held to hear objections or testimony from interested persons. A copy of the agenda shall be filed with the secretary of the senate within twenty-four hours after its adoption. Executive meetings may be scheduled and held as often as the commission deems advisable. The commission may make changes to the tentative plan of apportionment and map of the proposed districts received from the non-partisan state demographer provided that such changes are consistent with this Section and the methods and criteria required by Section 3 of this Article for the establishment of districts for the House of Representatives and approved by a vote of at least seven-tenths of the commissioners. If no changes are made or approved as provided for in this subsection, the tentative plan of apportionment and map of proposed districts shall become final. Not later than two months after receiving the tentative plan of apportionment and map of the proposed districts, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts.

[The commission shall reapportion the senatorial districts by dividing the population of the state by the number thirty-four and shall establish each district so that the population of that district shall, as nearly as possible, equal that figure; no county lines shall be crossed except when necessary to add sufficient population to a multi-district county or city to complete only one district which lies partly within such multi-district county or city so as to be as nearly equal as practicable in population. Any county with a population in excess of the quotient obtained by dividing the population of the state by the number thirty-four is hereby declared to be a multi-district county.

Not later than five months after the appointment of the commission the commission shall file with the secretary of state a tentative plan of apportionment and map of the proposed districts and during the ensuing fifteen days shall hold such public hearings as may be necessary to hear objections or testimony of interested persons.

Not later than six months after the appointment of the commission, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts, and no statement shall be valid unless

approved by at least seven members.

After the statement is filed senators shall be elected according to such districts until a reapportionment is made as herein provided, except that if the statement is not filed within six months of the time fixed for the appointment of the commission, it shall stand discharged and the senate shall be apportioned by a commission of six members appointed from among the judges of the appellate courts of the state of Missouri by the state supreme court, a majority of whom shall sign and file its apportionment plan and map with the secretary of state within ninety days of the date of the discharge of the apportionment commission. Thereafter senators shall be elected according to such districts until a reapportionment is made as herein provided.]

Each member of the commission shall receive as compensation fifteen dollars a day for each day the commission is in session, but not more than one thousand dollars, and, in addition, shall be reimbursed for his actual and necessary expenses incurred while serving as a member of the commission.

No reapportionment shall be subject to the referendum.

Section 19.

(a) Senators and representatives shall, in all cases except treason, felony, offenses under this Article, or breach of the peace, be privileged from arrest during the session of the general assembly, and for the fifteen days next before the commencement and after the termination of each session; and they shall not be questioned for any speech or debate in either house in any other place.

(b) Legislative records shall be public records and subject to generally applicable state laws governing public access to public records, including the "Sunshine Law." Legislative records include, but are not limited to, all records, in whatever form or format, of the official acts of the general assembly, of the official acts of legislative committees, of the official acts of members of the general assembly, of individual legislators, their employees and staff, of the conduct of legislative business and all records that are created, stored or distributed through legislative branch facilities, equipment or mechanisms, including electronic. Each member of the general assembly is the custodian of legislative records under the custody and control of the member, their employees and staff. The chief clerk of the house or the secretary of the senate are the custodians for all other legislative records relating to the house and the senate, respectively.

(c) Legislative proceedings, including committee proceedings, shall be public meetings subject to generally applicable law governing public access to public meetings, including the "Sunshine Law." Open public meetings of legislative proceedings shall be subject to recording by citizens, so long as the proceedings are not materially disrupted.

Section 20(c).

No political fundraising activities or political fundraising event by any member of or candidate for the general assembly, including but not limited to the solicitation or delivery of contributions, supporting or opposing any candidate, initiative petition, referendum petition, ballot measure, political party or political committee, shall occur in or on any premises, property or building owned, leased or controlled by the State of Missouri or any agency or division thereof. Any purposeful violation of this section shall be punishable by imprisonment for up to one year or a fine of up to one thousand dollars or both, plus an amount equal to three times the illegal contributions. The Missouri Ethics Commission or its successor agency is authorized to enforce this section as provided by law.

Section 20(d).

If any provision of sections 2, 3, 5, 7, 19, or 20(c) or the application thereof to anyone or to any circumstance is held invalid, the remainder of those provisions and the application of such provisions to others or other circumstances shall not be affected thereby.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-047)

Subject

Initiative petition from Sean Soendker Nicholson regarding a proposed constitutional amendment to Article III. (Received November 23, 2016)

Date

December 13, 2016

Description

This proposal would amend Article III of the Missouri Constitution.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** the **Missouri Ethics Commission,** and the **State Auditor's office.**

Sean Soendker Nicholson provided information as a proponent of the proposal to the State Auditor's office.

Assumptions

Officials from the **Attorney General's office** indicated they assume that any potential costs arising from the adoption of this proposal can be absorbed with existing resources.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated there would be no impact to their department as a result of this initiative petition.

Officials from the **Department of Higher Education** indicated this initiative petition would not have a fiscal impact on their department.

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no impact.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** indicated this initiative petition has no fiscal impact on their department.

Officials from the **Department of Public Safety** indicated they see no fiscal impact due to this initiative petition.

Officials from the **Department of Social Services** indicated no fiscal impact on their department.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated no fiscal impact.

Officials from the **Office of Administration** indicated this initiative petition revises Article III of the Missouri Constitution by amending Sections 2, 5, 7, and 19 and enacting three new sections.

Legislators and their employees are prohibited from lobbying for at least two years after the conclusion of the session during which they vacate office, and from acting as paid consultants while in office. Legislators and their staff are prohibited from accepting a gift in excess of five dollars, per occurrence.

The initiative creates the post of "non-partisan State Demographer" to oversee the redistricting process for the state House and Senate districts. The demographer is to be selected by a process involving the State Auditor and the Senate majority and minority leaders. Note that the wording is unclear on this process because the only State Auditor list mentioned in the list of at least three names. Therefore, if each the minority and the majority member are allowed to remove one-third of the list, and the list is only three names, they may each remove one person, leaving only one choice left, so no random lottery would be necessary. This demographer will be unable to hold elected office for four years following the filing of the new legislative districts. The redistricting process shall maximize partisan fairness and competitiveness.

It mandates that legislative records which are created, stored or distributed through legislative branch facilities, equipment or mechanisms shall be public. It allows explicitly identified legislative proceedings as open meetings and authorizes recording of such proceedings by citizens.

Political fundraising activities and events may not be held in any location owned by, or under the control of, the State of Missouri.

Campaign contributions for state senators are limited to $2,500 and representatives are limited to $2,000, with CPI adjustments made in even-numbered years. Also, contributions from federal political action committees are prohibited unless the committee has filed the same financial disclosure reports that would be required of a Missouri political action committee.

This proposal could have an impact on the Office of Administration. There is currently a State Demographer, with statutory duties that extend beyond those of legislative reapportionment. If the existing State Demographer would be chosen to assume the role of "Non-partisan State Demographer," there would be no fiscal impact. However, if that post is filled by another individual, the salary and benefits costs would be an estimated $128,513 in FY 2021, adjusted for inflation. In either scenario, the cost for other staff hired for the purposes of redistricting would remain the same.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated no fiscal impact on their office.

Officials from the **Secretary of State's office** indicated their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any significant impact on their office.

Officials from the **State Treasurer's office** indicated this would have no fiscal impact on their office.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from the **City of Columbia** indicated no impact to their city.

Officials from the **City of Kansas City** indicated no direct fiscal impact is anticipated if this proposal is adopted.

Officials from the **City of Raymore** indicated no fiscal impact.

Officials from the **City of St. Joseph** indicated this should not have a fiscal impact on local government.

Officials from the **Metropolitan Community College** indicated there is no anticipated impact for their college.

Officials from the **University of Missouri** indicated there are no anticipated financial impacts.

Officials from the **Missouri Ethics Commission** (MEC) indicated:

possible increased operating costs of $67,478 for the first year implemented, $61,107 for the second year implemented, and $61,734 for the third year implemented.

Prohibiting a statewide elected official, member of the general assembly or paid employee of general assembly from acting, serving, or registering as a lobbyist for a specified period of time after leaving office would require the following of the MEC:

- Provide information to public officials and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo., about the new statutory requirements; examples include providing education, developing informational materials, telephone and email assistance.
- Provide oversight to ensure those individuals leaving the general assembly do not register as a lobbyist with the MEC for the specified period of time. This would entail reviewing lobbyist registrations, at the time of receipt by the MEC, and comparing them to those members of the general assembly who have left office within the specified period of time. For any individual submitting a registration, create the necessary correspondence to the registrant and track the results of the correspondence.
- Respond to written complaints, as established in Section 105.955.14, RSMo., through conducting investigations and the related legal actions. Any significant increase of complaints would require additional Commission resources, including investigative staff.

Implementing prohibition for a member of general assembly, staff/employees of the general assembly to accept specified monetary lobbyist/lobbyist principal gifts would require the following of the MEC:

- Provide information to public officials and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo., about the new statutory requirements; examples include providing education, developing informational materials, telephone and email assistance.
- Provide oversight in adherence to the specific gift prohibition, including reviewing lobbyist reports as established in Section 105.959, RSMo. This oversight, it is assumed, would be primarily from receiving written complaints, as established in Section 105.955.14, RSMo., through conducting investigations and the related legal actions. It is assumed this prohibition would result in a minimal number of complaints; however, if this assumption is incorrect the Commission would require additional staff resources.

Implementing campaign finance limits would require the following of the MEC:

- Provide information to those committee officers and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo. about these limits;

examples include providing education, developing informational materials, telephone and email assistance.

- Provide oversight in campaign finance committee adherence to the specific contribution limits, including reviewing, auditing, and performing cross checks of the reported contributions, as established in Section 105.955.14 (2), (3), RSMo.
- Respond to written complaints, as established in Section 105.955.14, RSMo., through conducting investigations and the related legal actions.

Oversee the prohibition of political fundraising activities or events from occurring on State of Missouri property or any agency or division thereof would require the following of the MEC:

- Provide information to those committee officers and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo. about this provision; examples include providing education, developing informational materials, telephone and email assistance.
- Provide oversight in campaign finance committee adherence to the specific restrictions, including reviewing, auditing, and performing cross checks of the reported fund raising activity, as established in Section 105.955.14 (2), (3), RSMo.
- Respond to written complaints, as established in Section 105.955.14, RSMo., through conducting investigations and the related legal actions.

In regards to all of the provisions outlined above, if the Commission identifies significant violations during the process established in Section 105.955.14 (2), (3), RSMo or complaints received increase significantly an Investigator would be required to provide the proper oversight.

The implementation of contribution limits requires the Missouri Ethics Commission to request additional funding. Below is an outline of the additional funding. In the 2016 November General Election a Constitutional Amendment implementing contribution limits was adopted by voters. At this time, the Missouri Ethics Commission has not received the additional funding required to implement contribution limits.

The proposed provisions would implement campaign finance limits. The implementation of the above responsibilities would require the following additional resources:

•$15,120 in expense and equipment to acquire contract services that would develop the MEC internal search capabilities for oversight of the campaign finance committees' adherence to the specific contribution limits, as established in 105.955.14, RSMo. Current campaign finance data collection would allow the MEC to use search capabilities, providing for a manual review by MEC staff of adherence to the established limits.

•1 Business Analyst to conduct the routine work necessary in reviewing and providing oversight for the proposed legislation. The Business Analyst would review committee reports for compliance, prepare necessary notices, track the receipt of payment, and coordinate the necessary collection efforts. Currently two Business Analysts assist 2,800

committees in filing campaign finance reports, prepare and disseminate 15,000 notices, and review 11,000 campaign finance reports.

•If the Commission identifies significant violations during the process established in Section 105.955.14 (2), (3), RSMo, or complaints received increase significantly an Investigator would be required to provide the proper oversight.

Officials from the **State Auditor's office** (SAO) indicated any additional costs can be absorbed within current appropriations.

Sean Soendker Nicholson provided the following information as a proponent of this initiative petition.

I am a proponent of this initiative petition. Pursuant to 116.175 RSMo, I submit the following information regarding the initiative petition.

There is no cost to the state over the next two years as a result of passage of any of the initiatives. Any potential costs arising from the adoption of these proposals is minimal and can be absorbed with existing resources from the General Assembly, Missouri Ethics Commission, Attorney General's Office, Office of Administration, and other state agencies.

There is currently a State Demographer, with statutory duties that extend beyond those of legislative reapportionment. The existing State Demographer can be expected to assume the role of Non-partisan State Demographer, and there would be no fiscal impact. Certainly there can be no definitive judgment that the measure would add costs for the state.

The proposals do not establish a new program or agency so there is no duplication of existing programs. There is no federal mandate with regard to the proposals. There will be no fiscal impact on any subdivision of the state. There will be no economic impact on small businesses.

The Missouri Ethics Commission is already required to provide guidance and information to members of the General Assembly and Missouri public about campaign finance rules and lobbying rules, and is already required to respond to written complaints through conducting investigations and the related legal actions.

The State Auditor's office did not receive a response from the **Department of Elementary and Secondary Education, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri,** and **St. Louis Community College.**

Fiscal Note Summary

State governmental entities estimate annual operating costs may increase by $189,000. Local governmental entities expect no fiscal impact.

The Honorable Nicole Galloway
State Auditor
State Capitol Building
Jefferson City, MO 65101

RE: Petition approval request from Sean Soendker Nicholson regarding a proposed constitutional amendment to Article III, version 5 (2018-046)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Sean Soendker Nicholson on November 23, 2016.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

Jason Kander

NOTICE: You are advised that the proposed constitutional amendment may change, repeal, or modify by implication or may be construed by some persons to change, repeal or modify by implication, the following Articles and Sections of the Constitution of Missouri: Article I, Section 8 and the following Sections of the Missouri Revised Statutes: Sections 105.450 through 105.496 and Sections 130.011 through 130.160. The proposed amendment revises Article III of the Constitution by amending Sections 2, 5, 7, and 19 and adopting three new sections to be known as Article III Sections 3, 20(c), and 20(d).

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article III of the Constitution is revised by amending Sections 2, 5, 7, 19, and adopting three new sections to be known as Article III Sections 3, 20(c), and 20(d) to read as follows:

Section 2.

After the effective date of this section, no person serving as a member of or employed by the General Assembly shall act or serve as a paid lobbyist, register as a paid lobbyist, or solicit prospective employers or clients to represent as a paid lobbyist during the time of such service until the expiration of two calendar years after the conclusion of the session of the general assembly in which the member or employee last served and where such service was after the effective date of this section.

(a) No person serving as a member of or employed by the General Assembly shall accept directly or indirectly a gift of any tangible or intangible item, service, or thing of value from any paid lobbyist or lobbyist principal in excess of five dollars per occurrence. This Article shall not prevent Candidates for the General Assembly, including candidates for reelection, or candidates for offices within the senate or house from accepting campaign contributions consistent with this Article and applicable campaign finance law. Nothing in this section shall prevent individuals from receiving gifts, family support or anything of value from those related to them within the fourth degree by blood or marriage. The dollar limitations of this section shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency and rounded to the nearest dollar amount.

(c) The General Assembly shall make no law authorizing unlimited campaign contributions to candidates for the General Assembly, nor any law that circumvents the contribution limits contained in this Constitution. In addition to other campaign contribution limitations or restrictions provided for by law, the amount of contributions made to or accepted by any candidate or candidate committee from any person other than the candidate in any one election for the General Assembly shall not exceed the following:

(1) To elect an individual to the office of state senator, two thousand five hundred dollars; and

(2) To elect an individual to the office of state representative, two thousand dollars.

The contribution limits and other restrictions of this section shall also apply to any person exploring a candidacy for a public office listed in this subsection.

For purposes of this subsection, "base year amount" shall be the contribution limits prescribed in this section. Contribution limits set forth herein shall be adjusted on the first day of January in each even-numbered year hereafter by multiplying the base year amount by the cumulative consumer price index and rounded to the nearest dollar amount, for all years after 2018.

(d) No contribution to a candidate for legislative office shall be made or accepted, directly or indirectly, in a fictitious name, in the name of another person, or by or through another person in such a manner as to, or with the intent to, conceal the identity of the actual source of the contribution. There shall be a rebuttable presumption that a contribution to a candidate for public office is made or accepted with the intent to circumvent the limitations on contributions imposed in this section when a contribution is received from a committee or organization that is primarily funded by a single person, individual, or other committee that has already reached its contribution limit under any law relating to contribution limitations. A committee or organization shall be deemed to be primarily funded by a single person, individual, or other committee when the committee or organization receives more than fifty percent of its annual funding from that single person, individual, or other committee.

(e) In no circumstance shall a candidate be found to have violated limits on acceptance of contributions if the Missouri Ethics Commission, its successor agency, or a court determines that a candidate has taken no action to indicate acceptance of or acquiescence to the making of an expenditure that is deemed a contribution pursuant to this section.

(f) No candidate shall accept contributions from any federal political action committee unless the committee has filed the same financial disclosure reports that would be required of a Missouri political action committee.

Section 3.

(a) There is hereby established the post of "non-partisan state demographer." The non-partisan state demographer shall acquire appropriate information to develop procedures in preparation for drawing legislative redistricting maps on the basis of each federal census for presentation to the house apportionment commission and the senatorial apportionment commission.

(b) The non-partisan state demographer shall be appointed by the Governor through a merit based process. The non-partisan state demographer shall serve a term of five years and may be reappointed. To be eligible for the non-partisan state demographer position an individual shall not have served in a partisan, elected position for four years prior to the appointment. The non-partisan state demographer shall be disqualified from holding office as a member of the general assembly for four years following the date of the presentation of his or her most recent legislative redistricting map to the house apportionment commission or the senatorial apportionment commission.

(c) The house of representatives shall consist of one hundred sixty-three members elected at each general election and apportioned [in the following manner:] as provided in this section.

(1) Within ten days after the population of this state is reported to the President for each decennial census of the United States or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within ten days after such a ruling has been made, the non-partisan state demographer shall begin the preparation of legislative districting plans and maps using the following methods, listed in order of priority:

(a) Districts shall be established on the basis of total population. Legislative districts shall each have a total population as nearly equal as practicable to the ideal population for such districts, determined by dividing the number of districts to be established into the total population of the state reported in the federal decennial census.

(b) Districts shall be established in a manner so as to comply with all requirements of the United States Constitution and applicable federal laws, including, but not limited to, the Voting Rights Act of 1965 (as amended). Notwithstanding any other provision of this Article, districts shall not be drawn with the intent or result of denying or abridging the equal opportunity of racial or language minorities to participate in the political process or diminishing their ability to elect representatives of their choice, whether by themselves or by voting in concert with other persons.

Districts shall be established in a manner which maximizes partisan fairness and competitiveness treating similarly-situated parties equitably so that each receives the same fraction of legislative seats for a particular vote percentage as the other party

would receive if it had received the same percentage of the vote. The non-partisan state demographer shall draw districts that meet as closely as possible the tests for partisan fairness and competitiveness.

To that end, the non-partisan state demographer shall calculate a district party partisan performance index for each district by determining the number of votes cast for the two top vote- getting parties in each district and then calculating the percentage of those votes won by each of the two parties casting the highest vote for governor at the last three preceding gubernatorial elections, for United States Senate at the last three preceding United States Senate elections, and for President of the United States at the last three preceding Presidential elections. The party partisan performance index for each district will then be averaged to create a statewide electoral performance index. Using the resultant statewide electoral performance index, the non-partisan state demographer shall test the plan, simulating an evenly split statewide election by normalizing district party partisan performance indices by the amount by which the statewide electoral performance index varies from fifty percent. In a hypothetical evenly divided statewide election under the proposed plan, the legislative seats should be distributed evenly between parties.

The non-partisan state demographer shall promote competitiveness by ensuring the plan is drawn so as to be equally responsive to surges in the electorate favoring either party. To test this, the non-partisan state demographer shall again use the normalized district-level results within the proposed plan to simulate separate elections in which the hypothetical statewide vote varies from fifty percent by one percent, two percent, three percent, four percent and five percent in favor of each party. The number of additional seats yielded by the simulation for any party for any amount it performs over fifty percent should be matched by the number of seats gained by the other party when it performs the same amount over fifty percent.

(c) Subject to the requirements of subdivisions (1)(a) and (1)(b), districts shall be composed of contiguous territory. Areas which meet only at the points of adjoining corners are not contiguous.

(d) To the extent consistent with subdivisions (1)(a) – (1)(c) of this subsection, district boundaries shall coincide with the boundaries of political subdivisions of the state. The number of counties and cities divided among more than one district shall be as small as possible. When there is a choice between dividing local political subdivisions, the more populous subdivisions shall be divided before the less populous, but this preference shall not apply to a legislative district boundary drawn along a county line which passes through a city that lies in more than one county.

(e) Preference shall be that districts are compact in form, but the standards established by subdivisions (1)(a) – (1)(d) of this subsection take precedence over compactness where a conflict arises between compactness and these standards. In general, compact districts are those which are square, rectangular, or hexagonal in shape to the extent permitted by natural or political boundaries.

(2). Within sixty days after the population of this state is reported to the President for each decennial census of the United States [and] or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within sixty days [after notification by the governor] that such a ruling has been made, the congressional district committee of each of the two parties casting the highest vote for governor at the last preceding election shall meet and the members of the committee shall nominate, by a majority vote of the members of the committee present, provided that a majority of the elected members is present, two members of their party, residents in that district, as nominees for reapportionment commissioners. Neither party shall select more than one nominee from any one state legislative district. The congressional committees shall each submit to the governor their list of elected nominees. Within thirty days the governor shall appoint a commission consisting of one name from each list to reapportion the state into one hundred and sixty-three representative districts and to establish the numbers and boundaries of said districts.

If any of the congressional committees fails to submit a list within such time the governor shall appoint a member of his own choice from that district and from the political party of the committee failing to make the appointment.

Members of the commission shall be disqualified from holding office as members of the general assembly for four years following the date of the filing by the commission of its final statement of apportionment.

For the purposes of this Article, the term congressional district committee or congressional district refers to the congressional district committee or the congressional district from which a congressman was last elected, or, in the event members of congress from this state have been elected at large, the term congressional district committee refers to those persons who last served as the congressional district committee for those districts from which congressmen were last elected, and the term congressional district refers to those districts from which congressmen were last elected. Any action pursuant to this section by the congressional district committee shall take place only at duly called meetings, shall be recorded in their official minutes and only members present in person shall be permitted to vote.

(3) Within six months after the population of this state is reported to the President for each decennial census of the United States or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within six months after such a ruling has been made, the non-partisan state demographer shall make public and file with the secretary of state and with the house apportionment commission a tentative plan of apportionment and map of the proposed districts, as well as all demographic and partisan data used in the creation of the plan and map.

The commissioners so selected shall, [on the fifteenth day, excluding Sundays and holidays, after all members have been selected] within ten days of receiving the tentative plan of apportionment and map of the proposed districts, meet in the capitol building and proceed to organize by electing from their number a chairman, vice chairman and secretary[and]. The commission shall adopt an agenda establishing at least three hearing dates on which hearings open to the public shall be held to hear objections or testimony from interested persons. A copy of the agenda shall be filed with the clerk of the house of representatives within twenty-four hours after its adoption. Executive meetings may be scheduled and held as often as the commission deems advisable.

The commission may make changes to the tentative plan of apportionment and map of the proposed districts received from the non-partisan state demographer provided that such changes are consistent with this section and approved by a vote of at least seven-tenths of the commissioners. If no changes are made or approved as provided for in this subsection, the tentative plan of apportionment and map of proposed districts shall become final. Not later than two months of receiving the tentative plan of apportionment and map of the proposed districts, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts.

[The commission shall reapportion the representatives by dividing the population of the state by the number one hundred sixty-three and shall establish each district so that the population of that district shall, as nearly as possible, equal that figure.

Each district shall be composed of contiguous territory as compact as may be.

Not later than five months after the appointment of the commission the commission shall receive the tentative plan of apportionment and map of the proposed districts ordered in subsection 4 of this section and during the ensuing fifteen days shall hold such public hearings as may be necessary to hear objections or testimony of interested persons.

Not later than six months after the appointment of the commission, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts, and no statement shall be valid unless approved by at least seven-tenths of the members.

After the statement is filed members of the house of representatives shall be elected according to such districts until a reapportionment is made as herein provided, except that if the statement is not filed within six months of the time fixed for the appointment of the commission, it shall stand discharged and the house of representatives shall be apportioned by a commission of six members appointed from among the judges of the appellate courts of the state of Missouri by the state supreme court, a majority of whom shall sign and file its apportionment plan and map with the secretary of state within ninety days of the date of the discharge of the apportionment commission. Thereafter members of the house of representatives shall be elected according to such districts until a reapportionment is made as herein provided.]

Each member of the commission shall receive as compensation fifteen dollars a day for each day the commission is in session but not more than one thousand dollars, and, in addition, shall be reimbursed for his actual and necessary expenses incurred while serving as a member of the commission.

No reapportionment shall be subject to the referendum.

Section 5.

(a) The Senate shall consist of thirty-four members elected by the qualified voters of the senatorial [respective] districts for a term of four years. [For the election of senators, the state shall be divided into convenient districts of contiguous territory, as compact and nearly equal in population as may be.] Senatorial districts shall be apportioned as provided for in Article III, Section 7.

Section 7.

(1) Within ten days after the population of this state is reported to the President for each decennial census of the United States or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within ten days after such a ruling has been made, the non-partisan state demographer authorized in Article III Section 3, shall begin the preparation of senatorial districting plans and maps using the same methods and criteria as those required by Article III, Section 3 for the establishment of districts for the House of Representatives.

(2) Within sixty days after the population of this state is reported to the President for each decennial census of the United States, [and] or within sixty days after [notification by the governor that] a reapportionment has been invalidated by a court of competent jurisdiction, the state committee of each of the two political parties casting the highest vote for governor at the last preceding election shall, at a committee meeting duly called, select by a vote of the individual committee members, and thereafter submit to the governor a list of ten persons, and within thirty days thereafter the governor shall appoint a commission of ten members, five from each list, to reapportion the thirty-four senatorial districts and to establish the numbers and boundaries of said districts.

If either of the party committees fails to submit a list within such time the governor shall appoint five members of his own choice from the party of the committee so failing to act.

Members of the commission shall be disqualified from holding office as members of the general assembly for four years following the date of the filing by the commission of its final statement of apportionment.

(3) Within six months after the population of this state is reported to the President for each decennial census of the United States or in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within six months after such a ruling has been made, the non-partisan state demographer shall file with the secretary of state and with the senatorial apportionment commission a tentative plan of apportionment and map of the proposed districts.

The commissioners so selected shall [on the fifteenth day, excluding Sundays and holidays, after all members have been selected] within ten days of receiving the tentative plan of apportionment and map of the proposed districts required by this subsection, meet in the capitol building and proceed to organize by electing from their number a chairman, vice chairman and secretary [and]. The commission shall adopt an agenda establishing at least three hearing dates on which hearings open to the public shall be held to hear objections or testimony from interested persons. A copy of the agenda shall be filed with the secretary of the senate within twenty-four hours after its adoption. Executive meetings may be scheduled and held as often as the commission deems advisable. The commission may make changes to the tentative plan of apportionment and map of the proposed districts received from the non-partisan state demographer provided that such changes are consistent with this Section and the methods and criteria required by Section 3 of this Article for the establishment of districts for the House of Representatives and approved by a vote of at least seven-tenths of the commissioners. If no changes are made or approved as provided for in this subsection, the tentative plan of apportionment and map of proposed districts shall become final. Not later than two months after receiving the tentative plan of apportionment and map of the proposed districts, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts.

[The commission shall reapportion the senatorial districts by dividing the population of the state by the number thirty-four and shall establish each district so that the population of that district shall, as nearly as possible, equal that figure; no county lines shall be crossed except when necessary to add sufficient population to a multi-district county or city to complete only one district which lies partly within such multi-district county or city so as to be as nearly equal as practicable in population. Any county with a population in excess of the quotient obtained by dividing the population of the state by the number thirty-four is hereby declared to be a multi-district county.

Not later than five months after the appointment of the commission the commission shall file with the secretary of state a tentative plan of apportionment and map of the proposed districts and during the ensuing fifteen days shall hold such public hearings as may be necessary to hear objections or testimony of interested persons.

Not later than six months after the appointment of the commission, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts, and no statement shall be valid unless approved by at least seven members.

After the statement is filed senators shall be elected according to such districts until a reapportionment is made as herein provided, except that if the statement is not filed within six months of the time fixed for the appointment of the commission, it shall stand discharged and the senate shall be apportioned by a commission of six members appointed from among the judges of the appellate courts of the state of Missouri by the state supreme court, a majority of whom shall sign and file its apportionment plan and map with the secretary of state within ninety days of the date of the discharge of the apportionment commission. Thereafter senators shall be elected according to such districts until a reapportionment is made as herein provided.]

Each member of the commission shall receive as compensation fifteen dollars a day for each day the commission is in session, but not more than one thousand dollars, and, in addition, shall be reimbursed for his actual and necessary expenses incurred while serving as a member of the commission.

No reapportionment shall be subject to the referendum.

Section 19.

(a) Senators and representatives shall, in all cases except treason, felony, offenses under this Article, or breach of the peace, be privileged from arrest during the session of the general assembly, and for the fifteen days next before the commencement and after the termination of each session; and they shall not be questioned for any speech or debate in either house in any other place.

(b) Legislative records shall be public records and subject to generally applicable state laws governing public access to public records, including the "Sunshine Law." Legislative records include, but are not limited to, all records, in whatever form or format, of the official acts of the general assembly, of the official acts of legislative committees, of the official acts of members of the general assembly, of individual legislators, their employees and staff, of the conduct of legislative business and all records that are created, stored or distributed through legislative branch facilities, equipment or mechanisms, including electronic. Each member of the general assembly is the custodian of legislative records under the custody and control of the member, their employees and staff. The chief clerk of the house or the secretary of the senate are the custodians for all other legislative records relating to the house and the senate, respectively.

(c) Legislative proceedings, including committee proceedings, shall be public meetings subject to generally applicable law governing public access to public meetings, including the "Sunshine Law." Open public meetings of legislative proceedings shall be subject to recording by citizens, so long as the proceedings are not materially disrupted.

Section 20(c).

No political fundraising activities or political fundraising event by any member of or candidate for the general assembly, including but not limited to the solicitation or delivery of contributions, supporting or opposing any candidate, initiative petition, referendum petition, ballot measure, political party or political committee, shall occur in or on any premises, property or building owned, leased or controlled by the State of Missouri or any agency or division thereof. Any purposeful violation of this section shall be punishable by imprisonment for up to one year or a fine of up to one thousand dollars or both, plus an amount equal to three times the illegal contributions. The Missouri Ethics Commission or its successor agency is authorized to enforce this section as provided by law.

Section 20(d).

If any provision of sections 2, 3, 5, 7, 19, or 20(c) or the application thereof to anyone or to any circumstance is held invalid, the remainder of those provisions and the application of such provisions to others or other circumstances shall not be affected thereby.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-046)

Subject

Initiative petition from Sean Soendker Nicholson regarding a proposed constitutional amendment to Article III. (Received November 23, 2016)

Date

December 13, 2016

Description

This proposal would amend Article III of the Missouri Constitution.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** the **Missouri Ethics Commission,** and the **State Auditor's office.**

Sean Soendker Nicholson provided information as a proponent of the proposal to the State Auditor's office.

Assumptions

Officials from the **Attorney General's office** indicated they assume that any potential costs arising from the adoption of this proposal can be absorbed with existing resources.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated there would be no impact to their department as a result of this initiative petition.

Officials from the **Department of Higher Education** indicated this initiative petition would not have a fiscal impact on their department.

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no impact.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** indicated this initiative petition has no fiscal impact on their department.

Officials from the **Department of Public Safety** indicated they see no fiscal impact due to this initiative petition.

Officials from the **Department of Social Services** indicated no fiscal impact on their department.

Officials from the **Governor's office** indicated the Governor is responsible for appointing a non-partisan State Demographer; however, there should be no added costs or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated no fiscal impact.

Officials from the **Office of Administration** indicated this initiative petition revises Article III of the Missouri Constitution by amending Sections 2, 5, 7, and 19 and enacting three new sections.

Legislators and their employees are prohibited from lobbying for at least two years after the conclusion of the session during which they vacate office, and from acting as paid consultants while in office. Legislators and their staff are prohibited from accepting a gift in excess of five dollars, per occurrence.

The initiative creates the post of "non-partisan State Demographer" to oversee the redistricting process for the state House and Senate districts. The demographer is to be selected by the Governor through a merit-based process. This demographer will be unable to hold elected office for four years following the filing of the new legislative districts. The redistricting process shall maximize partisan fairness and competitiveness.

It mandates that legislative records which are created, stored or distributed through legislative branch facilities, equipment or mechanisms shall be public. It allows explicitly identified legislative proceedings as open meetings and authorizes recording of such proceedings by citizens.

Political fundraising activities and events may not be held in any location owned by, or under the control of, the State of Missouri.

Campaign contributions for state senators are limited to $2,500 and representatives are limited to $2,000, with CPI adjustments made in even-numbered years. Also, contributions from federal political action committees are prohibited unless the committee has filed the same financial disclosure reports that would be required of a Missouri political action committee.

This proposal could have an impact on the Office of Administration. There is currently a State Demographer, with statutory duties that extend beyond those of legislative reapportionment. If the existing State Demographer would be chosen to assume the role of "Non-partisan State Demographer," there would be no fiscal impact. However, if that post is filled by another individual, the salary and benefits costs would be an estimated $128,513 in FY 2021, adjusted for inflation. In either scenario, the cost for other staff hired for the purposes of redistricting would remain the same.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated no fiscal impact on their office.

Officials from the **Secretary of State's office** indicated their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any significant impact on their office.

Officials from the **State Treasurer's office** indicated this would have no fiscal impact on their office.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from the **City of Columbia** indicated no impact to their city.

Officials from the **City of Kansas City** indicated no direct fiscal impact is anticipated if this proposal is adopted.

Officials from the **City of Raymore** indicated no fiscal impact.

Officials from the **City of St. Joseph** indicated this should not have a fiscal impact on local government.

Officials from the **Metropolitan Community College** indicated there is no anticipated impact for their college.

Officials from the **University of Missouri** indicated there are no anticipated financial impacts.

Officials from the **Missouri Ethics Commission** (MEC) indicated:

possible increased operating costs of $67,478 for the first year implemented, $61,107 for the second year implemented, and $61,734 for the third year implemented.

Prohibiting a statewide elected official, member of the general assembly or paid employee of general assembly from acting, serving, or registering as a lobbyist for a specified period of time after leaving office would require the following of the MEC:

- Provide information to public officials and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo., about the new statutory requirements; examples include providing education, developing informational materials, telephone and email assistance.
- Provide oversight to ensure those individuals leaving the general assembly do not register as a lobbyist with the MEC for the specified period of time. This would entail reviewing lobbyist registrations, at the time of receipt by the MEC, and comparing them to those members of the general assembly who have left office within the specified period of time. For any individual submitting a registration, create the necessary correspondence to the registrant and track the results of the correspondence.
- Respond to written complaints, as established in Section 105.955.14, RSMo., through conducting investigations and the related legal actions. Any significant increase of complaints would require additional Commission resources, including investigative staff.

Implementing prohibition for a member of general assembly, staff/employees of the general assembly to accept specified monetary lobbyist/lobbyist principal gifts would require the following of the MEC:

- Provide information to public officials and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo., about the new statutory requirements; examples include providing education, developing informational materials, telephone and email assistance.
- Provide oversight in adherence to the specific gift prohibition, including reviewing lobbyist reports as established in Section 105.959, RSMo. This oversight, it is assumed, would be primarily from receiving written complaints, as established in Section 105.955.14, RSMo., through conducting investigations and the related legal actions. It is assumed this prohibition would result in a minimal number of complaints; however, if this assumption is incorrect the Commission would require additional staff resources.

Implementing campaign finance limits would require the following of the MEC:

- Provide information to those committee officers and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo. about these limits;

examples include providing education, developing informational materials, telephone and email assistance.

- Provide oversight in campaign finance committee adherence to the specific contribution limits, including reviewing, auditing, and performing cross checks of the reported contributions, as established in Section 105.955.14 (2), (3), RSMo.
- Respond to written complaints, as established in Section 105.955.14, RSMo., through conducting investigations and the related legal actions.

Oversee the prohibition of political fundraising activities or events from occurring on State of Missouri property or any agency or division thereof would require the following of the MEC:

- Provide information to those committee officers and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo. about this provision; examples include providing education, developing informational materials, telephone and email assistance.
- Provide oversight in campaign finance committee adherence to the specific restrictions, including reviewing, auditing, and performing cross checks of the reported fund raising activity, as established in Section 105.955.14 (2), (3), RSMo.
- Respond to written complaints, as established in Section 105.955.14, RSMo., through conducting investigations and the related legal actions.

In regards to all of the provisions outlined above, if the Commission identifies significant violations during the process established in Section 105.955.14 (2), (3), RSMo or complaints received increase significantly an Investigator would be required to provide the proper oversight.

The implementation of contribution limits requires the Missouri Ethics Commission to request additional funding. Below is an outline of the additional funding. In the 2016 November General Election a Constitutional Amendment implementing contribution limits was adopted by voters. At this time, the Missouri Ethics Commission has not received the additional funding required to implement contribution limits.

The proposed provisions would implement campaign finance limits. The implementation of the above responsibilities would require the following additional resources:

•$15,120 in expense and equipment to acquire contract services that would develop the MEC internal search capabilities for oversight of the campaign finance committees' adherence to the specific contribution limits, as established in 105.955.14, RSMo. Current campaign finance data collection would allow the MEC to use search capabilities, providing for a manual review by MEC staff of adherence to the established limits.

•1 Business Analyst to conduct the routine work necessary in reviewing and providing oversight for the proposed legislation. The Business Analyst would review committee reports for compliance, prepare necessary notices, track the receipt of payment, and coordinate the necessary collection efforts. Currently two Business Analysts assist 2,800

committees in filing campaign finance reports, prepare and disseminate 15,000 notices, and review 11,000 campaign finance reports.

•If the Commission identifies significant violations during the process established in Section 105.955.14 (2), (3), RSMo, or complaints received increase significantly an Investigator would be required to provide the proper oversight.

Officials from the **State Auditor's office** (SAO) indicated there is no fiscal impact for their office.

Sean Soendker Nicholson provided the following information as a proponent of this initiative petition.

I am a proponent of this initiative petition. Pursuant to 116.175 RSMo, I submit the following information regarding the initiative petition.

There is no cost to the state over the next two years as a result of passage of any of the initiatives. Any potential costs arising from the adoption of these proposals is minimal and can be absorbed with existing resources from the General Assembly, Missouri Ethics Commission, Attorney General's Office, Office of Administration, and other state agencies.

There is currently a State Demographer, with statutory duties that extend beyond those of legislative reapportionment. The existing State Demographer can be expected to assume the role of Non-partisan State Demographer, and there would be no fiscal impact. Certainly there can be no definitive judgment that the measure would add costs for the state.

The proposals do not establish a new program or agency so there is no duplication of existing programs. There is no federal mandate with regard to the proposals. There will be no fiscal impact on any subdivision of the state. There will be no economic impact on small businesses.

The Missouri Ethics Commission is already required to provide guidance and information to members of the General Assembly and Missouri public about campaign finance rules and lobbying rules, and is already required to respond to written complaints through conducting investigations and the related legal actions.

The State Auditor's office did not receive a response from the **Department of Elementary and Secondary Education, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri,** and **St. Louis Community College.**

Fiscal Note Summary

State governmental entities estimate annual operating costs may increase by $189,000. Local governmental entities expect no fiscal impact.

Jefferson City, MO 65101

RE: Petition approval request from Sean Soendker Nicholson regarding a proposed constitutional amendment to Article III, version 4 (2018-045)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Sean Soendker Nicholson on November 23, 2016.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

Jason Kander

NOTICE: You are advised that the proposed constitutional amendment may change, repeal, or modify by implication or may be construed by some persons to change, repeal or modify by implication, the following Articles and Sections of the Constitution of Missouri: Article I, Section 8 and the following Sections of the Missouri Revised Statutes: Sections 105.450 through 105.496 and Sections 130.011 through 130.160. The proposed amendment revises Article III of the Constitution by amending Sections 2, 5, 7, and 19 and adopting three new sections to be known as Article III Sections 3, 20(c), and 20(d).

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article III of the Constitution is revised by amending Sections 2, 5, 7, 19, and adopting three new sections to be known as Article III Sections 3, 20(c), and 20(d) to read as follows:

Section 2.

After the effective date of this section, no person serving as a member of or employed by the General Assembly shall act or serve as a paid lobbyist, register as a paid lobbyist, or solicit prospective employers or clients to represent as a paid lobbyist during the time of such service until the expiration of one calendar year after the conclusion of the session of the general assembly in which the member or employee last served and where such service was after the effective date of this section.

(a) No person serving as a member of or employed by the General Assembly shall accept directly or indirectly a gift of any tangible or intangible item, service, or thing of value from any paid lobbyist or lobbyist principal in excess of five dollars per occurrence. This Article shall not prevent Candidates for the General Assembly, including candidates for reelection, or candidates for offices within the senate or house from accepting campaign contributions consistent with this Article and applicable campaign finance law. Nothing in this section shall prevent individuals from receiving gifts, family support or anything of value from those related to them within the fourth degree by blood or marriage. The dollar limitations of this section shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency and rounded to the nearest dollar amount.

(c) The General Assembly shall make no law authorizing unlimited campaign contributions to candidates for the General Assembly, nor any law that circumvents the contribution limits contained in this Constitution. In addition to other campaign contribution limitations or restrictions provided for by law, the amount of contributions made to or accepted by any candidate or candidate committee from any person other than the candidate in any one election for the General Assembly shall not exceed the following:

(1) To elect an individual to the office of state senator, two thousand five hundred dollars; and

(2) To elect an individual to the office of state representative, two thousand dollars.

The contribution limits and other restrictions of this section shall also apply to any person exploring a candidacy for a public office listed in this subsection.

For purposes of this subsection, "base year amount" shall be the contribution limits prescribed in this section. Contribution limits set forth herein shall be adjusted on the first day of January in each even-numbered year hereafter by multiplying the base year amount by the cumulative consumer price index and rounded to the nearest dollar amount, for all years after 2018.

(d) No contribution to a candidate for legislative office shall be made or accepted, directly or indirectly, in a fictitious name, in the name of another person, or by or through another person in such a manner as to, or with the intent to, conceal the identity of the actual source of the contribution. There shall be a rebuttable presumption that a contribution to a candidate for public office is made or accepted with the intent to circumvent the limitations on contributions imposed in this section when a contribution is received from a committee or organization that is primarily funded by a single person, individual, or other committee that has already reached its contribution limit under any law relating to contribution limitations. A committee or organization shall be deemed to be primarily funded by a single person, individual, or other committee when the committee or organization receives more than fifty percent of its annual funding from that single person, individual, or other committee.

(e) In no circumstance shall a candidate be found to have violated limits on acceptance of contributions if the Missouri Ethics Commission, its successor agency, or a court determines that a candidate has taken no action to indicate acceptance of or acquiescence to the making of an expenditure that is deemed a contribution pursuant to this section.

(f) No candidate shall accept contributions from any federal political action committee unless the committee has filed the same financial disclosure reports that would be required of a Missouri political action committee.

Section 3.

(a) There is hereby established the post of "non-partisan state demographer." The non-partisan state demographer shall acquire appropriate information to develop procedures in preparation for drawing legislative redistricting maps on the basis of each federal census for presentation to the house apportionment commission and the senatorial apportionment commission.

(b) The non-partisan state demographer shall be appointed by the Governor through a merit based process. The non-partisan state demographer shall serve a term of five years and may be reappointed. To be eligible for the non-partisan state demographer position an individual shall not have served in a partisan, elected position for four years prior to the appointment. The non-partisan state demographer shall be disqualified from holding office as a member of the general assembly for four years following the date of the presentation of his or her most recent legislative redistricting map to the house apportionment commission or the senatorial apportionment commission.

(c) The house of representatives shall consist of one hundred sixty-three members elected at each general election and apportioned [in the following manner:] as provided in this section.

(1) Within ten days after the population of this state is reported to the President for each decennial census of the United States or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within ten days after such a ruling has been made, the non-partisan state demographer shall begin the preparation of legislative districting plans and maps using the following methods, listed in order of priority:

(a) Districts shall be established on the basis of total population. Legislative districts shall each have a total population as nearly equal as practicable to the ideal population for such districts, determined by dividing the number of districts to be established into the total population of the state reported in the federal decennial census.

(b) Districts shall be established in a manner so as to comply with all requirements of the United States Constitution and applicable federal laws, including, but not limited to, the Voting Rights Act of 1965 (as amended). Notwithstanding any other provision of this Article, districts shall not be drawn with the intent or result of denying or abridging the equal opportunity of racial or language minorities to participate in the political process or diminishing their ability to elect representatives of their choice, whether by themselves or by voting in concert with other persons.

Districts shall be designed in a manner that achieves both partisan fairness and, secondarily,

competitiveness. Partisan fairness means that parties shall be able to translate their popular support into legislative representation with approximately equal efficiency. Competitiveness means that parties' legislative representation shall be substantially and similarly responsive to shifts in the electorate's preferences.

To this end, the non-partisan state demographer shall calculate the average electoral performance of the two parties receiving the most votes in the three preceding elections for governor, for United States Senate, and for President of the United States. This index shall be defined as the total votes received by each party in the three preceding elections for governor, for United States Senate, and for President of the United States, divided by the total votes cast for both parties in these elections. Using this index, the non-partisan state demographer shall calculate the total number of wasted votes for each party, summing across all of the districts in the plan. Wasted votes are votes cast for a losing candidate or for a winning candidate in excess of the fifty percent threshold needed for victory. In any plan of apportionment and map of the proposed districts submitted to the respective apportionment commission, the non-partisan state demographer shall ensure the difference between the two parties' total wasted votes, divided by the total votes cast for the two parties, is as close to zero as practicable.

To promote competitiveness, the non-partisan state demographer shall use the electoral performance index to simulate elections in which the hypothetical statewide vote shifts by one percent, two percent, three percent, four percent, and five percent in favor of each party. The vote in each individual district shall be assumed to shift by the same amount as the statewide vote. The non-partisan state demographer shall ensure that, in each of these simulated elections, the difference between the two parties' total wasted votes, divided by the total votes cast for the two parties, is as close to zero as practicable.

(c) Subject to the requirements of subdivisions (1)(a) and (1)(b), Districts shall be composed of contiguous territory. Areas which meet only at the points of adjoining corners are not contiguous.

(d) To the extent consistent with subdivisions (1)(a) – (1)(c) of this subsection, district boundaries shall coincide with the boundaries of political subdivisions of the state. The number of counties and cities divided among more than one district shall be as small as possible. When there is a choice between dividing local political subdivisions, the more populous subdivisions shall be divided before the less populous, but this preference shall not apply to a legislative district boundary drawn along a county line which passes through a city that lies in more than one county.

(e) Preference shall be that districts are compact in form, but the standards established by subdivisions (1)(a) – (1)(d) of this subsection take precedence over compactness where a conflict arises between compactness and these standards. In general, compact districts are those which are square, rectangular, or hexagonal in shape to the extent permitted by natural or political boundaries.

(2). Within sixty days after the population of this state is reported to the President for each decennial census of the United States [and] or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within sixty days [after notification by the governor] that such a ruling has been made, the congressional district committee of each of the two parties casting the highest vote for governor at the last preceding election shall meet and the members of the committee shall nominate, by a majority vote of the members of the committee present, provided that a majority of the elected members is present, two members of their party, residents in that district, as nominees for reapportionment commissioners. Neither party shall select more than one nominee from any one state legislative district. The congressional committees shall each submit to the governor their list of elected nominees. Within thirty days the governor shall appoint a commission consisting of one name from each list to reapportion the state into one hundred and sixty-three representative districts and to establish the numbers and boundaries of said districts.

If any of the congressional committees fails to submit a list within such time the governor shall appoint a member of his own choice from that district and from the political party of the committee failing to make the appointment.

Members of the commission shall be disqualified from holding office as members of the general assembly for four years following the date of the filing by the commission of its final statement of apportionment.

For the purposes of this Article, the term congressional district committee or congressional district refers to the congressional district committee or the congressional district from which a congressman was last elected, or, in the event members of congress from this state have been elected at large, the term congressional district committee refers to those persons who last served as the congressional district committee for those districts from which congressmen were last elected, and the term congressional district refers to those districts from which congressmen were last elected. Any action pursuant to this section by the congressional district committee shall take place only at duly called meetings, shall be recorded in their official minutes and only members present in person shall be permitted to vote.

(3) Within six months after the population of this state is reported to the President for each decennial census of the United States or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within six months after such a ruling has been made, the non-partisan state demographer shall make public and file with the secretary of state and with the house apportionment commission a tentative plan of apportionment and map of the proposed districts, as well as all demographic and partisan data used in the creation of the plan and map.

The commissioners so selected shall, [on the fifteenth day, excluding Sundays and holidays, after all members have been selected] within ten days of receiving the tentative plan of apportionment and map of the proposed districts, meet in the capitol building and proceed to organize by electing from their number a chairman, vice chairman and secretary[and]. The commission shall adopt an agenda establishing at least three hearing dates on which hearings open to the public shall be held to hear objections or testimony from interested persons. A copy of the agenda shall be filed with the clerk of the house of representatives within twenty-four hours after its adoption. Executive meetings may be scheduled and held as often as the commission deems advisable.

The commission may make changes to the tentative plan of apportionment and map of the proposed districts received from the non-partisan state demographer provided that such changes are consistent with this section and approved by a vote of at least seven-tenths of the commissioners. If no changes are made or approved as provided for in this subsection, the tentative plan of apportionment and map of proposed districts shall become final. Not later than two months of receiving the tentative plan of apportionment and map of the proposed districts, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts.

[The commission shall reapportion the representatives by dividing the population of the state by the number one hundred sixty-three and shall establish each district so that the population of that district shall, as nearly as possible, equal that figure.

Each district shall be composed of contiguous territory as compact as may be.

Not later than five months after the appointment of the commission the commission shall receive the tentative plan of apportionment and map of the proposed districts ordered in subsection 4 of this section and during the ensuing fifteen days shall hold such public hearings as may be necessary to hear objections or testimony of interested persons.

Not later than six months after the appointment of the commission, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts, and no statement shall be valid unless approved by at least seven-tenths of the members.

After the statement is filed members of the house of representatives shall be elected according to such districts until a reapportionment is made as herein provided, except that if the statement is not filed within six months of the time fixed for the appointment of the commission, it shall stand discharged and the house of representatives shall be apportioned by a commission of six members appointed from among the judges of the appellate courts of the state of Missouri by the state supreme court, a majority of whom shall sign and file its apportionment plan and map with the secretary of state within ninety days of the date of the discharge of the apportionment commission. Thereafter members of the house of representatives shall be elected according to such districts until a reapportionment is made as herein provided.]

Each member of the commission shall receive as compensation fifteen dollars a day for each day the commission is in session but not more than one thousand dollars, and, in addition, shall be reimbursed for his actual and necessary expenses incurred while serving as a member of the commission.

No reapportionment shall be subject to the referendum.

Section 5.

(a) The Senate shall consist of thirty-four members elected by the qualified voters of the senatorial [respective] districts for a term of four years. [For the election of senators, the state shall be divided into convenient districts of contiguous territory, as compact and nearly equal in population as may be.] Senatorial districts shall be apportioned as provided for in Article III, Section 7.

Section 7.

(1) Within ten days after the population of this state is reported to the President for each decennial census of the United States or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within ten days after such a ruling has been made, the non-partisan state demographer authorized in Article III Section 3, shall begin the preparation of senatorial districting plans and maps using the same methods and criteria as those required by Article III, Section 3 for the establishment of districts for the House of Representatives.

(2) Within sixty days after the population of this state is reported to the President for each decennial census of the United States, [and] or within sixty days after [notification by the governor that] a reapportionment has been invalidated by a court of competent jurisdiction, the state committee of each of the two political parties casting the highest vote for governor at the last preceding election shall, at a committee meeting duly called, select by a vote of the individual committee members, and thereafter submit to the governor a list of ten persons, and within thirty days thereafter the governor shall appoint a commission of ten members, five from each list, to reapportion the thirty-four senatorial districts and to establish the numbers and boundaries of said districts.

If either of the party committees fails to submit a list within such time the governor shall appoint five members of his own choice from the party of the committee so failing to act.

Members of the commission shall be disqualified from holding office as members of the general assembly for four years following the date of the filing by the commission of its final statement of apportionment.

(3) Within six months after the population of this state is reported to the President for each decennial census of the United States or in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within six months after such a ruling has been made, the non-partisan state demographer shall file with the secretary of state and with the senatorial apportionment commission a tentative plan of apportionment and map of the proposed districts.

The commissioners so selected shall [on the fifteenth day, excluding Sundays and holidays, after all members have been selected] within ten days of receiving the tentative plan of apportionment and map of the proposed districts required by this subsection, meet in the capitol building and proceed to organize by electing from their number a chairman, vice chairman and secretary [and]. The commission shall adopt an agenda establishing at least three hearing dates on which hearings open to the public shall be held to hear objections or testimony from interested persons. A copy of the agenda shall be filed with the secretary of the senate within twenty-four hours after its adoption. Executive meetings may be scheduled and held as often as the commission deems advisable. The commission may make changes to the tentative plan of apportionment and map of the proposed districts received from the non-partisan state demographer provided that such changes are consistent with this Section and the methods and criteria required by Section 3 of this Article for the establishment of districts for the House of Representatives and approved by a vote of at least seven-tenths of the commissioners. If no changes are made or approved as provided for in this subsection, the tentative plan of apportionment and map of proposed districts shall become final. Not later than two months after receiving the tentative plan of apportionment and map of the proposed districts, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts.

[The commission shall reapportion the senatorial districts by dividing the population of the state by the number thirty-four and shall establish each district so that the population of that district shall, as nearly as possible, equal that figure; no county lines shall be crossed except when necessary to add sufficient population to a multi-district county or city to complete only one district which lies partly within such multi-district county or city so as to be as nearly equal as practicable in population. Any county with a population in excess of the quotient obtained by dividing the population of the state by the number thirty-four is hereby declared to be a multi-district county.

Not later than five months after the appointment of the commission the commission shall file with the secretary of state a tentative plan of apportionment and map of the proposed districts and during the ensuing fifteen days shall hold such public hearings as may be necessary to hear objections or testimony of interested persons.

Not later than six months after the appointment of the commission, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts, and no statement shall be valid unless approved by at least seven members.

After the statement is filed senators shall be elected according to such districts until a reapportionment is made as herein provided,

except that if the statement is not filed within six months of the time fixed for the appointment of the commission, it shall stand discharged and the senate shall be apportioned by a commission of six members appointed from among the judges of the appellate courts of the state of Missouri by the state supreme court, a majority of whom shall sign and file its apportionment plan and map with the secretary of state within ninety days of the date of the discharge of the apportionment commission. Thereafter senators shall be elected according to such districts until a reapportionment is made as herein provided.]

Each member of the commission shall receive as compensation fifteen dollars a day for each day the commission is in session, but not more than one thousand dollars, and, in addition, shall be reimbursed for his actual and necessary expenses incurred while serving as a member of the commission.

No reapportionment shall be subject to the referendum.

Section 19.

(a) Senators and representatives shall, in all cases except treason, felony, offenses under this Article, or breach of the peace, be privileged from arrest during the session of the general assembly, and for the fifteen days next before the commencement and after the termination of each session; and they shall not be questioned for any speech or debate in either house in any other place.

(b) Legislative records shall be public records and subject to generally applicable state laws governing public access to public records, including the "Sunshine Law." Legislative records include, but are not limited to, all records, in whatever form or format, of the official acts of the general assembly, of the official acts of legislative committees, of the official acts of members of the general assembly, of individual legislators, their employees and staff, of the conduct of legislative business and all records that are created, stored or distributed through legislative branch facilities, equipment or mechanisms, including electronic. Each member of the general assembly is the custodian of legislative records under the custody and control of the member, their employees and staff. The chief clerk of the house or the secretary of the senate are the custodians for all other legislative records relating to the house and the senate, respectively.

(c) Legislative proceedings, including committee proceedings, shall be public meetings subject to generally applicable law governing public access to public meetings, including the "Sunshine Law." Open public meetings of legislative proceedings shall be subject to recording by citizens, so long as the proceedings are not materially disrupted.

Section 20(c).

No political fundraising activities or political fundraising event by any member of or candidate for the general assembly, including but not limited to the solicitation or delivery of contributions, supporting or opposing any candidate, initiative petition, referendum petition, ballot measure, political party or political committee, shall occur in or on any premises, property or building owned, leased or controlled by the State of Missouri or any agency or division thereof. Any purposeful violation of this section shall be punishable by imprisonment for up to one year or a fine of up to one thousand dollars or both, plus an amount equal to three times the illegal contributions. The Missouri Ethics Commission or its successor agency is authorized to enforce this section as provided by law.

Section 20(d).

If any provision of sections 2, 3, 7, 19, or 20(c) or the application thereof to anyone or to any circumstance is held invalid, the remainder of those provisions and the application of such provisions to others or other circumstances shall not be affected thereby.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-045)

Subject

Initiative petition from Sean Soendker Nicholson regarding a proposed constitutional amendment to Article III. (Received November 23, 2016)

Date

December 13, 2016

Description

This proposal would amend Article III of the Missouri Constitution.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** the **Missouri Ethics Commission,** and the **State Auditor's office.**

Sean Soendker Nicholson provided information as a proponent of the proposal to the State Auditor's office.

Assumptions

Officials from the **Attorney General's office** indicated they assume that any potential costs arising from the adoption of this proposal can be absorbed with existing resources.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated there would be no impact to their department as a result of this initiative petition.

Officials from the **Department of Higher Education** indicated this initiative petition would not have a fiscal impact on their department.

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no impact.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** indicated this initiative petition has no fiscal impact on their department.

Officials from the **Department of Public Safety** indicated they see no fiscal impact due to this initiative petition.

Officials from the **Department of Social Services** indicated no fiscal impact on their department.

Officials from the **Governor's office** indicated the Governor is responsible for appointing a non-partisan State Demographer; however, there should be no added costs or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated no fiscal impact.

Officials from the **Office of Administration** indicated this initiative petition revises Article III of the Missouri Constitution by amending Sections 2, 5, 7, and 19 and enacting three new sections.

Legislators and their employees are prohibited from lobbying for at least one year after the conclusion of the session during which they vacate office, and from acting as paid consultants while in office. Legislators and their staff are prohibited from accepting a gift in excess of five dollars, per occurrence.

The initiative creates the post of "non-partisan State Demographer" to oversee the redistricting process for the state House and Senate districts. The demographer is to be selected by the Governor through a merit-based process. This demographer will be unable to hold elected office for four years following the filing of the new legislative districts. The redistricting process shall maximize partisan fairness and competitiveness.

It mandates that legislative records which are created, stored or distributed through legislative branch facilities, equipment or mechanisms shall be public. It allows explicitly identified legislative proceedings as open meetings and authorizes recording of such proceedings by citizens.

Political fundraising activities and events may not be held in any location owned by, or under the control of, the State of Missouri.

Campaign contributions for state senators are limited to $2,500 and representatives are limited to $2,000, with CPI adjustments made in even-numbered years. Also, contributions from federal political action committees are prohibited unless the committee has filed the same financial disclosure reports that would be required of a Missouri political action committee.

This proposal could have an impact on the Office of Administration. There is currently a State Demographer, with statutory duties that extend beyond those of legislative reapportionment. If the existing State Demographer would be chosen to assume the role of "Non-partisan State Demographer," there would be no fiscal impact. However, if that post is filled by another individual, the salary and benefits costs would be an estimated $128,513 in FY 2021, adjusted for inflation. In either scenario, the cost for other staff hired for the purposes of redistricting would remain the same.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated no fiscal impact on their office.

Officials from the **Secretary of State's office** indicated their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any significant impact on their office.

Officials from the **State Treasurer's office** indicated this would have no fiscal impact on their office.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from the **City of Columbia** indicated no impact to their city.

Officials from the **City of Kansas City** indicated no direct fiscal impact is anticipated if this proposal is adopted.

Officials from the **City of Raymore** indicated no fiscal impact.

Officials from the **City of St. Joseph** indicated this should not have a fiscal impact on local government.

Officials from the **Metropolitan Community College** indicated there is no anticipated impact for their college.

Officials from the **University of Missouri** indicated there are no anticipated financial impacts.

Officials from the **Missouri Ethics Commission** (MEC) indicated:

possible increased operating costs of $67,478 for the first year implemented, $61,107 for the second year implemented, and $61,734 for the third year implemented.

Prohibiting a statewide elected official, member of the general assembly or paid employee of general assembly from acting, serving, or registering as a lobbyist for a specified period of time after leaving office would require the following of the MEC:

- Provide information to public officials and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo., about the new statutory requirements; examples include providing education, developing informational materials, telephone and email assistance.
- Provide oversight to ensure those individuals leaving the general assembly do not register as a lobbyist with the MEC for the specified period of time. This would entail reviewing lobbyist registrations, at the time of receipt by the MEC, and comparing them to those members of the general assembly who have left office within the specified period of time. For any individual submitting a registration, create the necessary correspondence to the registrant and track the results of the correspondence.
- Respond to written complaints, as established in Section 105.955.14, RSMo., through conducting investigations and the related legal actions. Any significant increase of complaints would require additional Commission resources, including investigative staff.

Implementing prohibition for a member of general assembly, staff/employees of the general assembly to accept specified monetary lobbyist/lobbyist principal gifts would require the following of the MEC:

- Provide information to public officials and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo., about the new statutory requirements; examples include providing education, developing informational materials, telephone and email assistance.
- Provide oversight in adherence to the specific gift prohibition, including reviewing lobbyist reports as established in Section 105.959, RSMo. This oversight, it is assumed, would be primarily from receiving written complaints, as established in Section 105.955.14, RSMo., through conducting investigations and the related legal actions. It is assumed this prohibition would result in a minimal number of complaints; however, if this assumption is incorrect the Commission would require additional staff resources.

Implementing campaign finance limits would require the following of the MEC:

- Provide information to those committee officers and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo. about these limits;

examples include providing education, developing informational materials, telephone and email assistance.

- Provide oversight in campaign finance committee adherence to the specific contribution limits, including reviewing, auditing, and performing cross checks of the reported contributions, as established in Section 105.955.14 (2), (3), RSMo.
- Respond to written complaints, as established in Section 105.955.14, RSMo., through conducting investigations and the related legal actions.

Oversee the prohibition of political fundraising activities or events from occurring on State of Missouri property or any agency or division thereof would require the following of the MEC:

- Provide information to those committee officers and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo. about this provision; examples include providing education, developing informational materials, telephone and email assistance.
- Provide oversight in campaign finance committee adherence to the specific restrictions, including reviewing, auditing, and performing cross checks of the reported fund raising activity, as established in Section 105.955.14 (2), (3), RSMo.
- Respond to written complaints, as established in Section 105.955.14, RSMo., through conducting investigations and the related legal actions.

In regards to all of the provisions outlined above, if the Commission identifies significant violations during the process established in Section 105.955.14 (2), (3), RSMo or complaints received increase significantly an Investigator would be required to provide the proper oversight.

The implementation of contribution limits requires the Missouri Ethics Commission to request additional funding. Below is an outline of the additional funding. In the 2016 November General Election a Constitutional Amendment implementing contribution limits was adopted by voters. At this time, the Missouri Ethics Commission has not received the additional funding required to implement contribution limits.

The proposed provisions would implement campaign finance limits. The implementation of the above responsibilities would require the following additional resources:

•$15,120 in expense and equipment to acquire contract services that would develop the MEC internal search capabilities for oversight of the campaign finance committees' adherence to the specific contribution limits, as established in 105.955.14, RSMo. Current campaign finance data collection would allow the MEC to use search capabilities, providing for a manual review by MEC staff of adherence to the established limits.

•1 Business Analyst to conduct the routine work necessary in reviewing and providing oversight for the proposed legislation. The Business Analyst would review committee reports for compliance, prepare necessary notices, track the receipt of payment, and coordinate the necessary collection efforts. Currently two Business Analysts assist 2,800

committees in filing campaign finance reports, prepare and disseminate 15,000 notices, and review 11,000 campaign finance reports.

•If the Commission identifies significant violations during the process established in Section 105.955.14 (2), (3), RSMo, or complaints received increase significantly an Investigator would be required to provide the proper oversight.

Officials from the **State Auditor's office** (SAO) indicated there is no fiscal impact for their office.

Sean Soendker Nicholson provided the following information as a proponent of this initiative petition.

I am a proponent of this initiative petition. Pursuant to 116.175 RSMo, I submit the following information regarding the initiative petition.

There is no cost to the state over the next two years as a result of passage of any of the initiatives. Any potential costs arising from the adoption of these proposals is minimal and can be absorbed with existing resources from the General Assembly, Missouri Ethics Commission, Attorney General's Office, Office of Administration, and other state agencies.

There is currently a State Demographer, with statutory duties that extend beyond those of legislative reapportionment. The existing State Demographer can be expected to assume the role of Non-partisan State Demographer, and there would be no fiscal impact. Certainly there can be no definitive judgment that the measure would add costs for the state.

The proposals do not establish a new program or agency so there is no duplication of existing programs. There is no federal mandate with regard to the proposals. There will be no fiscal impact on any subdivision of the state. There will be no economic impact on small businesses.

The Missouri Ethics Commission is already required to provide guidance and information to members of the General Assembly and Missouri public about campaign finance rules and lobbying rules, and is already required to respond to written complaints through conducting investigations and the related legal actions.

The State Auditor's office did not receive a response from the **Department of Elementary and Secondary Education, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri,** and **St. Louis Community College.**

Fiscal Note Summary

State governmental entities estimate annual operating costs may increase by $189,000. Local governmental entities expect no fiscal impact.

State Auditor
State Capitol Building
Jefferson City, MO 65101

RE: Petition approval request from Sean Soendker Nicholson regarding a proposed constitutional amendment to Article III, version 3 (2018-044)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Sean Soendker Nicholson on November 23, 2016.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

Jason Kander

NOTICE: You are advised that the proposed constitutional amendment may change, repeal, or modify by implication or may be construed by some persons to change, repeal or modify by implication, the following Articles and Sections of the Constitution of Missouri: Article I, Section 8 and the following Sections of the Missouri Revised Statutes: Sections 105.450 through 105.496 and Sections 130.011 through 130.160. The proposed amendment revises Article III of the Constitution by amending Sections 2, 5, 7, and 19 and adopting three new sections to be known as Article III Sections 3, 20(c), and 20(d).

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article III of the Constitution is revised by amending Sections 2, 5, 7, 19, and adopting three new sections to be known as Article III Sections 3, 20(c), and 20(d) to read as follows:

Section 2.

After the effective date of this section, no person serving as a member of or employed by the General Assembly shall act or serve as a paid lobbyist, register as a paid lobbyist, or solicit prospective employers or clients to represent as a paid lobbyist during the time of such service until the expiration of one calendar year after the conclusion of the session of the general assembly in which the member or employee last served and where such service was after the effective date of this section.

(a) No person serving as a member of or employed by the General Assembly shall accept directly or indirectly a gift of any tangible or intangible item, service, or thing of value from any paid lobbyist or lobbyist principal in excess of five dollars per occurrence. This Article shall not prevent Candidates for the General Assembly, including candidates for reelection, or candidates for offices within the senate or house from accepting campaign contributions consistent with this Article and applicable campaign finance law. Nothing in this section shall prevent individuals from receiving gifts, family support or anything of value from those related to them within the fourth degree by blood or marriage. The dollar limitations of this section shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency and rounded to the nearest dollar amount.

(c) The General Assembly shall make no law authorizing unlimited campaign contributions to candidates for the General Assembly, nor any law that circumvents the contribution limits contained in this Constitution. In addition to other campaign contribution limitations or restrictions provided for by law, the amount of contributions made to or accepted by any candidate or candidate committee from any person other than the candidate in any one election for the General Assembly shall not exceed the following:

(1) To elect an individual to the office of state senator, two thousand five hundred dollars; and

(2) To elect an individual to the office of state representative, two thousand dollars.

The contribution limits and other restrictions of this section shall also apply to any person exploring a candidacy for a public office listed in this subsection.

For purposes of this subsection, "base year amount" shall be the contribution limits prescribed in this section. Contribution limits set forth herein shall be adjusted on the first day of January in each even-numbered year hereafter by multiplying the base year amount by the cumulative consumer price index and rounded to the nearest dollar amount, for all years after 2018.

(d) No contribution to a candidate for legislative office shall be made or accepted, directly or indirectly, in a fictitious name, in the name of another person, or by or through another person in such a manner as to, or with the intent to, conceal the identity of the actual source of the contribution. There shall be a rebuttable presumption that a contribution to a candidate for public office is made or accepted with the intent to circumvent the limitations on contributions imposed in this section when a contribution is received from a committee or organization that is primarily funded by a single person, individual, or other committee that has already reached its contribution limit under any law relating to contribution limitations. A committee or organization shall be deemed to be primarily funded by a single person, individual, or other committee when the committee or organization receives more than fifty percent of its annual funding from that single person, individual, or other committee.

(e) In no circumstance shall a candidate be found to have violated limits on acceptance of contributions if the Missouri Ethics Commission, its successor agency, or a court determines that a candidate has taken no action to indicate acceptance of or acquiescence to the making of an expenditure that is deemed a contribution pursuant to this section.

(f) No candidate shall accept contributions from any federal political action committee unless the committee has filed the same financial disclosure reports that would be required of a Missouri political action committee.

Section 3.

(a) There is hereby established the post of "non-partisan state demographer." The non-partisan state demographer shall acquire appropriate information to develop procedures in preparation for drawing legislative redistricting maps on the basis of each federal census for presentation to the house apportionment commission and the senatorial apportionment commission.

(b) The non-partisan state demographer shall be selected through the following process. First, state residents may apply for selection to the state auditor using an application developed by the state auditor to determine an applicant's qualifications and expertise relevant to the position. Second, the state auditor shall deliver to the majority leader and minority leader of the senate a list of at least three applicants with sufficient expertise and qualifications, as determined by the state auditor, to perform the duties of the non-partisan state demographer. Third, if the majority leader and minority leader of the senate together agree that a specific applicant should be selected to be the non-partisan state demographer, that applicant shall be selected and the selection process shall cease. Fourth, if the majority leader and minority leader of the senate cannot together agree on an applicant, they may each remove a number of applicants on the state auditor's list equal to one-third of the total number of applicants on that list, rounded down to the next integer, and the state auditor shall then conduct a random lottery of the applicants remaining after removal to select the non-partisan state demographer. The state auditor shall prescribe a time frame and deadlines for this application and selection process that both encourages numerous qualified applicants and avoids delay in selection. The non-partisan state demographer shall serve a term of five years and may be reappointed. To be eligible for the non-partisan state demographer position an individual shall not have served in a partisan, elected position for four years prior to the appointment. The non-partisan state demographer shall be disqualified from holding office as a member of the general assembly for four years following the date of the presentation of his or her most recent legislative redistricting map to the house apportionment commission or the senatorial apportionment commission.

(c) The house of representatives shall consist of one hundred sixty-three members elected at each general election and apportioned [in the following manner:] as provided in this section.

(1) Within ten days after the population of this state is reported to the President for each decennial census of the United States or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within ten days after such a ruling has been made, the non-partisan state demographer shall begin the preparation of legislative districting plans and maps using the following methods, listed in order of priority:

(a) Districts shall be established on the basis of total population. Legislative districts shall each have a total population as nearly equal as practicable to the ideal population for such districts, determined by dividing the number of districts to be established

into the total population of the state reported in the federal decennial census.

(b) Districts shall be established in a manner so as to comply with all requirements of the United States Constitution and applicable federal laws, including, but not limited to, the Voting Rights Act of 1965 (as amended). Notwithstanding any other provision of this Article, districts shall not be drawn with the intent or result of denying or abridging the equal opportunity of racial or language minorities to participate in the political process or diminishing their ability to elect representatives of their choice, whether by themselves or by voting in concert with other persons.

Districts shall be designed in a manner that achieves both partisan fairness and, secondarily, competitiveness. Partisan fairness means that parties shall be able to translate their popular support into legislative representation with approximately equal efficiency. Competitiveness means that parties' legislative representation shall be substantially and similarly responsive to shifts in the electorate's preferences.

To this end, the non-partisan state demographer shall calculate the average electoral performance of the two parties receiving the most votes in the three preceding elections for governor, for United States Senate, and for President of the United States. This index shall be defined as the total votes received by each party in the three preceding elections for governor, for United States Senate, and for President of the United States, divided by the total votes cast for both parties in these elections. Using this index, the non-partisan state demographer shall calculate the total number of wasted votes for each party, summing across all of the districts in the plan. Wasted votes are votes cast for a losing candidate or for a winning candidate in excess of the fifty percent threshold needed for victory. In any plan of apportionment and map of the proposed districts submitted to the respective apportionment commission, the non-partisan state demographer shall ensure the difference between the two parties' total wasted votes, divided by the total votes cast for the two parties, is as close to zero as practicable.

To promote competitiveness, the non-partisan state demographer shall use the electoral performance index to simulate elections in which the hypothetical statewide vote shifts by one percent, two percent, three percent, four percent, and five percent in favor of each party. The vote in each individual district shall be assumed to shift by the same amount as the statewide vote. The non-partisan state demographer shall ensure that, in each of these simulated elections, the difference between the two parties' total wasted votes, divided by the total votes cast for the two parties, is as close to zero as practicable.

(c) Subject to the requirements of subdivisions (1)(a) and (1)(b), Districts shall be composed of contiguous territory. Areas which meet only at the points of adjoining corners are not contiguous.

(d) To the extent consistent with subdivisions (1)(a) – (1)(c) of this subsection, district boundaries shall coincide with the boundaries of political subdivisions of the state. The number of counties and cities divided among more than one district shall be as small as possible. When there is a choice between dividing local political subdivisions, the more populous subdivisions shall be divided before the less populous, but this preference shall not apply to a legislative district boundary drawn along a county line which passes through a city that lies in more than one county.

(e) Preference shall be that districts are compact in form, but the standards established by subdivisions (1)(a) – (1)(d) of this subsection take precedence over compactness where a conflict arises between compactness and these standards. In general, compact districts are those which are square, rectangular, or hexagonal in shape to the extent permitted by natural or political boundaries.

(2). Within sixty days after the population of this state is reported to the President for each decennial census of the United States [and] or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within sixty days [after notification by the governor] that such a ruling has been made, the congressional district committee of each of the two parties casting the highest vote for governor at the last preceding election shall meet and the members of the committee shall nominate, by a majority vote of the members of the committee present, provided that a majority of the elected members is present, two members of their party, residents in that district, as nominees for reapportionment commissioners. Neither party shall select more than one nominee from any one state legislative district. The congressional committees shall each submit to the governor their list of elected nominees. Within thirty days the governor shall appoint a commission consisting of one name from each list to reapportion the state into one hundred and sixty-three representative districts and to establish the numbers and boundaries of said districts.

If any of the congressional committees fails to submit a list within such time the governor shall appoint a member of his own choice from that district and from the political party of the committee failing to make the appointment.

Members of the commission shall be disqualified from holding office as members of the general assembly for four years following the date of the filing by the commission of its final statement of apportionment.

For the purposes of this Article, the term congressional district committee or congressional district refers to the congressional district committee or the congressional district from which a congressman was last elected, or, in the event members of congress from this state have been elected at large, the term congressional district committee refers to those persons who last served as the congressional district committee for those districts from which congressmen were last elected, and the term congressional district refers to those districts from which congressmen were last elected. Any action pursuant to this section by the congressional district committee shall take place only at duly called meetings, shall be recorded in their official minutes and only members present in person shall be permitted to vote.

(3) Within six months after the population of this state is reported to the President for each decennial census of the United States or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within six months after such a ruling has been made, the non-partisan state demographer shall make public and file with the secretary of state and with the house apportionment commission a tentative plan of apportionment and map of the proposed districts, as well as all demographic and partisan data used in the creation of the plan and map.

The commissioners so selected shall, [on the fifteenth day, excluding Sundays and holidays, after all members have been selected] within ten days of receiving the tentative plan of apportionment and map of the proposed districts, meet in the capitol building and proceed to organize by electing from their number a chairman, vice chairman and secretary[and]. The commission shall adopt an agenda establishing at least three hearing dates on which hearings open to the public shall be held to hear objections or testimony from interested persons. A copy of the agenda shall be filed with the clerk of the house of representatives within twenty-four hours after its adoption. Executive meetings may be scheduled and held as often as the commission deems advisable.

The commission may make changes to the tentative plan of apportionment and map of the proposed districts received from the non-

partisan state demographer provided that such changes are consistent with this section and approved by a vote of at least seven-tenths of the commissioners. If no changes are made or approved as provided for in this subsection, the tentative plan of apportionment and map of proposed districts shall become final. Not later than two months of receiving the tentative plan of apportionment and map of the proposed districts, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts.

[The commission shall reapportion the representatives by dividing the population of the state by the number one hundred sixty-three and shall establish each district so that the population of that district shall, as nearly as possible, equal that figure.

Each district shall be composed of contiguous territory as compact as may be.

Not later than five months after the appointment of the commission the commission shall receive the tentative plan of apportionment and map of the proposed districts ordered in subsection 4 of this section and during the ensuing fifteen days shall hold such public hearings as may be necessary to hear objections or testimony of interested persons.

Not later than six months after the appointment of the commission, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts, and no statement shall be valid unless approved by at least seven-tenths of the members.

After the statement is filed members of the house of representatives shall be elected according to such districts until a reapportionment is made as herein provided, except that if the statement is not filed within six months of the time fixed for the appointment of the commission, it shall stand discharged and the house of representatives shall be apportioned by a commission of six members appointed from among the judges of the appellate courts of the state of Missouri by the state supreme court, a majority of whom shall sign and file its apportionment plan and map with the secretary of state within ninety days of the date of the discharge of the apportionment commission. Thereafter members of the house of representatives shall be elected according to such districts until a reapportionment is made as herein provided.]

Each member of the commission shall receive as compensation fifteen dollars a day for each day the commission is in session but not more than one thousand dollars, and, in addition, shall be reimbursed for his actual and necessary expenses incurred while serving as a member of the commission.

No reapportionment shall be subject to the referendum.

Section 5.

(a) The Senate shall consist of thirty-four members elected by the qualified voters of the senatorial [respective] districts for a term of four years. [For the election of senators, the state shall be divided into convenient districts of contiguous territory, as compact and nearly equal in population as may be.] Senatorial districts shall be apportioned as provided for in Article III, Section 7.

Section 7.

(1) Within ten days after the population of this state is reported to the President for each decennial census of the United States or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within ten days after such a ruling has been made, the non-partisan state demographer authorized in Article III Section 3, shall begin the preparation of senatorial districting plans and maps using the same methods and criteria as those required by Article III, Section 3 for the establishment of districts for the House of Representatives.

(2) Within sixty days after the population of this state is reported to the President for each decennial census of the United States, [and] or within sixty days after [notification by the governor that] a reapportionment has been invalidated by a court of competent jurisdiction, the state committee of each of the two political parties casting the highest vote for governor at the last preceding election shall, at a committee meeting duly called, select by a vote of the individual committee members, and thereafter submit to the governor a list of ten persons, and within thirty days thereafter the governor shall appoint a commission of ten members, five from each list, to reapportion the thirty-four senatorial districts and to establish the numbers and boundaries of said districts.

If either of the party committees fails to submit a list within such time the governor shall appoint five members of his own choice from the party of the committee so failing to act.

Members of the commission shall be disqualified from holding office as members of the general assembly for four years following the date of the filing by the commission of its final statement of apportionment.

(3) Within six months after the population of this state is reported to the President for each decennial census of the United States or in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within six months after such a ruling has been made, the non-partisan state demographer shall file with the secretary of state and with the senatorial apportionment commission a tentative plan of apportionment and map of the proposed districts.

The commissioners so selected shall [on the fifteenth day, excluding Sundays and holidays, after all members have been selected] within ten days of receiving the tentative plan of apportionment and map of the proposed districts required by this subsection, meet in the capitol building and proceed to organize by electing from their number a chairman, vice chairman and secretary [and]. The commission shall adopt an agenda establishing at least three hearing dates on which hearings open to the public shall be held to hear objections or testimony from interested persons. A copy of the agenda shall be filed with the secretary of the senate within twenty-four hours after its adoption. Executive meetings may be scheduled and held as often as the commission deems advisable. The commission may make changes to the tentative plan of apportionment and map of the proposed districts received from the non-partisan state demographer provided that such changes are consistent with this Section and the methods and criteria required by Section 3 of this Article for the establishment of districts for the House of Representatives and approved by a vote of at least seven-tenths of the commissioners. If no changes are made or approved as provided for in this subsection, the tentative plan of apportionment and map of proposed districts shall become final. Not later than two months after receiving the tentative plan of apportionment and map of the proposed districts, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts.

[The commission shall reapportion the senatorial districts by dividing the population of the state by the number thirty-four and shall establish each district so that the population of that district shall, as nearly as possible, equal that figure; no county lines shall be crossed except when necessary to add sufficient population to a multi-district county or city to complete only one district which lies partly within such multi-district county or city so as to be as nearly equal as practicable in population. Any county with a population in excess of the quotient obtained by dividing the population of the state by the number thirty-four is hereby declared to be a multi-district county.

Not later than five months after the appointment of the commission the commission shall file with the secretary of state a tentative plan of apportionment and map of the proposed districts and during the ensuing fifteen days shall hold such public hearings as may be necessary to hear objections or testimony of interested persons.

Not later than six months after the appointment of the commission, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts, and no statement shall be valid unless approved by at least seven members.

After the statement is filed senators shall be elected according to such districts until a reapportionment is made as herein provided, except that if the statement is not filed within six months of the time fixed for the appointment of the commission, it shall stand discharged and the senate shall be apportioned by a commission of six members appointed from among the judges of the appellate courts of the state of Missouri by the state supreme court, a majority of whom shall sign and file its apportionment plan and map with the secretary of state within ninety days of the date of the discharge of the apportionment commission. Thereafter senators shall be elected according to such districts until a reapportionment is made as herein provided.]

Each member of the commission shall receive as compensation fifteen dollars a day for each day the commission is in session, but not more than one thousand dollars, and, in addition, shall be reimbursed for his actual and necessary expenses incurred while serving as a member of the commission.

No reapportionment shall be subject to the referendum.

Section 19.

(a) Senators and representatives shall, in all cases except treason, felony, offenses under this Article, or breach of the peace, be privileged from arrest during the session of the general assembly, and for the fifteen days next before the commencement and after the termination of each session; and they shall not be questioned for any speech or debate in either house in any other place.

(b) Legislative records shall be public records and subject to generally applicable state laws governing public access to public records, including the "Sunshine Law." Legislative records include, but are not limited to, all records, in whatever form or format, of the official acts of the general assembly, of the official acts of legislative committees, of the official acts of members of the general assembly, of individual legislators, their employees and staff, of the conduct of legislative business and all records that are created, stored or distributed through legislative branch facilities, equipment or mechanisms, including electronic. Each member of the general assembly is the custodian of legislative records under the custody and control of the member, their employees and staff. The chief clerk of the house or the secretary of the senate are the custodians for all other legislative records relating to the house and the senate, respectively.

(c) Legislative proceedings, including committee proceedings, shall be public meetings subject to generally applicable law governing public access to public meetings, including the "Sunshine Law." Open public meetings of legislative proceedings shall be subject to recording by citizens, so long as the proceedings are not materially disrupted.

Section 20(c).

No political fundraising activities or political fundraising event by any member of or candidate for the general assembly, including but not limited to the solicitation or delivery of contributions, supporting or opposing any candidate, initiative petition, referendum petition, ballot measure, political party or political committee, shall occur in or on any premises, property or building owned, leased or controlled by the State of Missouri or any agency or division thereof. Any purposeful violation of this section shall be punishable by imprisonment for up to one year or a fine of up to one thousand dollars or both, plus an amount equal to three times the illegal contributions. The Missouri Ethics Commission or its successor agency is authorized to enforce this section as provided by law.

Section 20(d).

If any provision of sections 2, 3, 7, 19, or 20(c) or the application thereof to anyone or to any circumstance is held invalid, the remainder of those provisions and the application of such provisions to others or other circumstances shall not be affected thereby.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-044)

Subject

Initiative petition from Sean Soendker Nicholson regarding a proposed constitutional amendment to Article III. (Received November 23, 2016)

Date

December 13, 2016

Description

This proposal would amend Article III of the Missouri Constitution.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** the **Missouri Ethics Commission,** and the **State Auditor's office.**

Sean Soendker Nicholson provided information as a proponent of the proposal to the State Auditor's office.

Assumptions

Officials from the **Attorney General's office** indicated they assume that any potential costs arising from the adoption of this proposal can be absorbed with existing resources.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated there would be no impact to their department as a result of this initiative petition.

Officials from the **Department of Higher Education** indicated this initiative petition would not have a fiscal impact on their department.

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no impact.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** indicated this initiative petition has no fiscal impact on their department.

Officials from the **Department of Public Safety** indicated they see no fiscal impact due to this initiative petition.

Officials from the **Department of Social Services** indicated no fiscal impact on their department.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated no fiscal impact.

Officials from the **Office of Administration** indicated this initiative petition revises Article III of the Missouri Constitution by amending Sections 2, 5, 7, and 19 and enacting three new sections.

Legislators and their employees are prohibited from lobbying for at least one year after the conclusion of the session during which they vacate office, and from acting as paid consultants while in office. Legislators and their staff are prohibited from accepting a gift in excess of five dollars, per occurrence.

The initiative creates the post of "non-partisan State Demographer" to oversee the redistricting process for the state House and Senate districts. The demographer is to be selected by a process involving the State Auditor and the Senate majority and minority leaders. Note that the wording is unclear on this process because the only State Auditor list mentioned in the list of at least three names. Therefore, if each the minority and the majority member are allowed to remove one-third of the list, and the list is only three names, they may each remove one person, leaving only one choice left, so no random lottery would be necessary. This demographer will be unable to hold elected office for four years following the filing of the new legislative districts. The redistricting process shall maximize partisan fairness and competitiveness.

It mandates that legislative records which are created, stored or distributed through legislative branch facilities, equipment or mechanisms shall be public. It allows explicitly identified legislative proceedings as open meetings and authorizes recording of such proceedings by citizens.

Political fundraising activities and events may not be held in any location owned by, or under the control of, the State of Missouri.

Campaign contributions for state senators are limited to $2,500 and representatives are limited to $2,000, with CPI adjustments made in even-numbered years. Also, contributions from federal political action committees are prohibited unless the committee has filed the same financial disclosure reports that would be required of a Missouri political action committee.

This proposal could have an impact on the Office of Administration. There is currently a State Demographer, with statutory duties that extend beyond those of legislative reapportionment. If the existing State Demographer would be chosen to assume the role of "Non-partisan State Demographer," there would be no fiscal impact. However, if that post is filled by another individual, the salary and benefits costs would be an estimated $128,513 in FY 2021, adjusted for inflation. In either scenario, the cost for other staff hired for the purposes of redistricting would remain the same.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated no fiscal impact on their office.

Officials from the **Secretary of State's office** indicated their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any significant impact on their office.

Officials from the **State Treasurer's office** indicated this would have no fiscal impact on their office.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from the **City of Columbia** indicated no impact to their city.

Officials from the **City of Kansas City** indicated no direct fiscal impact is anticipated if this proposal is adopted.

Officials from the **City of Raymore** indicated no fiscal impact.

Officials from the **City of St. Joseph** indicated this should not have a fiscal impact on local government.

Officials from the **Metropolitan Community College** indicated there is no anticipated impact for their college.

Officials from the **University of Missouri** indicated there are no anticipated financial impacts.

Officials from the **Missouri Ethics Commission** (MEC) indicated:

possible increased operating costs of $67,478 for the first year implemented, $61,107 for the second year implemented, and $61,734 for the third year implemented.

Prohibiting a statewide elected official, member of the general assembly or paid employee of general assembly from acting, serving, or registering as a lobbyist for a specified period of time after leaving office would require the following of the MEC:

- Provide information to public officials and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo., about the new statutory requirements; examples include providing education, developing informational materials, telephone and email assistance.
- Provide oversight to ensure those individuals leaving the general assembly do not register as a lobbyist with the MEC for the specified period of time. This would entail reviewing lobbyist registrations, at the time of receipt by the MEC, and comparing them to those members of the general assembly who have left office within the specified period of time. For any individual submitting a registration, create the necessary correspondence to the registrant and track the results of the correspondence.
- Respond to written complaints, as established in Section 105.955.14, RSMo., through conducting investigations and the related legal actions. Any significant increase of complaints would require additional Commission resources, including investigative staff.

Implementing prohibition for a member of general assembly, staff/employees of the general assembly to accept specified monetary lobbyist/lobbyist principal gifts would require the following of the MEC:

- Provide information to public officials and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo., about the new statutory requirements; examples include providing education, developing informational materials, telephone and email assistance.
- Provide oversight in adherence to the specific gift prohibition, including reviewing lobbyist reports as established in Section 105.959, RSMo. This oversight, it is assumed, would be primarily from receiving written complaints, as established in Section 105.955.14, RSMo., through conducting investigations and the related legal actions. It is assumed this prohibition would result in a minimal number of complaints; however, if this assumption is incorrect the Commission would require additional staff resources.

Implementing campaign finance limits would require the following of the MEC:

- Provide information to those committee officers and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo. about these limits;

examples include providing education, developing informational materials, telephone and email assistance.

- Provide oversight in campaign finance committee adherence to the specific contribution limits, including reviewing, auditing, and performing cross checks of the reported contributions, as established in Section 105.955.14 (2), (3), RSMo.
- Respond to written complaints, as established in Section 105.955.14, RSMo., through conducting investigations and the related legal actions.

Oversee the prohibition of political fundraising activities or events from occurring on State of Missouri property or any agency or division thereof would require the following of the MEC:

- Provide information to those committee officers and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo. about this provision; examples include providing education, developing informational materials, telephone and email assistance.
- Provide oversight in campaign finance committee adherence to the specific restrictions, including reviewing, auditing, and performing cross checks of the reported fund raising activity, as established in Section 105.955.14 (2), (3), RSMo.
- Respond to written complaints, as established in Section 105.955.14, RSMo., through conducting investigations and the related legal actions.

In regards to all of the provisions outlined above, if the Commission identifies significant violations during the process established in Section 105.955.14 (2), (3), RSMo or complaints received increase significantly an Investigator would be required to provide the proper oversight.

The implementation of contribution limits requires the Missouri Ethics Commission to request additional funding. Below is an outline of the additional funding. In the 2016 November General Election a Constitutional Amendment implementing contribution limits was adopted by voters. At this time, the Missouri Ethics Commission has not received the additional funding required to implement contribution limits.

The proposed provisions would implement campaign finance limits. The implementation of the above responsibilities would require the following additional resources:

•$15,120 in expense and equipment to acquire contract services that would develop the MEC internal search capabilities for oversight of the campaign finance committees' adherence to the specific contribution limits, as established in 105.955.14, RSMo. Current campaign finance data collection would allow the MEC to use search capabilities, providing for a manual review by MEC staff of adherence to the established limits.

•1 Business Analyst to conduct the routine work necessary in reviewing and providing oversight for the proposed legislation. The Business Analyst would review committee reports for compliance, prepare necessary notices, track the receipt of payment, and coordinate the necessary collection efforts. Currently two Business Analysts assist 2,800

committees in filing campaign finance reports, prepare and disseminate 15,000 notices, and review 11,000 campaign finance reports.

•If the Commission identifies significant violations during the process established in Section 105.955.14 (2), (3), RSMo, or complaints received increase significantly an Investigator would be required to provide the proper oversight.

Officials from the **State Auditor's office** (SAO) indicated any additional costs can be absorbed within current appropriations.

Sean Soendker Nicholson provided the following information as a proponent of this initiative petition.

I am a proponent of this initiative petition. Pursuant to 116.175 RSMo, I submit the following information regarding the initiative petition.

There is no cost to the state over the next two years as a result of passage of any of the initiatives. Any potential costs arising from the adoption of these proposals is minimal and can be absorbed with existing resources from the General Assembly, Missouri Ethics Commission, Attorney General's Office, Office of Administration, and other state agencies.

There is currently a State Demographer, with statutory duties that extend beyond those of legislative reapportionment. The existing State Demographer can be expected to assume the role of Non-partisan State Demographer, and there would be no fiscal impact. Certainly there can be no definitive judgment that the measure would add costs for the state.

The proposals do not establish a new program or agency so there is no duplication of existing programs. There is no federal mandate with regard to the proposals. There will be no fiscal impact on any subdivision of the state. There will be no economic impact on small businesses.

The Missouri Ethics Commission is already required to provide guidance and information to members of the General Assembly and Missouri public about campaign finance rules and lobbying rules, and is already required to respond to written complaints through conducting investigations and the related legal actions.

The State Auditor's office did not receive a response from the **Department of Elementary and Secondary Education, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri,** and **St. Louis Community College.**

Fiscal Note Summary

State governmental entities estimate annual operating costs may increase by $189,000. Local governmental entities expect no fiscal impact.

The Honorable Nicole Galloway
State Auditor
State Capitol Building
Jefferson City, MO 65101

RE: Petition approval request from Sean Soendker Nicholson regarding a proposed constitutional amendment to Article III, version 2 (2018-043)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Sean Soendker Nicholson on November 23, 2016.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

Jason Kander

_____

My commission expires _____. Address of Notary (Street, City, State & Zip Code)

NOTICE: You are advised that the proposed constitutional amendment may change, repeal, or modify by implication or may be construed by some persons to change, repeal or modify by implication, the following Articles and Sections of the Constitution of Missouri: Article I, Section 8 and the following Sections of the Missouri Revised Statutes: Sections 105.450 through 105.496 and Sections 130.011 through 130.160. The proposed amendment revises Article III of the Constitution by amending Sections 2, 5, 7, and 19 and adopting three new sections to be known as Article III Sections 3, 20(c), and 20(d).

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article III of the Constitution is revised by amending Sections 2, 5, 7, 19, and adopting three new sections to be known as Article III Sections 3, 20(c), and 20(d) to read as follows:

Section 2.

After the effective date of this section, no person serving as a member of or employed by the General Assembly shall act or serve as a paid lobbyist, register as a paid lobbyist, or solicit prospective employers or clients to represent as a paid lobbyist during the time of such service until the expiration of one calendar year after the conclusion of the session of the general assembly in which the member or employee last served and where such service was after the effective date of this section.

(a) No person serving as a member of or employed by the General Assembly shall accept directly or indirectly a gift of any tangible or intangible item, service, or thing of value from any paid lobbyist or lobbyist principal in excess of five dollars per occurrence. This Article shall not prevent Candidates for the General Assembly, including candidates for reelection, or candidates for offices within the senate or house from accepting campaign contributions consistent with this Article and applicable campaign finance law. Nothing in this section shall prevent individuals from receiving gifts, family support or anything of value from those related to them within the fourth degree by blood or marriage. The dollar limitations of this section shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency and rounded to the nearest dollar amount.

(c) The General Assembly shall make no law authorizing unlimited campaign contributions to candidates for the General Assembly, nor any law that circumvents the contribution limits contained in this Constitution. In addition to other campaign contribution limitations or restrictions provided for by law, the amount of contributions made to or accepted by any candidate or candidate committee from any person other than the candidate in any one election for the General Assembly shall not exceed the following:

(1) To elect an individual to the office of state senator, two thousand five hundred dollars; and

(2) To elect an individual to the office of state representative, two thousand dollars.

The contribution limits and other restrictions of this section shall also apply to any person exploring a candidacy for a public office listed in this subsection.

For purposes of this subsection, "base year amount" shall be the contribution limits prescribed in this section. Contribution limits set forth herein shall be adjusted on the first day of January in each even-numbered year hereafter by multiplying the base year amount by the cumulative consumer price index and rounded to the nearest dollar amount, for all years after 2018.

(d) No contribution to a candidate for legislative office shall be made or accepted, directly or indirectly, in a fictitious name, in the name of another person, or by or through another person in such a manner as to, or with the intent to, conceal the identity of the actual source of the contribution. There shall be a rebuttable presumption that a contribution to a candidate for public office is made or accepted with the intent to circumvent the limitations on contributions imposed in this section when a contribution is received from a committee or organization that is primarily funded by a single person, individual, or other committee that has already reached its contribution limit under any law relating to contribution limitations. A committee or organization shall be deemed to be primarily funded by a single person, individual, or other committee when the committee or organization receives more than fifty percent of its annual funding from that single person, individual, or other committee.

(e) In no circumstance shall a candidate be found to have violated limits on acceptance of contributions if the Missouri Ethics Commission, its successor agency, or a court determines that a candidate has taken no action to indicate acceptance of or acquiescence to the making of an expenditure that is deemed a contribution pursuant to this section.

(f) No candidate shall accept contributions from any federal political action committee unless the committee has filed the same financial disclosure reports that would be required of a Missouri political action committee.

Section 3.

(a) There is hereby established the post of "non-partisan state demographer." The non-partisan state demographer shall acquire appropriate information to develop procedures in preparation for drawing legislative redistricting maps on the basis of each federal census for presentation to the house apportionment commission and the senatorial apportionment commission.

(b) The non-partisan state demographer shall be selected through the following process. First, state residents may apply for selection to the state auditor using an application developed by the state auditor to determine an applicant's qualifications and expertise relevant to the position. Second, the state auditor shall deliver to the majority leader and minority leader of the senate a list of at least three applicants with sufficient expertise and qualifications, as determined by the state auditor, to perform the duties of the non-partisan state demographer. Third, if the majority leader and minority leader of the senate together agree that a specific applicant should be selected to be the non-partisan state demographer, that applicant shall be selected and the selection process shall cease. Fourth, if the majority leader and minority leader of the senate cannot together agree on an applicant, they may each remove a number of applicants on the state auditor's list equal to one-third of the total number of applicants on that list, rounded down to the next integer, and the state auditor shall then conduct a random lottery of the applicants remaining after removal to select the non-partisan state demographer. The state auditor shall prescribe a time frame and deadlines for this application and selection process that both encourages numerous qualified applicants and avoids delay in selection. The non-partisan state demographer shall serve a term of five years and may be reappointed. To be eligible for the non-partisan state demographer position an individual shall not have served in a partisan, elected position for four years prior to the appointment. The non-partisan state demographer shall be disqualified from holding office as a member of the general assembly for four years following the date of the presentation of his or her most recent legislative redistricting map to the house apportionment commission or the senatorial apportionment commission.

(c) The house of representatives shall consist of one hundred sixty-three members elected at each general election and apportioned [in the following manner:] as provided in this section.

(1) Within ten days after the population of this state is reported to the President for each decennial census of the United States or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within ten days after such a ruling has been made, the non-partisan state demographer shall begin the preparation of legislative districting plans and maps using the following methods, listed in order of priority:

(a) Districts shall be established on the basis of total population. Legislative districts shall each have a total population as nearly equal as practicable to the ideal population for such districts, determined by dividing the number of districts to be established into the total population of the state reported in the federal decennial census.

(b) Districts shall be established in a manner so as to comply with all requirements of the United States

Constitution and applicable federal laws, including, but not limited to, the Voting Rights Act of 1965 (as amended). Notwithstanding any other provision of this Article, districts shall not be drawn with the intent or result of denying or abridging the equal opportunity of racial or language minorities to participate in the political process or diminishing their ability to elect representatives of their choice, whether by themselves or by voting in concert with other persons.

Districts shall be established in a manner which maximizes partisan fairness and competitiveness treating similarly-situated parties equitably so that each receives the same fraction of legislative seats for a particular vote percentage as the other party would receive if it had received the same percentage of the vote. The non-partisan state demographer shall draw districts that meet as closely as possible the tests for partisan fairness and competitiveness.

To that end, the non-partisan state demographer shall calculate a district party partisan performance index for each district by determining the number of votes cast for the two top vote- getting parties in each district and then calculating the percentage of those votes won by each of the two parties casting the highest vote for governor at the last three preceding gubernatorial elections, for United States Senate at the last three preceding United States Senate elections, and for President of the United States at the last three preceding Presidential elections. The party partisan performance index for each district will then be averaged to create a statewide electoral performance index. Using the resultant statewide electoral performance index, the non-partisan state demographer shall test the plan, simulating an evenly split statewide election by normalizing district party partisan performance indices by the amount by which the statewide electoral performance index varies from fifty percent. In a hypothetical evenly divided statewide election under the proposed plan, the legislative seats should be distributed evenly between parties.

The non-partisan state demographer shall promote competitiveness by ensuring the plan is drawn so as to be equally responsive to surges in the electorate favoring either party. To test this, the non-partisan state demographer shall again use the normalized district-level results within the proposed plan to simulate separate elections in which the hypothetical statewide vote varies from fifty percent by one percent, two percent, three percent, four percent and five percent in favor of each party. The number of additional seats yielded by the simulation for any party for any amount it performs over fifty percent should be matched by the number of seats gained by the other party when it performs the same amount over fifty percent.

(c) Subject to the requirements of subdivisions (1)(a) and (1)(b), districts shall be composed of contiguous territory. Areas which meet only at the points of adjoining corners are not contiguous.

(d) To the extent consistent with subdivisions (1)(a) – (1)(c) of this subsection, district boundaries shall coincide with the boundaries of political subdivisions of the state. The number of counties and cities divided among more than one district shall be as small as possible. When there is a choice between dividing local political subdivisions, the more populous subdivisions shall be divided before the less populous, but this preference shall not apply to a legislative district boundary drawn along a county line which passes through a city that lies in more than one county.

(e) Preference shall be that districts are compact in form, but the standards established by subdivisions (1)(a) – (1)(d) of this subsection take precedence over compactness where a conflict arises between compactness and these standards. In general, compact districts are those which are square, rectangular, or hexagonal in shape to the extent permitted by natural or political boundaries.

(2). Within sixty days after the population of this state is reported to the President for each decennial census of the United States [and] or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within sixty days [after notification by the governor] that such a ruling has been made, the congressional district committee of each of the two parties casting the highest vote for governor at the last preceding election shall meet and the members of the committee shall nominate, by a majority vote of the members of the committee present, provided that a majority of the elected members is present, two members of their party, residents in that district, as nominees for reapportionment commissioners. Neither party shall select more than one nominee from any one state legislative district. The congressional committees shall each submit to the governor their list of elected nominees. Within thirty days the governor shall appoint a commission consisting of one name from each list to reapportion the state into one hundred and sixty-three representative districts and to establish the numbers and boundaries of said districts.

If any of the congressional committees fails to submit a list within such time the governor shall appoint a member of his own choice from that district and from the political party of the committee failing to make the appointment.

Members of the commission shall be disqualified from holding office as members of the general assembly for four years following the date of the filing by the commission of its final statement of apportionment.

For the purposes of this Article, the term congressional district committee or congressional district refers to the congressional district committee or the congressional district from which a congressman was last elected, or, in the event members of congress from this state have been elected at large, the term congressional district committee refers to those persons who last served as the congressional district committee for those districts from which congressmen were last elected, and the term congressional district refers to those districts from which congressmen were last elected. Any action pursuant to this section by the congressional district committee shall take place only at duly called meetings, shall be recorded in their official minutes and only members present in person shall be permitted to vote.

(3) Within six months after the population of this state is reported to the President for each decennial census of the United States or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within six months after such a ruling has been made, the non-partisan state demographer shall make public and file with the secretary of state and with the house apportionment commission a tentative plan of apportionment and map of the proposed districts, as well as all demographic and partisan data used in the creation of the plan and map.

The commissioners so selected shall, [on the fifteenth day, excluding Sundays and holidays, after all members have been selected] within ten days of receiving the tentative plan of apportionment and map of the proposed districts, meet in the capitol building and proceed to organize by electing from their number a chairman, vice chairman and secretary[and]. The commission shall adopt an agenda establishing at least three hearing dates on which hearings open to the public shall be held to hear objections or testimony from interested persons. A copy of the agenda shall be filed with the clerk of the house of representatives within twenty-four hours after its adoption. Executive meetings may be scheduled and held as often as the commission deems advisable.

The commission may make changes to the tentative plan of apportionment and map of the proposed districts received from the non-partisan state demographer provided that such changes are consistent with this section and approved by a vote of at least seven-tenths of the commissioners. If no changes are made or approved as provided for in this subsection, the tentative plan of apportionment and map of proposed districts shall become final. Not later than two months of receiving the tentative plan of apportionment and map of the proposed districts, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts.

[The commission shall reapportion the representatives by dividing the population of the state by the number one hundred sixty-three and shall establish each district so that the population of that district shall, as nearly as possible, equal that figure.

Each district shall be composed of contiguous territory as compact as may be.

Not later than five months after the appointment of the commission the commission shall receive the tentative plan of apportionment and map of the proposed districts ordered in subsection 4 of this section and during the ensuing fifteen days shall hold such public hearings as may be necessary to hear objections or testimony of interested persons.

Not later than six months after the appointment of the commission, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts, and no statement shall be valid unless approved by at least seven-tenths of the members.

After the statement is filed members of the house of representatives shall be elected according to such districts until a reapportionment is made as herein provided, except that if the statement is not filed within six months of the time fixed for the appointment of the commission, it shall stand discharged and the house of representatives shall be apportioned by a commission of six members appointed from among the judges of the appellate courts of the state of Missouri by the state supreme court, a majority of whom shall sign and file its apportionment plan and map with the secretary of state within ninety days of the date of the discharge of the apportionment commission. Thereafter members of the house of representatives shall be elected according to such districts until a reapportionment is made as herein provided.]

Each member of the commission shall receive as compensation fifteen dollars a day for each day the commission is in session but not more than one thousand dollars, and, in addition, shall be reimbursed for his actual and necessary expenses incurred while serving as a member of the commission.

No reapportionment shall be subject to the referendum.

Section 5.

(a) The Senate shall consist of thirty-four members elected by the qualified voters of the senatorial [respective] districts for a term of four years. [For the election of senators, the state shall be divided into convenient districts of contiguous territory, as compact and nearly equal in population as may be.] Senatorial districts shall be apportioned as provided for in Article III, Section 7.

Section 7.

(1) Within ten days after the population of this state is reported to the President for each decennial census of the United States or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within ten days after such a ruling has been made, the non-partisan state demographer authorized in Article III Section 3, shall begin the preparation of senatorial districting plans and maps using the same methods and criteria as those required by Article III, Section 3 for the establishment of districts for the House of Representatives.

(2) Within sixty days after the population of this state is reported to the President for each decennial census of the United States, [and] or within sixty days after [notification by the governor that] a reapportionment has been invalidated by a court of competent jurisdiction, the state committee of each of the two political parties casting the highest vote for governor at the last preceding election shall, at a committee meeting duly called, select by a vote of the individual committee members, and thereafter submit to the governor a list of ten persons, and within thirty days thereafter the governor shall appoint a commission of ten members, five from each list, to reapportion the thirty-four senatorial districts and to establish the numbers and boundaries of said districts.

If either of the party committees fails to submit a list within such time the governor shall appoint five members of his own choice from the party of the committee so failing to act.

Members of the commission shall be disqualified from holding office as members of the general assembly for four years following the date of the filing by the commission of its final statement of apportionment.

(3) Within six months after the population of this state is reported to the President for each decennial census of the United States or in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within six months after such a ruling has been made, the non-partisan state demographer shall file with the secretary of state and with the senatorial apportionment commission a tentative plan of apportionment and map of the proposed districts.

The commissioners so selected shall [on the fifteenth day, excluding Sundays and holidays, after all members have been selected] within ten days of receiving the tentative plan of apportionment and map of the proposed districts required by this subsection, meet in the capitol building and proceed to organize by electing from their number a chairman, vice chairman and secretary [and]. The commission shall adopt an agenda establishing at least three hearing dates on which hearings open to the public shall be held to hear objections or testimony from interested persons. A copy of the agenda shall be filed with the secretary of the senate within twenty-four hours after its adoption. Executive meetings may be scheduled and held as often as the commission deems advisable. The commission may make changes to the tentative plan of apportionment and map of the proposed districts received from the non-partisan state demographer provided that such changes are consistent with this Section and the methods and criteria required by Section 3 of this Article for the establishment of districts for the House of Representatives and approved by a vote of at least seven-tenths of the commissioners. If no changes are made or approved as provided for in this subsection, the tentative plan of apportionment and map of proposed districts shall become final. Not later than two months after receiving the tentative plan of apportionment and map of the proposed districts, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts.

[The commission shall reapportion the senatorial districts by dividing the population of the state by the number thirty-four and shall establish each district so that the population of that district shall, as nearly as possible, equal that figure; no county lines shall be crossed except when necessary to add sufficient population to a multi-district county or city to complete only one district which lies partly within such multi-district county or city so as to be as nearly equal as practicable in population. Any county with a population in excess of the quotient obtained by dividing the population of the state by the number thirty-four is hereby declared to be a multi-district county.

Not later than five months after the appointment of the commission the commission shall file with the secretary of state a tentative plan of apportionment and map of the proposed districts and during the ensuing fifteen days shall hold such public hearings as may be necessary to hear objections or testimony of interested persons.

Not later than six months after the appointment of the commission, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts, and no statement shall be valid unless

approved by at least seven members.

After the statement is filed senators shall be elected according to such districts until a reapportionment is made as herein provided, except that if the statement is not filed within six months of the time fixed for the appointment of the commission, it shall stand discharged and the senate shall be apportioned by a commission of six members appointed from among the judges of the appellate courts of the state of Missouri by the state supreme court, a majority of whom shall sign and file its apportionment plan and map with the secretary of state within ninety days of the date of the discharge of the apportionment commission. Thereafter senators shall be elected according to such districts until a reapportionment is made as herein provided.]

Each member of the commission shall receive as compensation fifteen dollars a day for each day the commission is in session, but not more than one thousand dollars, and, in addition, shall be reimbursed for his actual and necessary expenses incurred while serving as a member of the commission.

No reapportionment shall be subject to the referendum.

Section 19.

(a) Senators and representatives shall, in all cases except treason, felony, offenses under this Article, or breach of the peace, be privileged from arrest during the session of the general assembly, and for the fifteen days next before the commencement and after the termination of each session; and they shall not be questioned for any speech or debate in either house in any other place.

(b) Legislative records shall be public records and subject to generally applicable state laws governing public access to public records, including the "Sunshine Law." Legislative records include, but are not limited to, all records, in whatever form or format, of the official acts of the general assembly, of the official acts of legislative committees, of the official acts of members of the general assembly, of individual legislators, their employees and staff, of the conduct of legislative business and all records that are created, stored or distributed through legislative branch facilities, equipment or mechanisms, including electronic. Each member of the general assembly is the custodian of legislative records under the custody and control of the member, their employees and staff. The chief clerk of the house or the secretary of the senate are the custodians for all other legislative records relating to the house and the senate, respectively.

(c) Legislative proceedings, including committee proceedings, shall be public meetings subject to generally applicable law governing public access to public meetings, including the "Sunshine Law." Open public meetings of legislative proceedings shall be subject to recording by citizens, so long as the proceedings are not materially disrupted.

Section 20(c).

No political fundraising activities or political fundraising event by any member of or candidate for the general assembly, including but not limited to the solicitation or delivery of contributions, supporting or opposing any candidate, initiative petition, referendum petition, ballot measure, political party or political committee, shall occur in or on any premises, property or building owned, leased or controlled by the State of Missouri or any agency or division thereof. Any purposeful violation of this section shall be punishable by imprisonment for up to one year or a fine of up to one thousand dollars or both, plus an amount equal to three times the illegal contributions. The Missouri Ethics Commission or its successor agency is authorized to enforce this section as provided by law.

Section 20(d).

If any provision of sections 2, 3, 5, 7, 19, or 20(c) or the application thereof to anyone or to any circumstance is held invalid, the remainder of those provisions and the application of such provisions to others or other circumstances shall not be affected thereby.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-043)

Subject

Initiative petition from Sean Soendker Nicholson regarding a proposed constitutional amendment to Article III. (Received November 23, 2016)

Date

December 13, 2016

Description

This proposal would amend Article III of the Missouri Constitution.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** the **Missouri Ethics Commission,** and the **State Auditor's office.**

Sean Soendker Nicholson provided information as a proponent of the proposal to the State Auditor's office.

Assumptions

Officials from the **Attorney General's office** indicated they assume that any potential costs arising from the adoption of this proposal can be absorbed with existing resources.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated there would be no impact to their department as a result of this initiative petition.

Officials from the **Department of Higher Education** indicated this initiative petition would not have a fiscal impact on their department.

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no impact.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** indicated this initiative petition has no fiscal impact on their department.

Officials from the **Department of Public Safety** indicated they see no fiscal impact due to this initiative petition.

Officials from the **Department of Social Services** indicated no fiscal impact on their department.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated no fiscal impact.

Officials from the **Office of Administration** indicated this initiative petition revises Article III of the Missouri Constitution by amending Sections 2, 5, 7, and 19 and enacting three new sections.

Legislators and their employees are prohibited from lobbying for at least one year after the conclusion of the session during which they vacate office, and from acting as paid consultants while in office. Legislators and their staff are prohibited from accepting a gift in excess of five dollars, per occurrence.

The initiative creates the post of "non-partisan State Demographer" to oversee the redistricting process for the state House and Senate districts. The demographer is to be selected by a process involving the State Auditor and the Senate majority and minority leaders. Note that the wording is unclear on this process because the only State Auditor list mentioned in the list of at least three names. Therefore, if each the minority and the majority member are allowed to remove one-third of the list, and the list is only three names, they may each remove one person, leaving only one choice left, so no random lottery would be necessary. This demographer will be unable to hold elected office for four years following the filing of the new legislative districts. The redistricting process shall maximize partisan fairness and competitiveness.

It mandates that legislative records which are created, stored or distributed through legislative branch facilities, equipment or mechanisms shall be public. It allows explicitly identified legislative proceedings as open meetings and authorizes recording of such proceedings by citizens.

Political fundraising activities and events may not be held in any location owned by, or under the control of, the State of Missouri.

Campaign contributions for state senators are limited to $2,500 and representatives are limited to $2,000, with CPI adjustments made in even-numbered years. Also, contributions from federal political action committees are prohibited unless the committee has filed the same financial disclosure reports that would be required of a Missouri political action committee.

This proposal could have an impact on the Office of Administration. There is currently a State Demographer, with statutory duties that extend beyond those of legislative reapportionment. If the existing State Demographer would be chosen to assume the role of "Non-partisan State Demographer," there would be no fiscal impact. However, if that post is filled by another individual, the salary and benefits costs would be an estimated $128,513 in FY 2021, adjusted for inflation. In either scenario, the cost for other staff hired for the purposes of redistricting would remain the same.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated no fiscal impact on their office.

Officials from the **Secretary of State's office** indicated their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any significant impact on their office.

Officials from the **State Treasurer's office** indicated this would have no fiscal impact on their office.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from the **City of Columbia** indicated no impact to their city.

Officials from the **City of Kansas City** indicated no direct fiscal impact is anticipated if this proposal is adopted.

Officials from the **City of Raymore** indicated no fiscal impact.

Officials from the **City of St. Joseph** indicated this should not have a fiscal impact on local government.

Officials from the **Metropolitan Community College** indicated there is no anticipated impact for their college.

Officials from the **University of Missouri** indicated there are no anticipated financial impacts.

Officials from the **Missouri Ethics Commission** (MEC) indicated:

possible increased operating costs of $67,478 for the first year implemented, $61,107 for the second year implemented, and $61,734 for the third year implemented.

Prohibiting a statewide elected official, member of the general assembly or paid employee of general assembly from acting, serving, or registering as a lobbyist for a specified period of time after leaving office would require the following of the MEC:

- Provide information to public officials and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo., about the new statutory requirements; examples include providing education, developing informational materials, telephone and email assistance.
- Provide oversight to ensure those individuals leaving the general assembly do not register as a lobbyist with the MEC for the specified period of time. This would entail reviewing lobbyist registrations, at the time of receipt by the MEC, and comparing them to those members of the general assembly who have left office within the specified period of time. For any individual submitting a registration, create the necessary correspondence to the registrant and track the results of the correspondence.
- Respond to written complaints, as established in Section 105.955.14, RSMo., through conducting investigations and the related legal actions. Any significant increase of complaints would require additional Commission resources, including investigative staff.

Implementing prohibition for a member of general assembly, staff/employees of the general assembly to accept specified monetary lobbyist/lobbyist principal gifts would require the following of the MEC:

- Provide information to public officials and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo., about the new statutory requirements; examples include providing education, developing informational materials, telephone and email assistance.
- Provide oversight in adherence to the specific gift prohibition, including reviewing lobbyist reports as established in Section 105.959, RSMo. This oversight, it is assumed, would be primarily from receiving written complaints, as established in Section 105.955.14, RSMo., through conducting investigations and the related legal actions. It is assumed this prohibition would result in a minimal number of complaints; however, if this assumption is incorrect the Commission would require additional staff resources.

Implementing campaign finance limits would require the following of the MEC:

- Provide information to those committee officers and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo. about these limits;

examples include providing education, developing informational materials, telephone and email assistance.

- Provide oversight in campaign finance committee adherence to the specific contribution limits, including reviewing, auditing, and performing cross checks of the reported contributions, as established in Section 105.955.14 (2), (3), RSMo.
- Respond to written complaints, as established in Section 105.955.14, RSMo., through conducting investigations and the related legal actions.

Oversee the prohibition of political fundraising activities or events from occurring on State of Missouri property or any agency or division thereof would require the following of the MEC:

- Provide information to those committee officers and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo. about this provision; examples include providing education, developing informational materials, telephone and email assistance.
- Provide oversight in campaign finance committee adherence to the specific restrictions, including reviewing, auditing, and performing cross checks of the reported fund raising activity, as established in Section 105.955.14 (2), (3), RSMo.
- Respond to written complaints, as established in Section 105.955.14, RSMo., through conducting investigations and the related legal actions.

In regards to all of the provisions outlined above, if the Commission identifies significant violations during the process established in Section 105.955.14 (2), (3), RSMo or complaints received increase significantly an Investigator would be required to provide the proper oversight.

The implementation of contribution limits requires the Missouri Ethics Commission to request additional funding. Below is an outline of the additional funding. In the 2016 November General Election a Constitutional Amendment implementing contribution limits was adopted by voters. At this time, the Missouri Ethics Commission has not received the additional funding required to implement contribution limits.

The proposed provisions would implement campaign finance limits. The implementation of the above responsibilities would require the following additional resources:

•$15,120 in expense and equipment to acquire contract services that would develop the MEC internal search capabilities for oversight of the campaign finance committees' adherence to the specific contribution limits, as established in 105.955.14, RSMo. Current campaign finance data collection would allow the MEC to use search capabilities, providing for a manual review by MEC staff of adherence to the established limits.

•1 Business Analyst to conduct the routine work necessary in reviewing and providing oversight for the proposed legislation. The Business Analyst would review committee reports for compliance, prepare necessary notices, track the receipt of payment, and coordinate the necessary collection efforts. Currently two Business Analysts assist 2,800

committees in filing campaign finance reports, prepare and disseminate 15,000 notices, and review 11,000 campaign finance reports.

•If the Commission identifies significant violations during the process established in Section 105.955.14 (2), (3), RSMo, or complaints received increase significantly an Investigator would be required to provide the proper oversight.

Officials from the **State Auditor's office** (SAO) indicated any additional costs can be absorbed within current appropriations.

Sean Soendker Nicholson provided the following information as a proponent of this initiative petition.

I am a proponent of this initiative petition. Pursuant to 116.175 RSMo, I submit the following information regarding the initiative petition.

There is no cost to the state over the next two years as a result of passage of any of the initiatives. Any potential costs arising from the adoption of these proposals is minimal and can be absorbed with existing resources from the General Assembly, Missouri Ethics Commission, Attorney General's Office, Office of Administration, and other state agencies.

There is currently a State Demographer, with statutory duties that extend beyond those of legislative reapportionment. The existing State Demographer can be expected to assume the role of Non-partisan State Demographer, and there would be no fiscal impact. Certainly there can be no definitive judgment that the measure would add costs for the state.

The proposals do not establish a new program or agency so there is no duplication of existing programs. There is no federal mandate with regard to the proposals. There will be no fiscal impact on any subdivision of the state. There will be no economic impact on small businesses.

The Missouri Ethics Commission is already required to provide guidance and information to members of the General Assembly and Missouri public about campaign finance rules and lobbying rules, and is already required to respond to written complaints through conducting investigations and the related legal actions.

The State Auditor's office did not receive a response from the **Department of Elementary and Secondary Education, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri,** and **St. Louis Community College.**

Fiscal Note Summary

State governmental entities estimate annual operating costs may increase by $189,000. Local governmental entities expect no fiscal impact.

Jefferson City, MO 65101

RE: Petition approval request from Sean Soendker Nicholson regarding a proposed constitutional amendment to Article III, version 1 (2018-042)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Sean Soendker Nicholson on November 23, 2016.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

Jason Kander

NOTICE: You are advised that the proposed constitutional amendment may change, repeal, or modify by implication or may be construed by some persons to change, repeal or modify by implication, the following Articles and Sections of the Constitution of Missouri: Article I, Section 8 and the following Sections of the Missouri Revised Statutes: Sections 105.450 through 105.496 and Sections 130.011 through 130.160. The proposed amendment revises Article III of the Constitution by amending Sections 2, 5, 7, and 19 and adopting three new sections to be known as Article III Sections 3, 20(c), and 20(d).

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article III of the Constitution is revised by amending Sections 2, 5, 7, 19, and adopting three new sections to be known as Article III Sections 3, 20(c), and 20(d) to read as follows:

Section 2.

After the effective date of this section, no person serving as a member of or employed by the General Assembly shall act or serve as a paid lobbyist, register as a paid lobbyist, or solicit prospective employers or clients to represent as a paid lobbyist during the time of such service until the expiration of one calendar year after the conclusion of the session of the general assembly in which the member or employee last served and where such service was after the effective date of this section.

(a) No person serving as a member of or employed by the General Assembly shall accept directly or indirectly a gift of any tangible or intangible item, service, or thing of value from any paid lobbyist or lobbyist principal in excess of five dollars per occurrence. This Article shall not prevent Candidates for the General Assembly, including candidates for reelection, or candidates for offices within the senate or house from accepting campaign contributions consistent with this Article and applicable campaign finance law. Nothing in this section shall prevent individuals from receiving gifts, family support or anything of value from those related to them within the fourth degree by blood or marriage. The dollar limitations of this section shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency and rounded to the nearest dollar amount.

(c) The General Assembly shall make no law authorizing unlimited campaign contributions to candidates for the General Assembly, nor any law that circumvents the contribution limits contained in this Constitution. In addition to other campaign contribution limitations or restrictions provided for by law, the amount of contributions made to or accepted by any candidate or candidate committee from any person other than the candidate in any one election for the General Assembly shall not exceed the following:

(1) To elect an individual to the office of state senator, two thousand five hundred dollars; and

(2) To elect an individual to the office of state representative, two thousand dollars.

The contribution limits and other restrictions of this section shall also apply to any person exploring a candidacy for a public office listed in this subsection.

For purposes of this subsection, "base year amount" shall be the contribution limits prescribed in this section. Contribution limits set forth herein shall be adjusted on the first day of January in each even-numbered year hereafter by multiplying the base year amount by the cumulative consumer price index and rounded to the nearest dollar amount, for all years after 2018.

(d) No contribution to a candidate for legislative office shall be made or accepted, directly or indirectly, in a fictitious name, in the name of another person, or by or through another person in such a manner as to, or with the intent to, conceal the identity of the actual source of the contribution. There shall be a rebuttable presumption that a contribution to a candidate for public office is made or accepted with the intent to circumvent the limitations on contributions imposed in this section when a contribution is received from a committee or organization that is primarily funded by a single person, individual, or other committee that has already reached its contribution limit under any law relating to contribution limitations. A committee or organization shall be deemed to be primarily funded by a single person, individual, or other committee when the committee or organization receives more than fifty percent of its annual funding from that single person, individual, or other committee.

(e) In no circumstance shall a candidate be found to have violated limits on acceptance of contributions if the Missouri Ethics Commission, its successor agency, or a court determines that a candidate has taken no action to indicate acceptance of or acquiescence to the making of an expenditure that is deemed a contribution pursuant to this section.

(f) No candidate shall accept contributions from any federal political action committee unless the committee has filed the same financial disclosure reports that would be required of a Missouri political action committee.

Section 3.

(a) There is hereby established the post of "non-partisan state demographer." The non-partisan state demographer shall acquire appropriate information to develop procedures in preparation for drawing legislative redistricting maps on the basis of each federal census for presentation to the house apportionment commission and the senatorial apportionment commission.

(b) The non-partisan state demographer shall be appointed by the Governor through a merit based process. The non-partisan state demographer shall serve a term of five years and may be reappointed. To be eligible for the non-partisan state demographer position an individual shall not have served in a partisan, elected position for four years prior to the appointment. The non-partisan state demographer shall be disqualified from holding office as a member of the general assembly for four years following the date of the presentation of his or her most recent legislative redistricting map to the house apportionment commission or the senatorial apportionment commission.

(c) The house of representatives shall consist of one hundred sixty-three members elected at each general election and apportioned [in the following manner:] as provided in this section.

(1) Within ten days after the population of this state is reported to the President for each decennial census of the United States or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within ten days after such a ruling has been made, the non-partisan state demographer shall begin the preparation of legislative districting plans and maps using the following methods, listed in order of priority:

(a) Districts shall be established on the basis of total population. Legislative districts shall each have a total population as nearly equal as practicable to the ideal population for such districts, determined by dividing the number of districts to be established into the total population of the state reported in the federal decennial census.

(b) Districts shall be established in a manner so as to comply with all requirements of the United States Constitution and applicable federal laws, including, but not limited to, the Voting Rights Act of 1965 (as amended). Notwithstanding any other provision of this Article, districts shall not be drawn with the intent or result of denying or abridging the equal opportunity of racial or language minorities to participate in the political process or diminishing their ability to elect representatives of their choice, whether by themselves or by voting in concert with other persons.

Districts shall be established in a manner which maximizes partisan fairness and competitiveness treating similarly-situated

parties equitably so that each receives the same fraction of legislative seats for a particular vote percentage as the other party would receive if it had received the same percentage of the vote. The non-partisan state demographer shall draw districts that meet as closely as possible the tests for partisan fairness and competitiveness.

To that end, the non-partisan state demographer shall calculate a district party partisan performance index for each district by determining the number of votes cast for the two top vote- getting parties in each district and then calculating the percentage of those votes won by each of the two parties casting the highest vote for governor at the last three preceding gubernatorial elections, for United States Senate at the last three preceding United States Senate elections, and for President of the United States at the last three preceding Presidential elections. The party partisan performance index for each district will then be averaged to create a statewide electoral performance index. Using the resultant statewide electoral performance index, the non-partisan state demographer shall test the plan, simulating an evenly split statewide election by normalizing district party partisan performance indices by the amount by which the statewide electoral performance index varies from fifty percent. In a hypothetical evenly divided statewide election under the proposed plan, the legislative seats should be distributed evenly between parties.

The non-partisan state demographer shall promote competitiveness by ensuring the plan is drawn so as to be equally responsive to surges in the electorate favoring either party. To test this, the non-partisan state demographer shall again use the normalized district-level results within the proposed plan to simulate separate elections in which the hypothetical statewide vote varies from fifty percent by one percent, two percent, three percent, four percent and five percent in favor of each party. The number of additional seats yielded by the simulation for any party for any amount it performs over fifty percent should be matched by the number of seats gained by the other party when it performs the same amount over fifty percent.

(c) Subject to the requirements of subdivisions (1)(a) and (1)(b), districts shall be composed of contiguous territory. Areas which meet only at the points of adjoining corners are not contiguous.

(d) To the extent consistent with subdivisions (1)(a) – (1)(c) of this subsection, district boundaries shall coincide with the boundaries of political subdivisions of the state. The number of counties and cities divided among more than one district shall be as small as possible. When there is a choice between dividing local political subdivisions, the more populous subdivisions shall be divided before the less populous, but this preference shall not apply to a legislative district boundary drawn along a county line which passes through a city that lies in more than one county.

(e) Preference shall be that districts are compact in form, but the standards established by subdivisions (1)(a) – (1)(d) of this subsection take precedence over compactness where a conflict arises between compactness and these standards. In general, compact districts are those which are square, rectangular, or hexagonal in shape to the extent permitted by natural or political boundaries.

(2). Within sixty days after the population of this state is reported to the President for each decennial census of the United States [and] or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within sixty days [after notification by the governor] that such a ruling has been made, the congressional district committee of each of the two parties casting the highest vote for governor at the last preceding election shall meet and the members of the committee shall nominate, by a majority vote of the members of the committee present, provided that a majority of the elected members is present, two members of their party, residents in that district, as nominees for reapportionment commissioners. Neither party shall select more than one nominee from any one state legislative district. The congressional committees shall each submit to the governor their list of elected nominees. Within thirty days the governor shall appoint a commission consisting of one name from each list to reapportion the state into one hundred and sixty-three representative districts and to establish the numbers and boundaries of said districts.

If any of the congressional committees fails to submit a list within such time the governor shall appoint a member of his own choice from that district and from the political party of the committee failing to make the appointment.

Members of the commission shall be disqualified from holding office as members of the general assembly for four years following the date of the filing by the commission of its final statement of apportionment.

For the purposes of this Article, the term congressional district committee or congressional district refers to the congressional district committee or the congressional district from which a congressman was last elected, or, in the event members of congress from this state have been elected at large, the term congressional district committee refers to those persons who last served as the congressional district committee for those districts from which congressmen were last elected, and the term congressional district refers to those districts from which congressmen were last elected. Any action pursuant to this section by the congressional district committee shall take place only at duly called meetings, shall be recorded in their official minutes and only members present in person shall be permitted to vote.

(3) Within six months after the population of this state is reported to the President for each decennial census of the United States or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within six months after such a ruling has been made, the non-partisan state demographer shall make public and file with the secretary of state and with the house apportionment commission a tentative plan of apportionment and map of the proposed districts, as well as all demographic and partisan data used in the creation of the plan and map.

The commissioners so selected shall, [on the fifteenth day, excluding Sundays and holidays, after all members have been selected] within ten days of receiving the tentative plan of apportionment and map of the proposed districts, meet in the capitol building and proceed to organize by electing from their number a chairman, vice chairman and secretary[and]. The commission shall adopt an agenda establishing at least three hearing dates on which hearings open to the public shall be held to hear objections or testimony from interested persons. A copy of the agenda shall be filed with the clerk of the house of representatives within twenty-four hours after its adoption. Executive meetings may be scheduled and held as often as the commission deems advisable.

The commission may make changes to the tentative plan of apportionment and map of the proposed districts received from the non-partisan state demographer provided that such changes are consistent with this section and approved by a vote of at least seven-tenths of the commissioners. If no changes are made or approved as provided for in this subsection, the tentative plan of apportionment and map of proposed districts shall become final. Not later than two months of receiving the tentative plan of apportionment and map of the proposed districts, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts.

[The commission shall reapportion the representatives by dividing the population of the state by the number one hundred sixty-three and shall establish each district so that the population of that district shall, as nearly as possible, equal that figure.

Each district shall be composed of contiguous territory as compact as may be.

Not later than five months after the appointment of the commission the commission shall receive the tentative plan of apportionment and map of the proposed districts ordered in subsection 4 of this section and during the ensuing fifteen days shall hold such public

hearings as may be necessary to hear objections or testimony of interested persons.

Not later than six months after the appointment of the commission, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts, and no statement shall be valid unless approved by at least seven-tenths of the members.

After the statement is filed members of the house of representatives shall be elected according to such districts until a reapportionment is made as herein provided, except that if the statement is not filed within six months of the time fixed for the appointment of the commission, it shall stand discharged and the house of representatives shall be apportioned by a commission of six members appointed from among the judges of the appellate courts of the state of Missouri by the state supreme court, a majority of whom shall sign and file its apportionment plan and map with the secretary of state within ninety days of the date of the discharge of the apportionment commission. Thereafter members of the house of representatives shall be elected according to such districts until a reapportionment is made as herein provided.]

Each member of the commission shall receive as compensation fifteen dollars a day for each day the commission is in session but not more than one thousand dollars, and, in addition, shall be reimbursed for his actual and necessary expenses incurred while serving as a member of the commission.

No reapportionment shall be subject to the referendum.

Section 5.

(a) The Senate shall consist of thirty-four members elected by the qualified voters of the senatorial [respective] districts for a term of four years. [For the election of senators, the state shall be divided into convenient districts of contiguous territory, as compact and nearly equal in population as may be.] Senatorial districts shall be apportioned as provided for in Article III, Section 7.

Section 7.

(1) Within ten days after the population of this state is reported to the President for each decennial census of the United States or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within ten days after such a ruling has been made, the non-partisan state demographer authorized in Article III Section 3, shall begin the preparation of senatorial districting plans and maps using the same methods and criteria as those required by Article III, Section 3 for the establishment of districts for the House of Representatives.

(2) Within sixty days after the population of this state is reported to the President for each decennial census of the United States, [and] or within sixty days after [notification by the governor that] a reapportionment has been invalidated by a court of competent jurisdiction, the state committee of each of the two political parties casting the highest vote for governor at the last preceding election shall, at a committee meeting duly called, select by a vote of the individual committee members, and thereafter submit to the governor a list of ten persons, and within thirty days thereafter the governor shall appoint a commission of ten members, five from each list, to reapportion the thirty-four senatorial districts and to establish the numbers and boundaries of said districts.

If either of the party committees fails to submit a list within such time the governor shall appoint five members of his own choice from the party of the committee so failing to act.

Members of the commission shall be disqualified from holding office as members of the general assembly for four years following the date of the filing by the commission of its final statement of apportionment.

(3) Within six months after the population of this state is reported to the President for each decennial census of the United States or in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within six months after such a ruling has been made, the non-partisan state demographer shall file with the secretary of state and with the senatorial apportionment commission a tentative plan of apportionment and map of the proposed districts.

The commissioners so selected shall [on the fifteenth day, excluding Sundays and holidays, after all members have been selected] within ten days of receiving the tentative plan of apportionment and map of the proposed districts required by this subsection, meet in the capitol building and proceed to organize by electing from their number a chairman, vice chairman and secretary [and]. The commission shall adopt an agenda establishing at least three hearing dates on which hearings open to the public shall be held to hear objections or testimony from interested persons. A copy of the agenda shall be filed with the secretary of the senate within twenty-four hours after its adoption. Executive meetings may be scheduled and held as often as the commission deems advisable. The commission may make changes to the tentative plan of apportionment and map of the proposed districts received from the non-partisan state demographer provided that such changes are consistent with this Section and the methods and criteria required by Section 3 of this Article for the establishment of districts for the House of Representatives and approved by a vote of at least seven-tenths of the commissioners. If no changes are made or approved as provided for in this subsection, the tentative plan of apportionment and map of proposed districts shall become final. Not later than two months after receiving the tentative plan of apportionment and map of the proposed districts, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts.

[The commission shall reapportion the senatorial districts by dividing the population of the state by the number thirty-four and shall establish each district so that the population of that district shall, as nearly as possible, equal that figure; no county lines shall be crossed except when necessary to add sufficient population to a multi-district county or city to complete only one district which lies partly within such multi-district county or city so as to be as nearly equal as practicable in population. Any county with a population in excess of the quotient obtained by dividing the population of the state by the number thirty-four is hereby declared to be a multi-district county.

Not later than five months after the appointment of the commission the commission shall file with the secretary of state a tentative plan of apportionment and map of the proposed districts and during the ensuing fifteen days shall hold such public hearings as may be necessary to hear objections or testimony of interested persons.

Not later than six months after the appointment of the commission, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts, and no statement shall be valid unless approved by at least seven members.

After the statement is filed senators shall be elected according to such districts until a reapportionment is made as herein provided, except that if the statement is not filed within six months of the time fixed for the appointment of the commission, it shall stand discharged and the senate shall be apportioned by a commission of six members appointed from among the judges of the appellate courts of the state of Missouri by the state supreme court, a majority of whom shall sign and file its apportionment plan and map with

the secretary of state within ninety days of the date of the discharge of the apportionment commission. Thereafter senators shall be elected according to such districts until a reapportionment is made as herein provided.]

Each member of the commission shall receive as compensation fifteen dollars a day for each day the commission is in session, but not more than one thousand dollars, and, in addition, shall be reimbursed for his actual and necessary expenses incurred while serving as a member of the commission.

No reapportionment shall be subject to the referendum.

Section 19.

(a) Senators and representatives shall, in all cases except treason, felony, offenses under this Article, or breach of the peace, be privileged from arrest during the session of the general assembly, and for the fifteen days next before the commencement and after the termination of each session; and they shall not be questioned for any speech or debate in either house in any other place.

(b) Legislative records shall be public records and subject to generally applicable state laws governing public access to public records, including the "Sunshine Law." Legislative records include, but are not limited to, all records, in whatever form or format, of the official acts of the general assembly, of the official acts of legislative committees, of the official acts of members of the general assembly, of individual legislators, their employees and staff, of the conduct of legislative business and all records that are created, stored or distributed through legislative branch facilities, equipment or mechanisms, including electronic. Each member of the general assembly is the custodian of legislative records under the custody and control of the member, their employees and staff. The chief clerk of the house or the secretary of the senate are the custodians for all other legislative records relating to the house and the senate, respectively.

(c) Legislative proceedings, including committee proceedings, shall be public meetings subject to generally applicable law governing public access to public meetings, including the "Sunshine Law." Open public meetings of legislative proceedings shall be subject to recording by citizens, so long as the proceedings are not materially disrupted.

Section 20(c).

No political fundraising activities or political fundraising event by any member of or candidate for the general assembly, including but not limited to the solicitation or delivery of contributions, supporting or opposing any candidate, initiative petition, referendum petition, ballot measure, political party or political committee, shall occur in or on any premises, property or building owned, leased or controlled by the State of Missouri or any agency or division thereof. Any purposeful violation of this section shall be punishable by imprisonment for up to one year or a fine of up to one thousand dollars or both, plus an amount equal to three times the illegal contributions. The Missouri Ethics Commission or its successor agency is authorized to enforce this section as provided by law.

Section 20(d).

If any provision of sections 2, 3, 5, 7, 19, or 20(c) or the application thereof to anyone or to any circumstance is held invalid, the remainder of those provisions and the application of such provisions to others or other circumstances shall not be affected thereby.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-042)

Subject

Initiative petition from Sean Soendker Nicholson regarding a proposed constitutional amendment to Article III. (Received November 23, 2016)

Date

December 13, 2016

Description

This proposal would amend Article III of the Missouri Constitution.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** the **Missouri Ethics Commission,** and the **State Auditor's office.**

Sean Soendker Nicholson provided information as a proponent of the proposal to the State Auditor's office.

Assumptions

Officials from the **Attorney General's office** indicated they assume that any potential costs arising from the adoption of this proposal can be absorbed with existing resources.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated there would be no impact to their department as a result of this initiative petition.

Officials from the **Department of Higher Education** indicated this initiative petition would not have a fiscal impact on their department.

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no impact.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** indicated this initiative petition has no fiscal impact on their department.

Officials from the **Department of Public Safety** indicated they see no fiscal impact due to this initiative petition.

Officials from the **Department of Social Services** indicated no fiscal impact on their department.

Officials from the **Governor's office** indicated the Governor is responsible for appointing a non-partisan State Demographer; however, there should be no added costs or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated no fiscal impact.

Officials from the **Office of Administration** indicated this initiative petition revises Article III of the Missouri Constitution by amending Sections 2, 5, 7, and 19 and enacting three new sections.

Legislators and their employees are prohibited from lobbying for at least one year after the conclusion of the session during which they vacate office, and from acting as paid consultants while in office. Legislators and their staff are prohibited from accepting a gift in excess of five dollars, per occurrence.

The initiative creates the post of "non-partisan State Demographer" to oversee the redistricting process for the state House and Senate districts. The demographer is to be selected by the Governor through a merit-based system and shall serve a term of five years. This demographer will be unable to hold elected office for four years following the filing of the new legislative districts. The redistricting process shall maximize partisan fairness and competitiveness.

It mandates that legislative records which are created, stored or distributed through legislative branch facilities, equipment or mechanisms shall be public. It allows explicitly identified legislative proceedings as open meetings and authorizes recording of such proceedings by citizens.

Political fundraising activities and events may not be held in any location owned by, or under the control of, the State of Missouri.

Campaign contributions for state senators are limited to $2,500 and representatives are limited to $2,000, with CPI adjustments made in even-numbered years. Also, contributions from federal political action committees are prohibited unless the committee has filed the same financial disclosure reports that would be required of a Missouri political action committee.

This proposal could have an impact on their office. There is currently a State Demographer, with statutory duties that extend beyond those of legislative reapportionment. If the existing State Demographer would be expected to assume the role of "Non-partisan State Demographer," there would be no fiscal impact. However, if that post is filled by another individual, the salary and benefits costs would be an estimated $128,513 in FY 2021, adjusted for inflation. In either scenario, the cost for other staff hired for the purposes of redistricting would remain the same.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated no fiscal impact on their office.

Officials from the **Secretary of State's office** indicated their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any significant impact on their office.

Officials from the **State Treasurer's office** indicated this would have no fiscal impact on their office.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from the **City of Columbia** indicated no impact to their city.

Officials from the **City of Kansas City** indicated no direct fiscal impact is anticipated if this proposal is adopted.

Officials from the **City of Raymore** indicated no fiscal impact.

Officials from the **City of St. Joseph** indicated this should not have a fiscal impact on local government.

Officials from the **Metropolitan Community College** indicated there is no anticipated impact for their college.

Officials from the **University of Missouri** indicated there are no anticipated financial impacts.

Officials from the **Missouri Ethics Commission** (MEC) indicated:

possible increased operating costs of $67,478 for the first year implemented, $61,107 for the second year implemented, and $61,734 for the third year implemented.

Prohibiting a statewide elected official, member of the general assembly or paid employee of general assembly from acting, serving, or registering as a lobbyist for a specified period of time after leaving office would require the following of the MEC:

- Provide information to public officials and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo., about the new statutory requirements; examples include providing education, developing informational materials, telephone and email assistance.
- Provide oversight to ensure those individuals leaving the general assembly do not register as a lobbyist with the MEC for the specified period of time. This would entail reviewing lobbyist registrations, at the time of receipt by the MEC, and comparing them to those members of the general assembly who have left office within the specified period of time. For any individual submitting a registration, create the necessary correspondence to the registrant and track the results of the correspondence.
- Respond to written complaints, as established in Section 105.955.14, RSMo., through conducting investigations and the related legal actions. Any significant increase of complaints would require additional Commission resources, including investigative staff.

Implementing prohibition for a member of general assembly, staff/employees of the general assembly to accept specified monetary lobbyist/lobbyist principal gifts would require the following of the MEC:

- Provide information to public officials and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo., about the new statutory requirements; examples include providing education, developing informational materials, telephone and email assistance.
- Provide oversight in adherence to the specific gift prohibition, including reviewing lobbyist reports as established in Section 105.959, RSMo. This oversight, it is assumed, would be primarily from receiving written complaints, as established in Section 105.955.14, RSMo., through conducting investigations and the related legal actions. It is assumed this prohibition would result in a minimal number of complaints; however, if this assumption is incorrect the Commission would require additional staff resources.

Implementing campaign finance limits would require the following of the MEC:

- Provide information to those committee officers and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo. about these limits;

examples include providing education, developing informational materials, telephone and email assistance.

- Provide oversight in campaign finance committee adherence to the specific contribution limits, including reviewing, auditing, and performing cross checks of the reported contributions, as established in Section 105.955.14 (2), (3), RSMo.
- Respond to written complaints, as established in Section 105.955.14, RSMo., through conducting investigations and the related legal actions.

Oversee the prohibition of political fundraising activities or events from occurring on State of Missouri property or any agency or division thereof would require the following of the MEC:

- Provide information to those committee officers and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo. about this provision; examples include providing education, developing informational materials, telephone and email assistance.
- Provide oversight in campaign finance committee adherence to the specific restrictions, including reviewing, auditing, and performing cross checks of the reported fund raising activity, as established in Section 105.955.14 (2), (3), RSMo.
- Respond to written complaints, as established in Section 105.955.14, RSMo., through conducting investigations and the related legal actions.

In regards to all of the provisions outlined above, if the Commission identifies significant violations during the process established in Section 105.955.14 (2), (3), RSMo or complaints received increase significantly an Investigator would be required to provide the proper oversight.

The implementation of contribution limits requires the Missouri Ethics Commission to request additional funding. Below is an outline of the additional funding. In the 2016 November General Election a Constitutional Amendment implementing contribution limits was adopted by voters. At this time, the Missouri Ethics Commission has not received the additional funding required to implement contribution limits.

The proposed provisions would implement campaign finance limits. The implementation of the above responsibilities would require the following additional resources:

•$15,120 in expense and equipment to acquire contract services that would develop the MEC internal search capabilities for oversight of the campaign finance committees' adherence to the specific contribution limits, as established in 105.955.14, RSMo. Current campaign finance data collection would allow the MEC to use search capabilities, providing for a manual review by MEC staff of adherence to the established limits.

•1 Business Analyst to conduct the routine work necessary in reviewing and providing oversight for the proposed legislation. The Business Analyst would review committee reports for compliance, prepare necessary notices, track the receipt of payment, and coordinate the necessary collection efforts. Currently two Business Analysts assist 2,800

committees in filing campaign finance reports, prepare and disseminate 15,000 notices, and review 11,000 campaign finance reports.

•If the Commission identifies significant violations during the process established in Section 105.955.14 (2), (3), RSMo, or complaints received increase significantly an Investigator would be required to provide the proper oversight.

Officials from the **State Auditor's office** (SAO) indicated there is no fiscal impact for their office.

Sean Soendker Nicholson provided the following information as a proponent of this initiative petition.

I am a proponent of this initiative petition. Pursuant to 116.175 RSMo, I submit the following information regarding the initiative petition.

There is no cost to the state over the next two years as a result of passage of any of the initiatives. Any potential costs arising from the adoption of these proposals is minimal and can be absorbed with existing resources from the General Assembly, Missouri Ethics Commission, Attorney General's Office, Office of Administration, and other state agencies.

There is currently a State Demographer, with statutory duties that extend beyond those of legislative reapportionment. The existing State Demographer can be expected to assume the role of Non-partisan State Demographer, and there would be no fiscal impact. Certainly there can be no definitive judgment that the measure would add costs for the state.

The proposals do not establish a new program or agency so there is no duplication of existing programs. There is no federal mandate with regard to the proposals. There will be no fiscal impact on any subdivision of the state. There will be no economic impact on small businesses.

The Missouri Ethics Commission is already required to provide guidance and information to members of the General Assembly and Missouri public about campaign finance rules and lobbying rules, and is already required to respond to written complaints through conducting investigations and the related legal actions.

The State Auditor's office did not receive a response from the **Department of Elementary and Secondary Education, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri,** and **St. Louis Community College.**

Fiscal Note Summary

State governmental entities estimate annual operating costs may increase by $189,000. Local governmental entities expect no fiscal impact.

The Honorable Nicole Galloway
State Auditor
State Capitol Building
Jefferson City, MO 65101

RE: Petition approval request from Bradley Bradshaw regarding a proposed constitutional amendment to Article XIV (2018-041)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Bradley Bradshaw on November 22, 2016.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

Jason Kander

Be it resolved by the people of the State of Missouri that the Constitution be amended:

One new article and twelve new sections are adopted by adding twelve new sections to a new Article, to be known as Sections 1 through Section 12 of Article XIV to read as follows:

Section 1. Purpose.

(a) For the purpose of benefiting the citizens of Missouri by providing for medical research to find and develop cures and treatments for cancer and other incurable and chronic diseases or medical conditions, and by funding said medical research by the legalization and use of medical marijuana or its derivatives as palliative or ameliorative treatment for any such condition, with taxes on medical marijuana or any derivatives thereof as set forth herein, with the proceeds of such taxes to be used to establish, provide for, and continue such medical research as provided herein. This Article XIV permits authorized physicians to recommend marijuana for medical purposes to patients with serious illnesses and medical conditions. The Article XIV allows patients with qualifying medical conditions the right to discuss freely with their physicians the possible benefits of medical marijuana use, the right of their physicians to provide professional advice concerning the same, and the right to use medical marijuana for treatment under the supervision of a physician. This Article XIV is not intended to change current civil and criminal laws governing the use of marijuana for nonmedical purposes. The section does not allow for the public use of marijuana or driving under the influence of marijuana.

Section 2. Definitions:

As used in this Article XIV, the following terms shall mean:

(a) "Administer" means the direct application of marijuana to the body of a qualifying patient by any approved methods, as defined herein.

(b) "Approved methods" for the administration of marijuana are defined to include ingestion of capsules, teas and other sanctioned marijuana-infused products, vaporization or smoking of dried flowers/buds, oils, resins, or plant material, application of ointments, patches, suppositories or balms, consuming marijuana-infused food products or any other method recommended by a qualifying patient's physician and approved by the Research Board.

(c) "Article XIV Coordinator" means the individual who coordinates activation and implementation of this Article XIV and its subsections by initially and temporarily functioning as the Chairperson of the Research Board of the Biomedical Research and Drug Development Institute and Chairperson of the Land Acquisition Board until those positions are otherwise filled pursuant to this Article XIV.

(d) "Authorized physician" means an individual who is licensed and in good standing to practice medicine or osteopathy under Missouri law and has not in the past ten years had their licensed suspended, or in the last twenty years revoked, for excessively dispensing controlled substances.

(e) "Building and construction" means the erection, renovation, development or remodeling of any structure allowed for in this article including, but not limited to, marijuana cultivation facilities, offices, buildings, clinics, hospitals, sidewalks, roads, public transit systems and structures, public recreational and entertainment facilities, community developments, landscaping, green spaces, enterprise zones, housings, parks, recreational areas and the planning, design, development, architectural design and engineering of any of the same.

(f) "Campus" means the primary and main physical location of a campus where medical research and treatment shall be performed, medical marijuana and the diseases it ameliorates may be cultivated and studied, and headquarters of the Research Board and where the Research Board shall primarily operate, also including but not limited to, the campus selected and developed under land acquisition and land development, and used as the primary physical location for jobs, building and construction, land development, improvements, research, cures and education in Missouri in the endeavor to find cures for presently incurable diseases under this Article XIV.

(g) "Cures" means any and all cures, also including but not limited to, medical treatments, psychiatric and psychological treatments, medications, protocols, therapies, surgeries, genetic material, biologicals, behavioral treatments, clinical trials, laboratory studies, diagnostic tests, evaluations, counseling, treatments, implants, grafts, hardware, orthotics, machines, electronic devices, computers, software programs, studies, and endeavors that help or may help in studying, slowing, curing, eliminating, halting, placing in remission, ameliorating, ending, or regressing any or all presently incurable diseases, targeted diseases, or conditions, illnesses and diseases that are otherwise incurable.

(h) "Designated primary caregiver" means an individual twenty-one (21) years of age or older who has significant responsibility for managing the well-being of a person who has a physician certification and has been designated as such on that person's application for a designated primary caregiver identification card consistent with the regulations of the Research Board.

(i) "Designated primary caregiver identification card" means a card issued by the Research Board to a designated primary caregiver.

(j) "Education" means any and all education, also including but not limited to, teaching, training and education that is, directly or indirectly, necessary, helpful or supportive to jobs, building and construction, land development, campus development, campus improvement, research, jobs and education in Missouri in the endeavor to find cures for incurable diseases.

(k) "Endeavor" means any and all endeavors, also including but not limited to, attempts, quests, searches, championing, pursuit, travel, work, inquiries, treatments, protocols, implementations, and research relating to jobs, building and construction, land development, campus, research and education in Missouri in the effort to find cures for presently incurable diseases.

(l) "In Missouri" means within the geographic boundaries of the State of Missouri as established by law and this Constitution.

(m) "Jobs" means any and all forms of jobs and work pursuant to this Article XIV, also including but not limited to, salaries, consultants and fees, employment of individuals where the work classification is directly or indirectly related to building and construction, land development, campus, research, cures and education in Missouri in the endeavor to find cures for presently incurable diseases.

(n) "Land acquisition" means the acquisition of real and personal property, also including but not limited to investigations, inquiries, studies, plans and review of data to determine five potential locations for land development and acquisition for a campus where jobs will be had, building and construction will occur and research and education in Missouri will take place in the endeavor to find cures for presently incurable diseases and where the Research Board shall be primarily located.

(o) "Land development" means any and all land planning and development, also including but not limited to studies, inquiries, exploration, research, planning, and actual purchase of lands, buildings, real estate and property related to site development and campus, land acquisition, land design and use, covenants, restrictions, and ancillary jobs, building and construction, research and education in Missouri in the endeavor to find cures for presently incurable diseases.

(p) "Local government" means a county or city not within a county, or any city, town or village under Chapters 71-82 RSMo.

(q) "Marijuana" means *Cannabis indica*, *Cannabis sativa*, and *Cannabis ruderalis*, hybrids of such species, and any other strains, including but not limited to extractions, resins, concentrates and infusions, commonly understood within the scientific community to constitute or contain marijuana, and the seeds of such plants. "Marijuana" does not include industrial hemp containing a crop-wide average tetrahydrocannabinol concentration that does not exceed three-tenths of one percent on a dry weight basis, or commodities or products manufactured from industrial hemp, or synthetic marijuana.

(r) "Medical Marijuana Cultivation Facility" means a facility, person or entity, licensed by the Research Board, to cultivate in Missouri, store and transport in Missouri and sell in Missouri, marijuana to a Medical Marijuana Dispensary Facility for sale for medical use or to a Medical Marijuana-Infused/Extraction Products Manufacturing Facility for use and manufacture in marijuana-infused/extraction products for sale to a Medical Marijuana Dispensary Facility for sale for medical use.

(s) "Medical Marijuana Research Cultivation Facility" means a facility, person or entity, licensed by the Research Board, to cultivate in Missouri, store and transport in Missouri and sell in Missouri, marijuana for research purposes or to a Medical Marijuana Dispensary Facility for sale for medical use or to a Medical Marijuana-Infused/Extraction Products Manufacturing Facility for use and manufacture in marijuana-infused/extraction products for sale to a Medical Marijuana Dispensary Facility for sale for medical use, with such Medical Marijuana Dispensary Facilities participating in the research in some fashion directed towards the use of medical marijuana, by voluntary surveys, or otherwise, with qualifying patients who purchase the research cultivated marijuana.

(t) "Medical Marijuana Dispensary Facility" means a facility, licensed by the Research Board, to transport, store and sell in Missouri marijuana or marijuana-infused/extraction products for medical use, as provided in this Article XIV.

(u) "Medical Marijuana-Infused/Extraction Products Manufacturing Facility" means a facility, licensed by the Research Board, to manufacture products which are infused with marijuana or its extracts, or products produced from extracts or derivatives of marijuana, and store and transport marijuana-infused/extraction products in Missouri for sale to a Medical Marijuana Dispensary Facility for sale for medical use.

(v) "Medical use of marijuana" means the production, possession, delivery, transportation, distribution or administration of marijuana, or paraphernalia used to administer marijuana, as necessary for the exclusive benefit of a person to mitigate the symptoms or effects of the person's qualifying medical condition.

(w) "Missouri Resident" means for purposes of this Article XIV that the natural person was physically present and maintained a residence in the state of Missouri for greater than one hundred and eighty (180) days out of any calendar year in question and was legally in both the United States and Missouri during that entire time period.

(x) "Participating research entities" means public, private, quasi-public or quasi-private entities or individuals that enter into contracts with the Research Board for research, building and construction and endeavors to facilitate finding cures for presently incurable diseases.

(y) "Physician certification" means a written document, valid for up to twenty-four (24) months from the date of the authorized physician's signature, signed by an authorized physician, that states in the physician's professional opinion, the qualifying patient suffers from a qualifying medical condition, is likely to receive therapeutic or palliative benefit from the medical use of marijuana to treat or alleviate the patient's qualifying medical condition or symptoms associated with the qualifying medical condition, and that the potential benefits of the medical use of marijuana may outweigh the health risks to the qualifying patient.

(z) "Plant canopy" means the area dedicated to live marijuana plants, such as maintaining mother plants, propagating plants from seed to plant tissue, clones, vegetative or flowering area. Plant canopy does not include areas such as space used for the storage of fertilizers, pesticides, or other products, quarantine, office space, walkways and the like.

(aa) "Presently incurable diseases" means any and all diseases and disorders that are presently as well as in the future determined/classified to be incurable, including but not limited to, illnesses, diseases, ailments, conditions and syndromes that are terminal, fatal, progressive, not necessarily progressive but result in long term and frequently permanent injury, disability or suffering, or such conditions that are not readily or not effectively treatable to a full cure.

(bb) "Qualifying medical condition" means diseases that medical marijuana ameliorates, including but not limited to:

i. cancer,
ii. epilepsy,
iii. multiple sclerosis,
iv. human immunodeficiency virus and acquired immune deficiency syndrome,
v. glaucoma,
vi. intractable migraines unresponsive to other treatment,
vii. a chronic medical condition that causes persistent pain and/or persistent muscle spasms including but not limited to those associated with paralysis, Parkinson's disease, Bell's Palsy, and Tourette's syndrome,
viii. debilitating psychiatric disorders that benefit from medical marijuana and have been treated at some point in the patient's medical history by a physician who has received at least three months or more of training in a psychiatric internship, residency program, or through a continuing education program sponsored by an accredited psychiatric residency program, approved by the Research Board and directed toward the recommendations or use of medical marijuana for psychiatric disorders,
ix. a terminal illness,
x. end stage illness as defined by the Research Board, and
xi. any other diseases that the Research Board determines, based upon reliable data and generally accepted scientific principles, will benefit from treatment with medical marijuana.

(cc) "Qualifying patient" means 1) a patient, eighteen (18) years old or older, with one or more qualifying medical conditions, or 2) a patient, under eighteen (18) years old, with one or more qualifying medical conditions who also has notarized written consent from a parent or legal guardian to use medical marijuana or medical marijuana-infused products, as well as verbal in person consent from a parent or legal guardian to an authorized physician writing the physician certification.

(dd) "Qualifying patient identification card" means a card issued by the Research Board for a qualifying patient with a valid physician certification.

(ee) "Research" means any and all research and development, also including but not limited to, teaching, training, studies, analysis, evaluations, and education that is, directly or indirectly, necessary, helpful or supportive to discovering, implementing, or finding cures, and studies for cures of illnesses and diseases that are presently incurable diseases and ancillary jobs, building and construction, research and education in Missouri in the endeavor to find cures for presently incurable diseases.

(ff) "Research Board" means the Board of the Biomedical Research and Drug Development Institute.

(gg) "Rule" or "Rules" has the meaning in this article as it does in Section 536.010 of RSMo.

(hh) "Secondary Campus" means Research Board discretionary secondary physical locations, including but not limited to building and construction of such secondary campuses that will operate in collaboration with any accredited medical or pharmacy school located within Missouri under this Article XIV, section 5, and used for jobs, building and construction, research, cures, and education in Missouri in the endeavor to find cures for presently incurable diseases under this Article XIV.

(ii) "Shall" means must in this Article XIV.

(jj) "Targeted Disease(s)" means any and all presently incurable diseases that are, or may be, specifically identified or singled out, or otherwise isolated, whether by type, sub-type, sub-sub-type, and to show by example: breast cancer, or interlobular breast cancer, or estrogen positive breast cancer, or estrogen negative interlobular breast cancer, or poorly differentiated estrogen positive interlobular breast cancer, etc.; or leukemia or chronic lymphocytic leukemia or acute lymphocytic leukemia, or acute lymphocytic leukemia with certain genetic markers, or chronic myelogenous leukemia, etc.; or Parkinson's disease, or early onset Parkinson's disease, etc.; or endogenous depression, or depression secondary to bipolar disorder, etc.

Section 3. Research Board and Duties.

(a) There is hereby created and established as a governmental instrumentality of the State of Missouri the "Biomedical Research and Drug Development Institute" which shall constitute a body corporate and politic and operate pursuant to this Article XIV. The Biomedical Research and Drug Development Institute shall exist on a campus established by building and construction on land acquired and land developed pursuant to this Article. On this Biomedical Research and Drug Development Institute campus research shall be performed in the endeavors to find cures for presently incurable diseases. The Biomedical Research and Drug Development Institute shall have located on its campus targeted disease research groups to further this research.

(b) "Biomedical Research and Drug Development Institute" shall be governed by the "Board of Biomedical Research and Drug Development" hereafter "Research Board".

(c) It is expressly directed and permitted that the "Biomedical Research and Drug Development Institute" and the "Research Board" shall not be assigned to any Missouri Department but rather shall be an independent institute existing and operating pursuant to this Article XIV under the direction of the Research Board.

(d) In the event Section 3 subsection (c) of this Article XIV is contrary to existing superseding constitutional law the "Biomedical Research and Drug Development Institute" and "Research Board" shall be transferred by operation of Article IV section 12 to a department, then they shall be assigned to the Department of Health and Senior Services with supervision of the department extending only to budgeting and reporting as provided by subdivisions (4) and (5) of subsection 6 of section 1 of the Reorganization Act of 1974. Supervision by the department shall not extend to matters relating to policies, regulatory functions or other matters specifically entrusted to the Research Board by this Article XIV, and neither the director of the department nor any employee of the department shall, directly or indirectly, interfere with the activities of the Research Board or the research provided by this Article XIV.

(e) The Research Board is charged by the people of the State of Missouri to effectuate this Article XIV, to find cures for currently incurable diseases, and to the extent reasonably practicable generate income pursuant to this Article XIV to the State of Missouri with such cures.

(f) It is the duty of the Research Board to promulgate rules in accordance with the provisions of this Article, and to effectuate the provisions of this Article. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this article shall become effective only if it complies with and is subject to all of the provisions of chapter 536 RSMo.

i. For purposes of only rule making and adjudicated cases, as defined in RSMo 536.010, the Research Board is an agency who is subject to chapter 536 RSMo, except;

ii. For purposes of adjudicated cases as defined in 536.010, the Research board is not subject to chapter 536 RSMo if it has established written procedures to assure that constitutionally required due process safeguards exist and apply to proceedings that would otherwise constitute a contested cases as defined in section 536.010 RSMo.

(g) Any member of a Board established by this Article XIV may be removed for cause by a vote of three fourths of both the Missouri House of Representatives and Senate, with the concurrence of the Governor.

(h) The Research Board shall issue, renew, regulate, restrict, and revoke licenses for marijuana facilities, including but not limited to Medical Marijuana Cultivation Facilities, Medical Marijuana Research Cultivation Facilities, Medical Marijuana-Infused/Extraction Products Manufacturing Facilities, and Medical Marijuana Dispensary Facilities, and issue, renew, regulate, restrict, and revoke qualifying patient identification cards and designated primary caregiver cards.

(i) The Research Board shall issue rules for licensure of marijuana facilities, including but not limited to procedures for:

i. issuing, renewing, regulating, restricting and revoking licenses for Medical Marijuana Cultivation Facilities, Medical Marijuana Research Cultivation Facilities, Medical Marijuana-Infused/Extraction Products Manufacturing Facilities, and Medical Marijuana Dispensary Facilities,

ii. the issuance, renewal, regulating, restricting and revocation of qualifying patient identification cards and designated primary caregiver identification cards, and

iii. the creation of a confidential qualifying patient, confidential cultivation location and confidential designated primary caregiver registry. Patients may be issued confidential patient identification numbers for purposes of identity protection and medical marijuana sales. The purpose of the regulations within this subsection is to ensure the availability and safe confidential use of marijuana by qualifying patients.

(j) The Research Board shall develop rules whereby the denial or revocation of a license, license renewal, identification card or other adverse action by the Research Board shall be:

i. appealable to the Administrative Hearing Commission and otherwise subject to judicial review as provided by law, or

ii. subject to Biomedical Research and Drug Development Institute established written procedures to assure that constitutionally required due process safeguards exist and apply to such a denial, revocation, or adverse action of the Research Board.

(k) The Research Board shall consist of nine members to be selected, as soon as practicable, by the Article XIV Coordinator as set forth in this Article XIV, one of whom shall be selected by the Article XIV Coordinator as Research Chairperson. The Article XIV Coordinator shall serve as Research Chairperson until the nine members are selected, at which time the Article XIV Coordinator is terminated from the Research Board. The members of the Board, other than the temporary "then existing Research Board" in section 3(t), selected by the Article XIV Coordinator shall serve the following terms: four shall serve three years, and five, including the Research Chairperson, shall serve six years. Thereafter, each appointment shall be for a term of six years. Upon conclusion of the Research Chairperson's first term, or vacancy, whichever comes first, the Research Board shall choose from within their members a Research Chairperson. If for any reason a vacancy occurs, the Research Chairperson shall appoint a new member to fill the unexpired term. Members are eligible for up to four reappointments. Although members of the Research Board and Article XIV Coordinator may hold other employment, no member of such Research Board shall hold any public office, and no member shall hold any official position in a political party.

i. It is expressly directed and permitted that the person who is designated on the initially submitted Initiative Petition Submission Cover Page to be the contact person to whom any notices shall be sent under sections 116.140 and 116.180 RSMo for the initiative petition filed for this Article XIV pursuant to RSMo 116.100 and 116.332, shall serve as the Article XIV Coordinator.

ii. If the person who is designated on the initially submitted Initiative Petition Submission Cover Page to be the contact person to whom any notices shall be sent under sections 116.140 and 116.180 RSMo for the initiative petition filed for this Article XIV pursuant to RSMo 116.100 and 116.332 for any reason does not serve as the Article XIV Coordinator the Governor shall appoint an individual who is both a licensed Missouri physician and licensed Missouri attorney, but if no such person is available or accepts the appointment, then any Missouri resident who also holds a Missouri license to practice medicine and a PhD in Biology, Chemistry, Biochemistry, Physics, Genetics, Anatomy or equivalent degree, from an accredited university that has been in existence at least fifty (50) years.

iii. The Article XIV Coordinator shall serve without compensation but shall receive reimbursement for all expenses associated with the performance and delegation of all duties pursuant to this Article XIV, and shall have two administrative assistants who shall each be paid out of the General Purpose Account at the rate of a Missouri State Representative, so long as there are funds available. If no funds are immediately available, the administrative assistants may serve with deferred compensation until funds are available and when funds become available the administrative assistants shall be paid the full compensation owed, as shall the expenses of the Article XIV Coordinator be reimbursed.

(l) Five members of the Research Board shall constitute a quorum. No vacancy in the membership of the Board shall impair the right of a quorum to exercise all the rights and perform all the duties of the Board. The Research Board may act only by the concurrence of a majority of a quorum, with such quorum meeting in person when practicable but by video teleconference or similar means when approved by a majority of the quorum. Failure to regularly and frequently participate in Board business shall be grounds for dismissal from the Board upon a vote of six members of the Board.

(m) The Research Board is hereby granted, has and may exercise all powers necessary or appropriate to implement, carry out, enforce and effectuate its purpose, and the purposes of this Article XIV including but not limited to the following:

i. To make, purchase or participate in the purchase of property;

ii. Adopt bylaws for the regulation of its affairs and the conduct or discharge of its business and define terms so as to reasonably and effectively carry out the purpose of this Article XIV;

iii To accept appropriations, gifts, grants, bequests, and devises and to utilize or dispose of the same to carry out its purpose;

iv. To make and execute contracts, releases, compromises, and other instruments necessary or convenient for the exercise of its powers, or to carry out its purpose;

v. To sue and be sued;

vi. To have a seal and alter the same at will;

vii. To make, promulgate and from time to time, amend and repeal rules;

viii. To perform all administrative duties necessary or that reasonably assist in the discharge and conduct of its business as defined in this Article, including, but not limited to, the formation of committees and subcommittees and the delegation of its authority, to the extent permitted by law, to such committees and subcommittees.

ix. To form advisory panels of licensed cultivators, infusers/extractors, and dispensaries;

x. To acquire, hold, lease, sell and dispose of personal property for its purpose;

xi. To sell, at public or private sale, any mortgage, negotiable instrument or obligation securing building and construction or land development;

xii. To enter into agreements or other transactions with any federal or state agency, international entity, any person or any domestic or foreign partnership, corporation, association or organization;

xiii. To acquire real property, or an interest therein, in its own name, to hold, not sell, and may lease for up to 100 years and one option to renew up to another 100 years such property to a tenant to develop, for building and construction, and to manage and operate such property, to enter into management contracts with respect to such property and to mortgage such property;

xiv. To procure insurance against any loss in connection with its property in such amounts, and from such insurers, as may be necessary or desirable;

xv. To develop a retirement or pension plan for employees, staff and board members working for the Research Board or the Biomedical Research and Drug Development Institute;

xvi. To issue and sell revenue bonds to fund any purpose authorized by this Article. Any bonds issued under the provisions of this Article shall not be deemed to be an indebtedness of the State of Missouri or of any political subdivision thereof, and shall not be deemed to be an indebtedness within the meaning of any constitutional or statutory limitation upon the incurring of indebtedness. The proceeds of the sale or sales of any bonds issued hereunder shall be paid into the state treasury and be credited to a fund to be designated the "Biomedical Research and Drug Development Institute Trust Fund". The bonds shall be retired serially and by installments within a period not to exceed twenty-five years from their date of issue and shall bear interest at a rate or rates not exceeding the rate permitted by law.

(n) The Research Board shall charge fees for each applicant for each license to operate a Medical Marijuana Cultivation Facility, Medical Marijuana Research Cultivation Facility, Medical Marijuana Dispensary Facility or Medical Marijuana-Infused/Extraction Products Manufacturing Facility as follows: 1. Except for Medical Marijuana Research Cultivation Facilities, a non-refundable $25,000 application fee for each type of facility which shall constitute the licensure fee for the first year of licensure; 2. For Medical Marijuana Research Cultivation Facilities a non-refundable $5,000 application fee which shall constitute the licensure fee for the first year of licensure and, in addition 3. For each type of facility in each subsequent licensure year, a fee equal to 125% of the pro-rata estimated average yearly cost to the Research Board of administrating and enforcing this Article XIV application and licensing process, estimated over a five (5) year period, divided equally among all applicants based on the yearly estimated number of applicants for such licenses over the same five (5) year period, as reasonably estimated by the Research Board.

(o) The Research Board shall set a limit on the amount of marijuana that may be purchased per month, provided that limit is not less than three (3) ounces every thirty (30) days of dried unprocessed marijuana or its extract equivalent as reasonably determined by the Research Board. A requested waiver of any such limit may be reviewed by the Research Board for a qualifying patient with written certification from two physicians, not of the same clinic, setting forth compelling reasons for additional amounts requested.

(p) The Research Board shall restrict the number of licenses granted for Medical Marijuana-Infused/Extraction Products Manufacturing Facilities within the state of Missouri to a total of not less than fifty (50) licenses. Upon the written request of a local government to the Research Board for an exception to increase the specific number of available licenses within that local government, above the restriction, such exception for a specific number of licenses may be granted by the Research Board for such licenses. Alternatively, upon the written request of local government for an exception to exclude local government from Medical Marijuana-Infused/Extraction Products Manufacturing Facilities, the Research Board may provide such a requesting local government a five (5) year exclusion, which thereafter may be reconsidered by the Research Board for renewal every five (5) years if the local government has placed the matter to a vote of the local government population and such vote resulted in a majority vote for a continued ban upon infused/extraction products facilities.

(q) The Research Board shall restrict the number of licenses granted for Medical Marijuana Dispensary Facilities within each county or city not within a county to two (2) for every twenty thousand (20,000) inhabitants. If a county or city not within a county has fewer than twenty thousand (20,000) inhabitants, the Research Board may restrict the number of licenses granted for Medical Marijuana Dispensary Facilities to two (2). Upon the written request of a local government to the Research Board for an exception to increase the specific number of available licenses within that local government, above the restriction, such exception for a specific number of licenses may be granted by the Research Board for such licenses. Alternatively, upon the written request of a local government for an exception to exclude local government from Medical Marijuana Dispensary Facilities, the Research Board may provide such a requesting local government a five (5) year exclusion, which thereafter may be reconsidered by the Research Board for renewal every five (5) years if the local government has placed the matter to a vote of the local government population and such vote resulted in a majority vote for a continued ban upon dispensaries.

(r) The Research Board may restrict the number of licenses granted for Medical Marijuana Cultivation Facilities within the state of Missouri to a total of not less than fifty (50) licenses, and the number of Medical Marijuana Research Cultivation facilities to a total of not less than four hundred (400) licenses. If the number of licenses is restricted by the Research Board, upon the written request of a local government to the Research Board for an exception to increase the specific number of available licenses within that local government, above the restriction, such exception for a specific number of licenses may be granted by the Research Board for such licenses. Alternatively, upon the written request of a local government for an exception to exclude local government from Medical Marijuana Cultivation Facilities and Medical Marijuana Research Cultivation Facilities, the Research Board may provide such a requesting local government a five (5) year exclusion, which thereafter may be reconsidered by the Research Board for renewal every five (5) years if the local government has placed the matter to a vote of the local government population and such vote resulted in a majority vote for a continued ban upon cultivation.

(s) The initial nine members of the Research Board shall have their compensation set as the annual salary received by the Missouri Supreme Court Chief Justice. Thereafter, for new members of the Board, the compensation shall be an amount agreed upon by at least one half of the Research Board, and approved by the Governor, but not less than the annual salary received by the Missouri Supreme Court Chief Justice. Upon further years of service, the compensation shall be increased every three years by the greater of a cost of living increase based upon the Consumer Price Index (CPI), or successor index as published by the U.S. Board of Labor or its successor agency, or at a raised amount agreed upon unanimously by the Research Board and approved by the Governor.

(t) A nonpartisan scientific nominating committee, hereafter nonpartisan commission, of five (5) individuals shall review applications, interview candidates and for each vacancy in the Research Board and shall select a panel of four (4) individuals from which the Research Chairperson shall appoint as member(s) of the Research Board. The five individuals on the nonpartisan commission members shall be elected from the combined pool of licensed Missouri physicians and pharmacists as set out in this subsection (t). Residents of the State of Missouri who are licensed Missouri physicians or licensed Missouri pharmacists and living in the State of Missouri at least six (6) months over the twelve (12) months before the election in this subsection (t) shall elect a grand total of five individuals from the combined pool of licensed Missouri physicians and pharmacists to serve as members of said nonpartisan commission. Each member shall serve four (4) year terms except that from the initial election of members of the nonpartisan commission, the three (3) with the lowest number of votes shall be elected to two (2) year terms, and the other two (2) members which shall be elected to a four (4) year term, and the members of the nonpartisan commission shall select one of their number to serve as chairperson. No member of the nonpartisan commission shall hold any public office, and no member shall hold any official position in a political party. The nonpartisan commission may act only by the concurrence of a majority of its members. The members of such nonpartisan commission shall receive a salary equal to that of an elected state senator as compensation for their services and they shall receive their necessary traveling and other expenses incurred while actually engaged in the discharge of their official duties. Except as provided otherwise in this Article XIV, any and all such nonpartisan commissions shall be governed, and all nonpartisan commission elections provided for under this section shall be held by, and regulated under, such rules as a panel of three retired Missouri judges appointed by the Research Chairperson, or Article XIV Coordinator prior to the Research Chairperson, shall promulgate. Said rules shall be presented to the Research Chairperson who shall file such rules with the secretary of state on behalf of the Research Board within twenty-one (21) days of receiving them from the three judge panel. The three judge panel shall be compensated the standard rate of retired senior judges paid out of the General Purpose Account during the weeks in which they perform work. Pending selection and appointment that will fill the Research Board, the Article XIV Coordinator shall appoint four (4) temporary acting members and the Governor shall appoint four (4) temporary acting members who together with the Article XIV Coordinator shall be the "then existing Research Board" and shall have the power and duties of the Research Board until such member positions are otherwise filled pursuant to this Article. Those temporary members shall serve at the same rate as Research Board members so long as there are funds available. If no funds are immediately available, the members may serve with deferred compensation until funds are available and when funds become available the members shall be paid for time served from appointment, and for their reasonable expenses incurred to effectuate their duties.

(u) Applications for vacancies in the Research Board are permitted by any licensed physician or licensed pharmacist residing in the State of Missouri for at least three years prior to their application who also holds a PhD in Biology, Chemistry, Biochemistry, Physics, Genetics, Anatomy, Biomedical Engineering, Neuroscience, a Juris Degree, or equivalent degree who may submit an application to the nonpartisan commission for consideration. Additionally, any citizen of the United States, or Nobel Laureate in the field of medicine or science with permanent residence in the United States, who also holds a PhD in Biology, Chemistry, Biochemistry, Physics, Genetics, Anatomy, Biomedical engineering, Neuroscience, a Juris Degree, or equivalent degree, from an accredited university that has been in existence at least fifty (50) years, upon nomination of a Dean of the School of Medicine of the University of Missouri – Columbia, Kansas City, St. Louis, St. Louis University, or Washington University in St. Louis, or upon nomination of a member of the Missouri State Senate may submit their application to the nonpartisan commission for consideration.

(v) The Research Board shall establish targeted diseases research groups, hereafter research groups, aimed at research, finding cures, and endeavors for fighting specific targeted diseases consistent with the purpose of the charge of this Article XIV. Specific targeted diseases shall be identified by the Research Board, and such targeted diseases may be identified for receiving segregated donations and contributions before and after the targeted disease research group is established. Research groups shall be governed by a panel of not less than three (3) individuals and not more than seven (7), chosen by the Research Board, who shall oversee, supervise, steer, and regulate the group's research to find cures. Individuals on the Research Board may sit on up to four (4) targeted disease group governing panels. Research group panel members, except for Research Board members who shall receive no additional compensation, shall have their compensation set as the annual salary determined by the Research Board, but in no event less than 70% of the annual compensation of the Missouri Supreme Court Chief Justice. When a targeted disease group governing panel includes five (5) or more members, up to two (2) of those members may be non-compensated non-voting advisory members of a 501c3 charitable organization(s) that has demonstrated a commitment, as determined by the Research Board, to finding a cure for the targeted disease.

(w) Members of the Research Board, except as allowed under this Article XIV, shall not enter into any personal financial or business relationships with a Section 10 participating research entity, other than in an accredited university faculty position, during the member's tenure on the Research Board, and for a period of two (2) years after that member's tenure on the Research Board ends. Further a Research Board member shall never steer research outcomes to or toward a particular direction or goal with the purpose of helping a private company for personal or for family financial gain. Nothing in this subsection shall prohibit or prejudice a board member or Article XIV Coordinator from entering into any employment, financial or business relationship so long as such does not steer or influence Article XIV research toward a particular research result/outcome for personal financial gain.

(x) The monies, including but not limited to all revenues and taxes generated, obtained and distributed under this Article XIV, and all other monies generated, obtained, and distributed under this Article XIV shall not be included within the definition of "total state revenues" as that term is used in section 17 of Article X of this constitution nor be considered as an "expense of state government" as that term is used in section 20 of article X of this constitution.

(y) The Research Board shall establish a public website for transmission and receipt of information to and from the public.

(z) Within ninety (90) days of the effective date of this Article XIV if practicable, but in no event shall the time exceed six (6) months after the effective date of this Article XIV, the Research Board shall make available to the public license application forms and application instructions for Medical Marijuana Cultivation Facilities, Medical Marijuana Research Cultivation Facilities, Medical Marijuana Dispensary Facilities, and Medical Marijuana-Infused/Extraction Products Manufacturing Facilities.

(aa) Within ninety (90) days of the effective date of this Article XIV if practicable, but in no event shall the time exceed six (6) months after the effective date of this Article XIV, the Research Board shall make available to the public application forms and application instructions for qualifying patient and primary caregiver identification cards. Within one hundred and twenty (120) days of the effective date of this Article XIV, if practicable, but in no event more than eight (8) months after the effective date of this Article XIV, the Research Board shall begin accepting applications for such identification.

Section 4. Licensure, Taxation and Reporting.

(a) A cultivation tax is hereby imposed on each wholesale sale in Missouri by a Medical Marijuana Cultivation Facility and Medical Marijuana Research Cultivation Facility to a Medical Marijuana-Infused/Extraction Products Manufacturing Facility, and a Medical Marijuana Cultivation Facility and Medical Marijuana Research Cultivation Facility to a Medical Marijuana Dispensary Facility, at a rate for marijuana flowers of nine dollars and twenty five cents ($9.25) per dry-weight ounce, and the tax rate for marijuana leaves shall be set at two dollars and seventy five cents ($2.75) per dry-weight ounce, with such rate to be increased or decreased each year by the percentage of increase or decrease of the Consumer Price Index (CPI), or successor index as published by the U.S. Board of Labor or its successor agency.

i. For all wholesale sales of marijuana, a receipt must be given by the seller which identifies all the parties involved in the sale, all amounts and types of marijuana involved in the sale and the total amount of money involved in the sale, including itemizations and grand total sale amounts.

(b) A tax is hereby imposed on each retail sale in Missouri of Marijuana and Marijuana Infused/Extraction products by a Medical Marijuana Dispensary Facility at a rate of fifteen percent (15%) of the purchase price paid or charged, or in case such sale involves the exchange of property, to fifteen percent (15%) of the consideration paid or charged, including the fair market value of the property exchanged at the time and place of the exchange.

i. The tax must be collected by the Medical Marijuana Dispensary Facility and paid to the Department of Revenue within thirty (30) days of the retail sale.

ii. For all retail sales of marijuana, a receipt must be given by the seller which identifies all the parties involved in the sale, all amounts and types of marijuana involved in the sale and the total amount of money involved in the sale, including itemizations and grand total sale amounts. The seller of the product must issue a copy of the receipt to the Department of Revenue or be subject to an automatic penalty up to $100 per-occurrence; failure to submit such receipts may further subject a seller to prohibition on obtaining a future license for Medical Marijuana Cultivation, a Medical Marijuana Dispensary Facility, or a Medical Marijuana-Infused/Extraction Products Manufacturing Facility, for a minimum of 30 days to a maximum of life, and if a non-human entity a maximum of forever.

(c) Subject to the limitations within this Article a person who is a Missouri resident for three or more years, or entity that is registered to do business in the State of Missouri and owned at least seventy percent (70%) or more by three year or longer duration Missouri residents, may apply for and obtain from the Research Board a license to operate a Medical Marijuana Cultivation Facility or Medical Marijuana Research Cultivation Facility in Missouri.

i. Such person or entity may apply to the Research Board for and obtain:

a. A yearly Medical Marijuana Cultivation Facility license to grow marijuana. Each such license shall be valid for growing marijuana in up to twenty thousand (20,000) square feet of plant canopy. Each such license shall be taxed at an initial rate of $25,000 for the first year per license (which must be by money order, cashier's check, or other means as determined by the Research Board and accompany the application and will be returned if the application is unsuccessful) and then annually at $15,000 per license upon renewal; or

b. A yearly Medical Marijuana Research Cultivation Facility license to grow marijuana. Each such license shall be valid for growing marijuana in up to two thousand five hundred (2,500) square feet of plant canopy. Each such license shall be taxed at an initial rate of $10,000 for the first year per license (which must be by money order, cashier's check, or other means as determined by the Research Board and accompany the application and will be returned if the application is unsuccessful) and then annually at $5,000 per license upon renewal.

c. Such licenses may be renewed each year, and rates for both licenses may be increased or decreased each year by the percentage of increase or decrease of the Consumer Price Index (CPI), or successor index as published by the U.S. Board of Labor or its successor agency.

d. No more than three Medical Marijuana Cultivation Facility licenses shall be issued to or possessed by any individual, group of individuals, or entity(s) under substantially common control, ownership, or management, whether directly, indirectly or by derivative.

e. No more than five Medical Marijuana Research Cultivation Facility licenses shall be issued to or possessed by any individual, group of individuals, or entity(s) under substantially common control, ownership, or management, whether directly, indirectly or by derivative.

ii. When there are more applications for licenses than are available, except as stated in 4(c)ii.a. of this subsection immediately below, licenses shall be on the basis of competitive bids (such bids must be by money order, cashier's check, or other means as determined by the Research Board, and accompany the application and will be returned if the bid is unsuccessful), with licenses awarded to the highest bidder. Such bids shall be made in a manner prescribed by the Research Board to avoid disclosure of bid amounts to competing bidders during the bidding process.

a. The Research Board may set aside up to 50% of the Medical Marijuana Cultivation Facility licenses and 50% of the Medical Marijuana Research Cultivation Facility licenses to be awarded based upon a ranking using the following factors: site security, including capacity for ease of cultivation, experience with understanding the medicine and law surrounding the cultivation and use of medical marijuana, experience with agriculture, horticulture, health care and the cannabis market, and sufficient available capital to maximize probable success; acceptance in the site community; business plan for

Medical Marijuana Cultivation Facility licenses and business plan plus research plan for Medical Marijuana Research Cultivation Facility licenses; potential for positive economic impact in the site community and maintaining competitiveness in the marijuana for medical use marketplace. In ranking applicants and awarding licenses, the Research Board may consult with or contract other public agencies with relevant expertise regarding these factors. The Research Board may lift or ease any limit on the number Medical Marijuana Cultivation Facilities and Medical Marijuana Research Cultivation Facilities to meet the demand for medical marijuana by qualifying patients and research.

iii. Marijuana must be grown indoors in an enclosed, locked facility: a room, warehouse or greenhouse, or other enclosed area equipped with locks or other security devices that permit access only by authorized personnel, meeting the Research Board standards and industry standards for safety and safe use of electricity.

iv. Upon request to the Research Board, state institutions of higher education governed by sections 174.020 to 174.500 Revised Statutes of Missouri and chapter 172 Revised Statutes of Missouri shall be granted, without charge, up to one (1) medical marijuana research cultivation facility license per institution per year to grow marijuana.

v. Upon request to the Research Board by an entity operating under authority of section 10 of this Article XIV, the Research Board may grant, without charge, up to one (1) medical marijuana research cultivation facility license to a total of no more than ten (10) such entities for purposes of researching the benefits of medical marijuana for various presently incurable diseases.

vi. Initial applications for licenses shall be accepted beginning no more than seven (7) months after the effective date of this Article. The initial application period shall remain open for ninety (90) days.

vii. After the initial application period, when one or more licenses become available, the opening shall be published on the Research Board's website for ninety (90) days, at the close of which an additional application period of ninety (90) days shall immediately commence.

(d) Subject to the limitations within this Article a person who is a Missouri resident for three or more years, or entity that is registered to do business in the State of Missouri and owned at least seventy percent (70%) or more by three year or longer duration Missouri residents, may apply for and obtain a license to operate a Medical Marijuana Dispensary Facility in Missouri. Such person or entity may apply to the Research Board for and obtain a yearly Medical Marijuana Dispensary Facility license to sell marijuana or marijuana-infused/extraction products for medical use within a county or city not within a county. Each such license shall be taxed at an initial rate of $25,000 for the first year per license (which must be by money order, cashier's check, or other means as determined by the Research Board and accompany the application and will be returned if the application is unsuccessful) and then annually at $10,000 per license upon renewal, with such rates to be increased or decreased each year by the percentage of increase or decrease of the Consumer Price Index (CPI), or successor index as published by the U.S. Research Board of Labor or its successor agency.

i. No more than five (5) Medical Marijuana Dispensary Facility licenses shall be issued to or possessed by any one individual, group of individuals, or entity(s) under substantially common control, ownership, or management, whether directly, indirectly or by derivative, nor shall such one individual, group of individuals, or entity ever possess more than fifty percent (50%) of the licenses for a given county or city not within a county.

ii. When there are more applications for licenses than are available, in total or for particular locations, except as stated in 4(d)ii.a, licenses shall be on the basis of a three prong test established by the board, 1) knowledge of pharmacy and ability to have a pharmacist available for consultation to qualifying patients purchasing marijuana, 2) knowledge of medicine and medical research, and 3) competitive bids (such bids must be by money order, cashier's check, or other means as determined by the Research Board, and accompany the application and will be returned if the bid is unsuccessful), with licenses awarded to the individual, individuals or entities with the highest score. Such bids shall be made in a manner prescribed by the Research Board to avoid disclosure of bid amounts to competing bidders during the bidding process.

a. The Research Board may set aside up to 50% of the Medical Marijuana Dispensary Facility licenses to be awarded based upon a ranking using the following factors: knowledge of pharmacy, knowledge of neuroscience and marijuana interactions, site security, experience with understanding the medicine and law surrounding the use of medical marijuana, experience with retail pharmacy, health care and the cannabis market, business plan, and sufficient available capital to maximize probable success; acceptance in the site community; potential for positive economic impact in the site community and maintaining competitiveness in the marijuana for medical use marketplace. In ranking applicants and awarding licenses, the Research Board may consult with or contract other public agencies with relevant expertise regarding these factors.

iii. Initial applications for licenses shall be accepted beginning no more than seven (7) months after the effective date of this Article. The initial application period shall remain open for ninety (90) days.

iv. After the initial application period, when one or more licenses become available, the opening shall be published on the Research Board's website for ninety (90) days, at the close of which an additional application period of ninety (90) days shall immediately commence.

(e) Subject to the limitations within this Article a person who is a Missouri resident for three or more years, or entity that is registered to do business in the State of Missouri and owned at least seventy percent (70%) or more by three year or longer duration Missouri residents, may apply for and operate a Medical Marijuana-Infused/Extraction Products Manufacturing Facility in Missouri. Such person or entity may apply to the Research Board for and obtain a yearly Medical Marijuana-Infused/Extraction Manufacturing Products Facility

a license to buy marijuana from Medical Marijuana Cultivation Facility or Medical Marijuana Research Cultivation Facility and sell medical marijuana-infused/extracted products to a Medical Marijuana Dispensary Facility. Each such license shall be taxed at an initial rate of $20,000 for the first year per license (which must be by money order, cashier's check, or other means as determined by the Research Board and accompany the application and will be returned if the application is unsuccessful) and then annually at $10,000 per license upon renewal, with such rates to be increased or decreased each year by the percentage of increase or decrease of the Consumer Price Index (CPI), or successor index as published by the U.S. Research Board of Labor or its successor agency.

i. No more than five (5) Medical Marijuana-Infused/Extraction Products Manufacturing Facility licenses shall be issued to or possessed by any one individual, group of individuals, or entity(s) under substantially common control, ownership, or management, whether directly, indirectly or by derivative, nor shall such one individual, group of individuals, or entity ever possess more than fifty percent (50%) of the licenses for a given county or city not within a county.

ii. When there are more applications for licenses than are available, except as stated in 4(e)ii.a, licenses shall be on the basis of competitive bids (such bids must be by money order, cashier's check, or other means as determined by the Research Board, and accompany the application and will be returned if the bid is unsuccessful), with licenses awarded to the highest bidder. Such bids shall be made in a manner prescribed by the Research Board to avoid disclosure of bid amounts to competing bidders during the bidding process.

a. The Research Board may set aside up to 50% of the Medical Marijuana Dispensary Facility licenses to be awarded based upon a ranking using the following factors: site security, experience with understanding the medicine and law surrounding the use of medical marijuana, experience with retail pharmacy, health care and the cannabis market, business plan, and sufficient available capital to maximize probable success; acceptance in the site community; potential for positive economic impact in the site community and maintaining competitiveness in the marijuana for medical use marketplace. In ranking applicants and awarding licenses, the Research Board may consult with or contract other public agencies with relevant expertise regarding these factors.

iii. Initial applications for licenses shall be accepted beginning no more than seven (7) months after the effective date of this Article. The initial application period shall remain open for ninety (90) days.

iv. After the initial application period, when one or more licenses become available, the opening shall be published on the Research Board's website for ninety (90) days, at the close of which an additional application period of ninety (90) days shall immediately commence.

(f) A qualifying patient must obtain annually a qualifying patient identification card from the Research Board and shall be taxed at an annual rate of $100 per issuance, with such rate to be increased or decreased each year by the percentage of increase or decrease of the Consumer Price Index (CPI), or successor index as published by the U.S. Board of Labor or its successor agency. Upon application for a qualifying patient identification card, the Research Board must, within thirty (30) days, provide either the card or a written explanation for its denial of the card. It shall not be grounds for denial that use of medical marijuana is not approved under federal law.

(g) A designated primary caregiver must obtain annually a designated primary caregiver identification card from the Research Board for each designated qualifying patient and shall be taxed at an annual rate of $100 per issuance, with such rate to be increased or decreased each year by the percentage of increase or decrease of the Consumer Price Index (CPI), or successor index as published by the U.S. Board of Labor or its successor agency. Upon application for a designated primary caregiver identification card, the Research Board must, within thirty (30) days, provide either the card or a written explanation for its denial of the card. It shall not be grounds for denial that use of medical marijuana is not approved under federal law.

(h) Marijuana in Missouri for retail sale may only be sold by a licensed Medical Marijuana Dispensary Facility.

(i) No Medical Marijuana Cultivation Facility, Medical Marijuana Dispensary Facility, or Medical Marijuana-Infused/Extraction Products Manufacturing Facility shall assign, sell, give, lease, sublease, or otherwise transfer its license to any other individual or entity for at least five (5) years from the time of the initial application by the licensee, and then not without the express consent of the Research Board, not to be unreasonably withheld. Licenses are transferable upon death by will or inheritance.

(j) No taxes or fees shall be imposed on the sale of medical marijuana except as provided in this Article.

(k) In event subsection (j) of this section 4, immediately above, is found unconstitutional, the taxes imposed pursuant to this section are separate from and in addition to any general state and local sales and use taxes that apply to retail sales of tangible personal property.

(l) All revenues collected from the taxes imposed on the sale of marijuana pursuant to this section must be deposited in the Biomedical Research and Drug Development Institute Trust Fund. All revenues and taxes collected from the issuance of licenses to Medical Marijuana Cultivation Facilities, Medical Marijuana Research Cultivation Facilities, Medical Marijuana-Infused/Extraction Products Manufacturing Facilities, and Medical Marijuana Dispensary Facilities, except as provided elsewhere in this Article XIV, must likewise be deposited in the Biomedical Research and Drug Development Institute Trust Fund.

Section 5. Trust Fund

(a) The "Biomedical Research and Drug Development Institute Trust Fund" is hereby established in the state treasury. Within the Biomedical Research and Drug Development Institute Trust Fund shall be the following accounts which include but are not necessarily limited to:

i. General Purpose Account;
ii. Land Acquisition Account;
iii. Targeted Diseases Account and its sub-accounts; and
iv. Section 10 Account.

(b) Except for repayment of bonds under this Section 5, subsection b, which shall be paid first, at the conclusion of each fiscal year, the state treasurer shall allocate all monies in the Biomedical Research and Drug Development Institute Trust Fund that are not otherwise in an account to the Research Board for disbursement and investment as directed in this section. During the first five (5) years, the monies shall be deposited 50% into the General Purpose Account, 25% into the Land Acquisition Account and 25% into the targeted disease account. Thereafter the Research Board shall direct the percentage of money to be deposited into each account. Monies deposited in the fund shall include but are not limited to the designated funds received from sections 4, 5 and 10 of Article XIV, money transferred from the Research Board and any other amounts which may be received from grants, gifts, devises, bequests, contributions, donations, and money from contracts, from the state or federal government, derivative of intellectual property rights, or any other source. Monies in the fund shall be used solely for the purposes established by this Article XIV.

(c) Monies deposited into the General Purpose Account shall be used for research, presently incurable diseases, targeted diseases, building and construction, the campus, cures, endeavors, jobs, payment and compensation for jobs, administrative expenses, and education in Missouri pursuant to the performed pursuant to this Article XIV. Up to 10% of the annual General Purpose Account may be allocated by the Board to various universities in the State of Missouri with accredited medical or pharmacy schools, or currently existing at the time of passage of this Article XIV independently accredited medical or pharmacy schools within the State of Missouri, for collaborative efforts pursuant to section 10 of Article XIV, and to the development of secondary campuses in Missouri at these in-state universities with accredited medical schools and pharmacy schools, plus up to a further 5% annually maybe allocated for research purposes to various such universities who have developed, or have in the past 12 months before passage of this Article XIV been actively taking steps to develop, including but not limited to providing classes that will count as credit for, graduate programs in biomedical engineering and neuroscience. Additionally, up to 10% more of the General Purpose Account may be allocated by the Research Board to various joint collaborative in-Missouri/non-Missouri research efforts pursuant to section 10 of Article XIV, and up to 2% more of the General Purpose Account may be allocated by the Research Board as grants to Missouri local law enforcement agencies to assist with costs associated with medical marijuana law enforcement and safety.

(d) Monies deposited into the Land Acquisition Account shall be used for Land Acquisition and Land Development. The Land Acquisition Account may receive specific designated grants, gifts, devises, bequests, contributions, donations, and money from contracts, from the state or federal government, derivative of intellectual property rights, or any other source, and such specific designated monies shall be segregated for the Land Acquisition and Land Development, not commingled with other money.

(e) Monies deposited into the Targeted Diseases Account shall be used for research performed by targeted disease research groups, targeted diseases research building and construction, targeted disease research jobs, ancillary activities of the research groups and for support of the research of targeted diseases research groups as set forth in this Article XIV. Individual targeted diseases groups may receive specific designated grants, gifts, bequests, contributions, donations, and money from contracts, from the state or federal government, derivative of intellectual property rights, or any other source, and such specific designated monies shall be segregated into targeted disease sub accounts for that individual targeted disease group, not commingled with other money, and shall be used only for the purposes of that research group.

(f) Except where specifically stated otherwise, all administrative costs, expenses, jobs and compensation for duties performed and incurred under this Article XIV and by the Research Board shall be paid from the General Purpose Account of this fund.

(g) The unexpended balance existing in the fund and any of its accounts at the end of any biennium year shall be exempt from the provisions of section 33.080 relating to the transfer of unexpended balances to the general revenue fund.

(h) All monies deposited in the Biomedical Research and Drug Development Institute Trust Fund and its accounts shall remain separate and apart from the general revenue of the State of Missouri and shall be used only for the purposes of this Article XIV. Monies in the Biomedical Research and Drug Development Institute Trust Fund shall be first used to repay bonds and any other form of indebtedness, if any, issued by the Board for the purposes authorized by Article XIV. The unexpended balances of such monies shall remain in the Biomedical Research and Drug Development Institute Trust Fund and in the particular account in which the monies are placed, and such balances shall not revert to the general revenue fund.

(i) To maintain transparency, each year the Research Board shall publish the itemized income and expenses from the fund and its accounts in a report made available on the Research Board's website using general accepted accounting principles.

Section 6. Land Acquisition.

(a) It is expressly directed and permitted that within the Research Board shall be established a subcommittee known as the Land Acquisition Board. Such subcommittee members shall not receive any additional pay. The Land Acquisition Board shall consist of five individuals, four members of the Research Board selected by the Article XIV Coordinator and the fifth member being the Article XIV Coordinator. The members of the Land Acquisition Board selected by the Article XIV Coordinator shall serve the following initial terms: one shall serve two years, one shall serve three years, and two shall serve four years. Thereafter, each appointment shall be for a term of four years. If for any reason a vacancy occurs, the Article XIV Coordinator shall appoint a new member from within the Research Board to fill the unexpired term. Members are eligible for reappointment. Before the appointments by way of the nonpartisan commission that will fill the Research Board and then in turn the Land Acquisition Board, the Article XIV Coordinator shall appoint four temporary members of the Land Acquisition Board, who may or may not be members of the then existing Research Board, who together shall be the "then existing Land Acquisition Board" and shall have the power and duties of the Land Acquisition Board. Those temporary members shall serve at the same rate as Research Board members so long as there are funds available. If no funds are immediately available, the members may serve with deferred compensation until funds are available and when funds become available the members shall be paid for time served from appointment, and reasonable expenses incurred to effectuate their duties.

(b) The Land Acquisition Board shall make investigations, inquiries, studies and review data to identify no more than five but no less than three potential locations for land development and Land Acquisition and for a campus.

(c) The Land Acquisition Board shall have the authority to promulgate any necessary and supportive rules, regulations and procedures to fulfill its duties and authorized activities under this Article XIV, by and through the Research Board.

(d) The Land Acquisition Board shall report an overview of activities and status of the Land Acquisition Board to the Research Board no less than once every one hundred and twenty days.

(e) No earlier than one year after the Land Acquisition Board is formed, and no later than four years after it is formed, the Land Acquisition Board shall submit a report of final proposed locations for a campus and designated on maps for each proposed location. Such maps shall be drawn, by lines of longitude and latitude or by use of historical boundaries such as state lines, rivers, long standing thoroughfares, and county or city boundaries. The final dimensions and geographic inclusions of the land for campus development, which shall at a minimum include the inner one contiguous square mile, layered by additional increments at two, four, nine, sixteen, twenty five and thirty six contiguous square miles, with thirty six being the maximum that could be purchased pursuant to this Article XIV for campus development, will be determined by the Land Acquisition Board. The proposed locations of the campus and maps must be approved by 2/3 of the Research Board, or if the Research Board is not yet formed then by a unanimous vote of the then-existing Research Board members and the consent of the Governor.

(f) Upon approval pursuant to section 6 subsection (e) in the next general election more than 6 months after the section 6 subsection (e) approval occurs, voters of the affected county or counties, shall have a "yes" or "no" vote on whether they desire to allow the land to be acquired and the campus developed, along with its building and construction and Article XIV activities, on the proposed location that is within their respective county. Maps that include more than one county shall be designated a multi-county map, and the votes of all affected counties within the multi-county map shall be counted as though one county.

(g) The proposed campus location county which receives the most votes by percentage of votes cast, in the respective proposed campus location counties, shall be the approved campus development site.

(h) The question presented to voters pursuant to Section 6, subsection (f) shall be in the following format:

> Shall a campus for research, development, building and construction, jobs, cures and education in Missouri for endeavors to find cures for incurable diseases, and all that entails under Article XIV of the Missouri Constitution, be built on the proposed campus development site that includes the county in which I live and will result in land, in and around the vicinity set forth on the Biomedical Research and Drug Development Institute Map below, being affected, and/or purchased from the landowners:
>
> Yes _____ No
>
> [map here]

The amount to be acquired shall be a minimum of one square mile of contiguous property, but otherwise limited only by purchasing funds to a maximum of thirty six contiguous square miles.

(i) As funds become available, the Land Acquisition Board shall have authority to negotiate, acquire, and purchase property for the research campus. The Land Acquisition Board may use any and all legal means to acquire and purchase such property for the campus.

(j) The amount to be acquired for the campus shall be a minimum of one square mile of contiguous property, but otherwise limited only by purchasing funds to a maximum of thirty six square miles of contiguous property. The final dimensions and geographic inclusions of the land for campus development, which shall at a minimum include the inner one contiguous square mile, will be determined by the Land Acquisition Board.

(k) The Land Acquisition Board shall begin acquiring land by purchasing land, as outlined in this section of Article XIV, six (6) months after the general election referenced in section 6(f), takes place, or as soon thereafter as practicable. The purchasing shall proceed in a manner consistent with reasonable campus development.

(l) Clerical, research and general administrative support staff for the Land Acquisition Board shall be provided wages or salaries by the Land Acquisition Account. The Research Board, and the then existing Land Acquisition Board members until the Research Board members are all appointed and fill the Land Acquisition Board, shall have the authority to employ, hire, fire and set wages for all clerical, research and general administrative support staff for the Land Acquisition Board and to fulfill its functions under this Article XIV.

(m) The Land Acquisition Board, until the board is terminated and its powers and duties then transferred to the Research Board, may establish a land use plan and set aside up to twenty five percent of the acquired land for enterprise zones, housing and parks and recreational activities within the campus. Such land, at the Research Board's discretion, may be leased but not purchased from the Research Board.

(n) By unanimous vote of the Land Acquisition Board, upon the final payment for land made, or on January 1, 2028, whichever occurs first, the Land Acquisition Board shall terminate and all powers and duties shall transfer to the Research Board, including but not limited to all those powers and duties under this section 6.

Section 7. Immunities.

(a) Upon passage of this Article XIV, and beginning with its effective date, the use of medical marijuana by a qualifying patient with a valid physician certification shall not be subject to criminal or civil liability or sanctions under Missouri law, except as provided for by this Article XIV. Pending rules for, and issuance of, Qualifying Patient Identification Cards, the use of medical marijuana by a qualifying patient with a valid Physician Certification only, shall be valid in place of the Qualifying Patient Identification Card.

(b) A Medical Marijuana Dispensary Facility may sell medical marijuana or medical marijuana-infused products/extractions to a qualifying patient or designated primary caregiver upon production of a valid qualifying patient identification card or designated primary caregiver identification card, respectively and shall not be subject to criminal or civil liability or sanctions under Missouri law except as provided for by this Article XIV.

(c) Medical marijuana cultivation, transportation, storage, infusion and extraction of products, and sale pursuant to this Article XIV is hereby legal, and shall not be subject to criminal or civil liability or sanctions under Missouri law except as provided for by this Article XIV.

(d) The possession of marijuana, in quantities less than the monthly limit established by the Research Board, shall not subject the possessor to arrest, criminal or civil liability, or sanctions under Missouri law, provided that a valid qualifying patient identification card, a designated primary caregiver identification card, or the equivalent issued to a non-Missouri resident by another state or political subdivision of another state that is that non-Missouri resident's place of residency, is produced upon demand.

(e) A physician shall not be subject to criminal or civil liability or sanctions under Missouri law or discipline by the Missouri State Board of Registration for the Healing Arts, or other agency, for issuing a physician certification or recommending the use of Medical Marijuana to a person diagnosed with a qualifying medical condition in a manner consistent with this Article.

(f) A health care provider, including but not limited to any pharmacist, shall not be subject to professional discipline, or to criminal or civil liability or sanctions under Missouri law, for providing health care services that involve the medical use of marijuana consistent with this Article.

(g) A designated primary caregiver shall not be subject to criminal or civil liability or sanctions under Missouri law for purchasing or administering marijuana for medical use by a qualifying patient in a manner consistent with this Article. No individual shall serve as the designated primary caregiver for more than three (3) qualifying patients at one time.

(h) Actions and conduct by a Medical Marijuana Cultivation Facility, Medical Marijuana Research Cultivation Facility, Medical Marijuana Dispensary Facility or a Medical Marijuana-Infused/Extraction Products Manufacturing Facility, licensed and registered with the Research Board, or employees of such facilities, pursuant to and as permitted by this Article and in compliance with Research Board regulations, shall not be subject to criminal or civil liability or sanctions relating to marijuana under Missouri law except as provided for by this Article.

i. A Medical Marijuana Cultivation Facility, Medical Marijuana Research Cultivation Facility, Medical Marijuana Dispensary Facility or Medical Marijuana-Infused Product Manufacturing Facility who allows any license under this Article to lapse or expire through failure to timely renew or reapply for such license shall still be subject to the protections of this Article, provided the licensee obtain a valid license within ninety (90) days of the date of the lapse or expiration of the prior license and pay all fines called for in this Article.

ii. A Medical Marijuana Cultivation Facility, Medical Marijuana Research Cultivation Facility, Medical Marijuana Dispensary Facility or Medical Marijuana-Infused/Extraction Products Manufacturing Facility who allows any license under this Article to lapse or expire through failure to timely renew or reapply for such license shall be subject to and must pay a fine of $5,000 if a valid license is obtained within ninety (90) days of the lapse or expiration of the prior license.

(i) There shall be no immunities for negligence, either common law or statutorily created, nor criminal immunities for operating a vehicle, aircraft, dangerous device, or navigating a boat, under the influence of marijuana, and except as specifically set out in this Article the use of marijuana shall not be a defense to any civil liability or criminal activity.

(j) Missouri attorneys providing legal advice or representation relative to this Article XIV shall not be subject to professional discipline, or to criminal or civil liability or sanctions under Missouri law for providing such legal advice or representation.

(k) Patient information under this Article shall be afforded the same protection and confidentiality under the law as other patient medical information.

(l) No patient shall be denied access to medical care or priority for an organ transplant because they hold a qualifying patient identification card or use marijuana for medical use.

(m) No patient shall be denied Medicaid or other medical insurance or other governmental benefits because they hold a qualifying patient identification card or use marijuana for medical use.

(n) No testing laboratory shall be subject to civil or criminal prosecution, denial of any right or privilege, civil or administrative penalty or sanction, or disciplinary action by any accreditation or licensing board or commission for providing laboratory testing services that relate to the medical use of marijuana consistent with this Article XIV and otherwise meeting legal standards of professional conduct.

(o) No health care provider shall be subject to mandatory reporting requirements for the medical use of marijuana by non-emancipated qualifying patients under eighteen years of age in a manner consistent with this Article XIV and with consent of a parent or guardian.

(p) Subject to provisions to the contrary within this Article XIV, any individual acting within the scope of this Article XIV shall not be subject to professional discipline, or to criminal or civil liability or sanctions under Missouri law for actions authorized within this Article XIV.

Section 8. Legislation.

(a) Nothing in this Article shall limit the legislature from enacting laws consistent with this Article, or otherwise effectuating this Article, but the legislature shall not be allowed to enact laws to hinder the effectiveness of this Article or otherwise alter this Article. Except as specifically provided in this Article, nothing in this Article shall limit the authority of a municipality or county under its land planning and zoning regulations to restrict the location, but not the number of or presence in a municipality or county of Medical Marijuana Cultivation Facilities, Medical Marijuana Research Cultivation Facility, Medical Marijuana Dispensary Facilities or Medical Marijuana-Infused/Extraction Products Manufacturing Facilities.

(b) No elected official shall interfere directly or indirectly with the Research Board's obligations and activities under this Article XIV.

Section 9. Limitations and Other Provisions.

(a) Nothing in this Article permits a person to:

i. Undertake any task under the influence of marijuana when doing so would constitute negligence or professional malpractice; or

ii. Operate, navigate, or be in actual physical control of any dangerous device or motor vehicle, aircraft or motorboat while under the influence of marijuana; or

iii. Bring a claim against any employer, former employer or prospective employer for wrongful discharge, discrimination, or any similar cause of action or remedy, based on the employer, former employer or prospective employer prohibiting the employee, former employee or prospective employee from being under the influence of marijuana while at work or disciplining the employer or former employee, up to and including termination from employment, for working or attempting to work while under the influence of marijuana; or

iv. Consume, smoke, or use marijuana in a jail, prison, or other correctional facility; or

v. Consume, smoke, or use marijuana in a drug rehabilitation facility; or

vi. Consume, smoke, or use marijuana in a hospital or medical facility without a hospital or facility's consent; or

vii. Consume, smoke or use marijuana in a public place, including specifically, but not limited to, sidewalks, parks, playgrounds, sporting facilities, businesses, airports, bus stations, trains, casinos, government buildings, churches, synagogues or mosques; or

viii. Undertake growing or processing marijuana in a negligent or dangerous manner.

(b) A physician certification may only be given after the physician has conducted a full assessment of the patient's medical history and an in-person physical examination. A physician certification may be valid for up to twenty four (24) months.

(c) No Medical Marijuana Cultivation Facility, Medical Marijuana Research Cultivation Facility, Medical Marijuana Dispensary Facility or Medical Marijuana-Infused/Extraction Products Manufacturing Facility shall be owned, in whole or in part, or have as an officer, director, board member, manager or employee, any individual who has been convicted of a felony. However, the Research Board may on a case by case basis find an exception based upon letters of recommendation and proof of rehabilitation by community service and lack of subsequent convictions if:

i. The person's conviction was for the medical use of marijuana or assisting in the medical use of marijuana; or

ii. The person's conviction was for a non-violent crime for which the person was not incarcerated in the Missouri Department of Corrections, or its equivalent in other jurisdictions, that is more than ten (10) years old; or

iii. The person's conviction was for a non-violent crime for which the person was incarcerated in the Missouri Department of Corrections, or its equivalent in other jurisdictions, that is more than fifteen (15) years old; provided that at least five (5) years has elapsed since that person's release from incarceration.

(d) A Medical Marijuana Cultivation Facility and Medical Marijuana Research Cultivation Facility shall not be owned or controlled, in whole or in part, by any person who has not been a resident of Missouri for at one year prior to the date of the Medical Marijuana Cultivation Facility's application.

(e) No marijuana or medical marijuana-infused product may be brought into the State of Missouri from outside of the state for use, sale, distribution, or otherwise.

(f) No Medical Marijuana Cultivation Facility, Medical Marijuana Research Cultivation Facility, Medical Marijuana Dispensary Facility or Medical Marijuana-Infused/Extraction Products Manufacturing Facility shall manufacture, package or label marijuana or marijuana-infused products in a false, misleading or confusing manner or in any manner likely to cause confusion between the marijuana or marijuana-infused product and any product not containing marijuana.

(g) All edible marijuana-infused product must be sold in individual child-resistant re-closeable containers that are labeled with dosage amounts, instructions for use, and estimated length of effectiveness. All marijuana and marijuana-infused products must be sold in containers clearly and consciously labeled, in a font size at least as large as the largest other font size used on the package, as containing "Marijuana," or a "Marijuana-Infused/extraction Product." The product itself must additionally be imprinted with the conspicuous lettering "THC", when practicable. A label of at least 12 point bold font must be used alerting patients if processed or packed with nuts or allergens, or in a facility where nuts or other allergens are processed or used.

(h) No poisonous or deleterious substances shall be added to any marijuana or marijuana-infused/extracted product. Doing so shall be punishable by law as established by the State of Missouri.

(i) It shall be the responsibility of the Medical Marijuana Cultivation Facility, Medical Marijuana Research Cultivation Facility, Medical Marijuana Dispensary Facility and Medical Marijuana-Infused/Extraction Products Facility to provide each subsequent person or entity in the stream of commerce a listing of all substances used in the growth and processing of marijuana, other than soil, water, and seed. All Marijuana sold for approved methods, in addition to other labels required by this Article XIV, subject to modification by the Research Board, shall be labeled or include the following information on package inserts, in at least 8 point type:

i. "GOVERNMENT WARNING: THIS PACKAGE CONTAINS MARIJUANA, A CONTROLLED SUBSTANCE. KEEP OUT OF REACH OF CHILDREN AND ANIMALS. MARIJUANA MAY ONLY BE CONSUMED BY A QUALIFYING PATIENT WITH A QUALIFYING PATIENT IDENTIFICATION CARD. MARIJUANA USE WHILE PREGNANT OR BREASTFEEDING MAY BE HARMFUL. CONSUMPTION OF MARIJUANA IMPAIRS YOUR ABILITY TO DRIVE AND OPERATE MACHINERY. DO NOT USE WHEN OPERATING A MOTOR VEHICLE OR DANGEROUS MACHINERY. THE INTOXICATING EFFECTS OF INGESTED MARIJUANA PRODUCTS MAY BE DELAYED UP TO TWO HOURS."

ii. For packages containing only dried flower, the net weight of marijuana in the package.

iii. Identification of the source and date of cultivation, the type of marijuana, or for marijuana infused products the date of manufacturing and packaging.

iv. The appellation of origin, if any.

v. List of pharmacologically active ingredients, by percentage, including, but not limited to, tetrahydrocannabinol (THC), cannabidiol (CED), and other cannabinoid content, the THC and other cannabinoid amount in milligrams per serving, servings per package, and the THC and other cannabinoid amount in milligrams for the package total, and the potency of the marijuana or marijuana product by reference to the amount of tetrahydrocannabinol and cannabidiol in each serving.

vi. For marijuana infused products, a list of all ingredients and disclosure of nutritional information.

vii. A list of any solvents, nonorganic pesticides, herbicides, and fertilizers that were used in the cultivation, production, and manufacture of such marijuana or marijuana product.

viii. A warning if nuts or other known allergens are used in the product, or place of processing or sale.

(j) No Medical Marijuana Cultivation Facility, Medical Marijuana Research Cultivation Facility, Medical Marijuana Dispensary Facility or Medical Marijuana-Infused/Extraction Products Manufacturing Facility shall assign, sell, give, lease, sublicense, or otherwise transfer its license to any other facility, person, or entity except as provided in this Article XIV.

(k) This Article XIV shall not be construed as requiring health insurance companies to provide coverage for medical marijuana use.

(l) No new license shall be granted to any Medical Marijuana Cultivation Facility, Medical Marijuana Research Cultivation Facility, Medical Marijuana Dispensary Facility or Medical Marijuana-Infused/Extraction Products Manufacturing Facility that is located within one thousand feet of any then-existing school, group day care home, child day care center, church, synagogue or mosque.

(m) A physician:

i. shall not issue physician certifications for the use of medical marijuana exceeding twenty five percent (25%) of the number of prescriptions written by that physician in the same calendar year; and

ii. shall not have an income from treating qualifying patients with primarily medical marijuana exceeding twenty five percent (25%) of the physician's gross income.

(n) It is the public policy of the state of Missouri that contracts related to marijuana for medical use that are entered into by Qualifying Patients, Designated Primary Caregivers, Medical Marijuana Cultivation Facilities, Medical Marijuana Research Cultivation Facilities, Medical Marijuana-Infused/Extraction Products Manufacturing Facilities, or Medical Marijuana Dispensary Facilities and those who allow property to be used by those entities, should be enforceable. It is the public policy of the state of Missouri that no contract entered into by Qualifying Patients, Designated Primary Caregivers, Medical Marijuana Research Cultivation Facility, Medical Marijuana Cultivation Facilities, Medical Marijuana-Infused/Extraction Products Manufacturing Facilities, or Medical Marijuana Dispensary Facilities, or by a person who allows property to be used for activities that are exempt from state criminal penalties by this Article XIV, shall be unenforceable on the basis that activities related to medical marijuana may be prohibited by federal law.

(o) Marijuana cultivation of all types must occur indoors in an enclosed, locked facility: a warehouse, room, greenhouse, or other enclosed area equipped with locks or other security devices that permit access only by authorized personnel, Research Board requirements, and meeting industry standards for safety and safe use of electricity.

(p) Real and personal property used in the cultivation, manufacture, transport, testing, distribution, sale, and administration of marijuana for medical use or for activities otherwise in compliance with this Article XIV shall not be subject to asset forfeiture solely because of that use.

(q) The Research Board may require Medical Marijuana Dispensary Facility to have, on call during all operating hours, an individual licensed in Missouri to the practice of pharmacy as defined in Chapter 338 of the Revised Statutes of Missouri who is available for on-site or telephone consultation within thirty (30) minutes.

Section 10. Public-Private Collaborative Ventures.

(a) The Research Board may enter into leases of property owned or to be acquired by the Research Board on the campus with participating research entities for building and construction, jobs, education, research to find cures, and in such endeavors enter into contracts for joint ventures and collaborative efforts and to find cures and treatments for presently incurable diseases and targeted diseases and to develop cures that may be discovered, improved or patented, in whole or part, and lease property for reasonable campus development and pursuant to this Article XIV.

(b) Any participating research entities, whether public, private, quasi-public or quasi-private, which develops cures or treatments which occurs in whole or part, directly or indirectly, by having its presence on the Biomedical Research and Drug Development Institute campus or in participation by written agreement with the Research Board, shall pay to the Biomedical Research and Drug Development Trust Fund – Section 10 Account an agreed upon contractual amount but if no contract has been entered into as to an amount, then the greater of three percent of all gross revenues or seventeen percent of all profits derived from the participating research entities cures or treatments, whether such monies were produced, earned, derivative, interest or otherwise received. All contracts when practicable shall be published on the Research Board's website at least 14 calendar days before any contract is finalized and published again after the contract is finalized.

(c) The Research Board may, along with or in conjunction with the participating research entity, or other entities, or on its own, make, produce, develop, market, distribute, license, and sell cures, goods, services and products, both of a medical and non-medical nature.

(d) All participating research entities shall establish a physical presence in Missouri, be licensed to do business in the State of Missouri and consent to jurisdiction of Missouri courts, and all contracts shall be governed by Missouri law.

(e) Participating research entities shall not provide anything of value to any member of the Research Board or their employees that could influence academic or research freedom, or otherwise interfere with the academic or research freedom of any member of the Research Board, nor to targeted disease groups or panels. Participating research entities who violate this prohibition shall have leases voided, and shall surrender all profits derived from the participating cures and treatments produced, earned or received, to the State of Missouri, and shall be liable for any actual and consequential damages and in appropriate circumstances also punitive damages, to the Research Board with all such damage awards being credited to the Biomedical Research and Drug Development Trust Fund – Section 10 Account.

(f) Any monies received pursuant to this section 10 shall be paid into the Biomedical Research and Drug Development Institute Trust Fund – Section 10 Account and annually disbursed by the following formula:

i. Fifty percent (50%) to the Biomedical Research and Drug Development Institute Trust Fund General Purpose Account;

ii. Twenty-five percent (25%) to general revenue of the State of Missouri with

a) 1/4 of this 25% for the exclusive purpose of funding Missouri state roads and bridges infrastructure repairs,

b) 1/4 of this 25% for the exclusive purpose of funding public pre-school programs, public elementary and secondary school programs, and to provide grants to in-state Missouri students to attend state institutions of higher education governed at the time of the enactment of this Article XIV by sections of 174.020 to 174.500 Revised Statutes of Missouri and chapter 172 Revised Statutes of Missouri., and

c) 1/4 of this 25% for the exclusive purpose of funding medical care for Missouri residents;

d) 1/4 of this 25% to fund Missouri public employee retirement trust funds; and

iii. Twenty-five percent (25%) to be refunded to Missouri state income tax paying citizens, refunded equally to all citizens of Missouri who have paid state income taxes of more than five hundred dollars ($500) or more in the year prior to the payments being received by the Research Board pursuant to this section 10, up to the total amount of state income tax paid by such Missouri citizen in that year. Any residual amounts above and beyond the tax refund shall be paid equally to all Missouri state income tax paying Missouri residents. The refund check to Missouri citizens shall clearly state "Research Board Tax Refund".

(g) All contracts entered into pursuant to this section 10 and this Article XIV shall require that any cures obtained pursuant to section 10 and this Article XIV shall be made available to the residents of the State of Missouri at cost, with no mark-up.

Section 11. Effective Date.

(a) The provisions of this Article shall become effective on December 31, 2018.

Section 12. Severability.

(a) All of the provisions of this Article, all sections, all subsections and all clauses and phrases shall be self-enforcing. All of the sections, subsections, provisions, clauses, phrases, and words within them are severable. If any of the sections, subsections, provisions, clauses, phrases, or words within them are found by a court of competent jurisdiction to be unconstitutional or unconstitutionally enacted, the remaining sections, subsections, provisions, clauses, phrases, or words within them shall be and remain valid. If any appointment or selection pursuant to this Article, except 3(k)i-iii., are found by a court of competent jurisdiction to be unconstitutional or unconstitutionally enacted, the appointment and selection, subject to any valid qualification requirement, shall be made by the Governor with the consent of a majority of the Senate. If all appointments or selections pursuant to 3(k)i-iii. are found by a court of competent jurisdiction to be unconstitutional or unconstitutionally enacted, the appointment and selection, subject to any valid qualification requirement, shall be made by the Governor with the consent of a majority of the Senate.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-041)

Subject

Initiative petition from Bradley Bradshaw regarding a proposed constitutional amendment to Article XIV of the Constitution of Missouri. (Received November 22, 2016)

Date

December 12, 2016

Description

This proposal would amend Article XIV of the Missouri Constitution.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College, University of Central Missouri, Harris-Stowe State University, Lincoln University, Missouri State University, Missouri Southern State University, Missouri Western State University, Northwest Missouri State University, Southeast Missouri State University, Truman State University,** and the **Lieutenant Governor's Office**.

Brad Bradshaw provided information as a proponent of the proposal to the State Auditor's office.

Officials from the **Attorney General's office** indicated this proposal creates a Biomedical Research and Drug Development Institute, governed by a Research Board. The Board has the duty to promulgate numerous rules regarding licensure of a minimum of four separate types of facilities, some to have not less than 50 licenses and one to have not less than 400 licenses. The Board has the power to sue and be sued, to issue contracts and own property, and licensure actions are subject to hearings by Administrative Hearing Commission and judicial review. Though not explicit in the proposal, they assume it would be tasked with representation of the Board and Institute, and assumes it would need 2 AAGs to handle the increased workload, resulting in increased operating expenses of $139,474 for FY2018; $150,610 for FY2019; and $152,155 for FY2020.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated there is no impact to their department as a result of this initiative petition.

Officials from the **Department of Higher Education** indicated this initiative petition would not have a fiscal impact on their department, but it could have an impact on the colleges and universities in the state. That being said, the statutory references to colleges and universities found in 4(c)iv and 10(f)iib) (sections 174.020 to 174.500 Revised Statutes of Missouri and chapter 172 Revised Statutes of Missouri) exclude Truman State University (174.600), Lincoln University (175), State Technical College of Missouri (178.631), and all the community colleges (163.191; 178.770-890).

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated their department would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated fiscal impact of ($11,229) in fiscal year 2019, ($35,262) in fiscal year 2020, and ($67,160) in fiscal year 2025 and thereafter .

Results of studies at this time show conflicting results on the criminal impacts of current medical marijuana laws. However, with the increased licensing and regulation there are also increased possibilities of secondary crimes through false physician recommendations, non-compliance in registration, illegal possession, vehicular infractions or injury, and theft. While many of these violations may carry only municipal or licensing level penalties, some would ultimately fall under felony charges.

Current laws provide for class C felony penalties for possession (Section 195.202) and class B felony for distribution and production of controlled substances (Section 195.211). Considering additional increases in related violations, proposed changes in this bill are expected to result in one new class B felony serving two years in prison and five years parole, one class C felony serving one year in prison with four years parole, and two new probations serving three years.

In addition, this proposal would be impactful to their department in that they currently test their staff for marijuana use and discipline accordingly. If their staff were to live in a household, or visit another person, who is legally using medical marijuana they would then be exposed to second-hand smoke and would likely test positive themselves. There would be no way for them to determine which of their staff are innocently exposed from those who are abusing this substance illegally.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** indicated the total estimated costs for salaries, fringe benefits, and expense and equipment will be $381,017 for fiscal year 2018, $266,174 for fiscal year 2019, and $268,867 for fiscal year 2020, which includes information technology (IT) related costs of $150,012 for fiscal year 2018, $30,752 for fiscal year 2019, and $31,521 for fiscal year 2020 for IT consultants. First year implementation costs are estimated at $186,418, which includes the $150,012 IT costs.

This legislation creates additional employment opportunities by establishing cultivation facilities, research cultivation facilities, dispensary facilities, and manufacturing facilities.

The passage of this amendment creates an unknown positive impact to the Biomedical Research and Drug Development Institute Trust Fund.

Section 4 - Licensure, Taxation and Reporting
This petition imposes a “cultivation tax” on wholesale sales by cultivation and research cultivation facilities to products manufacturing and dispensary facilities. This tax is:

Flowers	$9.25 per dry-weight ounce
Leaves	$2.75 per dry-weight ounce

This section also imposes a 15 percent tax on the retail sale of marijuana infused/extraction products sold by dispensary facilities. The dispensary collects the tax and remits it to their department within 30 days of the retail sale. The seller must also

provide their department with a copy of the receipt or be subject to a $100 per occurrence penalty.

The legislation requires all revenues collected from taxes imposed by this section be deposited into the Biomedical Research and Drug Development Institute Trust Fund. This legislation becomes effective December 31, 2018 after approval by the voters of Missouri in November 2018, which may not be sufficient time for their department to fully implement the provisions of this section.

Administrative Impact:

Business Tax Processing:
If their department is required to administer the tax, their department will need to track who remitted the tax and how much tax was remitted. This would be a new tax for their department to administer and would require new reporting forms and a new program to track and distribute receipts. This will include establishing a new tax type within the Integrated Tax System, including registration, accounting, billing, refunding, correspondence, forms, rules, and testing, Their department will require communication from the Research Board in regards to who is licensed to remit tax. There does not appear to be any penalty provisions, other than the penalties regarding copies of receipts, for late remittance of the tax. It appears the refund provision will only go into effect if any monies are received under Section 10.

Business Tax Processing requires two (2) Revenue Processing Technicians I (Range 10, Step L) for data entry, pre-edit, and error correction.

Collections & Tax Assistance:
The Business Tax Registration section will see additional registrations, file maintenance, and customer contacts due to this legislation. The Delinquent Call Center will see additional customer contacts from billings and non-files returns. The section requires one (1) Revenue Processing Technician I (Range 10, Step L) for every 13,200 additional contacts and one (1) Tax Collection Technician I (Range 10, Step L) for every 15,000 contacts on the delinquent tax line. Each technician requires CARES equipment and license.

If their department is required to generate the refund to taxpayers and handle phone calls pertaining to the refund, the section also requires one (1) Tax Collection Technician I (Range 10, Step L) for every 15,000 contacts on the non-delinquent tax line. This technician also requires CARES equipment and license.

Corporate/Excise Tax:
Their department would have to develop forms for the reporting of this tax from the Marijuana Dispensary Facility to their department and would have to develop procedures to implement and enforce the penalty provision. Their department is not responsible for issuing the licenses. Their department would need to work with the Board of Biomedical

Research and Drug Development Institute to determine those entities that were prohibited to obtaining a future license.

Officials from the **Department of Public Safety - Office of Director and the Division of Alcohol and Tobacco Control** each indicated they see no fiscal impact due to this petition.

Officials from the **Missouri State Highway Patrol** indicated they anticipate no fiscal impact.

Officials from the **Department of Social Services** indicated no fiscal impact on their department.

Officials from the **Governor's Office** indicated the Governor would be responsible for appointing several positions to the Board of Biomedical Research and Drug Development. They should be able to complete these appointments with no additional costs.

Officials from the **House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated no fiscal impact.

Officials from the **Office of Administration** (OA) indicated:

This proposal authorizes the creation of facilities to cultivate, research, and sell medical marijuana and medical marijuana products. The proposal would also create application and licensing fees for those facilities as well as a fee for patients and caregivers approved to purchase medical marijuana. There would be a tax levied on the wholesale of flowers and leaves to dispensaries and a 15 percent retail tax. All application fees, license fees, and taxes would be deposited in the Biomedical Research and Drug Development Institute Trust Fund. This proposal would not impact Total State Revenues or the calculation under 18(e) as these would be voter approved fees and taxes.

B&P determined that Arizona has a similar medical marijuana law in terms of illnesses that qualify for treatment. Based on this similarity, B&P was able to base some estimates for Missouri from trends seen in Arizona since medical marijuana was approved in 2012.

If approved, the newly created Article XIV would be effective December 31, 2018. All license application and application forms must be available by June 2019. However, the Research Board is not required to accept application until April 2019 at the earliest and August 2019 at the latest. For the purposes of this fiscal note, B&P assumes that the Research Board will not be prepared to accept applications until after June 2019. Therefore, any fiscal impacts would occur in FY 2020 or later.

Table 1 shows the creation of medical marijuana facilities by type. The proposal states that no less than 50 medical marijuana cultivation facility licenses, 50 medical marijuana – infused/extraction products manufacturing facility licenses, and 400 medical marijuana research cultivation facility licenses are to be granted. In addition, for medical marijuana dispensary facilities, there shall be 2 licenses per 20,000 residents per county or 2 licenses if the resident population is smaller than 20,000. The board or local governments may further restrict any licenses granted.

Table 1: Number of Allowable Facilities by Type

Facility Type	Limit	Facility Count
cultivation facilities	minimum of 50	50
research cultivation facilities	minimum of 400	400
infused/extraction products manufacturing facilities	minimum of 50	50
dispensary facilities	between 2 and 2 per 20,000 residents per county, whichever is greater	650

Without further information, B&P assumes that local governments are not granted license restrictions and the minimum number of licenses for each facility type is granted.

The proposal establishes an annual application fee based on the type of facility. Medical marijuana cultivation facilities, infused/extraction manufacturing facilities and dispensaries must pay $25,000 for their initial application, while the initial application fee for research cultivation facilities is $5,000. In subsequent years, all facilities renewing their application must pay a fee equal to 125% of the pro rata estimated average yearly cost to the Research Board of administration over a five-year period and divided equally among all applicants based on the number of estimated applicants over that five-year period. The Research Board is to estimate the costs and pro rata amount. B&P does not have enough information to estimate the application renewal cost. Therefore, Table 2 shows the revenue generated from the initial facility applications.

Table 2: Application Revenue by Facility Type per Fiscal Year

Facility Type	Revenue Generated by Application Fees*		
	FY 2020	FY 2021**	FY 2022**
cultivation facilities	$1,250,000	$195,000	$195,000
research cultivation facilities	$ 2,000,000	$15,000	$15,000
infused/extraction products manufacturing facilities	$1,250,000	$24,000	$24,000
dispensary facilities	$16,250,000	$15,000	$15,000

**B&P was unable to estimate the 5 year pro rata board costs to be charged as a per year license fee*

***Assumes that 1.2% of facility licenses change hands per year*

B&P used information from the Arizona Department of Health Services to determine that, on average, 1.2% of businesses close per year. B&P further assumed that new facilities would apply for any open licenses, and thus be subject to the initial application fee.

The proposal also requires initial and annual license fees to be paid by facilities, patients, and caregivers. The fee for patients and caregivers is $100 per year. Cultivation facilitates are to pay $25,000 as an initial license fee and then $15,000 per year thereafter. The initial license fee for research cultivation facilities is $10,000 and then $5,000 per year thereafter. Infused/Extraction manufacturing facilities must pay $20,000 as an initial license fee and then $10,000 annually thereafter. The initial license fee for dispensaries is $25,000 and then $10,000 annually thereafter. All renewal license fees may be adjusted for inflation. Table 3 shows the revenue from the license fees by type of license.

Table 3: License Fees by Patient and Facility Type

Patient and Facility Type	Revenue Generated by License Fees		
	FY 2020	FY 2021*	FY 2022*
patients and caregivers**	$4,186,000	$4,743,000	$6,686,000
cultivation facilities	$16,250,000	$6,682,000	$6,812,000
research cultivation facilities	$1,250,000	$764,000	$778,000
infused/extraction products manufacturing facilities	$4,000,000	$2,044,000	$2,084,000
dispensary facilities	$1,000,000	$511,000	$521,000

**Assumes 2% inflation*

***Assumes growth similar to that seen in the medical marijuana program in Arizona*

B&P used the same methodology for facility license fee renewals as for application fees. The estimates above assume a 1.2% turnover rate for businesses, which would then be subject to the initial license fee beyond FY 2020.

The proposal also requires a wholesale cultivation tax on all marijuana sold from a cultivation facility or research cultivation facility to either an infused/extracted manufacturing facility or a dispensary. The wholesale tax is equal to $9.25 per ounce of marijuana flowers sold or $2.75 per ounce of marijuana leaves sold. B&P does not have enough information to determine the distribution of leaves and flowers sold; therefore, a range is provided based on the sale of all flowers or all leaves. In addition to the wholesale tax, a retail tax of 15% is to be charged on the purchase price paid by final consumers. Table 4 shows the revenue generated by the wholesale cultivation tax and the retail tax.

Table 4: Cultivation and Sales Taxes

Tax	Revenue Generated by License Fees		
	FY 2020	FY 2021	FY 2022
cultivation wholesale tax	$1,019,000 to $3,428,000	$1,529,000 to $5,142,000	$1,529,000 to $5,142,000
retail tax	$15,573,000	$23,359,000	$23,359,000

B&P estimates that this proposal will increase revenues to the Biomedical Research and Drug Development Institute Trust Fund by $64.0 to $66.5 million in FY2020, $39.9 to

$43.5 million if FY 2021, and $42.0 to $45.6 million in FY 2022 and thereafter. Table 5 shows the total impact to the Trust Fund.

Table 5: Total Impact

Impact by Fund	FY 2020	FY 2021	FY 2022
Biomedical Research and Drug Development Institute Trust Fund	$64,027,000 to $66,463,000	$39,880,000 to $43,494,000	$42,018,000 to $45,631,000

The Department of Revenue is given additional responsibilities to collect, which could result in a fiscal impact for that agency. The Department of Health and Senior Services could also have additional duties which could result in a fiscal impact for that agency.

Section 3 directs bond proceeds to the Research and Drug Development Institute Trust Fund, but does not specifically assign repayment of debt to a particular account. B&P assumes it would be the General Purpose Account. Section 5(c) lists allowable uses for the General Purpose Account and debt service for bonds is not specifically mentioned as an allowable use. This presents the question of how the bonds are to be repaid.

Section 10 allows the Research Board to enter into public-private collaborative ventures and collect money from leasing Board owned property. All monies collected from this section are to be deposited in the Biomedical Research and Drug Development Trust Fund – Section 10 Account. This money is to then be disbursed with 50% going to the Biomedical Research and Drug Development Trust Fund – General Purpose Account, 25% to Missouri General Revenue, and 25% being refunded to Missouri citizens that paid Missouri income tax in the previous year. The money deposited into General Revenue will further be split with one-fourth going to fund state roads and bridges, one-fourth to fund public education, one-fourth to fund medical care of Missouri residents, and one-fourth to fund public employee trust funds. This provision will impact TSR by an unknown amount; however, it will not impact the calculations under 18(e).

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated no fiscal impact on their office.

Officials from the **Secretary of State's office** indicated their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so

that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any impact on their office.

Officials from the **State Treasurer's office** indicated this would have no fiscal impact on their office.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from the **City of Columbia** indicated:

Public Health
The only potential impact in this area concerns inspecting facilities selling food products infused with marijuana. The amendment is vague regarding this issue. It says the research board will regulate the facilities, but their public health department has authority in state law and local ordinance to enter and inspect any facility selling food, and to require a local permit to do so. Theoretically, there would be no net cost since the permit fees should cover their expenses. Perhaps the amendment's authors do not intend for them to be in those facilities conducting inspections, but that is beyond the discussion of fiscal impact.

City Electric and Water Service
They do not see any burdens for either the electric or water utilities that may arise if this is successful.

Officials from the **City of Kansas City** indicated no fiscal impact is anticipated if this proposal is adopted.

Officials from the **City of Raymore** indicated no fiscal impact.

Officials from the **City of St. Joseph** indicated this initiative petition should not have a fiscal impact on local government.

Officials from **University of Missouri** indicated the University of Missouri Health Care (MUHC) has reviewed the proposed initiative petition and determined that the fiscal impact should not exceed $100,000 annually.

Officials from the **Lieutenant Governor's Office** indicated they anticipate that this initiative petition will impose little to no costs or savings on their office.

Officials from **Missouri State University** indicated no financial impact.

Officials from **Missouri Southern State University** indicated they do not anticipate any fiscal impact from this initiative petition.

Brad Bradshaw provided the following information as a proponent of this initiative petition.

Article XIV Medical Marijuana Research Board Initiative – Version 18-041

Proposed Statement of Fiscal Impact
for Article XIV Medical Marijuana Research Board Initiative – Version 18-041

Fiscal Impact Information Submitted Pursuant to Section 23.140.2

The amendment's estimated state revenue is $67.1 million from application fees, license taxes, and sales taxes. The additional funds are for the Biomedical Research and Drug Development Institute Trust Fund. No state general revenue, other state funds, or local revenue are estimated as the petition precludes other fees and taxes.

ESTIMATED NET EFFECT ON STATE FUNDS		
Fund Affected	**FY 2017**	**FY 2018**
General Revenue	$0	$0
Total Estimated Net Effect on All State Funds	$0	$67,136,265
ESTIMATED NET EFFECT ON LOCAL FUNDS		
Local Funds	$0	$0
Total Estimated Net Effect on All Local Funds	$0	$0

ANALYSIS OF FISCAL IMPACT
Article XIV Medical Marijuana Research Board Initiative – Version 18-001

The fiscal impact analysis contained herein focuses on estimating the fee and tax revenue resulting from the constitutional amendment proposed in the initiative petition. Table 1 summarizes the revenue estimated by source and by fiscal year. Page and Table numbers are provided to help readers find specific subjects.

Table 1 - Summary of Fees, License Taxes, and Sales Tax Revenue

Page #	Table #	Purpose	FY 2019	FY 2020
6	Table 5	Medical Marijuana Cultivation Facilities	$0	$2,500,000
7	Table 6	Medical Marijuana Research Cultivation Facilities	$0	$6,000,000
8	Table 7	Medical Marijuana Infused/Extraction Products Manufacturing Facilities	$0	$2,250,000
9-14	Table 11	Medical Marijuana Dispensary Facilities	$0	$22,500,000
15-19	Table 16	Qualifying Patient and Designated Primary Caregiver Identification Cards	$0	$12,409,700
20-23	Table 20	Wholesale tax	$0	$3,180,100
24	Table 21	15% retail sales tax	$0	$18,296,465
		Total Biomedical Research and Drug Development Institute Trust Fund	$0	$67,136,265

Implementation dates required by the petition

Table 2 below identifies the implementation dates prescribed in the petition. All fiscal estimates in this analysis assume that the provisions and deadlines of the petition will be met as required.

TABLE 2 - DEADLINES	
11/6/2018	Election Day - Voter Approval
12/31/2018	Effective date of constitutional amendment per Section 11 (a) of the petition.
90 days after effective date of constitutional amendment	
3/31/2019	If practicable, the Research Board shall make available to the public the license application forms and application instructions for Medical Marijuana Cultivation Facilities, Medical Marijuana Research Cultivation Facilities, Medical Marijuana Dispensary Facilities, and Medical Marijuana-Infused/Extraction Products Manufacturing Facilities - Section 3(z).
3/31/2019	If practicable, the Research Board shall make available to the public the license application forms and application instructions for qualifying patient and primary caregiver identification cards - Section 3(aa).
120 days after effective date of constitutional amendment	
4/30/2019	If practicable, the Board shall begin accepting applications for qualifying patient ID cards and Primary Caregiver ID cards - Section 3 (aa)
6 months after effective date of constitutional amendment	
6/30/2019	Latest date allowed that the Research Board shall make available the public license application forms and application instructions for Medical Marijuana Cultivation Facilities, Medical Marijuana Research Cultivation Facilities, Medical Marijuana Dispensary Facilities, and Medical Marijuana-Infused/Extraction Products Manufacturing Facilities - Section 3(z).
6/30/2019	Latest date the Research Board shall make available to the public the license application forms and application instructions for qualifying patient and primary caregiver identification cards - Section 3(aa).
7 months after effective date of constitutional amendment	
7/31/2019	Initial applications for licenses shall be accepted beginning no later than 7 months after the effective date. Section 4(c)vi for Medical Marijuana Cultivation Facilities and Medical Marijuana Research Cultivation Facilities. Section 4(d)iii for Medical Marijuana Dispensary Facilities. Section 4(e)iii for Medical Marijuana-Infused/Extraction Products Manufacturing Facilities.
10/29/2019	Initial application period closes 90 days after the 7 months after the effective date for licenses for Medical Marijuana Cultivation Facilities and Medical Marijuana Research Cultivation Facilities - Section 4(c)vi. Section 4(d)iii for Medical Marijuana Dispensary Facilities and Section 4(e)iii for Medical Marijuana-Infused/Extraction Products Manufacturing Facilities.
Undetermined	When one or more Medical Marijuana Dispensary Facility licenses becomes available after the initial application period there shall be a 90 day notice of another application period which will last 90 days. Section 4(c)vi. Section 4(d)iii for Medical Marijuana Dispensary Facilities and Section 4(e)iii for Medical Marijuana-Infused/Extraction Products Manufacturing Facilities.
8 months after effective date of constitutional amendment	
8/31/2019	Latest date for Board to begin accepting applications for qualifying patient ID cards and patient caregiver ID cards.

Various Medical Marijuana Facilities

Four facility types are authorized in the proposal. Table 3 shows the number of licenses that are required or allowed and local government's authority to impact that number.

Table 3 - Restrictions on Authorized Facilities

Facility type	Limits
MO Medical Marijuana Cultivation Facility	Section 3(r) - may restrict to not less than 50 licenses. Local government can ask for an increase or decrease from their number.
MO Medical Marijuana Research Cultivation Facility	Section 3(r) - may restrict to not less than 400 licenses. Local government can ask for an increase or decrease from their number.
MO Medical Marijuana Infused/Extraction Products Manufacturing Facility	Section 3(p) - shall restrict to not less than 50 licenses. Local government can ask for an increase or decrease from their number.
MO Medical Marijuana Dispensary Facility	Section 3(q) - shall restrict to 2 for every 20,000 inhabitants. Local government can ask for an increase or decrease from their number.

For each facility type there are specific application fees and taxes on licenses. In addition, there are fines for failure to meet renewal deadlines. Table 4 shows a schedule of the revenue to be derived from each. Section 4(i) states that "No taxes or fees shall be imposed on the sale of medical marijuana except as provided in the Article." Therefore, no state general revenue, other state funds, or local revenue are estimated as the petition precludes other fees and taxes.

Table 4 - Application Fees, Licenses, and Fines for Facilities

	Application Fee		Tax on license		Fines
Facility type	Year 1	Other years	Year 1	Other years	
MO Medical Marijuana Cultivation Facility	$25,000 - Section 3 (n)	Section 3 (n) -125% of the pro-rata estimated average yearly cost to the Research Board of administering and enforcing the act, estimated over a 5 year period	Section 4 (c)i.a - $25,000 returned if application is unsuccessful.	Section 4 (c)i.a - $15,000 upon renewal	Section 7(h)ii - $5,000 fine if license lapses or expires through failure to timely renew or reapply if the license is obtained within 90 days of the lapse
MO Medical Marijuana Research Cultivation Facility	$5,000 - Section 3 (n)	Section 3 (n) -125% of the pro-rata estimated average yearly cost to the Research Board of administering and enforcing the act, estimated over a 5 year period	Section 4 (c)i.b - $10,000 returned if application is unsuccessful.	Section 4 (c)i.b - $5,000 upon renewal	Section 7(h)ii - $5,000 fine if license lapses or expires through failure to timely renew or reapply if the license is obtained within 90 days of the lapse

Medical Marijuana Cultivation Facilities

The proposal defines and permits the operation of Medical Marijuana Cultivation Facilities. As shown in Table 3 the Research Board may restrict to not less than 50 licenses. No upper limit is established on the number of such facilities that can be licensed. The Research Board is required by Section 3(n) of the proposal to charge an initial one-time non-refundable application fee of $25,000 for the first year license and $25,000 in taxes on the license.

The estimate in Table 5 below assumes:

- The Research Board will initially limit the number of Medical Marijuana Cultivation Facilities to the minimum number allowed (50) under the proposal. In the initial years of operation this would enable the Research Board to conservatively allow it to meet its minimum constitutional requirements as it begins its operations and provide time to assess and report on the success of the program before further expansion which is beyond the two-year timeline covered by the Auditor's Office. It is assumed that the Research Board issues all 50 licenses and will collect both the application fee and the tax on the license for each.
- While local governments can request a decrease in the number of facilities in their jurisdiction, it is assumed that the Research Board will still meet the minimum number required.
- Table 2 shows that the Research Board must make application forms available by six months after the effective date of December 31, 2018. This fiscal analysis assumes that the Research Board will take the maximum time allowed to ensure that the applications forms and all rules and regulations are in place before issuing the forms. Therefore, the first revenue from application fees will be deposited beginning after July 1, 2019 in FY 2020.
- No license fees or taxes are assumed for the annual license required for the second year of the license which will occur in FY 2021 for licenses first issued in 2020.
- Since application fees are non-refundable an additional $25,000 will be collected from any applicant that is ultimately refused a license. For example, a 10% refusal rate would mean 5 applications would pay the $25,000 non-refundable fee yet be rejected which would generate an additional $125,000 that is not calculated into this revenue estimate.

The total revenue in application fees and license taxes generated in FY 2020 from the minimum number of facilities that is required is $2,500,000 including:

- $1,250,000 in one-time non-refundable application fees
- $1,250,000 in license taxes

Table 5 - Medical Marijuana Cultivation Facilities

Assumptions	**FY 2019**	**FY 2020**
	Applications - forms not required before 6/30/19	Applications Completed during the year
Total applications assuming minimal number approved by Research Board	0	50
Total licenses approved by Research Board	0	50
Revenues	**Amount**	**Amount**
One-time non-refundable application fee of $25,000	$0	$1,250,000
First year tax on license of $25,000	$0	$1,250,000
Total application fees and license taxes at minimum # of licensees	$0	$2,500,000

Medical Marijuana Research Cultivation Facilities

The proposal defines and permits the operation of Medical Marijuana Research Cultivation Facilities. As shown in Table 3 the Research Board may restrict to not less than 400 licenses. No upper limit is established on the number of such facilities that can be licensed. The Research Board is required by Section 3(n) of the proposal to charge an initial one-time non-refundable application fee of $5,000 for the first year license, and $10,000 in taxes on the license.

The estimate in Table 6 below assumes:

- The Research Board will initially limit the number of Medical Marijuana Research Cultivation Facilities to the minimum number allowed (400) under the proposal. In the initial years of operation this would enable the Research Board to conservatively allow it to meet its minimum constitutional requirements as it begins its operations and provide time to assess and report on the success of the program before further expansion which is beyond the two-year timeline covered by the Auditor's Office. It is assumed that the Research Board issues all 400 licenses and will collect both the application fee and the tax on the license for each.
- While local governments can request a decrease in the number of facilities in their jurisdiction, it is assumed that the Research Board will still meet the minimum number required.
- Table 2 shows that the Research Board must make application forms available by six months after the effective date of December 31, 2018. This fiscal analysis assumes that the Research Board will take the maximum time allowed to ensure that the applications forms and all rules and regulations are in place before issuing the forms. Therefore, the first revenue from application fees will be deposited beginning after July 1, 2019 in FY 2020.
- No license fees or taxes are assumed for the annual license required for the second year of the license which will occur in FY 2021 for licenses first issued in 2020.
- Since application fees are non-refundable an additional $5,000 will be collected from any applicant that is ultimately refused a license. For example, a 10% refusal rate would mean 40 applications would pay the $5,000 non-refundable fee yet be rejected which would generate an additional $200,000 that is not calculated into this revenue estimate.

The total revenue in application fees and license taxes generated in FY 2020 from the minimum number of facilities that is required is $6 million including:

- $2 million in one-time non-refundable application fees
- $4 million in license taxes

Table 6 - Medical Marijuana Research Cultivation Facilities

Assumptions	**FY 2019**	**FY 2020**
	Applications - forms not required before 6/30/19	Applications Completed during the year
Total applications assuming minimal number approved by Research Board	0	400
Total licenses approved by Research Board	0	400
Revenues	**Amount**	**Amount**
One-time non-refundable application fee of $5,000	$0	$2,000,000
First year tax on license of $10,000	$0	$4,000,000
Total application fees and license taxes at minimum # of licensees	$0	$6,000,000

Medical Marijuana Infused/Extraction Products Manufacturing Facilities

The proposal defines and permits the operation of Medical Marijuana Infused/Extraction Products Manufacturing Facilities. As shown in Table 3 the Research Board may restrict to not less than 50 licenses. No upper limit is established on the number of such facilities that can be licensed. The Research Board is required by Section 3(n) of the proposal to charge an initial one-time non-refundable application fee of $25,000 for the first year license and $20,000 in taxes on the license.

The estimate in Table 7 below assumes:

- The Research Board will initially limit the number of Medical Marijuana Infused/Extraction Products Manufacturing Facilities to the minimum number allowed (50) under the proposal. In the initial years of operation this would enable the Research Board to conservatively allow it to meet its minimum constitutional requirements as it begins its operations and provide time to assess and report on the success of the program before further expansion which is beyond the two-year timeline covered by the Auditor's Office. It is assumed that the Research Board issues all 50 licenses and will collect both the application fee and the tax on the license for each.
- While local governments can request a decrease in the number of facilities in their jurisdiction, it is assumed that the Research Board will still meet the minimum number required.
- Table 2 shows that the Research Board must make application forms available by six months after the effective date of December 31, 2018. This fiscal analysis assumes that the Research Board will take the maximum time allowed to ensure that the applications forms and all rules and regulations are in place before issuing the forms. Therefore, the first revenue from application fees will be deposited beginning after July 1, 2019 in FY 2020.
- No license fees or taxes are assumed for the annual license required for the second year of the license which will occur in FY 2021 for licenses first issued in 2020.
- Since application fees are non-refundable an additional $25,000 will be collected from any applicant that is ultimately refused a license. For example, a 10% refusal rate would mean 5 applications would pay the $25,000 non-refundable fee yet be rejected which would generate an additional $125,000 that is not calculated into this revenue estimate.

The total revenue in application fees and license taxes generated in FY 2020 from the minimum number of facilities that is required is $2,250,000 including:

- $1,250,000 in one-time non-refundable application fees
- $1,000,000 in license taxes

Table 7 - Medical Marijuana Infused/Extraction Manufacturing Products Facilities

Assumptions	**FY 2019**	**FY 2020**
	Applications - forms not required before 6/30/19	Applications Completed during the year
Total applications assuming minimal number approved by Research Board	0	50
Total licenses approved by Research Board	0	50
Revenues	**Amount**	**Amount**
One-time non-refundable application fee of $25,000	$0	$1,250,000
First year tax on license of $20,000	$0	$1,000,000
Total application fees and license taxes at minimum # of licensees	$0	$2,250,000

Medical Marijuana Dispensary Facilities

The proposal defines and permits the operation of Medical Marijuana Dispensary Facilities. As shown in Table 3 the Research Board may restrict to not less than two for every 20,000 inhabitants in a county. No upper limit is established on the number of such facilities that can be licensed. The Research Board is required by Section 3(n) of the proposal to charge an initial one-time non-refundable application fee of $25,000 for the first year license, and $25,000 in taxes on the license.

The estimate in Table 8 is calculated at the maximum number of dispensary licenses. Table 11 then discounts these numbers based on the number of counties that would ask for a reduced allotment of dispensaries, where the population is small and may not economically support multiple dispensaries, and the experience from other states.

Table 8 assumes:

- The Research Board will issue the maximum number of 600 dispensary licenses per the petition in FY 2020 as calculated in the table.
- While local governments can request a decrease in the number of facilities in their jurisdiction, it is assumed that the Research Board will still meet the maximum number allowed.
- Table 2 shows that the Research Board must make application forms available by six months after the effective date of December 31, 2018. This fiscal analysis assumes that the Research Board will take the maximum time allowed to ensure that the applications forms and all rules and regulations are in place before issuing the forms. Therefore, the first revenue from application fees will be deposited beginning after July 1, 2019 in FY 2020.
- No license fees or taxes are assumed for the annual license required for the second year of the license which will occur in FY 2021 for licenses first issued in 2020.
- Since application fees are non-refundable an additional $25,000 will be collected from any applicant that is ultimately refused a license. For example, a 10% refusal rate would mean 60 applications would pay the $25,000 non-refundable fee yet be rejected which would generate an additional $1.5 million that is not calculated into this revenue estimate.
- That all counties with 20,000 or fewer inhabitants will have two dispensaries.
- That a county must reach the next multiple of 20,000 population before it receives two additional dispensaries. Thus, there is a round down not a round up of the calculation. For example, Barry County had a population of 35,597 in 2010. Since it does not reach two multiples (40,000 population) it is eligible for only two dispensaries. Similarly, at less than 60,000, 80,000, 100,000 etc. population a county would be held to 4, 6, and 8 dispensaries.

The total revenue generated from the application fees and license taxes for 600 dispensaries, assuming that all application fees and license taxes are deposited in FY 2020, is $30 million including:

- $15 million in one-time non-refundable application fees
- $15 million in license taxes from the first year's annual license tax

Table 8 - Missouri Population - 2010 Census
Medical Marijuana Dispensary Facilities at 2 per every 20,000 inhabitants

Source: Census 2000 - SF1 and 2010 P.L. 94-171
From Missouri Office of Administration,-Division of Budget and Planning website

However, while 600 dispensaries are authorized given the 2010 Missouri population there are several factors that will work to reduce the number. First, it is possible that some counties will want to limit the number of medical marijuana dispensary facilities. Second, such a facility may not open in every county due to the small number of inhabitants and the economics of businesses being viable in a small market. Missouri has 114 counties plus the City of St. Louis. Table 9 shows the number of authorized dispensaries and the amount of revenue generated by size of county. There are 26 counties with less than 10,000 in population. There are 34 counties with a population between 10,000 and 19,999. Thus, over half of the counties (52%) have populations less than 20,000 inhabitants. Table 9 shows that if no dispensary opened in counties with populations less than 10,000 in population the revenue loss would only be $2.6 million since the majority of dispensaries authorized by population are in areas with greater than 100,000 population.

Table 9 - Revenue from Medical Marijuana Dispensary Facilities by County Size

Missouri county populations	# of counties	% of counties	# of dispensaries	Revenue from dispensary application fees and license taxes
Less than 10,000 population	26	22.6%	52	$2,600,000
From 10,000 and 19,999	34	29.6%	68	$3,400,000
From 20,000 and 39,000	27	23.5%	54	$2,700,000
From 40,000 and 99,999	18	15.7%	92	$4,600,000
100,000 or greater	10	8.7%	334	$16,700,000
Total	115	100.0%	600	$30,000,000

Third, the number of dispensaries authorized by the formula may be more than the experience found in other states with medical marijuana. The states most like Missouri that also have medical marijuana laws are Oregon and Colorado. A number of the states restrict dispensaries to a small number. Other states have local registration, have a different distribution structure, or are too early in their operations to have approved dispensaries in part or in full.

Missouri's population is larger than both Colorado and Oregon. Table 10 shows the U.S. Census Bureau's population estimate for the three states. Table 10 also provides statistics on the need and demand for dispensaries as measured by the number of dispensaries per population in 2015 at the relatively early stages of implementation and per square mile. There were 515 dispensaries in Colorado in 2015 or 1 for every 10,400 people compared to Oregon's 345 dispensaries with 1 for every 11,508 people. This was not much difference in the number of people per dispensary. Colorado had one dispensary per every 201 square miles in the state compared to Oregon's one dispensary per every 278 square miles.

Based on Missouri's population it would have between 527 and 583 dispensaries if it has Oregon or Colorado levels of dispensaries per person. Based on Missouri square miles it would have between 248 and 343 dispensaries. If Missouri experience is at the mid-point of the Oregon and Colorado dispensaries per square mile it would have 287 dispensaries due its smaller geographic area. This calculation produces about half of the number of dispensaries as Table 8 which calculates 600 using the formula in the petition.

TABLE 10 - Estimating Missouri dispensaries from Colorado and Oregon dispensaries

			Missouri Estimates		
	Colorado	Oregon	at Colorado level	at Oregon level	if mid-point
Estimated 2014 population by U.S. Census Bureau	5,355,866	3,970,239	6,063,589	6,063,589	6,063,589
Square miles in state	103,718	95,997	68,886	68,886	68,886
1 dispensary per # population	10,400	11,508	10,400	11,508	10,954
# of dispensaries - 2015	515	345	583	527	554
1 dispensary per # sq. miles	201	278	201	278	240
# of dispensaries - 2015	515	345	343	248	287

The fourth limiting factor is the speed at which the Research Board and the industry proceed. The petition provides for a 90 day window for the initial application period for dispensaries (Section 4(d)iii). Additional 90 day application periods are preceded by a 90 day notice that additional licenses are available (Section 4(d)iv). This phased approach allows the Research Board to control the speed of implementation. This control should ensure that the Research Board obtains a more limited number of applications which it can process within the time limit constraints of license issuance. It also allows for the possibility of a more thorough evaluation of applications. In addition, the Research Board can ensure that the new dispensaries are allowed to become economically viable.

As noted earlier, the petition does not require that application forms be available until six months after the December 31, 2018 effective date which will be June 30, 2019. At the beginning of implementation Marijuana Cultivation Facilities and Marijuana Research Cultivation Facilities are essential to the

operational effects of the proposed petition. Until the cultivation facilities are licensed crop production cannot begin. In addition, even after licensing the facilities will need to be constructed. Once construction is complete a growing season needs to be completed before product is available in the Medical Marijuana Dispensary Facilities.

Fifth, the number of dispensaries authorized by the Research Board should be in sync with the number of qualifying patients to ensure that there are an adequate number of dispensaries for the demand that is generated. The estimates for the number of qualifying patients and designated primary caregivers are explained on pages 15-19 of this analysis. The Research Board must begin approving or denying ID cards no later than September 2019. Based on that analysis it is anticipated that 75% of the possible ID cards will be issued in FY 2020.

Therefore, for the purposes of this fiscal note it is assumed that 450 dispensaries will be licensed in FY 2020 or 75% the 600 authorized. This reflects that the dispensaries are likely to be open for sales for the second half of the year, the multiple application periods provided, the Colorado and Oregon experience and the expected number of qualifying patients. It is also well within the range found in Colorado and Oregon based on the number of dispensaries per square mile and the number of dispensaries per population based on their experience. This phased implementation will allow the Research Board to meet client demand but also conservatively assess it implementation.

Table 11 shows total of $22.5 million in application fees and license taxes are estimated for FY 2020. Additional growth in dispensaries and the revenue generated by application fees and license taxes are likely in FY 2021 but that is beyond the time period required by the Auditor's Office.

Table 11 - Medical Marijuana Dispensary Facilities

Assumptions	**FY 2019**	**FY 2020**
	Applications - forms not required before 6/30/19	Applications Completed during the year
Total applications assuming minimal number approved by Research Board	0	450
Total licenses approved by Research Board	0	450
Revenues	**Amount**	**Amount**
One-time non-refundable application fee of $25,000	$0	$11,250,000
First year tax on license of $25,000	$0	$11,250,000
Total application fees and license taxes at minimum # of licensees	$0	$22,500,000

Patient identification cards and caregiver cards

The proposal requires that the Research Board issue identification cards for qualifying patients and designated primary caregivers. No limit is established on the number of such cards that can be issued. However, a qualifying medical condition must be present as certified in accordance with the procedures outlined in the proposal. Table 12 identifies the two card types, the annual tax, and a reference for the provision in the petition.

Table 12 - Types of Identification Cards

Type Card	Reference and Amount
Qualifying Patient ID card	Section 4 (f) - Annual $100 per issuance increased or decreased by CPI
Designated Primary Caregiver ID card	Section 4 (g) - Annual $100 per issuance increased or decreased by CPI

The Research Board is required to charge an annual tax per year per card. The initial $100 identification card tax shall be increased or decreased by the percentage of increase or decrease in the Consumer Price Index.

In the fiscal notes prepared for medical marijuana bills considered by the Missouri General Assembly and initiative petitions over the past three years, the Department of Health and Senior Services has used Oregon's experience with patient identification cards and caregiver cards as a basis to estimate what might occur in Missouri. DHSS indicated that Oregon had similar ID card language and data was sufficiently available to derive a Missouri estimate. The states most like Missouri that have medical marijuana laws are Oregon and Colorado.

Qualifying patient cards

Table 13 provides information on the number of qualifying patient cards as of the end of FY 2014, FY 2015, and FY 2016 from Colorado and Oregon. In the first two years Colorado had about 113,500 cards which amounted to 2.1% of the population. The number and rate dropped slightly in 2016 possibly due to retail marijuana going into operation. In Oregon the number of cards grew from 64,838 to 72,517 and has decreased slightly in 2016. Oregon has a slightly lower percent of the population of 1.7% for the period. Missouri's population is larger than both Colorado and Oregon.

Table 13 shows that based on the U.S. Census Bureau's population estimates for the three states if the Missouri experience is:

- at Colorado's level we will have 123,731 qualifying patient cards.
- at Oregon's level we will have 102,937 qualifying patient cards
- at the mid-point of the Oregon and Colorado we would have 113,334 cards

Table 13 - Missouri Estimates of Qualifying Patients from Colorado and Oregon Experience

	Estimated 2015 population by U.S. Census Bureau	# of qualifying patient cards	% of population
Colorado			
2014	5,456,574	113,506	2.08%
2015	5,456,574	113,585	2.08%
2016	5,456,574	105,841	1.94%
Oregon			
2014	4,028,977	64,838	1.61%
2015	4,028,977	72,517	1.80%
2016	4,028,977	67,158	1.67%
Missouri			
At Colorado Level	6,083,672	123,731	2.03%
At Oregon Level	6,083,672	102,937	1.69%
At mid-point	6,083,672	113,334	1.86%

Designated Primary Caregiver cards

The Research Board is also responsible for issuing Designated Primary Caregiver identification cards under the provisions of the initiative petition. In its fiscal note on medical marijuana legislation considered by the General Assembly the DHSS used Oregon's experience as a model for its estimate due to the similar mandatory registration provisions. The DHSS has used the number of caregivers and adjusted for Missouri's larger population. In some cases it has also adjusted upward by a factor of 25% due to Missouri's higher chronic disease levels. No adjustment is being made in this fiscal analysis for Missouri's higher chronic disease levels.

Tables 14 and 15 use information from Oregon to estimate the number of Missouri caregiver identification cards. Table 14 shows that the number of Oregon caregiver cards in 2014, 2015, and 2016 amounted to about 0.8% of its population. Adjusting for Missouri's larger population would produce an estimated 49,625 Missouri designated primary caregiver ID cards.

Table 14 - Missouri Designated Primary Caregiver Cards using Oregon Rate

	Oregon 2014	Oregon 2015	Oregon 2016	Missouri estimate if at Oregon rate
Estimated 2014 population by U.S. Census Bureau	4,028,977	4,028,977	4,028,977	6,083,672
# of caregiver cards	32,796	35,864	29,934	49,625
% of population	0.81%	0.89%	0.74%	0.82%

Another way to look at the issue is to look at the rate of caregiver cards compared to the number of qualifying patient cards. Table 15 shows that Oregon caregiver cards were about 50% of the total of qualifying patient cards in 2014 but the rate has been dropping. Using the estimated number of Missouri qualifying patient cards calculated in Table 11, the number of designated primary caregiver cards would total 54,631 if it were 48.2% of the number of qualifying patient cards.

Table 15 - Missouri Designated Caregiver ID cards based on Oregon Experience

	Oregon 2014	Oregon 2015	Oregon 2016	Missouri estimate at Oregon average for care givers
Qualifying patient cards	64,838	72,517	67,158	113,334
Caregiver cards	32,796	35,864	29,934	54,631
Total Qualifying patient and Caregiver cards	97,634	108,381	97,092	167,965
% of caregiver cards to qualifying patients	50.58%	49.46%	44.57%	48.20%

Both Table 14 and Table 15 produce caregiver card numbers in approximately the same number. For purposes of this fiscal note the number of designated primary caregiver ID cards is 52,128, the average of the Table 14 and Table 15 estimates.

Summary of Fee Revenue from Qualifying Patient and Primary Caregiver identification cards
Table 16 estimates the number of qualifying patient and designated primary caregiver cards and the revenue generated in the first two years. The Research Board does not have to make application forms available until June 30, 2019. The latest date that the Research Board can begin accepting such applications is August 31, 2019 which is eight months after the effective date of the petition – Section 3(aa). This fiscal analysis assumes that the Research Board will take the maximum time allowed to ensure that the applications forms and all rules and regulations are in place before issuing the forms. The proposal requires that Research Board approve or deny applications within 30 days - Section 4(f). Therefore, the first revenue from ID card taxes is assumed to be deposited beginning after September 1, 2019 in FY 2020.

Qualifying patients and designated primary caregivers are likely to apply for identification cards closer to the time those facilities will be completed and medical marijuana becomes available for purchase. There are individuals that will want to be early in line for medical and legal reasons.

Section 4(f) and Section 4(g) requires that the Board provide a reason for any denial of an ID card. Section 3(f) provides that it is the duty of the Research Board to promulgate rules to effectuate the provisions of the petition. The rules authorized by Section 3(f), Section 3(i), and Section 3(j) will surely include some description of the reasons that the Research Board will use to deny ID cards. In some states the medical marijuana agency is required or allowed to identify the qualifying medical conditions for which individuals will receive ID cards. Under the provisions of Sections 3 and 4 it seems possible that the Research Board could pick a subset of the qualifying medical conditions identified in Section 2(z)bb for initial implementation. This would allow the Research Board to effectuate its research functions to determine the effectiveness of medical marijuana. The Research Board could add additional qualifying medical conditions over time. Such a process if it were to be used, could substantially reduce the number of qualifying patient ID cards and designated primary caregiver ID cards.

For this fiscal analysis, it is assumed that the Research Board will not limit the ID cards to a subset of the qualifying medical conditions. It is assumed that nine months of applications (September through May) will need to be accepted or rejected by the end of FY 2020. June 2020 applications do not have to be accepted or rejected until July 2020 in FY 2021.

Therefore, 75% of the possible population of qualifying patients and designated primary caregivers are projected to receive their ID cards in FY 2020. An additional one-fourth of the possible ID card population would be phased-in during FY 2021 which is beyond the time period covered by the State Auditor's fiscal note process.

The annual ID card tax is $100. This analysis does not assume identification card growth in the first two years. The petition requires increases or decreases in the annual fee based on CPI changes. However, no inflation/deflation calculation is included in this analysis.

Table 16 estimates that there will be 124,097 qualifying patients (85,001) and designated primary caregiver (39,096) cards issued in FY 2020. Table 16 estimates that $12.4 million will be collected in FY 2020 including:

- $8.5 million in FY 2020 for qualifying patents
- $3.9 million in FY 2020 for designated primary caregivers

Table 16 - Revenue Estimate for Qualifying Patient and Designated Primary Caregiver ID Cards

	FY 2019	FY 2020
Date of applications	Applications forms not required before 6/30/19	Applications possibly open all year depending on application form of Research Board
Estimate of qualifying patient population	113,334	113,334
Estimate of designated primary caregivers population	52,128	52,128
% of applications submitted by total expected qualifying patients and designated primary caregivers	0.0%	75.0%
Estimate of qualifying patient population receiving ID cards	0	85,001
Estimate of designated primary caregivers population receiving ID cards	0	39,096
Card tax - initial year	$100	$100
Revenues		
Qualifying Patients	$0	$8,500,100
Designated Primary Caregivers	$0	$3,909,600
Total	$0	$12,409,700

Tax Revenues

Colorado and Oregon have been used throughout this analysis as the benchmark states for comparison to Missouri's possible experience. Oregon does not tax medical marijuana sales so it has no data that can be used to help estimate Missouri sales. Table 17 shows that Colorado state tax collections for medical marijuana was $10.6 million in FY 2014, $10.4 million in FY 2015, and $12.2 million in FY 2016. With the implementation of retail marijuana in Colorado some negative effect was expected in the medical marijuana program. However, revenue collections increase by $1.7 million even though the number of qualifying patients went down by about 7,700. Table 17 shows that the dollars spent per month in Colorado per identification cardholder increased from $263 to $330.

FY 2016 Colorado taxes medical marijuana at 2.9% and has explicit accounting of those revenues on its website. To generate $10.4 million in FY 2015 with a 2.9% sales tax the economic value that was taxed would need to be $358.9 million. This computes to $3,160 per cardholder per year or $263 per month per cardholder in 2015.

Table 17 - Colorado Taxes and Economic Activity for Medical Marijuana

	Colorado 2014	Colorado 2015	Colorado 2016
State tax revenue collected from medical marijuana	$10,562,577	$10,409,340	$12,150,626
Colorado Sales Tax Rate	2.9%	2.9%	2.9%
Implied economic value taxed in Colorado sales	$364,226,793	$358,942,759	$418,987,103
Colorado Patient and care giver cards	113,506	113,585	105,841
$ per Colorado identification cardholder for year	$3,209	$3,160	$3,959
$ per Colorado identification cardholder for month	$267	$263	$330

The national consulting firm TrippUmbach completed an economic study of a similar Missouri initiative petition submission in the 2016 election cycle that was submitted to the State Auditor's office for review.[1] It estimated that the price of medical marijuana would range from $7 per gram on the low end to $30 per gram on the high end. Table 18 converts the per gram price to an ounce to get numbers comparable to the figures in Table 17 for Colorado. The Colorado $330/month spending would provide about 1.68 ounces at the TrippUmbach low price estimate. The petition allows the Research Board to set a limit on purchases as long as it is no less than three ounces per month. However, it is not clear if the average Colorado patient purchases one ounce per month or some other amount.

Table 18 - TrippUmbach Estimate of Medical Marijuana Price

	Low estimate	High estimate
Price per gram	$7	$30
Grams per ounce of marijuana	28	28
Cost of one ounce of marijuana	$196	$840

The websites of several Colorado dispensaries were checked for prices on November 16, 2016. They are listed below with a link to the website.

Dank – Denver. Prices $7 to $10 per gram
https://weedmaps.com/dispensaries/dank

Green Man Cannabis -Denver. Prices $10 to $13 per gram
http://greenmancannabis.com/downtown-medical-menu/

mmr america – Denver and Boulder. Prices $5 to $11 per gram
http://mmjamerica.com/pricing/

The Farm – Denver. Prices $14 to $18 per gram
http://thefarmco.com/wp-content/uploads/2016/11/Farmdailymenu11162016.pdf

Comparison shopper site – Prices for medical marijuana $12 to $56 per gram depending on quality
http://budzu.com/prices/usa/colorado

Table 19 shows that there is a wholesale tax and a retail sales tax outlined in Section 4 of the petition.

Table 19 - Taxes on Sales - Wholesale and Retail

Type tax	Description
Wholesale tax	Section 4 (a) - A cultivation tax is imposed on each wholesale sale. $9.25 per dry weight ounce on marijuana flowers. $2.75 per dry weight ounce on marijuana leaves.
Retail sales tax	Section 4 (b) - 15% retail tax

Wholesale Tax Revenues

Table 20 shows calculations necessary to estimate the wholesale tax revenues that will be received under the petition.

- Table 17 shows the dollars spent per qualifying patient in Colorado for the past three years – ranging from $267 in 2014 to $330 in 2016.
- For the purposes of Table 20 the average of $287 for those years is used for the Missouri calculations.
- Table 20 uses three different prices per quarter ounce paid based on searches of the Colorado dispensary websites identified above. The one ounce price is then calculated.
- Based on the $287 average spent per month in Colorado the number of ounces of marijuana purchased by month and by year differs by price. For example, at $50 per quarter ounce the average cardholder could purchase 1.44 ounces of marijuana monthly compared to only 0.80 ounces at $90 per quarter ounce. Similarly, at $50 per quarter ounce the average cardholder could purchase 17.22 ounces of marijuana annually compared to only 9.57 ounces at $90 per quarter ounce.
- The Missouri estimate of 85,001 qualifying patients would purchase between 813,460 and 1,463,717 ounces of marijuana based on the Colorado rate of purchase and the three price levels shown.
- However, as explained for the calculations in Table 16, it is assumed that applications will first be accepted in September 2019. If the qualifying patients come in at the same rate each month that will provide about 9,445 qualifying patients per month. Assuming a 30-day turnaround as required for issuance of the card those qualifying patients will start buying medical marijuana in October 2019. Those first cardholders will be able to buy for 9 months during FY 2020. Each month's cohort gets one fewer month of buying as it is processed. May applicants will have only one month to purchase. The average available months to purchase for the FY 2020 applicants is five months – about 42% of the year. The discounted ounces purchased in FY 2020 as it phases-in ranges between 338,941 and 609,882 ounces based at the three price levels.
- The wholesale tax is different for marijuana flowers vs leaves as show in Table 19.
- If the entire purchase is of marijuana flowers the wholesale tax would provide between $7.5 million and $13.5 million annually depending on the average price per ounce.
- If the entire purchase is of marijuana leaves the wholesale tax would provide between $2.2 million and $4.0 million annually depending on the average price per ounce.

- The University of Washington School of Law prepared a study for the Washington State Liquor and Cannabis Board on the medical marijuana market.[2] After extensive surveys and data analysis they concluded that in the Washington market that flower sales are responsible for 70% of the sales and leaves and other parts of the plant provide 30% of the market. If the purchase is 70% flowers and 30% leaves the wholesale tax would provide between $5.9 million and $10.7 million annually depending on the average price per ounce.

For purposes of this fiscal note a total of $3.18 million is assumed for the wholesale tax for 70% flowers/30% leaves discounted by the middle price and average of available months of purchase for those receiving a card in FY 2020.

Table 20 - Missouri Wholesale Tax Revenue Estimate

$ per Colorado identification cardholder for month - average 2014 to 2016	$287	$287	$287
Average price per 1/4 ounce - range	$50	$70	$90
Average price per ounce - range	$200	$280	$360
Average amount purchased in ounces - monthly Colorado cardholder	1.44	1.03	0.80
Average amount purchased in ounces - annually Colorado cardholder	17.22	12.30	9.57
Estimated Missouri qualifying patient cardholders in FY 2020 (Table 13)	85,001	85,001	85,001
Estimated ounces purchased annually by Missouri qualifying patient cardholders in FY 2020 if at annual Colorado rate	1,463,717	1,045,512	813,460
Discount to average available months of purchase for qualifying patients phased in equally per month beginning in September 2019	5	5	5
Estimated ounces purchased by Missouri qualifying patient cardholders in FY 2020 discounted by average available months of purchase	609,882	435,630	338,941
Wholesale tax per ounce - 100% flowers sold	$9.25	$9.25	$9.25
Wholesale tax receipts - 100% flowers sold annual	$13,539,384	$9,670,989	$7,524,501
Wholesale tax receipts - 100% flowers sold due to phase-in	$5,641,410	$4,029,579	$3,135,209
Wholesale tax per ounce - 100% leaves sold	$2.75	$2.75	$2.75
Wholesale tax receipts - 100% leaves sold	$4,025,222	$2,875,159	$2,237,014
Wholesale tax receipts - 100% leaves sold due to phase-in	$1,677,176	$1,197,983	$932,089
Wholesale tax receipts - 70% flowers/30% leaves	$10,685,136	$7,632,240	$5,938,255
Wholesale tax receipts - 70% flowers/30% leaves sold due to phase-in	$4,452,140	$3,180,100	$2,474,273

Retail Tax Revenues

Table 21 shows calculations necessary to estimate the retail tax revenues that will be received under the petition.

- Table 17 shows the dollars spent per qualifying patient in Colorado for the past three years – ranging from $267 in 2014 to $330 in 2016.
- For the purposes of Table 21 the average of $287 for those years is used for the Missouri calculations.
- Based on the $287 average spent per month in Colorado and an estimate of 85,001 cardholders spending who will be spending for five months, the total value of the sales taxed is $122 million.
- The 15% retail sales tax is $18.3 million on those sales.

Table 21 - Missouri Retail Marijuana Tax Revenue Estimate

Assumptions	FY 2019	FY 2020
Estimated Missouri qualifying patient cardholders (Table 13)	85,001	85,001
$ per cardholder for month	$287	$287
Number of months of purchases by applicants	0	5
Value of sales taxed	$0	$121,976,435
Retail sales tax rate	15.0%	15.0%
Retail sales tax revenue - estimated	$0	$18,296,465

Other State Revenue or Local Revenue

Taxes or Fees for State Funds
Section 4(i) states that "No taxes or fees shall be imposed on the sale of medical marijuana except as provided in the Article." The revenue defined in the petition is all deposited to the Biomedical Research and Drug Development Institute Trust Fund and its specified subaccounts. Therefore, no state general revenue or revenue for other state funds with dedicated taxes (Conservation, Parks/Soils, Prop C) are estimated as the petition precludes other fees and taxes.

Local Revenue
Section 4(i) states that "No taxes or fees shall be imposed on the sale of medical marijuana except as provided in the Article." Therefore, no state general revenue, other state funds, or local revenue are estimated as the petition precludes other fees and taxes. The revenue defined in the petition is all deposited to the Biomedical Research and Drug Development Institute Trust Fund and its specified subaccounts. Therefore, no local sales tax revenue is estimated as the petition precludes other fees and taxes.

Local fees or licenses for doing business, code compliance enforcement, or other purposes that currently exist, and that are not directly imposed on the sale of medical marijuana, appear to be allowable. A estimate of these revenues is not herein provided because of their wide variability and use in local governments across the state.

Section 10 Revenue – Public-Private Collaborative Ventures
Section 10 of the petition prescribes that certain revenue of the Research Board be deposited into the Biomedical Research and Drug Development Trust Fund-Section 10 Account. These funds are made available by formula to specific state purposes.

The revenues going into the Section 10 Account include:

- A percentage of gross revenue or profits derived from the participating research entities cures or treatments – Section 10(b).
- Funds at the Research Board's discretion resulting from its own efforts to "own, make, produce, develop, market, distribute, license, and sell cures, goods, services and products, both of a medical and non-medical nature." – Section 10(c).
- Any actual, consequential, or punitive damages caused to the Research Board by entities violating specific provisions of the petition. – Section 10(e).

The purposes to which the Section 10 Account are annually directed and distributed include:

- 50% to the Biomedical Research and Drug Development Trust Fund-General Purpose Account
- 6.25% for Missouri state roads and bridges infrastructure repairs.
- 6.25% for public pre-school programs, public elementary and secondary school programs, and to provide grants to in-state Missouri students to attend state institutions of higher education governed by sections 172.020 to 172.500 RSMo, and Chapter 172 RSMo. The Department of Higher Education responded to a fiscal note for a similar petition in the 2016 election cycle that this language does not include Lincoln University, Truman State University, State Technical College of Missouri, and all of the community colleges except for Missouri State University-West Plains.
- 6.25% for funding medical care for Missouri residents.
- 6.25% to fund Missouri public employee retirement trust funds.
- 25% to be refunded to Missouri state income tax paying citizens who have paid $500 or more in income taxes. Payment is made up to the total amount of the income tax paid. Any residual

amount above that needed for that formula shall be paid equally to all Missouri state income tax paying residents.

No estimate has been made for the possible revenues of Section 10. These revenues will be derived from Public-Private Collaborative Ventures. Section 10 is devoted to long-term development by the Research Board. No revenue is likely to be received in FY 2019 or FY 2020 during the 18 months the provisions of this act will be effective (December 31, 2018 to June 30, 2020). Any such revenues will arrive beyond the time period covered by the State Auditor's fiscal note process.

Other Economic Impacts

TrippUmbach completed an economic study of a similar Missouri initiative petition submission in the 2016 election cycle that was submitted to the State Auditor's office for review. That study included projections of significant additional economic impacts related to the work of the Research Board. The economic multiplier effect of the industry in Missouri would be significant. However, the revenues related to those effects is not included in this analysis.

The Honorable Nicole Galloway
State Auditor
State Capitol Building
Jefferson City, MO 65101

RE: Petition approval request from Sheila Dundon regarding a proposed constitutional amendment to Article XVI (2018-040)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Sheila Dundon on November 18, 2016.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

Jason Kander

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Article XVI is created by enacting one new section to be known as Section 1 of Article XVI, to read as follows:

Section 1. Right to Access Medical Marijuana

1. **Purposes**

This section is intended to permit state-licensed physicians to recommend marijuana for medical purposes to patients with serious illnesses and medical conditions. The section allows patients with qualifying medical conditions the right to discuss freely with their physicians the possible benefits of medical marijuana use, the right of their physicians to provide professional advice concerning the same, and the right to use medical marijuana for treatment under the supervision of a physician.

This section is intended to make only those changes to Missouri laws that are necessary to protect patients, their primary caregivers, and their physicians from civil and criminal penalties, and to allow for the limited legal production, distribution, sale and purchase of marijuana for medical use. This section is not intended to change current civil and criminal laws governing the use of marijuana for nonmedical purposes. The section does not allow for the public use of marijuana and driving under the influence of marijuana.

2. **Definitions**

(1) "Administer" means the direct application of marijuana to a Qualifying Patient by way of any of the following methods:

(a) Ingestion of capsules, teas, oils, and other marijuana-infused products;

(b) Vaporization or smoking of dried flowers, buds, plant material, extracts, or oils;

(c) Application of ointments or balms;

(d) Transdermal patches and suppositories;

(e) Consuming marijuana-infused food products; or

(f) Any other method recommended by a Qualifying Patient's physician.

(2) "Department" means the Department of Health and Senior Services, or its successor agency.

(3) "Entity" means a natural person, corporation, professional corporation, nonprofit corporation, cooperative corporation, unincorporated association, business trust, limited liability company, general or limited partnership, limited liability partnership, joint venture, or any other legal entity.

(4) "Flowering plant" means a marijuana plant from the time it exhibits the first signs of sexual maturity through harvest.

(5) "Marijuana" or "Marihuana" means *Cannabis indica*, *Cannabis sativa*, and *Cannabis ruderalis*, hybrids of such species, and any other strains commonly understood within the scientific community to constitute marijuana, as well as resin extracted from the plant and marijuana-infused products. "Marijuana" or "Marihuana" do not include industrial hemp containing a crop-wide average tetrahydrocannabinol concentration that does not exceed three-tenths of one percent on a dry weight basis, or commodities or products manufactured from industrial hemp.

(6) "Marijuana-Infused Products" means products that are infused with marijuana or an extract thereof and are intended for use or consumption other than by smoking, including, but not limited to, edible products, ointments, tinctures and concentrates.

(7) "Medical Marijuana Cultivation Facility" means a facility licensed by the Department, to acquire, cultivate, process, store, transport, and sell marijuana to a Medical

Marijuana Dispensary Facility, Medical Marijuana Testing Facility, or to a Medical Marijuana-Infused Products Manufacturing Facility.

(8) "Medical Marijuana Dispensary Facility" means a facility licensed by the Department, to acquire, store, sell, transport, and deliver marijuana, marijuana-infused products, and drug paraphernalia used to administer marijuana as provided for in this section to a Qualifying Patient, a Primary caregiver, another Medical Marijuana Dispensary Facility, a Medical Marijuana Testing Facility, or a Medical Marijuana-Infused Products Manufacturing Facility.

(9) "Medical Marijuana-Infused Products Manufacturing Facility" means a facility licensed by the Department, to acquire, store, manufacture, transport, and sell marijuana-infused products to a Medical Marijuana Dispensary Facility, a Medical Marijuana Testing Facility, or to another Medical Marijuana-Infused Products Manufacturing Facility.

(10) "Medical Marijuana Testing Facility" means a facility certified by the Department, to acquire, test, certify, and transport marijuana.

(11) "Medical use" means the production, possession, delivery, distribution, transportation, or administration of marijuana or a marijuana-infused product, or drug paraphernalia used to administer marijuana or a marijuana-infused product, for the benefit of a Qualifying Patient to mitigate the symptoms or effects of the patient's qualifying medical condition.

(12) "Physician" means an individual who is licensed and in good standing to practice medicine or osteopathy under Missouri law.

(13) "Physician certification" means a document, whether handwritten, electronic or in another commonly used format, signed by a physician and stating that, in the physician's professional opinion, the patient suffers from a qualifying medical condition.

(14) "Primary caregiver" means an individual twenty-one years of age or older who has significant responsibility for managing the well-being of a Qualifying Patient and who is designated as such on the primary caregiver's application for an identification card under this section or in other written notification to the Department.

(15) "Qualifying medical condition" means the condition of, symptoms related to, or side-effects from the treatment of:

(a) Cancer;

(b) Epilepsy;

(c) Glaucoma;

(d) Intractable migraines unresponsive to other treatment;

(e) A chronic medical condition that causes severe, persistent pain or persistent muscle spasms, including but not limited to those associated with multiple sclerosis, seizures, Parkinson's disease, and Tourette's syndrome;

(f) Debilitating psychiatric disorders, including, but not limited to, post-traumatic stress disorder, if diagnosed by a state licensed psychiatrist;

(g) Human immunodeficiency virus or acquired immune deficiency syndrome;

(h) A chronic medical condition that is normally treated with a prescription medication that could lead to physical or psychological dependence, when a physician determines that medical use of marijuana could be effective in treating that condition and would serve as a safer alternative to the prescription medication;

(i) Any terminal illness; or

(j) In the professional judgment of a physician, any other chronic, debilitating or other medical condition, including, but not limited to, hepatitis C, amyotrophic lateral sclerosis, inflammatory bowel disease, Crohn's disease, Huntington's disease, autism, neuropathies, sickle cell anemia, agitation of Alzheimer's disease, cachexia, and wasting syndrome.

(16) "Qualifying Patient" means a Missouri resident diagnosed with at least one qualifying medical condition.

3. **Creating Patient Access to Medical Marijuana**

(1) In carrying out the implementation of this section, the Department shall have the authority to:

(a) Grant or refuse state licenses and certifications for the cultivation, manufacture, dispensing, sale, testing, tracking, and transportation of marijuana for medical use as provided by law; suspend, fine, restrict, or revoke such licenses and certifications upon a violation of this section or a rule promulgated pursuant to this section; and impose any administrative penalty authorized by this section or any rule promulgated pursuant to this section.

(b) Promulgate rules and emergency rules necessary for the proper regulation and control of the cultivation, manufacture, dispensing, and sale of marijuana for medical use and for the enforcement of this section so long as patient access is not restricted unreasonably and such rules are reasonably necessary for patient safety or to restrict access to only licensees and Qualifying Patients.

(c) Develop such forms, certificates, licenses, identification cards, and applications as are necessary for, or reasonably related to, the administration of this section or any of the rules promulgated under this section;

(d) Require a seed-to-sale tracking system that tracks medical marijuana from either the seed or immature plant stage until the medical marijuana or medical marijuana-infused product is sold to a Qualifying Patient or Primary Caregiver to ensure that no medical marijuana grown by a Medical Marijuana Cultivation Facility or manufactured by a Medical Marijuana-Infused Products Manufacturing Facility is sold or otherwise transferred except by a Medical Marijuana Dispensary Facility. The Department shall certify, if possible, at least two commercially available systems to licensees as compliant with its tracking standards and issue standards for the creation or use of other systems by licensees.

(e) Issue standards for the secure transportation of Marijuana and Marijuana-Infused Products. The Department shall certify entities which demonstrate compliance with its transportation standards to transport Marijuana and Marijuana-Infused Products to a Medical Marijuana Cultivation Facility, a Medical Marijuana-Infused Products Manufacturing Facility, a Medical Marijuana Dispensary Facility, a Medical Marijuana Testing Facility, or another entity with a transportation certification. The Department shall develop or adopt from any other governmental agency such safety and security standards as are reasonably necessary for the transportation of marijuana. Any entity licensed or certified pursuant to this section shall be allowed to transport cannabis.

(f) The Department may charge a fee not to exceed $5,000 for any certification issued pursuant to this section.

(g) Prepare and transmit annually a publicly available report accounting to the Governor for the efficient discharge of all responsibilities assigned to the Department under this section;

(h) Establish a system to numerically score competing medical marijuana licensee and certificate applicants, only in cases where more applicants apply than the minimum number of licenses or certificates as calculated by this section, which scoring shall be limited to an analysis of the following: (i) the character, veracity, background, qualifications, and relevant experience of principal officers or managers; (ii) the business plan proposed by the applicant, which in the case of cultivation facilities and dispensaries shall include the ability to maintain an adequate supply of marijuana, plans to ensure safety and security of Qualifying Patients and the community, procedures to be used to prevent diversion, and any plan for making Marijuana available to low-income Qualifying Patients; (iii) site security; (iv) experience in a legal cannabis market; (v) in the case of Medical Marijuana Testing Facilities, the experience of their personnel with testing marijuana, food or drugs for toxins and/or potency and health care industry experience; (vi) the potential for positive economic impact in the site community; (vii) in the case of Medical Marijuana Cultivation Facilities, capacity or experience with agriculture, horticulture, and health care; (viii) in the case of Medical Marijuana Dispensary Facilities, capacity or experience with health care, the suitability of the proposed location, and its accessibility for patients; (ix) in the case of Medical Marijuana-Infused Products Manufacturing Facilities, capacity or experience with food and beverage manufacturing; and (x) maintaining competitiveness in the marijuana for medical use marketplace. In ranking applicants and awarding licenses and certificates, the Department may consult or contract with other public agencies with relevant expertise regarding these factors. The Department shall lift or ease any limit on the number of licensees or certificate holders in order to meet the demand for marijuana for medical use by Qualifying Patients.

(2) The Department shall issue any rules or emergency rules necessary for the implementation and enforcement of this section and to ensure the right to, availability, and safe use of marijuana for medical use by Qualifying Patients. In developing such rules or emergency rules, the Department may consult with other public agencies. In addition to any other rules or emergency rules necessary to carry out the mandates of this section, the Department may issue rules or emergency rules relating to the following subjects:

(a) Compliance with, enforcement of, or violation of any provision of this section or any rule issued pursuant to this section, including procedures and grounds for denying, suspending, fining, restricting, or revoking a state license or certification issued pursuant to this section;

(b) Specifications of duties of officers and employees of the Department;

(c) Instructions or guidance for local authorities and law enforcement officers;

(d) Requirements for inspections, investigations, searches, seizures, and such additional enforcement activities as may become necessary from time to time;

(e) Creation of a range of administrative penalties for use by the Department;

(f) Prohibition of misrepresentation and unfair practices;

(g) Control of informational and product displays on licensed premises provided that the rules may not prevent or unreasonably restrict appropriate signs on the property of the Medical Marijuana Dispensary Facility, product display and examination by the Qualifying Patient and/or Primary caregiver, listings in business directories including phone books, listings in marijuana-related or medical publications, or the sponsorship of health or not for profit charity or advocacy events;

(h) Development of individual identification cards for owners, officers, managers, contractors, employees, and other support staff of entities licensed or certified pursuant to this section, including a fingerprint-based federal and state criminal record check in accordance with U.S. Public Law 92-544, or its successor provisions, as may be required by the Department prior to issuing a card and procedures to ensure that cards for new applicants are issued within fourteen days. Applicants licensed pursuant to this section shall submit fingerprints to the Missouri state highway patrol for the purpose of conducting a state and federal fingerprint-based criminal background check. The Missouri state highway patrol, if necessary, shall forward the fingerprints to the Federal Bureau of Investigation (FBI) for the purpose of conducting a fingerprint-based criminal background check. Fingerprints shall be submitted pursuant to 43.543 and fees shall be paid pursuant to 43.530;

(i) Security requirements for any premises licensed or certified pursuant to this section, including, at a minimum, lighting, physical security, video, alarm requirements, and other minimum procedures for internal control as deemed necessary by the Department to properly administer and enforce the provisions of this section, including reporting requirements for changes, alterations, or modifications to the premises;

(j) Regulation of the storage of, warehouses for, and transportation of marijuana for medical use;

(k) Sanitary requirements for, including, but not limited to, the preparation of medical Marijuana-Infused Products;

(l) The specification of acceptable forms of picture identification that a Medical Marijuana Dispensary Facility may accept when verifying a sale;

(m) Labeling and packaging standards;

(n) Records to be kept by licensees and the required availability of the records;

(o) State licensing procedures, including procedures for renewals, reinstatements, initial licenses, and the payment of licensing fees;

(p) The reporting and transmittal of tax payments;

(q) Authorization for the Department of Revenue to have access to licensing information to ensure tax payment and the effective administration of this section; and

(r) Such other matters as are necessary for the fair, impartial, stringent, and comprehensive administration of this section.

(3) The Department shall issue rules or emergency rules for a medical marijuana and medical marijuana-infused products independent testing and certification program for medical marijuana licensees and requiring licensees to test medical marijuana using one or more impartial, independent laboratories to ensure, at a minimum, that products sold for human consumption do not contain contaminants that are injurious to health, to ensure correct labeling and measure potency. The Department shall not require any medical marijuana or medical marijuana-infused products to be tested more than once prior to sale.

(4) The Department shall issue rules or emergency rules to provide for the certification of and standards for Medical Marijuana Testing Facilities, including the requirements for equipment and qualifications for personnel, but shall not require certificate holders to have any federal agency licensing or have any relationship with a federally licensed testing facility. The Department shall certify, if possible, at least two entities as Medical Marijuana Testing Facilities. No Medical Marijuana Testing Facility shall be owned by an entity under substantially common control, ownership, or management as

a Medical Marijuana Cultivation Facility, Medical Marijuana-Infused Product Manufacturing Facility, or Medical Marijuana Dispensary Facility.

(5) The Department shall maintain the confidentiality of reports or other information obtained from an applicant or licensee containing any individualized data, information, or records related to the licensee or its operation, including sales information, financial records, tax returns, credit reports, cultivation information, testing results, and security information and plans, or revealing any patient information, or any other records that are exempt from public inspection pursuant to state or federal law. Such reports or other information may be used only for a purpose authorized by this section. Any information released related to patients may be used only for a purpose authorized by federal law and this section, including verifying that a person who presented a patient identification card to a state or local law enforcement official is lawfully in possession of such card.

(6) Within one hundred eighty days of the effective date of this section, the Department shall make available to the public license application forms and application instructions for Medical Marijuana Cultivation Facilities, Medical Marijuana Testing Facilities, Medical Marijuana Dispensary Facilities, and Medical Marijuana-Infused Products Manufacturing Facilities.

(7) Within one hundred eighty days of the effective date of this section, the Department shall make available to the public application forms and application instructions for Qualifying Patient, Qualifying Patient cultivation, and Primary caregiver identification cards. Within two hundred ten days of the effective date of this section, the Department shall begin accepting applications for such identification cards.

(8) An entity may apply to the Department for and obtain one or more licenses to grow marijuana as a Medical Marijuana Cultivation Facility. Each facility in operation shall require a separate license, but multiple licenses may be utilized in a single facility. Each indoor facility utilizing artificial lighting may be limited by the Department to thirty thousand square feet of flowering plant canopy space. Each outdoor facility utilizing natural lighting may be limited by the Department to two thousand eight hundred flowering plants. Each greenhouse facility using a combination of natural and artificial lighting may be limited by the Department, at the election of the licensee, to two thousand eight hundred flowering plants or thirty thousand square feet of flowering plant canopy. The license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The Department shall charge each applicant a non-refundable fee of ten thousand dollars per license application or renewal for all applicants filing an application within three years of the effective date of this section and shall charge each applicant a non-refundable fee of five thousand dollars per license application or renewal thereafter. Once granted, the Department shall charge each licensee an annual fee of twenty-five thousand dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. No more than three Medical Marijuana Cultivation Facility licenses shall be issued to any entity under substantially common control, ownership, or management.

(9) An entity may apply to the Department for and obtain one or more licenses to operate a Medical Marijuana Dispensary Facility. Each facility in operation shall require a separate license. A license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The Department shall charge each applicant a non-refundable fee of six thousand dollars per license application or renewal for each applicant filing an application within three years of the effective date of this section and shall charge each applicant a non-refundable fee of three thousand dollars per license application or renewal thereafter. Once granted, the Department shall charge each licensee an annual fee of ten thousand dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. No more than five Medical Marijuana Dispensary Facility licenses shall be issued to any entity under substantially common control, ownership, or management.

(10) An entity may apply to the Department for and obtain one or more licenses to operate a Medical Marijuana-Infused Products Manufacturing Facility. Each facility in operation shall require a separate license. A license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The Department shall charge each applicant a non-refundable fee of six thousand dollars per license application or renewal for each applicant filing an application within three years of the effective date of this section and shall charge each applicant a non-refundable fee of three thousand dollars per license application or renewal thereafter. Once granted, the Department shall charge each licensee an annual fee of ten thousand dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. No more than three Medical Marijuana-Infused Products Manufacturing Facility licenses shall be issued to any entity under substantially common control, ownership, or management.

(11) Any applicant for a license authorized by this section may pre-file their application fee with the Department beginning 30 days after the effective date of this section.

(12) Except for good cause, a Qualifying Patient or his or her Primary caregiver may obtain an identification card from the Department to cultivate up to six flowering marijuana plants for the exclusive use of that Qualifying Patient. The card shall be valid for twelve months from its date of issuance and shall be renewable with the annual submittal of a new or updated physician's certification. The Department shall charge an annual fee for the card of one hundred dollars, with such rate to be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency.

(13) The Department may set a limit on the amount of marijuana that may be purchased by or on behalf of a single Qualifying Patient in a thirty day period, provided that limit is not less than four ounces of dried, unprocessed marijuana, or its equivalent. Any such limit shall not apply to a Qualifying Patient with written certification from two independent physicians that there are compelling reasons why the Qualifying Patient needs a greater amount than the limit established by the Department.

(14) The Department may set a limit on the amount of marijuana that may be possessed by or on behalf of each qualifying patient, provided that limit is not less than a sixty day supply of dried, unprocessed marijuana, or its equivalent. A Primary caregiver may possess a separate legal limit for each Qualifying Patient under their care and a separate legal limit for themselves if they are a Qualifying Patient. Qualifying Patients cultivating marijuana for medical use may possess up to a ninety day supply, so long as the supply remains on property under their control. Any such limit shall not apply to a Qualifying Patient with written certification from two independent physicians that there are compelling reasons for additional amounts. Possession of between the legal limit and up to twice the legal limit shall subject the possessor to Department sanctions, including an administrative penalty and loss of their patient identification card for up to a year. Purposefully possessing amounts in excess of twice the legal limit shall be punishable by imprisonment of up to one year and a fine of up to two thousand dollars.

(15) The Department may restrict the aggregate number of licenses granted for Medical Marijuana Cultivation Facilities, provided, however, that the number may not be limited to fewer than one license per every one hundred thousand inhabitants, or any portion thereof, of the state of Missouri, according to the most recent census of the United States. A decrease in the number of inhabitants in the state of Missouri shall have no impact.

(16) The Department may restrict the aggregate number of licenses granted for Marijuana-Infused Products Manufacturing Facilities, provided, however, that the number may not be limited to fewer than one license per every seventy thousand inhabitants, or any portion thereof, of the state of Missouri, according to the most

recent census of the United States. A decrease in the number of inhabitants in the state of Missouri shall have no impact.

(17) The Department may restrict the aggregate number of licenses granted for Medical Marijuana Dispensary Facilities, provided, however, that the number may not be limited to fewer than twenty-four licenses in each United States Congressional district in the state of Missouri pursuant to the map of each of the eight congressional districts as drawn and effective on the effective date of this section. Future changes to the boundaries of or the number of congressional districts shall have no impact.

(18) The Department shall begin accepting license and certification applications for Medical Marijuana Dispensary Facilities, Medical Marijuana Testing Facilities, Medical Marijuana Cultivation Facilities, Medical Marijuana-Infused Products Manufacturing Facilities, seed-to-sale tracking systems, and for transportation of marijuana no later than two hundred forty days after the effective date of this section. Applications for licenses and certifications under this section shall be approved or denied by the Department no later than one hundred fifty days after their submission. If the Department fails to carry out its non-discretionary duty to approve or deny an application within one hundred fifty days of submission, an applicant may immediately seek a court order compelling the Department to approve or deny the application.

(19) Qualifying Patients under this section shall obtain and annually renew an identification card or cards from the Department. The Department shall charge a fee of twenty-five dollars per year per card with such fee to be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor or its successor agency. Upon receiving an application for a Qualifying Patient identification card or Qualifying Patient cultivation identification card, the Department shall, within thirty days, either issue the card or provide a written explanation for its denial. If the Department fails to deny and fails to issue a card to an eligible Qualifying Patient within thirty days, then their physician certification shall serve as their Qualifying Patient identification card or Qualifying Patient cultivation identification card for up to one year from the date of physician certification. All initial applications for or renewals of a Qualifying Patient identification card or Qualifying Patient cultivation identification card shall be accompanied by a physician certification that is less than thirty days old.

(20) Primary caregivers under this section shall obtain and annually renew an identification card from the Department. The Department shall charge a fee of twenty-five dollars per year, with such fee to be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. Upon receiving an application for a Primary caregiver identification card, the Department shall, within thirty days, either issue the card or provide a written explanation for its denial.

(21) All marijuana for medical use sold in Missouri shall be cultivated in a licensed Medical Marijuana Cultivation Facility located in Missouri.

(22) All marijuana-infused products for medical use sold in the state of Missouri shall be manufactured in a Medical Marijuana-Infused Products Manufacturing Facility.

(23) The denial of a license, license renewal, or identification card by the Department shall be appealable to the Administrative Hearing Commission, or its successor entity. Following the exhaustion of administrative review, denial of a license, license renewal, or identification card by the Department shall be subject to judicial review as provided by law.

(24) No elected official shall interfere directly or indirectly with the Department's obligations and activities under this section.

(25) The Department shall not have the authority to apply or enforce any rule or regulation that would impose an undue burden on any one or more licensees or

certificate holders, any Qualifying Patients, or act to undermine the purposes of this section.

4. **Taxation and Reporting**

(1) A tax is levied upon the retail sale of marijuana for medical use sold at Medical Marijuana Dispensary Facilities within the state. The tax shall be at a rate of four percent of the retail price. The tax shall be collected by each licensed Medical Marijuana Dispensary Facility and paid to the Department of Revenue. After retaining no more than five percent for its actual collection costs, amounts generated by the tax levied in this section shall be deposited by the Department of Revenue into the Missouri Veterans' Health and Care Fund. Licensed entities making retail sales within the state shall be allowed approved credit for returns provided the tax was paid on the returned item and the purchaser was given the refund or credit.

(2) There is hereby created in the state treasury the "Missouri Veterans' Health and Care Fund," which shall consist of taxes and fees collected under this section. The State Treasurer shall be custodian of the fund, and he or she shall invest monies in the fund in the same manner as other funds are invested. Any interest and monies earned on such investments shall be credited to the fund. Notwithstanding any other provision of law, any monies remaining in the fund at the end of a biennium shall not revert to the credit of the general revenue fund. The Commissioner of Administration is authorized to make cash operating transfers to the fund for purposes of meeting the cash requirements of the Department in advance of it receiving annual application, licensing, and tax revenue, with any such transfers to be repaid as provided by law. The fund shall be a dedicated fund and shall stand appropriated without further legislative action as follows:

(a) First, to the Department, an amount necessary for the Department to carry out this section, including repayment of any cash operating transfers, payments made through contract or agreement with other state and public agencies necessary to carry out this section, and a reserve fund to maintain a reasonable working cash balance for the purpose of carrying out this section;

(b) Next, the remainder of such funds shall be transferred to the Missouri Veterans Commission for health and care services for military veterans, including the following purposes: operations, maintenance and capital improvements of the Missouri Veterans Homes, the Missouri Service Officer's Program, and other services for veterans approved by the Commission, including, but not limited to, health care services, mental health services, drug rehabilitation services, housing assistance, job training, tuition assistance, and housing assistance to prevent homelessness. The Missouri Veterans Commission shall contract with other public agencies for the delivery of services beyond its expertise.

(c) All monies from the taxes authorized under this subsection shall provide additional dedicated funding for the purposes enumerated above and shall not replace existing dedicated funding.

(3) For all retail sales of marijuana for medical use, a record shall be kept by the seller which identifies, by secure and encrypted patient number issued by the seller to the qualifying patient involved in the sale, all amounts and types of marijuana involved in the sale and the total amount of money involved in the sale, including itemizations, taxes collected and grand total sale amounts. All such records shall be kept on the premises in a readily available format and be made available for review by the Department and the Department of Revenue upon request. Such records shall be retained for five years from the date of the sale.

(4) The tax levied pursuant to this subsection is separate from, and in addition to, any general state and local sales and use taxes that apply to retail sales, which shall continue to be collected and distributed as provided by general law.

(5) Except as authorized in this subsection, no additional taxes shall be imposed on the sale of marijuana for medical use.

(6) The fees and taxes provided for in this Article XVI, Section 1 shall be fully enforceable notwithstanding any other provision in this Constitution purportedly prohibiting or restricting the taxes and fees provided for herein.

(7) The unexpended balance existing in the fund shall be exempt from the provisions of section 33.080 relating to the transfer of unexpended balances to the general revenue fund.

5. **Additional Patient, Physician, Caregiver and Provider Protections**

(1) Except as provided in this section, the possession of marijuana in quantities less than the limits of this section, or established by the Department, and transportation of marijuana from a Medical Marijuana Dispensary Facility to the Qualifying Patient's residence shall not subject the possessor to arrest, criminal or civil liability, or sanctions under Missouri law, provided that the possessor produces on demand to the appropriate authority a valid Qualifying Patient identification card; a valid Qualifying Patient cultivation identification card; a valid physician certification while making application for an identification card; or a valid Primary caregiver identification card. Production of the respective equivalent identification card or authorization issued by another state or political subdivision of another state shall also meet the requirements of this subdivision.

(2) No patient shall be denied access to or priority for an organ transplant because they hold a Qualifying Patient identification card or use marijuana for medical use.

(3) A physician shall not be subject to criminal or civil liability or sanctions under Missouri law or discipline by the Missouri State Board of Registration for the Healing Arts, or its successor agency, for owning, operating, investing in, being employed by, or contracting with any entity licensed or certified pursuant to this section or issuing a physician certification to a patient diagnosed with a qualifying medical condition in a manner consistent with this section and legal standards of professional conduct.

(4) A health care provider shall not be subject to civil or criminal prosecution under Missouri law, denial of any right or privilege, civil or administrative penalty or sanction, or disciplinary action by any accreditation or licensing board or commission for owning, operating, investing in, being employed by, or contracting with any entity licensed or certified pursuant to this section or providing health care services that involve the medical use of marijuana consistent with this section and legal standards of professional conduct.

(5) A Medical Marijuana Testing Facility shall not be subject to civil or criminal prosecution under Missouri law, denial of any right or privilege, civil or administrative penalty or sanction, or disciplinary action by any accreditation or licensing board or commission for providing laboratory testing services that relate to the medical use of marijuana consistent with this section and otherwise meeting legal standards of professional conduct.

(6) A health care provider shall not be subject to mandatory reporting requirements for the medical use of marijuana by non-emancipated Qualifying Patients under eighteen years of age in a manner consistent with this section and with consent of a parent or guardian.

(7) A Primary caregiver shall not be subject to criminal or civil liability or sanctions under Missouri law for purchasing, transporting, or administering marijuana for medical use to a qualifying patient or participating in the patient cultivation of up to six flowering marijuana plants per patient in a manner consistent with this section and generally established legal standards of personal or professional conduct.

(8) An attorney shall not be subject to disciplinary action by the state bar association or other professional licensing body for owning, operating, investing in, being employed by, contracting with, or providing legal assistance to prospective or licensed Medical Marijuana Testing Facilities, Medical Marijuana Cultivation Facilities, Medical Marijuana Dispensary Facilities, Medical Marijuana-Infused Products Manufacturing Facilities, Qualifying Patients, Primary caregivers, physicians, health care providers or others related to activity that is no longer subject to criminal penalties under state law pursuant to this section.

(9) Actions and conduct by Qualifying Patients, Primary Caregivers, Medical Marijuana Testing Facilities, Medical Marijuana Cultivation Facilities, Medical Marijuana-Infused Products Manufacturing Facilities, or Medical Marijuana Dispensary Facilities licensed or registered with the Department, or their employees or agents, as permitted by this section and in compliance with Department regulations and other standards of legal conduct, shall not be subject to criminal or civil liability or sanctions under Missouri law, except as provided for by this section.

(10) Nothing in this section shall provide immunity for negligence, either common law or statutorily created, nor criminal immunities for operating a vehicle, aircraft, dangerous device, or navigating a boat under the influence of marijuana.

(11) It is the public policy of the state of Missouri that contracts related to marijuana for medical use that are entered into by Qualifying Patients, Primary Caregivers, Medical Marijuana Testing Facilities, Medical Marijuana Cultivation Facilities, Medical Marijuana-Infused Products Manufacturing Facilities, or Medical Marijuana Dispensary Facilities and those who allow property to be used by those entities, should be enforceable. It is the public policy of the state of Missouri that no contract entered into by Qualifying Patients, Primary Caregivers, Medical Marijuana Testing Facilities, Medical Marijuana Cultivation Facilities, Medical Marijuana-Infused Products Manufacturing Facilities, or Medical Marijuana Dispensary Facilities, or by a person who allows property to be used for activities that are exempt from state criminal penalties by this section, shall be unenforceable on the basis that activities related to medical marijuana may be prohibited by federal law.

6. **Legislation**

Nothing in this section shall limit the General Assembly from enacting laws consistent with this section, or otherwise effectuating the patient rights of this section. The legislature shall not enact laws that hinder the right of Qualifying Patients to access marijuana for medical use as granted by this section.

7. **Additional Provisions**

(1) Nothing in this section permits a person to:

(a) Consume marijuana for medical use in a jail or correctional facility;

(b) Undertake any task under the influence of marijuana when doing so would constitute negligence or professional malpractice; or

(c) Operate, navigate, or be in actual physical control of any dangerous device or motor vehicle, aircraft or motorboat while under the influence of marijuana; or

(d) Bring a claim against any employer, former employer, or prospective employer for wrongful discharge, discrimination, or any similar cause of action or remedy, based on the employer, former employer, or prospective employer prohibiting the employee, former employee, or prospective employee from being under the influence of marijuana while at work or disciplining the employee or former employee, up to and including termination from employment, for working or attempting to work while under the influence of marijuana.

(2) No Medical Marijuana Cultivation Facility, Medical Marijuana Testing Facility, Medical Marijuana Dispensary Facility, or Medical Marijuana-Infused Products Manufacturing Facility, or entity with a transportation certification shall be owned, in whole or in part, or have as an officer, director, board member, manager, or employee, any individual with a disqualifying felony offense. A "disqualifying felony offense" is a violation of, and conviction or guilty plea to, state or federal law that is, or would have been, a felony under Missouri law, regardless of the sentence imposed, unless the Department determines that:

(a) The person's conviction was for the medical use of marijuana or assisting in the medical use of marijuana; or

(b) The person's conviction was for a non-violent crime for which he or she was not incarcerated and that is more than five years old; or

(c) More than five years have passed since the person was released from parole or probation, and he or she has not been convicted of any subsequent criminal offenses.

The Department may consult with and rely on the records, advice and recommendations of the Attorney General and the Department of Public Safety, or their successor entities, in applying this subdivision.

(3) All Medical Marijuana Cultivation Facility, Medical Marijuana Dispensary Facility, and Medical Marijuana-Infused Products Manufacturing Facility licenses, entities with Medical Marijuana Testing Facility certifications, and entities with transportation certifications shall be held by entities that are majority owned by natural persons who have been citizens of the state of Missouri for at least one year prior to the application for such license or certification. Notwithstanding the foregoing, entities outside the state of Missouri may own a minority stake in such entities.

(4) No Medical Marijuana Cultivation Facility, Medical Marijuana Dispensary Facility, or Medical Marijuana-Infused Products Manufacturing Facility shall manufacture, package or label marijuana or marijuana-infused products in a false or misleading manner. No person shall sell any product in a manner designed to cause confusion between a marijuana or marijuana-infused product and any product not containing marijuana. A violation of this subdivision shall be punishable by an appropriate and proportional Department sanction, up to and including loss of license.

(5) All edible marijuana-infused products shall be sold in individual, child-resistant containers that are labeled with dosage amounts, instructions for use, and estimated length of effectiveness. All marijuana and marijuana-infused products shall be sold in containers clearly and conspicuously labeled, in a font size at least as large as the largest other font size used on the package, as containing "Marijuana," or a "Marijuana-Infused Product." Violation of this prohibition shall subject the violator to Department sanctions, including an administrative penalty.

(6) No individual shall serve as the Primary caregiver for more than three Qualifying Patients.

(7) No Qualifying Patient shall consume marijuana for medical use in a public place, unless provided by law. Violation of this prohibition shall subject the violator to sanctions as provided by general law.

(8) No person shall extract resins from marijuana using dangerous materials or combustible gases without a Medical Marijuana-Infused Products Manufacturing Facility license. Violation of this prohibition shall subject the violator to Department sanctions, including an administrative penalty and, if applicable, loss of their identification card, certificate, or license for up to one year.

(9) All Qualifying Patient cultivation shall take place in an enclosed, locked facility that is equipped with security devices that permit access only by the Qualifying Patient or by such patient's Primary caregiver. Two Qualifying Patients, who both hold valid Qualifying Patient cultivation identification cards, may share one enclosed, locked facility. No more than twelve Qualifying Patient or Primary caregiver cultivated flowering marijuana plants may be cultivated in a single, enclosed locked facility, except when a Primary caregiver also holds a Qualifying Patient cultivation identification card, in which case no more than eighteen flowering marijuana plants may be cultivated in a single, enclosed, locked facility.

(10) No Medical Marijuana Cultivation Facility, Medical Marijuana Dispensary Facility, Medical Marijuana-Infused Products Manufacturing Facility, Medical Marijuana Testing Facility, or entity with a transportation certification shall assign, sell, give, lease, sublicense, or otherwise transfer its license or certificate to any other entity without the express consent of the Department, not to be unreasonably withheld.

(11) Unless allowed by the local government, no new Medical Marijuana Cultivation Facility, Medical Marijuana Testing Facility, Medical Marijuana Dispensary Facility, or Medical Marijuana-Infused Products Manufacturing Facility shall be initially sited within one thousand feet of any then-existing elementary or secondary school, child day-care center, or church. No local government shall prohibit Medical Marijuana

Cultivation Facilities, Medical Marijuana Testing Facilities, Medical Marijuana-Infused Products Manufacturing Facilities, or Medical Marijuana Dispensary Facilities, or entities with a transportation certification either expressly or through the enactment of ordinances or regulations that make their operation unduly burdensome in the jurisdiction. However, local governments may enact ordinances or regulations not in conflict with this section, or with regulations enacted pursuant to this section, governing the time, place, and manner of operation of such facilities in the locality. A local government may establish civil penalties for violation of an ordinance or regulations governing the time, place, and manner of operation of a Medical Marijuana Cultivation Facility, Medical Marijuana Testing Facility, Medical Marijuana-Infused Products Manufacturing Facility, Medical Marijuana Dispensary Facility, or entity holding a transportation certification that may operate in such locality.

(12) Unless superseded by federal law or an amendment to this Constitution, a physician shall not certify a qualifying condition for a patient by any means other than providing a physician certification for the patient, whether handwritten, electronic, or in another commonly used format. A Qualifying Patient must obtain a new physician certification at least annually.

(13) A physician shall not issue a certification for the medical use of marijuana for a non-emancipated Qualifying Patient under the age of eighteen without the written consent of the Qualifying Patient's parent or legal guardian. The Department shall not issue a Qualifying Patient identification card on behalf of a non-emancipated Qualifying Patient under the age of eighteen without the written consent of the Qualifying Patient's parent or legal guardian. Such card shall be issued to one of the parents or guardians and not directly to the patient. Only a parent or guardian may serve as a Primary caregiver for a non-emancipated Qualifying Patient under the age of eighteen. Only the Qualifying Patient's parent or guardian shall purchase or possess medical marijuana for a non-emancipated Qualifying Patient under the age of eighteen. A parent or guardian shall supervise the administration of medical marijuana to a non-emancipated Qualifying Patient under the age of eighteen

(14) Nothing in this section shall be construed as mandating health insurance coverage of medical marijuana for Qualifying Patient use.

(15) Real and personal property used in the cultivation, manufacture, transport, testing, distribution, sale, and administration of marijuana for medical use or for activities otherwise in compliance with this section shall not be subject to asset forfeiture solely because of that use.

8. **Severability**

The provisions of this section are severable, and if any clause, sentence, paragraph or section of this measure, or an application thereof, is adjudged invalid by any court of competent jurisdiction, the other provisions shall continue to be in effect to the fullest extent possible.

9. **Effective Date**

The provisions of this section shall become effective on December 6, 2018.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-040)

Subject

Initiative petition from Sheila Dundon regarding a proposed constitutional amendment to Article XVI of the Constitution of Missouri. (Received November 21, 2016)

Date

December 12, 2016

Description

This proposal would amend Article XVI of the Constitution of Missouri.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** and the **Lieutenant Governor's Office**.

Assumptions

Officials from the **Attorney General's office** indicated this proposal authorizes the Department of Health and Senior Services to issue new licenses for the cultivation,

manufacture, dispensing, sale, testing, tracking, and transportation of marijuana for medical use. It requires the Department to promulgate rules necessary for the implementation and enforcement of the proposal. The proposal requires a minimum of 60 licenses for cultivation facilities (one per every 100,000 inhabitants), and a minimum of 85 licenses for manufacturing facilities (one per 70,000 in inhabitants). They assume they would need 1 AAG I to provide legal representation regarding issuance, denial, and discipline of licenses and review of administrative rules, resulting in increased operating expenses of $70,362 for FY2018; $76,074 for FY2019; and $76,866 for FY2020.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated they do not anticipate any impact to their department in regard to this initiative petition.

Officials from the **Department of Higher Education** indicated this initiative petition would not have a fiscal impact on their department.

Officials from the **Department of Health and Senior Services** indicated the costs will be $0 for fiscal year 2018, $3,062,147 for fiscal year 2019, and $7,035,064 for fiscal year 2020. The revenues will be $0 for fiscal year 2018, $1,134,000 for fiscal year 2019, and $12,124,800 for fiscal year 2020.

This proposal is not an entire duplication, however; Section 192.945, RSMo allows their department to issue a hemp extract registration card for persons suffering from intractable epilepsy. The hemp extract registration card allows for the legal possession and use of cannabidiol (CBD) oil. This proposal allows for the legal use of marijuana for persons who are issued a registration card due to a debilitating medical condition. Under this proposal, patients with intractable epilepsy could also qualify to receive a registration card for medical marijuana use.

Rental space for 97 FTE located in Jefferson City: 97.00 FTE x 230 sq ft/FTE x $21.00/sq. ft. = $468,510

The proposed language would legalize the use of marijuana for medicinal purposes. There could be an unknown impact on small businesses that serve as cultivators, manufacturers, dispensary facilities, testing and/or transportation centers.

	Federal		-	-	-
	Other		-	-	-
	Total		-	309,634.50	309,653.50

The proposed constitutional amendment requires their department to issue annual registrations for patients and their designated caregivers, patient and caregiver cultivators, medical marijuana cultivation facilities, medical marijuana dispensary facilities, and medical marijuana-infused products manufacturing facilities. In addition, the amendment

requires their department to certify seed-to-sale tracking systems, transportation entities, and testing facilities.

The proposal allows for the following registration/license fees to be collected:

	Initial Application and Annual Renewal
Qualifying Patient ID Card	$25.00
Primary Caregiver ID Card	$25.00
Patient or Caregiver Cultivation ID Card	$100.00

	Within 3 years of Effective Date of Proposal (December 6, 2018 – December 6, 2021)		After 3 years of Effective Date (after December 6, 2021)	
	Initial Application or Renewal Application Non-Refundable License Fee (3 yr. license)	Annual Licensing Fee	Initial Application or Renewal Application Non-Refundable License Fee (3 yr. license)	Annual Licensing Fee
Medical Marijuana Cultivation Facility	$10,000	$25,000	$5,000	$25,000
Medical Marijuana Dispensary Facility	$6,000	$10,000	$3,000	$10,000
Medical Marijuana-Infused Products Manufacturing	$6,000	$10,000	$3,000	$10,000

	Certification Fee
Seed-to-Sale Tracking System	Up to $5,000
Medical Marijuana Testing Facility	Up to $5,000

The provisions of this section shall become effective on December 6, 2018. According to the proposed provisions of this section, they shall make available to the public all license application forms (cultivation, dispensary, manufacturing and testing facilities) and the application forms for qualifying patients, caregivers, and qualifying patient cultivation identification cards within 180 days of the effective date of the section (June 6, 2019). They shall accept all applications for patients, caregivers and cultivators no later than 210 days following the effective date of this section (July 6, 2019). They shall accept applications for dispensary facilities, testing facilities, cultivation facilities, manufacturing facilities, seed-to-sale tracking systems, and transportation entities no later than 240 days after the effective date of this section (August 6, 2019). The provisions of this section also allow any applicant for a license to pre-file their application fee with them beginning 30 days after the effective date of this section (January 6, 2019). For purposes of this fiscal note, it is assumed that the first fees for license applications (pre-file) would be accepted January 6, 2019 (FY 2019). The first fees for patient, caregivers, and cultivators are assumed to be collected beginning July 1, 2019 (FY 2020). The first certification fees (seed-to-sale, testing, and transportation) are assumed to be collected beginning July 1, 2019 (FY 2020) as well.

The estimations for the number of each type of registration, license and certification issued each year are detailed under the headings Division of Community and Public Health (DCPH) Applications for Patient and Caregiver Identification below.. The total estimate of collected fees equals $1,134,000 for FY 2019 and $12,124,800 for FY 2020.

Section 1.3(2)(e) allows them to issue rules creating a range of administrative penalties related to implementation and enforcement of rules that ensure the right to, availability, and safe use of marijuana for medical use. These administrative penalties could include penalty fees but the fee amounts and frequency of penalties issued is unknown at this time.

Section 1.4(1) of the proposed amendment mandates each licensed Medical Marijuana Dispensary facility to collect a four percent tax on the retail sale of all medical marijuana products sold to be collected by the Department of Revenue (DOR). The amount of tax that will be collected is unknown and is referred to the DOR for these estimations.

The DOR may retain up to five percent of the annual taxes collected. The rest of the tax collected is to be deposited by the DOR into the Missouri Veterans' Health and Care Fund. This fund shall consist of all fees and taxes collected by this proposed section.

Division of Community and Public Health (DCPH)

Section 1.3(1) authorizes them to grant or refuse licenses and certifications for the cultivation, manufacture, dispensing, sale, testing, tracking, and transportation of

marijuana for medical use as provided by the provisions of Section 1. This section also authorizes them to suspend, fine, restrict, or revoke such licenses and certifications upon any violation of this section or a rule promulgated by them pursuant to this section. They shall develop such rules, forms, licenses, identification cards, and applications as necessary to implement provisions of this section. They are also required to certify at least two commercially available software products that licensees must use for seed-to-sale tracking standards and issue standards for the certification of secure transportation of marijuana an marijuana-infused products. They are to prepare annually a publicly available report accounting to the Governor for the efficient discharge of all responsibilities assigned to them by this section. They must also establish a system to numerically score applicants for licenses and certificates when the number of applicants are more than the minimum required.

Section 1.3(2) permits them to issue any rules necessary to ensure the right to, availability and safe use of marijuana for medical use by qualifying patients. This includes addressing: requirements for inspections, investigations, searches, seizures, and such additional enforcement activities that may become necessary; the creation of a range of administrative penalties; development of individual identification cards for owner, officers, managers, contractors, employees, and other support staff of entities licensed pursuant to this section; security requirements for any premises licensed; regulation of the storage and transportation of marijuana for medical use; sanitary requirements for the preparation of medical marijuana-infused products; labeling and packaging standards; and records to be kept by the licensees, state licensing procedures for initial licenses, renewals and reinstatements.

Section 1.3(3) requires them to issue rules regarding independent testing and certification for medical marijuana licensees to ensure products that are sold for human consumption are correctly labeled and do not contain contaminants that are injurious to health.

Section 1.3(4) requires them to issue rules to provide for the standards and certification of Medical Marijuana Testing Facilities. The DHSS shall certify, if possible, at least two Medical Marijuana Testing Facility entities.

Section 1.3(6) requires them to make available to the public license application forms and (for all types of licensees including testing facilities) and instructions within 180 days of the effective date of this section.

Section 1.3(7) requires them to make available to the public application forms and accompanying instructions for qualifying patients, qualifying patient or caregiver cultivation, and primary caregiver identification cards within 180 days of the effective date of this section. They are also required to accept these applications within 210 days of the effective date of this section.

Section 1.3(18) requires them to begin accepting license and certification application forms and instructions (for dispensary facilities, testing facilities, cultivation

facilities, manufacturing facilities, seed-to-sale tracking systems, and transportation entities) no later than 240 days from the effective date and shall either approve or deny within 150 days after submission.

Section 1.3(19) requires them to process a qualifying patient identification card within 30 days of receipt of the application.

Section 1.3(20) requires them to process a primary caregiver identification card within 30 days of receipt of the application.

Information Technology Services Division (ITSD)

Support of an IT vendor to build a data system to support the administration and reporting requirements indicated in Section 1 of Article XVI (Right to Access Medical Marijuana). The system would be used by the department to process applications to include issuance of licenses and identification cards.

Division of Administration

Specific program impact for their department is in the Division of Community and Public Health (DCPH). Each application and license transaction will have an associated fee transaction, which impacts the Division of Administration (DA).

One full-time attorney would be required to assist in drafting emergency and proposed regulations and forms; perform legal research and provide day-to-day legal counsel to the program; and, represent their department in appeals of licensure and identification card denials.

The proposed amendment requires them to adjust (increase or decrease) registration and license fees according to the Consumer Price Index as published by the U.S. Department of Labor. The change in fees collected (increase or decrease) due to this provision is unable to be determined at this time.

Also, the initial application and renewal licensing fees for a cultivation facility, manufacturing facility, and dispensing facility decrease in half (details under question #8) after three years from the effective date of this proposal.

Division of Community and Public Health (DCPH)

Applications for Patient and Caregiver Identification
Section 1 requires them to issue registration cards for qualified patients and their caregivers. A study by the nonprofit entity ProCon organization, updated March 2016, published the rates of patient registration cards issued for each state with a medical marijuana program (http://medicalmarijuana.procon.org/view.resource.php?resourceID=005889). This study found that Oregon was issuing qualified patient cards at a ratio of 19.2 per 1,000 state

residents. For purposes of this fiscal note, the State of Oregon's program will be benchmarked in regard to the number of patient and primary caregiver registrants. While the Oregon program was initiated in May 1999 and therefore has an established program, the state of Missouri's chronic disease rates are generally higher and the qualifying medical conditions accepted under Missouri's proposal are broader than those of Oregon.

Calculation of applications:

- Patients: According to the 2015 U.S. Census Bureau information, Missouri's population is at 6,083,672. Applying the rate of 19.2 applications per 1,000 residents, Missouri would estimate issuing 116,807 patient registration cards annually ((6,083,672/1,000) x 19.2)).
- Caregivers: According to the October 1, 2016 data on Oregon's Medical Marijuana Program Website, the ratio of patient registration cards to caregiver cards is calculated at 2.29. Calculating this same ratio, Missouri would estimate issuing 51,007 caregiver cards annually (116,807/2.29).

The proposed effective date of the medical marijuana program is December 6, 2018. They are required to have the applications for the qualifying patient and caregiver identification cards available within 180 days of the effective date (June 6, 2019). Section 1.3(6) requires them to begin accepting applications for the qualifying patient and caregiver cards no later than 210 days from the effective date (July 6, 2019). For purposes of this fiscal note analysis, it is assumed that they will begin accepting applications July 1, 2019 (FY 2020). They will collect an application fee of $25 per card, per Section 1.3(19) and 1.3(20). It is assumed that the fees will be collected in the same fiscal year the applications are received. It is also assumed that ten percent of the initial applicants will submit a renewal application within the same fiscal year.

	FY 2018	FY 2019	FY 2020
Qualifying Patient Initial Applications	0	0	116,807
Qualifying Patient Renewal Applications	0	0	11,681
Caregiver Initial Applications	0	0	51,007
Caregiver Renewal Applications	0	0	5,101
Total Patient & Caregiver Identification Cards	0	0	184,596
Total Patient & Caregiver Application Fees	$0	$0	$4,614,900

Applications for Patient or Caregiver Cultivation Identification Cards

Section 1 requires them to issue identification cards for a qualifying patient or his or her primary caregiver for purposes of cultivating up to six flowering marijuana plants for the exclusive use of the qualifying patient. For purposes of this fiscal note, it is estimated that 10 percent of the qualifying patients will grow marijuana for themselves or it will be grown by their designated primary caregiver. Therefore, it is estimated that 11,681 (116,807 x .10) will be issued in FY 2020. They will collect an annual application fee of $100 per Section 1.3(12). It is also assumed that ten percent of the initial applicants will renew their application within the same fiscal year.

	FY 2018	FY 2019	FY 2020
Cultivation Initial Applications	0	0	11,681
Cultivation Renewal Applications	0	0	1,168
Total Cultivation Identification Cards	0	0	12,849
Total Cultivation Identification Fees	$0	$0	$1,284,900

Application and Licensing of Medical Marijuana Cultivation Facilities

Section 1 authorizes them to establish the application and licensing process of medical marijuana cultivation facilities. For purposes of this fiscal note analysis, it is estimated that 61 facilities will apply and become licensed to fully operate cultivation facilities by the end of FY 2020. This estimate is based on the assumption that they will limit the number of cultivation facilities licensed at the minimum required of one facility per 100,000 residents (6,083,672 Missouri residents/100,000 residents per facility = 61 facilities) as allowed per Section 1.3(15). They must accept applications within 210 days of the effective date of the proposal and therefore assumes that applications will be accepted beginning July 1, 2019 (FY 2020). However, section 1.3(11) allows any application for a license to pre-file their application fee with them beginning 30 days after the effective date (January 6, 2019). They estimates that half of the cultivation facilities that will be licensed in FY 2020 will pre-file their fee in FY 2019. The proposed amendment sets the initial application fee at $10,000 with an additional $25,000 fee for each year of the license for the facilities applying during this time period.

	FY 2018	FY 2019	FY 2020
Cultivation Facility Applications	0	0	61
Cultivation Facility Application Fees ($10,000)	$0	$300,000 (pre-file)	$310,000
Cultivation Facility Annual Licenses	0	0	61
Cultivation Facility Annual License Fees ($25,000)	$0	$0	$1,525,000
Total Cultivation App & License Fees	$0	$300,000	$1,835,000

Application and Licensing of Medical Marijuana Dispensing Facilities

Section 1 authorizes them to establish the application and licensing process of medical marijuana dispensing facilities. For purposes of this fiscal note analysis, it is estimated that 192 facilities will apply and become licensed to fully operate dispensing facilities by the end of FY 2020. This estimate is based on the assumption that they will limit the number of dispensing facilities licensed at the minimum required of twenty-four (24) licenses per each of the current eight U.S. Congressional Districts (24 facilities x 8 districts = 192 facilities) as allowed per Section 1.3(17). They must accept applications within 210 days of the effective date of the proposal and therefore assumes that applications will be accepted beginning July 1, 2019 (FY 2020). However, section 1.3(11) allows any application for a license to pre-file their application fee with them beginning 30 days after the effective date (January 6, 2019). They estimate that half of the dispensing facilities that will be licensed in FY 2020 will pre-file their fee in FY 2019. The proposed amendment sets the initial

application fee at $6,000 with an additional $10,000 fee for each year of the license for the facilities applying during this time period.

	FY 2018	FY 2019	FY 2020
Dispensing Facility Applications	0	0	192
Dispensing Facility Application Fees ($6,000)	$0	$576,000 (pre-file fees)	$576,000
Dispensing Facility Annual Licenses	0	0	192
Dispensing Facility Annual License Fees ($10,000)	$0	$0	$1,920,000
Total Dispensing App & License Fees	$0	$576,000	$2,496,000

Application and Licensing of Medical Marijuana-Infused Products Manufacturing Facilities

Section 1 authorizes them to establish the application and licensing process of medical marijuana-infused products manufacturing facilities. For purposes of this fiscal note analysis, it is estimated that 87 facilities will apply and become licensed to fully operate medical marijuana-infused products manufacturing facilities by the end of FY 2020. This estimate is based on the assumption that they will limit the number of manufacturing facilities licensed at the minimum required of one facility per 70,000 residents (6,083,672 Missouri residents/70,000 residents per facility = 87 facilities) as allowed per Section 1.3(16). They must accept applications within 210 days of the effective date of the proposal and therefore assumes that applications will be accepted beginning July 1, 2019 (FY 2020). However, section 1.3(11) allows any application for a license to pre-file their application fee with them beginning 30 days after the effective date (January 6, 2019). They estimate that half of the medical marijuana-infused products manufacturing facilities that will be licensed in FY 2020 will pre-file their fee in FY 2019. The proposed amendment sets the initial application fee at $6,000 with an additional $10,000 fee for each year of the license for the facilities applying during this time period.

	FY 2018	FY 2019	FY 2020
Manufacturing Facility Applications	0	0	87
Manufacturing Facility Application Fees ($6,000)	$0	$258,000	$264,000
Manufacturing Facility Annual Licenses	0	0	87
Manufacturing Facility Annual License Fees ($10,000)	$0	$0	$870,000
Total Manufacturing Application & License Fees	$0	$258,000	$1,134,000

Certification of Seed-to-Sale Tracking Systems, Transportation Entities, and Medical Marijuana Testing Facilities

Section 1.3.(1)(d) requires them to certify at least two commercially available systems that licensees may use as their seed-to-sale tracking system. For purposes of this fiscal note, it is estimated that they will issue certifications for two commercially available systems.

Section 1.3.(1)(e) requires them to certify entities which demonstrate compliance with transportation standards in order to transport marijuana and marijuana-infused products. For purposes of this fiscal note, it is estimated that all licensed medical marijuana cultivation facilities and marijuana-infused products manufacturing facilities will obtain certification to transport marijuana and marijuana-infused products. Therefore, it is estimated that they will issue 148 certifications for transportation (61 cultivation facilities + 87 manufacturing facilities = 148 total facilities). The certification process will occur simultaneous with the licensure of the facilities.

Section 1.3.(4) requires them to certify at least two facilities as Medical Marijuana Testing Facilities. It is estimated that only two facilities will be certified. The certification will occur in FY 2020.

Section 1.3.(1)(f) allows the department to charge a fee not to exceed $5,000 for any certification issued. It is assumed that they will charge a fee of $5,000 for each certification issued.

	FY 2018	FY 2019	FY 2020
Seed-to-Sale Tracking System Certifications	0	0	2
Transportation Entity Certifications	0	0	148
Medical Marijuana Testing Facility Certifications	0	0	2
Total Certifications	0	0	152
Total Certification Fees ($5,000 ea.)	$0	$0	$760,000

Total Revenue in Application, Licensing, and Certification Fees

	FY 2018	FY 2019	FY 2020
Patient & Caregiver Application Fees	$0	$0	$4,614,900
Patient or Caregiver Cultivation Fees	$0	$0	$1,284,900
Cultivation Facility Fees	$0	$300,000	$1,835,000
Dispensing Facility Fees	$0	$576,000	$2,496,000
Infused Products Manufacturing Fees	$0	$258,000	$1,134,000
Certification Fees	$0	$0	$760,000
Total Fees	**$0**	**$1,134,000**	**$12,124,800**

Program Operations: Staffing

Section 1 requires the establishment of a medical marijuana program through promulgation of rules and implementation of those rules for administration of patient and caregiver identification cards; patient or caregiver cultivation identification cards; licensing of medical marijuana cultivation facilities, dispensing facilities and infused products manufacturing facilities; and certification of seed-to-sale tracking systems, transportation entities, and medical marijuana testing facilities. This also includes the development of all program applications and forms, identification cards, and a computerized database system to allow for the electronic storage of and processing of data needed to issue identification

cards and licenses. As a result, DCPH anticipates the need to hire the following staff beginning on December 6, 2018 (FY 2019) to begin development of the program/system:

One Program Manager Broad Band 2 ($65,000) – will serve as Chief of the Medical Marijuana Bureau. Duties will include overall program management, including involvement in rule promulgation, development of forms, program policies and procedures, information system development, and initial program set-up. This position will also supervise the two Unit (Program) Coordinators, two Investigator III positions, a Health Program Representative III, and a Bureau Administrative Office Support Assistant.

Two Program Coordinators (A30, $50,112, Step H) – will serve as Unit Coordinators. One unit will be responsible for processing patient and caregiver applications, including patient or caregiver cultivation applications. The other unit will be responsible for the applications and licensing and/or certification of the medical marijuana cultivation facilities, dispensing facilities, infused-products manufacturing facilities; testing facilities, transportation entities, and seed-to-sale tracking systems. These positions will be involved in the initial program development with the Bureau Chief, hiring of staff, and development of training for staff. Once the program is operational, the Coordinators responsibilities extend to implementation and maintenance of the program, responsibility for meeting application decision deadlines, and ongoing management responsibilities.

One Health Program Representative III (A24, $39,708. Step G) – duties will include assistance in rule promulgation, program policies and procedures, forms development, information system development/troubleshooting and maintenance, and initial program set-up. This position will serve as the liaison between the Units and IT work on system maintenance and enhancements. This position will also certify the seed-to-sale tracking systems that are commercially available to use by the licensed facilities. This position will also be responsible for establishing materials to educate the public about the program and exhibiting at conferences or other venues to education physicians and the general public.

One Administrative Office Support Assistant (A15, $28,668, Step F) – duties will include providing administrative assistance to the Bureau Chief, Program Coordinators, Investigators, Inspectors, and HPR III positions. As allowed, this position will also assist in initial processing of patient and caregiver applications for registration cards.

The following staff will be hired to begin March 1, 2019. This hire date will allow for training and final program preparation to occur prior to the required release dates for the application forms for patients and caregivers, patient or caregiver cultivators, certifications, and facility licenses:

Two Investigator III positions (A25, $41,184, Step G) – these positions will investigate all instances/complaints of possible fraud or negligence on the behalf of a recommending physician, a registered patient and/or caregiver, a cultivator, or a medical marijuana facility. With a new program of this size and the legalization of something that remains illegal for the majority of the population, it is anticipated that they will receive a fair number of calls reporting instances of possible violations. While two is estimated for purposes of this fiscal

note, it may be necessary to add additional staff after the program is operational for some time. The additional costs remain unknown.

Two Grain Inspector IV positions (A23, $38,304, Step G) – these positions will complete the onsite inspections of the medical marijuana cultivation facilities to monitor compliance with the specific requirements outlined in the proposed amendment and rules that need to be met for initial and continued licensure of a facility. These positions will also be responsible for certifying the cultivation facilities as transportation entities. This specialty position was chosen because the most technical piece involves the process of testing plants for molds, mildew, and pesticides and making sure the facilities are dealing with these issues in a proper way.

One Grain Inspector Compliance Coordinator (A28, $46,056, Step G) – this position coordinates and supervises the work of the Grain Inspector positions; ensuring inspections are completed consistently and timely. This position will also provide technical assistance to the inspectors and make final action decisions/recommendations for problem inspections.

Four Environmental Public Health Specialist IV positions (A27, $44,352, Step G) – these positions will complete the onsite inspections of the medical marijuana dispensing and the medical-marijuana infused-products manufacturing facilities to monitor compliance with the specific requirements outlined in the proposed amendment and rules that need to be met for initial and continued licensure of a facility. These positions will also be responsible for certifying the manufacturing facilities as transportation entities. This specialty position was chosen because the most technical piece involves ensuring sanitation requirements are met and the infused-products are labeled and packaged correctly.

One Environmental Public Health Specialist V position (A28, $46,056, Step G) – this position coordinates and supervises the work of the EPHS IV positions; ensuring inspections are completed consistently and timely. This position also provides technical assistance to the environmental specialists and makes final action decisions/recommendations for problem inspections.

One Health Facilities Consultant (A29, $48,852, Step H) – this position will complete the inspections of the Medical Marijuana Testing Facilities in order to monitor compliance with the specific requirements needed to obtain and maintain certification. This position will also provide technical assistance to the testing facilities to assist with obtaining and maintaining the certification. This specialty position was chosen as this classification currently completes the inspections of other medical laboratories certified by the state.

49 Senior Office Support Assistant (SOSA) positions (A12, $26,340, Step F) – duties will include processing of paper applications to include opening and date stamping of mail, entry of application information into the electronic registry, initial verification of applicant and physician identification, initial application review to include determination of application approval or denial (including incomplete status), preparation of patient and caregiver identification cards, preparation of patient/caregiver cultivation identification cards, initial processing of medical marijuana facility applications, preparation of identification cards for

all owners and employees of the medical marijuana facility licensees, processing revoked cards, and answering of phones and assisting telephone callers.

24 Health Program Representative II (HPR II) positions (A21, $35,640, Step G) – duties will include supervision of the SOSA positions and quality assurance checks of the application entry and initial verification completed by the SOSAs. This position will have responsibility for final approval of application incomplete notices, rejects, revocations, and card issuances. This position will ensure application process deadlines as mandated by proposed amendment are met. This position will also verify all registrations of owners and employees associated with the licensed medical marijuana facilities, including coordination with the Inspectors and Environmental Public Health Specialists for final issuance of facility licenses.

For fiscal note purposes they calculated 45 minutes per patient and caregiver application and 45 minutes per patient or caregiver cultivation application.

197,445 (184,596 patient and caregiver apps + 12,849 cultivation apps) X .75/hour / 2,080 hours per year per staff = 71.2 staff (round to 71 staff).

They calculated 14 hours for the processing of a dispensing facility license application and 15 hours for the processing of the cultivation and manufacturing facility license (additional hour for processing transportation certification application).

(192 dispensing facilities x 14 hours) + (61 cultivation facilities x 15 hours) + (87 infused products manufacturing facilities x 15 hours) = 4,908 total hours/divided by 2,080 hrs/year per staff = 2.4 staff (round to 2 staff). This is a total of 73 processing staff (SOSA and HPR II positions).

Printing Costs

They will print individual identification cards for the qualified patient, caregiver, patient or caregiver cultivation identification card, and identification cards for each owner, board member, employee of the licensed facilities. The cards are encoded with a magnetic stripe for security and linkage to the IT system for dispensing purposes. DCPH will purchase a card delivery system with the ability to print the card with the magnetic stripe, attach the card to a personalized letter, and secure in an envelope ready for mailing. The initial cost of the card delivery system is estimated at $277,000. In addition there will be an annual equipment preventative maintenance fee of $34,000. The average supply cost to print each card is $0.59/card.

They are estimating the number of identification cards to be printed each year per facility licensed to be 25 for a cultivation facility, 10 for a dispensing facility, and 25 for a manufacturing facility. (61 cultivation facilities x 25 = 1,525 cards, 192 dispensing facilities x 10 = 1,920 cards, 87 manufacturing facilities x 25 = 2,175 cards) License certificates will be printed for each facility on special certificate paper (heat sensitive ink background) provided by state printing at a cost of approximately $200 per 1,000 pieces of

certificate paper. The license certificates and identification cards for facilities will not be produced until FY 2020 when the facility becomes licensed.

DCPH will print 100,000 brochures each year the program is operational at a cost of $0.06 per brochure. This brochure will provide the public with information about the medical cannabis program and assistance in completing a valid registration.

FY 2019

- 100,000 brochures ($0.06 per brochure) = $6,000

FY 2020

- 184,596 patient and caregiver cards + 12,849 cultivation cards + 1,525 identification cards for cultivation facilities, 1,920 identification cards for dispensing facilities + 2,175 for manufacturing facilities = 203,065 cards x $0.59 per card/print supplies = $119,808
- 492 Certificates for facility licenses and certifications ($200/1,000) = $200
- 100,000 brochures ($0.06 per brochure) = $6,000

Mailing Costs

Each qualifying patient and primary caregiver will receive his/her card in the mail. If the patient or caregiver applied for a cultivation identification card, that card will be mailed separately. Each licensed facility will be mailed a copy of their license and identification cards. It is estimated that 10 percent of the registered participants, caregivers and patient/caregiver cultivators will submit a change request to their application requiring a change notification receipt by mailing. It is projected that five percent of all applications will be incomplete and requires mailing of an incomplete notice. It is also projected that 25 percent of the printed brochures (25,000) along with paper applications will be mailed to the public upon request. The other printed brochures will be available for distribution at conferences and other public venues.

Projected mailings are as follows:

	FY 2018	FY 2019	FY 2020
Patient and Caregiver ID Cards	0	0	184,596
Cultivation ID Cards	0	0	12,849
Facility Certificates	0	0	492
Facility Identification Cards	0	0	5,620
Change Request Notifications	0	0	17,774
Incomplete Notifications	0	0	8,887
Brochures/app mailed	0	25,000	25,000
Total mailings	**0**	**25,000**	**255,218**

FY 2019

- 25,000 envelopes ($41 per 1,000) = 25 X $41 = $1,025
- Postage (25,000 x $0.39/postage rate) = $9,750

FY 2020

- 255,218 envelopes ($41 per 1,000) = 256 X $41 = $10,496
- Postage (255,218 x $0.39/postage rate) = $99,535

Criminal Records Check

Section 1.3.(2)(h) suggests that individual identification cards for owners, officers, managers, contractors, employees and other support staff of the licensed facilities shall include a fingerprint-based federal and state criminal record check in accordance with U.S. Public Law 92-544. Section 1.7(2) states no licensed facility shall have an owner, officer, manager, contractor, employee or other support staff with a disqualifying felony offense. They assumes that as part of the facility license application, the facilities would need to submit a current finger print based criminal record report as would be promulgated in rule. Therefore, they assume no cost for obtaining the fingerprint check.

Information Technology Services Division (ITSD)

Application Storage Costs

In order to manage the final storage of paper applications submitted, Content Manager for electronic scanning and storage will be utilized. The costs for Content Manager are estimated at $132 per month for the state data server costs, $234 for an annual license for each user who needs to view files and $828 for an annual license for each position with ability to scan/import documents. Content Manager services will not be acquired until FY 2020.

Information Systems Development

Estimating a 12 month project duration with a project team consisting of 4 IT Consultants. Applications will be received as paper submissions to the department. System will print licenses and identification cards for physical delivery to the applicant. The system will be hosted in the State Data Center (SDC) on existing virtual servers. Disk space has been estimated at 50 GB for Development and Test with 150 GB estimated for Production. While we have estimated for a system build it is possible COTS solutions are available at a similar cost. Estimated costs are detailed above in the ITSD-DHSS table.

Division of Administration

DHSS-DA assumes one Accounting Clerk can process 30,000 receipt transactions per year. An Accounting Generalist I/II would be needed to supervise for every five Account Clerks.

Accounting Clerk (A12, $26,340, Step F) duties would include:

- Open and sort mail;
- Process and enter receipts in the department computer system;
- Prepare bank deposits and cash receipts documents;
- Reconcile daily receipts;
- Distribute supporting documentation program.

Accounting Generalist I/II (A25, $41,184, Step G) duties would include:

- Supervise and review the work of Accounting Clerks who are processing the fees.

Each application and license would have a fee transaction.

FY2019	FY2020	Transaction
0	184,596	Patient & Caregiver Application
0	12,849	Patient & Caregiver Cultivation Application
30	92	Cultivation Facility Application
96	288	Dispensing Facility Application
43	131	Manufacturing Facility Application
0	152	Certifications
169	198,108	Total Number of Transactions
	6.00 FTE	Accounting Clerk
	1.00 FTE	Accounting Generalist I/II

Office of General Counsel

Legal Counsel ($50,000)

One full-time attorney would be needed to assist in drafting emergency and proposed regulations and forms; perform legal research and provide day-to-day legal counsel to the program; and represent the department in appeals of licensure and identification card denials.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated their department would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated a fiscal impact of $11,229 in fiscal year 2019, $35,262 in fiscal year 2020, $67,160 in fiscal year 2025 and thereafter.

Results of studies at this time show conflicting results on the criminal impacts of current medical marijuana laws. However, with the increased licensing and regulation there are also increased possibilities of secondary crimes through false physician recommendations, non-compliance in registration, illegal possession, vehicular infractions or injury, and theft. While many of these violations may carry only municipal or licensing level penalties, some would ultimately fall under felony charges.

Current laws provide for class C felony penalties for possession (Section 195.202) and class B felony for distribution and production of controlled substances (Section 195.211). Considering additional increases in related violations, proposed changes in this bill are expected to result in one new class B felony serving two years in prison and five years

parole, one class C felony serving one year in prison with four years parole, and two new probations serving three years.

In addition, this proposal would be impactful to their department in that we currently test our staff for marijuana use and discipline accordingly. If our staff were to live in a household, or visit another person, who is legally using medical marijuana they would then be exposed to second-hand smoke and would likely test positive themselves. There would be no way for us to determine which of our staff are innocently exposed from those who are abusing this substance illegally.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** indicated total fund costs for General Revenue will be $242,855 for fiscal year 2018, $124,921 for fiscal year 2019, and $126,460 for fiscal year 2020, which includes information technology (IT) related costs of $150,012 for fiscal year 2018, $30,752 for fiscal year 2019, and $31,521 for fiscal year 2020 for IT consultants.

This legislation increases total state revenue by an unknown amount from the sales tax collected on the sale of medical marijuana.

Section 4
The legislation levies a four percent tax on the retail sale of medical marijuana by Medical Marijuana Dispensary Facilities. Their department may retain up to five percent for the cost of collection. The petition creates the Missouri Veterans' Health and Care Fund. The Commissioner of Administration may make cash operating transfers to the fund to meet cash requirements in advance of receiving revenues. The tax levied by this section is separate and in addition to any general state and local sales tax that applies to retail sales. Because their department not have enforcement responsibilities, it may make more sense for the taxes to be paid to the Department of Health and Senior Services and then sent to their department for deposit into the fund.

Administrative Impact:

Collections & Tax Assistance:
This section will see additional registrations, registration phone calls, business tax account update requests, and delinquent phone contacts from the additional businesses registering to collect sales tax on medical marijuana. Collections and Tax Assistance requires two (2) Revenue Processing Technicians I (Range 10, Step L) per 24,000 additional contacts to the registration section and 15,000 contacts annually on the delinquent tax line. Each technician requires CARES equipment.

Business Tax Processing:
Although the legislation bases the four percent tax on the retail selling price, it is separate from sales and use tax. This tax needs to be reported and deposited separately from sales

and use tax. This would require new reporting forms and a new program to track and distribute receipts. This will include a new program within the Integrated Tax System.

Officials from the **Department of Public Safety - Office of Director and the Division of Alcohol and Tobacco Control** each indicated they see no fiscal impact due to this initiative petition.

Officials from the **Missouri State Highway Patrol** indicated for the Criminal Records Fund estimated revenue of $179,040 and estimated costs of $67,140 for fiscal year 2018, unknown impact for fiscal year 2019, and unknown impact for fiscal year 2020.

For each fingerprint-based background check processed, the state retains the $20 state fee and $2 of the federal charge for a pass-thru fee.

The proposed legislation would allow medical marijuana for medical use and provide that it shall be taxed at four percent of the retail price.

According to the 2015 United States Census Bureau's census estimate, Missouri's population was 6,083,672. Based on this total, the number of Cultivation Facilities, Dispensary Facilities, and Infused Products Manufacturing Facilities is as follows:

Cultivation Facilities
Assuming a limit is set at the minimum of 1 facility per 100,000 inhabitants per the proposed amendment, 60 licenses for cultivation facilities may be issued. Further estimating an average of 25 employees per facility, the total number of criminal record checks for employees, owners etc. of Cultivation Facilities equals 1,500 (60 x 25).

Dispensing Facilities
Assuming the maximum number of licenses that will be issued in each of the eight United States Congressional Districts in the state of Missouri is 24, the maximum number of licenses issued for Dispensing facilities equals 192 (24 x 8). Further estimating 10 employees per facility, the total number of criminal record checks for employees, owners etc. of Dispensary Facilities equals 1,920 (192 x 10).

Infused Products Manufacturing Facilities
Assuming a limit is set at the minimum of 1 facility per 70,000 inhabitants (per the proposed constitutional amendment) the number of facilities would equal 87 (6,083,672 / 70,000). Further estimating an average of 25 employees per facility, the total number of criminal record checks for employees, owners, etc. of Cultivation Facilities equals 2,175 (87 x 25).

The estimated number of state and federal fingerprint-based criminal record checks estimated to be generated with the passage of this amendment is 5,595 (1,500 for Cultivation Facilities; 1,920 - Dispensing Facilities; 2,175 - Infused Products Manufacturing Facilities).

The charge for each background check processed is $40.30. Twenty dollars for the state fingerprint check, $12 for the federal check, and an $8.30 charge for the statewide applicant fingerprinting contractor fee ($20 + $12 + 8.30 = $40.30). Of this amount, the state retains the $20 fee and $2 of the federal charge of $12 for a pass-thru fee. The $8.30 charge is paid directly to the vendor at the time of application.

Estimated Revenue FY18
5,595 x $32 (state/federal background check) $179,040

Estimated Expense FY18
5,595 x $12 (federal background check charge) $67,140

Subsequent yearly background checks will be based on turnover.

Estimated Revenue FY19 and beyond
??? x $32 (state/federal background check)

Estimated Expense FY19 and beyond
??? x $12 (federal background check charge)

Officials from the **Department of Social Services** indicated no fiscal impact on their department.

Officials from the **Governor's Office** indicated there should be no added costs or savings to their office.

Officials from the **House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated this proposal could have an impact on their medical plan.

Officials from the **Office of Administration** (OA) indicated:

Article XVI, Section 1 through Section 3 allows the Department of Health and Senior Services (DHSS) to grant or refuse state licenses for the cultivation, manufacture, distribution, and sale of marijuana for medical use. This authority includes the creation and imposition of administrative penalties; however, no actual amounts are given.

The article establishes facility license fees for medical marijuana cultivation facilities, medical marijuana dispensary facilities, and medical marijuana-infused products manufacturing facilities. Table 1 outlines the fees and renewal periods by facility license type. In addition to facility fees, Section 3 creates certifications for a seed-to-sale system, transportation, and medical marijuana testing facilities. DHSS is allowed to charge up to

$5,000 per certification and must certify at least two seed-to-sale tracking systems and two testing facilities; however, no minimum requirement was listed for the transportation of medical marijuana.

Table 1: Facility License and Annual Fees					
Section	**Facility License Type**	**License Fee* Years 1-3**	**License Fee* Years 3+**	**Annual Fee***	**Renewal Period**
3 (8)	medical marijuana cultivation facilities	$10,000	$5,000	$25,000	Every 3 years
3 (9)	medical marijuana dispensary facilities	$6,000	$3,000	$10,000	Every 3 years
3 (10)	medical marijuana-infused products manufacturing facilities	$6,000	$3,000	$10,000	Every 3 years

**License fees and annual fees shall be adjusted each year in accordance with the Consumer Price Index as published by the U.S. Department of Labor.*

Section 3 (12) allows qualifying patients, or his or her primary caregiver, to obtain an identification card allowing for personal cultivation of up to six flowering marijuana plants. Section 3 (19) and Section 3 (20) establish identification cards for qualifying patients of medical marijuana and primary caregivers. Table 2 outlines the fees and renewal periods for the different identification cards.

Table 2: Identification Fees			
Section	**Identification Type**	**Fee***	**Renewal Period**
3 (12)	Personal Cultivation I.D. Card	$100	annually
3 (19)	Qualifying Patient - Identification card	$25	annually
3 (20)	Primary Caregiver - Identification card	$25	annually

**License fees and annual fees shall be adjusted each year in accordance with the Consumer Price Index as published by the U.S. Department of Labor.*

Section 3 (15) states that DHSS may restrict the number of licenses for medical marijuana cultivation facilities; however, the number may not be limited to less than one license per one hundred thousand inhabitants of Missouri. Section 3 (16) states that DHSS may restrict the number of licenses for marijuana-infused products manufacturing facilities; however, the number may not be limited to less than one license per seventy thousand inhabitants of Missouri. Section 3 (17) states that DHSS may limit the number of dispensary facilities to twenty-four licenses in each United States Congressional district. Table 3 outlines the facility count limits and estimates what the facility counts would be, based on 2010 U.S. Census data, should these limits be implemented. Once the minimum number of facilities has been established, any decrease in the number of inhabitants within Missouri, or changes to the number or boundaries of the Congressional Districts, shall have no impact to the established minimum number of licenses allowed by the article.

Table 3: Facility Count Limits			
Section	**Facility Type**	**Minimum Limit**	**Facility Count**
3 (13)	cultivation facilities	1 per 100,000	75
3 (14)	marijuana-infused products manufacturing facilities	1 per 70,000	120
7 (4)	medical marijuana dispensaries	24 per U.S. Congressional District	237

Section 4 (1) creates a 4% sales tax on the retail sale of marijuana for medical use sold at medical dispensary facilities within the state. Revenues from this tax shall be paid to the Department of Revenue (DOR). DOR may retain up to five-percent for collection costs. The remainder shall be deposited in the Missouri Veterans' Health and Care Fund.

Section 4 (2) creates the Missouri Veterans' Health and Care Fund in the state treasury which will consist of taxes and fees collected under this section. This fund shall be a dedicated fund and shall stand appropriated without further legislative action. DHSS shall be appropriated an amount necessary to carry out this section. The remainder shall be transferred to the Missouri Veterans' Commission for health and care services for military veterans.

Section 9 states that the effective date of Article XVI would be December 6, 2018. However, B&P estimates that revenue generation would not begin until at least June 2019 for patients and July 2019 for facilities given the provisions in Section 3.

Using data from Arizona, which has a similar medical marijuana law, B&P estimates that up to 65,547 patients and caregivers could utilize this bill. Of these, up to 2,000 may gain approval for personal cultivation. B&P estimates that annual fees for patients, caregivers, and personal cultivation could generate approximately $1.4M annually by FY 2021, assuming growth is similar to that seen with the Arizona medical marijuana program.

B&P estimates that license fees for medical marijuana facilities could generate approximately $2.3M in FY 2020, and $1.1M every three years thereafter. The initiative petition does not specify whether these facilities would pay the annual fee and a license renewal fee every three years. Therefore, B&P assumes that both would need to be paid in the third year of a license. Table 4 outlines the revenues from the license and annual fees.

Table 4: License and Annual Fees by Patient and Facility Type					
Patient and Facility Type	**Revenue Generated by License Fees**				
	FY 2019	**FY 2020***	**FY 2021***	**FY 2022***	**FY 2023***
Patients and Caregivers**	$87,000	$1,046,000	$1,186,000	$1,704,000	$1,737,000
Personal Cultivation**	$17,000	$200,000	$204,000	$208,000	$212,000
Cultivation Facilities^		$600,000	$1,531,000	$1,561,000	$1,905,000
Infused Product Manufacturer^		$516,000	$879,000	$896,000	$1,183,000
Dispensary^		$1,152,000	$1,962,000	$2,000,000	$2,642,000
Total	**$104,000**	**$3,514,000**	**$5,762,000**	**$6,369,000**	**$7,679,000**

**Assumes 2% inflation*

***Assumes growth similar to that seen in the medical marijuana program in Arizona*

^ Assumes a 1.2% turnover rate in facility licenses

Section 4 requires a four-percent sales tax to be applied to all sales of marijuana products, in addition to current state and local sales tax. Based on sales data from Arizona during 2014 of $110M and 2015 of approximately $155.7M, B&P calculates that this provision could increase TSR by $6.6M and GR by $4.7M once fully implemented. Table 5 outlines the estimated revenues from each tax and where revenues will be directed.

Table 5: Sales Tax Revenues					
Sales Tax Fund	**Revenue Generated by Sales Tax**				
	FY 2020	**FY 2020***	**FY 2021***	**FY 2022***	**FY 2023***
Missouri Veterans' Health and Care Fund		$2,200,000	$6,229,000	$6,229,000	$6,229,000
General Revenue		$1,650,000	4,672,000	4,672,000	4,672,000
Education		$550,000	$1,557,000	$1,557,000	$1,557,000
Parks, Soil, and Water		$55,000	$156,000	$156,000	$156,000
Conservation		$69,000	$195,000	$195,000	$195,000
Total	**$0**	**$4,524,000**	**$12,809,000**	**$12,809,000**	**$12,809,000**

**Based on sales data from Arizona during 2014 and 2015*

B&P estimates that all provisions in this initiative petition could increase TSR by $2.3M and GR by $1.7M in FY20. In FY21, TSR could increase by $6.6M and GR by $4.7M. This initiative petition will not impact the calculations under 18(e).

^^Based on sales data from Arizona during 2014 and 2015

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated no fiscal impact on their office.

Officials from the **Secretary of State's office** indicated their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal

activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any impact on their office.

Officials from the **State Treasurer's office** indicated this would have no fiscal impact on their office.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from the **City of Kansas City** indicated sales taxes could be collected. No amount can be reasonably estimated.

Officials from the **City of Raymore** indicated no fiscal impact.

Officials from the **City of St. Joseph** indicated this initiative petition should not have a fiscal impact on local government.

Officials from **University of Missouri** indicated the University of Missouri Health Care (MUHC) has reviewed the proposed initiative petition and determined that the fiscal impact should not exceed $100,000 annually.

Officials from the **Lieutenant Governor's Office** indicated they anticipate that this initiative petition will impose little to no costs or savings on their office.

The State Auditor's office did not receive a response from the **Department of Elementary and Secondary Education, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,**

the **City of Mexico,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College,** and **St. Louis Community College**.

Fiscal Note Summary

This proposal is estimated to generate annual taxes and fees of $18 million for state operating costs and veterans programs, and $6 million for local governments. Annual state operating costs are estimated to be $7 million.

JASON KANDER

STATE AUDITORS OFFICE

November 17, 2016

The Honorable Nicole Galloway
State Auditor
State Capitol Building
Jefferson City, MO 65101

RE: Petition approval request from Richard Von Glahn regarding a proposed statutory amendment to Chapter 285, version 12 (2018-039)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Richard Von Glahn on November 16, 2016.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

Jason Kander

Be it enacted by the people of the State of Missouri:

Fifteen new sections to be known as sections 285.600, 285.603, 285.606, 285.609, 285.612, 285.615, 285.618, 285.621, 285.624, 285.627, 285.630, 285.633, 285.636, 285.639, and 285.642 are enacted to read as follows:

285.600. As used in sections 285.600 through 285.642:

(1) "Construction", includes construction, reconstruction, improvement, enlargement, alteration, painting and decorating, or major repair.

(2) "Construction industry", includes any employer whose employees conduct or perform construction as a principal component of the employer's business or enterprise.

(3) "Department", Department of Labor and Industrial Relations.

(4) "Director", Director of the Department of Labor and Industrial Relations.

(5) "Earned paid sick time", time that is compensated at the same hourly rate and with the same benefits, including health care benefits, as the employee normally earns during hours worked and is provided by an employer to an employee for the purposes described in section 285.606, but in no case shall this hourly amount be less than that provided under section 290.502.

(6) "Employee", any individual employed in this state by an employer, but does not include:

(A) Any individual engaged in the activities of an educational, charitable, religious, or nonprofit organization where the employer-employee relationship does not, in fact, exist or where the services rendered to the organization are on a voluntary basis;

(B) Any individual standing in loco parentis to foster children in their care;

(C) Any individual employed for less than four months in any year in a resident or day camp for children or youth, or any individual employed by an educational conference center operated by an educational, charitable or not-for-profit organization;

(D) Any individual engaged in the activities of an educational organization where employment by the organization is in lieu of the requirement that the individual pay the cost of tuition, housing or other educational fees of the organization or where earnings of the individual employed by the organization are credited toward the payment of the cost of tuition, housing or other educational fees of the organization;

(E) Any individual employed on or about a private residence on an occasional basis for six hours or less on each occasion;

(F) Any individual employed on a casual basis to provide baby-sitting services;

(G) Any individual employed by an employer subject to the provisions of part A of subtitle IV of title 49, United States Code, 49 U.S.C. §§ 10101 et seq.;

(H) Any individual employed on a casual or intermittent basis as a golf caddy, newsboy, or in a similar occupation;

(I) Any individual who is employed in any government position defined in 29 U.S.C. §§ 203(e)(2)(C)(i)-(ii);

(J) Any individual who is an offender, as defined in section 217.010, who is incarcerated in any correctional facility operated by the department of corrections, including offenders who provide labor or services on the grounds of such correctional facility pursuant to section 217.550; or

(K) Any individual engaged in construction work in the construction industry.

(7) "Employer", any person acting directly or indirectly in the interest of an employer in relation to an employee; provided, however, that for the purposes of sections 285.600 through 285.642, "employer" does not include the United States Government, the state, or a political subdivision of the state, including a department, agency, officer, bureau, division, board, commission, or instrumentality of the state, or a city, county, town, village, school district, or other political subdivision of the state.

(8) "Family member", any of the following individuals:

(A) Regardless of age, a biological, adopted or foster child, stepchild or legal ward, a child of a domestic partner, a child to whom the employee stands in loco parentis, or an individual to whom the employee stood in loco parentis when the individual was a minor;

(B) A biological, foster, stepparent or adoptive parent or legal guardian of an employee or an employee's spouse or domestic partner or an individual who stood in loco parentis when the employee or employee's spouse or domestic partner was a minor child;

(C) An individual to whom the employee is legally married under the laws of any state, or a domestic partner who is registered as such under the laws of a political subdivision;

(D) A grandparent, grandchild, or sibling (whether of a biological, foster, adoptive or step relationship) of the employee or the employee's spouse or domestic partner; or

(E) A member of the employee's household.

(9) "Health care professional," any individual licensed under Federal or State law to provide medical or emergency services, including but not limited to doctors, nurses, certified nurse midwives, and emergency room personnel.

(10) "Person", any individual, partnership, association, corporation, business, business trust, legal representative, or any organized group of persons.

(11) "Retaliatory personnel action", denial of any right guaranteed under sections 285.600 through 285.642, or any threat, discharge, suspension, demotion, reduction of hours, or any other adverse action against an employee for the exercise of any right guaranteed herein. "Retaliatory personnel action" shall also include interference with or punishment for in any manner participating in or assisting an investigation, proceeding, or hearing under sections 285.600 through 285.642.

(12) "Year", a regular and consecutive twelve-month period as determined by the employer; except that for the purposes of section 285.615 and section 285.627, "year" shall mean a calendar year.

285.603. 1. Employees of an employer with fifteen or more employees shall accrue a minimum of one hour of earned paid sick time for every thirty hours worked, but such employees shall not be entitled to accrue or use more than fifty-six hours of earned paid sick time per year, unless the employer selects a higher limit.

2. Employees of an employer with fewer than fifteen employees shall accrue a minimum of one hour of earned paid sick time for every thirty hours worked, but such employees shall not be entitled to accrue or use more than forty hours of earned paid sick time per year, unless the employer selects a higher limit.

3. In determining the number of employees performing work for an employer for compensation during a given week, all employees performing work for compensation on a full-time, part-time, or temporary basis shall be counted. In situations in which the number of employees who work for an employer for compensation per week fluctuates above and below fifteen employees per week over the course of the year, an employer is required to provide earned paid sick time pursuant to subsection (1) of this section if it maintained fifteen or more employees on the payroll for some portion of a day in each of twenty different calendar weeks, whether or not the weeks were consecutive, in either the current or the preceding year (irrespective of whether the same individuals were in employment in each day).

4. All employees shall accrue earned paid sick time as follows:

(A) Earned paid sick time as provided in this section shall begin to accrue at the commencement of employment or ninety days after this law goes into effect, whichever is later. An employer may provide all paid sick time that an employee is expected to accrue in a year at the beginning of the year.

(B) An employee may use earned paid sick time as it is accrued, except that an employer may require an employee hired more than ninety days after this law goes into effect to wait until the ninetieth calendar day after commencing employment before using accrued earned paid sick time, unless otherwise permitted by the employer.

(C) Employees who are exempt from overtime requirements under 29 U.S.C. § 213(a)(1) of the Federal Fair Labor Standards Act will be assumed to work forty hours in each work week for purposes of earned paid sick time accrual unless their normal work week is less than forty hours, in which case earned paid sick time accrues based upon that normal work week.

(D) Earned paid sick time shall be carried over to the following year, subject to the limitations on usage in subsections (1) and (2) of this section. Alternatively, in lieu of carryover of unused earned paid sick time from one year to the next, an employer may pay an employee for unused earned paid sick time at the end of a year and provide the employee with an amount of paid sick time that meets or exceeds the requirements of sections 285.600 through 285.642 that is available for the employee's immediate use at the beginning of the subsequent year.

(E) If an employee is transferred to a separate division, entity, or location, but remains employed by the same employer, the employee is entitled to all earned paid sick time accrued at the prior division, entity, or location and is entitled to use all earned paid sick time as provided in this section. When there is a separation from employment and the employee is rehired within nine months of separation by the same employer, previously accrued earned paid sick time that had not been used shall be reinstated. Further, the employee shall be entitled to use accrued earned paid sick time and accrue additional earned paid sick time at the re-commencement of employment.

(F) When a different employer succeeds or takes the place of an existing employer, all employees of the original employer who remain employed by the successor employer are entitled to all earned paid sick time they accrued when employed by the original employer, and are entitled to use earned paid sick time previously accrued.

(G) At its discretion, an employer may loan earned paid sick time to an employee in advance of accrual by such employee.

5. Any employer with a paid leave policy, such as a paid time off policy, who makes available an amount of paid leave sufficient to meet the accrual requirements of this section that may be used for the same purposes and under the same conditions as earned paid sick time under sections 285.600 through 285.642 is not required to provide additional paid sick time.

6. Nothing in this section shall be construed as requiring financial or other reimbursement to an employee from an employer upon the employee's termination, resignation, retirement, or other separation from employment for accrued earned paid sick time that has not been used.

285.606. 1. Earned paid sick time shall be provided to an employee by an employer for:

(A) An employee's mental or physical illness, injury, or health condition; an employee's need for medical diagnosis, care, or treatment of a mental or physical illness, injury, or health condition; an employee's need for preventive medical care;

(B) Care of a family member with a mental or physical illness, injury, or health condition; care of a family member who needs medical diagnosis, care, or treatment of a mental or physical illness, injury, or health condition; care of a family member who needs preventive medical care; or

(C) Closure of the employee's place of business by order of a public official due to a public health emergency, or an employee's need to care for a child whose school or place of care has been closed by order of a public official due to a public health emergency, or care for oneself or a family member when it has been determined by the health authorities having jurisdiction or by a health care provider that the employee's or family member's presence in the community may jeopardize the health of others because of his or her exposure to a communicable disease, whether or not the employee or family member has actually contracted the communicable disease.

2. Earned paid sick time shall be provided upon the request of an employee. Such request may be made orally, in writing, by electronic means or by any other means acceptable to the employer. When possible, the request shall include the expected duration of the absence.

3. When the use of earned paid sick time is foreseeable, the employee shall make a good faith effort to provide notice of the need for such time to the employer in advance of the use of the earned paid sick time and shall make a reasonable effort to schedule the use of earned paid sick time in a manner that does not unduly disrupt the operations of the employer. Where such need is not foreseeable, an employer may require an employee to provide notice of the need for the use of earned paid sick time as soon as practicable.

4. An employer that requires notice of the need to use earned paid sick time where the need is not foreseeable shall provide a written policy that contains procedures for the employee to provide notice. An employer that has not provided to the employee a copy of its written policy for providing such notice shall not deny earned paid sick time to the employee based on non-compliance with such a policy.

5. An employer may not require, as a condition of an employee's taking earned paid sick time, that the employee search for or find a replacement worker to cover the hours during which the employee is using earned paid sick time.

6. Earned paid sick time may be used in the smaller of hourly increments or the smallest increment that the employer's payroll system uses to account for absences or use of other time.

7. For earned paid sick time of three or more consecutive work days, an employer may require reasonable documentation that the earned paid sick time has been used for a purpose covered by subsection (1) of this section. Documentation signed by a heath care professional indicating that earned paid sick time is necessary shall be considered reasonable documentation for purposes of this section. An employer may not require that the documentation explain the nature of the illness unless otherwise required by law.

285.609. 1. It shall be unlawful for an employer or any other person to interfere with, restrain, or deny the exercise of, or the attempt to exercise, any right protected under sections 285.600 through 285.642.

2. An employer shall not take retaliatory personnel action or discriminate against an employee or former employee because he or she has exercised rights protected under sections 285.600 through 285.642. Such rights include, but are not limited to, the right to request or use earned paid sick time pursuant to sections 285.600 through 285.642; the right to file a complaint or inform any person about any employer's alleged violation of sections 285.600 through 285.642; the right to participate in an investigation, hearing, or proceeding or cooperate with or assist the Department in any investigations of alleged violations of sections 285.600 through 285.642; and the right to inform any person of his or her potential rights under sections 285.600 through 285.642.

3. It shall be unlawful for an employer's absence control policy to count earned paid sick time taken under sections 285.600 through 285.642 as an absence that may lead to or result in discipline, discharge, demotion, suspension, or any other adverse action.

4. Protections of this section shall apply to any individual who mistakenly but in good faith alleges violations of sections 285.600 through 285.642.

285.612. 1. Employers shall give employees written notice of the following at the commencement of employment or by ninety days after this law goes into effect, whichever is later: employees are entitled to earned paid sick time and the amount of earned paid sick time, the terms of its use guaranteed under sections 285.600 through 285.642, that retaliatory personnel action against employees who request or use earned paid sick time is prohibited, that each employee has the right to bring a civil action if earned paid sick time as required by sections 285.600 through 285.642 is denied by the employer or the employee is subjected to retaliatory personnel action for requesting or taking earned paid sick time, and, if applicable, the contact information for the Department where questions about rights and responsibilities under sections 285.600 through 285.642 may be answered.

2. Employers shall display a poster that contains the information required in subsection (1) of this section in a conspicuous and accessible place in each establishment where such employees are employed, provided that such poster has been provided by the Department.

3. The Department may create and make available to employers, model notices and posters that contain the information required under subsection (1) of this section for employers' use in complying with subsections (1)

and (2) of this section. Nothing in this subsection shall be interpreted or applied, either expressly or through practical necessity, to require the Department to create or make available notices or posters if it requires the appropriation of funds to cover the costs of such acts.

285.615. 1. Employers shall retain records documenting hours worked by employees and earned paid sick time taken by employees, for a period of not less than three years, and shall allow the Department access to such records, with appropriate notice and at a mutually agreeable time, to monitor compliance with the requirements of sections 285.600 through 285.642.

2. To the extent permitted by law, the Director may inspect such records, and the records shall be open for inspection by the Director by appointment. Where the records required under this section are kept outside the state, the records shall be made available to the Director upon demand. Every such employer shall furnish to the Director on demand a sworn statement of time records and information upon forms prescribed or approved by the Director. All the records and information obtained by the Department are confidential and shall be disclosed only on order of a court of competent jurisdiction.

3. Nothing in this section shall be interpreted or applied, either expressly or through practical necessity, to require the Department or Director to access or inspect records or to create forms relating to the inspection of records if it requires the appropriation of funds to cover the costs of such acts.

285.618. 1. The Department may, in accordance with chapter 536, promulgate rules to implement the provisions of sections 285.600 through 285.642. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2018, shall be invalid and void.

2. Nothing in this section shall be interpreted or applied, either expressly or through practical necessity, to require the promulgation or adoption of rules if it requires the appropriation of funds to cover the costs of such acts.

285.621. 1. To the extent permitted by law, the Department may investigate and ascertain compliance with sections 285.600 through 285.642, establish and implement a system to receive complaints regarding non-compliance with sections 285.600 through 285.642 and to investigate and attempt to resolve complaints through mediation between the complainant and the subject of the complaint, and establish additional means of enforcement to the extent permitted by the law.

2. The Department may develop and implement an outreach program to inform employees, parents, and persons who are under the care of a health care provider about the availability of earned paid sick time under sections 285.600 through 285.642. This program may include the distribution of notices and other written materials to child care and elder care providers, domestic violence shelters, schools, hospitals, community health centers and other health care providers in Missouri.

3. Nothing in this section shall be interpreted or applied, either expressly or through practical necessity, to require the Department to conduct investigations and ascertain compliance with sections 285.600 through 285.642, to establish and implement a system to receive or resolve complaints, to establish additional means of enforcement, or to conduct outreach and education, including the creation of notices and other written materials, concerning sections 285.600 through 285.642, if it requires the appropriation of funds to cover the costs of such acts.

285.624. 1. To the extent permitted by law, any employer who violates or fails to comply with any of the provisions and requirements of sections 285.600 through 285.642 shall be guilty of a class C misdemeanor and shall be punished for each violation thereof by a fine, up to the maximum allowed under state law for violation of a class C misdemeanor; provided, however, that an employer who willfully violates the notice and posting requirements of section 285.612 shall be guilty of an infraction and shall be punished for each violation thereof by a fine, up to the maximum allowed under state law for an infraction.

2. For purposes of this section, each day of violation or failure to comply and each employee affected shall constitute a separate offense.

285.627. 1. Any individual who claims to have been aggrieved by a failure of an employer to comply with any portion of sections 285.600 through 285.642, including but not limited to the failure to provide earned paid sick time or to allow employees to use such time consistent with sections 285.600 through 285.642, or who claims to have suffered a retaliatory personnel action, shall have a right of action and may commence a civil action in the appropriate court of jurisdiction within three years of the accrual of the cause of action, to obtain appropriate relief with respect to such unlawful violation.

2. In a civil action under this section, if the court finds a violation has occurred, the court may grant as relief, as it deems appropriate and to the extent permitted by law, any permanent or temporary injunction, the full amount of any unpaid earned sick time plus any actual damages suffered as the result of the employer's violation of sections 285.600 through 285.642, an additional amount equal to twice any unpaid earned sick time as liquidated damages, costs, and reasonable attorney's fees as may be allowed by the court, and other legal or equitable relief as may be appropriate to remedy the violation, including, without limitation, reinstatement to

employment and back pay. Any agreement between the employee and the employer to waive the protections of sections 285.600 through 285.642 shall be no defense to the action.

285.630. 1. Except as otherwise required by law, an employer may not require disclosure of details relating to an employee's or an employee's family member's health information as a condition of providing earned paid sick time under sections 285.600 through 285.642.

2. Unless as otherwise required by law, any health information possessed by an employer regarding an employee or employee's family member must:

(A) be maintained on a separate form and in a separate file from other personnel information;

(B) be treated as confidential medical records; and

(C) not be disclosed except to the affected employee or with the express written permission of the affected employee.

285.633. 1. With respect to employees covered by a valid collective bargaining agreement in effect on the effective date of sections 285.600 through 285.642, no provisions of sections 285.600 through 285.642 shall apply until the stated expiration date in the collective bargaining agreement.

2. Nothing in sections 285.600 through 285.642 shall be deemed to interfere, impede, or otherwise diminish the right of employees to bargain collectively through representatives of their own choosing.

285.636. 1. Nothing in sections 285.600 through 285.642 shall be construed to discourage or prohibit an employer from the adoption or retention of an earned paid sick time policy more generous than the one required herein.

2. Nothing in sections 285.600 through 285.642 shall be construed as diminishing the obligation of an employer to comply with any contract, collective bargaining agreement, employment benefit plan, or other agreement providing more generous paid sick time to an employee than required herein. Nothing in sections 285.600 through 285.642 shall be construed as diminishing the rights of public employees regarding paid sick time or use of paid sick time as provided in the laws of Missouri pertaining to public employees.

285.639. 1. Sections 285.600 through 285.642 provide minimum requirements pertaining to earned paid sick time and shall not be construed to preempt, limit, or otherwise affect the applicability of any other law, regulation, requirement, policy, or standard that provides for greater accrual or use by employees of earned paid sick time or that extends other protections to employees.

2. Nothing in sections 285.600 through 285.642 shall be interpreted or applied to create a power or obligation contrary to any federal law, rule, or regulation.

285.642. Except as detailed in section 285.618, all of the provisions of sections 285.600 through 285.642 are severable, and if any provision, including any section, subsection, subdivision, paragraph, sentence, or clause, or the application thereof to any person or circumstance, is found by a court of competent jurisdiction to be invalid, unconstitutional, or unconstitutionally enacted, such decision shall not affect other provisions or applications of sections 285.600 through 285.642 that can be given effect without the invalid, unconstitutional, or unconstitutionally enacted provision or application, and to this end the provisions of sections 285.600 through 285.642 are declared severable.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-039)

Subject

Initiative petition from Richard Von Glahn regarding a proposed amendment to Chapter 285 of the Revised Statutes of Missouri. (Received November 17, 2016)

Date

December 7, 2016

Description

This proposal would amend Chapter 285 of the Revised Statutes of Missouri.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** the **Missouri Lottery,** the **Public Service Commission,** the **State Tax Commission,** the **Missouri Technology Corporation,** the **Missouri Life Sciences Research Board,** the **Missouri Veterans Commission,** the **Missouri Ethics Commission,** the **Missouri Office of Prosecution Services,** the **Kansas City Boards of Police Commissioners,** the **St. Louis City Board of Police Commissioners,** the **St. Louis County Board of Elections,** the **Board of Election Commissioners City of St.**

Louis, the **Kansas City Board of Election Commissioners,** the **Platte County Board of Elections,** the **Jackson County Election Board,** the **Clay County Board of Election Commissioners,** the **Lieutenant Governor's office,** the **Children's Trust Fund,** the **Missouri Joint Municipal Electric Utility Commission,** the **State Auditor's office, University of Central Missouri, Harris-Stowe State University, Lincoln University, Missouri Southern State University, Missouri Western State University, Northwest Missouri State University, Southeast Missouri State University,** and **Truman State University**.

Lara Granich and Missouri Jobs with Justice Voter Action provided information as proponents of the proposal to the State Auditor's office.

Officials from the **Attorney General's office** indicated various provisions of the proposal authorize their department to promulgate rules, establish mediation procedures "and additional means of enforcement… ." They assume that their office may provide some review of proposals, but assume that any potential costs arising from this proposal can be absorbed with existing resources. They may seek additional appropriations if there is an increased review of rules in later years.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated they will be deferring to the Office of Administration and the Department of Labor and Industrial Relations regarding any fiscal impact this initiative petition might have.

Officials from the **Department of Higher Education** indicated the state, including departments, are exempt from the definition of "employer," so this initiative petition would not have a fiscal impact on their department.

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition does not apply to public employers with respect to its employees. Therefore, this petition, if passed, would have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated there is no fiscal impact to their department as a result of this initiative petition. Section 285.600 (5) indicates "for the purposes of sections 285.600 through 285.642 "employer" does not include the United States Government, the state, …., including a department, agency, …."

Officials from the **Department of Corrections** indicated they defer to the Office of Administration.

Officials from the **Department of Labor and Industrial Relations** indicated they expect no change in revenues or expenses in fiscal years 2017, 2018, and 2019.

The petition, if passed by voters, would require businesses with 15 or more employees to provide paid sick time. It also would allow their department to educate employers, take complaints, and perform investigations of violations of the new law.

The long-range fiscal implications are the same as those of the estimate period.

Under the new language, they may educate employers and employees, promulgate rules, take complaints, and conduct investigations of alleged violations of the new provisions. They believe the education, registration of complaints, and investigations would be conducted in a manner similar to those conducted under the Minimum Wage program. Using employer information from the United States Census Bureau for employers with more than ten employees, they estimate that it would receive complaints from 1.5% of the estimated 40,886 businesses with 10 or more employees, or 613 complaints annually. (The Census Bureau does not break employers at the 15 or more level.) To investigate these 613 complaints, they would require 3.50 Wage & Hour Investigator I/IIs. In FY 2016, 578 complaints were closed by 3.50 Investigators, averaging 165 per FTE. Using this calculation, they estimate it would need 3.50 FTE and the standard per FTE expenses and equipment to complete these activities.

However, Sections 285.612, 285.615, 285.618, and 285.621 expressly state that they are not required to take on the new duties it is authorized to perform under this proposal if doing so will require an appropriation to cover the costs of performing the duties. Because these duties are optional and are not required of their department, if there is no appropriation made to cover the cost, they estimate no mandated fiscal impact for this proposal.

Officials from the **Department of Revenue** indicated they defer this fiscal note to the Office of Administration for a statewide response.

Officials from the **Department of Public Safety** indicated they will defer to the Office of Administration response to this petition.

Officials from the **Department of Social Services** indicated they will defer to the Office of Administration response to this petition. They indicated no fiscal impact on their department.

Officials from the **Governor's Office** indicated there should be no fiscal impact to their office.

Officials from the **House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated no fiscal impact.

Officials from the **Office of Administration** indicated:

This initiative petition adds 15 new sections to Chapter 285 related to sick leave.

Under this proposal, employers would be required to provide paid sick leave to employees. The amount would be dependent upon the number of employees. It does not include employees covered under a valid collective bargaining agreement and it provides employees with an avenue of recourse if the employee claims to be aggrieved.

The State of Missouri is excluded from the provisions of this proposal, therefore there would be no statewide impact related to this proposal other than potentially higher costs for services purchased by the state. However, the Department of Labor and Industrial Relations (DOLIR) will be impacted. Budget and Planning defers to the DOLIR for the specific impact to that agency.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated no fiscal impact on their office.

Officials from the **Secretary of State's office** indicated their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any impact on their office, as they are an independent department within state government and by definition state employees are exempt from this proposed legislation.

Officials from the **State Treasurer's office** indicated this would have no fiscal impact on their office.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from the **City of Columbia** indicated expect no significant impact on their city.

Officials from the **City of Kansas City** indicated no direct fiscal impact is anticipated if this proposal is adopted because cities are not employers. An indirect cost to cities may arise through increased labor costs of those vendors contracting with the city.

Officials from the **City of Raymore** indicated no fiscal impact.

Officials from the **City of St. Joseph** indicated this initiative petition could have a fiscal impact on local government.

Officials from **University of Missouri** indicated they have reviewed this proposed legislation and have determined that for benefit eligible employees (defined as working .75 or >) that it does not appear that the proposed legislation as written would create a significant fiscal impact to their university.

Officials from the **Missouri Lottery** indicated no fiscal impact to their agency.

Officials from the **Public Service Commission** indicated no fiscal impact on their agency.

Officials from the **State Tax Commission** indicated this initiative petition pertaining to sick leave in Chapter 285 does not directly impact their office. As a state agency this matter is under the direction of Office of Administration, Division of Personnel.

Officials from the **Missouri Veterans Commission** indicated no fiscal impact to their agency.

Officials from the **Missouri Office of Prosecution Services** indicated no measurable fiscal impact to their office.

Officials from the **Kansas City Boards of Election Commissioners** indicated there is no fiscal impact with amendments to Chapter 285, Versions 1 -12, since the State is not responsible for costs associated with the November 2018 election.

Officials from the **Platte County Board of Elections** indicated the proposed initiative would have no fiscal impact on their office.

Officials from the **Jackson County Election Board** indicated no fiscal impact on their office.

Officials from the **Lieutenant Governor's office** indicated it is anticipated that this initiative petition will impose little to no costs or savings on their office.

Officials from the **Children's Trust Fund** indicated they are part of the Office of Administration and thus will be covered by the Office of Administration's official response. They will not be responding separately.

Officials from the **Missouri Joint Municipal Electric Utility Commission** indicated:

The Missouri Association of Municipal Utilities represents approximately 120 cities in Missouri providing utility services to their customer/owners. They do not represent cities in their general business operation. That representation is undertaken by the Missouri Municipal League and its executive director Dan Ross.

Based on a review of each of the 12 versions it appears that there would be no direct cost to any of their cities since the framers of the amendment specifically excluded cities from the definition of employers and city employees from coverage of the proposed changes.

However, it is possible that cities may experience some increases in the cost of goods and services consumed in the regular course of business as a result of higher labor input costs. It is impossible to accurately predict those increases other than to make you aware of the potential.

Officials from the **State Auditor's office** indicated there is no fiscal impact for their office.

Officials from **University of Central Missouri** indicated if they are included in the definition of "employer" that would be impacted by this legislation, they would have an additional cost of roughly $340,000. In fiscal year 2016, part-time employees worked nearly 679,000 hours. If each 30 hours resulted in one sick time hour, that would be 22,634 hours. At an average rate of $15/hour, that would have a fiscal impact of $340,000.

If the definition of employer is interpreted to exclude UCM because of its status as a state agency, then there would be no fiscal impact.

Officials from **Missouri State University** indicated no fiscal impact on their university.

Officials from **Missouri Southern State University** indicated they do not anticipate any fiscal impact from this initiative petition.

Lara Granich and Missouri Jobs with Justice Voter Action provided the following information as proponents of this initiative petition.

Re: Fiscal Impact Analysis of Earned Sick Time Petitions
Petitions numbered by MO SOS at 2018-28 to 2018-39

This letter is from Lara Granich and Missouri Jobs with Justice Voter Action, proponents of the above-referenced initiative petitions. Pursuant to RSMo. Section 116.175, we write to submit the following information to assist your office in its analysis of the fiscal impact of the above-mentioned twelve proposed Earned Sick Time Petitions.

This analysis uses data collected by the U.S. Bureau of Labor Statistics, the Centers for Disease Control and Prevention, and the U.S. Census Bureau to evaluate the impact of earned sick time laws in Missouri. This analysis uses findings from previous peer-reviewed research to estimate cost-savings associated with the proposed policies through reduced turnover, reduced spread of contagious disease in the workplace, prevention of productivity losses from employees working while sick, minimized nursing-home stays, and reduced norovirus outbreaks in nursing homes. We also address certain claims that have been made by opponents in the past.

I. Estimate of Number of Workers Affected Statewide

According to the Institute for Women's Policy Research, an estimated 1,002,116 private sector workers in Missouri, or 45.9 percent of the workforce, cannot earn a single paid sick day to use to recover from common illnesses or seek medical care.[1]

II. Direct Costs to State

As these proposed initiatives exclude public workers employed by the state or by local governments, the initiatives are not expected to have any direct impact on state and local payroll costs. Enforcement would be handled by existing staff at the Department of Labor.

III. Economic Literature on the Impact of Earned Sick Time on Businesses

This analysis quantifies only a subset of potential benefits, predicting a net economic benefit from both of the proposed laws. Likely additional benefits from paid sick days not quantified in this analysis include: reduced health care spending due to reduced public contagion and more timely and regular preventive care and treatment; improved economic security among families who receive pay on sick days and are less likely to be fired or disciplined for taking sick time; and improved school outcomes and reduced contagion in schools, when parents can avoid sending sick children to school or child care.

Millions of workers have gained access to paid sick days in recent years through new laws in five states, 23 cities, and one county across the country. There is no evidence of business closures/layoffs as a result of earned sick time laws. Both Seattle and San Francisco saw positive job growth in the period after their laws took effect, and this job growth was much higher than in the surrounding areas for both cities. San Francisco's growth in employment exceeded the average employment growth of surrounding counties after the paid sick days law was passed. In the 10 months after the adoption of Seattle's Paid Sick and Safe Time Ordinance, King County (where Seattle is located) did not see negative economic impacts; rather, the county saw sustained job growth and reduced unemployment rates. 2

The Washington D.C. Auditor reported "that the Accrued Sick and Safe Leave Act did not have the economic impact of encouraging business owners to move a business from the District nor did the Act have the economic impact of discouraging business owners to locate a business in the District of Columbia."3 New York City reported that "New York City's economy has thrived since the enactment of PSL [paid sick leave]. Between January 2014 and January 2015, a period that covers the law's implementation, economic indicators were a cause for celebration, not concern as many had predicted." 4

Summary of Benefits Associated With Missouri's Proposed Earned Sick Time Law

Benefits	Firms with <50 Employees			Firms with 50+ Employees		
	Dollars	Average per-worker savings		Dollars	Average per-worker costs/savings	
BENEFITS						
Lower Turnover	$32,718,875			$146,675,016		
Reduced Flu Contagion in the Workplace	$1,334,044			$5,980,370		
		Weekly	*Hourly*		*Weekly*	*Hourly*
Employers' Savings	**$34,052,920**	**$6.97**	**$0.21**	**$152,655,386**	**$9.44**	**$0.26**
Reduced Short-Term Nursing Home Stays	$2,415,006			$8,165,162		
Reduced Norovirus in Nursing Homes	$21,692			$93,129		
Reduced Flu Contagion	$233,249			$771,691		
Reduced Emergency Department Visits	$3,512,104			$11,619,581		
		Weekly	*Hourly*		*Weekly*	*Hourly*
Community Savings	**$6,182,052**	**$1.26**	**$0.04**	**$20,649,564**	**$1.28**	**$0.03**

Note: "Small" firms are defined in the proposed laws at firms employing fewer than 15 employees and "Large" firms are defined as firms employing 15 or more employees.

Source: Institute for Women's Policy Research Analysis of the 2014 American Community Survey (ACS), the 2016 National Compensation Survey (NCS), the 2013-2016 Current Population Survey Annual Social and Economic Supplement (CPS ASEC), the 2010 Current Population Survey Displaced Worker, Employee Tenure, and Occupational Mobility Supplement File, and the 2014-2015 National Health Interview Survey (NHIS).

Note on Methodology

The estimates are based on analyses of the following data sets: the 2013–2016 Current Population Survey Annual Social and Economic Supplement (CPS ASEC), the 2014-2015 National Health Interview Survey (NHIS), the 2014 American Community Survey (ACS), the 2016 National Compensation Survey and the 2014 Medical Expenditure Panel Survey along with findings from previous peer-reviewed research.

This analysis was limited to only private sector workers as the proposed legislation only covers such workers. The proposed legislation does include some small exemptions for certain employees which this analysis does not account for. Excluding such workers would result in minor reductions in both the costs and benefits estimated, but general trends would remain the same. To learn more about the methodology and sources please see "Valuing Good Health in Maryland: The Costs and Benefits of Earned Sick Days"[5]

We hope that this information is useful to your office as your prepare your analyses of the petitions.

Respectfully submitted,
Lara Granich

Paid Sick Days Benefit Employers, Workers, and the Economy

Jessica Milli, PhD., Jenny Xia, and Jisun Min

Millions of workers have gained access to paid sick days in recent years through new laws in five states, 23 cities, and one county across the country.[1] Yet millions more still would not be paid if they need to stay at home when they are sick or need to care for a family member who is ill. As of 2014, 51 million workers lacked access to paid sick days.[2]

Research has documented many benefits of paid sick days policies for workers, businesses, and communities as a whole. These benefits would multiply substantially if more workers gained access to paid sick days. This briefing paper summarizes research on the benefits of paid sick days and the effects of paid sick days policies in places that have them.

Employers Benefit from Paid Sick Days

- **Reduced contagion in the workplace:** A 2010 survey conducted by the National Opinion Research Center found that employees without access to paid sick days are 1.5 times more likely than those with access to go to work with a contagious illness (55 percent compared with 37 percent).[3] Such "presenteeism" has serious public health consequences including flu contagion. A 2010 analysis of labor force and Centers for Disease Control data estimated that more than one in four private sector employees worked while ill with H1N1 during the 2009 H1N1 pandemic, resulting in the estimated infection of 7 million co-workers with H1N1. Work absences from illness dropped more precipitously among public sector workers than among private sector workers during the decline of the pandemic. Because employees in the public sector have greater access to paid sick days, the finding suggests that paid sick days played a role in slowing contagion and potentially in speeding recovery.[4] A 2013 study employed a model simulating influenza contagion to estimate reductions in contagion rates under a universal paid sick days policy. Using data from the American Community Survey, LandScan USA, and the U.S. Census, the study estimated that providing paid sick days would reduce workplace influenza infection in the United States by about 6 percent.[5]

- **Improved productivity:** When workers come to work sick, their productivity and performance suffer. Estimates of productivity losses vary across studies. A 1997 study polling 332 workers who had influenza-like illnesses found that workers on average reported being 46 percent less effective while ill at work.[6] A 2003 study based on interviews with more than 28,000 workers reported that on average, workers lose 1.32 hours per week of productive time due to personal health related reasons.[7] Since workers

with access to paid sick days are less likely to come to work sick and infect their co-workers,[8] paid sick days can prevent further productivity losses resulting from illness and contagion in the workplace.

- **Decreased workplace injuries:** Working while sick also puts employees at greater risk of injury on the job. A 2012 study using the 2005 through 2008 National Health Interview Survey (NHIS) found that after controlling for factors like survey year, occupational sector, firm size, region, and the availability of paid sick leave, workers with access to paid sick days are 28 percent less likely to be injured on the job than workers without this benefit.[9]

- **Decreased employee turnover:** A 2012 analysis of data collected between 2004 and 2006 through the Medical Expenditure Panel Survey (MEPS) finds that the likelihood of job separation decreases by about 25 percent when a worker has access to paid sick days, even after controlling for potential confounding factors such as workers' educational attainment, earnings, and race/ethnicity.[10] As employee turnover typically costs an employer between 10 and 30 percent of an employee's annual salary,[11] a reduction in turnover can result in significant reductions in employer costs.

Paid Sick Days Improve Public Health

- **Increased use of preventive care:** Since paid sick days can be used for doctor visits, workers with paid sick days are more likely to seek preventive care and to be screened for diseases such as cancer, which can lead to early detection and treatment. A 2012 study using 2008 National Health Interview Survey (NHIS) data finds that after controlling for sociodemographic and health-care-related factors, workers with paid sick days are significantly more likely to have had mammograms, Pap tests, and endoscopy, and to have seen a doctor during the previous year than those without the benefit.[12]

- **More timely treatment for illnesses:** Workers without paid sick days are more likely to delay medical care when they or a family member is ill which can lead to a more serious or prolonged illness.[13]A 2016 analysis of the 2013 NHIS—which controlled for demographic and health-related factors like race and ethnicity, occupation, annual family income, and health insurance coverage—indicates that workers without paid sick leave are three times more likely to forgo medical care for themselves, and 1.6 times more likely to forgo medical care for their families, compared with workers who have the benefit.[14] A 2011 analysis of the NHIS found that when they do seek care, workers without paid sick days—regardless of their educational attainment, income, race/ethnicity and other demographic characteristics—are more likely to use an emergency department for care.[15]

- **Improved family health:** Paid sick days may encourage workers to respond to their children's and family members' health needs in a timely manner, thereby improving overall health outcomes for their families. Paid sick days are a primary factor affecting whether a working parent will stay at home with a sick child rather than sending them to school or child care sick. The 2010 National Opinion Research Center Survey found that

28 percent of workers without paid sick days reported sending a sick child to school or child care, compared with 14 percent of workers with paid sick days.[16] A 2012 study analyzing the 2008 National Study of the Changing Workforce (NSCW) and controlling for worker and job characteristics finds that having paid sick days is associated with reduced work-family conflict, which lessens difficulties parents face in taking time off from work to care for a sick child.[17]

Paid Sick Days Bring Economic Benefits for Workers, Families, and Communities

- **Improved employment and earnings stability:** When incomes are not interrupted by unpaid leave, families experience greater financial stability and economic well-being. According to a 2010 poll, 16 percent of workers surveyed reported losing a job for missing work when they were sick or to care for an ill family member.[18] Research has shown that having paid sick days reduces the likelihood of a job separation by at least 25 percent.[19]

- **Improved labor force attachment among caregivers:** Informal caregivers whose work schedules are incompatible with the care needs of their family members may decrease their work hours or even leave the labor force completely.[20] One 2011 Gallup poll found that most caregivers, including parents, reported missing at least one full day of work to fulfill their caregiving duties with an average of 6.6 workdays missed per year.[21] Paid sick days, however, may provide sufficient leave to caregivers to allow them to maintain their desired level of employment while continuing to perform their caregiving work.

- **Savings from reduced utilization of hospital emergency departments and a lower monetary burden on taxpayers:** A 2011 study using the 2008 and 2009 NHIS finds that the annual number of emergency department visits per worker without paid sick days is greater than it is for those with the benefit. Using MEPS data on the cost of emergency department visits, the study estimates that a lack of paid sick days resulted in an estimated 1.3 million preventable emergency department visits every year in the United States in 2008, costing $1.1 billion more than office visits would have. Part of these costs—$500 million—were paid by public insurance programs such as Medicaid.[22]

Research Finds Benefits of Existing Paid Sick Days Laws and Minimal Costs to Employers

Since the implementation of the first paid sick days law in 2007, several studies have evaluated the impacts of the legislation, with a particular emphasis on the effects on employers. These evaluations have largely found that the overall impact on businesses was minimal. Many firms saw benefits from the policy and counted themselves as supporters after implementing it.

- **Minimal costs:** Costs to employers of providing paid sick days have been modest. In Seattle, evaluations found that the cost of providing paid sick leave in 2013 was only

about 0.4 percent of total firm revenue for the year.[23] In Connecticut, nearly half of 228 employers surveyed in 2013, a year and a half after the state's paid sick days law's implementation, reported having no increased overall cost, and 19.1 percent of employers reported an increased cost of less than 2 percent.[24] In San Francisco, the paid sick leave ordinance created additional costs for a relatively small share of employers. Six out of seven employers reported no adverse effects on profitability.[25]

- **Ease of implementation:** Research shows that paid sick days have minimal effect on business operations. Most San Francisco employers reported that implementing the Paid Sick Leave Ordinance was not difficult.[26] Likewise, about two thirds of Seattle employers reported that implementing the Paid Sick and Safe Time Ordinance was not very difficult, and 70 percent expressed support for the policy a year after implementation of the Ordinance.[27] Similarly, a large majority of Connecticut employers surveyed in 2013 indicated that the Paid Sick Leave Law did not burden business operations.[28]

- **Employees use paid sick days judiciously:** Several years after the implementation of San Francisco's paid sick days law, an IWPR survey of 1,194 workers found that employees in San Francisco used fewer than half of the sick days available under the paid sick leave ordinance.[29] Using data from the 2014 NHIS, IWPR found that most workers who do have access to paid sick days do not use any in a given year.[30] In regions that have passed paid sick day laws, surveys suggest that abuse of paid sick days is rare. Among 228 Connecticut employers surveyed by the Center for Economic and Policy Research, 86 percent reported no known cases of abuse more than a year after paid sick days was implemented.[31] A report published by the City of Seattle auditor finds that more than nine in ten Seattle employers surveyed in 2012 had never reprimanded an employee for abusing paid sick days.[32]

- **Sustained job growth and employment:** In contrast to messaging communicated by big business lobbyists prior to the laws' passage, both Seattle and San Francisco saw positive job growth in the period after their laws took effect, and this job growth was much higher than in the surrounding areas for both cities. San Francisco's growth in employment exceeded the average employment growth of surrounding counties after the paid sick days law was passed.[33] In the 10 months after the adoption of Seattle's Paid Sick and Safe Time Ordinance, King County (where Seattle is located) did not see negative economic impacts; rather, the county saw sustained job growth and reduced unemployment rates.[34]

- **Improved employee morale, motivation, loyalty, and productivity**: Over a quarter of Connecticut employers reported improved morale, 12.5 percent reported increased employee motivation, 10.6 percent reported increased loyalty, and 14.9 percent reported increased productivity after implementation of the state's paid sick days law.[35]

- **Improved work life balance for employees:** A 2010 IWPR survey found that one out of four San Francisco employees reported that paid sick days enabled them to better care for their own and their families' health needs. In addition, nearly 30 percent reported that their employers were more supportive when they needed to use their leave than they were

prior to the law's passage. More than half of all San Francisco workers reported at least one benefit as a result of the ordinance.[36]

- **Reduced flu contagion in locations with paid sick day laws:** One recent study used Google Flu data from 2003 to 2015 to show that influenza-like infection rates decrease significantly when workers gain access to paid sick days. By comparing the rates of influenza-like illnesses in regions with paid sick days policies—including the District of Columbia, Connecticut, California, Massachusetts, and Oregon—with those lacking such laws, the study finds that infection rates decrease by about 10 percent when employees without coverage obtain paid sick days.[37]

Conclusion

Literature spanning the fields of public health, economics, sociology, medicine, social work, and public policy converge to reflect the health, employment, and economic benefits of paid sick days. Research suggests that more widespread implementation of paid sick days policies would have a substantial positive impact on the well-being of children, families, and communities across the United States.

JASON KANDER
SECRETARY OF STATE
STATE OF MISSOURI

ELECTIONS DIVISION
(573) 751-2301

November 17, 2016

RECEIVED
NOV 17 2016
STATE AUDITORS OFFICE

The Honorable Nicole Galloway
State Auditor
State Capitol Building
Jefferson City, MO 65101

RE: Petition approval request from Richard Von Glahn regarding a proposed statutory amendment to Chapter 285, version 11 (2018-038)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Richard Von Glahn on November 16, 2016.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

Jason Kander

Address of Notary (Street, City, State & Zip Code)

Be it enacted by the people of the State of Missouri:

Section 285.055 of the Revised Statutes of Missouri is amended and fifteen new sections to be known as sections 285.600, 285.603, 285.606, 285.609, 285.612, 285.615, 285.618, 285.621, 285.624, 285.627, 285.630, 285.633, 285.636, 285.639, and 285.642 are enacted to read as follows:

285.055. 1. As used in this section, the following terms shall mean:

(1) "Employee", an individual employed in this state by an employer;

(2) "Employer", any individual, sole proprietorship, partnership, limited liability company, corporation, or any other entity that is legally doing business in this state; provided, however, that employer shall not include any public employer as defined in section 285.525;

(3) "Employment benefits", anything of value that an employee may receive from an employer in addition to wages and salary. The term includes, but is not limited to, health, disability, retirement, profit-sharing, and death benefits; group accidental death and dismemberment benefits; paid or unpaid days off from work for holidays, [sick leave,] vacation, and personal necessity; and terms of employment, attendance, or leave policies; provided, however, that for purposes of this section, "employment benefits" does not include paid or unpaid days off from work for sick leave that can be used for the purposes listed in subsection (1) of section 285.606.

(4) "Political subdivision", any county, city, town, or village.

2. No political subdivision shall establish, mandate, or otherwise require an employer to provide to an employee:

(1) A minimum or living wage rate; or

(2) Employment benefits;

that exceed the requirements of federal or state laws, rules, or regulations. The provisions of this subsection shall not preempt any state law or local minimum wage ordinance requirements in effect on August 28, 2015.

285.600. As used in sections 285.600 through 285.642:

(1) "Construction", includes construction, reconstruction, improvement, enlargement, alteration, painting and decorating, or major repair.

(2) "Construction industry", includes any employer whose employees conduct or perform construction as a principal component of the employer's business or enterprise.

(3) "Department", Department of Labor and Industrial Relations.

(4) "Director", Director of the Department of Labor and Industrial Relations.

(5) "Earned paid sick time", time that is compensated at the same hourly rate and with the same benefits, including health care benefits, as the employee normally earns during hours worked and is provided by an employer to an employee for the purposes described in section 285.606, but in no case shall this hourly amount be less than that provided under section 290.502.

(6) "Employee", any individual employed in this state by an employer, but does not include:

(A) Any individual engaged in the activities of an educational, charitable, religious, or nonprofit organization where the employer-employee relationship does not, in fact, exist or where the services rendered to the organization are on a voluntary basis;

(B) Any individual standing in loco parentis to foster children in their care;

(C) Any individual employed for less than four months in any year in a resident or day camp for children or youth, or any individual employed by an educational conference center operated by an educational, charitable or not-for-profit organization;

(D) Any individual engaged in the activities of an educational organization where employment by the organization is in lieu of the requirement that the individual pay the cost of tuition, housing or other educational fees of the organization or where earnings of the individual employed by the organization are credited toward the payment of the cost of tuition, housing or other educational fees of the organization;

(E) Any individual employed on or about a private residence on an occasional basis for six hours or less on each occasion;

(F) Any individual employed on a casual basis to provide baby-sitting services;

(G) Any individual employed by an employer subject to the provisions of part A of subtitle IV of title 49, United States Code, 49 U.S.C. §§ 10101 et seq.;

(H) Any individual employed on a casual or intermittent basis as a golf caddy, newsboy, or in a similar occupation;

(I) Any individual who is employed in any government position defined in 29 U.S.C. §§ 203(e)(2)(C)(i)-(ii);

(J) Any individual who is an offender, as defined in section 217.010, who is incarcerated in any correctional facility operated by the department of corrections, including offenders who provide labor or services on the grounds of such correctional facility pursuant to section 217.550; or

(K) Any individual engaged in construction work in the construction industry.

(7) "Employer", any person acting directly or indirectly in the interest of an employer in relation to an employee; provided, however, that for the purposes of sections 285.600 through 285.642, "employer" does not include the United States Government, the state, or a political subdivision of the state, including a department, agency, officer, bureau, division, board, commission, or instrumentality of the state, or a city, county, town, village, school district, or other political subdivision of the state.

(8) "Family member", any of the following individuals:

(A) Regardless of age, a biological, adopted or foster child, stepchild or legal ward, a child of a domestic partner, a child to whom the employee stands in loco parentis, or an individual to whom the employee stood in loco parentis when the individual was a minor;

(B) A biological, foster, stepparent or adoptive parent or legal guardian of an employee or an employee's spouse or domestic partner or an individual who stood in loco parentis when the employee or employee's spouse or domestic partner was a minor child;

(C) An individual to whom the employee is legally married under the laws of any state, or a domestic partner who is registered as such under the laws of a political subdivision;

(D) A grandparent, grandchild, or sibling (whether of a biological, foster, adoptive or step relationship) of the employee or the employee's spouse or domestic partner; or

(E) A member of the employee's household.

(9) "Health care professional," any individual licensed under Federal or State law to provide medical or emergency services, including but not limited to doctors, nurses, certified nurse midwives, and emergency room personnel.

(10) "Person", any individual, partnership, association, corporation, business, business trust, legal representative, or any organized group of persons.

(11) "Retaliatory personnel action", denial of any right guaranteed under sections 285.600 through 285.642, or any threat, discharge, suspension, demotion, reduction of hours, or any other adverse action against an employee for the exercise of any right guaranteed herein. "Retaliatory personnel action" shall also include interference with or punishment for in any manner participating in or assisting an investigation, proceeding, or hearing under sections 285.600 through 285.642.

(12) "Year", a regular and consecutive twelve-month period as determined by the employer; except that for the purposes of section 285.615 and section 285.627, "year" shall mean a calendar year.

285.603. 1. Employees of an employer with fifteen or more employees shall accrue a minimum of one hour of earned paid sick time for every thirty hours worked, but such employees shall not be entitled to accrue or use more than fifty-six hours of earned paid sick time per year, unless the employer selects a higher limit.

2. Employees of an employer with fewer than fifteen employees shall accrue a minimum of one hour of earned paid sick time for every thirty hours worked, but such employees shall not be entitled to accrue or use more than forty hours of earned paid sick time per year, unless the employer selects a higher limit.

3. In determining the number of employees performing work for an employer for compensation during a given week, all employees performing work for compensation on a full-time, part-time, or temporary basis shall be counted. In situations in which the number of employees who work for an employer for compensation per week fluctuates above and below fifteen employees per week over the course of the year, an employer is required to provide earned paid sick time pursuant to subsection (1) of this section if it maintained fifteen or more employees on the payroll for some portion of a day in each of twenty different calendar weeks, whether or not the weeks were consecutive, in either the current or the preceding year (irrespective of whether the same individuals were in employment in each day).

4. All employees shall accrue earned paid sick time as follows:

(A) Earned paid sick time as provided in this section shall begin to accrue at the commencement of employment or ninety days after this law goes into effect, whichever is later. An employer may provide all paid sick time that an employee is expected to accrue in a year at the beginning of the year.

(B) An employee may use earned paid sick time as it is accrued, except that an employer may require an employee hired more than ninety days after this law goes into effect to wait until the ninetieth calendar day after commencing employment before using accrued earned paid sick time, unless otherwise permitted by the employer.

(C) Employees who are exempt from overtime requirements under 29 U.S.C. § 213(a)(1) of the Federal Fair Labor Standards Act will be assumed to work forty hours in each work week for purposes of earned paid sick time accrual unless their normal work week is less than forty hours, in which case earned paid sick time accrues based upon that normal work week.

(D) Earned paid sick time shall be carried over to the following year, subject to the limitations on usage in subsections (1) and (2) of this section. Alternatively, in lieu of carryover of unused earned paid sick time from one year to the next, an employer may pay an employee for unused earned paid sick time at the end of a year and provide the employee with an amount of paid sick time that meets or exceeds the requirements of sections 285.600 through 285.642 that is available for the employee's immediate use at the beginning of the subsequent year.

(E) If an employee is transferred to a separate division, entity, or location, but remains employed by the same employer, the employee is entitled to all earned paid sick time accrued at the prior division, entity, or location and is entitled to use all earned paid sick time as provided in this section. When there is a separation

from employment and the employee is rehired within nine months of separation by the same employer, previously accrued earned paid sick time that had not been used shall be reinstated. Further, the employee shall be entitled to use accrued earned paid sick time and accrue additional earned paid sick time at the re-commencement of employment.

(F) When a different employer succeeds or takes the place of an existing employer, all employees of the original employer who remain employed by the successor employer are entitled to all earned paid sick time they accrued when employed by the original employer, and are entitled to use earned paid sick time previously accrued.

(G) At its discretion, an employer may loan earned paid sick time to an employee in advance of accrual by such employee.

5. Any employer with a paid leave policy, such as a paid time off policy, who makes available an amount of paid leave sufficient to meet the accrual requirements of this section that may be used for the same purposes and under the same conditions as earned paid sick time under sections 285.600 through 285.642 is not required to provide additional paid sick time.

6. Nothing in this section shall be construed as requiring financial or other reimbursement to an employee from an employer upon the employee's termination, resignation, retirement, or other separation from employment for accrued earned paid sick time that has not been used.

285.606. 1. Earned paid sick time shall be provided to an employee by an employer for:

(A) An employee's mental or physical illness, injury, or health condition; an employee's need for medical diagnosis, care, or treatment of a mental or physical illness, injury, or health condition; an employee's need for preventive medical care;

(B) Care of a family member with a mental or physical illness, injury, or health condition; care of a family member who needs medical diagnosis, care, or treatment of a mental or physical illness, injury, or health condition; care of a family member who needs preventive medical care; or

(C) Closure of the employee's place of business by order of a public official due to a public health emergency, or an employee's need to care for a child whose school or place of care has been closed by order of a public official due to a public health emergency, or care for oneself or a family member when it has been determined by the health authorities having jurisdiction or by a health care provider that the employee's or family member's presence in the community may jeopardize the health of others because of his or her exposure to a communicable disease, whether or not the employee or family member has actually contracted the communicable disease.

2. Earned paid sick time shall be provided upon the request of an employee. Such request may be made orally, in writing, by electronic means or by any other means acceptable to the employer. When possible, the request shall include the expected duration of the absence.

3. When the use of earned paid sick time is foreseeable, the employee shall make a good faith effort to provide notice of the need for such time to the employer in advance of the use of the earned paid sick time and shall make a reasonable effort to schedule the use of earned paid sick time in a manner that does not unduly disrupt the operations of the employer. Where such need is not foreseeable, an employer may require an employee to provide notice of the need for the use of earned paid sick time as soon as practicable.

4. An employer that requires notice of the need to use earned paid sick time where the need is not foreseeable shall provide a written policy that contains procedures for the employee to provide notice. An employer that has not provided to the employee a copy of its written policy for providing such notice shall not deny earned paid sick time to the employee based on non-compliance with such a policy.

5. An employer may not require, as a condition of an employee's taking earned paid sick time, that the employee search for or find a replacement worker to cover the hours during which the employee is using earned paid sick time.

6. Earned paid sick time may be used in the smaller of hourly increments or the smallest increment that the employer's payroll system uses to account for absences or use of other time.

7. For earned paid sick time of three or more consecutive work days, an employer may require reasonable documentation that the earned paid sick time has been used for a purpose covered by subsection (1) of this section. Documentation signed by a heath care professional indicating that earned paid sick time is necessary shall be considered reasonable documentation for purposes of this section. An employer may not require that the documentation explain the nature of the illness unless otherwise required by law.

285.609. 1. It shall be unlawful for an employer or any other person to interfere with, restrain, or deny the exercise of, or the attempt to exercise, any right protected under sections 285.600 through 285.642.

2. An employer shall not take retaliatory personnel action or discriminate against an employee or former employee because he or she has exercised rights protected under sections 285.600 through 285.642. Such rights include, but are not limited to, the right to request or use earned paid sick time pursuant to sections 285.600 through 285.642; the right to file a complaint or inform any person about any employer's alleged violation of sections 285.600 through 285.642; the right to participate in an investigation, hearing, or proceeding or cooperate with or assist the Department in any investigations of alleged violations of sections 285.600 through 285.642; and the right to inform any person of his or her potential rights under sections 285.600 through 285.642.

3. It shall be unlawful for an employer's absence control policy to count earned paid sick time taken under sections 285.600 through 285.642 as an absence that may lead to or result in discipline, discharge, demotion, suspension, or any other adverse action.

4. Protections of this section shall apply to any individual who mistakenly but in good faith alleges violations of sections 285.600 through 285.642.

285.612. 1. Employers shall give employees written notice of the following at the commencement of employment or by ninety days after this law goes into effect, whichever is later: employees are entitled to earned paid sick time and the amount of earned paid sick time, the terms of its use guaranteed under sections 285.600 through 285.642, that retaliatory personnel action against employees who request or use earned paid sick time is prohibited, that each employee has the right to bring a civil action if earned paid sick time as required by sections 285.600 through 285.642 is denied by the employer or the employee is subjected to retaliatory personnel action for requesting or taking earned paid sick time, and, if applicable, the contact information for the Department where questions about rights and responsibilities under sections 285.600 through 285.642 may be answered.

2. Employers shall display a poster that contains the information required in subsection (1) of this section in a conspicuous and accessible place in each establishment where such employees are employed, provided that such poster has been provided by the Department.

3. The Department may create and make available to employers, model notices and posters that contain the information required under subsection (1) of this section for employers' use in complying with subsections (1) and (2) of this section. Nothing in this subsection shall be interpreted or applied, either expressly or through practical necessity, to require the Department to create or make available notices or posters if it requires the appropriation of funds to cover the costs of such acts.

285.615. 1. Employers shall retain records documenting hours worked by employees and earned paid sick time taken by employees, for a period of not less than three years, and shall allow the Department access to such records, with appropriate notice and at a mutually agreeable time, to monitor compliance with the requirements of sections 285.600 through 285.642.

2. To the extent permitted by law, the Director may inspect such records, and the records shall be open for inspection by the Director by appointment. Where the records required under this section are kept outside the state, the records shall be made available to the Director upon demand. Every such employer shall furnish to the Director on demand a sworn statement of time records and information upon forms prescribed or approved by the Director. All the records and information obtained by the Department are confidential and shall be disclosed only on order of a court of competent jurisdiction.

3. Nothing in this section shall be interpreted or applied, either expressly or through practical necessity, to require the Department or Director to access or inspect records or to create forms relating to the inspection of records if it requires the appropriation of funds to cover the costs of such acts.

285.618. 1. The Department may, in accordance with chapter 536, promulgate rules to implement the provisions of sections 285.600 through 285.642. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2018, shall be invalid and void.

2. Nothing in this section shall be interpreted or applied, either expressly or through practical necessity, to require the promulgation or adoption of rules if it requires the appropriation of funds to cover the costs of such acts.

285.621. 1. To the extent permitted by law, the Department may investigate and ascertain compliance with sections 285.600 through 285.642, establish and implement a system to receive complaints regarding non-compliance with sections 285.600 through 285.642 and to investigate and attempt to resolve complaints through mediation between the complainant and the subject of the complaint, and establish additional means of enforcement to the extent permitted by the law.

2. The Department may develop and implement an outreach program to inform employees, parents, and persons who are under the care of a health care provider about the availability of earned paid sick time under sections 285.600 through 285.642. This program may include the distribution of notices and other written materials to child care and elder care providers, domestic violence shelters, schools, hospitals, community health centers and other health care providers in Missouri.

3. Nothing in this section shall be interpreted or applied, either expressly or through practical necessity, to require the Department to conduct investigations and ascertain compliance with sections 285.600 through 285.642, to establish and implement a system to receive or resolve complaints, to establish additional means of enforcement, or to conduct outreach and education, including the creation of notices and other written materials, concerning sections 285.600 through 285.642, if it requires the appropriation of funds to cover the costs of such acts.

285.624. 1. To the extent permitted by law, any employer who violates or fails to comply with any of the provisions and requirements of sections 285.600 through 285.642 shall be guilty of a class C misdemeanor and shall be punished for each violation thereof by a fine, up to the maximum allowed under state law for violation of a class C misdemeanor; provided, however, that an employer who willfully violates the notice and posting requirements of section 285.612 shall be guilty of an infraction and shall be punished for each violation thereof by a fine, up to the maximum allowed under state law for an infraction.

2. For purposes of this section, each day of violation or failure to comply and each employee affected shall constitute a separate offense.

285.627. 1. Any individual who claims to have been aggrieved by a failure of an employer to comply with any portion of sections 285.600 through 285.642, including but not limited to the failure to provide earned paid sick time or to allow employees to use such time consistent with sections 285.600 through 285.642, or who claims to have suffered a retaliatory personnel action, shall have a right of action and may commence a civil action in the appropriate court of jurisdiction within three years of the accrual of the cause of action, to obtain appropriate relief with respect to such unlawful violation.

2. In a civil action under this section, if the court finds a violation has occurred, the court may grant as relief, as it deems appropriate and to the extent permitted by law, any permanent or temporary injunction, the full amount of any unpaid earned sick time plus any actual damages suffered as the result of the employer's violation of sections 285.600 through 285.642, an additional amount equal to twice any unpaid earned sick time as liquidated damages, costs, and reasonable attorney's fees as may be allowed by the court, and other legal or equitable relief as may be appropriate to remedy the violation, including, without limitation, reinstatement to employment and back pay. Any agreement between the employee and the employer to waive the protections of sections 285.600 through 285.642 shall be no defense to the action.

285.630. 1. Except as otherwise required by law, an employer may not require disclosure of details relating to an employee's or an employee's family member's health information as a condition of providing earned paid sick time under sections 285.600 through 285.642.

2. Unless as otherwise required by law, any health information possessed by an employer regarding an employee or employee's family member must:

(A) be maintained on a separate form and in a separate file from other personnel information;

(B) be treated as confidential medical records; and

(C) not be disclosed except to the affected employee or with the express written permission of the affected employee.

285.633. 1. With respect to employees covered by a valid collective bargaining agreement in effect on the effective date of sections 285.600 through 285.642, no provisions of sections 285.600 through 285.642 shall apply until the stated expiration date in the collective bargaining agreement.

2. Nothing in sections 285.600 through 285.642 shall be deemed to interfere, impede, or otherwise diminish the right of employees to bargain collectively through representatives of their own choosing.

285.636. 1. Nothing in sections 285.600 through 285.642 shall be construed to discourage or prohibit an employer from the adoption or retention of an earned paid sick time policy more generous than the one required herein.

2. Nothing in sections 285.600 through 285.642 shall be construed as diminishing the obligation of an employer to comply with any contract, collective bargaining agreement, employment benefit plan, or other agreement providing more generous paid sick time to an employee than required herein. Nothing in sections 285.600 through 285.642 shall be construed as diminishing the rights of public employees regarding paid sick time or use of paid sick time as provided in the laws of Missouri pertaining to public employees.

285.639. 1. Sections 285.600 through 285.642 provide minimum requirements pertaining to earned paid sick time and shall not be construed to preempt, limit, or otherwise affect the applicability of any other law, regulation, requirement, policy, or standard that provides for greater accrual or use by employees of earned paid sick time or that extends other protections to employees.

2. Any county, city, town, or village in the state shall have the power and authority to establish, mandate, or otherwise require an employer to provide to an employee paid or unpaid days off from work for sick leave which exceeds the requirements of sections 285.600 through 285.642.

3. Nothing in sections 285.600 through 285.642 shall be interpreted or applied to create a power or obligation contrary to any federal law, rule, or regulation.

285.642. Except as detailed in section 285.618, all of the provisions of sections 285.600 through 285.642 are severable, and if any provision, including any section, subsection, subdivision, paragraph, sentence, or clause, or the application thereof to any person or circumstance, is found by a court of competent jurisdiction to be invalid, unconstitutional, or unconstitutionally enacted, such decision shall not affect other provisions or applications of sections 285.600 through 285.642 that can be given effect without the invalid, unconstitutional, or unconstitutionally enacted provision or application, and to this end the provisions of sections 285.600 through 285.642 are declared severable.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-038)

Subject

Initiative petition from Richard Von Glahn regarding a proposed amendment to Chapter 285 of the Revised Statutes of Missouri. (Received November 17, 2016)

Date

December 7, 2016

Description

This proposal would amend Chapter 285 of the Revised Statutes of Missouri.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** the **Missouri Lottery,** the **Public Service Commission,** the **State Tax Commission,** the **Missouri Technology Corporation,** the **Missouri Life Sciences Research Board,** the **Missouri Veterans Commission,** the **Missouri Ethics Commission,** the **Missouri Office of Prosecution Services,** the **Kansas City Boards of Police Commissioners,** the **St. Louis City Board of Police Commissioners,** the **St. Louis County Board of Elections,** the **Board of Election Commissioners City of St.**

Louis, the **Kansas City Board of Election Commissioners,** the **Platte County Board of Elections,** the **Jackson County Election Board,** the **Clay County Board of Election Commissioners,** the **Lieutenant Governor's office,** the **Children's Trust Fund,** the **Missouri Joint Municipal Electric Utility Commission,** the **State Auditor's office, University of Central Missouri, Harris-Stowe State University, Lincoln University, Missouri Southern State University, Missouri Western State University, Northwest Missouri State University, Southeast Missouri State University,** and **Truman State University**.

Lara Granich and Missouri Jobs with Justice Voter Action provided information as proponents of the proposal to the State Auditor's office.

Officials from the **Attorney General's office** indicated various provisions of the proposal authorize their department to promulgate rules, establish mediation procedures "and additional means of enforcement… ." They assume that their office may provide some review of proposals, but assume that any potential costs arising from this proposal can be absorbed with existing resources. They may seek additional appropriations if there is an increased review of rules in later years.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated they will be deferring to the Office of Administration and the Department of Labor and Industrial Relations regarding any fiscal impact this initiative petition might have.

Officials from the **Department of Higher Education** indicated the state, including departments, are exempt from the definition of "employer," so this initiative petition would not have a fiscal impact on their department.

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition does not apply to public employers with respect to its employees. Therefore, this petition, if passed, would have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated there is no fiscal impact to their department as a result of this initiative petition. Section 285.600 (5) indicates "for the purposes of sections 285.600 through 285.642 "employer" does not include the United States Government, the state, …., including a department, agency, …."

Officials from the **Department of Corrections** indicated they defer to the Office of Administration.

Officials from the **Department of Labor and Industrial Relations** indicated they expect no change in revenues or expenses in fiscal years 2017, 2018, and 2019.

The petition, if passed by voters, would require businesses with 15 or more employees to provide paid sick time. It also would allow their department to educate employers, take complaints, and perform investigations of violations of the new law.

The long-range fiscal implications are the same as those of the estimate period.

Under the new language, they may educate employers and employees, promulgate rules, take complaints, and conduct investigations of alleged violations of the new provisions. They believe the education, registration of complaints, and investigations would be conducted in a manner similar to those conducted under the Minimum Wage program. Using employer information from the United States Census Bureau for employers with more than ten employees, they estimate that it would receive complaints from 1.5% of the estimated 40,886 businesses with 10 or more employees, or 613 complaints annually. (The Census Bureau does not break employers at the 15 or more level.) To investigate these 613 complaints, they would require 3.50 Wage & Hour Investigator I/IIs. In FY 2016, 578 complaints were closed by 3.50 Investigators, averaging 165 per FTE. Using this calculation, they estimate it would need 3.50 FTE and the standard per FTE expenses and equipment to complete these activities.

However, Sections 285.612, 285.615, 285.618, and 285.621 expressly state that they are not required to take on the new duties it is authorized to perform under this proposal if doing so will require an appropriation to cover the costs of performing the duties. Because these duties are optional and are not required of their department, if there is no appropriation made to cover the cost, they estimate no mandated fiscal impact for this proposal.

Officials from the **Department of Revenue** indicated they defer this fiscal note to the Office of Administration for a statewide response.

Officials from the **Department of Public Safety** indicated they will defer to the Office of Administration response to this petition.

Officials from the **Department of Social Services** indicated they will defer to the Office of Administration response to this petition. They indicated no fiscal impact on their department.

Officials from the **Governor's Office** indicated there should be no fiscal impact to their office.

Officials from the **House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated no fiscal impact.

Officials from the **Office of Administration** indicated:

This initiative petition revises Section 285.055, RSMo, and adds 15 new sections to Chapter 285 related to sick leave.

Under this proposal, employers would be required to provide paid sick leave to employees. The amount would be dependent upon the number of employees. It does not include employees covered under a valid collective bargaining agreement and it provides employees with an avenue of recourse if the employee claims to be aggrieved.

The State of Missouri is excluded from the provisions of this proposal, therefore there would be no statewide impact related to this proposal other than potentially higher costs for services purchased by the state. However, the Department of Labor and Industrial Relations (DOLIR) will be impacted. Budget and Planning defers to the DOLIR for the specific impact to that agency.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated no fiscal impact on their office.

Officials from the **Secretary of State's office** indicated their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any impact on their office, as they are an independent department within state government and by definition state employees are exempt from this proposed legislation.

Officials from the **State Treasurer's office** indicated this would have no fiscal impact on their office.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from the **City of Columbia** indicated there is no impact on their city.

Officials from the **City of Kansas City** indicated no direct fiscal impact is anticipated if this proposal is adopted because cities are not employers. An indirect cost to cities may arise through increased labor costs of those vendors contracting with the city.

Officials from the **City of Raymore** indicated no fiscal impact.

Officials from the **City of St. Joseph** indicated this initiative petition could have a fiscal impact on local government.

Officials from **University of Missouri** indicated they have reviewed this proposed legislation and have determined that for benefit eligible employees (defined as working .75 or >) that it does not appear that the proposed legislation as written would create a significant fiscal impact to their university.

Officials from the **Missouri Lottery** indicated no fiscal impact to their agency.

Officials from the **Public Service Commission** indicated no fiscal impact on their agency.

Officials from the **State Tax Commission** indicated this initiative petition pertaining to sick leave in Chapter 285 does not directly impact their office. As a state agency this matter is under the direction of Office of Administration, Division of Personnel.

Officials from the **Missouri Veterans Commission** indicated no fiscal impact to their agency.

Officials from the **Missouri Office of Prosecution Services** indicated no measurable fiscal impact to their office.

Officials from the **Kansas City Boards of Election Commissioners** indicated there is no fiscal impact with amendments to Chapter 285, Versions 1 -12, since the State is not responsible for costs associated with the November 2018 election.

Officials from the **Platte County Board of Elections** indicated the proposed initiative would have no fiscal impact on their office.

Officials from the **Jackson County Election Board** indicated no fiscal impact on their office.

Officials from the **Lieutenant Governor's office** indicated it is anticipated that this initiative petition will impose little to no costs or savings on their office.

Officials from the **Children's Trust Fund** indicated they are part of the Office of Administration and thus will be covered by the Office of Administration's official response. They will not be responding separately.

Officials from the **Missouri Joint Municipal Electric Utility Commission** indicated:

The Missouri Association of Municipal Utilities represents approximately 120 cities in Missouri providing utility services to their customer/owners. They do not represent cities in their general business operation. That representation is undertaken by the Missouri Municipal League and its executive director Dan Ross.

Based on a review of each of the 12 versions it appears that there would be no direct cost to any of their cities since the framers of the amendment specifically excluded cities from the definition of employers and city employees from coverage of the proposed changes.

However, it is possible that cities may experience some increases in the cost of goods and services consumed in the regular course of business as a result of higher labor input costs. It is impossible to accurately predict those increases other than to make you aware of the potential.

Officials from the **State Auditor's office** indicated there is no fiscal impact for their office.

Officials from **University of Central Missouri** indicated if they are included in the definition of "employer" that would be impacted by this legislation, they would have an additional cost of roughly $340,000. In fiscal year 2016, part-time employees worked nearly 679,000 hours. If each 30 hours resulted in one sick time hour, that would be 22,634 hours. At an average rate of $15/hour, that would have a fiscal impact of $340,000.

If the definition of employer is interpreted to exclude UCM because of its status as a state agency, then there would be no fiscal impact.

Officials from **Missouri State University** indicated no fiscal impact on their university.

Officials from **Missouri Southern State University** indicated they do not anticipate any fiscal impact from this initiative petition.

Officials from **Missouri Western State University** indicated no financial impact on their university.

Lara Granich and Missouri Jobs with Justice Voter Action provided the following information as proponents of this initiative petition.

Re: Fiscal Impact Analysis of Earned Sick Time Petitions
Petitions numbered by MO SOS at 2018-28 to 2018-39

This letter is from Lara Granich and Missouri Jobs with Justice Voter Action, proponents of the above-referenced initiative petitions. Pursuant to RSMo. Section 116.175, we write to submit the following information to assist your office in its analysis of the fiscal impact of the above-mentioned twelve proposed Earned Sick Time Petitions.

This analysis uses data collected by the U.S. Bureau of Labor Statistics, the Centers for Disease Control and Prevention, and the U.S. Census Bureau to evaluate the impact of earned sick time laws in Missouri. This analysis uses findings from previous peer-reviewed research to estimate cost-savings associated with the proposed policies through reduced turnover, reduced spread of contagious disease in the workplace, prevention of productivity losses from employees working while sick, minimized nursing-home stays, and reduced norovirus outbreaks in nursing homes. We also address certain claims that have been made by opponents in the past.

I. Estimate of Number of Workers Affected Statewide

According to the Institute for Women's Policy Research, an estimated 1,002,116 private sector workers in Missouri, or 45.9 percent of the workforce, cannot earn a single paid sick day to use to recover from common illnesses or seek medical care.[1]

II. Direct Costs to State

As these proposed initiatives exclude public workers employed by the state or by local governments, the initiatives are not expected to have any direct impact on state and local payroll costs. Enforcement would be handled by existing staff at the Department of Labor.

III. Economic Literature on the Impact of Earned Sick Time on Businesses

This analysis quantifies only a subset of potential benefits, predicting a net economic benefit from both of the proposed laws. Likely additional benefits from paid sick days not quantified in this analysis include: reduced health care spending due to reduced public contagion and more timely and regular preventive care and treatment; improved economic security among families who receive pay on sick days and are less likely to be fired or disciplined for taking sick time; and improved school outcomes and reduced contagion in schools, when parents can avoid sending sick children to school or child care.

Millions of workers have gained access to paid sick days in recent years through new laws in five states, 23 cities, and one county across the country. There is no evidence of business closures/layoffs as a result of earned sick time laws. Both Seattle and San Francisco saw positive job growth in the period after their laws took effect, and this job growth was much higher than in the surrounding areas for both cities. San Francisco's growth in employment exceeded the average employment growth of surrounding counties after the paid sick days law was passed. In the 10 months after the adoption of Seattle's Paid Sick and Safe Time Ordinance, King County (where Seattle is located) did not see negative economic impacts; rather, the county saw sustained job growth and reduced unemployment rates. 2

The Washington D.C. Auditor reported "that the Accrued Sick and Safe Leave Act did not have the economic impact of encouraging business owners to move a business from the District nor did the Act have the economic impact of discouraging business owners to locate a business in the District of Columbia."3 New York City reported that "New York City's economy has thrived since the enactment of PSL [paid sick leave]. Between January 2014 and January 2015, a period that covers the law's implementation, economic indicators were a cause for celebration, not concern as many had predicted." 4

Summary of Benefits Associated With Missouri's Proposed Earned Sick Time Law

Benefits	Firms with <50 Employees			Firms with 50+ Employees		
	Dollars	Average per-worker savings		Dollars	Average per-worker costs/savings	
BENEFITS						
Lower Turnover	$32,718,875			$146,675,016		
Reduced Flu Contagion in the Workplace	$1,334,044			$5,980,370		
		Weekly	*Hourly*		*Weekly*	*Hourly*
Employers' Savings	**$34,052,920**	**$6.97**	**$0.21**	**$152,655,386**	**$9.44**	**$0.26**
Reduced Short-Term Nursing Home Stays	$2,415,006			$8,165,162		
Reduced Norovirus in Nursing Homes	$21,692			$93,129		
Reduced Flu Contagion	$233,249			$771,691		
Reduced Emergency Department Visits	$3,512,104			$11,619,581		
		Weekly	*Hourly*		*Weekly*	*Hourly*
Community Savings	**$6,182,052**	**$1.26**	**$0.04**	**$20,649,564**	**$1.28**	**$0.03**

Note: "Small" firms are defined in the proposed laws at firms employing fewer than 15 employees and "Large" firms are defined as firms employing 15 or more employees.

Source: Institute for Women's Policy Research Analysis of the 2014 American Community Survey (ACS), the 2016 National Compensation Survey (NCS), the 2013-2016 Current Population Survey Annual Social and Economic Supplement (CPS ASEC), the 2010 Current Population Survey Displaced Worker, Employee Tenure, and Occupational Mobility Supplement File, and the 2014-2015 National Health Interview Survey (NHIS).

Note on Methodology

The estimates are based on analyses of the following data sets: the 2013–2016 Current Population Survey Annual Social and Economic Supplement (CPS ASEC), the 2014-2015 National Health Interview Survey (NHIS), the 2014 American Community Survey (ACS), the 2016 National Compensation Survey and the 2014 Medical Expenditure Panel Survey along with findings from previous peer-reviewed research.

This analysis was limited to only private sector workers as the proposed legislation only covers such workers. The proposed legislation does include some small exemptions for certain employees which this analysis does not account for. Excluding such workers would result in minor reductions in both the costs and benefits estimated, but general trends would remain the same. To learn more about the methodology and sources please see "Valuing Good Health in Maryland: The Costs and Benefits of Earned Sick Days"[5]

We hope that this information is useful to your office as your prepare your analyses of the petitions.

Respectfully submitted,
Lara Granich
Missouri Jobs with Justice Voter Action

IWPR #B361 July 2016

Paid Sick Days Benefit Employers, Workers, and the Economy

Jessica Milli, PhD., Jenny Xia, and Jisun Min

Millions of workers have gained access to paid sick days in recent years through new laws in five states, 23 cities, and one county across the country.[1] Yet millions more still would not be paid if they need to stay at home when they are sick or need to care for a family member who is ill. As of 2014, 51 million workers lacked access to paid sick days.[2]

Research has documented many benefits of paid sick days policies for workers, businesses, and communities as a whole. These benefits would multiply substantially if more workers gained access to paid sick days. This briefing paper summarizes research on the benefits of paid sick days and the effects of paid sick days policies in places that have them.

Employers Benefit from Paid Sick Days

- **Reduced contagion in the workplace:** A 2010 survey conducted by the National Opinion Research Center found that employees without access to paid sick days are 1.5 times more likely than those with access to go to work with a contagious illness (55 percent compared with 37 percent).[3] Such "presenteeism" has serious public health consequences including flu contagion. A 2010 analysis of labor force and Centers for Disease Control data estimated that more than one in four private sector employees worked while ill with H1N1 during the 2009 H1N1 pandemic, resulting in the estimated infection of 7 million co-workers with H1N1. Work absences from illness dropped more precipitously among public sector workers than among private sector workers during the decline of the pandemic. Because employees in the public sector have greater access to paid sick days, the finding suggests that paid sick days played a role in slowing contagion and potentially in speeding recovery.[4] A 2013 study employed a model simulating influenza contagion to estimate reductions in contagion rates under a universal paid sick days policy. Using data from the American Community Survey, LandScan USA, and the U.S. Census, the study estimated that providing paid sick days would reduce workplace influenza infection in the United States by about 6 percent.[5]

- **Improved productivity:** When workers come to work sick, their productivity and performance suffer. Estimates of productivity losses vary across studies. A 1997 study polling 332 workers who had influenza-like illnesses found that workers on average reported being 46 percent less effective while ill at work.[6] A 2003 study based on interviews with more than 28,000 workers reported that on average, workers lose 1.32 hours per week of productive time due to personal health related reasons.[7] Since workers

with access to paid sick days are less likely to come to work sick and infect their co-workers,[8] paid sick days can prevent further productivity losses resulting from illness and contagion in the workplace.

- **Decreased workplace injuries:** Working while sick also puts employees at greater risk of injury on the job. A 2012 study using the 2005 through 2008 National Health Interview Survey (NHIS) found that after controlling for factors like survey year, occupational sector, firm size, region, and the availability of paid sick leave, workers with access to paid sick days are 28 percent less likely to be injured on the job than workers without this benefit.[9]

- **Decreased employee turnover:** A 2012 analysis of data collected between 2004 and 2006 through the Medical Expenditure Panel Survey (MEPS) finds that the likelihood of job separation decreases by about 25 percent when a worker has access to paid sick days, even after controlling for potential confounding factors such as workers' educational attainment, earnings, and race/ethnicity.[10] As employee turnover typically costs an employer between 10 and 30 percent of an employee's annual salary,[11] a reduction in turnover can result in significant reductions in employer costs.

Paid Sick Days Improve Public Health

- **Increased use of preventive care:** Since paid sick days can be used for doctor visits, workers with paid sick days are more likely to seek preventive care and to be screened for diseases such as cancer, which can lead to early detection and treatment. A 2012 study using 2008 National Health Interview Survey (NHIS) data finds that after controlling for sociodemographic and health-care-related factors, workers with paid sick days are significantly more likely to have had mammograms, Pap tests, and endoscopy, and to have seen a doctor during the previous year than those without the benefit.[12]

- **More timely treatment for illnesses:** Workers without paid sick days are more likely to delay medical care when they or a family member is ill which can lead to a more serious or prolonged illness.[13]A 2016 analysis of the 2013 NHIS—which controlled for demographic and health-related factors like race and ethnicity, occupation, annual family income, and health insurance coverage—indicates that workers without paid sick leave are three times more likely to forgo medical care for themselves, and 1.6 times more likely to forgo medical care for their families, compared with workers who have the benefit.[14] A 2011 analysis of the NHIS found that when they do seek care, workers without paid sick days—regardless of their educational attainment, income, race/ethnicity and other demographic characteristics—are more likely to use an emergency department for care.[15]

- **Improved family health:** Paid sick days may encourage workers to respond to their children's and family members' health needs in a timely manner, thereby improving overall health outcomes for their families. Paid sick days are a primary factor affecting whether a working parent will stay at home with a sick child rather than sending them to school or child care sick. The 2010 National Opinion Research Center Survey found that

28 percent of workers without paid sick days reported sending a sick child to school or child care, compared with 14 percent of workers with paid sick days.[16] A 2012 study analyzing the 2008 National Study of the Changing Workforce (NSCW) and controlling for worker and job characteristics finds that having paid sick days is associated with reduced work-family conflict, which lessens difficulties parents face in taking time off from work to care for a sick child.[17]

Paid Sick Days Bring Economic Benefits for Workers, Families, and Communities

- **Improved employment and earnings stability:** When incomes are not interrupted by unpaid leave, families experience greater financial stability and economic well-being. According to a 2010 poll, 16 percent of workers surveyed reported losing a job for missing work when they were sick or to care for an ill family member.[18] Research has shown that having paid sick days reduces the likelihood of a job separation by at least 25 percent.[19]

- **Improved labor force attachment among caregivers:** Informal caregivers whose work schedules are incompatible with the care needs of their family members may decrease their work hours or even leave the labor force completely.[20] One 2011 Gallup poll found that most caregivers, including parents, reported missing at least one full day of work to fulfill their caregiving duties with an average of 6.6 workdays missed per year.[21] Paid sick days, however, may provide sufficient leave to caregivers to allow them to maintain their desired level of employment while continuing to perform their caregiving work.

- **Savings from reduced utilization of hospital emergency departments and a lower monetary burden on taxpayers:** A 2011 study using the 2008 and 2009 NHIS finds that the annual number of emergency department visits per worker without paid sick days is greater than it is for those with the benefit. Using MEPS data on the cost of emergency department visits, the study estimates that a lack of paid sick days resulted in an estimated 1.3 million preventable emergency department visits every year in the United States in 2008, costing $1.1 billion more than office visits would have. Part of these costs—$500 million—were paid by public insurance programs such as Medicaid.[22]

Research Finds Benefits of Existing Paid Sick Days Laws and Minimal Costs to Employers

Since the implementation of the first paid sick days law in 2007, several studies have evaluated the impacts of the legislation, with a particular emphasis on the effects on employers. These evaluations have largely found that the overall impact on businesses was minimal. Many firms saw benefits from the policy and counted themselves as supporters after implementing it.

- **Minimal costs:** Costs to employers of providing paid sick days have been modest. In Seattle, evaluations found that the cost of providing paid sick leave in 2013 was only

about 0.4 percent of total firm revenue for the year.[23] In Connecticut, nearly half of 228 employers surveyed in 2013, a year and a half after the state's paid sick days law's implementation, reported having no increased overall cost, and 19.1 percent of employers reported an increased cost of less than 2 percent.[24] In San Francisco, the paid sick leave ordinance created additional costs for a relatively small share of employers. Six out of seven employers reported no adverse effects on profitability.[25]

- **Ease of implementation:** Research shows that paid sick days have minimal effect on business operations. Most San Francisco employers reported that implementing the Paid Sick Leave Ordinance was not difficult.[26] Likewise, about two thirds of Seattle employers reported that implementing the Paid Sick and Safe Time Ordinance was not very difficult, and 70 percent expressed support for the policy a year after implementation of the Ordinance.[27] Similarly, a large majority of Connecticut employers surveyed in 2013 indicated that the Paid Sick Leave Law did not burden business operations.[28]

- **Employees use paid sick days judiciously:** Several years after the implementation of San Francisco's paid sick days law, an IWPR survey of 1,194 workers found that employees in San Francisco used fewer than half of the sick days available under the paid sick leave ordinance.[29] Using data from the 2014 NHIS, IWPR found that most workers who do have access to paid sick days do not use any in a given year.[30] In regions that have passed paid sick day laws, surveys suggest that abuse of paid sick days is rare. Among 228 Connecticut employers surveyed by the Center for Economic and Policy Research, 86 percent reported no known cases of abuse more than a year after paid sick days was implemented.[31] A report published by the City of Seattle auditor finds that more than nine in ten Seattle employers surveyed in 2012 had never reprimanded an employee for abusing paid sick days.[32]

- **Sustained job growth and employment:** In contrast to messaging communicated by big business lobbyists prior to the laws' passage, both Seattle and San Francisco saw positive job growth in the period after their laws took effect, and this job growth was much higher than in the surrounding areas for both cities. San Francisco's growth in employment exceeded the average employment growth of surrounding counties after the paid sick days law was passed.[33] In the 10 months after the adoption of Seattle's Paid Sick and Safe Time Ordinance, King County (where Seattle is located) did not see negative economic impacts; rather, the county saw sustained job growth and reduced unemployment rates.[34]

- **Improved employee morale, motivation, loyalty, and productivity**: Over a quarter of Connecticut employers reported improved morale, 12.5 percent reported increased employee motivation, 10.6 percent reported increased loyalty, and 14.9 percent reported increased productivity after implementation of the state's paid sick days law.[35]

- **Improved work life balance for employees:** A 2010 IWPR survey found that one out of four San Francisco employees reported that paid sick days enabled them to better care for their own and their families' health needs. In addition, nearly 30 percent reported that their employers were more supportive when they needed to use their leave than they were

prior to the law's passage. More than half of all San Francisco workers reported at least one benefit as a result of the ordinance.[36]

- **Reduced flu contagion in locations with paid sick day laws:** One recent study used Google Flu data from 2003 to 2015 to show that influenza-like infection rates decrease significantly when workers gain access to paid sick days. By comparing the rates of influenza-like illnesses in regions with paid sick days policies—including the District of Columbia, Connecticut, California, Massachusetts, and Oregon—with those lacking such laws, the study finds that infection rates decrease by about 10 percent when employees without coverage obtain paid sick days.[37]

Conclusion

Literature spanning the fields of public health, economics, sociology, medicine, social work, and public policy converge to reflect the health, employment, and economic benefits of paid sick days. Research suggests that more widespread implementation of paid sick days policies would have a substantial positive impact on the well-being of children, families, and communities across the United States.

The Institute for Women's Policy Research (IWPR) conducts rigorous research and disseminates its findings to address the needs of women, promote public dialogue, and strengthen families, communities, and societies. The Institute works with policymakers, scholars, and public interest groups to design, execute, and disseminate research that illuminates economic and social policy issues affecting women and their families, and to build a network of individuals and organizations that conduct and use women-oriented policy research. IWPR's work is supported by foundation grants, government grants and contracts, donations from individuals, and contributions from organizations and corporations. IWPR is a 501(c)(3) tax-exempt organization that also works in affiliation with the women's studies, and public policy and public administration programs at The George Washington University.

JASON KANDER
SECRETARY OF STATE
STATE OF MISSOURI

ELECTIONS DIVISION
(573) 751-2301

November 17, 2016

The Honorable Nicole Galloway
State Auditor
State Capitol Building
Jefferson City, MO 65101

RECEIVED
NOV 17 2016
STATE AUDITORS OFFICE

RE: Petition approval request from Richard Von Glahn regarding a proposed statutory amendment to Chapter 285, version 10 (2018-037)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Richard Von Glahn on November 16, 2016.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

Jason Kander

Be it enacted by the people of the State of Missouri:

Fifteen new sections to be known as sections 285.600, 285.603, 285.606, 285.609, 285.612, 285.615, 285.618, 285.621, 285.624, 285.627, 285.630, 285.633, 285.636, 285.639, and 285.642 are enacted to read as follows:

285.600. As used in sections 285.600 through 285.642:

(1) "Construction", includes construction, reconstruction, improvement, enlargement, alteration, painting and decorating, or major repair.

(2) "Construction industry", includes any employer whose employees conduct or perform construction as a principal component of the employer's business or enterprise.

(3) "Department", Department of Labor and Industrial Relations.

(4) "Director", Director of the Department of Labor and Industrial Relations.

(5) "Earned paid sick time", time that is compensated at the same hourly rate and with the same benefits, including health care benefits, as the employee normally earns during hours worked and is provided by an employer to an employee for the purposes described in section 285.606, but in no case shall this hourly amount be less than that provided under section 290.502.

(6) "Employee", any individual employed in this state by an employer, but does not include:

(A) Any individual engaged in the activities of an educational, charitable, religious, or nonprofit organization where the employer-employee relationship does not, in fact, exist or where the services rendered to the organization are on a voluntary basis;

(B) Any individual standing in loco parentis to foster children in their care;

(C) Any individual employed for less than four months in any year in a resident or day camp for children or youth, or any individual employed by an educational conference center operated by an educational, charitable or not-for-profit organization;

(D) Any individual engaged in the activities of an educational organization where employment by the organization is in lieu of the requirement that the individual pay the cost of tuition, housing or other educational fees of the organization or where earnings of the individual employed by the organization are credited toward the payment of the cost of tuition, housing or other educational fees of the organization;

(E) Any individual employed on or about a private residence on an occasional basis for six hours or less on each occasion;

(F) Any individual employed on a casual basis to provide baby-sitting services;

(G) Any individual employed by an employer subject to the provisions of part A of subtitle IV of title 49, United States Code, 49 U.S.C. §§ 10101 et seq.;

(H) Any individual employed on a casual or intermittent basis as a golf caddy, newsboy, or in a similar occupation;

(I) Any individual who is employed in any government position defined in 29 U.S.C. §§ 203(e)(2)(C)(i)-(ii); or

(J) Any individual who is an offender, as defined in section 217.010, who is incarcerated in any correctional facility operated by the department of corrections, including offenders who provide labor or services on the grounds of such correctional facility pursuant to section 217.550.

(7) "Employer", any person acting directly or indirectly in the interest of an employer in relation to an employee; provided, however, that for the purposes of sections 285.600 through 285.642, "employer" does not include the United States Government, the state, or a political subdivision of the state, including a department, agency, officer, bureau, division, board, commission, or instrumentality of the state, or a city, county, town, village, school district, or other political subdivision of the state.

(8) "Family member", any of the following individuals:

(A) Regardless of age, a biological, adopted or foster child, stepchild or legal ward, a child of a domestic partner, a child to whom the employee stands in loco parentis, or an individual to whom the employee stood in loco parentis when the individual was a minor;

(B) A biological, foster, stepparent or adoptive parent or legal guardian of an employee or an employee's spouse or domestic partner or an individual who stood in loco parentis when the employee or employee's spouse or domestic partner was a minor child;

(C) An individual to whom the employee is legally married under the laws of any state, or a domestic partner who is registered as such under the laws of a political subdivision;

(D) A grandparent, grandchild, or sibling (whether of a biological, foster, adoptive or step relationship) of the employee or the employee's spouse or domestic partner; or

(E) A member of the employee's household.

(9) "Health care professional," any individual licensed under Federal or State law to provide medical or emergency services, including but not limited to doctors, nurses, certified nurse midwives, and emergency room personnel.

(10) "Person", any individual, partnership, association, corporation, business, business trust, legal representative, or any organized group of persons.

(11) "Retaliatory personnel action", denial of any right guaranteed under sections 285.600 through 285.642, or any threat, discharge, suspension, demotion, reduction of hours, or any other adverse action against an employee for the exercise of any right guaranteed herein. "Retaliatory personnel action" shall also include interference with or punishment for in any manner participating in or assisting an investigation, proceeding, or hearing under sections 285.600 through 285.642.

(12) "Year", a regular and consecutive twelve-month period as determined by the employer; except that for the purposes of section 285.615 and section 285.627, "year" shall mean a calendar year.

285.603. 1. Employees of an employer with fifteen or more employees shall accrue a minimum of one hour of earned paid sick time for every thirty hours worked, but such employees shall not be entitled to accrue or use more than fifty-six hours of earned paid sick time per year, unless the employer selects a higher limit.

2. Employees of an employer with fewer than fifteen employees shall accrue a minimum of one hour of earned paid sick time for every thirty hours worked, but such employees shall not be entitled to accrue or use more than forty hours of earned paid sick time per year, unless the employer selects a higher limit.

3. In determining the number of employees performing work for an employer for compensation during a given week, all employees performing work for compensation on a full-time, part-time, or temporary basis shall be counted. In situations in which the number of employees who work for an employer for compensation per week fluctuates above and below fifteen employees per week over the course of the year, an employer is required to provide earned paid sick time pursuant to subsection (1) of this section if it maintained fifteen or more employees on the payroll for some portion of a day in each of twenty different calendar weeks, whether or not the weeks were consecutive, in either the current or the preceding year (irrespective of whether the same individuals were in employment in each day).

4. All employees shall accrue earned paid sick time as follows:

(A) Earned paid sick time as provided in this section shall begin to accrue at the commencement of employment or ninety days after this law goes into effect, whichever is later. An employer may provide all paid sick time that an employee is expected to accrue in a year at the beginning of the year.

(B) An employee may use earned paid sick time as it is accrued, except that an employer may require an employee hired more than ninety days after this law goes into effect to wait until the ninetieth calendar day after commencing employment before using accrued earned paid sick time, unless otherwise permitted by the employer.

(C) Employees who are exempt from overtime requirements under 29 U.S.C. § 213(a)(1) of the Federal Fair Labor Standards Act will be assumed to work forty hours in each work week for purposes of earned paid sick time accrual unless their normal work week is less than forty hours, in which case earned paid sick time accrues based upon that normal work week.

(D) Earned paid sick time shall be carried over to the following year, subject to the limitations on usage in subsections (1) and (2) of this section. Alternatively, in lieu of carryover of unused earned paid sick time from one year to the next, an employer may pay an employee for unused earned paid sick time at the end of a year and provide the employee with an amount of paid sick time that meets or exceeds the requirements of sections 285.600 through 285.642 that is available for the employee's immediate use at the beginning of the subsequent year.

(E) If an employee is transferred to a separate division, entity, or location, but remains employed by the same employer, the employee is entitled to all earned paid sick time accrued at the prior division, entity, or location and is entitled to use all earned paid sick time as provided in this section. When there is a separation from employment and the employee is rehired within nine months of separation by the same employer, previously accrued earned paid sick time that had not been used shall be reinstated. Further, the employee shall be entitled to use accrued earned paid sick time and accrue additional earned paid sick time at the re-commencement of employment.

(F) When a different employer succeeds or takes the place of an existing employer, all employees of the original employer who remain employed by the successor employer are entitled to all earned paid sick time they accrued when employed by the original employer, and are entitled to use earned paid sick time previously accrued.

(G) At its discretion, an employer may loan earned paid sick time to an employee in advance of accrual by such employee.

5. Any employer with a paid leave policy, such as a paid time off policy, who makes available an amount of paid leave sufficient to meet the accrual requirements of this section that may be used for the same purposes and under the same conditions as earned paid sick time under sections 285.600 through 285.642 is not required to provide additional paid sick time.

6. Nothing in this section shall be construed as requiring financial or other reimbursement to an employee from an employer upon the employee's termination, resignation, retirement, or other separation from employment for accrued earned paid sick time that has not been used.

285.606. 1. Earned paid sick time shall be provided to an employee by an employer for:

(A) An employee's mental or physical illness, injury, or health condition; an employee's need for medical diagnosis, care, or treatment of a mental or physical illness, injury, or health condition; an employee's need for preventive medical care;

(B) Care of a family member with a mental or physical illness, injury, or health condition; care of a family member who needs medical diagnosis, care, or treatment of a mental or physical illness, injury, or health condition; care of a family member who needs preventive medical care; or

(C) Closure of the employee's place of business by order of a public official due to a public health emergency, or an employee's need to care for a child whose school or place of care has been closed by order of a public official due to a public health emergency, or care for oneself or a family member when it has been determined by the health authorities having jurisdiction or by a health care provider that the employee's or family member's presence in the community may jeopardize the health of others because of his or her exposure to a communicable disease, whether or not the employee or family member has actually contracted the communicable disease.

2. Earned paid sick time shall be provided upon the request of an employee. Such request may be made orally, in writing, by electronic means or by any other means acceptable to the employer. When possible, the request shall include the expected duration of the absence.

3. When the use of earned paid sick time is foreseeable, the employee shall make a good faith effort to provide notice of the need for such time to the employer in advance of the use of the earned paid sick time and shall make a reasonable effort to schedule the use of earned paid sick time in a manner that does not unduly disrupt the operations of the employer. Where such need is not foreseeable, an employer may require an employee to provide notice of the need for the use of earned paid sick time as soon as practicable.

4. An employer that requires notice of the need to use earned paid sick time where the need is not foreseeable shall provide a written policy that contains procedures for the employee to provide notice. An employer that has not provided to the employee a copy of its written policy for providing such notice shall not deny earned paid sick time to the employee based on non-compliance with such a policy.

5. An employer may not require, as a condition of an employee's taking earned paid sick time, that the employee search for or find a replacement worker to cover the hours during which the employee is using earned paid sick time.

6. Earned paid sick time may be used in the smaller of hourly increments or the smallest increment that the employer's payroll system uses to account for absences or use of other time.

7. For earned paid sick time of three or more consecutive work days, an employer may require reasonable documentation that the earned paid sick time has been used for a purpose covered by subsection (1) of this section. Documentation signed by a heath care professional indicating that earned paid sick time is necessary shall be considered reasonable documentation for purposes of this section. An employer may not require that the documentation explain the nature of the illness unless otherwise required by law.

285.609. 1. It shall be unlawful for an employer or any other person to interfere with, restrain, or deny the exercise of, or the attempt to exercise, any right protected under sections 285.600 through 285.642.

2. An employer shall not take retaliatory personnel action or discriminate against an employee or former employee because he or she has exercised rights protected under sections 285.600 through 285.642. Such rights include, but are not limited to, the right to request or use earned paid sick time pursuant to sections 285.600 through 285.642; the right to file a complaint or inform any person about any employer's alleged violation of sections 285.600 through 285.642; the right to participate in an investigation, hearing, or proceeding or cooperate with or assist the Department in any investigations of alleged violations of sections 285.600 through 285.642; and the right to inform any person of his or her potential rights under sections 285.600 through 285.642.

3. It shall be unlawful for an employer's absence control policy to count earned paid sick time taken under sections 285.600 through 285.642 as an absence that may lead to or result in discipline, discharge, demotion, suspension, or any other adverse action.

4. Protections of this section shall apply to any individual who mistakenly but in good faith alleges violations of sections 285.600 through 285.642.

285.612. 1. Employers shall give employees written notice of the following at the commencement of employment or by ninety days after this law goes into effect, whichever is later: employees are entitled to earned paid sick time and the amount of earned paid sick time, the terms of its use guaranteed under sections 285.600 through 285.642, that retaliatory personnel action against employees who request or use earned paid sick time is prohibited, that each employee has the right to bring a civil action if earned paid sick time as required by sections 285.600 through 285.642 is denied by the employer or the employee is subjected to retaliatory personnel action for requesting or taking earned paid sick time, and, if applicable, the contact information for the Department where questions about rights and responsibilities under sections 285.600 through 285.642 may be answered.

2. Employers shall display a poster that contains the information required in subsection (1) of this section in a conspicuous and accessible place in each establishment where such employees are employed, provided that such poster has been provided by the Department.

3. The Department may create and make available to employers, model notices and posters that contain the information required under subsection (1) of this section for employers' use in complying with subsections (1) and (2) of this section. Nothing in this subsection shall be interpreted or applied, either expressly or through practical necessity, to require the Department to create or make available notices or posters if it requires the appropriation of funds to cover the costs of such acts.

285.615. 1. Employers shall retain records documenting hours worked by employees and earned paid sick time taken by employees, for a period of not less than three years, and shall allow the Department access to such records, with appropriate notice and at a mutually agreeable time, to monitor compliance with the requirements of sections 285.600 through 285.642.

2. To the extent permitted by law, the Director may inspect such records, and the records shall be open for inspection by the Director by appointment. Where the records required under this section are kept outside the state, the records shall be made available to the Director upon demand. Every such employer shall furnish to the Director on demand a sworn statement of time records and information upon forms prescribed or approved by the Director. All the records and information obtained by the Department are confidential and shall be disclosed only on order of a court of competent jurisdiction.

3. Nothing in this section shall be interpreted or applied, either expressly or through practical necessity, to require the Department or Director to access or inspect records or to create forms relating to the inspection of records if it requires the appropriation of funds to cover the costs of such acts.

285.618. 1. The Department may, in accordance with chapter 536, promulgate rules to implement the provisions of sections 285.600 through 285.642. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2018, shall be invalid and void.

2. Nothing in this section shall be interpreted or applied, either expressly or through practical necessity, to require the promulgation or adoption of rules if it requires the appropriation of funds to cover the costs of such acts.

285.621. 1. To the extent permitted by law, the Department may investigate and ascertain compliance with sections 285.600 through 285.642, establish and implement a system to receive complaints regarding non-compliance with sections 285.600 through 285.642 and to investigate and attempt to resolve complaints through mediation between the complainant and the subject of the complaint, and establish additional means of enforcement to the extent permitted by the law.

2. The Department may develop and implement an outreach program to inform employees, parents, and persons who are under the care of a health care provider about the availability of earned paid sick time under sections 285.600 through 285.642. This program may include the distribution of notices and other written materials to child care and elder care providers, domestic violence shelters, schools, hospitals, community health centers and other health care providers in Missouri.

3. Nothing in this section shall be interpreted or applied, either expressly or through practical necessity, to require the Department to conduct investigations and ascertain compliance with sections 285.600 through 285.642, to establish and implement a system to receive or resolve complaints, to establish additional means of enforcement, or to conduct outreach and education, including the creation of notices and other written materials, concerning sections 285.600 through 285.642, if it requires the appropriation of funds to cover the costs of such acts.

285.624. 1. To the extent permitted by law, any employer who violates or fails to comply with any of the provisions and requirements of sections 285.600 through 285.642 shall be guilty of a class C misdemeanor and shall be punished for each violation thereof by a fine, up to the maximum allowed under state law for violation of a class C misdemeanor; provided, however, that an employer who willfully violates the notice and posting requirements of section 285.612 shall be guilty of an infraction and shall be punished for each violation thereof by a fine, up to the maximum allowed under state law for an infraction.

2. For purposes of this section, each day of violation or failure to comply and each employee affected shall constitute a separate offense.

285.627. 1. Any individual who claims to have been aggrieved by a failure of an employer to comply with any portion of sections 285.600 through 285.642, including but not limited to the failure to provide earned paid sick time or to allow employees to use such time consistent with sections 285.600 through 285.642, or who claims to have suffered a retaliatory personnel action, shall have a right of action and may commence a civil action in the appropriate court of jurisdiction within three years of the accrual of the cause of action, to obtain appropriate relief with respect to such unlawful violation.

2. In a civil action under this section, if the court finds a violation has occurred, the court may grant as relief, as it deems appropriate and to the extent permitted by law, any permanent or temporary injunction, the full amount of any unpaid earned sick time plus any actual damages suffered as the result of the employer's violation of sections 285.600 through 285.642, an additional amount equal to twice any unpaid earned sick time as liquidated damages, costs, and reasonable attorney's fees as may be allowed by the court, and other legal or equitable relief as may be appropriate to remedy the violation, including, without limitation, reinstatement to employment and back pay. Any agreement between the employee and the employer to waive the protections of sections 285.600 through 285.642, with the exception of section 285.633, shall be no defense to the action.

285.630. 1. Except as otherwise required by law, an employer may not require disclosure of details relating to an employee's or an employee's family member's health information as a condition of providing earned paid sick time under sections 285.600 through 285.642.

2. Unless as otherwise required by law, any health information possessed by an employer regarding an employee or employee's family member must:

(A) be maintained on a separate form and in a separate file from other personnel information;

(B) be treated as confidential medical records; and

(C) not be disclosed except to the affected employee or with the express written permission of the affected employee.

285.633. 1. All or any portion of the earned paid sick time requirements of sections 285.600 through 285.642 shall not apply to employees covered by a valid collective bargaining agreement, to the extent that such requirements are expressly waived in the collective bargaining agreement in clear and unambiguous terms; provided further, that no provisions of sections 285.600 through 285.642 shall apply to any employee engaged in construction work in the construction industry who is covered by a valid collective bargaining agreement.

2. Notwithstanding subsection (1) of this section, with respect to employees covered by a valid collective bargaining agreement in effect on the effective date of sections 285.600 through 285.642, no provisions of sections 285.600 through 285.642 shall apply until the stated expiration date in the collective bargaining agreement.

3. Nothing in sections 285.600 through 285.642 shall be deemed to interfere, impede, or otherwise diminish the right of employees to bargain collectively through representatives of their own choosing.

285.636. 1. Nothing in sections 285.600 through 285.642 shall be construed to discourage or prohibit an employer from the adoption or retention of an earned paid sick time policy more generous than the one required herein.

2. Nothing in sections 285.600 through 285.642 shall be construed as diminishing the obligation of an employer to comply with any contract, collective bargaining agreement, employment benefit plan, or other agreement providing more generous paid sick time to an employee than required herein. Nothing in sections 285.600 through 285.642 shall be construed as diminishing the rights of public employees regarding paid sick time or use of paid sick time as provided in the laws of Missouri pertaining to public employees.

285.639. 1. Sections 285.600 through 285.642 provide minimum requirements pertaining to earned paid sick time and shall not be construed to preempt, limit, or otherwise affect the applicability of any other law, regulation, requirement, policy, or standard that provides for greater accrual or use by employees of earned paid sick time or that extends other protections to employees.

2. Nothing in sections 285.600 through 285.642 shall be interpreted or applied to create a power or obligation contrary to any federal law, rule, or regulation.

285.642. Except as detailed in section 285.618, all of the provisions of sections 285.600 through 285.642 are severable, and if any provision, including any section, subsection, subdivision, paragraph, sentence, or clause, or the application thereof to any person or circumstance, is found by a court of competent jurisdiction to be invalid, unconstitutional, or unconstitutionally enacted, such decision shall not affect other provisions or applications of sections 285.600 through 285.642 that can be given effect without the invalid, unconstitutional, or unconstitutionally enacted provision or application, and to this end the provisions of sections 285.600 through 285.642 are declared severable.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-037)

Subject

Initiative petition from Richard Von Glahn regarding a proposed amendment to Chapter 285 of the Revised Statutes of Missouri. (Received November 17, 2016)

Date

December 7, 2016

Description

This proposal would amend Chapter 285 of the Revised Statutes of Missouri.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** the **Missouri Lottery,** the **Public Service Commission,** the **State Tax Commission,** the **Missouri Technology Corporation,** the **Missouri Life Sciences Research Board,** the **Missouri Veterans Commission,** the **Missouri Ethics Commission,** the **Missouri Office of Prosecution Services,** the **Kansas City Boards of Police Commissioners,** the **St. Louis City Board of Police Commissioners,** the **St. Louis County Board of Elections,** the **Board of Election Commissioners City of St.**

Louis, the **Kansas City Board of Election Commissioners,** the **Platte County Board of Elections,** the **Jackson County Election Board,** the **Clay County Board of Election Commissioners,** the **Lieutenant Governor's office,** the **Children's Trust Fund,** the **Missouri Joint Municipal Electric Utility Commission,** the **State Auditor's office, University of Central Missouri, Harris-Stowe State University, Lincoln University, Missouri Southern State University, Missouri Western State University, Northwest Missouri State University, Southeast Missouri State University,** and **Truman State University**.

Lara Granich and Missouri Jobs with Justice Voter Action provided information as proponents of the proposal to the State Auditor's office.

Officials from the **Attorney General's office** indicated various provisions of the proposal authorize their department to promulgate rules, establish mediation procedures "and additional means of enforcement… ." They assume that their office may provide some review of proposals, but assume that any potential costs arising from this proposal can be absorbed with existing resources. They may seek additional appropriations if there is an increased review of rules in later years.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated they will be deferring to the Office of Administration and the Department of Labor and Industrial Relations regarding any fiscal impact this initiative petition might have.

Officials from the **Department of Higher Education** indicated the state, including departments, are exempt from the definition of "employer," so this initiative petition would not have a fiscal impact on their department.

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition does not apply to public employers with respect to its employees. Therefore, this petition, if passed, would have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated there is no fiscal impact to their department as a result of this initiative petition. Section 285.600 (5) indicates "for the purposes of sections 285.600 through 285.642 "employer" does not include the United States Government, the state, …., including a department, agency, …."

Officials from the **Department of Corrections** indicated they defer to the Office of Administration.

Officials from the **Department of Labor and Industrial Relations** indicated they expect no change in revenues or expenses in fiscal years 2017, 2018, and 2019.

The petition, if passed by voters, would require businesses with 15 or more employees to provide paid sick time. It also would allow their department to educate employers, take complaints, and perform investigations of violations of the new law.

The long-range fiscal implications are the same as those of the estimate period.

Under the new language, they may educate employers and employees, promulgate rules, take complaints, and conduct investigations of alleged violations of the new provisions. They believe the education, registration of complaints, and investigations would be conducted in a manner similar to those conducted under the Minimum Wage program. Using employer information from the United States Census Bureau for employers with more than ten employees, they estimate that it would receive complaints from 1.5% of the estimated 40,886 businesses with 10 or more employees, or 613 complaints annually. (The Census Bureau does not break employers at the 15 or more level.) To investigate these 613 complaints, they would require 3.50 Wage & Hour Investigator I/IIs. In FY 2016, 578 complaints were closed by 3.50 Investigators, averaging 165 per FTE. Using this calculation, they estimate it would need 3.50 FTE and the standard per FTE expenses and equipment to complete these activities.

However, Sections 285.612, 285.615, 285.618, and 285.621 expressly state that they are not required to take on the new duties it is authorized to perform under this proposal if doing so will require an appropriation to cover the costs of performing the duties. Because these duties are optional and are not required of their department, if there is no appropriation made to cover the cost, they estimate no mandated fiscal impact for this proposal.

Officials from the **Department of Revenue** indicated they defer this fiscal note to the Office of Administration for a statewide response.

Officials from the **Department of Public Safety** indicated they will defer to the Office of Administration response to this petition.

Officials from the **Department of Social Services** indicated they will defer to the Office of Administration response to this petition. They indicated no fiscal impact on their department.

Officials from the **Governor's Office** indicated there should be no fiscal impact to their office.

Officials from the **House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated no fiscal impact.

Officials from the **Office of Administration** indicated:

This initiative petition adds 15 new sections to Chapter 285 related to sick leave.

Under this proposal, employers would be required to provide paid sick leave to employees. The amount would be dependent upon the number of employees. It does not include employees covered under a valid collective bargaining agreement and it provides employees with an avenue of recourse if the employee claims to be aggrieved.

The State of Missouri is excluded from the provisions of this proposal, therefore there would be no statewide impact related to this proposal other than potentially higher costs for services purchased by the state. However, the Department of Labor and Industrial Relations (DOLIR) will be impacted. Budget and Planning defers to the DOLIR for the specific impact to that agency.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated no fiscal impact on their office.

Officials from the **Secretary of State's office** indicated their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any impact on their office, as they are an independent department within state government and by definition state employees are exempt from this proposed legislation.

Officials from the **State Treasurer's office** indicated this would have no fiscal impact on their office.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from the **City of Columbia** indicated expect no significant impact on their city.

Officials from the **City of Kansas City** indicated no direct fiscal impact is anticipated if this proposal is adopted because cities are not employers. An indirect cost to cities may arise through increased labor costs of those vendors contracting with the city.

Officials from the **City of Raymore** indicated no fiscal impact.

Officials from the **City of St. Joseph** indicated this initiative petition could have a fiscal impact on local government.

Officials from **University of Missouri** indicated they have reviewed this proposed legislation and have determined that for benefit eligible employees (defined as working .75 or >) that it does not appear that the proposed legislation as written would create a significant fiscal impact to their university.

Officials from the **Missouri Lottery** indicated no fiscal impact to their agency.

Officials from the **Public Service Commission** indicated no fiscal impact on their agency.

Officials from the **State Tax Commission** indicated this initiative petition pertaining to sick leave in Chapter 285 does not directly impact their office. As a state agency this matter is under the direction of Office of Administration, Division of Personnel.

Officials from the **Missouri Veterans Commission** indicated no fiscal impact to their agency.

Officials from the **Missouri Office of Prosecution Services** indicated no measurable fiscal impact to their office.

Officials from the **Kansas City Boards of Election Commissioners** indicated there is no fiscal impact with amendments to Chapter 285, Versions 1 -12, since the State is not responsible for costs associated with the November 2018 election.

Officials from the **Platte County Board of Elections** indicated the proposed initiative would have no fiscal impact on their office.

Officials from the **Jackson County Election Board** indicated no fiscal impact on their office.

Officials from the **Lieutenant Governor's office** indicated it is anticipated that this initiative petition will impose little to no costs or savings on their office.

Officials from the **Children's Trust Fund** indicated they are part of the Office of Administration and thus will be covered by the Office of Administration's official response. They will not be responding separately.

Officials from the **Missouri Joint Municipal Electric Utility Commission** indicated:

The Missouri Association of Municipal Utilities represents approximately 120 cities in Missouri providing utility services to their customer/owners. They do not represent cities in their general business operation. That representation is undertaken by the Missouri Municipal League and its executive director Dan Ross.

Based on a review of each of the 12 versions it appears that there would be no direct cost to any of their cities since the framers of the amendment specifically excluded cities from the definition of employers and city employees from coverage of the proposed changes.

However, it is possible that cities may experience some increases in the cost of goods and services consumed in the regular course of business as a result of higher labor input costs. It is impossible to accurately predict those increases other than to make you aware of the potential.

Officials from the **State Auditor's office** indicated there is no fiscal impact for their office.

Officials from **University of Central Missouri** indicated if they are included in the definition of "employer" that would be impacted by this legislation, they would have an additional cost of roughly $340,000. In fiscal year 2016, part-time employees worked nearly 679,000 hours. If each 30 hours resulted in one sick time hour, that would be 22,634 hours. At an average rate of $15/hour, that would have a fiscal impact of $340,000.

If the definition of employer is interpreted to exclude UCM because of its status as a state agency, then there would be no fiscal impact.

Officials from **Missouri State University** indicated no fiscal impact on their university.

Officials from **Missouri Southern State University** indicated they do not anticipate any fiscal impact from this initiative petition.

Lara Granich and Missouri Jobs with Justice Voter Action provided the following information as proponents of this initiative petition.

Re: Fiscal Impact Analysis of Earned Sick Time Petitions
Petitions numbered by MO SOS at 2018-28 to 2018-39

This letter is from Lara Granich and Missouri Jobs with Justice Voter Action, proponents of the above-referenced initiative petitions. Pursuant to RSMo. Section 116.175, we write to submit the following information to assist your office in its analysis of the fiscal impact of the above-mentioned twelve proposed Earned Sick Time Petitions.

This analysis uses data collected by the U.S. Bureau of Labor Statistics, the Centers for Disease Control and Prevention, and the U.S. Census Bureau to evaluate the impact of earned sick time laws in Missouri. This analysis uses findings from previous peer-reviewed research to estimate cost-savings associated with the proposed policies through reduced turnover, reduced spread of contagious disease in the workplace, prevention of productivity losses from employees working while sick, minimized nursing-home stays, and reduced norovirus outbreaks in nursing homes. We also address certain claims that have been made by opponents in the past.

I. Estimate of Number of Workers Affected Statewide

According to the Institute for Women's Policy Research, an estimated 1,002,116 private sector workers in Missouri, or 45.9 percent of the workforce, cannot earn a single paid sick day to use to recover from common illnesses or seek medical care.[1]

II. Direct Costs to State

As these proposed initiatives exclude public workers employed by the state or by local governments, the initiatives are not expected to have any direct impact on state and local payroll costs. Enforcement would be handled by existing staff at the Department of Labor.

III. Economic Literature on the Impact of Earned Sick Time on Businesses

This analysis quantifies only a subset of potential benefits, predicting a net economic benefit from both of the proposed laws. Likely additional benefits from paid sick days not quantified in this analysis include: reduced health care spending due to reduced public contagion and more timely and regular preventive care and treatment; improved economic security among families who receive pay on sick days and are less likely to be fired or disciplined for taking sick time; and improved school outcomes and reduced contagion in schools, when parents can avoid sending sick children to school or child care.

Millions of workers have gained access to paid sick days in recent years through new laws in five states, 23 cities, and one county across the country. There is no evidence of business closures/layoffs as a result of earned sick time laws. Both Seattle and San Francisco saw positive job growth in the period after their laws took effect, and this job growth was much higher than in the surrounding areas for both cities. San Francisco's growth in employment exceeded the average employment growth of surrounding counties after the paid sick days law was passed. In the 10 months after the adoption of Seattle's Paid Sick and Safe Time Ordinance, King County (where Seattle is located) did not see negative economic impacts; rather, the county saw sustained job growth and reduced unemployment rates. 2

The Washington D.C. Auditor reported "that the Accrued Sick and Safe Leave Act did not have the economic impact of encouraging business owners to move a business from the District nor did the Act have the economic impact of discouraging business owners to locate a business in the District of Columbia."3 New York City reported that "New York City's economy has thrived since the enactment of PSL [paid sick leave]. Between January 2014 and January 2015, a period that covers the law's implementation, economic indicators were a cause for celebration, not concern as many had predicted." 4

Summary of Benefits Associated With Missouri's Proposed Earned Sick Time Law

Benefits	Firms with <50 Employees			Firms with 50+ Employees		
	Dollars	Average per-worker savings		Dollars	Average per-worker costs/savings	
BENEFITS						
Lower Turnover	$32,718,875			$146,675,016		
Reduced Flu Contagion in the Workplace	$1,334,044			$5,980,370		
		Weekly	*Hourly*		*Weekly*	*Hourly*
Employers' Savings	**$34,052,920**	**$6.97**	**$0.21**	**$152,655,386**	**$9.44**	**$0.26**
Reduced Short-Term Nursing Home Stays	$2,415,006			$8,165,162		
Reduced Norovirus in Nursing Homes	$21,692			$93,129		
Reduced Flu Contagion	$233,249			$771,691		
Reduced Emergency Department Visits	$3,512,104			$11,619,581		
		Weekly	*Hourly*		*Weekly*	*Hourly*
Community Savings	**$6,182,052**	**$1.26**	**$0.04**	**$20,649,564**	**$1.28**	**$0.03**

Note: "Small" firms are defined in the proposed laws at firms employing fewer than 15 employees and "Large" firms are defined as firms employing 15 or more employees.

Source: Institute for Women's Policy Research Analysis of the 2014 American Community Survey (ACS), the 2016 National Compensation Survey (NCS), the 2013-2016 Current Population Survey Annual Social and Economic Supplement (CPS ASEC), the 2010 Current Population Survey Displaced Worker, Employee Tenure, and Occupational Mobility Supplement File, and the 2014-2015 National Health Interview Survey (NHIS).

Note on Methodology

The estimates are based on analyses of the following data sets: the 2013–2016 Current Population Survey Annual Social and Economic Supplement (CPS ASEC), the 2014-2015 National Health Interview Survey (NHIS), the 2014 American Community Survey (ACS), the 2016 National Compensation Survey and the 2014 Medical Expenditure Panel Survey along with findings from previous peer-reviewed research.

This analysis was limited to only private sector workers as the proposed legislation only covers such workers. The proposed legislation does include some small exemptions for certain employees which this analysis does not account for. Excluding such workers would result in minor reductions in both the costs and benefits estimated, but general trends would remain the same. To learn more about the methodology and sources please see "Valuing Good Health in Maryland: The Costs and Benefits of Earned Sick Days"[5]

We hope that this information is useful to your office as your prepare your analyses of the petitions.

Respectfully submitted,
Lara Granich

Paid Sick Days Benefit Employers, Workers, and the Economy

Jessica Milli, PhD., Jenny Xia, and Jisun Min

Millions of workers have gained access to paid sick days in recent years through new laws in five states, 23 cities, and one county across the country.[1] Yet millions more still would not be paid if they need to stay at home when they are sick or need to care for a family member who is ill. As of 2014, 51 million workers lacked access to paid sick days.[2]

Research has documented many benefits of paid sick days policies for workers, businesses, and communities as a whole. These benefits would multiply substantially if more workers gained access to paid sick days. This briefing paper summarizes research on the benefits of paid sick days and the effects of paid sick days policies in places that have them.

Employers Benefit from Paid Sick Days

- **Reduced contagion in the workplace:** A 2010 survey conducted by the National Opinion Research Center found that employees without access to paid sick days are 1.5 times more likely than those with access to go to work with a contagious illness (55 percent compared with 37 percent).[3] Such "presenteeism" has serious public health consequences including flu contagion. A 2010 analysis of labor force and Centers for Disease Control data estimated that more than one in four private sector employees worked while ill with H1N1 during the 2009 H1N1 pandemic, resulting in the estimated infection of 7 million co-workers with H1N1. Work absences from illness dropped more precipitously among public sector workers than among private sector workers during the decline of the pandemic. Because employees in the public sector have greater access to paid sick days, the finding suggests that paid sick days played a role in slowing contagion and potentially in speeding recovery.[4] A 2013 study employed a model simulating influenza contagion to estimate reductions in contagion rates under a universal paid sick days policy. Using data from the American Community Survey, LandScan USA, and the U.S. Census, the study estimated that providing paid sick days would reduce workplace influenza infection in the United States by about 6 percent.[5]

- **Improved productivity:** When workers come to work sick, their productivity and performance suffer. Estimates of productivity losses vary across studies. A 1997 study polling 332 workers who had influenza-like illnesses found that workers on average reported being 46 percent less effective while ill at work.[6] A 2003 study based on interviews with more than 28,000 workers reported that on average, workers lose 1.32 hours per week of productive time due to personal health related reasons.[7] Since workers

with access to paid sick days are less likely to come to work sick and infect their co-workers,[8] paid sick days can prevent further productivity losses resulting from illness and contagion in the workplace.

- **Decreased workplace injuries:** Working while sick also puts employees at greater risk of injury on the job. A 2012 study using the 2005 through 2008 National Health Interview Survey (NHIS) found that after controlling for factors like survey year, occupational sector, firm size, region, and the availability of paid sick leave, workers with access to paid sick days are 28 percent less likely to be injured on the job than workers without this benefit.[9]

- **Decreased employee turnover:** A 2012 analysis of data collected between 2004 and 2006 through the Medical Expenditure Panel Survey (MEPS) finds that the likelihood of job separation decreases by about 25 percent when a worker has access to paid sick days, even after controlling for potential confounding factors such as workers' educational attainment, earnings, and race/ethnicity.[10] As employee turnover typically costs an employer between 10 and 30 percent of an employee's annual salary,[11] a reduction in turnover can result in significant reductions in employer costs.

Paid Sick Days Improve Public Health

- **Increased use of preventive care:** Since paid sick days can be used for doctor visits, workers with paid sick days are more likely to seek preventive care and to be screened for diseases such as cancer, which can lead to early detection and treatment. A 2012 study using 2008 National Health Interview Survey (NHIS) data finds that after controlling for sociodemographic and health-care-related factors, workers with paid sick days are significantly more likely to have had mammograms, Pap tests, and endoscopy, and to have seen a doctor during the previous year than those without the benefit.[12]

- **More timely treatment for illnesses:** Workers without paid sick days are more likely to delay medical care when they or a family member is ill which can lead to a more serious or prolonged illness.[13]A 2016 analysis of the 2013 NHIS—which controlled for demographic and health-related factors like race and ethnicity, occupation, annual family income, and health insurance coverage—indicates that workers without paid sick leave are three times more likely to forgo medical care for themselves, and 1.6 times more likely to forgo medical care for their families, compared with workers who have the benefit.[14] A 2011 analysis of the NHIS found that when they do seek care, workers without paid sick days—regardless of their educational attainment, income, race/ethnicity and other demographic characteristics—are more likely to use an emergency department for care.[15]

- **Improved family health:** Paid sick days may encourage workers to respond to their children's and family members' health needs in a timely manner, thereby improving overall health outcomes for their families. Paid sick days are a primary factor affecting whether a working parent will stay at home with a sick child rather than sending them to school or child care sick. The 2010 National Opinion Research Center Survey found that

28 percent of workers without paid sick days reported sending a sick child to school or child care, compared with 14 percent of workers with paid sick days.[16] A 2012 study analyzing the 2008 National Study of the Changing Workforce (NSCW) and controlling for worker and job characteristics finds that having paid sick days is associated with reduced work-family conflict, which lessens difficulties parents face in taking time off from work to care for a sick child.[17]

Paid Sick Days Bring Economic Benefits for Workers, Families, and Communities

- **Improved employment and earnings stability:** When incomes are not interrupted by unpaid leave, families experience greater financial stability and economic well-being. According to a 2010 poll, 16 percent of workers surveyed reported losing a job for missing work when they were sick or to care for an ill family member.[18] Research has shown that having paid sick days reduces the likelihood of a job separation by at least 25 percent.[19]

- **Improved labor force attachment among caregivers:** Informal caregivers whose work schedules are incompatible with the care needs of their family members may decrease their work hours or even leave the labor force completely.[20] One 2011 Gallup poll found that most caregivers, including parents, reported missing at least one full day of work to fulfill their caregiving duties with an average of 6.6 workdays missed per year.[21] Paid sick days, however, may provide sufficient leave to caregivers to allow them to maintain their desired level of employment while continuing to perform their caregiving work.

- **Savings from reduced utilization of hospital emergency departments and a lower monetary burden on taxpayers:** A 2011 study using the 2008 and 2009 NHIS finds that the annual number of emergency department visits per worker without paid sick days is greater than it is for those with the benefit. Using MEPS data on the cost of emergency department visits, the study estimates that a lack of paid sick days resulted in an estimated 1.3 million preventable emergency department visits every year in the United States in 2008, costing $1.1 billion more than office visits would have. Part of these costs—$500 million—were paid by public insurance programs such as Medicaid.[22]

Research Finds Benefits of Existing Paid Sick Days Laws and Minimal Costs to Employers

Since the implementation of the first paid sick days law in 2007, several studies have evaluated the impacts of the legislation, with a particular emphasis on the effects on employers. These evaluations have largely found that the overall impact on businesses was minimal. Many firms saw benefits from the policy and counted themselves as supporters after implementing it.

- **Minimal costs:** Costs to employers of providing paid sick days have been modest. In Seattle, evaluations found that the cost of providing paid sick leave in 2013 was only

about 0.4 percent of total firm revenue for the year.[23] In Connecticut, nearly half of 228 employers surveyed in 2013, a year and a half after the state's paid sick days law's implementation, reported having no increased overall cost, and 19.1 percent of employers reported an increased cost of less than 2 percent.[24] In San Francisco, the paid sick leave ordinance created additional costs for a relatively small share of employers. Six out of seven employers reported no adverse effects on profitability.[25]

- **Ease of implementation:** Research shows that paid sick days have minimal effect on business operations. Most San Francisco employers reported that implementing the Paid Sick Leave Ordinance was not difficult.[26] Likewise, about two thirds of Seattle employers reported that implementing the Paid Sick and Safe Time Ordinance was not very difficult, and 70 percent expressed support for the policy a year after implementation of the Ordinance.[27] Similarly, a large majority of Connecticut employers surveyed in 2013 indicated that the Paid Sick Leave Law did not burden business operations.[28]

- **Employees use paid sick days judiciously:** Several years after the implementation of San Francisco's paid sick days law, an IWPR survey of 1,194 workers found that employees in San Francisco used fewer than half of the sick days available under the paid sick leave ordinance.[29] Using data from the 2014 NHIS, IWPR found that most workers who do have access to paid sick days do not use any in a given year.[30] In regions that have passed paid sick day laws, surveys suggest that abuse of paid sick days is rare. Among 228 Connecticut employers surveyed by the Center for Economic and Policy Research, 86 percent reported no known cases of abuse more than a year after paid sick days was implemented.[31] A report published by the City of Seattle auditor finds that more than nine in ten Seattle employers surveyed in 2012 had never reprimanded an employee for abusing paid sick days.[32]

- **Sustained job growth and employment:** In contrast to messaging communicated by big business lobbyists prior to the laws' passage, both Seattle and San Francisco saw positive job growth in the period after their laws took effect, and this job growth was much higher than in the surrounding areas for both cities. San Francisco's growth in employment exceeded the average employment growth of surrounding counties after the paid sick days law was passed.[33] In the 10 months after the adoption of Seattle's Paid Sick and Safe Time Ordinance, King County (where Seattle is located) did not see negative economic impacts; rather, the county saw sustained job growth and reduced unemployment rates.[34]

- **Improved employee morale, motivation, loyalty, and productivity**: Over a quarter of Connecticut employers reported improved morale, 12.5 percent reported increased employee motivation, 10.6 percent reported increased loyalty, and 14.9 percent reported increased productivity after implementation of the state's paid sick days law.[35]

- **Improved work life balance for employees:** A 2010 IWPR survey found that one out of four San Francisco employees reported that paid sick days enabled them to better care for their own and their families' health needs. In addition, nearly 30 percent reported that their employers were more supportive when they needed to use their leave than they were

prior to the law's passage. More than half of all San Francisco workers reported at least one benefit as a result of the ordinance.[36]

- **Reduced flu contagion in locations with paid sick day laws:** One recent study used Google Flu data from 2003 to 2015 to show that influenza-like infection rates decrease significantly when workers gain access to paid sick days. By comparing the rates of influenza-like illnesses in regions with paid sick days policies—including the District of Columbia, Connecticut, California, Massachusetts, and Oregon—with those lacking such laws, the study finds that infection rates decrease by about 10 percent when employees without coverage obtain paid sick days.[37]

Conclusion

Literature spanning the fields of public health, economics, sociology, medicine, social work, and public policy converge to reflect the health, employment, and economic benefits of paid sick days. Research suggests that more widespread implementation of paid sick days policies would have a substantial positive impact on the well-being of children, families, and communities across the United States.

The Institute for Women's Policy Research (IWPR) conducts rigorous research and disseminates its findings to address the needs of women, promote public dialogue, and strengthen families, communities, and societies. The Institute works with policymakers, scholars, and public interest groups to design, execute, and disseminate research that illuminates economic and social policy issues affecting women and their families, and to build a network of individuals and organizations that conduct and use women-oriented policy research. IWPR's work is supported by foundation grants, government grants and contracts, donations from individuals, and contributions from organizations and corporations. IWPR is a 501(c)(3) tax-exempt organization that also works in affiliation with the women's studies, and public policy and public administration programs at The George Washington University.

STATE AUDITORS OFFICE

The Honorable Chris Koster
Attorney General
Supreme Court Building
Jefferson City, MO 65101

RE: Petition approval request from Richard Von Glahn regarding a proposed statutory amendment to Chapter 285, version 9 (2018-036)

Dear Attorney General Koster:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Richard Von Glahn on November 16, 2016.

Pursuant to Section 116.332, RSMo, we are referring the proposed petition sample sheet to your office for review. Please respond within the next ten days as required by Section 116.334, RSMo.

Thank you for your immediate consideration of this request.

Sincerely,

Jason Kander

Be it enacted by the people of the State of Missouri:

Section 285.055 of the Revised Statutes of Missouri is amended and fifteen new sections to be known as sections 285.600, 285.603, 285.606, 285.609, 285.612, 285.615, 285.618, 285.621, 285.624, 285.627, 285.630, 285.633, 285.636, 285.639, and 285.642 are enacted to read as follows:

285.055. 1. As used in this section, the following terms shall mean:

(1) "Employee", an individual employed in this state by an employer;

(2) "Employer", any individual, sole proprietorship, partnership, limited liability company, corporation, or any other entity that is legally doing business in this state; provided, however, that employer shall not include any public employer as defined in section 285.525;

(3) "Employment benefits", anything of value that an employee may receive from an employer in addition to wages and salary. The term includes, but is not limited to, health, disability, retirement, profit-sharing, and death benefits; group accidental death and dismemberment benefits; paid or unpaid days off from work for holidays, [sick leave,] vacation, and personal necessity; and terms of employment, attendance, or leave policies; provided, however, that for purposes of this section, "employment benefits" does not include paid or unpaid days off from work for sick leave that can be used for the purposes listed in subsection (1) of section 285.606.

(4) "Political subdivision", any county, city, town, or village.

2. No political subdivision shall establish, mandate, or otherwise require an employer to provide to an employee:

(1) A minimum or living wage rate; or

(2) Employment benefits;

that exceed the requirements of federal or state laws, rules, or regulations. The provisions of this subsection shall not preempt any state law or local minimum wage ordinance requirements in effect on August 28, 2015.

285.600. As used in sections 285.600 through 285.642:

(1) "Construction", includes construction, reconstruction, improvement, enlargement, alteration, painting and decorating, or major repair.

(2) "Construction industry", includes any employer whose employees conduct or perform construction as a principal component of the employer's business or enterprise.

(3) "Department", Department of Labor and Industrial Relations.

(4) "Director", Director of the Department of Labor and Industrial Relations.

(5) "Earned paid sick time", time that is compensated at the same hourly rate and with the same benefits, including health care benefits, as the employee normally earns during hours worked and is provided by an employer to an employee for the purposes described in section 285.606, but in no case shall this hourly amount be less than that provided under section 290.502.

(6) "Employee", any individual employed in this state by an employer, but does not include:

(A) Any individual engaged in the activities of an educational, charitable, religious, or nonprofit organization where the employer-employee relationship does not, in fact, exist or where the services rendered to the organization are on a voluntary basis;

(B) Any individual standing in loco parentis to foster children in their care;

(C) Any individual employed for less than four months in any year in a resident or day camp for children or youth, or any individual employed by an educational conference center operated by an educational, charitable or not-for-profit organization;

(D) Any individual engaged in the activities of an educational organization where employment by the organization is in lieu of the requirement that the individual pay the cost of tuition, housing or other educational fees of the organization or where earnings of the individual employed by the organization are credited toward the payment of the cost of tuition, housing or other educational fees of the organization;

(E) Any individual employed on or about a private residence on an occasional basis for six hours or less on each occasion;

(F) Any individual employed on a casual basis to provide baby-sitting services;

(G) Any individual employed by an employer subject to the provisions of part A of subtitle IV of title 49, United States Code, 49 U.S.C. §§ 10101 et seq.;

(H) Any individual employed on a casual or intermittent basis as a golf caddy, newsboy, or in a similar occupation;

(I) Any individual who is employed in any government position defined in 29 U.S.C. §§ 203(e)(2)(C)(i)-(ii); or

(J) Any individual who is an offender, as defined in section 217.010, who is incarcerated in any correctional facility operated by the department of corrections, including offenders who provide labor or services on the grounds of such correctional facility pursuant to section 217.550.

(7) "Employer", any person acting directly or indirectly in the interest of an employer in relation to an employee; provided, however, that for the purposes of sections 285.600 through 285.642, "employer" does not include the United States Government, the state, or a political subdivision of the state, including a department, agency, officer, bureau, division, board, commission, or instrumentality of the state, or a city, county, town, village, school district, or other political subdivision of the state.

(8) "Family member", any of the following individuals:

(A) Regardless of age, a biological, adopted or foster child, stepchild or legal ward, a child of a domestic partner, a child to whom the employee stands in loco parentis, or an individual to whom the employee stood in loco parentis when the individual was a minor;

(B) A biological, foster, stepparent or adoptive parent or legal guardian of an employee or an employee's spouse or domestic partner or an individual who stood in loco parentis when the employee or employee's spouse or domestic partner was a minor child;

(C) An individual to whom the employee is legally married under the laws of any state, or a domestic partner who is registered as such under the laws of a political subdivision;

(D) A grandparent, grandchild, or sibling (whether of a biological, foster, adoptive or step relationship) of the employee or the employee's spouse or domestic partner; or

(E) A member of the employee's household.

(9) "Health care professional," any individual licensed under Federal or State law to provide medical or emergency services, including but not limited to doctors, nurses, certified nurse midwives, and emergency room personnel.

(10) "Person", any individual, partnership, association, corporation, business, business trust, legal representative, or any organized group of persons.

(11) "Retaliatory personnel action", denial of any right guaranteed under sections 285.600 through 285.642, or any threat, discharge, suspension, demotion, reduction of hours, or any other adverse action against an employee for the exercise of any right guaranteed herein. "Retaliatory personnel action" shall also include interference with or punishment for in any manner participating in or assisting an investigation, proceeding, or hearing under sections 285.600 through 285.642.

(12) "Year", a regular and consecutive twelve-month period as determined by the employer; except that for the purposes of section 285.615 and section 285.627, "year" shall mean a calendar year.

285.603. 1. Employees of an employer with fifteen or more employees shall accrue a minimum of one hour of earned paid sick time for every thirty hours worked, but such employees shall not be entitled to accrue or use more than fifty-six hours of earned paid sick time per year, unless the employer selects a higher limit.

2. Employees of an employer with fewer than fifteen employees shall accrue a minimum of one hour of earned paid sick time for every thirty hours worked, but such employees shall not be entitled to accrue or use more than forty hours of earned paid sick time per year, unless the employer selects a higher limit.

3. In determining the number of employees performing work for an employer for compensation during a given week, all employees performing work for compensation on a full-time, part-time, or temporary basis shall be counted. In situations in which the number of employees who work for an employer for compensation per week fluctuates above and below fifteen employees per week over the course of the year, an employer is required to provide earned paid sick time pursuant to subsection (1) of this section if it maintained fifteen or more employees on the payroll for some portion of a day in each of twenty different calendar weeks, whether or not the weeks were consecutive, in either the current or the preceding year (irrespective of whether the same individuals were in employment in each day).

4. All employees shall accrue earned paid sick time as follows:

(A) Earned paid sick time as provided in this section shall begin to accrue at the commencement of employment or ninety days after this law goes into effect, whichever is later. An employer may provide all paid sick time that an employee is expected to accrue in a year at the beginning of the year.

(B) An employee may use earned paid sick time as it is accrued, except that an employer may require an employee hired more than ninety days after this law goes into effect to wait until the ninetieth calendar day after commencing employment before using accrued earned paid sick time, unless otherwise permitted by the employer.

(C) Employees who are exempt from overtime requirements under 29 U.S.C. § 213(a)(1) of the Federal Fair Labor Standards Act will be assumed to work forty hours in each work week for purposes of earned paid sick time accrual unless their normal work week is less than forty hours, in which case earned paid sick time accrues based upon that normal work week.

(D) Earned paid sick time shall be carried over to the following year, subject to the limitations on usage in subsections (1) and (2) of this section. Alternatively, in lieu of carryover of unused earned paid sick time from one year to the next, an employer may pay an employee for unused earned paid sick time at the end of a year and provide the employee with an amount of paid sick time that meets or exceeds the requirements of sections 285.600 through 285.642 that is available for the employee's immediate use at the beginning of the subsequent year.

(E) If an employee is transferred to a separate division, entity, or location, but remains employed by the same employer, the employee is entitled to all earned paid sick time accrued at the prior division, entity, or location and is entitled to use all earned paid sick time as provided in this section. When there is a separation from employment and the employee is rehired within nine months of separation by the same employer,

previously accrued earned paid sick time that had not been used shall be reinstated. Further, the employee shall be entitled to use accrued earned paid sick time and accrue additional earned paid sick time at the re-commencement of employment.

(F) When a different employer succeeds or takes the place of an existing employer, all employees of the original employer who remain employed by the successor employer are entitled to all earned paid sick time they accrued when employed by the original employer, and are entitled to use earned paid sick time previously accrued.

(G) At its discretion, an employer may loan earned paid sick time to an employee in advance of accrual by such employee.

5. Any employer with a paid leave policy, such as a paid time off policy, who makes available an amount of paid leave sufficient to meet the accrual requirements of this section that may be used for the same purposes and under the same conditions as earned paid sick time under sections 285.600 through 285.642 is not required to provide additional paid sick time.

6. Nothing in this section shall be construed as requiring financial or other reimbursement to an employee from an employer upon the employee's termination, resignation, retirement, or other separation from employment for accrued earned paid sick time that has not been used.

285.606. 1. Earned paid sick time shall be provided to an employee by an employer for:

(A) An employee's mental or physical illness, injury, or health condition; an employee's need for medical diagnosis, care, or treatment of a mental or physical illness, injury, or health condition; an employee's need for preventive medical care;

(B) Care of a family member with a mental or physical illness, injury, or health condition; care of a family member who needs medical diagnosis, care, or treatment of a mental or physical illness, injury, or health condition; care of a family member who needs preventive medical care; or

(C) Closure of the employee's place of business by order of a public official due to a public health emergency, or an employee's need to care for a child whose school or place of care has been closed by order of a public official due to a public health emergency, or care for oneself or a family member when it has been determined by the health authorities having jurisdiction or by a health care provider that the employee's or family member's presence in the community may jeopardize the health of others because of his or her exposure to a communicable disease, whether or not the employee or family member has actually contracted the communicable disease.

2. Earned paid sick time shall be provided upon the request of an employee. Such request may be made orally, in writing, by electronic means or by any other means acceptable to the employer. When possible, the request shall include the expected duration of the absence.

3. When the use of earned paid sick time is foreseeable, the employee shall make a good faith effort to provide notice of the need for such time to the employer in advance of the use of the earned paid sick time and shall make a reasonable effort to schedule the use of earned paid sick time in a manner that does not unduly disrupt the operations of the employer. Where such need is not foreseeable, an employer may require an employee to provide notice of the need for the use of earned paid sick time as soon as practicable.

4. An employer that requires notice of the need to use earned paid sick time where the need is not foreseeable shall provide a written policy that contains procedures for the employee to provide notice. An employer that has not provided to the employee a copy of its written policy for providing such notice shall not deny earned paid sick time to the employee based on non-compliance with such a policy.

5. An employer may not require, as a condition of an employee's taking earned paid sick time, that the employee search for or find a replacement worker to cover the hours during which the employee is using earned paid sick time.

6. Earned paid sick time may be used in the smaller of hourly increments or the smallest increment that the employer's payroll system uses to account for absences or use of other time.

7. For earned paid sick time of three or more consecutive work days, an employer may require reasonable documentation that the earned paid sick time has been used for a purpose covered by subsection (1) of this section. Documentation signed by a heath care professional indicating that earned paid sick time is necessary shall be considered reasonable documentation for purposes of this section. An employer may not require that the documentation explain the nature of the illness unless otherwise required by law.

285.609. 1. It shall be unlawful for an employer or any other person to interfere with, restrain, or deny the exercise of, or the attempt to exercise, any right protected under sections 285.600 through 285.642.

2. An employer shall not take retaliatory personnel action or discriminate against an employee or former employee because he or she has exercised rights protected under sections 285.600 through 285.642. Such rights include, but are not limited to, the right to request or use earned paid sick time pursuant to sections 285.600 through 285.642; the right to file a complaint or inform any person about any employer's alleged violation of sections 285.600 through 285.642; the right to participate in an investigation, hearing, or proceeding or cooperate with or assist the Department in any investigations of alleged violations of sections 285.600 through 285.642; and the right to inform any person of his or her potential rights under sections 285.600 through 285.642.

3. It shall be unlawful for an employer's absence control policy to count earned paid sick time taken under sections 285.600 through 285.642 as an absence that may lead to or result in discipline, discharge, demotion, suspension, or any other adverse action.

4. Protections of this section shall apply to any individual who mistakenly but in good faith alleges violations of sections 285.600 through 285.642.

285.612. 1. Employers shall give employees written notice of the following at the commencement of employment or by ninety days after this law goes into effect, whichever is later: employees are entitled to earned paid sick time and the amount of earned paid sick time, the terms of its use guaranteed under sections 285.600 through 285.642, that retaliatory personnel action against employees who request or use earned paid sick time is prohibited, that each employee has the right to bring a civil action if earned paid sick time as required by sections 285.600 through 285.642 is denied by the employer or the employee is subjected to retaliatory personnel action for requesting or taking earned paid sick time, and, if applicable, the contact information for the Department where questions about rights and responsibilities under sections 285.600 through 285.642 may be answered.

2. Employers shall display a poster that contains the information required in subsection (1) of this section in a conspicuous and accessible place in each establishment where such employees are employed, provided that such poster has been provided by the Department.

3. The Department may create and make available to employers, model notices and posters that contain the information required under subsection (1) of this section for employers' use in complying with subsections (1) and (2) of this section. Nothing in this subsection shall be interpreted or applied, either expressly or through practical necessity, to require the Department to create or make available notices or posters if it requires the appropriation of funds to cover the costs of such acts.

285.615. 1. Employers shall retain records documenting hours worked by employees and earned paid sick time taken by employees, for a period of not less than three years, and shall allow the Department access to such records, with appropriate notice and at a mutually agreeable time, to monitor compliance with the requirements of sections 285.600 through 285.642.

2. To the extent permitted by law, the Director may inspect such records, and the records shall be open for inspection by the Director by appointment. Where the records required under this section are kept outside the state, the records shall be made available to the Director upon demand. Every such employer shall furnish to the Director on demand a sworn statement of time records and information upon forms prescribed or approved by the Director. All the records and information obtained by the Department are confidential and shall be disclosed only on order of a court of competent jurisdiction.

3. Nothing in this section shall be interpreted or applied, either expressly or through practical necessity, to require the Department or Director to access or inspect records or to create forms relating to the inspection of records if it requires the appropriation of funds to cover the costs of such acts.

285.618. 1. The Department may, in accordance with chapter 536, promulgate rules to implement the provisions of sections 285.600 through 285.642. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2018, shall be invalid and void.

2. Nothing in this section shall be interpreted or applied, either expressly or through practical necessity, to require the promulgation or adoption of rules if it requires the appropriation of funds to cover the costs of such acts.

285.621. 1. To the extent permitted by law, the Department may investigate and ascertain compliance with sections 285.600 through 285.642, establish and implement a system to receive complaints regarding non-compliance with sections 285.600 through 285.642 and to investigate and attempt to resolve complaints through mediation between the complainant and the subject of the complaint, and establish additional means of enforcement to the extent permitted by the law.

2. The Department may develop and implement an outreach program to inform employees, parents, and persons who are under the care of a health care provider about the availability of earned paid sick time under sections 285.600 through 285.642. This program may include the distribution of notices and other written materials to child care and elder care providers, domestic violence shelters, schools, hospitals, community health centers and other health care providers in Missouri.

3. Nothing in this section shall be interpreted or applied, either expressly or through practical necessity, to require the Department to conduct investigations and ascertain compliance with sections 285.600 through 285.642, to establish and implement a system to receive or resolve complaints, to establish additional means of enforcement, or to conduct outreach and education, including the creation of notices and other written materials, concerning sections 285.600 through 285.642, if it requires the appropriation of funds to cover the costs of such acts.

285.624. 1. To the extent permitted by law, any employer who violates or fails to comply with any of the provisions and requirements of sections 285.600 through 285.642 shall be guilty of a class C misdemeanor and shall be punished for each violation thereof by a fine, up to the maximum allowed under state law for violation of a class C misdemeanor; provided, however, that an employer who willfully violates the notice and posting requirements of section 285.612 shall be guilty of an infraction and shall be punished for each violation thereof by a fine, up to the maximum allowed under state law for an infraction.

2. For purposes of this section, each day of violation or failure to comply and each employee affected shall constitute a separate offense.

285.627. 1. Any individual who claims to have been aggrieved by a failure of an employer to comply with any portion of sections 285.600 through 285.642, including but not limited to the failure to provide earned paid sick time or to allow employees to use such time consistent with sections 285.600 through 285.642, or who claims to have suffered a retaliatory personnel action, shall have a right of action and may commence a civil action in the appropriate court of jurisdiction within three years of the accrual of the cause of action, to obtain appropriate relief with respect to such unlawful violation.

2. In a civil action under this section, if the court finds a violation has occurred, the court may grant as relief, as it deems appropriate and to the extent permitted by law, any permanent or temporary injunction, the full amount of any unpaid earned sick time plus any actual damages suffered as the result of the employer's violation of sections 285.600 through 285.642, an additional amount equal to twice any unpaid earned sick time as liquidated damages, costs, and reasonable attorney's fees as may be allowed by the court, and other legal or equitable relief as may be appropriate to remedy the violation, including, without limitation, reinstatement to employment and back pay. Any agreement between the employee and the employer to waive the protections of sections 285.600 through 285.642, with the exception of section 285.633, shall be no defense to the action.

285.630. 1. Except as otherwise required by law, an employer may not require disclosure of details relating to an employee's or an employee's family member's health information as a condition of providing earned paid sick time under sections 285.600 through 285.642.

2. Unless as otherwise required by law, any health information possessed by an employer regarding an employee or employee's family member must:

(A) be maintained on a separate form and in a separate file from other personnel information;

(B) be treated as confidential medical records; and

(C) not be disclosed except to the affected employee or with the express written permission of the affected employee.

285.633. 1. All or any portion of the earned paid sick time requirements of sections 285.600 through 285.642 shall not apply to employees covered by a valid collective bargaining agreement, to the extent that such requirements are expressly waived in the collective bargaining agreement in clear and unambiguous terms; provided further, that no provisions of sections 285.600 through 285.642 shall apply to any employee engaged in construction work in the construction industry who is covered by a valid collective bargaining agreement.

2. Notwithstanding subsection (1) of this section, with respect to employees covered by a valid collective bargaining agreement in effect on the effective date of sections 285.600 through 285.642, no provisions of sections 285.600 through 285.642 shall apply until the stated expiration date in the collective bargaining agreement.

3. Nothing in sections 285.600 through 285.642 shall be deemed to interfere, impede, or otherwise diminish the right of employees to bargain collectively through representatives of their own choosing.

285.636. 1. Nothing in sections 285.600 through 285.642 shall be construed to discourage or prohibit an employer from the adoption or retention of an earned paid sick time policy more generous than the one required herein.

2. Nothing in sections 285.600 through 285.642 shall be construed as diminishing the obligation of an employer to comply with any contract, collective bargaining agreement, employment benefit plan, or other agreement providing more generous paid sick time to an employee than required herein. Nothing in sections 285.600 through 285.642 shall be construed as diminishing the rights of public employees regarding paid sick time or use of paid sick time as provided in the laws of Missouri pertaining to public employees.

285.639. 1. Sections 285.600 through 285.642 provide minimum requirements pertaining to earned paid sick time and shall not be construed to preempt, limit, or otherwise affect the applicability of any other law, regulation, requirement, policy, or standard that provides for greater accrual or use by employees of earned paid sick time or that extends other protections to employees.

2. Any county, city, town, or village in the state shall have the power and authority to establish, mandate, or otherwise require an employer to provide to an employee paid or unpaid days off from work for sick leave which exceeds the requirements of sections 285.600 through 285.642.

3. Nothing in sections 285.600 through 285.642 shall be interpreted or applied to create a power or obligation contrary to any federal law, rule, or regulation.

285.642. Except as detailed in section 285.618, all of the provisions of sections 285.600 through 285.642 are severable, and if any provision, including any section, subsection, subdivision, paragraph, sentence, or clause, or the application thereof to any person or circumstance, is found by a court of competent jurisdiction to be invalid, unconstitutional, or unconstitutionally enacted, such decision shall not affect other provisions or applications of sections 285.600 through 285.642 that can be given effect without the invalid, unconstitutional, or unconstitutionally enacted provision or application, and to this end the provisions of sections 285.600 through 285.642 are declared severable.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-036)

Subject

Initiative petition from Richard Von Glahn regarding a proposed amendment to Chapter 285 of the Revised Statutes of Missouri. (Received November 17, 2016)

Date

December 7, 2016

Description

This proposal would amend Chapter 285 of the Revised Statutes of Missouri.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** the **Missouri Lottery,** the **Public Service Commission,** the **State Tax Commission,** the **Missouri Technology Corporation,** the **Missouri Life Sciences Research Board,** the **Missouri Veterans Commission,** the **Missouri Ethics Commission,** the **Missouri Office of Prosecution Services,** the **Kansas City Boards of Police Commissioners,** the **St. Louis City Board of Police Commissioners,** the **St. Louis County Board of Elections,** the **Board of Election Commissioners City of St.**

Louis, the **Kansas City Board of Election Commissioners,** the **Platte County Board of Elections,** the **Jackson County Election Board,** the **Clay County Board of Election Commissioners,** the **Lieutenant Governor's office,** the **Children's Trust Fund,** the **Missouri Joint Municipal Electric Utility Commission,** the **State Auditor's office, University of Central Missouri, Harris-Stowe State University, Lincoln University, Missouri Southern State University, Missouri Western State University, Northwest Missouri State University, Southeast Missouri State University,** and **Truman State University**.

Lara Granich and Missouri Jobs with Justice Voter Action provided information as proponents of the proposal to the State Auditor's office.

Officials from the **Attorney General's office** indicated various provisions of the proposal authorize their department to promulgate rules, establish mediation procedures "and additional means of enforcement… ." They assume that their office may provide some review of proposals, but assume that any potential costs arising from this proposal can be absorbed with existing resources. They may seek additional appropriations if there is an increased review of rules in later years.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated they will be deferring to the Office of Administration and the Department of Labor and Industrial Relations regarding any fiscal impact this initiative petition might have.

Officials from the **Department of Higher Education** indicated the state, including departments, are exempt from the definition of "employer," so this initiative petition would not have a fiscal impact on their department.

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition does not apply to public employers with respect to its employees. Therefore, this petition, if passed, would have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated there is no fiscal impact to their department as a result of this initiative petition. Section 285.600 (5) indicates "for the purposes of sections 285.600 through 285.642 "employer" does not include the United States Government, the state, …., including a department, agency, …."

Officials from the **Department of Corrections** indicated they defer to the Office of Administration.

Officials from the **Department of Labor and Industrial Relations** indicated they expect no change in revenues or expenses in fiscal years 2017, 2018, and 2019.

The petition, if passed by voters, would require businesses with 15 or more employees to provide paid sick time. It also would allow their department to educate employers, take complaints, and perform investigations of violations of the new law.

The long-range fiscal implications are the same as those of the estimate period.

Under the new language, they may educate employers and employees, promulgate rules, take complaints, and conduct investigations of alleged violations of the new provisions. They believe the education, registration of complaints, and investigations would be conducted in a manner similar to those conducted under the Minimum Wage program. Using employer information from the United States Census Bureau for employers with more than ten employees, they estimate that it would receive complaints from 1.5% of the estimated 40,886 businesses with 10 or more employees, or 613 complaints annually. (The Census Bureau does not break employers at the 15 or more level.) To investigate these 613 complaints, they would require 3.50 Wage & Hour Investigator I/IIs. In FY 2016, 578 complaints were closed by 3.50 Investigators, averaging 165 per FTE. Using this calculation, they estimate it would need 3.50 FTE and the standard per FTE expenses and equipment to complete these activities.

However, Sections 285.612, 285.615, 285.618, and 285.621 expressly state that they are not required to take on the new duties it is authorized to perform under this proposal if doing so will require an appropriation to cover the costs of performing the duties. Because these duties are optional and are not required of their department, if there is no appropriation made to cover the cost, they estimate no mandated fiscal impact for this proposal.

Officials from the **Department of Revenue** indicated they defer this fiscal note to the Office of Administration for a statewide response.

Officials from the **Department of Public Safety** indicated they will defer to the Office of Administration response to this petition.

Officials from the **Department of Social Services** indicated they will defer to the Office of Administration response to this petition. They indicated no fiscal impact on their department.

Officials from the **Governor's Office** indicated there should be no fiscal impact to their office.

Officials from the **House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated no fiscal impact.

Officials from the **Office of Administration** indicated:

This initiative petition revises Section 285.055, RSMo, and adds 15 new sections to Chapter 285 related to sick leave.

Under this proposal, employers would be required to provide paid sick leave to employees. The amount would be dependent upon the number of employees. It does not include employees covered under a valid collective bargaining agreement and it provides employees with an avenue of recourse if the employee claims to be aggrieved.

The State of Missouri is excluded from the provisions of this proposal, therefore there would be no statewide impact related to this proposal other than potentially higher costs for services purchased by the state. However, the Department of Labor and Industrial Relations (DOLIR) will be impacted. Budget and Planning defers to the DOLIR for the specific impact to that agency.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated no fiscal impact on their office.

Officials from the **Secretary of State's office** indicated their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any impact on their office, as they are an independent department within state government and by definition state employees are exempt from this proposed legislation.

Officials from the **State Treasurer's office** indicated this would have no fiscal impact on their office.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from the **City of Columbia** indicated there is no impact on their city.

Officials from the **City of Kansas City** indicated no direct fiscal impact is anticipated if this proposal is adopted because cities are not employers. An indirect cost to cities may arise through increased labor costs of those vendors contracting with the city.

Officials from the **City of Raymore** indicated no fiscal impact.

Officials from the **City of St. Joseph** indicated this initiative petition could have a fiscal impact on local government.

Officials from **University of Missouri** indicated they have reviewed this proposed legislation and have determined that for benefit eligible employees (defined as working .75 or >) that it does not appear that the proposed legislation as written would create a significant fiscal impact to their university.

Officials from the **Missouri Lottery** indicated no fiscal impact to their agency.

Officials from the **Public Service Commission** indicated no fiscal impact on their agency.

Officials from the **State Tax Commission** indicated this initiative petition pertaining to sick leave in Chapter 285 does not directly impact their office. As a state agency this matter is under the direction of Office of Administration, Division of Personnel.

Officials from the **Missouri Veterans Commission** indicated no fiscal impact to their agency.

Officials from the **Missouri Office of Prosecution Services** indicated no measurable fiscal impact to their office.

Officials from the **Kansas City Boards of Election Commissioners** indicated there is no fiscal impact with amendments to Chapter 285, Versions 1 -12, since the State is not responsible for costs associated with the November 2018 election.

Officials from the **Platte County Board of Elections** indicated the proposed initiative would have no fiscal impact on their office.

Officials from the **Jackson County Election Board** indicated no fiscal impact on their office.

Officials from the **Lieutenant Governor's office** indicated it is anticipated that this initiative petition will impose little to no costs or savings on their office.

Officials from the **Children's Trust Fund** indicated they are part of the Office of Administration and thus will be covered by the Office of Administration's official response. They will not be responding separately.

Officials from the **Missouri Joint Municipal Electric Utility Commission** indicated:

The Missouri Association of Municipal Utilities represents approximately 120 cities in Missouri providing utility services to their customer/owners. They do not represent cities in their general business operation. That representation is undertaken by the Missouri Municipal League and its executive director Dan Ross.

Based on a review of each of the 12 versions it appears that there would be no direct cost to any of their cities since the framers of the amendment specifically excluded cities from the definition of employers and city employees from coverage of the proposed changes.

However, it is possible that cities may experience some increases in the cost of goods and services consumed in the regular course of business as a result of higher labor input costs. It is impossible to accurately predict those increases other than to make you aware of the potential.

Officials from the **State Auditor's office** indicated there is no fiscal impact for their office.

Officials from **University of Central Missouri** indicated if they are included in the definition of "employer" that would be impacted by this legislation, they would have an additional cost of roughly $340,000. In fiscal year 2016, part-time employees worked nearly 679,000 hours. If each 30 hours resulted in one sick time hour, that would be 22,634 hours. At an average rate of $15/hour, that would have a fiscal impact of $340,000.

If the definition of employer is interpreted to exclude UCM because of its status as a state agency, then there would be no fiscal impact.

Officials from **Missouri State University** indicated no fiscal impact on their university.

Officials from **Missouri Southern State University** indicated they do not anticipate any fiscal impact from this initiative petition.

Officials from **Missouri Western State University** indicated no fiscal impact on their university.

Lara Granich and Missouri Jobs with Justice Voter Action provided the following information as proponents of this initiative petition.

Re: Fiscal Impact Analysis of Earned Sick Time Petitions
Petitions numbered by MO SOS at 2018-28 to 2018-39

This letter is from Lara Granich and Missouri Jobs with Justice Voter Action, proponents of the above-referenced initiative petitions. Pursuant to RSMo. Section 116.175, we write to submit the following information to assist your office in its analysis of the fiscal impact of the above-mentioned twelve proposed Earned Sick Time Petitions.

This analysis uses data collected by the U.S. Bureau of Labor Statistics, the Centers for Disease Control and Prevention, and the U.S. Census Bureau to evaluate the impact of earned sick time laws in Missouri. This analysis uses findings from previous peer-reviewed research to estimate cost-savings associated with the proposed policies through reduced turnover, reduced spread of contagious disease in the workplace, prevention of productivity losses from employees working while sick, minimized nursing-home stays, and reduced norovirus outbreaks in nursing homes. We also address certain claims that have been made by opponents in the past.

I. Estimate of Number of Workers Affected Statewide

According to the Institute for Women's Policy Research, an estimated 1,002,116 private sector workers in Missouri, or 45.9 percent of the workforce, cannot earn a single paid sick day to use to recover from common illnesses or seek medical care.[1]

II. Direct Costs to State

As these proposed initiatives exclude public workers employed by the state or by local governments, the initiatives are not expected to have any direct impact on state and local payroll costs. Enforcement would be handled by existing staff at the Department of Labor.

III. Economic Literature on the Impact of Earned Sick Time on Businesses

This analysis quantifies only a subset of potential benefits, predicting a net economic benefit from both of the proposed laws. Likely additional benefits from paid sick days not quantified in this analysis include: reduced health care spending due to reduced public contagion and more timely and regular preventive care and treatment; improved economic security among families who receive pay on sick days and are less likely to be fired or disciplined for taking sick time; and improved school outcomes and reduced contagion in schools, when parents can avoid sending sick children to school or child care.

Millions of workers have gained access to paid sick days in recent years through new laws in five states, 23 cities, and one county across the country. There is no evidence of business closures/layoffs as a result of earned sick time laws. Both Seattle and San Francisco saw positive job growth in the period after their laws took effect, and this job growth was much higher than in the surrounding areas for both cities. San Francisco's growth in employment exceeded the average employment growth of surrounding counties after the paid sick days law was passed. In the 10 months after the adoption of Seattle's Paid Sick and Safe Time Ordinance, King County (where Seattle is located) did not see negative economic impacts; rather, the county saw sustained job growth and reduced unemployment rates. 2

The Washington D.C. Auditor reported "that the Accrued Sick and Safe Leave Act did not have the economic impact of encouraging business owners to move a business from the District nor did the Act have the economic impact of discouraging business owners to locate a business in the District of Columbia."3 New York City reported that "New York City's economy has thrived since the enactment of PSL [paid sick leave]. Between January 2014 and January 2015, a period that covers the law's implementation, economic indicators were a cause for celebration, not concern as many had predicted." 4

Summary of Benefits Associated With Missouri's Proposed Earned Sick Time Law

Benefits	Firms with <50 Employees			Firms with 50+ Employees		
	Dollars	Average per-worker savings		Dollars	Average per-worker costs/savings	
BENEFITS						
Lower Turnover	$32,718,875			$146,675,016		
Reduced Flu Contagion in the Workplace	$1,334,044			$5,980,370		
		Weekly	*Hourly*		*Weekly*	*Hourly*
Employers' Savings	**$34,052,920**	**$6.97**	**$0.21**	**$152,655,386**	**$9.44**	**$0.26**
Reduced Short-Term Nursing Home Stays	$2,415,006			$8,165,162		
Reduced Norovirus in Nursing Homes	$21,692			$93,129		
Reduced Flu Contagion	$233,249			$771,691		
Reduced Emergency Department Visits	$3,512,104			$11,619,581		
		Weekly	*Hourly*		*Weekly*	*Hourly*
Community Savings	**$6,182,052**	**$1.26**	**$0.04**	**$20,649,564**	**$1.28**	**$0.03**

Note: "Small" firms are defined in the proposed laws at firms employing fewer than 15 employees and "Large" firms are defined as firms employing 15 or more employees.

Source: Institute for Women's Policy Research Analysis of the 2014 American Community Survey (ACS), the 2016 National Compensation Survey (NCS), the 2013-2016 Current Population Survey Annual Social and Economic Supplement (CPS ASEC), the 2010 Current Population Survey Displaced Worker, Employee Tenure, and Occupational Mobility Supplement File, and the 2014-2015 National Health Interview Survey (NHIS).

Note on Methodology

The estimates are based on analyses of the following data sets: the 2013–2016 Current Population Survey Annual Social and Economic Supplement (CPS ASEC), the 2014-2015 National Health Interview Survey (NHIS), the 2014 American Community Survey (ACS), the 2016 National Compensation Survey and the 2014 Medical Expenditure Panel Survey along with findings from previous peer-reviewed research.

This analysis was limited to only private sector workers as the proposed legislation only covers such workers. The proposed legislation does include some small exemptions for certain employees which this analysis does not account for. Excluding such workers would result in minor reductions in both the costs and benefits estimated, but general trends would remain the same. To learn more about the methodology and sources please see "Valuing Good Health in Maryland: The Costs and Benefits of Earned Sick Days"[5]

We hope that this information is useful to your office as your prepare your analyses of the petitions.

Respectfully submitted,
Lara Granich

IWPR #B361 July 2016

Paid Sick Days Benefit Employers, Workers, and the Economy

Jessica Milli, PhD., Jenny Xia, and Jisun Min

Millions of workers have gained access to paid sick days in recent years through new laws in five states, 23 cities, and one county across the country.[1] Yet millions more still would not be paid if they need to stay at home when they are sick or need to care for a family member who is ill. As of 2014, 51 million workers lacked access to paid sick days.[2]

Research has documented many benefits of paid sick days policies for workers, businesses, and communities as a whole. These benefits would multiply substantially if more workers gained access to paid sick days. This briefing paper summarizes research on the benefits of paid sick days and the effects of paid sick days policies in places that have them.

Employers Benefit from Paid Sick Days

- **Reduced contagion in the workplace:** A 2010 survey conducted by the National Opinion Research Center found that employees without access to paid sick days are 1.5 times more likely than those with access to go to work with a contagious illness (55 percent compared with 37 percent).[3] Such "presenteeism" has serious public health consequences including flu contagion. A 2010 analysis of labor force and Centers for Disease Control data estimated that more than one in four private sector employees worked while ill with H1N1 during the 2009 H1N1 pandemic, resulting in the estimated infection of 7 million co-workers with H1N1. Work absences from illness dropped more precipitously among public sector workers than among private sector workers during the decline of the pandemic. Because employees in the public sector have greater access to paid sick days, the finding suggests that paid sick days played a role in slowing contagion and potentially in speeding recovery.[4] A 2013 study employed a model simulating influenza contagion to estimate reductions in contagion rates under a universal paid sick days policy. Using data from the American Community Survey, LandScan USA, and the U.S. Census, the study estimated that providing paid sick days would reduce workplace influenza infection in the United States by about 6 percent.[5]

- **Improved productivity:** When workers come to work sick, their productivity and performance suffer. Estimates of productivity losses vary across studies. A 1997 study polling 332 workers who had influenza-like illnesses found that workers on average reported being 46 percent less effective while ill at work.[6] A 2003 study based on interviews with more than 28,000 workers reported that on average, workers lose 1.32 hours per week of productive time due to personal health related reasons.[7] Since workers

with access to paid sick days are less likely to come to work sick and infect their co-workers,[8] paid sick days can prevent further productivity losses resulting from illness and contagion in the workplace.

- **Decreased workplace injuries:** Working while sick also puts employees at greater risk of injury on the job. A 2012 study using the 2005 through 2008 National Health Interview Survey (NHIS) found that after controlling for factors like survey year, occupational sector, firm size, region, and the availability of paid sick leave, workers with access to paid sick days are 28 percent less likely to be injured on the job than workers without this benefit.[9]

- **Decreased employee turnover:** A 2012 analysis of data collected between 2004 and 2006 through the Medical Expenditure Panel Survey (MEPS) finds that the likelihood of job separation decreases by about 25 percent when a worker has access to paid sick days, even after controlling for potential confounding factors such as workers' educational attainment, earnings, and race/ethnicity.[10] As employee turnover typically costs an employer between 10 and 30 percent of an employee's annual salary,[11] a reduction in turnover can result in significant reductions in employer costs.

Paid Sick Days Improve Public Health

- **Increased use of preventive care:** Since paid sick days can be used for doctor visits, workers with paid sick days are more likely to seek preventive care and to be screened for diseases such as cancer, which can lead to early detection and treatment. A 2012 study using 2008 National Health Interview Survey (NHIS) data finds that after controlling for sociodemographic and health-care-related factors, workers with paid sick days are significantly more likely to have had mammograms, Pap tests, and endoscopy, and to have seen a doctor during the previous year than those without the benefit.[12]

- **More timely treatment for illnesses:** Workers without paid sick days are more likely to delay medical care when they or a family member is ill which can lead to a more serious or prolonged illness.[13]A 2016 analysis of the 2013 NHIS—which controlled for demographic and health-related factors like race and ethnicity, occupation, annual family income, and health insurance coverage—indicates that workers without paid sick leave are three times more likely to forgo medical care for themselves, and 1.6 times more likely to forgo medical care for their families, compared with workers who have the benefit.[14] A 2011 analysis of the NHIS found that when they do seek care, workers without paid sick days—regardless of their educational attainment, income, race/ethnicity and other demographic characteristics—are more likely to use an emergency department for care.[15]

- **Improved family health:** Paid sick days may encourage workers to respond to their children's and family members' health needs in a timely manner, thereby improving overall health outcomes for their families. Paid sick days are a primary factor affecting whether a working parent will stay at home with a sick child rather than sending them to school or child care sick. The 2010 National Opinion Research Center Survey found that

28 percent of workers without paid sick days reported sending a sick child to school or child care, compared with 14 percent of workers with paid sick days.[16] A 2012 study analyzing the 2008 National Study of the Changing Workforce (NSCW) and controlling for worker and job characteristics finds that having paid sick days is associated with reduced work-family conflict, which lessens difficulties parents face in taking time off from work to care for a sick child.[17]

Paid Sick Days Bring Economic Benefits for Workers, Families, and Communities

- **Improved employment and earnings stability:** When incomes are not interrupted by unpaid leave, families experience greater financial stability and economic well-being. According to a 2010 poll, 16 percent of workers surveyed reported losing a job for missing work when they were sick or to care for an ill family member.[18] Research has shown that having paid sick days reduces the likelihood of a job separation by at least 25 percent.[19]

- **Improved labor force attachment among caregivers:** Informal caregivers whose work schedules are incompatible with the care needs of their family members may decrease their work hours or even leave the labor force completely.[20] One 2011 Gallup poll found that most caregivers, including parents, reported missing at least one full day of work to fulfill their caregiving duties with an average of 6.6 workdays missed per year.[21] Paid sick days, however, may provide sufficient leave to caregivers to allow them to maintain their desired level of employment while continuing to perform their caregiving work.

- **Savings from reduced utilization of hospital emergency departments and a lower monetary burden on taxpayers:** A 2011 study using the 2008 and 2009 NHIS finds that the annual number of emergency department visits per worker without paid sick days is greater than it is for those with the benefit. Using MEPS data on the cost of emergency department visits, the study estimates that a lack of paid sick days resulted in an estimated 1.3 million preventable emergency department visits every year in the United States in 2008, costing $1.1 billion more than office visits would have. Part of these costs—$500 million—were paid by public insurance programs such as Medicaid.[22]

Research Finds Benefits of Existing Paid Sick Days Laws and Minimal Costs to Employers

Since the implementation of the first paid sick days law in 2007, several studies have evaluated the impacts of the legislation, with a particular emphasis on the effects on employers. These evaluations have largely found that the overall impact on businesses was minimal. Many firms saw benefits from the policy and counted themselves as supporters after implementing it.

- **Minimal costs:** Costs to employers of providing paid sick days have been modest. In Seattle, evaluations found that the cost of providing paid sick leave in 2013 was only

about 0.4 percent of total firm revenue for the year.[23] In Connecticut, nearly half of 228 employers surveyed in 2013, a year and a half after the state's paid sick days law's implementation, reported having no increased overall cost, and 19.1 percent of employers reported an increased cost of less than 2 percent.[24] In San Francisco, the paid sick leave ordinance created additional costs for a relatively small share of employers. Six out of seven employers reported no adverse effects on profitability.[25]

- **Ease of implementation:** Research shows that paid sick days have minimal effect on business operations. Most San Francisco employers reported that implementing the Paid Sick Leave Ordinance was not difficult.[26] Likewise, about two thirds of Seattle employers reported that implementing the Paid Sick and Safe Time Ordinance was not very difficult, and 70 percent expressed support for the policy a year after implementation of the Ordinance.[27] Similarly, a large majority of Connecticut employers surveyed in 2013 indicated that the Paid Sick Leave Law did not burden business operations.[28]

- **Employees use paid sick days judiciously:** Several years after the implementation of San Francisco's paid sick days law, an IWPR survey of 1,194 workers found that employees in San Francisco used fewer than half of the sick days available under the paid sick leave ordinance.[29] Using data from the 2014 NHIS, IWPR found that most workers who do have access to paid sick days do not use any in a given year.[30] In regions that have passed paid sick day laws, surveys suggest that abuse of paid sick days is rare. Among 228 Connecticut employers surveyed by the Center for Economic and Policy Research, 86 percent reported no known cases of abuse more than a year after paid sick days was implemented.[31] A report published by the City of Seattle auditor finds that more than nine in ten Seattle employers surveyed in 2012 had never reprimanded an employee for abusing paid sick days.[32]

- **Sustained job growth and employment:** In contrast to messaging communicated by big business lobbyists prior to the laws' passage, both Seattle and San Francisco saw positive job growth in the period after their laws took effect, and this job growth was much higher than in the surrounding areas for both cities. San Francisco's growth in employment exceeded the average employment growth of surrounding counties after the paid sick days law was passed.[33] In the 10 months after the adoption of Seattle's Paid Sick and Safe Time Ordinance, King County (where Seattle is located) did not see negative economic impacts; rather, the county saw sustained job growth and reduced unemployment rates.[34]

- **Improved employee morale, motivation, loyalty, and productivity**: Over a quarter of Connecticut employers reported improved morale, 12.5 percent reported increased employee motivation, 10.6 percent reported increased loyalty, and 14.9 percent reported increased productivity after implementation of the state's paid sick days law.[35]

- **Improved work life balance for employees:** A 2010 IWPR survey found that one out of four San Francisco employees reported that paid sick days enabled them to better care for their own and their families' health needs. In addition, nearly 30 percent reported that their employers were more supportive when they needed to use their leave than they were

prior to the law's passage. More than half of all San Francisco workers reported at least one benefit as a result of the ordinance.[36]

- **Reduced flu contagion in locations with paid sick day laws:** One recent study used Google Flu data from 2003 to 2015 to show that influenza-like infection rates decrease significantly when workers gain access to paid sick days. By comparing the rates of influenza-like illnesses in regions with paid sick days policies—including the District of Columbia, Connecticut, California, Massachusetts, and Oregon—with those lacking such laws, the study finds that infection rates decrease by about 10 percent when employees without coverage obtain paid sick days.[37]

Conclusion

Literature spanning the fields of public health, economics, sociology, medicine, social work, and public policy converge to reflect the health, employment, and economic benefits of paid sick days. Research suggests that more widespread implementation of paid sick days policies would have a substantial positive impact on the well-being of children, families, and communities across the United States.

ELECTIONS DIVISION
(573) 751-2301

November 17, 2016

RECEIVED
NOV 17 2016
STATE AUDITORS OFFICE

The Honorable Nicole Galloway
State Auditor
State Capitol Building
Jefferson City, MO 65101

RE: Petition approval request from Richard Von Glahn regarding a proposed statutory amendment to Chapter 285, version 8 (2018-035)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Richard Von Glahn on November 16, 2016.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

Jason Kander

Be it enacted by the people of the State of Missouri:

Fifteen new sections to be known as sections 285.600, 285.603, 285.606, 285.609, 285.612, 285.615, 285.618, 285.621, 285.624, 285.627, 285.630, 285.633, 285.636, 285.639, and 285.642 are enacted to read as follows:

285.600. As used in sections 285.600 through 285.642:

(1) "Department", Department of Labor and Industrial Relations.

(2) "Director", Director of the Department of Labor and Industrial Relations.

(3) "Earned paid sick time", time that is compensated at the same hourly rate and with the same benefits, including health care benefits, as the employee normally earns during hours worked and is provided by an employer to an employee for the purposes described in section 285.606, but in no case shall this hourly amount be less than that provided under section 290.502.

(4) "Employee", any individual employed in this state by an employer, but does not include:

(A) Any individual engaged in the activities of an educational, charitable, religious, or nonprofit organization where the employer-employee relationship does not, in fact, exist or where the services rendered to the organization are on a voluntary basis;

(B) Any individual standing in loco parentis to foster children in their care;

(C) Any individual employed for less than four months in any year in a resident or day camp for children or youth, or any individual employed by an educational conference center operated by an educational, charitable or not-for-profit organization;

(D) Any individual engaged in the activities of an educational organization where employment by the organization is in lieu of the requirement that the individual pay the cost of tuition, housing or other educational fees of the organization or where earnings of the individual employed by the organization are credited toward the payment of the cost of tuition, housing or other educational fees of the organization;

(E) Any individual employed on or about a private residence on an occasional basis for six hours or less on each occasion;

(F) Any individual employed on a casual basis to provide baby-sitting services;

(G) Any individual employed by an employer subject to the provisions of part A of subtitle IV of title 49, United States Code, 49 U.S.C. §§ 10101 et seq.;

(H) Any individual employed on a casual or intermittent basis as a golf caddy, newsboy, or in a similar occupation;

(I) Any individual who is employed in any government position defined in 29 U.S.C. §§ 203(e)(2)(C)(i)-(ii); or

(J) Any individual who is an offender, as defined in section 217.010, who is incarcerated in any correctional facility operated by the department of corrections, including offenders who provide labor or services on the grounds of such correctional facility pursuant to section 217.550.

(5) "Employer", any person acting directly or indirectly in the interest of an employer in relation to an employee; provided, however, that for the purposes of sections 285.600 through 285.642, "employer" does not include the United States Government, the state, or a political subdivision of the state, including a department, agency, officer, bureau, division, board, commission, or instrumentality of the state, or a city, county, town, village, school district, or other political subdivision of the state.

(6) "Family member", any of the following individuals:

(A) Regardless of age, a biological, adopted or foster child, stepchild or legal ward, a child of a domestic partner, a child to whom the employee stands in loco parentis, or an individual to whom the employee stood in loco parentis when the individual was a minor;

(B) A biological, foster, stepparent or adoptive parent or legal guardian of an employee or an employee's spouse or domestic partner or an individual who stood in loco parentis when the employee or employee's spouse or domestic partner was a minor child;

(C) An individual to whom the employee is legally married under the laws of any state, or a domestic partner who is registered as such under the laws of a political subdivision;

(D) A grandparent, grandchild, or sibling (whether of a biological, foster, adoptive or step relationship) of the employee or the employee's spouse or domestic partner; or

(E) A member of the employee's household.

(7) "Health care professional," any individual licensed under Federal or State law to provide medical or emergency services, including but not limited to doctors, nurses, certified nurse midwives, and emergency room personnel.

(8) "Person", any individual, partnership, association, corporation, business, business trust, legal representative, or any organized group of persons.

(9) "Retaliatory personnel action", denial of any right guaranteed under sections 285.600 through 285.642, or any threat, discharge, suspension, demotion, reduction of hours, or any other adverse action against an employee for the exercise of any right guaranteed herein. "Retaliatory personnel action" shall also include interference with or punishment for in any manner participating in or assisting an investigation, proceeding, or hearing under sections 285.600 through 285.642.

(10) "Year", a regular and consecutive twelve-month period as determined by the employer; except that for the purposes of section 285.615 and section 285.627, "year" shall mean a calendar year.

285.603. 1. Employees of an employer with fifteen or more employees shall accrue a minimum of one hour of earned paid sick time for every thirty hours worked, but such employees shall not be entitled to accrue or use more than fifty-six hours of earned paid sick time per year, unless the employer selects a higher limit.

2. Employees of an employer with fewer than fifteen employees shall accrue a minimum of one hour of earned paid sick time for every thirty hours worked, but such employees shall not be entitled to accrue or use more than forty hours of earned paid sick time per year, unless the employer selects a higher limit.

3. In determining the number of employees performing work for an employer for compensation during a given week, all employees performing work for compensation on a full-time, part-time, or temporary basis shall be counted. In situations in which the number of employees who work for an employer for compensation per week fluctuates above and below fifteen employees per week over the course of the year, an employer is required to provide earned paid sick time pursuant to subsection (1) of this section if it maintained fifteen or more employees on the payroll for some portion of a day in each of twenty different calendar weeks, whether or not the weeks were consecutive, in either the current or the preceding year (irrespective of whether the same individuals were in employment in each day).

4. All employees shall accrue earned paid sick time as follows:

(A) Earned paid sick time as provided in this section shall begin to accrue at the commencement of employment or ninety days after this law goes into effect, whichever is later. An employer may provide all paid sick time that an employee is expected to accrue in a year at the beginning of the year.

(B) An employee may use earned paid sick time as it is accrued, except that an employer may require an employee hired more than ninety days after this law goes into effect to wait until the ninetieth calendar day after commencing employment before using accrued earned paid sick time, unless otherwise permitted by the employer.

(C) Employees who are exempt from overtime requirements under 29 U.S.C. § 213(a)(1) of the Federal Fair Labor Standards Act will be assumed to work forty hours in each work week for purposes of earned paid sick time accrual unless their normal work week is less than forty hours, in which case earned paid sick time accrues based upon that normal work week.

(D) Earned paid sick time shall be carried over to the following year, subject to the limitations on usage in subsections (1) and (2) of this section. Alternatively, in lieu of carryover of unused earned paid sick time from one year to the next, an employer may pay an employee for unused earned paid sick time at the end of a year and provide the employee with an amount of paid sick time that meets or exceeds the requirements of sections 285.600 through 285.642 that is available for the employee's immediate use at the beginning of the subsequent year.

(E) If an employee is transferred to a separate division, entity, or location, but remains employed by the same employer, the employee is entitled to all earned paid sick time accrued at the prior division, entity, or location and is entitled to use all earned paid sick time as provided in this section. When there is a separation from employment and the employee is rehired within nine months of separation by the same employer, previously accrued earned paid sick time that had not been used shall be reinstated. Further, the employee shall be entitled to use accrued earned paid sick time and accrue additional earned paid sick time at the re-commencement of employment.

(F) When a different employer succeeds or takes the place of an existing employer, all employees of the original employer who remain employed by the successor employer are entitled to all earned paid sick time they accrued when employed by the original employer, and are entitled to use earned paid sick time previously accrued.

(G) At its discretion, an employer may loan earned paid sick time to an employee in advance of accrual by such employee.

5. Any employer with a paid leave policy, such as a paid time off policy, who makes available an amount of paid leave sufficient to meet the accrual requirements of this section that may be used for the same purposes and under the same conditions as earned paid sick time under sections 285.600 through 285.642 is not required to provide additional paid sick time.

6. Nothing in this section shall be construed as requiring financial or other reimbursement to an employee from an employer upon the employee's termination, resignation, retirement, or other separation from employment for accrued earned paid sick time that has not been used.

285.606. 1. Earned paid sick time shall be provided to an employee by an employer for:

(A) An employee's mental or physical illness, injury, or health condition; an employee's need for medical diagnosis, care, or treatment of a mental or physical illness, injury, or health condition; an employee's need for preventive medical care;

(B) Care of a family member with a mental or physical illness, injury, or health condition; care of a family member who needs medical diagnosis, care, or treatment of a mental or physical illness, injury, or health condition; care of a family member who needs preventive medical care; or

(C) Closure of the employee's place of business by order of a public official due to a public health emergency, or an employee's need to care for a child whose school or place of care has been closed by order of a public official due to a public health emergency, or care for oneself or a family member when it has been

determined by the health authorities having jurisdiction or by a health care provider that the employee's or family member's presence in the community may jeopardize the health of others because of his or her exposure to a communicable disease, whether or not the employee or family member has actually contracted the communicable disease.

2. Earned paid sick time shall be provided upon the request of an employee. Such request may be made orally, in writing, by electronic means or by any other means acceptable to the employer. When possible, the request shall include the expected duration of the absence.

3. When the use of earned paid sick time is foreseeable, the employee shall make a good faith effort to provide notice of the need for such time to the employer in advance of the use of the earned paid sick time and shall make a reasonable effort to schedule the use of earned paid sick time in a manner that does not unduly disrupt the operations of the employer. Where such need is not foreseeable, an employer may require an employee to provide notice of the need for the use of earned paid sick time as soon as practicable.

4. An employer that requires notice of the need to use earned paid sick time where the need is not foreseeable shall provide a written policy that contains procedures for the employee to provide notice. An employer that has not provided to the employee a copy of its written policy for providing such notice shall not deny earned paid sick time to the employee based on non-compliance with such a policy.

5. An employer may not require, as a condition of an employee's taking earned paid sick time, that the employee search for or find a replacement worker to cover the hours during which the employee is using earned paid sick time.

6. Earned paid sick time may be used in the smaller of hourly increments or the smallest increment that the employer's payroll system uses to account for absences or use of other time.

7. For earned paid sick time of three or more consecutive work days, an employer may require reasonable documentation that the earned paid sick time has been used for a purpose covered by subsection (1) of this section. Documentation signed by a heath care professional indicating that earned paid sick time is necessary shall be considered reasonable documentation for purposes of this section. An employer may not require that the documentation explain the nature of the illness unless otherwise required by law.

285.609. 1. It shall be unlawful for an employer or any other person to interfere with, restrain, or deny the exercise of, or the attempt to exercise, any right protected under sections 285.600 through 285.642.

2. An employer shall not take retaliatory personnel action or discriminate against an employee or former employee because he or she has exercised rights protected under sections 285.600 through 285.642. Such rights include, but are not limited to, the right to request or use earned paid sick time pursuant to sections 285.600 through 285.642; the right to file a complaint or inform any person about any employer's alleged violation of sections 285.600 through 285.642; the right to participate in an investigation, hearing, or proceeding or cooperate with or assist the Department in any investigations of alleged violations of sections 285.600 through 285.642; and the right to inform any person of his or her potential rights under sections 285.600 through 285.642.

3. It shall be unlawful for an employer's absence control policy to count earned paid sick time taken under sections 285.600 through 285.642 as an absence that may lead to or result in discipline, discharge, demotion, suspension, or any other adverse action.

4. Protections of this section shall apply to any individual who mistakenly but in good faith alleges violations of sections 285.600 through 285.642.

285.612. 1. Employers shall give employees written notice of the following at the commencement of employment or by ninety days after this law goes into effect, whichever is later: employees are entitled to earned paid sick time and the amount of earned paid sick time, the terms of its use guaranteed under sections 285.600 through 285.642, that retaliatory personnel action against employees who request or use earned paid sick time is prohibited, that each employee has the right to bring a civil action if earned paid sick time as required by sections 285.600 through 285.642 is denied by the employer or the employee is subjected to retaliatory personnel action for requesting or taking earned paid sick time, and, if applicable, the contact information for the Department where questions about rights and responsibilities under sections 285.600 through 285.642 may be answered.

2. Employers shall display a poster that contains the information required in subsection (1) of this section in a conspicuous and accessible place in each establishment where such employees are employed, provided that such poster has been provided by the Department.

3. The Department may create and make available to employers, model notices and posters that contain the information required under subsection (1) of this section for employers' use in complying with subsections (1) and (2) of this section. Nothing in this subsection shall be interpreted or applied, either expressly or through practical necessity, to require the Department to create or make available notices or posters if it requires the appropriation of funds to cover the costs of such acts.

285.615. 1. Employers shall retain records documenting hours worked by employees and earned paid sick time taken by employees, for a period of not less than three years, and shall allow the Department access to such records, with appropriate notice and at a mutually agreeable time, to monitor compliance with the requirements of sections 285.600 through 285.642.

2. To the extent permitted by law, the Director may inspect such records, and the records shall be open for inspection by the Director by appointment. Where the records required under this section are kept outside the state, the records shall be made available to the Director upon demand. Every such employer shall furnish to the Director on demand a sworn statement of time records and information upon forms prescribed or approved by the Director. All the records and information obtained by the Department are confidential and shall be disclosed only on order of a court of competent jurisdiction.

3. Nothing in this section shall be interpreted or applied, either expressly or through practical necessity, to require the Department or Director to access or inspect records or to create forms relating to the inspection of records if it requires the appropriation of funds to cover the costs of such acts.

285.618. 1. The Department may, in accordance with chapter 536, promulgate rules to implement the provisions of sections 285.600 through 285.642. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2018, shall be invalid and void.

2. Nothing in this section shall be interpreted or applied, either expressly or through practical necessity, to require the promulgation or adoption of rules if it requires the appropriation of funds to cover the costs of such acts.

285.621. 1. To the extent permitted by law, the Department may investigate and ascertain compliance with sections 285.600 through 285.642, establish and implement a system to receive complaints regarding non-compliance with sections 285.600 through 285.642 and to investigate and attempt to resolve complaints through mediation between the complainant and the subject of the complaint, and establish additional means of enforcement to the extent permitted by the law.

2. The Department may develop and implement an outreach program to inform employees, parents, and persons who are under the care of a health care provider about the availability of earned paid sick time under sections 285.600 through 285.642. This program may include the distribution of notices and other written materials to child care and elder care providers, domestic violence shelters, schools, hospitals, community health centers and other health care providers in Missouri.

3. Nothing in this section shall be interpreted or applied, either expressly or through practical necessity, to require the Department to conduct investigations and ascertain compliance with sections 285.600 through 285.642, to establish and implement a system to receive or resolve complaints, to establish additional means of enforcement, or to conduct outreach and education, including the creation of notices and other written materials, concerning sections 285.600 through 285.642, if it requires the appropriation of funds to cover the costs of such acts.

285.624. 1. To the extent permitted by law, any employer who violates or fails to comply with any of the provisions and requirements of sections 285.600 through 285.642 shall be guilty of a class C misdemeanor and shall be punished for each violation thereof by a fine, up to the maximum allowed under state law for violation of a class C misdemeanor; provided, however, that an employer who willfully violates the notice and posting requirements of section 285.612 shall be guilty of an infraction and shall be punished for each violation thereof by a fine, up to the maximum allowed under state law for an infraction.

2. For purposes of this section, each day of violation or failure to comply and each employee affected shall constitute a separate offense.

285.627. 1. Any individual who claims to have been aggrieved by a failure of an employer to comply with any portion of sections 285.600 through 285.642, including but not limited to the failure to provide earned paid sick time or to allow employees to use such time consistent with sections 285.600 through 285.642, or who claims to have suffered a retaliatory personnel action, shall have a right of action and may commence a civil action in the appropriate court of jurisdiction within three years of the accrual of the cause of action, to obtain appropriate relief with respect to such unlawful violation.

2. In a civil action under this section, if the court finds a violation has occurred, the court may grant as relief, as it deems appropriate and to the extent permitted by law, any permanent or temporary injunction, the full amount of any unpaid earned sick time plus any actual damages suffered as the result of the employer's violation of sections 285.600 through 285.642, an additional amount equal to twice any unpaid earned sick time as liquidated damages, costs, and reasonable attorney's fees as may be allowed by the court, and other legal or equitable relief as may be appropriate to remedy the violation, including, without limitation, reinstatement to employment and back pay. Any agreement between the employee and the employer to waive the protections of sections 285.600 through 285.642, with the exception of section 285.633, shall be no defense to the action.

285.630. 1. Except as otherwise required by law, an employer may not require disclosure of details relating to an employee's or an employee's family member's health information as a condition of providing earned paid sick time under sections 285.600 through 285.642.

2. Unless as otherwise required by law, any health information possessed by an employer regarding an employee or employee's family member must:

(A) be maintained on a separate form and in a separate file from other personnel information;

(B) be treated as confidential medical records; and

(C) not be disclosed except to the affected employee or with the express written permission of the affected employee.

285.633. 1. All or any portion of the earned paid sick time requirements of sections 285.600 through 285.642 shall not apply to employees covered by a valid collective bargaining agreement, to the extent that such requirements are expressly waived in the collective bargaining agreement in clear and unambiguous terms.

2. Notwithstanding subsection (1) of this section, with respect to employees covered by a valid collective bargaining agreement in effect on the effective date of sections 285.600 through 285.642, no provisions of sections 285.600 through 285.642 shall apply until the stated expiration date in the collective bargaining agreement.

3. Nothing in sections 285.600 through 285.642 shall be deemed to interfere, impede, or otherwise diminish the right of employees to bargain collectively through representatives of their own choosing.

285.636. 1. Nothing in sections 285.600 through 285.642 shall be construed to discourage or prohibit an employer from the adoption or retention of an earned paid sick time policy more generous than the one required herein.

2. Nothing in sections 285.600 through 285.642 shall be construed as diminishing the obligation of an employer to comply with any contract, collective bargaining agreement, employment benefit plan, or other agreement providing more generous paid sick time to an employee than required herein. Nothing in sections 285.600 through 285.642 shall be construed as diminishing the rights of public employees regarding paid sick time or use of paid sick time as provided in the laws of Missouri pertaining to public employees.

285.639. 1. Sections 285.600 through 285.642 provide minimum requirements pertaining to earned paid sick time and shall not be construed to preempt, limit, or otherwise affect the applicability of any other law, regulation, requirement, policy, or standard that provides for greater accrual or use by employees of earned paid sick time or that extends other protections to employees.

2. Nothing in sections 285.600 through 285.642 shall be interpreted or applied to create a power or obligation contrary to any federal law, rule, or regulation.

285.642. Except as detailed in section 285.618, all of the provisions of sections 285.600 through 285.642 are severable, and if any provision, including any section, subsection, subdivision, paragraph, sentence, or clause, or the application thereof to any person or circumstance, is found by a court of competent jurisdiction to be invalid, unconstitutional, or unconstitutionally enacted, such decision shall not affect other provisions or applications of sections 285.600 through 285.642 that can be given effect without the invalid, unconstitutional, or unconstitutionally enacted provision or application, and to this end the provisions of sections 285.600 through 285.642 are declared severable.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-035)

Subject

Initiative petition from Richard Von Glahn regarding a proposed amendment to Chapter 285 of the Revised Statutes of Missouri. (Received November 17, 2016)

Date

December 7, 2016

Description

This proposal would amend Chapter 285 of the Revised Statutes of Missouri.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** the **Missouri Lottery,** the **Public Service Commission,** the **State Tax Commission,** the **Missouri Technology Corporation,** the **Missouri Life Sciences Research Board,** the **Missouri Veterans Commission,** the **Missouri Ethics Commission,** the **Missouri Office of Prosecution Services,** the **Kansas City Boards of Police Commissioners,** the **St. Louis City Board of Police Commissioners,** the **St. Louis County Board of Elections,** the **Board of Election Commissioners City of St.**

Louis, the **Kansas City Board of Election Commissioners,** the **Platte County Board of Elections,** the **Jackson County Election Board,** the **Clay County Board of Election Commissioners,** the **Lieutenant Governor's office,** the **Children's Trust Fund,** the **Missouri Joint Municipal Electric Utility Commission,** the **State Auditor's office, University of Central Missouri, Harris-Stowe State University, Lincoln University, Missouri Southern State University, Missouri Western State University, Northwest Missouri State University, Southeast Missouri State University,** and **Truman State University**.

Lara Granich and Missouri Jobs with Justice Voter Action provided information as proponents of the proposal to the State Auditor's office.

Officials from the **Attorney General's office** indicated various provisions of the proposal authorize their department to promulgate rules, establish mediation procedures "and additional means of enforcement… ." They assume that their office may provide some review of proposals, but assume that any potential costs arising from this proposal can be absorbed with existing resources. They may seek additional appropriations if there is an increased review of rules in later years.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated they will be deferring to the Office of Administration and the Department of Labor and Industrial Relations regarding any fiscal impact this initiative petition might have.

Officials from the **Department of Higher Education** indicated the state, including departments, are exempt from the definition of "employer," so this initiative petition would not have a fiscal impact on their department.

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition does not apply to public employers with respect to its employees. Therefore, this petition, if passed, would have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated there is no fiscal impact to their department as a result of this initiative petition. Section 285.600 (5) indicates "for the purposes of sections 285.600 through 285.642 "employer" does not include the United States Government, the state, …., including a department, agency, …."

Officials from the **Department of Corrections** indicated they defer to the Office of Administration.

Officials from the **Department of Labor and Industrial Relations** indicated they expect no change in revenues or expenses in fiscal years 2017, 2018, and 2019.

The petition, if passed by voters, would require businesses with 15 or more employees to provide paid sick time. It also would allow their department to educate employers, take complaints, and perform investigations of violations of the new law.

The long-range fiscal implications are the same as those of the estimate period.

Under the new language, they may educate employers and employees, promulgate rules, take complaints, and conduct investigations of alleged violations of the new provisions. They believe the education, registration of complaints, and investigations would be conducted in a manner similar to those conducted under the Minimum Wage program. Using employer information from the United States Census Bureau for employers with more than ten employees, they estimate that it would receive complaints from 1.5% of the estimated 40,886 businesses with 10 or more employees, or 613 complaints annually. (The Census Bureau does not break employers at the 15 or more level.) To investigate these 613 complaints, they would require 3.50 Wage & Hour Investigator I/IIs. In FY 2016, 578 complaints were closed by 3.50 Investigators, averaging 165 per FTE. Using this calculation, they estimate it would need 3.50 FTE and the standard per FTE expenses and equipment to complete these activities.

However, Sections 285.612, 285.615, 285.618, and 285.621 expressly state that they are not required to take on the new duties it is authorized to perform under this proposal if doing so will require an appropriation to cover the costs of performing the duties. Because these duties are optional and are not required of their department, if there is no appropriation made to cover the cost, they estimate no mandated fiscal impact for this proposal.

Officials from the **Department of Revenue** indicated they defer this fiscal note to the Office of Administration for a statewide response.

Officials from the **Department of Public Safety** indicated they will defer to the Office of Administration response to this petition.

Officials from the **Department of Social Services** indicated they will defer to the Office of Administration response to this petition. They indicated no fiscal impact on their department.

Officials from the **Governor's Office** indicated there should be no fiscal impact to their office.

Officials from the **House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated no fiscal impact.

Officials from the **Office of Administration** indicated:

This initiative petition adds 15 new sections to Chapter 285 related to sick leave.

Under this proposal, employers would be required to provide paid sick leave to employees. The amount would be dependent upon the number of employees. It does not include employees covered under a valid collective bargaining agreement and it provides employees with an avenue of recourse if the employee claims to be aggrieved.

The State of Missouri is excluded from the provisions of this proposal, therefore there would be no statewide impact related to this proposal other than potentially higher costs for services purchased by the state. However, the Department of Labor and Industrial Relations (DOLIR) will be impacted. Budget and Planning defers to the DOLIR for the specific impact to that agency.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated no fiscal impact on their office.

Officials from the **Secretary of State's office** indicated their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any impact on their office, as they are an independent department within state government and by definition state employees are exempt from this proposed legislation.

Officials from the **State Treasurer's office** indicated this would have no fiscal impact on their office.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from the **City of Columbia** indicated there is no impact on their city.

Officials from the **City of Kansas City** indicated no direct fiscal impact is anticipated if this proposal is adopted because cities are not employers. An indirect cost to cities may arise through increased labor costs of those vendors contracting with the city.

Officials from the **City of Raymore** indicated no fiscal impact.

Officials from the **City of St. Joseph** indicated this initiative petition could have a fiscal impact on local government.

Officials from **University of Missouri** indicated they have reviewed this proposed legislation and have determined that for benefit eligible employees (defined as working .75 or >) that it does not appear that the proposed legislation as written would create a significant fiscal impact to their university.

Officials from the **Missouri Lottery** indicated no fiscal impact to their agency.

Officials from the **Public Service Commission** indicated no fiscal impact on their agency.

Officials from the **State Tax Commission** indicated this initiative petition pertaining to sick leave in Chapter 285 does not directly impact their office. As a state agency this matter is under the direction of Office of Administration, Division of Personnel.

Officials from the **Missouri Veterans Commission** indicated no fiscal impact to their agency.

Officials from the **Missouri Office of Prosecution Services** indicated no measurable fiscal impact to their office.

Officials from the **Kansas City Boards of Election Commissioners** indicated there is no fiscal impact with amendments to Chapter 285, Versions 1 -12, since the State is not responsible for costs associated with the November 2018 election.

Officials from the **Platte County Board of Elections** indicated the proposed initiative would have no fiscal impact on their office.

Officials from the **Jackson County Election Board** indicated no fiscal impact on their office.

Officials from the **Lieutenant Governor's office** indicated it is anticipated that this initiative petition will impose little to no costs or savings on their office.

Officials from the **Children's Trust Fund** indicated they are part of the Office of Administration and thus will be covered by the Office of Administration's official response. They will not be responding separately.

Officials from the **Missouri Joint Municipal Electric Utility Commission** indicated:

The Missouri Association of Municipal Utilities represents approximately 120 cities in Missouri providing utility services to their customer/owners. They do not represent cities in their general business operation. That representation is undertaken by the Missouri Municipal League and its executive director Dan Ross.

Based on a review of each of the 12 versions it appears that there would be no direct cost to any of their cities since the framers of the amendment specifically excluded cities from the definition of employers and city employees from coverage of the proposed changes.

However, it is possible that cities may experience some increases in the cost of goods and services consumed in the regular course of business as a result of higher labor input costs. It is impossible to accurately predict those increases other than to make you aware of the potential.

Officials from the **State Auditor's office** indicated there is no fiscal impact for their office.

Officials from **University of Central Missouri** indicated if they are included in the definition of "employer" that would be impacted by this legislation, they would have an additional cost of roughly $340,000. In fiscal year 2016, part-time employees worked nearly 679,000 hours. If each 30 hours resulted in one sick time hour, that would be 22,634 hours. At an average rate of $15/hour, that would have a fiscal impact of $340,000.

If the definition of employer is interpreted to exclude UCM because of its status as a state agency, then there would be no fiscal impact.

Officials from **Missouri State University** indicated no fiscal impact on their university.

Officials from **Missouri Southern State University** indicated they do not anticipate any fiscal impact from this initiative petition.

Lara Granich and Missouri Jobs with Justice Voter Action provided the following information as proponents of this initiative petition.

Re: Fiscal Impact Analysis of Earned Sick Time Petitions
Petitions numbered by MO SOS at 2018-28 to 2018-39

This letter is from Lara Granich and Missouri Jobs with Justice Voter Action, proponents of the above-referenced initiative petitions. Pursuant to RSMo. Section 116.175, we write to submit the following information to assist your office in its analysis of the fiscal impact of the above-mentioned twelve proposed Earned Sick Time Petitions.

This analysis uses data collected by the U.S. Bureau of Labor Statistics, the Centers for Disease Control and Prevention, and the U.S. Census Bureau to evaluate the impact of earned sick time laws in Missouri. This analysis uses findings from previous peer-reviewed research to estimate cost-savings associated with the proposed policies through reduced turnover, reduced spread of contagious disease in the workplace, prevention of productivity losses from employees working while sick, minimized nursing-home stays, and reduced norovirus outbreaks in nursing homes. We also address certain claims that have been made by opponents in the past.

I. Estimate of Number of Workers Affected Statewide

According to the Institute for Women's Policy Research, an estimated 1,002,116 private sector workers in Missouri, or 45.9 percent of the workforce, cannot earn a single paid sick day to use to recover from common illnesses or seek medical care.[1]

II. Direct Costs to State

As these proposed initiatives exclude public workers employed by the state or by local governments, the initiatives are not expected to have any direct impact on state and local payroll costs. Enforcement would be handled by existing staff at the Department of Labor.

III. Economic Literature on the Impact of Earned Sick Time on Businesses

This analysis quantifies only a subset of potential benefits, predicting a net economic benefit from both of the proposed laws. Likely additional benefits from paid sick days not quantified in this analysis include: reduced health care spending due to reduced public contagion and more timely and regular preventive care and treatment; improved economic security among families who receive pay on sick days and are less likely to be fired or disciplined for taking sick time; and improved school outcomes and reduced contagion in schools, when parents can avoid sending sick children to school or child care.

Millions of workers have gained access to paid sick days in recent years through new laws in five states, 23 cities, and one county across the country. There is no evidence of business closures/layoffs as a result of earned sick time laws. Both Seattle and San Francisco saw positive job growth in the period after their laws took effect, and this job growth was much higher than in the surrounding areas for both cities. San Francisco's growth in employment exceeded the average employment growth of surrounding counties after the paid sick days law was passed. In the 10 months after the adoption of Seattle's Paid Sick and Safe Time Ordinance, King County (where Seattle is located) did not see negative economic impacts; rather, the county saw sustained job growth and reduced unemployment rates. 2

The Washington D.C. Auditor reported "that the Accrued Sick and Safe Leave Act did not have the economic impact of encouraging business owners to move a business from the District nor did the Act have the economic impact of discouraging business owners to locate a business in the District of Columbia."3 New York City reported that "New York City's economy has thrived since the enactment of PSL [paid sick leave]. Between January 2014 and January 2015, a period that covers the law's implementation, economic indicators were a cause for celebration, not concern as many had predicted." 4

Summary of Benefits Associated With Missouri's Proposed Earned Sick Time Law

Benefits	Firms with <50 Employees			Firms with 50+ Employees		
	Dollars	Average per-worker savings		Dollars	Average per-worker costs/savings	
BENEFITS						
Lower Turnover	$32,718,875			$146,675,016		
Reduced Flu Contagion in the Workplace	$1,334,044			$5,980,370		
		Weekly	*Hourly*		*Weekly*	*Hourly*
Employers' Savings	**$34,052,920**	**$6.97**	**$0.21**	**$152,655,386**	**$9.44**	**$0.26**
Reduced Short-Term Nursing Home Stays	$2,415,006			$8,165,162		
Reduced Norovirus in Nursing Homes	$21,692			$93,129		
Reduced Flu Contagion	$233,249			$771,691		
Reduced Emergency Department Visits	$3,512,104			$11,619,581		
		Weekly	*Hourly*		*Weekly*	*Hourly*
Community Savings	**$6,182,052**	**$1.26**	**$0.04**	**$20,649,564**	**$1.28**	**$0.03**

Note: "Small" firms are defined in the proposed laws at firms employing fewer than 15 employees and "Large" firms are defined as firms employing 15 or more employees.

Source: Institute for Women's Policy Research Analysis of the 2014 American Community Survey (ACS), the 2016 National Compensation Survey (NCS), the 2013-2016 Current Population Survey Annual Social and Economic Supplement (CPS ASEC), the 2010 Current Population Survey Displaced Worker, Employee Tenure, and Occupational Mobility Supplement File, and the 2014-2015 National Health Interview Survey (NHIS).

Note on Methodology

The estimates are based on analyses of the following data sets: the 2013–2016 Current Population Survey Annual Social and Economic Supplement (CPS ASEC), the 2014-2015 National Health Interview Survey (NHIS), the 2014 American Community Survey (ACS), the 2016 National Compensation Survey and the 2014 Medical Expenditure Panel Survey along with findings from previous peer-reviewed research.

This analysis was limited to only private sector workers as the proposed legislation only covers such workers. The proposed legislation does include some small exemptions for certain employees which this analysis does not account for. Excluding such workers would result in minor reductions in both the costs and benefits estimated, but general trends would remain the same. To learn more about the methodology and sources please see "Valuing Good Health in Maryland: The Costs and Benefits of Earned Sick Days"[5]

We hope that this information is useful to your office as your prepare your analyses of the petitions.

Respectfully submitted,
Lara Granich
Missouri Jobs with Justice Voter Action

Paid Sick Days Benefit Employers, Workers, and the Economy

Jessica Milli, PhD., Jenny Xia, and Jisun Min

Millions of workers have gained access to paid sick days in recent years through new laws in five states, 23 cities, and one county across the country.[1] Yet millions more still would not be paid if they need to stay at home when they are sick or need to care for a family member who is ill. As of 2014, 51 million workers lacked access to paid sick days.[2]

Research has documented many benefits of paid sick days policies for workers, businesses, and communities as a whole. These benefits would multiply substantially if more workers gained access to paid sick days. This briefing paper summarizes research on the benefits of paid sick days and the effects of paid sick days policies in places that have them.

Employers Benefit from Paid Sick Days

- **Reduced contagion in the workplace:** A 2010 survey conducted by the National Opinion Research Center found that employees without access to paid sick days are 1.5 times more likely than those with access to go to work with a contagious illness (55 percent compared with 37 percent).[3] Such "presenteeism" has serious public health consequences including flu contagion. A 2010 analysis of labor force and Centers for Disease Control data estimated that more than one in four private sector employees worked while ill with H1N1 during the 2009 H1N1 pandemic, resulting in the estimated infection of 7 million co-workers with H1N1. Work absences from illness dropped more precipitously among public sector workers than among private sector workers during the decline of the pandemic. Because employees in the public sector have greater access to paid sick days, the finding suggests that paid sick days played a role in slowing contagion and potentially in speeding recovery.[4] A 2013 study employed a model simulating influenza contagion to estimate reductions in contagion rates under a universal paid sick days policy. Using data from the American Community Survey, LandScan USA, and the U.S. Census, the study estimated that providing paid sick days would reduce workplace influenza infection in the United States by about 6 percent.[5]

- **Improved productivity:** When workers come to work sick, their productivity and performance suffer. Estimates of productivity losses vary across studies. A 1997 study polling 332 workers who had influenza-like illnesses found that workers on average reported being 46 percent less effective while ill at work.[6] A 2003 study based on interviews with more than 28,000 workers reported that on average, workers lose 1.32 hours per week of productive time due to personal health related reasons.[7] Since workers

with access to paid sick days are less likely to come to work sick and infect their co-workers,[8] paid sick days can prevent further productivity losses resulting from illness and contagion in the workplace.

- **Decreased workplace injuries:** Working while sick also puts employees at greater risk of injury on the job. A 2012 study using the 2005 through 2008 National Health Interview Survey (NHIS) found that after controlling for factors like survey year, occupational sector, firm size, region, and the availability of paid sick leave, workers with access to paid sick days are 28 percent less likely to be injured on the job than workers without this benefit.[9]

- **Decreased employee turnover:** A 2012 analysis of data collected between 2004 and 2006 through the Medical Expenditure Panel Survey (MEPS) finds that the likelihood of job separation decreases by about 25 percent when a worker has access to paid sick days, even after controlling for potential confounding factors such as workers' educational attainment, earnings, and race/ethnicity.[10] As employee turnover typically costs an employer between 10 and 30 percent of an employee's annual salary,[11] a reduction in turnover can result in significant reductions in employer costs.

Paid Sick Days Improve Public Health

- **Increased use of preventive care:** Since paid sick days can be used for doctor visits, workers with paid sick days are more likely to seek preventive care and to be screened for diseases such as cancer, which can lead to early detection and treatment. A 2012 study using 2008 National Health Interview Survey (NHIS) data finds that after controlling for sociodemographic and health-care-related factors, workers with paid sick days are significantly more likely to have had mammograms, Pap tests, and endoscopy, and to have seen a doctor during the previous year than those without the benefit.[12]

- **More timely treatment for illnesses:** Workers without paid sick days are more likely to delay medical care when they or a family member is ill which can lead to a more serious or prolonged illness.[13]A 2016 analysis of the 2013 NHIS—which controlled for demographic and health-related factors like race and ethnicity, occupation, annual family income, and health insurance coverage—indicates that workers without paid sick leave are three times more likely to forgo medical care for themselves, and 1.6 times more likely to forgo medical care for their families, compared with workers who have the benefit.[14] A 2011 analysis of the NHIS found that when they do seek care, workers without paid sick days—regardless of their educational attainment, income, race/ethnicity and other demographic characteristics—are more likely to use an emergency department for care.[15]

- **Improved family health:** Paid sick days may encourage workers to respond to their children's and family members' health needs in a timely manner, thereby improving overall health outcomes for their families. Paid sick days are a primary factor affecting whether a working parent will stay at home with a sick child rather than sending them to school or child care sick. The 2010 National Opinion Research Center Survey found that

28 percent of workers without paid sick days reported sending a sick child to school or child care, compared with 14 percent of workers with paid sick days.[16] A 2012 study analyzing the 2008 National Study of the Changing Workforce (NSCW) and controlling for worker and job characteristics finds that having paid sick days is associated with reduced work-family conflict, which lessens difficulties parents face in taking time off from work to care for a sick child.[17]

Paid Sick Days Bring Economic Benefits for Workers, Families, and Communities

- **Improved employment and earnings stability:** When incomes are not interrupted by unpaid leave, families experience greater financial stability and economic well-being. According to a 2010 poll, 16 percent of workers surveyed reported losing a job for missing work when they were sick or to care for an ill family member.[18] Research has shown that having paid sick days reduces the likelihood of a job separation by at least 25 percent.[19]

- **Improved labor force attachment among caregivers:** Informal caregivers whose work schedules are incompatible with the care needs of their family members may decrease their work hours or even leave the labor force completely.[20] One 2011 Gallup poll found that most caregivers, including parents, reported missing at least one full day of work to fulfill their caregiving duties with an average of 6.6 workdays missed per year.[21] Paid sick days, however, may provide sufficient leave to caregivers to allow them to maintain their desired level of employment while continuing to perform their caregiving work.

- **Savings from reduced utilization of hospital emergency departments and a lower monetary burden on taxpayers:** A 2011 study using the 2008 and 2009 NHIS finds that the annual number of emergency department visits per worker without paid sick days is greater than it is for those with the benefit. Using MEPS data on the cost of emergency department visits, the study estimates that a lack of paid sick days resulted in an estimated 1.3 million preventable emergency department visits every year in the United States in 2008, costing $1.1 billion more than office visits would have. Part of these costs—$500 million—were paid by public insurance programs such as Medicaid.[22]

Research Finds Benefits of Existing Paid Sick Days Laws and Minimal Costs to Employers

Since the implementation of the first paid sick days law in 2007, several studies have evaluated the impacts of the legislation, with a particular emphasis on the effects on employers. These evaluations have largely found that the overall impact on businesses was minimal. Many firms saw benefits from the policy and counted themselves as supporters after implementing it.

- **Minimal costs:** Costs to employers of providing paid sick days have been modest. In Seattle, evaluations found that the cost of providing paid sick leave in 2013 was only

about 0.4 percent of total firm revenue for the year.[23] In Connecticut, nearly half of 228 employers surveyed in 2013, a year and a half after the state's paid sick days law's implementation, reported having no increased overall cost, and 19.1 percent of employers reported an increased cost of less than 2 percent.[24] In San Francisco, the paid sick leave ordinance created additional costs for a relatively small share of employers. Six out of seven employers reported no adverse effects on profitability.[25]

- **Ease of implementation:** Research shows that paid sick days have minimal effect on business operations. Most San Francisco employers reported that implementing the Paid Sick Leave Ordinance was not difficult.[26] Likewise, about two thirds of Seattle employers reported that implementing the Paid Sick and Safe Time Ordinance was not very difficult, and 70 percent expressed support for the policy a year after implementation of the Ordinance.[27] Similarly, a large majority of Connecticut employers surveyed in 2013 indicated that the Paid Sick Leave Law did not burden business operations.[28]

- **Employees use paid sick days judiciously:** Several years after the implementation of San Francisco's paid sick days law, an IWPR survey of 1,194 workers found that employees in San Francisco used fewer than half of the sick days available under the paid sick leave ordinance.[29] Using data from the 2014 NHIS, IWPR found that most workers who do have access to paid sick days do not use any in a given year.[30] In regions that have passed paid sick day laws, surveys suggest that abuse of paid sick days is rare. Among 228 Connecticut employers surveyed by the Center for Economic and Policy Research, 86 percent reported no known cases of abuse more than a year after paid sick days was implemented.[31] A report published by the City of Seattle auditor finds that more than nine in ten Seattle employers surveyed in 2012 had never reprimanded an employee for abusing paid sick days.[32]

- **Sustained job growth and employment:** In contrast to messaging communicated by big business lobbyists prior to the laws' passage, both Seattle and San Francisco saw positive job growth in the period after their laws took effect, and this job growth was much higher than in the surrounding areas for both cities. San Francisco's growth in employment exceeded the average employment growth of surrounding counties after the paid sick days law was passed.[33] In the 10 months after the adoption of Seattle's Paid Sick and Safe Time Ordinance, King County (where Seattle is located) did not see negative economic impacts; rather, the county saw sustained job growth and reduced unemployment rates.[34]

- **Improved employee morale, motivation, loyalty, and productivity**: Over a quarter of Connecticut employers reported improved morale, 12.5 percent reported increased employee motivation, 10.6 percent reported increased loyalty, and 14.9 percent reported increased productivity after implementation of the state's paid sick days law.[35]

- **Improved work life balance for employees:** A 2010 IWPR survey found that one out of four San Francisco employees reported that paid sick days enabled them to better care for their own and their families' health needs. In addition, nearly 30 percent reported that their employers were more supportive when they needed to use their leave than they were

prior to the law's passage. More than half of all San Francisco workers reported at least one benefit as a result of the ordinance.[36]

- **Reduced flu contagion in locations with paid sick day laws:** One recent study used Google Flu data from 2003 to 2015 to show that influenza-like infection rates decrease significantly when workers gain access to paid sick days. By comparing the rates of influenza-like illnesses in regions with paid sick days policies—including the District of Columbia, Connecticut, California, Massachusetts, and Oregon—with those lacking such laws, the study finds that infection rates decrease by about 10 percent when employees without coverage obtain paid sick days.[37]

Conclusion

Literature spanning the fields of public health, economics, sociology, medicine, social work, and public policy converge to reflect the health, employment, and economic benefits of paid sick days. Research suggests that more widespread implementation of paid sick days policies would have a substantial positive impact on the well-being of children, families, and communities across the United States.

Notes

The Institute for Women's Policy Research (IWPR) conducts rigorous research and disseminates its findings to address the needs of women, promote public dialogue, and strengthen families, communities, and societies. The Institute works with policymakers, scholars, and public interest groups to design, execute, and disseminate research that illuminates economic and social policy issues affecting women and their families, and to build a network of individuals and organizations that conduct and use women-oriented policy research. IWPR's work is supported by foundation grants, government grants and contracts, donations from individuals, and contributions from organizations and corporations. IWPR is a 501(c)(3) tax-exempt organization that also works in affiliation with the women's studies, and public policy and public administration programs at The George Washington University.

STATE AUDITORS OFFICE

The Honorable Nicole Galloway
State Auditor
State Capitol Building
Jefferson City, MO 65101

RE: Petition approval request from Richard Von Glahn regarding a proposed statutory amendment to Chapter 285, version 7 (2018-034)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Richard Von Glahn on November 16, 2016.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

Jason Kander

Be it enacted by the people of the State of Missouri:

Section 285.055 of the Revised Statutes of Missouri is amended and fifteen new sections to be known as sections 285.600, 285.603, 285.606, 285.609, 285.612, 285.615, 285.618, 285.621, 285.624, 285.627, 285.630, 285.633, 285.636, 285.639, and 285.642 are enacted to read as follows:

285.055. 1. As used in this section, the following terms shall mean:

(1) "Employee", an individual employed in this state by an employer;

(2) "Employer", any individual, sole proprietorship, partnership, limited liability company, corporation, or any other entity that is legally doing business in this state; provided, however, that employer shall not include any public employer as defined in section 285.525;

(3) "Employment benefits", anything of value that an employee may receive from an employer in addition to wages and salary. The term includes, but is not limited to, health, disability, retirement, profit-sharing, and death benefits; group accidental death and dismemberment benefits; paid or unpaid days off from work for holidays, [sick leave,] vacation, and personal necessity; and terms of employment, attendance, or leave policies; provided, however, that for purposes of this section, "employment benefits" does not include paid or unpaid days off from work for sick leave that can be used for the purposes listed in subsection (1) of section 285.606.

(4) "Political subdivision", any county, city, town, or village.

2. No political subdivision shall establish, mandate, or otherwise require an employer to provide to an employee:

(1) A minimum or living wage rate; or

(2) Employment benefits;

that exceed the requirements of federal or state laws, rules, or regulations. The provisions of this subsection shall not preempt any state law or local minimum wage ordinance requirements in effect on August 28, 2015.

285.600. As used in sections 285.600 through 285.642:

(1) "Department", Department of Labor and Industrial Relations.

(2) "Director", Director of the Department of Labor and Industrial Relations.

(3) "Earned paid sick time", time that is compensated at the same hourly rate and with the same benefits, including health care benefits, as the employee normally earns during hours worked and is provided by an employer to an employee for the purposes described in section 285.606, but in no case shall this hourly amount be less than that provided under section 290.502.

(4) "Employee", any individual employed in this state by an employer, but does not include:

(A) Any individual engaged in the activities of an educational, charitable, religious, or nonprofit organization where the employer-employee relationship does not, in fact, exist or where the services rendered to the organization are on a voluntary basis;

(B) Any individual standing in loco parentis to foster children in their care;

(C) Any individual employed for less than four months in any year in a resident or day camp for children or youth, or any individual employed by an educational conference center operated by an educational, charitable or not-for-profit organization;

(D) Any individual engaged in the activities of an educational organization where employment by the organization is in lieu of the requirement that the individual pay the cost of tuition, housing or other educational fees of the organization or where earnings of the individual employed by the organization are credited toward the payment of the cost of tuition, housing or other educational fees of the organization;

(E) Any individual employed on or about a private residence on an occasional basis for six hours or less on each occasion;

(F) Any individual employed on a casual basis to provide baby-sitting services;

(G) Any individual employed by an employer subject to the provisions of part A of subtitle IV of title 49, United States Code, 49 U.S.C. §§ 10101 et seq.;

(H) Any individual employed on a casual or intermittent basis as a golf caddy, newsboy, or in a similar occupation;

(I) Any individual who is employed in any government position defined in 29 U.S.C. §§ 203(e)(2)(C)(i)-(ii); or

(J) Any individual who is an offender, as defined in section 217.010, who is incarcerated in any correctional facility operated by the department of corrections, including offenders who provide labor or services on the grounds of such correctional facility pursuant to section 217.550.

(5) "Employer", any person acting directly or indirectly in the interest of an employer in relation to an employee; provided, however, that for the purposes of sections 285.600 through 285.642, "employer" does not include the United States Government, the state, or a political subdivision of the state, including a department, agency, officer, bureau, division, board, commission, or instrumentality of the state, or a city, county, town, village, school district, or other political subdivision of the state.

(6) "Family member", any of the following individuals:

(A) Regardless of age, a biological, adopted or foster child, stepchild or legal ward, a child of a domestic partner, a child to whom the employee stands in loco parentis, or an individual to whom the employee stood in loco parentis when the individual was a minor;

(B) A biological, foster, stepparent or adoptive parent or legal guardian of an employee or an employee's spouse or domestic partner or an individual who stood in loco parentis when the employee or employee's spouse or domestic partner was a minor child;

(C) An individual to whom the employee is legally married under the laws of any state, or a domestic partner who is registered as such under the laws of a political subdivision;

(D) A grandparent, grandchild, or sibling (whether of a biological, foster, adoptive or step relationship) of the employee or the employee's spouse or domestic partner; or

(E) A member of the employee's household.

(7) "Health care professional," any individual licensed under Federal or State law to provide medical or emergency services, including but not limited to doctors, nurses, certified nurse midwives, and emergency room personnel.

(8) "Person", any individual, partnership, association, corporation, business, business trust, legal representative, or any organized group of persons.

(9) "Retaliatory personnel action", denial of any right guaranteed under sections 285.600 through 285.642, or any threat, discharge, suspension, demotion, reduction of hours, or any other adverse action against an employee for the exercise of any right guaranteed herein. "Retaliatory personnel action" shall also include interference with or punishment for in any manner participating in or assisting an investigation, proceeding, or hearing under sections 285.600 through 285.642.

(10) "Year", a regular and consecutive twelve-month period as determined by the employer; except that for the purposes of section 285.615 and section 285.627, "year" shall mean a calendar year.

285.603. 1. Employees of an employer with fifteen or more employees shall accrue a minimum of one hour of earned paid sick time for every thirty hours worked, but such employees shall not be entitled to accrue or use more than fifty-six hours of earned paid sick time per year, unless the employer selects a higher limit.

2. Employees of an employer with fewer than fifteen employees shall accrue a minimum of one hour of earned paid sick time for every thirty hours worked, but such employees shall not be entitled to accrue or use more than forty hours of earned paid sick time per year, unless the employer selects a higher limit.

3. In determining the number of employees performing work for an employer for compensation during a given week, all employees performing work for compensation on a full-time, part-time, or temporary basis shall be counted. In situations in which the number of employees who work for an employer for compensation per week fluctuates above and below fifteen employees per week over the course of the year, an employer is required to provide earned paid sick time pursuant to subsection (1) of this section if it maintained fifteen or more employees on the payroll for some portion of a day in each of twenty different calendar weeks, whether or not the weeks were consecutive, in either the current or the preceding year (irrespective of whether the same individuals were in employment in each day).

4. All employees shall accrue earned paid sick time as follows:

(A) Earned paid sick time as provided in this section shall begin to accrue at the commencement of employment or ninety days after this law goes into effect, whichever is later. An employer may provide all paid sick time that an employee is expected to accrue in a year at the beginning of the year.

(B) An employee may use earned paid sick time as it is accrued, except that an employer may require an employee hired more than ninety days after this law goes into effect to wait until the ninetieth calendar day after commencing employment before using accrued earned paid sick time, unless otherwise permitted by the employer.

(C) Employees who are exempt from overtime requirements under 29 U.S.C. § 213(a)(1) of the Federal Fair Labor Standards Act will be assumed to work forty hours in each work week for purposes of earned paid sick time accrual unless their normal work week is less than forty hours, in which case earned paid sick time accrues based upon that normal work week.

(D) Earned paid sick time shall be carried over to the following year, subject to the limitations on usage in subsections (1) and (2) of this section. Alternatively, in lieu of carryover of unused earned paid sick time from one year to the next, an employer may pay an employee for unused earned paid sick time at the end of a year and provide the employee with an amount of paid sick time that meets or exceeds the requirements of sections 285.600 through 285.642 that is available for the employee's immediate use at the beginning of the subsequent year.

(E) If an employee is transferred to a separate division, entity, or location, but remains employed by the same employer, the employee is entitled to all earned paid sick time accrued at the prior division, entity, or location and is entitled to use all earned paid sick time as provided in this section. When there is a separation from employment and the employee is rehired within nine months of separation by the same employer, previously accrued earned paid sick time that had not been used shall be reinstated. Further, the employee shall be entitled to use accrued earned paid sick time and accrue additional earned paid sick time at the re-commencement of employment.

(F) When a different employer succeeds or takes the place of an existing employer, all employees of the original employer who remain employed by the successor employer are entitled to all earned paid sick time they

accrued when employed by the original employer, and are entitled to use earned paid sick time previously accrued.

(G) At its discretion, an employer may loan earned paid sick time to an employee in advance of accrual by such employee.

5. Any employer with a paid leave policy, such as a paid time off policy, who makes available an amount of paid leave sufficient to meet the accrual requirements of this section that may be used for the same purposes and under the same conditions as earned paid sick time under sections 285.600 through 285.642 is not required to provide additional paid sick time.

6. Nothing in this section shall be construed as requiring financial or other reimbursement to an employee from an employer upon the employee's termination, resignation, retirement, or other separation from employment for accrued earned paid sick time that has not been used.

285.606. 1. Earned paid sick time shall be provided to an employee by an employer for:

(A) An employee's mental or physical illness, injury, or health condition; an employee's need for medical diagnosis, care, or treatment of a mental or physical illness, injury, or health condition; an employee's need for preventive medical care;

(B) Care of a family member with a mental or physical illness, injury, or health condition; care of a family member who needs medical diagnosis, care, or treatment of a mental or physical illness, injury, or health condition; care of a family member who needs preventive medical care; or

(C) Closure of the employee's place of business by order of a public official due to a public health emergency, or an employee's need to care for a child whose school or place of care has been closed by order of a public official due to a public health emergency, or care for oneself or a family member when it has been determined by the health authorities having jurisdiction or by a health care provider that the employee's or family member's presence in the community may jeopardize the health of others because of his or her exposure to a communicable disease, whether or not the employee or family member has actually contracted the communicable disease.

2. Earned paid sick time shall be provided upon the request of an employee. Such request may be made orally, in writing, by electronic means or by any other means acceptable to the employer. When possible, the request shall include the expected duration of the absence.

3. When the use of earned paid sick time is foreseeable, the employee shall make a good faith effort to provide notice of the need for such time to the employer in advance of the use of the earned paid sick time and shall make a reasonable effort to schedule the use of earned paid sick time in a manner that does not unduly disrupt the operations of the employer. Where such need is not foreseeable, an employer may require an employee to provide notice of the need for the use of earned paid sick time as soon as practicable.

4. An employer that requires notice of the need to use earned paid sick time where the need is not foreseeable shall provide a written policy that contains procedures for the employee to provide notice. An employer that has not provided to the employee a copy of its written policy for providing such notice shall not deny earned paid sick time to the employee based on non-compliance with such a policy.

5. An employer may not require, as a condition of an employee's taking earned paid sick time, that the employee search for or find a replacement worker to cover the hours during which the employee is using earned paid sick time.

6. Earned paid sick time may be used in the smaller of hourly increments or the smallest increment that the employer's payroll system uses to account for absences or use of other time.

7. For earned paid sick time of three or more consecutive work days, an employer may require reasonable documentation that the earned paid sick time has been used for a purpose covered by subsection (1) of this section. Documentation signed by a heath care professional indicating that earned paid sick time is necessary shall be considered reasonable documentation for purposes of this section. An employer may not require that the documentation explain the nature of the illness unless otherwise required by law.

285.609. 1. It shall be unlawful for an employer or any other person to interfere with, restrain, or deny the exercise of, or the attempt to exercise, any right protected under sections 285.600 through 285.642.

2. An employer shall not take retaliatory personnel action or discriminate against an employee or former employee because he or she has exercised rights protected under sections 285.600 through 285.642. Such rights include, but are not limited to, the right to request or use earned paid sick time pursuant to sections 285.600 through 285.642; the right to file a complaint or inform any person about any employer's alleged violation of sections 285.600 through 285.642; the right to participate in an investigation, hearing, or proceeding or cooperate with or assist the Department in any investigations of alleged violations of sections 285.600 through 285.642; and the right to inform any person of his or her potential rights under sections 285.600 through 285.642.

3. It shall be unlawful for an employer's absence control policy to count earned paid sick time taken under sections 285.600 through 285.642 as an absence that may lead to or result in discipline, discharge, demotion, suspension, or any other adverse action.

4. Protections of this section shall apply to any individual who mistakenly but in good faith alleges violations of sections 285.600 through 285.642.

285.612. 1. Employers shall give employees written notice of the following at the commencement of employment or by ninety days after this law goes into effect, whichever is later: employees are entitled to earned paid sick time and the amount of earned paid sick time, the terms of its use guaranteed under sections 285.600 through 285.642, that retaliatory personnel action against employees who request or use earned paid sick time is prohibited, that each employee has the right to bring a civil action if earned paid sick time as required by sections 285.600 through 285.642 is denied by the employer or the employee is subjected to retaliatory personnel action for requesting or taking earned paid sick time, and, if applicable, the contact information for the Department where questions about rights and responsibilities under sections 285.600 through 285.642 may be answered.

2. Employers shall display a poster that contains the information required in subsection (1) of this section in a conspicuous and accessible place in each establishment where such employees are employed, provided that such poster has been provided by the Department.

3. The Department may create and make available to employers, model notices and posters that contain the information required under subsection (1) of this section for employers' use in complying with subsections (1) and (2) of this section. Nothing in this subsection shall be interpreted or applied, either expressly or through practical necessity, to require the Department to create or make available notices or posters if it requires the appropriation of funds to cover the costs of such acts.

285.615. 1. Employers shall retain records documenting hours worked by employees and earned paid sick time taken by employees, for a period of not less than three years, and shall allow the Department access to such records, with appropriate notice and at a mutually agreeable time, to monitor compliance with the requirements of sections 285.600 through 285.642.

2. To the extent permitted by law, the Director may inspect such records, and the records shall be open for inspection by the Director by appointment. Where the records required under this section are kept outside the state, the records shall be made available to the Director upon demand. Every such employer shall furnish to the Director on demand a sworn statement of time records and information upon forms prescribed or approved by the Director. All the records and information obtained by the Department are confidential and shall be disclosed only on order of a court of competent jurisdiction.

3. Nothing in this section shall be interpreted or applied, either expressly or through practical necessity, to require the Department or Director to access or inspect records or to create forms relating to the inspection of records if it requires the appropriation of funds to cover the costs of such acts.

285.618. 1. The Department may, in accordance with chapter 536, promulgate rules to implement the provisions of sections 285.600 through 285.642. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2018, shall be invalid and void.

2. Nothing in this section shall be interpreted or applied, either expressly or through practical necessity, to require the promulgation or adoption of rules if it requires the appropriation of funds to cover the costs of such acts.

285.621. 1. To the extent permitted by law, the Department may investigate and ascertain compliance with sections 285.600 through 285.642, establish and implement a system to receive complaints regarding non-compliance with sections 285.600 through 285.642 and to investigate and attempt to resolve complaints through mediation between the complainant and the subject of the complaint, and establish additional means of enforcement to the extent permitted by the law.

2. The Department may develop and implement an outreach program to inform employees, parents, and persons who are under the care of a health care provider about the availability of earned paid sick time under sections 285.600 through 285.642. This program may include the distribution of notices and other written materials to child care and elder care providers, domestic violence shelters, schools, hospitals, community health centers and other health care providers in Missouri.

3. Nothing in this section shall be interpreted or applied, either expressly or through practical necessity, to require the Department to conduct investigations and ascertain compliance with sections 285.600 through 285.642, to establish and implement a system to receive or resolve complaints, to establish additional means of enforcement, or to conduct outreach and education, including the creation of notices and other written materials, concerning sections 285.600 through 285.642, if it requires the appropriation of funds to cover the costs of such acts.

285.624. 1. To the extent permitted by law, any employer who violates or fails to comply with any of the provisions and requirements of sections 285.600 through 285.642 shall be guilty of a class C misdemeanor and shall be punished for each violation thereof by a fine, up to the maximum allowed under state law for violation of a class C misdemeanor; provided, however, that an employer who willfully violates the notice and posting requirements of section 285.612 shall be guilty of an infraction and shall be punished for each violation thereof by a fine, up to the maximum allowed under state law for an infraction.

2. For purposes of this section, each day of violation or failure to comply and each employee affected shall constitute a separate offense.

285.627. 1. Any individual who claims to have been aggrieved by a failure of an employer to comply with any portion of sections 285.600 through 285.642, including but not limited to the failure to provide earned paid sick time or to allow employees to use such time consistent with sections 285.600 through 285.642, or who claims to have suffered a retaliatory personnel action, shall have a right of action and may commence a civil action in the appropriate court of jurisdiction within three years of the accrual of the cause of action, to obtain appropriate relief with respect to such unlawful violation.

2. In a civil action under this section, if the court finds a violation has occurred, the court may grant as relief, as it deems appropriate and to the extent permitted by law, any permanent or temporary injunction, the full amount of any unpaid earned sick time plus any actual damages suffered as the result of the employer's violation of sections 285.600 through 285.642, an additional amount equal to twice any unpaid earned sick time as liquidated damages, costs, and reasonable attorney's fees as may be allowed by the court, and other legal or equitable relief as may be appropriate to remedy the violation, including, without limitation, reinstatement to employment and back pay. Any agreement between the employee and the employer to waive the protections of sections 285.600 through 285.642, with the exception of section 285.633, shall be no defense to the action.

285.630. 1. Except as otherwise required by law, an employer may not require disclosure of details relating to an employee's or an employee's family member's health information as a condition of providing earned paid sick time under sections 285.600 through 285.642.

2. Unless as otherwise required by law, any health information possessed by an employer regarding an employee or employee's family member must:

(A) be maintained on a separate form and in a separate file from other personnel information;

(B) be treated as confidential medical records; and

(C) not be disclosed except to the affected employee or with the express written permission of the affected employee.

285.633. 1. All or any portion of the earned paid sick time requirements of sections 285.600 through 285.642 shall not apply to employees covered by a valid collective bargaining agreement, to the extent that such requirements are expressly waived in the collective bargaining agreement in clear and unambiguous terms.

2. Notwithstanding subsection (1) of this section, with respect to employees covered by a valid collective bargaining agreement in effect on the effective date of sections 285.600 through 285.642, no provisions of sections 285.600 through 285.642 shall apply until the stated expiration date in the collective bargaining agreement.

3. Nothing in sections 285.600 through 285.642 shall be deemed to interfere, impede, or otherwise diminish the right of employees to bargain collectively through representatives of their own choosing.

285.636. 1. Nothing in sections 285.600 through 285.642 shall be construed to discourage or prohibit an employer from the adoption or retention of an earned paid sick time policy more generous than the one required herein.

2. Nothing in sections 285.600 through 285.642 shall be construed as diminishing the obligation of an employer to comply with any contract, collective bargaining agreement, employment benefit plan, or other agreement providing more generous paid sick time to an employee than required herein. Nothing in sections 285.600 through 285.642 shall be construed as diminishing the rights of public employees regarding paid sick time or use of paid sick time as provided in the laws of Missouri pertaining to public employees.

285.639. 1. Sections 285.600 through 285.642 provide minimum requirements pertaining to earned paid sick time and shall not be construed to preempt, limit, or otherwise affect the applicability of any other law, regulation, requirement, policy, or standard that provides for greater accrual or use by employees of earned paid sick time or that extends other protections to employees.

2. Any county, city, town, or village in the state shall have the power and authority to establish, mandate, or otherwise require an employer to provide to an employee paid or unpaid days off from work for sick leave which exceeds the requirements of sections 285.600 through 285.642.

3. Nothing in sections 285.600 through 285.642 shall be interpreted or applied to create a power or obligation contrary to any federal law, rule, or regulation.

285.642. Except as detailed in section 285.618, all of the provisions of sections 285.600 through 285.642 are severable, and if any provision, including any section, subsection, subdivision, paragraph, sentence, or clause, or the application thereof to any person or circumstance, is found by a court of competent jurisdiction to be invalid, unconstitutional, or unconstitutionally enacted, such decision shall not affect other provisions or applications of sections 285.600 through 285.642 that can be given effect without the invalid, unconstitutional, or unconstitutionally enacted provision or application, and to this end the provisions of sections 285.600 through 285.642 are declared severable.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-034)

Subject

Initiative petition from Richard Von Glahn regarding a proposed amendment to Chapter 285 of the Revised Statutes of Missouri. (Received November 17, 2016)

Date

December 7, 2016

Description

This proposal would amend Chapter 285 of the Revised Statutes of Missouri.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** the **Missouri Lottery,** the **Public Service Commission,** the **State Tax Commission,** the **Missouri Technology Corporation,** the **Missouri Life Sciences Research Board,** the **Missouri Veterans Commission,** the **Missouri Ethics Commission,** the **Missouri Office of Prosecution Services,** the **Kansas City Boards of Police Commissioners,** the **St. Louis City Board of Police Commissioners,** the **St. Louis County Board of Elections,** the **Board of Election Commissioners City of St.**

Louis, the **Kansas City Board of Election Commissioners,** the **Platte County Board of Elections,** the **Jackson County Election Board,** the **Clay County Board of Election Commissioners,** the **Lieutenant Governor's office,** the **Children's Trust Fund,** the **Missouri Joint Municipal Electric Utility Commission,** the **State Auditor's office, University of Central Missouri, Harris-Stowe State University, Lincoln University, Missouri Southern State University, Missouri Western State University, Northwest Missouri State University, Southeast Missouri State University,** and **Truman State University**.

Lara Granich and Missouri Jobs with Justice Voter Action provided information as proponents of the proposal to the State Auditor's office.

Officials from the **Attorney General's office** indicated various provisions of the proposal authorize their department to promulgate rules, establish mediation procedures "and additional means of enforcement… ." They assume that their office may provide some review of proposals, but assume that any potential costs arising from this proposal can be absorbed with existing resources. They may seek additional appropriations if there is an increased review of rules in later years.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated they will be deferring to the Office of Administration and the Department of Labor and Industrial Relations regarding any fiscal impact this initiative petition might have.

Officials from the **Department of Higher Education** indicated the state, including departments, are exempt from the definition of "employer," so this initiative petition would not have a fiscal impact on their department.

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition does not apply to public employers with respect to its employees. Therefore, this petition, if passed, would have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated there is no fiscal impact to their department as a result of this initiative petition. Section 285.600 (5) indicates "for the purposes of sections 285.600 through 285.642 "employer" does not include the United States Government, the state, …., including a department, agency, …."

Officials from the **Department of Corrections** indicated they defer to the Office of Administration.

Officials from the **Department of Labor and Industrial Relations** indicated they expect no change in revenues or expenses in fiscal years 2017, 2018, and 2019.

The petition, if passed by voters, would require businesses with 15 or more employees to provide paid sick time. It also would allow their department to educate employers, take complaints, and perform investigations of violations of the new law.

The long-range fiscal implications are the same as those of the estimate period.

Under the new language, they may educate employers and employees, promulgate rules, take complaints, and conduct investigations of alleged violations of the new provisions. They believe the education, registration of complaints, and investigations would be conducted in a manner similar to those conducted under the Minimum Wage program. Using employer information from the United States Census Bureau for employers with more than ten employees, they estimate that it would receive complaints from 1.5% of the estimated 40,886 businesses with 10 or more employees, or 613 complaints annually. (The Census Bureau does not break employers at the 15 or more level.) To investigate these 613 complaints, they would require 3.50 Wage & Hour Investigator I/IIs. In FY 2016, 578 complaints were closed by 3.50 Investigators, averaging 165 per FTE. Using this calculation, they estimate it would need 3.50 FTE and the standard per FTE expenses and equipment to complete these activities.

However, Sections 285.612, 285.615, 285.618, and 285.621 expressly state that they are not required to take on the new duties it is authorized to perform under this proposal if doing so will require an appropriation to cover the costs of performing the duties. Because these duties are optional and are not required of their department, if there is no appropriation made to cover the cost, they estimate no mandated fiscal impact for this proposal.

Officials from the **Department of Revenue** indicated they defer this fiscal note to the Office of Administration for a statewide response.

Officials from the **Department of Public Safety** indicated they will defer to the Office of Administration response to this petition.

Officials from the **Department of Social Services** indicated they will defer to the Office of Administration response to this petition. They indicated no fiscal impact on their department.

Officials from the **Governor's Office** indicated there should be no fiscal impact to their office.

Officials from the **House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated no fiscal impact.

Officials from the **Office of Administration** indicated:

This initiative petition adds 15 new sections to Chapter 285 related to sick leave.

Under this proposal, employers would be required to provide paid sick leave to employees. The amount would be dependent upon the number of employees. It does not include employees covered under a valid collective bargaining agreement and it provides employees with an avenue of recourse if the employee claims to be aggrieved.

The State of Missouri is excluded from the provisions of this proposal, therefore there would be no statewide impact related to this proposal other than potentially higher costs for services purchased by the state. However, the Department of Labor and Industrial Relations (DOLIR) will be impacted. Budget and Planning defers to the DOLIR for the specific impact to that agency.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated no fiscal impact on their office.

Officials from the **Secretary of State's office** indicated their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any impact on their office, as they are an independent department within state government and by definition state employees are exempt from this proposed legislation.

Officials from the **State Treasurer's office** indicated this would have no fiscal impact on their office.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from the **City of Columbia** indicated there is no impact on their city.

Officials from the **City of Kansas City** indicated no direct fiscal impact is anticipated if this proposal is adopted because cities are not employers. An indirect cost to cities may arise through increased labor costs of those vendors contracting with the city.

Officials from the **City of Raymore** indicated no fiscal impact.

Officials from the **City of St. Joseph** indicated this initiative petition could have a fiscal impact on local government.

Officials from **University of Missouri** indicated they have reviewed this proposed legislation and have determined that for benefit eligible employees (defined as working .75 or >) that it does not appear that the proposed legislation as written would create a significant fiscal impact to their university.

Officials from the **Missouri Lottery** indicated no fiscal impact to their agency.

Officials from the **Public Service Commission** indicated no fiscal impact on their agency.

Officials from the **State Tax Commission** indicated this initiative petition pertaining to sick leave in Chapter 285 does not directly impact their office. As a state agency this matter is under the direction of Office of Administration, Division of Personnel.

Officials from the **Missouri Veterans Commission** indicated no fiscal impact to their agency.

Officials from the **Missouri Office of Prosecution Services** indicated no measurable fiscal impact to their office.

Officials from the **Kansas City Boards of Election Commissioners** indicated there is no fiscal impact with amendments to Chapter 285, Versions 1 -12, since the State is not responsible for costs associated with the November 2018 election.

Officials from the **Platte County Board of Elections** indicated the proposed initiative would have no fiscal impact on their office.

Officials from the **Jackson County Election Board** indicated no fiscal impact on their office.

Officials from the **Lieutenant Governor's office** indicated it is anticipated that this initiative petition will impose little to no costs or savings on their office.

Officials from the **Children's Trust Fund** indicated they are part of the Office of Administration and thus will be covered by the Office of Administration's official response. They will not be responding separately.

Officials from the **Missouri Joint Municipal Electric Utility Commission** indicated:

The Missouri Association of Municipal Utilities represents approximately 120 cities in Missouri providing utility services to their customer/owners. They do not represent cities in their general business operation. That representation is undertaken by the Missouri Municipal League and its executive director Dan Ross.

Based on a review of each of the 12 versions it appears that there would be no direct cost to any of their cities since the framers of the amendment specifically excluded cities from the definition of employers and city employees from coverage of the proposed changes.

However, it is possible that cities may experience some increases in the cost of goods and services consumed in the regular course of business as a result of higher labor input costs. It is impossible to accurately predict those increases other than to make you aware of the potential.

Officials from the **State Auditor's office** indicated there is no fiscal impact for their office.

Officials from **University of Central Missouri** indicated if they are included in the definition of "employer" that would be impacted by this legislation, they would have an additional cost of roughly $340,000. In fiscal year 2016, part-time employees worked nearly 679,000 hours. If each 30 hours resulted in one sick time hour, that would be 22,634 hours. At an average rate of $15/hour, that would have a fiscal impact of $340,000.

If the definition of employer is interpreted to exclude UCM because of its status as a state agency, then there would be no fiscal impact.

Officials from **Missouri State University** indicated no fiscal impact on their university.

Officials from **Missouri Southern State University** indicated they do not anticipate any fiscal impact from this initiative petition.

Lara Granich and Missouri Jobs with Justice Voter Action provided the following information as proponents of this initiative petition.

Re: Fiscal Impact Analysis of Earned Sick Time Petitions
Petitions numbered by MO SOS at 2018-28 to 2018-39

This letter is from Lara Granich and Missouri Jobs with Justice Voter Action, proponents of the above-referenced initiative petitions. Pursuant to RSMo. Section 116.175, we write to submit the following information to assist your office in its analysis of the fiscal impact of the above-mentioned twelve proposed Earned Sick Time Petitions.

This analysis uses data collected by the U.S. Bureau of Labor Statistics, the Centers for Disease Control and Prevention, and the U.S. Census Bureau to evaluate the impact of earned sick time laws in Missouri. This analysis uses findings from previous peer-reviewed research to estimate cost-savings associated with the proposed policies through reduced turnover, reduced spread of contagious disease in the workplace, prevention of productivity losses from employees working while sick, minimized nursing-home stays, and reduced norovirus outbreaks in nursing homes. We also address certain claims that have been made by opponents in the past.

I. Estimate of Number of Workers Affected Statewide

According to the Institute for Women's Policy Research, an estimated 1,002,116 private sector workers in Missouri, or 45.9 percent of the workforce, cannot earn a single paid sick day to use to recover from common illnesses or seek medical care.[1]

II. Direct Costs to State

As these proposed initiatives exclude public workers employed by the state or by local governments, the initiatives are not expected to have any direct impact on state and local payroll costs. Enforcement would be handled by existing staff at the Department of Labor.

III. Economic Literature on the Impact of Earned Sick Time on Businesses

This analysis quantifies only a subset of potential benefits, predicting a net economic benefit from both of the proposed laws. Likely additional benefits from paid sick days not quantified in this analysis include: reduced health care spending due to reduced public contagion and more timely and regular preventive care and treatment; improved economic security among families who receive pay on sick days and are less likely to be fired or disciplined for taking sick time; and improved school outcomes and reduced contagion in schools, when parents can avoid sending sick children to school or child care.

Millions of workers have gained access to paid sick days in recent years through new laws in five states, 23 cities, and one county across the country. There is no evidence of business closures/layoffs as a result of earned sick time laws. Both Seattle and San Francisco saw positive job growth in the period after their laws took effect, and this job growth was much higher than in the surrounding areas for both cities. San Francisco's growth in employment exceeded the average employment growth of surrounding counties after the paid sick days law was passed. In the 10 months after the adoption of Seattle's Paid Sick and Safe Time Ordinance, King County (where Seattle is located) did not see negative economic impacts; rather, the county saw sustained job growth and reduced unemployment rates. 2

The Washington D.C. Auditor reported "that the Accrued Sick and Safe Leave Act did not have the economic impact of encouraging business owners to move a business from the District nor did the Act have the economic impact of discouraging business owners to locate a business in the District of Columbia."3 New York City reported that "New York City's economy has thrived since the enactment of PSL [paid sick leave]. Between January 2014 and January 2015, a period that covers the law's implementation, economic indicators were a cause for celebration, not concern as many had predicted." 4

Summary of Benefits Associated With Missouri's Proposed Earned Sick Time Law

Benefits	Firms with <50 Employees			Firms with 50+ Employees		
	Dollars	Average per-worker savings		Dollars	Average per-worker costs/savings	
BENEFITS						
Lower Turnover	$32,718,875			$146,675,016		
Reduced Flu Contagion in the Workplace	$1,334,044			$5,980,370		
		Weekly	*Hourly*		*Weekly*	*Hourly*
Employers' Savings	**$34,052,920**	**$6.97**	**$0.21**	**$152,655,386**	**$9.44**	**$0.26**
Reduced Short-Term Nursing Home Stays	$2,415,006			$8,165,162		
Reduced Norovirus in Nursing Homes	$21,692			$93,129		
Reduced Flu Contagion	$233,249			$771,691		
Reduced Emergency Department Visits	$3,512,104			$11,619,581		
		Weekly	*Hourly*		*Weekly*	*Hourly*
Community Savings	**$6,182,052**	**$1.26**	**$0.04**	**$20,649,564**	**$1.28**	**$0.03**

Note: "Small" firms are defined in the proposed laws at firms employing fewer than 15 employees and "Large" firms are defined as firms employing 15 or more employees.

Source: Institute for Women's Policy Research Analysis of the 2014 American Community Survey (ACS), the 2016 National Compensation Survey (NCS), the 2013-2016 Current Population Survey Annual Social and Economic Supplement (CPS ASEC), the 2010 Current Population Survey Displaced Worker, Employee Tenure, and Occupational Mobility Supplement File, and the 2014-2015 National Health Interview Survey (NHIS).

Note on Methodology

The estimates are based on analyses of the following data sets: the 2013–2016 Current Population Survey Annual Social and Economic Supplement (CPS ASEC), the 2014-2015 National Health Interview Survey (NHIS), the 2014 American Community Survey (ACS), the 2016 National Compensation Survey and the 2014 Medical Expenditure Panel Survey along with findings from previous peer-reviewed research.

This analysis was limited to only private sector workers as the proposed legislation only covers such workers. The proposed legislation does include some small exemptions for certain employees which this analysis does not account for. Excluding such workers would result in minor reductions in both the costs and benefits estimated, but general trends would remain the same. To learn more about the methodology and sources please see "Valuing Good Health in Maryland: The Costs and Benefits of Earned Sick Days"[5]

We hope that this information is useful to your office as your prepare your analyses of the petitions.

Respectfully submitted,
Lara Granich

Paid Sick Days Benefit Employers, Workers, and the Economy

Jessica Milli, PhD., Jenny Xia, and Jisun Min

Millions of workers have gained access to paid sick days in recent years through new laws in five states, 23 cities, and one county across the country.[1] Yet millions more still would not be paid if they need to stay at home when they are sick or need to care for a family member who is ill. As of 2014, 51 million workers lacked access to paid sick days.[2]

Research has documented many benefits of paid sick days policies for workers, businesses, and communities as a whole. These benefits would multiply substantially if more workers gained access to paid sick days. This briefing paper summarizes research on the benefits of paid sick days and the effects of paid sick days policies in places that have them.

Employers Benefit from Paid Sick Days

- **Reduced contagion in the workplace:** A 2010 survey conducted by the National Opinion Research Center found that employees without access to paid sick days are 1.5 times more likely than those with access to go to work with a contagious illness (55 percent compared with 37 percent).[3] Such "presenteeism" has serious public health consequences including flu contagion. A 2010 analysis of labor force and Centers for Disease Control data estimated that more than one in four private sector employees worked while ill with H1N1 during the 2009 H1N1 pandemic, resulting in the estimated infection of 7 million co-workers with H1N1. Work absences from illness dropped more precipitously among public sector workers than among private sector workers during the decline of the pandemic. Because employees in the public sector have greater access to paid sick days, the finding suggests that paid sick days played a role in slowing contagion and potentially in speeding recovery.[4] A 2013 study employed a model simulating influenza contagion to estimate reductions in contagion rates under a universal paid sick days policy. Using data from the American Community Survey, LandScan USA, and the U.S. Census, the study estimated that providing paid sick days would reduce workplace influenza infection in the United States by about 6 percent.[5]

- **Improved productivity:** When workers come to work sick, their productivity and performance suffer. Estimates of productivity losses vary across studies. A 1997 study polling 332 workers who had influenza-like illnesses found that workers on average reported being 46 percent less effective while ill at work.[6] A 2003 study based on interviews with more than 28,000 workers reported that on average, workers lose 1.32 hours per week of productive time due to personal health related reasons.[7] Since workers

with access to paid sick days are less likely to come to work sick and infect their co-workers,[8] paid sick days can prevent further productivity losses resulting from illness and contagion in the workplace.

- **Decreased workplace injuries:** Working while sick also puts employees at greater risk of injury on the job. A 2012 study using the 2005 through 2008 National Health Interview Survey (NHIS) found that after controlling for factors like survey year, occupational sector, firm size, region, and the availability of paid sick leave, workers with access to paid sick days are 28 percent less likely to be injured on the job than workers without this benefit.[9]

- **Decreased employee turnover:** A 2012 analysis of data collected between 2004 and 2006 through the Medical Expenditure Panel Survey (MEPS) finds that the likelihood of job separation decreases by about 25 percent when a worker has access to paid sick days, even after controlling for potential confounding factors such as workers' educational attainment, earnings, and race/ethnicity.[10] As employee turnover typically costs an employer between 10 and 30 percent of an employee's annual salary,[11] a reduction in turnover can result in significant reductions in employer costs.

Paid Sick Days Improve Public Health

- **Increased use of preventive care:** Since paid sick days can be used for doctor visits, workers with paid sick days are more likely to seek preventive care and to be screened for diseases such as cancer, which can lead to early detection and treatment. A 2012 study using 2008 National Health Interview Survey (NHIS) data finds that after controlling for sociodemographic and health-care-related factors, workers with paid sick days are significantly more likely to have had mammograms, Pap tests, and endoscopy, and to have seen a doctor during the previous year than those without the benefit.[12]

- **More timely treatment for illnesses:** Workers without paid sick days are more likely to delay medical care when they or a family member is ill which can lead to a more serious or prolonged illness.[13]A 2016 analysis of the 2013 NHIS—which controlled for demographic and health-related factors like race and ethnicity, occupation, annual family income, and health insurance coverage—indicates that workers without paid sick leave are three times more likely to forgo medical care for themselves, and 1.6 times more likely to forgo medical care for their families, compared with workers who have the benefit.[14] A 2011 analysis of the NHIS found that when they do seek care, workers without paid sick days—regardless of their educational attainment, income, race/ethnicity and other demographic characteristics—are more likely to use an emergency department for care.[15]

- **Improved family health:** Paid sick days may encourage workers to respond to their children's and family members' health needs in a timely manner, thereby improving overall health outcomes for their families. Paid sick days are a primary factor affecting whether a working parent will stay at home with a sick child rather than sending them to school or child care sick. The 2010 National Opinion Research Center Survey found that

28 percent of workers without paid sick days reported sending a sick child to school or child care, compared with 14 percent of workers with paid sick days.[16] A 2012 study analyzing the 2008 National Study of the Changing Workforce (NSCW) and controlling for worker and job characteristics finds that having paid sick days is associated with reduced work-family conflict, which lessens difficulties parents face in taking time off from work to care for a sick child.[17]

Paid Sick Days Bring Economic Benefits for Workers, Families, and Communities

- **Improved employment and earnings stability:** When incomes are not interrupted by unpaid leave, families experience greater financial stability and economic well-being. According to a 2010 poll, 16 percent of workers surveyed reported losing a job for missing work when they were sick or to care for an ill family member.[18] Research has shown that having paid sick days reduces the likelihood of a job separation by at least 25 percent.[19]

- **Improved labor force attachment among caregivers:** Informal caregivers whose work schedules are incompatible with the care needs of their family members may decrease their work hours or even leave the labor force completely.[20] One 2011 Gallup poll found that most caregivers, including parents, reported missing at least one full day of work to fulfill their caregiving duties with an average of 6.6 workdays missed per year.[21] Paid sick days, however, may provide sufficient leave to caregivers to allow them to maintain their desired level of employment while continuing to perform their caregiving work.

- **Savings from reduced utilization of hospital emergency departments and a lower monetary burden on taxpayers:** A 2011 study using the 2008 and 2009 NHIS finds that the annual number of emergency department visits per worker without paid sick days is greater than it is for those with the benefit. Using MEPS data on the cost of emergency department visits, the study estimates that a lack of paid sick days resulted in an estimated 1.3 million preventable emergency department visits every year in the United States in 2008, costing $1.1 billion more than office visits would have. Part of these costs—$500 million—were paid by public insurance programs such as Medicaid.[22]

Research Finds Benefits of Existing Paid Sick Days Laws and Minimal Costs to Employers

Since the implementation of the first paid sick days law in 2007, several studies have evaluated the impacts of the legislation, with a particular emphasis on the effects on employers. These evaluations have largely found that the overall impact on businesses was minimal. Many firms saw benefits from the policy and counted themselves as supporters after implementing it.

- **Minimal costs:** Costs to employers of providing paid sick days have been modest. In Seattle, evaluations found that the cost of providing paid sick leave in 2013 was only

about 0.4 percent of total firm revenue for the year.[23] In Connecticut, nearly half of 228 employers surveyed in 2013, a year and a half after the state's paid sick days law's implementation, reported having no increased overall cost, and 19.1 percent of employers reported an increased cost of less than 2 percent.[24] In San Francisco, the paid sick leave ordinance created additional costs for a relatively small share of employers. Six out of seven employers reported no adverse effects on profitability.[25]

- **Ease of implementation:** Research shows that paid sick days have minimal effect on business operations. Most San Francisco employers reported that implementing the Paid Sick Leave Ordinance was not difficult.[26] Likewise, about two thirds of Seattle employers reported that implementing the Paid Sick and Safe Time Ordinance was not very difficult, and 70 percent expressed support for the policy a year after implementation of the Ordinance.[27] Similarly, a large majority of Connecticut employers surveyed in 2013 indicated that the Paid Sick Leave Law did not burden business operations.[28]

- **Employees use paid sick days judiciously:** Several years after the implementation of San Francisco's paid sick days law, an IWPR survey of 1,194 workers found that employees in San Francisco used fewer than half of the sick days available under the paid sick leave ordinance.[29] Using data from the 2014 NHIS, IWPR found that most workers who do have access to paid sick days do not use any in a given year.[30] In regions that have passed paid sick day laws, surveys suggest that abuse of paid sick days is rare. Among 228 Connecticut employers surveyed by the Center for Economic and Policy Research, 86 percent reported no known cases of abuse more than a year after paid sick days was implemented.[31] A report published by the City of Seattle auditor finds that more than nine in ten Seattle employers surveyed in 2012 had never reprimanded an employee for abusing paid sick days.[32]

- **Sustained job growth and employment:** In contrast to messaging communicated by big business lobbyists prior to the laws' passage, both Seattle and San Francisco saw positive job growth in the period after their laws took effect, and this job growth was much higher than in the surrounding areas for both cities. San Francisco's growth in employment exceeded the average employment growth of surrounding counties after the paid sick days law was passed.[33] In the 10 months after the adoption of Seattle's Paid Sick and Safe Time Ordinance, King County (where Seattle is located) did not see negative economic impacts; rather, the county saw sustained job growth and reduced unemployment rates.[34]

- **Improved employee morale, motivation, loyalty, and productivity**: Over a quarter of Connecticut employers reported improved morale, 12.5 percent reported increased employee motivation, 10.6 percent reported increased loyalty, and 14.9 percent reported increased productivity after implementation of the state's paid sick days law.[35]

- **Improved work life balance for employees:** A 2010 IWPR survey found that one out of four San Francisco employees reported that paid sick days enabled them to better care for their own and their families' health needs. In addition, nearly 30 percent reported that their employers were more supportive when they needed to use their leave than they were

prior to the law's passage. More than half of all San Francisco workers reported at least one benefit as a result of the ordinance.[36]

- **Reduced flu contagion in locations with paid sick day laws:** One recent study used Google Flu data from 2003 to 2015 to show that influenza-like infection rates decrease significantly when workers gain access to paid sick days. By comparing the rates of influenza-like illnesses in regions with paid sick days policies—including the District of Columbia, Connecticut, California, Massachusetts, and Oregon—with those lacking such laws, the study finds that infection rates decrease by about 10 percent when employees without coverage obtain paid sick days.[37]

Conclusion

Literature spanning the fields of public health, economics, sociology, medicine, social work, and public policy converge to reflect the health, employment, and economic benefits of paid sick days. Research suggests that more widespread implementation of paid sick days policies would have a substantial positive impact on the well-being of children, families, and communities across the United States.

The Institute for Women's Policy Research (IWPR) conducts rigorous research and disseminates its findings to address the needs of women, promote public dialogue, and strengthen families, communities, and societies. The Institute works with policymakers, scholars, and public interest groups to design, execute, and disseminate research that illuminates economic and social policy issues affecting women and their families, and to build a network of individuals and organizations that conduct and use women-oriented policy research. IWPR's work is supported by foundation grants, government grants and contracts, donations from individuals, and contributions from organizations and corporations. IWPR is a 501(c)(3) tax-exempt organization that also works in affiliation with the women's studies, and public policy and public administration programs at The George Washington University.

JASON KANDER
SECRETARY OF STATE
STATE OF MISSOURI

ELECTIONS DIVISION
(573) 751-2301

November 17, 2016

RECEIVED
NOV 17 2016
STATE AUDITORS OFFICE

The Honorable Nicole Galloway
State Auditor
State Capitol Building
Jefferson City, MO 65101

RE: Petition approval request from Richard Von Glahn regarding a proposed statutory amendment to Chapter 285, version 6 (2018-033)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Richard Von Glahn on November 16, 2016.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

Jason Kander

Address of Notary (Street, City, State & Zip Code)

Be it enacted by the people of the State of Missouri:

Fifteen new sections to be known as sections 285.600, 285.603, 285.606, 285.609, 285.612, 285.615, 285.618, 285.621, 285.624, 285.627, 285.630, 285.633, 285.636, 285.639, and 285.642 are enacted to read as follows:

285.600. As used in sections 285.600 through 285.642:

(1) "Construction", includes construction, reconstruction, improvement, enlargement, alteration, painting and decorating, or major repair.

(2) "Construction industry", includes any employer whose employees conduct or perform construction as a principal component of the employer's business or enterprise.

(3) "Department", Department of Labor and Industrial Relations.

(4) "Director", Director of the Department of Labor and Industrial Relations.

(5) "Earned paid sick time", time that is compensated at the same hourly rate and with the same benefits, including health care benefits, as the employee normally earns during hours worked and is provided by an employer to an employee for the purposes described in section 285.606, but in no case shall this hourly amount be less than that provided under section 290.502.

(6) "Employee", any individual employed in this state by an employer, but does not include:

(A) Any individual engaged in the activities of an educational, charitable, religious, or nonprofit organization where the employer-employee relationship does not, in fact, exist or where the services rendered to the organization are on a voluntary basis;

(B) Any individual standing in loco parentis to foster children in their care;

(C) Any individual employed for less than four months in any year in a resident or day camp for children or youth, or any individual employed by an educational conference center operated by an educational, charitable or not-for-profit organization;

(D) Any individual engaged in the activities of an educational organization where employment by the organization is in lieu of the requirement that the individual pay the cost of tuition, housing or other educational fees of the organization or where earnings of the individual employed by the organization are credited toward the payment of the cost of tuition, housing or other educational fees of the organization;

(E) Any individual employed on or about a private residence on an occasional basis for six hours or less on each occasion;

(F) Any individual employed on a casual basis to provide baby-sitting services;

(G) Any individual employed by an employer subject to the provisions of part A of subtitle IV of title 49, United States Code, 49 U.S.C. §§ 10101 et seq.;

(H) Any individual employed on a casual or intermittent basis as a golf caddy, newsboy, or in a similar occupation;

(I) Any individual who is employed in any government position defined in 29 U.S.C. §§ 203(e)(2)(C)(i)-(ii);

(J) Any individual who is an offender, as defined in section 217.010, who is incarcerated in any correctional facility operated by the department of corrections, including offenders who provide labor or services on the grounds of such correctional facility pursuant to section 217.550; or

(K) Any individual engaged in construction work in the construction industry.

(7) "Employer", any person acting directly or indirectly in the interest of an employer in relation to an employee; provided, however, that for the purposes of sections 285.600 through 285.642, "employer" does not include the United States Government, the state, or a political subdivision of the state, including a department, agency, officer, bureau, division, board, commission, or instrumentality of the state, or a city, county, town, village, school district, or other political subdivision of the state.

(8) "Family member", any of the following individuals:

(A) Regardless of age, a biological, adopted or foster child, stepchild or legal ward, a child of a domestic partner, a child to whom the employee stands in loco parentis, or an individual to whom the employee stood in loco parentis when the individual was a minor;

(B) A biological, foster, stepparent or adoptive parent or legal guardian of an employee or an employee's spouse or domestic partner or an individual who stood in loco parentis when the employee or employee's spouse or domestic partner was a minor child;

(C) An individual to whom the employee is legally married under the laws of any state, or a domestic partner who is registered as such under the laws of a political subdivision;

(D) A grandparent, grandchild, or sibling (whether of a biological, foster, adoptive or step relationship) of the employee or the employee's spouse or domestic partner; or

(E) A member of the employee's household.

(9) "Health care professional," any individual licensed under Federal or State law to provide medical or emergency services, including but not limited to doctors, nurses, certified nurse midwives, and emergency room personnel.

(10) "Person", any individual, partnership, association, corporation, business, business trust, legal representative, or any organized group of persons.

(11) "Retaliatory personnel action", denial of any right guaranteed under sections 285.600 through 285.642, or any threat, discharge, suspension, demotion, reduction of hours, or any other adverse action against an employee for the exercise of any right guaranteed herein. "Retaliatory personnel action" shall also include interference with or punishment for in any manner participating in or assisting an investigation, proceeding, or hearing under sections 285.600 through 285.642.

(12) "Year", a regular and consecutive twelve-month period as determined by the employer; except that for the purposes of section 285.615 and section 285.627, "year" shall mean a calendar year.

285.603. 1. Employees of an employer with fifteen or more employees shall accrue a minimum of one hour of earned paid sick time for every thirty hours worked, but such employees shall not be entitled to accrue or use more than forty hours of earned paid sick time per year, unless the employer selects a higher limit.

2. Employees of an employer with fewer than fifteen employees shall accrue a minimum of one hour of earned paid sick time for every thirty hours worked, but such employees shall not be entitled to accrue or use more than twenty-four hours of earned paid sick time per year, unless the employer selects a higher limit.

3. In determining the number of employees performing work for an employer for compensation during a given week, all employees performing work for compensation on a full-time, part-time, or temporary basis shall be counted. In situations in which the number of employees who work for an employer for compensation per week fluctuates above and below fifteen employees per week over the course of the year, an employer is required to provide earned paid sick time pursuant to subsection (1) of this section if it maintained fifteen or more employees on the payroll for some portion of a day in each of twenty different calendar weeks, whether or not the weeks were consecutive, in either the current or the preceding year (irrespective of whether the same individuals were in employment in each day).

4. All employees shall accrue earned paid sick time as follows:

(A) Earned paid sick time as provided in this section shall begin to accrue at the commencement of employment or ninety days after this law goes into effect, whichever is later. An employer may provide all paid sick time that an employee is expected to accrue in a year at the beginning of the year.

(B) An employee may use earned paid sick time as it is accrued, except that an employer may require an employee hired more than ninety days after this law goes into effect to wait until the ninetieth calendar day after commencing employment before using accrued earned paid sick time, unless otherwise permitted by the employer.

(C) Employees who are exempt from overtime requirements under 29 U.S.C. § 213(a)(1) of the Federal Fair Labor Standards Act will be assumed to work forty hours in each work week for purposes of earned paid sick time accrual unless their normal work week is less than forty hours, in which case earned paid sick time accrues based upon that normal work week.

(D) Earned paid sick time shall be carried over to the following year, subject to the limitations on usage in subsections (1) and (2) of this section. Alternatively, in lieu of carryover of unused earned paid sick time from one year to the next, an employer may pay an employee for unused earned paid sick time at the end of a year and provide the employee with an amount of paid sick time that meets or exceeds the requirements of sections 285.600 through 285.642 that is available for the employee's immediate use at the beginning of the subsequent year.

(E) If an employee is transferred to a separate division, entity, or location, but remains employed by the same employer, the employee is entitled to all earned paid sick time accrued at the prior division, entity, or location and is entitled to use all earned paid sick time as provided in this section. When there is a separation from employment and the employee is rehired within nine months of separation by the same employer, previously accrued earned paid sick time that had not been used shall be reinstated. Further, the employee shall be entitled to use accrued earned paid sick time and accrue additional earned paid sick time at the re-commencement of employment.

(F) When a different employer succeeds or takes the place of an existing employer, all employees of the original employer who remain employed by the successor employer are entitled to all earned paid sick time they accrued when employed by the original employer, and are entitled to use earned paid sick time previously accrued.

(G) At its discretion, an employer may loan earned paid sick time to an employee in advance of accrual by such employee.

5. Any employer with a paid leave policy, such as a paid time off policy, who makes available an amount of paid leave sufficient to meet the accrual requirements of this section that may be used for the same purposes and under the same conditions as earned paid sick time under sections 285.600 through 285.642 is not required to provide additional paid sick time.

6. Nothing in this section shall be construed as requiring financial or other reimbursement to an employee from an employer upon the employee's termination, resignation, retirement, or other separation from employment for accrued earned paid sick time that has not been used.

285.606. 1. Earned paid sick time shall be provided to an employee by an employer for:

(A) An employee's mental or physical illness, injury, or health condition; an employee's need for medical diagnosis, care, or treatment of a mental or physical illness, injury, or health condition; an employee's need for preventive medical care;

(B) Care of a family member with a mental or physical illness, injury, or health condition; care of a family member who needs medical diagnosis, care, or treatment of a mental or physical illness, injury, or health condition; care of a family member who needs preventive medical care; or

(C) Closure of the employee's place of business by order of a public official due to a public health emergency, or an employee's need to care for a child whose school or place of care has been closed by order of a public official due to a public health emergency, or care for oneself or a family member when it has been determined by the health authorities having jurisdiction or by a health care provider that the employee's or family member's presence in the community may jeopardize the health of others because of his or her exposure to a communicable disease, whether or not the employee or family member has actually contracted the communicable disease.

2. Earned paid sick time shall be provided upon the request of an employee. Such request may be made orally, in writing, by electronic means or by any other means acceptable to the employer. When possible, the request shall include the expected duration of the absence.

3. When the use of earned paid sick time is foreseeable, the employee shall make a good faith effort to provide notice of the need for such time to the employer in advance of the use of the earned paid sick time and shall make a reasonable effort to schedule the use of earned paid sick time in a manner that does not unduly disrupt the operations of the employer. Where such need is not foreseeable, an employer may require an employee to provide notice of the need for the use of earned paid sick time as soon as practicable.

4. An employer that requires notice of the need to use earned paid sick time where the need is not foreseeable shall provide a written policy that contains procedures for the employee to provide notice. An employer that has not provided to the employee a copy of its written policy for providing such notice shall not deny earned paid sick time to the employee based on non-compliance with such a policy.

5. An employer may not require, as a condition of an employee's taking earned paid sick time, that the employee search for or find a replacement worker to cover the hours during which the employee is using earned paid sick time.

6. Earned paid sick time may be used in the smaller of hourly increments or the smallest increment that the employer's payroll system uses to account for absences or use of other time.

7. For earned paid sick time of three or more consecutive work days, an employer may require reasonable documentation that the earned paid sick time has been used for a purpose covered by subsection (1) of this section. Documentation signed by a heath care professional indicating that earned paid sick time is necessary shall be considered reasonable documentation for purposes of this section. An employer may not require that the documentation explain the nature of the illness unless otherwise required by law.

285.609. 1. It shall be unlawful for an employer or any other person to interfere with, restrain, or deny the exercise of, or the attempt to exercise, any right protected under sections 285.600 through 285.642.

2. An employer shall not take retaliatory personnel action or discriminate against an employee or former employee because he or she has exercised rights protected under sections 285.600 through 285.642. Such rights include, but are not limited to, the right to request or use earned paid sick time pursuant to sections 285.600 through 285.642; the right to file a complaint or inform any person about any employer's alleged violation of sections 285.600 through 285.642; the right to participate in an investigation, hearing, or proceeding or cooperate with or assist the Department in any investigations of alleged violations of sections 285.600 through 285.642; and the right to inform any person of his or her potential rights under sections 285.600 through 285.642.

3. It shall be unlawful for an employer's absence control policy to count earned paid sick time taken under sections 285.600 through 285.642 as an absence that may lead to or result in discipline, discharge, demotion, suspension, or any other adverse action.

4. Protections of this section shall apply to any individual who mistakenly but in good faith alleges violations of sections 285.600 through 285.642.

285.612. 1. Employers shall give employees written notice of the following at the commencement of employment or by ninety days after this law goes into effect, whichever is later: employees are entitled to earned paid sick time and the amount of earned paid sick time, the terms of its use guaranteed under sections 285.600 through 285.642, that retaliatory personnel action against employees who request or use earned paid sick time is prohibited, that each employee has the right to bring a civil action if earned paid sick time as required by sections 285.600 through 285.642 is denied by the employer or the employee is subjected to retaliatory personnel action for requesting or taking earned paid sick time, and, if applicable, the contact information for the Department where questions about rights and responsibilities under sections 285.600 through 285.642 may be answered.

2. Employers shall display a poster that contains the information required in subsection (1) of this section in a conspicuous and accessible place in each establishment where such employees are employed, provided that such poster has been provided by the Department.

3. The Department may create and make available to employers, model notices and posters that contain the information required under subsection (1) of this section for employers' use in complying with subsections (1)

and (2) of this section. Nothing in this subsection shall be interpreted or applied, either expressly or through practical necessity, to require the Department to create or make available notices or posters if it requires the appropriation of funds to cover the costs of such acts.

285.615. 1. Employers shall retain records documenting hours worked by employees and earned paid sick time taken by employees, for a period of not less than three years, and shall allow the Department access to such records, with appropriate notice and at a mutually agreeable time, to monitor compliance with the requirements of sections 285.600 through 285.642.

2. To the extent permitted by law, the Director may inspect such records, and the records shall be open for inspection by the Director by appointment. Where the records required under this section are kept outside the state, the records shall be made available to the Director upon demand. Every such employer shall furnish to the Director on demand a sworn statement of time records and information upon forms prescribed or approved by the Director. All the records and information obtained by the Department are confidential and shall be disclosed only on order of a court of competent jurisdiction.

3. Nothing in this section shall be interpreted or applied, either expressly or through practical necessity, to require the Department or Director to access or inspect records or to create forms relating to the inspection of records if it requires the appropriation of funds to cover the costs of such acts.

285.618. 1. The Department may, in accordance with chapter 536, promulgate rules to implement the provisions of sections 285.600 through 285.642. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2018, shall be invalid and void.

2. Nothing in this section shall be interpreted or applied, either expressly or through practical necessity, to require the promulgation or adoption of rules if it requires the appropriation of funds to cover the costs of such acts.

285.621. 1. To the extent permitted by law, the Department may investigate and ascertain compliance with sections 285.600 through 285.642, establish and implement a system to receive complaints regarding non-compliance with sections 285.600 through 285.642 and to investigate and attempt to resolve complaints through mediation between the complainant and the subject of the complaint, and establish additional means of enforcement to the extent permitted by the law.

2. The Department may develop and implement an outreach program to inform employees, parents, and persons who are under the care of a health care provider about the availability of earned paid sick time under sections 285.600 through 285.642. This program may include the distribution of notices and other written materials to child care and elder care providers, domestic violence shelters, schools, hospitals, community health centers and other health care providers in Missouri.

3. Nothing in this section shall be interpreted or applied, either expressly or through practical necessity, to require the Department to conduct investigations and ascertain compliance with sections 285.600 through 285.642, to establish and implement a system to receive or resolve complaints, to establish additional means of enforcement, or to conduct outreach and education, including the creation of notices and other written materials, concerning sections 285.600 through 285.642, if it requires the appropriation of funds to cover the costs of such acts.

285.624. 1. To the extent permitted by law, any employer who violates or fails to comply with any of the provisions and requirements of sections 285.600 through 285.642 shall be guilty of a class C misdemeanor and shall be punished for each violation thereof by a fine, up to the maximum allowed under state law for violation of a class C misdemeanor; provided, however, that an employer who willfully violates the notice and posting requirements of section 285.612 shall be guilty of an infraction and shall be punished for each violation thereof by a fine, up to the maximum allowed under state law for an infraction.

2. For purposes of this section, each day of violation or failure to comply and each employee affected shall constitute a separate offense.

285.627. 1. Any individual who claims to have been aggrieved by a failure of an employer to comply with any portion of sections 285.600 through 285.642, including but not limited to the failure to provide earned paid sick time or to allow employees to use such time consistent with sections 285.600 through 285.642, or who claims to have suffered a retaliatory personnel action, shall have a right of action and may commence a civil action in the appropriate court of jurisdiction within three years of the accrual of the cause of action, to obtain appropriate relief with respect to such unlawful violation.

2. In a civil action under this section, if the court finds a violation has occurred, the court may grant as relief, as it deems appropriate and to the extent permitted by law, any permanent or temporary injunction, the full amount of any unpaid earned sick time plus any actual damages suffered as the result of the employer's violation of sections 285.600 through 285.642, an additional amount equal to twice any unpaid earned sick time as liquidated damages, costs, and reasonable attorney's fees as may be allowed by the court, and other legal or equitable relief as may be appropriate to remedy the violation, including, without limitation, reinstatement to

employment and back pay. Any agreement between the employee and the employer to waive the protections of sections 285.600 through 285.642 shall be no defense to the action.

285.630. 1. Except as otherwise required by law, an employer may not require disclosure of details relating to an employee's or an employee's family member's health information as a condition of providing earned paid sick time under sections 285.600 through 285.642.

2. Unless as otherwise required by law, any health information possessed by an employer regarding an employee or employee's family member must:

(A) be maintained on a separate form and in a separate file from other personnel information;

(B) be treated as confidential medical records; and

(C) not be disclosed except to the affected employee or with the express written permission of the affected employee.

285.633. 1. With respect to employees covered by a valid collective bargaining agreement in effect on the effective date of sections 285.600 through 285.642, no provisions of sections 285.600 through 285.642 shall apply until the stated expiration date in the collective bargaining agreement.

2. Nothing in sections 285.600 through 285.642 shall be deemed to interfere, impede, or otherwise diminish the right of employees to bargain collectively through representatives of their own choosing.

285.636. 1. Nothing in sections 285.600 through 285.642 shall be construed to discourage or prohibit an employer from the adoption or retention of an earned paid sick time policy more generous than the one required herein.

2. Nothing in sections 285.600 through 285.642 shall be construed as diminishing the obligation of an employer to comply with any contract, collective bargaining agreement, employment benefit plan, or other agreement providing more generous paid sick time to an employee than required herein. Nothing in sections 285.600 through 285.642 shall be construed as diminishing the rights of public employees regarding paid sick time or use of paid sick time as provided in the laws of Missouri pertaining to public employees.

285.639. 1. Sections 285.600 through 285.642 provide minimum requirements pertaining to earned paid sick time and shall not be construed to preempt, limit, or otherwise affect the applicability of any other law, regulation, requirement, policy, or standard that provides for greater accrual or use by employees of earned paid sick time or that extends other protections to employees.

2. Nothing in sections 285.600 through 285.642 shall be interpreted or applied to create a power or obligation contrary to any federal law, rule, or regulation.

285.642. Except as detailed in section 285.618, all of the provisions of sections 285.600 through 285.642 are severable, and if any provision, including any section, subsection, subdivision, paragraph, sentence, or clause, or the application thereof to any person or circumstance, is found by a court of competent jurisdiction to be invalid, unconstitutional, or unconstitutionally enacted, such decision shall not affect other provisions or applications of sections 285.600 through 285.642 that can be given effect without the invalid, unconstitutional, or unconstitutionally enacted provision or application, and to this end the provisions of sections 285.600 through 285.642 are declared severable.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-033)

Subject

Initiative petition from Richard Von Glahn regarding a proposed amendment to Chapter 285 of the Revised Statutes of Missouri. (Received November 17, 2016)

Date

December 7, 2016

Description

This proposal would amend Chapter 285 of the Revised Statutes of Missouri.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** the **Missouri Lottery,** the **Public Service Commission,** the **State Tax Commission,** the **Missouri Technology Corporation,** the **Missouri Life Sciences Research Board,** the **Missouri Veterans Commission,** the **Missouri Ethics Commission,** the **Missouri Office of Prosecution Services,** the **Kansas City Boards of Police Commissioners,** the **St. Louis City Board of Police Commissioners,** the **St. Louis County Board of Elections,** the **Board of Election Commissioners City of St.**

Louis, the **Kansas City Board of Election Commissioners,** the **Platte County Board of Elections,** the **Jackson County Election Board,** the **Clay County Board of Election Commissioners,** the **Lieutenant Governor's office,** the **Children's Trust Fund,** the **Missouri Joint Municipal Electric Utility Commission,** the **State Auditor's office, University of Central Missouri, Harris-Stowe State University, Lincoln University, Missouri Southern State University, Missouri Western State University, Northwest Missouri State University, Southeast Missouri State University,** and **Truman State University**.

Lara Granich and Missouri Jobs with Justice Voter Action provided information as proponents of the proposal to the State Auditor's office.

Officials from the **Attorney General's office** indicated various provisions of the proposal authorize their department to promulgate rules, establish mediation procedures "and additional means of enforcement… ." They assume that their office may provide some review of proposals, but assume that any potential costs arising from this proposal can be absorbed with existing resources. They may seek additional appropriations if there is an increased review of rules in later years.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated they will be deferring to the Office of Administration and the Department of Labor and Industrial Relations regarding any fiscal impact this initiative petition might have.

Officials from the **Department of Higher Education** indicated the state, including departments, are exempt from the definition of "employer," so this initiative petition would not have a fiscal impact on their department.

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition does not apply to public employers with respect to its employees. Therefore, this petition, if passed, would have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated there is no fiscal impact to their department as a result of this initiative petition. Section 285.600 (5) indicates "for the purposes of sections 285.600 through 285.642 "employer" does not include the United States Government, the state, …., including a department, agency, …."

Officials from the **Department of Corrections** indicated they defer to the Office of Administration.

Officials from the **Department of Labor and Industrial Relations** indicated they expect no change in revenues or expenses in fiscal years 2017, 2018, and 2019.

The petition, if passed by voters, would require businesses with 15 or more employees to provide paid sick time. It also would allow their department to educate employers, take complaints, and perform investigations of violations of the new law.

The long-range fiscal implications are the same as those of the estimate period.

Under the new language, they may educate employers and employees, promulgate rules, take complaints, and conduct investigations of alleged violations of the new provisions. They believe the education, registration of complaints, and investigations would be conducted in a manner similar to those conducted under the Minimum Wage program. Using employer information from the United States Census Bureau for employers with more than ten employees, they estimate that it would receive complaints from 1.5% of the estimated 40,886 businesses with 10 or more employees, or 613 complaints annually. (The Census Bureau does not break employers at the 15 or more level.) To investigate these 613 complaints, they would require 3.50 Wage & Hour Investigator I/IIs. In FY 2016, 578 complaints were closed by 3.50 Investigators, averaging 165 per FTE. Using this calculation, they estimate it would need 3.50 FTE and the standard per FTE expenses and equipment to complete these activities.

However, Sections 285.612, 285.615, 285.618, and 285.621 expressly state that they are not required to take on the new duties it is authorized to perform under this proposal if doing so will require an appropriation to cover the costs of performing the duties. Because these duties are optional and are not required of their department, if there is no appropriation made to cover the cost, they estimate no mandated fiscal impact for this proposal.

Officials from the **Department of Revenue** indicated they defer this fiscal note to the Office of Administration for a statewide response.

Officials from the **Department of Public Safety** indicated they will defer to the Office of Administration response to this petition.

Officials from the **Department of Social Services** indicated they will defer to the Office of Administration response to this petition. They indicated no fiscal impact on their department.

Officials from the **Governor's Office** indicated there should be no fiscal impact to their office.

Officials from the **House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated no fiscal impact.

Officials from the **Office of Administration** indicated:

This initiative petition adds 15 new sections to Chapter 285 related to sick leave.

Under this proposal, employers would be required to provide paid sick leave to employees. The amount would be dependent upon the number of employees. It does not include employees covered under a valid collective bargaining agreement and it provides employees with an avenue of recourse if the employee claims to be aggrieved.

The State of Missouri is excluded from the provisions of this proposal, therefore there would be no statewide impact related to this proposal other than potentially higher costs for services purchased by the state. However, the Department of Labor and Industrial Relations (DOLIR) will be impacted. Budget and Planning defers to the DOLIR for the specific impact to that agency.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated no fiscal impact on their office.

Officials from the **Secretary of State's office** indicated their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any impact on their office, as they are an independent department within state government and by definition state employees are exempt from this proposed legislation.

Officials from the **State Treasurer's office** indicated this would have no fiscal impact on their office.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from the **City of Columbia** indicated there is no impact on their city.

Officials from the **City of Kansas City** indicated no direct fiscal impact is anticipated if this proposal is adopted because cities are not employers. An indirect cost to cities may arise through increased labor costs of those vendors contracting with the city.

Officials from the **City of Raymore** indicated no fiscal impact.

Officials from the **City of St. Joseph** indicated this initiative petition could have a fiscal impact on local government.

Officials from **University of Missouri** indicated they have reviewed this proposed legislation and have determined that for benefit eligible employees (defined as working .75 or >) that it does not appear that the proposed legislation as written would create a significant fiscal impact to their university.

Officials from the **Missouri Lottery** indicated no fiscal impact to their agency.

Officials from the **Public Service Commission** indicated no fiscal impact on their agency.

Officials from the **State Tax Commission** indicated this initiative petition pertaining to sick leave in Chapter 285 does not directly impact their office. As a state agency this matter is under the direction of Office of Administration, Division of Personnel.

Officials from the **Missouri Veterans Commission** indicated no fiscal impact to their agency.

Officials from the **Missouri Office of Prosecution Services** indicated no measurable fiscal impact to their office.

Officials from the **Kansas City Boards of Election Commissioners** indicated there is no fiscal impact with amendments to Chapter 285, Versions 1 -12, since the State is not responsible for costs associated with the November 2018 election.

Officials from the **Platte County Board of Elections** indicated the proposed initiative would have no fiscal impact on their office.

Officials from the **Jackson County Election Board** indicated no fiscal impact on their office.

Officials from the **Lieutenant Governor's office** indicated it is anticipated that this initiative petition will impose little to no costs or savings on their office.

Officials from the **Children's Trust Fund** indicated they are part of the Office of Administration and thus will be covered by the Office of Administration's official response. They will not be responding separately.

Officials from the **Missouri Joint Municipal Electric Utility Commission** indicated:

The Missouri Association of Municipal Utilities represents approximately 120 cities in Missouri providing utility services to their customer/owners. They do not represent cities in their general business operation. That representation is undertaken by the Missouri Municipal League and its executive director Dan Ross.

Based on a review of each of the 12 versions it appears that there would be no direct cost to any of their cities since the framers of the amendment specifically excluded cities from the definition of employers and city employees from coverage of the proposed changes.

However, it is possible that cities may experience some increases in the cost of goods and services consumed in the regular course of business as a result of higher labor input costs. It is impossible to accurately predict those increases other than to make you aware of the potential.

Officials from the **State Auditor's office** indicated there is no fiscal impact for their office.

Officials from **University of Central Missouri** indicated if they are included in the definition of "employer" that would be impacted by this legislation, they would have an additional cost of roughly $340,000. In fiscal year 2016, part-time employees worked nearly 679,000 hours. If each 30 hours resulted in one sick time hour, that would be 22,634 hours. At an average rate of $15/hour, that would have a fiscal impact of $340,000.

If the definition of employer is interpreted to exclude UCM because of its status as a state agency, then there would be no fiscal impact.

Officials from **Missouri State University** indicated no fiscal impact on their university.

Officials from **Missouri Southern State University** indicated they do not anticipate any fiscal impact from this initiative petition.

Lara Granich and Missouri Jobs with Justice Voter Action provided the following information as proponents of this initiative petition.

Re: Fiscal Impact Analysis of Earned Sick Time Petitions
Petitions numbered by MO SOS at 2018-28 to 2018-39

This letter is from Lara Granich and Missouri Jobs with Justice Voter Action, proponents of the above-referenced initiative petitions. Pursuant to RSMo. Section 116.175, we write to submit the following information to assist your office in its analysis of the fiscal impact of the above-mentioned twelve proposed Earned Sick Time Petitions.

This analysis uses data collected by the U.S. Bureau of Labor Statistics, the Centers for Disease Control and Prevention, and the U.S. Census Bureau to evaluate the impact of earned sick time laws in Missouri. This analysis uses findings from previous peer-reviewed research to estimate cost-savings associated with the proposed policies through reduced turnover, reduced spread of contagious disease in the workplace, prevention of productivity losses from employees working while sick, minimized nursing-home stays, and reduced norovirus outbreaks in nursing homes. We also address certain claims that have been made by opponents in the past.

I. Estimate of Number of Workers Affected Statewide

According to the Institute for Women's Policy Research, an estimated 1,002,116 private sector workers in Missouri, or 45.9 percent of the workforce, cannot earn a single paid sick day to use to recover from common illnesses or seek medical care.[1]

II. Direct Costs to State

As these proposed initiatives exclude public workers employed by the state or by local governments, the initiatives are not expected to have any direct impact on state and local payroll costs. Enforcement would be handled by existing staff at the Department of Labor.

III. Economic Literature on the Impact of Earned Sick Time on Businesses

This analysis quantifies only a subset of potential benefits, predicting a net economic benefit from both of the proposed laws. Likely additional benefits from paid sick days not quantified in this analysis include: reduced health care spending due to reduced public contagion and more timely and regular preventive care and treatment; improved economic security among families who receive pay on sick days and are less likely to be fired or disciplined for taking sick time; and improved school outcomes and reduced contagion in schools, when parents can avoid sending sick children to school or child care.

Millions of workers have gained access to paid sick days in recent years through new laws in five states, 23 cities, and one county across the country. There is no evidence of business closures/layoffs as a result of earned sick time laws. Both Seattle and San Francisco saw positive job growth in the period after their laws took effect, and this job growth was much higher than in the surrounding areas for both cities. San Francisco's growth in employment exceeded the average employment growth of surrounding counties after the paid sick days law was passed. In the 10 months after the adoption of Seattle's Paid Sick and Safe Time Ordinance, King County (where Seattle is located) did not see negative economic impacts; rather, the county saw sustained job growth and reduced unemployment rates. 2

The Washington D.C. Auditor reported "that the Accrued Sick and Safe Leave Act did not have the economic impact of encouraging business owners to move a business from the District nor did the Act have the economic impact of discouraging business owners to locate a business in the District of Columbia."3 New York City reported that "New York City's economy has thrived since the enactment of PSL [paid sick leave]. Between January 2014 and January 2015, a period that covers the law's implementation, economic indicators were a cause for celebration, not concern as many had predicted." 4

Summary of Benefits Associated With Missouri's Proposed Earned Sick Time Law

Benefits	Firms with <50 Employees			Firms with 50+ Employees		
	Dollars	Average per-worker savings		Dollars	Average per-worker costs/savings	
BENEFITS						
Lower Turnover	$32,718,875			$146,675,016		
Reduced Flu Contagion in the Workplace	$1,334,044			$5,980,370		
		Weekly	*Hourly*		*Weekly*	*Hourly*
Employers' Savings	**$34,052,920**	**$6.97**	**$0.21**	**$152,655,386**	**$9.44**	**$0.26**
Reduced Short-Term Nursing Home Stays	$2,415,006			$8,165,162		
Reduced Norovirus in Nursing Homes	$21,692			$93,129		
Reduced Flu Contagion	$233,249			$771,691		
Reduced Emergency Department Visits	$3,512,104			$11,619,581		
		Weekly	*Hourly*		*Weekly*	*Hourly*
Community Savings	**$6,182,052**	**$1.26**	**$0.04**	**$20,649,564**	**$1.28**	**$0.03**

Note: "Small" firms are defined in the proposed laws at firms employing fewer than 15 employees and "Large" firms are defined as firms employing 15 or more employees.

Source: Institute for Women's Policy Research Analysis of the 2014 American Community Survey (ACS), the 2016 National Compensation Survey (NCS), the 2013-2016 Current Population Survey Annual Social and Economic Supplement (CPS ASEC), the 2010 Current Population Survey Displaced Worker, Employee Tenure, and Occupational Mobility Supplement File, and the 2014-2015 National Health Interview Survey (NHIS).

Note on Methodology

The estimates are based on analyses of the following data sets: the 2013–2016 Current Population Survey Annual Social and Economic Supplement (CPS ASEC), the 2014-2015 National Health Interview Survey (NHIS), the 2014 American Community Survey (ACS), the 2016 National Compensation Survey and the 2014 Medical Expenditure Panel Survey along with findings from previous peer-reviewed research.

This analysis was limited to only private sector workers as the proposed legislation only covers such workers. The proposed legislation does include some small exemptions for certain employees which this analysis does not account for. Excluding such workers would result in minor reductions in both the costs and benefits estimated, but general trends would remain the same. To learn more about the methodology and sources please see "Valuing Good Health in Maryland: The Costs and Benefits of Earned Sick Days"[5]

We hope that this information is useful to your office as your prepare your analyses of the petitions.

Respectfully submitted,
Lara Granich
Missouri Jobs with Justice Voter Action

IWPR #B361 July 2016

Paid Sick Days Benefit Employers, Workers, and the Economy

Jessica Milli, PhD., Jenny Xia, and Jisun Min

Millions of workers have gained access to paid sick days in recent years through new laws in five states, 23 cities, and one county across the country.[1] Yet millions more still would not be paid if they need to stay at home when they are sick or need to care for a family member who is ill. As of 2014, 51 million workers lacked access to paid sick days.[2]

Research has documented many benefits of paid sick days policies for workers, businesses, and communities as a whole. These benefits would multiply substantially if more workers gained access to paid sick days. This briefing paper summarizes research on the benefits of paid sick days and the effects of paid sick days policies in places that have them.

Employers Benefit from Paid Sick Days

- **Reduced contagion in the workplace:** A 2010 survey conducted by the National Opinion Research Center found that employees without access to paid sick days are 1.5 times more likely than those with access to go to work with a contagious illness (55 percent compared with 37 percent).[3] Such "presenteeism" has serious public health consequences including flu contagion. A 2010 analysis of labor force and Centers for Disease Control data estimated that more than one in four private sector employees worked while ill with H1N1 during the 2009 H1N1 pandemic, resulting in the estimated infection of 7 million co-workers with H1N1. Work absences from illness dropped more precipitously among public sector workers than among private sector workers during the decline of the pandemic. Because employees in the public sector have greater access to paid sick days, the finding suggests that paid sick days played a role in slowing contagion and potentially in speeding recovery.[4] A 2013 study employed a model simulating influenza contagion to estimate reductions in contagion rates under a universal paid sick days policy. Using data from the American Community Survey, LandScan USA, and the U.S. Census, the study estimated that providing paid sick days would reduce workplace influenza infection in the United States by about 6 percent.[5]

- **Improved productivity:** When workers come to work sick, their productivity and performance suffer. Estimates of productivity losses vary across studies. A 1997 study polling 332 workers who had influenza-like illnesses found that workers on average reported being 46 percent less effective while ill at work.[6] A 2003 study based on interviews with more than 28,000 workers reported that on average, workers lose 1.32 hours per week of productive time due to personal health related reasons.[7] Since workers

with access to paid sick days are less likely to come to work sick and infect their co-workers,[8] paid sick days can prevent further productivity losses resulting from illness and contagion in the workplace.

- **Decreased workplace injuries:** Working while sick also puts employees at greater risk of injury on the job. A 2012 study using the 2005 through 2008 National Health Interview Survey (NHIS) found that after controlling for factors like survey year, occupational sector, firm size, region, and the availability of paid sick leave, workers with access to paid sick days are 28 percent less likely to be injured on the job than workers without this benefit.[9]

- **Decreased employee turnover:** A 2012 analysis of data collected between 2004 and 2006 through the Medical Expenditure Panel Survey (MEPS) finds that the likelihood of job separation decreases by about 25 percent when a worker has access to paid sick days, even after controlling for potential confounding factors such as workers' educational attainment, earnings, and race/ethnicity.[10] As employee turnover typically costs an employer between 10 and 30 percent of an employee's annual salary,[11] a reduction in turnover can result in significant reductions in employer costs.

Paid Sick Days Improve Public Health

- **Increased use of preventive care:** Since paid sick days can be used for doctor visits, workers with paid sick days are more likely to seek preventive care and to be screened for diseases such as cancer, which can lead to early detection and treatment. A 2012 study using 2008 National Health Interview Survey (NHIS) data finds that after controlling for sociodemographic and health-care-related factors, workers with paid sick days are significantly more likely to have had mammograms, Pap tests, and endoscopy, and to have seen a doctor during the previous year than those without the benefit.[12]

- **More timely treatment for illnesses:** Workers without paid sick days are more likely to delay medical care when they or a family member is ill which can lead to a more serious or prolonged illness.[13]A 2016 analysis of the 2013 NHIS—which controlled for demographic and health-related factors like race and ethnicity, occupation, annual family income, and health insurance coverage—indicates that workers without paid sick leave are three times more likely to forgo medical care for themselves, and 1.6 times more likely to forgo medical care for their families, compared with workers who have the benefit.[14] A 2011 analysis of the NHIS found that when they do seek care, workers without paid sick days—regardless of their educational attainment, income, race/ethnicity and other demographic characteristics—are more likely to use an emergency department for care.[15]

- **Improved family health:** Paid sick days may encourage workers to respond to their children's and family members' health needs in a timely manner, thereby improving overall health outcomes for their families. Paid sick days are a primary factor affecting whether a working parent will stay at home with a sick child rather than sending them to school or child care sick. The 2010 National Opinion Research Center Survey found that

28 percent of workers without paid sick days reported sending a sick child to school or child care, compared with 14 percent of workers with paid sick days.[16] A 2012 study analyzing the 2008 National Study of the Changing Workforce (NSCW) and controlling for worker and job characteristics finds that having paid sick days is associated with reduced work-family conflict, which lessens difficulties parents face in taking time off from work to care for a sick child.[17]

Paid Sick Days Bring Economic Benefits for Workers, Families, and Communities

- **Improved employment and earnings stability:** When incomes are not interrupted by unpaid leave, families experience greater financial stability and economic well-being. According to a 2010 poll, 16 percent of workers surveyed reported losing a job for missing work when they were sick or to care for an ill family member.[18] Research has shown that having paid sick days reduces the likelihood of a job separation by at least 25 percent.[19]

- **Improved labor force attachment among caregivers:** Informal caregivers whose work schedules are incompatible with the care needs of their family members may decrease their work hours or even leave the labor force completely.[20] One 2011 Gallup poll found that most caregivers, including parents, reported missing at least one full day of work to fulfill their caregiving duties with an average of 6.6 workdays missed per year.[21] Paid sick days, however, may provide sufficient leave to caregivers to allow them to maintain their desired level of employment while continuing to perform their caregiving work.

- **Savings from reduced utilization of hospital emergency departments and a lower monetary burden on taxpayers:** A 2011 study using the 2008 and 2009 NHIS finds that the annual number of emergency department visits per worker without paid sick days is greater than it is for those with the benefit. Using MEPS data on the cost of emergency department visits, the study estimates that a lack of paid sick days resulted in an estimated 1.3 million preventable emergency department visits every year in the United States in 2008, costing $1.1 billion more than office visits would have. Part of these costs—$500 million—were paid by public insurance programs such as Medicaid.[22]

Research Finds Benefits of Existing Paid Sick Days Laws and Minimal Costs to Employers

Since the implementation of the first paid sick days law in 2007, several studies have evaluated the impacts of the legislation, with a particular emphasis on the effects on employers. These evaluations have largely found that the overall impact on businesses was minimal. Many firms saw benefits from the policy and counted themselves as supporters after implementing it.

- **Minimal costs:** Costs to employers of providing paid sick days have been modest. In Seattle, evaluations found that the cost of providing paid sick leave in 2013 was only

about 0.4 percent of total firm revenue for the year.[23] In Connecticut, nearly half of 228 employers surveyed in 2013, a year and a half after the state's paid sick days law's implementation, reported having no increased overall cost, and 19.1 percent of employers reported an increased cost of less than 2 percent.[24] In San Francisco, the paid sick leave ordinance created additional costs for a relatively small share of employers. Six out of seven employers reported no adverse effects on profitability.[25]

- **Ease of implementation:** Research shows that paid sick days have minimal effect on business operations. Most San Francisco employers reported that implementing the Paid Sick Leave Ordinance was not difficult.[26] Likewise, about two thirds of Seattle employers reported that implementing the Paid Sick and Safe Time Ordinance was not very difficult, and 70 percent expressed support for the policy a year after implementation of the Ordinance.[27] Similarly, a large majority of Connecticut employers surveyed in 2013 indicated that the Paid Sick Leave Law did not burden business operations.[28]

- **Employees use paid sick days judiciously:** Several years after the implementation of San Francisco's paid sick days law, an IWPR survey of 1,194 workers found that employees in San Francisco used fewer than half of the sick days available under the paid sick leave ordinance.[29] Using data from the 2014 NHIS, IWPR found that most workers who do have access to paid sick days do not use any in a given year.[30] In regions that have passed paid sick day laws, surveys suggest that abuse of paid sick days is rare. Among 228 Connecticut employers surveyed by the Center for Economic and Policy Research, 86 percent reported no known cases of abuse more than a year after paid sick days was implemented.[31] A report published by the City of Seattle auditor finds that more than nine in ten Seattle employers surveyed in 2012 had never reprimanded an employee for abusing paid sick days.[32]

- **Sustained job growth and employment:** In contrast to messaging communicated by big business lobbyists prior to the laws' passage, both Seattle and San Francisco saw positive job growth in the period after their laws took effect, and this job growth was much higher than in the surrounding areas for both cities. San Francisco's growth in employment exceeded the average employment growth of surrounding counties after the paid sick days law was passed.[33] In the 10 months after the adoption of Seattle's Paid Sick and Safe Time Ordinance, King County (where Seattle is located) did not see negative economic impacts; rather, the county saw sustained job growth and reduced unemployment rates.[34]

- **Improved employee morale, motivation, loyalty, and productivity**: Over a quarter of Connecticut employers reported improved morale, 12.5 percent reported increased employee motivation, 10.6 percent reported increased loyalty, and 14.9 percent reported increased productivity after implementation of the state's paid sick days law.[35]

- **Improved work life balance for employees:** A 2010 IWPR survey found that one out of four San Francisco employees reported that paid sick days enabled them to better care for their own and their families' health needs. In addition, nearly 30 percent reported that their employers were more supportive when they needed to use their leave than they were

prior to the law's passage. More than half of all San Francisco workers reported at least one benefit as a result of the ordinance.[36]

- **Reduced flu contagion in locations with paid sick day laws:** One recent study used Google Flu data from 2003 to 2015 to show that influenza-like infection rates decrease significantly when workers gain access to paid sick days. By comparing the rates of influenza-like illnesses in regions with paid sick days policies—including the District of Columbia, Connecticut, California, Massachusetts, and Oregon—with those lacking such laws, the study finds that infection rates decrease by about 10 percent when employees without coverage obtain paid sick days.[37]

Conclusion

Literature spanning the fields of public health, economics, sociology, medicine, social work, and public policy converge to reflect the health, employment, and economic benefits of paid sick days. Research suggests that more widespread implementation of paid sick days policies would have a substantial positive impact on the well-being of children, families, and communities across the United States.

The Institute for Women's Policy Research (IWPR) conducts rigorous research and disseminates its findings to address the needs of women, promote public dialogue, and strengthen families, communities, and societies. The Institute works with policymakers, scholars, and public interest groups to design, execute, and disseminate research that illuminates economic and social policy issues affecting women and their families, and to build a network of individuals and organizations that conduct and use women-oriented policy research. IWPR's work is supported by foundation grants, government grants and contracts, donations from individuals, and contributions from organizations and corporations. IWPR is a 501(c)(3) tax-exempt organization that also works in affiliation with the women's studies, and public policy and public administration programs at The George Washington University.

JASON KANDER
SECRETARY OF STATE
STATE OF MISSOURI

ELECTIONS DIVISION
(573) 751-2301

November 17, 2016

The Honorable Nicole Galloway
State Auditor
State Capitol Building
Jefferson City, MO 65101

RECEIVED
NOV 17 2016
STATE AUDITORS OFFICE

RE: Petition approval request from Richard Von Glahn regarding a proposed statutory amendment to Chapter 285, version 5 (2018-032)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Richard Von Glahn on November 16, 2016.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

Jason Kander

Be it enacted by the people of the State of Missouri:

Section 285.055 of the Revised Statutes of Missouri is amended and fifteen new sections to be known as sections 285.600, 285.603, 285.606, 285.609, 285.612, 285.615, 285.618, 285.621, 285.624, 285.627, 285.630, 285.633, 285.636, 285.639, and 285.642 are enacted to read as follows:

285.055. 1. As used in this section, the following terms shall mean:

(1) "Employee", an individual employed in this state by an employer;

(2) "Employer", any individual, sole proprietorship, partnership, limited liability company, corporation, or any other entity that is legally doing business in this state; provided, however, that employer shall not include any public employer as defined in section 285.525;

(3) "Employment benefits", anything of value that an employee may receive from an employer in addition to wages and salary. The term includes, but is not limited to, health, disability, retirement, profit-sharing, and death benefits; group accidental death and dismemberment benefits; paid or unpaid days off from work for holidays, [sick leave,] vacation, and personal necessity; and terms of employment, attendance, or leave policies; provided, however, that for purposes of this section, "employment benefits" does not include paid or unpaid days off from work for sick leave that can be used for the purposes listed in subsection (1) of section 285.606.

(4) "Political subdivision", any county, city, town, or village.

2. No political subdivision shall establish, mandate, or otherwise require an employer to provide to an employee:

(1) A minimum or living wage rate; or

(2) Employment benefits;

that exceed the requirements of federal or state laws, rules, or regulations. The provisions of this subsection shall not preempt any state law or local minimum wage ordinance requirements in effect on August 28, 2015.

285.600. As used in sections 285.600 through 285.642:

(1) "Construction", includes construction, reconstruction, improvement, enlargement, alteration, painting and decorating, or major repair.

(2) "Construction industry", includes any employer whose employees conduct or perform construction as a principal component of the employer's business or enterprise.

(3) "Department", Department of Labor and Industrial Relations.

(4) "Director", Director of the Department of Labor and Industrial Relations.

(5) "Earned paid sick time", time that is compensated at the same hourly rate and with the same benefits, including health care benefits, as the employee normally earns during hours worked and is provided by an employer to an employee for the purposes described in section 285.606, but in no case shall this hourly amount be less than that provided under section 290.502.

(6) "Employee", any individual employed in this state by an employer, but does not include:

(A) Any individual engaged in the activities of an educational, charitable, religious, or nonprofit organization where the employer-employee relationship does not, in fact, exist or where the services rendered to the organization are on a voluntary basis;

(B) Any individual standing in loco parentis to foster children in their care;

(C) Any individual employed for less than four months in any year in a resident or day camp for children or youth, or any individual employed by an educational conference center operated by an educational, charitable or not-for-profit organization;

(D) Any individual engaged in the activities of an educational organization where employment by the organization is in lieu of the requirement that the individual pay the cost of tuition, housing or other educational fees of the organization or where earnings of the individual employed by the organization are credited toward the payment of the cost of tuition, housing or other educational fees of the organization;

(E) Any individual employed on or about a private residence on an occasional basis for six hours or less on each occasion;

(F) Any individual employed on a casual basis to provide baby-sitting services;

(G) Any individual employed by an employer subject to the provisions of part A of subtitle IV of title 49, United States Code, 49 U.S.C. §§ 10101 et seq.;

(H) Any individual employed on a casual or intermittent basis as a golf caddy, newsboy, or in a similar occupation;

(I) Any individual who is employed in any government position defined in 29 U.S.C. §§ 203(e)(2)(C)(i)-(ii);

(J) Any individual who is an offender, as defined in section 217.010, who is incarcerated in any correctional facility operated by the department of corrections, including offenders who provide labor or services on the grounds of such correctional facility pursuant to section 217.550; or

(K) Any individual engaged in construction work in the construction industry.

(7) "Employer", any person acting directly or indirectly in the interest of an employer in relation to an employee; provided, however, that for the purposes of sections 285.600 through 285.642, "employer" does not include the United States Government, the state, or a political subdivision of the state, including a department, agency, officer, bureau, division, board, commission, or instrumentality of the state, or a city, county, town, village, school district, or other political subdivision of the state.

(8) "Family member", any of the following individuals:

(A) Regardless of age, a biological, adopted or foster child, stepchild or legal ward, a child of a domestic partner, a child to whom the employee stands in loco parentis, or an individual to whom the employee stood in loco parentis when the individual was a minor;

(B) A biological, foster, stepparent or adoptive parent or legal guardian of an employee or an employee's spouse or domestic partner or an individual who stood in loco parentis when the employee or employee's spouse or domestic partner was a minor child;

(C) An individual to whom the employee is legally married under the laws of any state, or a domestic partner who is registered as such under the laws of a political subdivision;

(D) A grandparent, grandchild, or sibling (whether of a biological, foster, adoptive or step relationship) of the employee or the employee's spouse or domestic partner; or

(E) A member of the employee's household.

(9) "Health care professional," any individual licensed under Federal or State law to provide medical or emergency services, including but not limited to doctors, nurses, certified nurse midwives, and emergency room personnel.

(10) "Person", any individual, partnership, association, corporation, business, business trust, legal representative, or any organized group of persons.

(11) "Retaliatory personnel action", denial of any right guaranteed under sections 285.600 through 285.642, or any threat, discharge, suspension, demotion, reduction of hours, or any other adverse action against an employee for the exercise of any right guaranteed herein. "Retaliatory personnel action" shall also include interference with or punishment for in any manner participating in or assisting an investigation, proceeding, or hearing under sections 285.600 through 285.642.

(12) "Year", a regular and consecutive twelve-month period as determined by the employer; except that for the purposes of section 285.615 and section 285.627, "year" shall mean a calendar year.

285.603. 1. Employees of an employer with fifteen or more employees shall accrue a minimum of one hour of earned paid sick time for every thirty hours worked, but such employees shall not be entitled to accrue or use more than forty hours of earned paid sick time per year, unless the employer selects a higher limit.

2. Employees of an employer with fewer than fifteen employees shall accrue a minimum of one hour of earned paid sick time for every thirty hours worked, but such employees shall not be entitled to accrue or use more than twenty-four hours of earned paid sick time per year, unless the employer selects a higher limit.

3. In determining the number of employees performing work for an employer for compensation during a given week, all employees performing work for compensation on a full-time, part-time, or temporary basis shall be counted. In situations in which the number of employees who work for an employer for compensation per week fluctuates above and below fifteen employees per week over the course of the year, an employer is required to provide earned paid sick time pursuant to subsection (1) of this section if it maintained fifteen or more employees on the payroll for some portion of a day in each of twenty different calendar weeks, whether or not the weeks were consecutive, in either the current or the preceding year (irrespective of whether the same individuals were in employment in each day).

4. All employees shall accrue earned paid sick time as follows:

(A) Earned paid sick time as provided in this section shall begin to accrue at the commencement of employment or ninety days after this law goes into effect, whichever is later. An employer may provide all paid sick time that an employee is expected to accrue in a year at the beginning of the year.

(B) An employee may use earned paid sick time as it is accrued, except that an employer may require an employee hired more than ninety days after this law goes into effect to wait until the ninetieth calendar day after commencing employment before using accrued earned paid sick time, unless otherwise permitted by the employer.

(C) Employees who are exempt from overtime requirements under 29 U.S.C. § 213(a)(1) of the Federal Fair Labor Standards Act will be assumed to work forty hours in each work week for purposes of earned paid sick time accrual unless their normal work week is less than forty hours, in which case earned paid sick time accrues based upon that normal work week.

(D) Earned paid sick time shall be carried over to the following year, subject to the limitations on usage in subsections (1) and (2) of this section. Alternatively, in lieu of carryover of unused earned paid sick time from one year to the next, an employer may pay an employee for unused earned paid sick time at the end of a year and provide the employee with an amount of paid sick time that meets or exceeds the requirements of sections 285.600 through 285.642 that is available for the employee's immediate use at the beginning of the subsequent year.

(E) If an employee is transferred to a separate division, entity, or location, but remains employed by the same employer, the employee is entitled to all earned paid sick time accrued at the prior division, entity, or location and is entitled to use all earned paid sick time as provided in this section. When there is a separation

from employment and the employee is rehired within nine months of separation by the same employer, previously accrued earned paid sick time that had not been used shall be reinstated. Further, the employee shall be entitled to use accrued earned paid sick time and accrue additional earned paid sick time at the re-commencement of employment.

(F) When a different employer succeeds or takes the place of an existing employer, all employees of the original employer who remain employed by the successor employer are entitled to all earned paid sick time they accrued when employed by the original employer, and are entitled to use earned paid sick time previously accrued.

(G) At its discretion, an employer may loan earned paid sick time to an employee in advance of accrual by such employee.

5. Any employer with a paid leave policy, such as a paid time off policy, who makes available an amount of paid leave sufficient to meet the accrual requirements of this section that may be used for the same purposes and under the same conditions as earned paid sick time under sections 285.600 through 285.642 is not required to provide additional paid sick time.

6. Nothing in this section shall be construed as requiring financial or other reimbursement to an employee from an employer upon the employee's termination, resignation, retirement, or other separation from employment for accrued earned paid sick time that has not been used.

285.606. 1. Earned paid sick time shall be provided to an employee by an employer for:

(A) An employee's mental or physical illness, injury, or health condition; an employee's need for medical diagnosis, care, or treatment of a mental or physical illness, injury, or health condition; an employee's need for preventive medical care;

(B) Care of a family member with a mental or physical illness, injury, or health condition; care of a family member who needs medical diagnosis, care, or treatment of a mental or physical illness, injury, or health condition; care of a family member who needs preventive medical care; or

(C) Closure of the employee's place of business by order of a public official due to a public health emergency, or an employee's need to care for a child whose school or place of care has been closed by order of a public official due to a public health emergency, or care for oneself or a family member when it has been determined by the health authorities having jurisdiction or by a health care provider that the employee's or family member's presence in the community may jeopardize the health of others because of his or her exposure to a communicable disease, whether or not the employee or family member has actually contracted the communicable disease.

2. Earned paid sick time shall be provided upon the request of an employee. Such request may be made orally, in writing, by electronic means or by any other means acceptable to the employer. When possible, the request shall include the expected duration of the absence.

3. When the use of earned paid sick time is foreseeable, the employee shall make a good faith effort to provide notice of the need for such time to the employer in advance of the use of the earned paid sick time and shall make a reasonable effort to schedule the use of earned paid sick time in a manner that does not unduly disrupt the operations of the employer. Where such need is not foreseeable, an employer may require an employee to provide notice of the need for the use of earned paid sick time as soon as practicable.

4. An employer that requires notice of the need to use earned paid sick time where the need is not foreseeable shall provide a written policy that contains procedures for the employee to provide notice. An employer that has not provided to the employee a copy of its written policy for providing such notice shall not deny earned paid sick time to the employee based on non-compliance with such a policy.

5. An employer may not require, as a condition of an employee's taking earned paid sick time, that the employee search for or find a replacement worker to cover the hours during which the employee is using earned paid sick time.

6. Earned paid sick time may be used in the smaller of hourly increments or the smallest increment that the employer's payroll system uses to account for absences or use of other time.

7. For earned paid sick time of three or more consecutive work days, an employer may require reasonable documentation that the earned paid sick time has been used for a purpose covered by subsection (1) of this section. Documentation signed by a heath care professional indicating that earned paid sick time is necessary shall be considered reasonable documentation for purposes of this section. An employer may not require that the documentation explain the nature of the illness unless otherwise required by law.

285.609. 1. It shall be unlawful for an employer or any other person to interfere with, restrain, or deny the exercise of, or the attempt to exercise, any right protected under sections 285.600 through 285.642.

2. An employer shall not take retaliatory personnel action or discriminate against an employee or former employee because he or she has exercised rights protected under sections 285.600 through 285.642. Such rights include, but are not limited to, the right to request or use earned paid sick time pursuant to sections 285.600 through 285.642; the right to file a complaint or inform any person about any employer's alleged violation of sections 285.600 through 285.642; the right to participate in an investigation, hearing, or proceeding or cooperate with or assist the Department in any investigations of alleged violations of sections 285.600 through 285.642; and the right to inform any person of his or her potential rights under sections 285.600 through 285.642.

3. It shall be unlawful for an employer's absence control policy to count earned paid sick time taken under sections 285.600 through 285.642 as an absence that may lead to or result in discipline, discharge, demotion, suspension, or any other adverse action.

4. Protections of this section shall apply to any individual who mistakenly but in good faith alleges violations of sections 285.600 through 285.642.

285.612. 1. Employers shall give employees written notice of the following at the commencement of employment or by ninety days after this law goes into effect, whichever is later: employees are entitled to earned paid sick time and the amount of earned paid sick time, the terms of its use guaranteed under sections 285.600 through 285.642, that retaliatory personnel action against employees who request or use earned paid sick time is prohibited, that each employee has the right to bring a civil action if earned paid sick time as required by sections 285.600 through 285.642 is denied by the employer or the employee is subjected to retaliatory personnel action for requesting or taking earned paid sick time, and, if applicable, the contact information for the Department where questions about rights and responsibilities under sections 285.600 through 285.642 may be answered.

2. Employers shall display a poster that contains the information required in subsection (1) of this section in a conspicuous and accessible place in each establishment where such employees are employed, provided that such poster has been provided by the Department.

3. The Department may create and make available to employers, model notices and posters that contain the information required under subsection (1) of this section for employers' use in complying with subsections (1) and (2) of this section. Nothing in this subsection shall be interpreted or applied, either expressly or through practical necessity, to require the Department to create or make available notices or posters if it requires the appropriation of funds to cover the costs of such acts.

285.615. 1. Employers shall retain records documenting hours worked by employees and earned paid sick time taken by employees, for a period of not less than three years, and shall allow the Department access to such records, with appropriate notice and at a mutually agreeable time, to monitor compliance with the requirements of sections 285.600 through 285.642.

2. To the extent permitted by law, the Director may inspect such records, and the records shall be open for inspection by the Director by appointment. Where the records required under this section are kept outside the state, the records shall be made available to the Director upon demand. Every such employer shall furnish to the Director on demand a sworn statement of time records and information upon forms prescribed or approved by the Director. All the records and information obtained by the Department are confidential and shall be disclosed only on order of a court of competent jurisdiction.

3. Nothing in this section shall be interpreted or applied, either expressly or through practical necessity, to require the Department or Director to access or inspect records or to create forms relating to the inspection of records if it requires the appropriation of funds to cover the costs of such acts.

285.618. 1. The Department may, in accordance with chapter 536, promulgate rules to implement the provisions of sections 285.600 through 285.642. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2018, shall be invalid and void.

2. Nothing in this section shall be interpreted or applied, either expressly or through practical necessity, to require the promulgation or adoption of rules if it requires the appropriation of funds to cover the costs of such acts.

285.621. 1. To the extent permitted by law, the Department may investigate and ascertain compliance with sections 285.600 through 285.642, establish and implement a system to receive complaints regarding non-compliance with sections 285.600 through 285.642 and to investigate and attempt to resolve complaints through mediation between the complainant and the subject of the complaint, and establish additional means of enforcement to the extent permitted by the law.

2. The Department may develop and implement an outreach program to inform employees, parents, and persons who are under the care of a health care provider about the availability of earned paid sick time under sections 285.600 through 285.642. This program may include the distribution of notices and other written materials to child care and elder care providers, domestic violence shelters, schools, hospitals, community health centers and other health care providers in Missouri.

3. Nothing in this section shall be interpreted or applied, either expressly or through practical necessity, to require the Department to conduct investigations and ascertain compliance with sections 285.600 through 285.642, to establish and implement a system to receive or resolve complaints, to establish additional means of enforcement, or to conduct outreach and education, including the creation of notices and other written materials, concerning sections 285.600 through 285.642, if it requires the appropriation of funds to cover the costs of such acts.

285.624. 1. To the extent permitted by law, any employer who violates or fails to comply with any of the provisions and requirements of sections 285.600 through 285.642 shall be guilty of a class C misdemeanor and shall be punished for each violation thereof by a fine, up to the maximum allowed under state law for violation of a class C misdemeanor; provided, however, that an employer who willfully violates the notice and posting requirements of section 285.612 shall be guilty of an infraction and shall be punished for each violation thereof by a fine, up to the maximum allowed under state law for an infraction.

2. For purposes of this section, each day of violation or failure to comply and each employee affected shall constitute a separate offense.

285.627. 1. Any individual who claims to have been aggrieved by a failure of an employer to comply with any portion of sections 285.600 through 285.642, including but not limited to the failure to provide earned paid sick time or to allow employees to use such time consistent with sections 285.600 through 285.642, or who claims to have suffered a retaliatory personnel action, shall have a right of action and may commence a civil action in the appropriate court of jurisdiction within three years of the accrual of the cause of action, to obtain appropriate relief with respect to such unlawful violation.

2. In a civil action under this section, if the court finds a violation has occurred, the court may grant as relief, as it deems appropriate and to the extent permitted by law, any permanent or temporary injunction, the full amount of any unpaid earned sick time plus any actual damages suffered as the result of the employer's violation of sections 285.600 through 285.642, an additional amount equal to twice any unpaid earned sick time as liquidated damages, costs, and reasonable attorney's fees as may be allowed by the court, and other legal or equitable relief as may be appropriate to remedy the violation, including, without limitation, reinstatement to employment and back pay. Any agreement between the employee and the employer to waive the protections of sections 285.600 through 285.642 shall be no defense to the action.

285.630. 1. Except as otherwise required by law, an employer may not require disclosure of details relating to an employee's or an employee's family member's health information as a condition of providing earned paid sick time under sections 285.600 through 285.642.

2. Unless as otherwise required by law, any health information possessed by an employer regarding an employee or employee's family member must:

(A) be maintained on a separate form and in a separate file from other personnel information;

(B) be treated as confidential medical records; and

(C) not be disclosed except to the affected employee or with the express written permission of the affected employee.

285.633. 1. With respect to employees covered by a valid collective bargaining agreement in effect on the effective date of sections 285.600 through 285.642, no provisions of sections 285.600 through 285.642 shall apply until the stated expiration date in the collective bargaining agreement.

2. Nothing in sections 285.600 through 285.642 shall be deemed to interfere, impede, or otherwise diminish the right of employees to bargain collectively through representatives of their own choosing.

285.636. 1. Nothing in sections 285.600 through 285.642 shall be construed to discourage or prohibit an employer from the adoption or retention of an earned paid sick time policy more generous than the one required herein.

2. Nothing in sections 285.600 through 285.642 shall be construed as diminishing the obligation of an employer to comply with any contract, collective bargaining agreement, employment benefit plan, or other agreement providing more generous paid sick time to an employee than required herein. Nothing in sections 285.600 through 285.642 shall be construed as diminishing the rights of public employees regarding paid sick time or use of paid sick time as provided in the laws of Missouri pertaining to public employees.

285.639. 1. Sections 285.600 through 285.642 provide minimum requirements pertaining to earned paid sick time and shall not be construed to preempt, limit, or otherwise affect the applicability of any other law, regulation, requirement, policy, or standard that provides for greater accrual or use by employees of earned paid sick time or that extends other protections to employees.

2. Any county, city, town, or village in the state shall have the power and authority to establish, mandate, or otherwise require an employer to provide to an employee paid or unpaid days off from work for sick leave which exceeds the requirements of sections 285.600 through 285.642.

3. Nothing in sections 285.600 through 285.642 shall be interpreted or applied to create a power or obligation contrary to any federal law, rule, or regulation.

285.642. Except as detailed in section 285.618, all of the provisions of sections 285.600 through 285.642 are severable, and if any provision, including any section, subsection, subdivision, paragraph, sentence, or clause, or the application thereof to any person or circumstance, is found by a court of competent jurisdiction to be invalid, unconstitutional, or unconstitutionally enacted, such decision shall not affect other provisions or applications of sections 285.600 through 285.642 that can be given effect without the invalid, unconstitutional, or unconstitutionally enacted provision or application, and to this end the provisions of sections 285.600 through 285.642 are declared severable.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-032)

Subject

Initiative petition from Richard Von Glahn regarding a proposed amendment to Chapter 285 of the Revised Statutes of Missouri. (Received November 17, 2016)

Date

December 7, 2016

Description

This proposal would amend Chapter 285 of the Revised Statutes of Missouri.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** the **Missouri Lottery,** the **Public Service Commission,** the **State Tax Commission,** the **Missouri Technology Corporation,** the **Missouri Life Sciences Research Board,** the **Missouri Veterans Commission,** the **Missouri Ethics Commission,** the **Missouri Office of Prosecution Services,** the **Kansas City Boards of Police Commissioners,** the **St. Louis City Board of Police Commissioners,** the **St. Louis County Board of Elections,** the **Board of Election Commissioners City of St.**

Louis, the **Kansas City Board of Election Commissioners,** the **Platte County Board of Elections,** the **Jackson County Election Board,** the **Clay County Board of Election Commissioners,** the **Lieutenant Governor's office,** the **Children's Trust Fund,** the **Missouri Joint Municipal Electric Utility Commission,** the **State Auditor's office, University of Central Missouri, Harris-Stowe State University, Lincoln University, Missouri Southern State University, Missouri Western State University, Northwest Missouri State University, Southeast Missouri State University,** and **Truman State University**.

Lara Granich and Missouri Jobs with Justice Voter Action provided information as proponents of the proposal to the State Auditor's office.

Officials from the **Attorney General's office** indicated various provisions of the proposal authorize their department to promulgate rules, establish mediation procedures "and additional means of enforcement… ." They assume that their office may provide some review of proposals, but assume that any potential costs arising from this proposal can be absorbed with existing resources. They may seek additional appropriations if there is an increased review of rules in later years.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated they will be deferring to the Office of Administration and the Department of Labor and Industrial Relations regarding any fiscal impact this initiative petition might have.

Officials from the **Department of Higher Education** indicated the state, including departments, are exempt from the definition of "employer," so this initiative petition would not have a fiscal impact on their department.

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition does not apply to public employers with respect to its employees. Therefore, this petition, if passed, would have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated there is no fiscal impact to their department as a result of this initiative petition. Section 285.600 (5) indicates "for the purposes of sections 285.600 through 285.642 "employer" does not include the United States Government, the state, …., including a department, agency, …."

Officials from the **Department of Corrections** indicated they defer to the Office of Administration.

Officials from the **Department of Labor and Industrial Relations** indicated they expect no change in revenues or expenses in fiscal years 2017, 2018, and 2019.

The petition, if passed by voters, would require businesses with 15 or more employees to provide paid sick time. It also would allow their department to educate employers, take complaints, and perform investigations of violations of the new law.

The long-range fiscal implications are the same as those of the estimate period.

Under the new language, they may educate employers and employees, promulgate rules, take complaints, and conduct investigations of alleged violations of the new provisions. They believe the education, registration of complaints, and investigations would be conducted in a manner similar to those conducted under the Minimum Wage program. Using employer information from the United States Census Bureau for employers with more than ten employees, they estimate that it would receive complaints from 1.5% of the estimated 40,886 businesses with 10 or more employees, or 613 complaints annually. (The Census Bureau does not break employers at the 15 or more level.) To investigate these 613 complaints, they would require 3.50 Wage & Hour Investigator I/IIs. In FY 2016, 578 complaints were closed by 3.50 Investigators, averaging 165 per FTE. Using this calculation, they estimate it would need 3.50 FTE and the standard per FTE expenses and equipment to complete these activities.

However, Sections 285.612, 285.615, 285.618, and 285.621 expressly state that they are not required to take on the new duties it is authorized to perform under this proposal if doing so will require an appropriation to cover the costs of performing the duties. Because these duties are optional and are not required of their department, if there is no appropriation made to cover the cost, they estimate no mandated fiscal impact for this proposal.

Officials from the **Department of Revenue** indicated they defer this fiscal note to the Office of Administration for a statewide response.

Officials from the **Department of Public Safety** indicated they will defer to the Office of Administration response to this petition.

Officials from the **Department of Social Services** indicated they will defer to the Office of Administration response to this petition. They indicated no fiscal impact on their department.

Officials from the **Governor's Office** indicated there should be no fiscal impact to their office.

Officials from the **House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated no fiscal impact.

Officials from the **Office of Administration** indicated:

This initiative petition adds 15 new sections to Chapter 285 related to sick leave.

Under this proposal, employers would be required to provide paid sick leave to employees. The amount would be dependent upon the number of employees. It does not include employees covered under a valid collective bargaining agreement and it provides employees with an avenue of recourse if the employee claims to be aggrieved.

The State of Missouri is excluded from the provisions of this proposal, therefore there would be no statewide impact related to this proposal other than potentially higher costs for services purchased by the state. However, the Department of Labor and Industrial Relations (DOLIR) will be impacted. Budget and Planning defers to the DOLIR for the specific impact to that agency.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated no fiscal impact on their office.

Officials from the **Secretary of State's office** indicated their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any impact on their office, as they are an independent department within state government and by definition state employees are exempt from this proposed legislation.

Officials from the **State Treasurer's office** indicated this would have no fiscal impact on their office.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from the **City of Columbia** indicated there is no impact on their city.

Officials from the **City of Kansas City** indicated no direct fiscal impact is anticipated if this proposal is adopted because cities are not employers. An indirect cost to cities may arise through increased labor costs of those vendors contracting with the city.

Officials from the **City of Raymore** indicated no fiscal impact.

Officials from the **City of St. Joseph** indicated this initiative petition could have a fiscal impact on local government.

Officials from **University of Missouri** indicated they have reviewed this proposed legislation and have determined that for benefit eligible employees (defined as working .75 or >) that it does not appear that the proposed legislation as written would create a significant fiscal impact to their university.

Officials from the **Missouri Lottery** indicated no fiscal impact to their agency.

Officials from the **Public Service Commission** indicated no fiscal impact on their agency.

Officials from the **State Tax Commission** indicated this initiative petition pertaining to sick leave in Chapter 285 does not directly impact their office. As a state agency this matter is under the direction of Office of Administration, Division of Personnel.

Officials from the **Missouri Veterans Commission** indicated no fiscal impact to their agency.

Officials from the **Missouri Office of Prosecution Services** indicated no measurable fiscal impact to their office.

Officials from the **Kansas City Boards of Election Commissioners** indicated there is no fiscal impact with amendments to Chapter 285, Versions 1 -12, since the State is not responsible for costs associated with the November 2018 election.

Officials from the **Platte County Board of Elections** indicated the proposed initiative would have no fiscal impact on their office.

Officials from the **Jackson County Election Board** indicated no fiscal impact on their office.

Officials from the **Lieutenant Governor's office** indicated it is anticipated that this initiative petition will impose little to no costs or savings on their office.

Officials from the **Children's Trust Fund** indicated they are part of the Office of Administration and thus will be covered by the Office of Administration's official response. They will not be responding separately.

Officials from the **Missouri Joint Municipal Electric Utility Commission** indicated:

The Missouri Association of Municipal Utilities represents approximately 120 cities in Missouri providing utility services to their customer/owners. They do not represent cities in their general business operation. That representation is undertaken by the Missouri Municipal League and its executive director Dan Ross.

Based on a review of each of the 12 versions it appears that there would be no direct cost to any of their cities since the framers of the amendment specifically excluded cities from the definition of employers and city employees from coverage of the proposed changes.

However, it is possible that cities may experience some increases in the cost of goods and services consumed in the regular course of business as a result of higher labor input costs. It is impossible to accurately predict those increases other than to make you aware of the potential.

Officials from the **State Auditor's office** indicated there is no fiscal impact for their office.

Officials from **University of Central Missouri** indicated if they are included in the definition of "employer" that would be impacted by this legislation, they would have an additional cost of roughly $340,000. In fiscal year 2016, part-time employees worked nearly 679,000 hours. If each 30 hours resulted in one sick time hour, that would be 22,634 hours. At an average rate of $15/hour, that would have a fiscal impact of $340,000.

If the definition of employer is interpreted to exclude UCM because of its status as a state agency, then there would be no fiscal impact.

Officials from **Missouri State University** indicated no fiscal impact on their university.

Officials from **Missouri Southern State University** indicated they do not anticipate any fiscal impact from this initiative petition.

Lara Granich and Missouri Jobs with Justice Voter Action provided the following information as proponents of this initiative petition.

Re: Fiscal Impact Analysis of Earned Sick Time Petitions
Petitions numbered by MO SOS at 2018-28 to 2018-39

This letter is from Lara Granich and Missouri Jobs with Justice Voter Action, proponents of the above-referenced initiative petitions. Pursuant to RSMo. Section 116.175, we write to submit the following information to assist your office in its analysis of the fiscal impact of the above-mentioned twelve proposed Earned Sick Time Petitions.

This analysis uses data collected by the U.S. Bureau of Labor Statistics, the Centers for Disease Control and Prevention, and the U.S. Census Bureau to evaluate the impact of earned sick time laws in Missouri. This analysis uses findings from previous peer-reviewed research to estimate cost-savings associated with the proposed policies through reduced turnover, reduced spread of contagious disease in the workplace, prevention of productivity losses from employees working while sick, minimized nursing-home stays, and reduced norovirus outbreaks in nursing homes. We also address certain claims that have been made by opponents in the past.

I. Estimate of Number of Workers Affected Statewide

According to the Institute for Women's Policy Research, an estimated 1,002,116 private sector workers in Missouri, or 45.9 percent of the workforce, cannot earn a single paid sick day to use to recover from common illnesses or seek medical care.[1]

II. Direct Costs to State

As these proposed initiatives exclude public workers employed by the state or by local governments, the initiatives are not expected to have any direct impact on state and local payroll costs. Enforcement would be handled by existing staff at the Department of Labor.

III. Economic Literature on the Impact of Earned Sick Time on Businesses

This analysis quantifies only a subset of potential benefits, predicting a net economic benefit from both of the proposed laws. Likely additional benefits from paid sick days not quantified in this analysis include: reduced health care spending due to reduced public contagion and more timely and regular preventive care and treatment; improved economic security among families who receive pay on sick days and are less likely to be fired or disciplined for taking sick time; and improved school outcomes and reduced contagion in schools, when parents can avoid sending sick children to school or child care.

Millions of workers have gained access to paid sick days in recent years through new laws in five states, 23 cities, and one county across the country. There is no evidence of business closures/layoffs as a result of earned sick time laws. Both Seattle and San Francisco saw positive job growth in the period after their laws took effect, and this job growth was much higher than in the surrounding areas for both cities. San Francisco's growth in employment exceeded the average employment growth of surrounding counties after the paid sick days law was passed. In the 10 months after the adoption of Seattle's Paid Sick and Safe Time Ordinance, King County (where Seattle is located) did not see negative economic impacts; rather, the county saw sustained job growth and reduced unemployment rates. 2

The Washington D.C. Auditor reported "that the Accrued Sick and Safe Leave Act did not have the economic impact of encouraging business owners to move a business from the District nor did the Act have the economic impact of discouraging business owners to locate a business in the District of Columbia."3 New York City reported that "New York City's economy has thrived since the enactment of PSL [paid sick leave]. Between January 2014 and January 2015, a period that covers the law's implementation, economic indicators were a cause for celebration, not concern as many had predicted." 4

Summary of Benefits Associated With Missouri's Proposed Earned Sick Time Law

Benefits	Firms with <50 Employees			Firms with 50+ Employees		
	Dollars	Average per-worker savings		Dollars	Average per-worker costs/savings	
BENEFITS						
Lower Turnover	$32,718,875			$146,675,016		
Reduced Flu Contagion in the Workplace	$1,334,044			$5,980,370		
		Weekly	*Hourly*		*Weekly*	*Hourly*
Employers' Savings	**$34,052,920**	**$6.97**	**$0.21**	**$152,655,386**	**$9.44**	**$0.26**
Reduced Short-Term Nursing Home Stays	$2,415,006			$8,165,162		
Reduced Norovirus in Nursing Homes	$21,692			$93,129		
Reduced Flu Contagion	$233,249			$771,691		
Reduced Emergency Department Visits	$3,512,104			$11,619,581		
		Weekly	*Hourly*		*Weekly*	*Hourly*
Community Savings	**$6,182,052**	**$1.26**	**$0.04**	**$20,649,564**	**$1.28**	**$0.03**

Note: "Small" firms are defined in the proposed laws at firms employing fewer than 15 employees and "Large" firms are defined as firms employing 15 or more employees.

Source: Institute for Women's Policy Research Analysis of the 2014 American Community Survey (ACS), the 2016 National Compensation Survey (NCS), the 2013-2016 Current Population Survey Annual Social and Economic Supplement (CPS ASEC), the 2010 Current Population Survey Displaced Worker, Employee Tenure, and Occupational Mobility Supplement File, and the 2014-2015 National Health Interview Survey (NHIS).

Note on Methodology

The estimates are based on analyses of the following data sets: the 2013–2016 Current Population Survey Annual Social and Economic Supplement (CPS ASEC), the 2014-2015 National Health Interview Survey (NHIS), the 2014 American Community Survey (ACS), the 2016 National Compensation Survey and the 2014 Medical Expenditure Panel Survey along with findings from previous peer-reviewed research.

This analysis was limited to only private sector workers as the proposed legislation only covers such workers. The proposed legislation does include some small exemptions for certain employees which this analysis does not account for. Excluding such workers would result in minor reductions in both the costs and benefits estimated, but general trends would remain the same. To learn more about the methodology and sources please see "Valuing Good Health in Maryland: The Costs and Benefits of Earned Sick Days"[5]

We hope that this information is useful to your office as your prepare your analyses of the petitions.

Respectfully submitted,
Lara Granich

Paid Sick Days Benefit Employers, Workers, and the Economy

Jessica Milli, PhD., Jenny Xia, and Jisun Min

Millions of workers have gained access to paid sick days in recent years through new laws in five states, 23 cities, and one county across the country.[1] Yet millions more still would not be paid if they need to stay at home when they are sick or need to care for a family member who is ill. As of 2014, 51 million workers lacked access to paid sick days.[2]

Research has documented many benefits of paid sick days policies for workers, businesses, and communities as a whole. These benefits would multiply substantially if more workers gained access to paid sick days. This briefing paper summarizes research on the benefits of paid sick days and the effects of paid sick days policies in places that have them.

Employers Benefit from Paid Sick Days

- **Reduced contagion in the workplace:** A 2010 survey conducted by the National Opinion Research Center found that employees without access to paid sick days are 1.5 times more likely than those with access to go to work with a contagious illness (55 percent compared with 37 percent).[3] Such "presenteeism" has serious public health consequences including flu contagion. A 2010 analysis of labor force and Centers for Disease Control data estimated that more than one in four private sector employees worked while ill with H1N1 during the 2009 H1N1 pandemic, resulting in the estimated infection of 7 million co-workers with H1N1. Work absences from illness dropped more precipitously among public sector workers than among private sector workers during the decline of the pandemic. Because employees in the public sector have greater access to paid sick days, the finding suggests that paid sick days played a role in slowing contagion and potentially in speeding recovery.[4] A 2013 study employed a model simulating influenza contagion to estimate reductions in contagion rates under a universal paid sick days policy. Using data from the American Community Survey, LandScan USA, and the U.S. Census, the study estimated that providing paid sick days would reduce workplace influenza infection in the United States by about 6 percent.[5]

- **Improved productivity:** When workers come to work sick, their productivity and performance suffer. Estimates of productivity losses vary across studies. A 1997 study polling 332 workers who had influenza-like illnesses found that workers on average reported being 46 percent less effective while ill at work.[6] A 2003 study based on interviews with more than 28,000 workers reported that on average, workers lose 1.32 hours per week of productive time due to personal health related reasons.[7] Since workers

with access to paid sick days are less likely to come to work sick and infect their co-workers,[8] paid sick days can prevent further productivity losses resulting from illness and contagion in the workplace.

- **Decreased workplace injuries:** Working while sick also puts employees at greater risk of injury on the job. A 2012 study using the 2005 through 2008 National Health Interview Survey (NHIS) found that after controlling for factors like survey year, occupational sector, firm size, region, and the availability of paid sick leave, workers with access to paid sick days are 28 percent less likely to be injured on the job than workers without this benefit.[9]

- **Decreased employee turnover:** A 2012 analysis of data collected between 2004 and 2006 through the Medical Expenditure Panel Survey (MEPS) finds that the likelihood of job separation decreases by about 25 percent when a worker has access to paid sick days, even after controlling for potential confounding factors such as workers' educational attainment, earnings, and race/ethnicity.[10] As employee turnover typically costs an employer between 10 and 30 percent of an employee's annual salary,[11] a reduction in turnover can result in significant reductions in employer costs.

Paid Sick Days Improve Public Health

- **Increased use of preventive care:** Since paid sick days can be used for doctor visits, workers with paid sick days are more likely to seek preventive care and to be screened for diseases such as cancer, which can lead to early detection and treatment. A 2012 study using 2008 National Health Interview Survey (NHIS) data finds that after controlling for sociodemographic and health-care-related factors, workers with paid sick days are significantly more likely to have had mammograms, Pap tests, and endoscopy, and to have seen a doctor during the previous year than those without the benefit.[12]

- **More timely treatment for illnesses:** Workers without paid sick days are more likely to delay medical care when they or a family member is ill which can lead to a more serious or prolonged illness.[13]A 2016 analysis of the 2013 NHIS—which controlled for demographic and health-related factors like race and ethnicity, occupation, annual family income, and health insurance coverage—indicates that workers without paid sick leave are three times more likely to forgo medical care for themselves, and 1.6 times more likely to forgo medical care for their families, compared with workers who have the benefit.[14] A 2011 analysis of the NHIS found that when they do seek care, workers without paid sick days—regardless of their educational attainment, income, race/ethnicity and other demographic characteristics—are more likely to use an emergency department for care.[15]

- **Improved family health:** Paid sick days may encourage workers to respond to their children's and family members' health needs in a timely manner, thereby improving overall health outcomes for their families. Paid sick days are a primary factor affecting whether a working parent will stay at home with a sick child rather than sending them to school or child care sick. The 2010 National Opinion Research Center Survey found that

28 percent of workers without paid sick days reported sending a sick child to school or child care, compared with 14 percent of workers with paid sick days.[16] A 2012 study analyzing the 2008 National Study of the Changing Workforce (NSCW) and controlling for worker and job characteristics finds that having paid sick days is associated with reduced work-family conflict, which lessens difficulties parents face in taking time off from work to care for a sick child.[17]

Paid Sick Days Bring Economic Benefits for Workers, Families, and Communities

- **Improved employment and earnings stability:** When incomes are not interrupted by unpaid leave, families experience greater financial stability and economic well-being. According to a 2010 poll, 16 percent of workers surveyed reported losing a job for missing work when they were sick or to care for an ill family member.[18] Research has shown that having paid sick days reduces the likelihood of a job separation by at least 25 percent.[19]

- **Improved labor force attachment among caregivers:** Informal caregivers whose work schedules are incompatible with the care needs of their family members may decrease their work hours or even leave the labor force completely.[20] One 2011 Gallup poll found that most caregivers, including parents, reported missing at least one full day of work to fulfill their caregiving duties with an average of 6.6 workdays missed per year.[21] Paid sick days, however, may provide sufficient leave to caregivers to allow them to maintain their desired level of employment while continuing to perform their caregiving work.

- **Savings from reduced utilization of hospital emergency departments and a lower monetary burden on taxpayers:** A 2011 study using the 2008 and 2009 NHIS finds that the annual number of emergency department visits per worker without paid sick days is greater than it is for those with the benefit. Using MEPS data on the cost of emergency department visits, the study estimates that a lack of paid sick days resulted in an estimated 1.3 million preventable emergency department visits every year in the United States in 2008, costing $1.1 billion more than office visits would have. Part of these costs—$500 million—were paid by public insurance programs such as Medicaid.[22]

Research Finds Benefits of Existing Paid Sick Days Laws and Minimal Costs to Employers

Since the implementation of the first paid sick days law in 2007, several studies have evaluated the impacts of the legislation, with a particular emphasis on the effects on employers. These evaluations have largely found that the overall impact on businesses was minimal. Many firms saw benefits from the policy and counted themselves as supporters after implementing it.

- **Minimal costs:** Costs to employers of providing paid sick days have been modest. In Seattle, evaluations found that the cost of providing paid sick leave in 2013 was only

about 0.4 percent of total firm revenue for the year.[23] In Connecticut, nearly half of 228 employers surveyed in 2013, a year and a half after the state's paid sick days law's implementation, reported having no increased overall cost, and 19.1 percent of employers reported an increased cost of less than 2 percent.[24] In San Francisco, the paid sick leave ordinance created additional costs for a relatively small share of employers. Six out of seven employers reported no adverse effects on profitability.[25]

- **Ease of implementation:** Research shows that paid sick days have minimal effect on business operations. Most San Francisco employers reported that implementing the Paid Sick Leave Ordinance was not difficult.[26] Likewise, about two thirds of Seattle employers reported that implementing the Paid Sick and Safe Time Ordinance was not very difficult, and 70 percent expressed support for the policy a year after implementation of the Ordinance.[27] Similarly, a large majority of Connecticut employers surveyed in 2013 indicated that the Paid Sick Leave Law did not burden business operations.[28]

- **Employees use paid sick days judiciously:** Several years after the implementation of San Francisco's paid sick days law, an IWPR survey of 1,194 workers found that employees in San Francisco used fewer than half of the sick days available under the paid sick leave ordinance.[29] Using data from the 2014 NHIS, IWPR found that most workers who do have access to paid sick days do not use any in a given year.[30] In regions that have passed paid sick day laws, surveys suggest that abuse of paid sick days is rare. Among 228 Connecticut employers surveyed by the Center for Economic and Policy Research, 86 percent reported no known cases of abuse more than a year after paid sick days was implemented.[31] A report published by the City of Seattle auditor finds that more than nine in ten Seattle employers surveyed in 2012 had never reprimanded an employee for abusing paid sick days.[32]

- **Sustained job growth and employment:** In contrast to messaging communicated by big business lobbyists prior to the laws' passage, both Seattle and San Francisco saw positive job growth in the period after their laws took effect, and this job growth was much higher than in the surrounding areas for both cities. San Francisco's growth in employment exceeded the average employment growth of surrounding counties after the paid sick days law was passed.[33] In the 10 months after the adoption of Seattle's Paid Sick and Safe Time Ordinance, King County (where Seattle is located) did not see negative economic impacts; rather, the county saw sustained job growth and reduced unemployment rates.[34]

- **Improved employee morale, motivation, loyalty, and productivity**: Over a quarter of Connecticut employers reported improved morale, 12.5 percent reported increased employee motivation, 10.6 percent reported increased loyalty, and 14.9 percent reported increased productivity after implementation of the state's paid sick days law.[35]

- **Improved work life balance for employees:** A 2010 IWPR survey found that one out of four San Francisco employees reported that paid sick days enabled them to better care for their own and their families' health needs. In addition, nearly 30 percent reported that their employers were more supportive when they needed to use their leave than they were

prior to the law's passage. More than half of all San Francisco workers reported at least one benefit as a result of the ordinance.[36]

- **Reduced flu contagion in locations with paid sick day laws:** One recent study used Google Flu data from 2003 to 2015 to show that influenza-like infection rates decrease significantly when workers gain access to paid sick days. By comparing the rates of influenza-like illnesses in regions with paid sick days policies—including the District of Columbia, Connecticut, California, Massachusetts, and Oregon—with those lacking such laws, the study finds that infection rates decrease by about 10 percent when employees without coverage obtain paid sick days.[37]

Conclusion

Literature spanning the fields of public health, economics, sociology, medicine, social work, and public policy converge to reflect the health, employment, and economic benefits of paid sick days. Research suggests that more widespread implementation of paid sick days policies would have a substantial positive impact on the well-being of children, families, and communities across the United States.

The Institute for Women's Policy Research (IWPR) conducts rigorous research and disseminates its findings to address the needs of women, promote public dialogue, and strengthen families, communities, and societies. The Institute works with policymakers, scholars, and public interest groups to design, execute, and disseminate research that illuminates economic and social policy issues affecting women and their families, and to build a network of individuals and organizations that conduct and use women-oriented policy research. IWPR's work is supported by foundation grants, government grants and contracts, donations from individuals, and contributions from organizations and corporations. IWPR is a 501(c)(3) tax-exempt organization that also works in affiliation with the women's studies, and public policy and public administration programs at The George Washington University.

STATE AUDITORS OFFICE

The Honorable Nicole Galloway
State Auditor
State Capitol Building
Jefferson City, MO 65101

RE: Petition approval request from Richard Von Glahn regarding a proposed statutory amendment to Chapter 285, version 4 (2018-031)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Richard Von Glahn on November 16, 2016.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

Jason Kander

Be it enacted by the people of the State of Missouri:

Fifteen new sections to be known as sections 285.600, 285.603, 285.606, 285.609, 285.612, 285.615, 285.618, 285.621, 285.624, 285.627, 285.630, 285.633, 285.636, 285.639, and 285.642 are enacted to read as follows:

285.600. As used in sections 285.600 through 285.642:

(1) "Construction", includes construction, reconstruction, improvement, enlargement, alteration, painting and decorating, or major repair.

(2) "Construction industry", includes any employer whose employees conduct or perform construction as a principal component of the employer's business or enterprise.

(3) "Department", Department of Labor and Industrial Relations.

(4) "Director", Director of the Department of Labor and Industrial Relations.

(5) "Earned paid sick time", time that is compensated at the same hourly rate and with the same benefits, including health care benefits, as the employee normally earns during hours worked and is provided by an employer to an employee for the purposes described in section 285.606, but in no case shall this hourly amount be less than that provided under section 290.502.

(6) "Employee", any individual employed in this state by an employer, but does not include:

(A) Any individual engaged in the activities of an educational, charitable, religious, or nonprofit organization where the employer-employee relationship does not, in fact, exist or where the services rendered to the organization are on a voluntary basis;

(B) Any individual standing in loco parentis to foster children in their care;

(C) Any individual employed for less than four months in any year in a resident or day camp for children or youth, or any individual employed by an educational conference center operated by an educational, charitable or not-for-profit organization;

(D) Any individual engaged in the activities of an educational organization where employment by the organization is in lieu of the requirement that the individual pay the cost of tuition, housing or other educational fees of the organization or where earnings of the individual employed by the organization are credited toward the payment of the cost of tuition, housing or other educational fees of the organization;

(E) Any individual employed on or about a private residence on an occasional basis for six hours or less on each occasion;

(F) Any individual employed on a casual basis to provide baby-sitting services;

(G) Any individual employed by an employer subject to the provisions of part A of subtitle IV of title 49, United States Code, 49 U.S.C. §§ 10101 et seq.;

(H) Any individual employed on a casual or intermittent basis as a golf caddy, newsboy, or in a similar occupation;

(I) Any individual who is employed in any government position defined in 29 U.S.C. §§ 203(e)(2)(C)(i)-(ii); or

(J) Any individual who is an offender, as defined in section 217.010, who is incarcerated in any correctional facility operated by the department of corrections, including offenders who provide labor or services on the grounds of such correctional facility pursuant to section 217.550.

(7) "Employer", any person acting directly or indirectly in the interest of an employer in relation to an employee; provided, however, that for the purposes of sections 285.600 through 285.642, "employer" does not include the United States Government, the state, or a political subdivision of the state, including a department, agency, officer, bureau, division, board, commission, or instrumentality of the state, or a city, county, town, village, school district, or other political subdivision of the state.

(8) "Family member", any of the following individuals:

(A) Regardless of age, a biological, adopted or foster child, stepchild or legal ward, a child of a domestic partner, a child to whom the employee stands in loco parentis, or an individual to whom the employee stood in loco parentis when the individual was a minor;

(B) A biological, foster, stepparent or adoptive parent or legal guardian of an employee or an employee's spouse or domestic partner or an individual who stood in loco parentis when the employee or employee's spouse or domestic partner was a minor child;

(C) An individual to whom the employee is legally married under the laws of any state, or a domestic partner who is registered as such under the laws of a political subdivision;

(D) A grandparent, grandchild, or sibling (whether of a biological, foster, adoptive or step relationship) of the employee or the employee's spouse or domestic partner; or

(E) A member of the employee's household.

(9) "Health care professional," any individual licensed under Federal or State law to provide medical or emergency services, including but not limited to doctors, nurses, certified nurse midwives, and emergency room personnel.

(10) "Person", any individual, partnership, association, corporation, business, business trust, legal representative, or any organized group of persons.

(11) "Retaliatory personnel action", denial of any right guaranteed under sections 285.600 through 285.642, or any threat, discharge, suspension, demotion, reduction of hours, or any other adverse action against an employee for the exercise of any right guaranteed herein. "Retaliatory personnel action" shall also include interference with or punishment for in any manner participating in or assisting an investigation, proceeding, or hearing under sections 285.600 through 285.642.

(12) "Year", a regular and consecutive twelve-month period as determined by the employer; except that for the purposes of section 285.615 and section 285.627, "year" shall mean a calendar year.

285.603. 1. Employees of an employer with fifteen or more employees shall accrue a minimum of one hour of earned paid sick time for every thirty hours worked, but such employees shall not be entitled to accrue or use more than forty hours of earned paid sick time per year, unless the employer selects a higher limit.

2. Employees of an employer with fewer than fifteen employees shall accrue a minimum of one hour of earned paid sick time for every thirty hours worked, but such employees shall not be entitled to accrue or use more than twenty-four hours of earned paid sick time per year, unless the employer selects a higher limit.

3. In determining the number of employees performing work for an employer for compensation during a given week, all employees performing work for compensation on a full-time, part-time, or temporary basis shall be counted. In situations in which the number of employees who work for an employer for compensation per week fluctuates above and below fifteen employees per week over the course of the year, an employer is required to provide earned paid sick time pursuant to subsection (1) of this section if it maintained fifteen or more employees on the payroll for some portion of a day in each of twenty different calendar weeks, whether or not the weeks were consecutive, in either the current or the preceding year (irrespective of whether the same individuals were in employment in each day).

4. All employees shall accrue earned paid sick time as follows:

(A) Earned paid sick time as provided in this section shall begin to accrue at the commencement of employment or ninety days after this law goes into effect, whichever is later. An employer may provide all paid sick time that an employee is expected to accrue in a year at the beginning of the year.

(B) An employee may use earned paid sick time as it is accrued, except that an employer may require an employee hired more than ninety days after this law goes into effect to wait until the ninetieth calendar day after commencing employment before using accrued earned paid sick time, unless otherwise permitted by the employer.

(C) Employees who are exempt from overtime requirements under 29 U.S.C. § 213(a)(1) of the Federal Fair Labor Standards Act will be assumed to work forty hours in each work week for purposes of earned paid sick time accrual unless their normal work week is less than forty hours, in which case earned paid sick time accrues based upon that normal work week.

(D) Earned paid sick time shall be carried over to the following year, subject to the limitations on usage in subsections (1) and (2) of this section. Alternatively, in lieu of carryover of unused earned paid sick time from one year to the next, an employer may pay an employee for unused earned paid sick time at the end of a year and provide the employee with an amount of paid sick time that meets or exceeds the requirements of sections 285.600 through 285.642 that is available for the employee's immediate use at the beginning of the subsequent year.

(E) If an employee is transferred to a separate division, entity, or location, but remains employed by the same employer, the employee is entitled to all earned paid sick time accrued at the prior division, entity, or location and is entitled to use all earned paid sick time as provided in this section. When there is a separation from employment and the employee is rehired within nine months of separation by the same employer, previously accrued earned paid sick time that had not been used shall be reinstated. Further, the employee shall be entitled to use accrued earned paid sick time and accrue additional earned paid sick time at the re-commencement of employment.

(F) When a different employer succeeds or takes the place of an existing employer, all employees of the original employer who remain employed by the successor employer are entitled to all earned paid sick time they accrued when employed by the original employer, and are entitled to use earned paid sick time previously accrued.

(G) At its discretion, an employer may loan earned paid sick time to an employee in advance of accrual by such employee.

5. Any employer with a paid leave policy, such as a paid time off policy, who makes available an amount of paid leave sufficient to meet the accrual requirements of this section that may be used for the same purposes and under the same conditions as earned paid sick time under sections 285.600 through 285.642 is not required to provide additional paid sick time.

6. Nothing in this section shall be construed as requiring financial or other reimbursement to an employee from an employer upon the employee's termination, resignation, retirement, or other separation from employment for accrued earned paid sick time that has not been used.

285.606. 1. Earned paid sick time shall be provided to an employee by an employer for:

(A) An employee's mental or physical illness, injury, or health condition; an employee's need for medical diagnosis, care, or treatment of a mental or physical illness, injury, or health condition; an employee's need for preventive medical care;

(B) Care of a family member with a mental or physical illness, injury, or health condition; care of a family member who needs medical diagnosis, care, or treatment of a mental or physical illness, injury, or health condition; care of a family member who needs preventive medical care; or

(C) Closure of the employee's place of business by order of a public official due to a public health emergency, or an employee's need to care for a child whose school or place of care has been closed by order of a public official due to a public health emergency, or care for oneself or a family member when it has been determined by the health authorities having jurisdiction or by a health care provider that the employee's or family member's presence in the community may jeopardize the health of others because of his or her exposure to a communicable disease, whether or not the employee or family member has actually contracted the communicable disease.

2. Earned paid sick time shall be provided upon the request of an employee. Such request may be made orally, in writing, by electronic means or by any other means acceptable to the employer. When possible, the request shall include the expected duration of the absence.

3. When the use of earned paid sick time is foreseeable, the employee shall make a good faith effort to provide notice of the need for such time to the employer in advance of the use of the earned paid sick time and shall make a reasonable effort to schedule the use of earned paid sick time in a manner that does not unduly disrupt the operations of the employer. Where such need is not foreseeable, an employer may require an employee to provide notice of the need for the use of earned paid sick time as soon as practicable.

4. An employer that requires notice of the need to use earned paid sick time where the need is not foreseeable shall provide a written policy that contains procedures for the employee to provide notice. An employer that has not provided to the employee a copy of its written policy for providing such notice shall not deny earned paid sick time to the employee based on non-compliance with such a policy.

5. An employer may not require, as a condition of an employee's taking earned paid sick time, that the employee search for or find a replacement worker to cover the hours during which the employee is using earned paid sick time.

6. Earned paid sick time may be used in the smaller of hourly increments or the smallest increment that the employer's payroll system uses to account for absences or use of other time.

7. For earned paid sick time of three or more consecutive work days, an employer may require reasonable documentation that the earned paid sick time has been used for a purpose covered by subsection (1) of this section. Documentation signed by a heath care professional indicating that earned paid sick time is necessary shall be considered reasonable documentation for purposes of this section. An employer may not require that the documentation explain the nature of the illness unless otherwise required by law.

285.609. 1. It shall be unlawful for an employer or any other person to interfere with, restrain, or deny the exercise of, or the attempt to exercise, any right protected under sections 285.600 through 285.642.

2. An employer shall not take retaliatory personnel action or discriminate against an employee or former employee because he or she has exercised rights protected under sections 285.600 through 285.642. Such rights include, but are not limited to, the right to request or use earned paid sick time pursuant to sections 285.600 through 285.642; the right to file a complaint or inform any person about any employer's alleged violation of sections 285.600 through 285.642; the right to participate in an investigation, hearing, or proceeding or cooperate with or assist the Department in any investigations of alleged violations of sections 285.600 through 285.642; and the right to inform any person of his or her potential rights under sections 285.600 through 285.642.

3. It shall be unlawful for an employer's absence control policy to count earned paid sick time taken under sections 285.600 through 285.642 as an absence that may lead to or result in discipline, discharge, demotion, suspension, or any other adverse action.

4. Protections of this section shall apply to any individual who mistakenly but in good faith alleges violations of sections 285.600 through 285.642.

285.612. 1. Employers shall give employees written notice of the following at the commencement of employment or by ninety days after this law goes into effect, whichever is later: employees are entitled to earned paid sick time and the amount of earned paid sick time, the terms of its use guaranteed under sections 285.600 through 285.642, that retaliatory personnel action against employees who request or use earned paid sick time is prohibited, that each employee has the right to bring a civil action if earned paid sick time as required by sections 285.600 through 285.642 is denied by the employer or the employee is subjected to retaliatory personnel action for requesting or taking earned paid sick time, and, if applicable, the contact information for the Department where questions about rights and responsibilities under sections 285.600 through 285.642 may be answered.

2. Employers shall display a poster that contains the information required in subsection (1) of this section in a conspicuous and accessible place in each establishment where such employees are employed, provided that such poster has been provided by the Department.

3. The Department may create and make available to employers, model notices and posters that contain the information required under subsection (1) of this section for employers' use in complying with subsections (1) and (2) of this section. Nothing in this subsection shall be interpreted or applied, either expressly or through practical necessity, to require the Department to create or make available notices or posters if it requires the appropriation of funds to cover the costs of such acts.

285.615. 1. Employers shall retain records documenting hours worked by employees and earned paid sick time taken by employees, for a period of not less than three years, and shall allow the Department access to such records, with appropriate notice and at a mutually agreeable time, to monitor compliance with the requirements of sections 285.600 through 285.642.

2. To the extent permitted by law, the Director may inspect such records, and the records shall be open for inspection by the Director by appointment. Where the records required under this section are kept outside the state, the records shall be made available to the Director upon demand. Every such employer shall furnish to the Director on demand a sworn statement of time records and information upon forms prescribed or approved by the Director. All the records and information obtained by the Department are confidential and shall be disclosed only on order of a court of competent jurisdiction.

3. Nothing in this section shall be interpreted or applied, either expressly or through practical necessity, to require the Department or Director to access or inspect records or to create forms relating to the inspection of records if it requires the appropriation of funds to cover the costs of such acts.

285.618. 1. The Department may, in accordance with chapter 536, promulgate rules to implement the provisions of sections 285.600 through 285.642. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2018, shall be invalid and void.

2. Nothing in this section shall be interpreted or applied, either expressly or through practical necessity, to require the promulgation or adoption of rules if it requires the appropriation of funds to cover the costs of such acts.

285.621. 1. To the extent permitted by law, the Department may investigate and ascertain compliance with sections 285.600 through 285.642, establish and implement a system to receive complaints regarding non-compliance with sections 285.600 through 285.642 and to investigate and attempt to resolve complaints through mediation between the complainant and the subject of the complaint, and establish additional means of enforcement to the extent permitted by the law.

2. The Department may develop and implement an outreach program to inform employees, parents, and persons who are under the care of a health care provider about the availability of earned paid sick time under sections 285.600 through 285.642. This program may include the distribution of notices and other written materials to child care and elder care providers, domestic violence shelters, schools, hospitals, community health centers and other health care providers in Missouri.

3. Nothing in this section shall be interpreted or applied, either expressly or through practical necessity, to require the Department to conduct investigations and ascertain compliance with sections 285.600 through 285.642, to establish and implement a system to receive or resolve complaints, to establish additional means of enforcement, or to conduct outreach and education, including the creation of notices and other written materials, concerning sections 285.600 through 285.642, if it requires the appropriation of funds to cover the costs of such acts.

285.624. 1. To the extent permitted by law, any employer who violates or fails to comply with any of the provisions and requirements of sections 285.600 through 285.642 shall be guilty of a class C misdemeanor and shall be punished for each violation thereof by a fine, up to the maximum allowed under state law for violation of a class C misdemeanor; provided, however, that an employer who willfully violates the notice and posting requirements of section 285.612 shall be guilty of an infraction and shall be punished for each violation thereof by a fine, up to the maximum allowed under state law for an infraction.

2. For purposes of this section, each day of violation or failure to comply and each employee affected shall constitute a separate offense.

285.627. 1. Any individual who claims to have been aggrieved by a failure of an employer to comply with any portion of sections 285.600 through 285.642, including but not limited to the failure to provide earned paid sick time or to allow employees to use such time consistent with sections 285.600 through 285.642, or who claims to have suffered a retaliatory personnel action, shall have a right of action and may commence a civil action in the appropriate court of jurisdiction within three years of the accrual of the cause of action, to obtain appropriate relief with respect to such unlawful violation.

2. In a civil action under this section, if the court finds a violation has occurred, the court may grant as relief, as it deems appropriate and to the extent permitted by law, any permanent or temporary injunction, the full amount of any unpaid earned sick time plus any actual damages suffered as the result of the employer's violation of sections 285.600 through 285.642, an additional amount equal to twice any unpaid earned sick time as liquidated damages, costs, and reasonable attorney's fees as may be allowed by the court, and other legal or equitable relief as may be appropriate to remedy the violation, including, without limitation, reinstatement to employment and back pay. Any agreement between the employee and the employer to waive the protections of sections 285.600 through 285.642, with the exception of section 285.633, shall be no defense to the action.

285.630. 1. Except as otherwise required by law, an employer may not require disclosure of details relating to an employee's or an employee's family member's health information as a condition of providing earned paid sick time under sections 285.600 through 285.642.

2. Unless as otherwise required by law, any health information possessed by an employer regarding an employee or employee's family member must:

(A) be maintained on a separate form and in a separate file from other personnel information;

(B) be treated as confidential medical records; and

(C) not be disclosed except to the affected employee or with the express written permission of the affected employee.

285.633. 1. All or any portion of the earned paid sick time requirements of sections 285.600 through 285.642 shall not apply to employees covered by a valid collective bargaining agreement, to the extent that such requirements are expressly waived in the collective bargaining agreement in clear and unambiguous terms; provided further, that no provisions of sections 285.600 through 285.642 shall apply to any employee engaged in construction work in the construction industry who is covered by a valid collective bargaining agreement.

2. Notwithstanding subsection (1) of this section, with respect to employees covered by a valid collective bargaining agreement in effect on the effective date of sections 285.600 through 285.642, no provisions of sections 285.600 through 285.642 shall apply until the stated expiration date in the collective bargaining agreement.

3. Nothing in sections 285.600 through 285.642 shall be deemed to interfere, impede, or otherwise diminish the right of employees to bargain collectively through representatives of their own choosing.

285.636. 1. Nothing in sections 285.600 through 285.642 shall be construed to discourage or prohibit an employer from the adoption or retention of an earned paid sick time policy more generous than the one required herein.

2. Nothing in sections 285.600 through 285.642 shall be construed as diminishing the obligation of an employer to comply with any contract, collective bargaining agreement, employment benefit plan, or other agreement providing more generous paid sick time to an employee than required herein. Nothing in sections 285.600 through 285.642 shall be construed as diminishing the rights of public employees regarding paid sick time or use of paid sick time as provided in the laws of Missouri pertaining to public employees.

285.639. 1. Sections 285.600 through 285.642 provide minimum requirements pertaining to earned paid sick time and shall not be construed to preempt, limit, or otherwise affect the applicability of any other law, regulation, requirement, policy, or standard that provides for greater accrual or use by employees of earned paid sick time or that extends other protections to employees.

2. Nothing in sections 285.600 through 285.642 shall be interpreted or applied to create a power or obligation contrary to any federal law, rule, or regulation.

285.642. Except as detailed in section 285.618, all of the provisions of sections 285.600 through 285.642 are severable, and if any provision, including any section, subsection, subdivision, paragraph, sentence, or clause, or the application thereof to any person or circumstance, is found by a court of competent jurisdiction to be invalid, unconstitutional, or unconstitutionally enacted, such decision shall not affect other provisions or applications of sections 285.600 through 285.642 that can be given effect without the invalid, unconstitutional, or unconstitutionally enacted provision or application, and to this end the provisions of sections 285.600 through 285.642 are declared severable.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-031)

Subject

Initiative petition from Richard Von Glahn regarding a proposed amendment to Chapter 285 of the Revised Statutes of Missouri. (Received November 17, 2016)

Date

December 7, 2016

Description

This proposal would amend Chapter 285 of the Revised Statutes of Missouri.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** the **Missouri Lottery,** the **Public Service Commission,** the **State Tax Commission,** the **Missouri Technology Corporation,** the **Missouri Life Sciences Research Board,** the **Missouri Veterans Commission,** the **Missouri Ethics Commission,** the **Missouri Office of Prosecution Services,** the **Kansas City Boards of Police Commissioners,** the **St. Louis City Board of Police Commissioners,** the **St. Louis County Board of Elections,** the **Board of Election Commissioners City of St.**

Louis, the **Kansas City Board of Election Commissioners,** the **Platte County Board of Elections,** the **Jackson County Election Board,** the **Clay County Board of Election Commissioners,** the **Lieutenant Governor's office,** the **Children's Trust Fund,** the **Missouri Joint Municipal Electric Utility Commission,** the **State Auditor's office, University of Central Missouri, Harris-Stowe State University, Lincoln University, Missouri Southern State University, Missouri Western State University, Northwest Missouri State University, Southeast Missouri State University,** and **Truman State University**.

Lara Granich and Missouri Jobs with Justice Voter Action provided information as proponents of the proposal to the State Auditor's office.

Officials from the **Attorney General's office** indicated various provisions of the proposal authorize their department to promulgate rules, establish mediation procedures "and additional means of enforcement… ." They assume that their office may provide some review of proposals, but assume that any potential costs arising from this proposal can be absorbed with existing resources. They may seek additional appropriations if there is an increased review of rules in later years.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated they will be deferring to the Office of Administration and the Department of Labor and Industrial Relations regarding any fiscal impact this initiative petition might have.

Officials from the **Department of Higher Education** indicated the state, including departments, are exempt from the definition of "employer," so this initiative petition would not have a fiscal impact on their department.

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition does not apply to public employers with respect to its employees. Therefore, this petition, if passed, would have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated there is no fiscal impact to their department as a result of this initiative petition. Section 285.600 (5) indicates "for the purposes of sections 285.600 through 285.642 "employer" does not include the United States Government, the state, …., including a department, agency, …."

Officials from the **Department of Corrections** indicated they defer to the Office of Administration.

Officials from the **Department of Labor and Industrial Relations** indicated they expect no change in revenues or expenses in fiscal years 2017, 2018, and 2019.

The petition, if passed by voters, would require businesses with 15 or more employees to provide paid sick time. It also would allow their department to educate employers, take complaints, and perform investigations of violations of the new law.

The long-range fiscal implications are the same as those of the estimate period.

Under the new language, they may educate employers and employees, promulgate rules, take complaints, and conduct investigations of alleged violations of the new provisions. They believe the education, registration of complaints, and investigations would be conducted in a manner similar to those conducted under the Minimum Wage program. Using employer information from the United States Census Bureau for employers with more than ten employees, they estimate that it would receive complaints from 1.5% of the estimated 40,886 businesses with 10 or more employees, or 613 complaints annually. (The Census Bureau does not break employers at the 15 or more level.) To investigate these 613 complaints, they would require 3.50 Wage & Hour Investigator I/IIs. In FY 2016, 578 complaints were closed by 3.50 Investigators, averaging 165 per FTE. Using this calculation, they estimate it would need 3.50 FTE and the standard per FTE expenses and equipment to complete these activities.

However, Sections 285.612, 285.615, 285.618, and 285.621 expressly state that they are not required to take on the new duties it is authorized to perform under this proposal if doing so will require an appropriation to cover the costs of performing the duties. Because these duties are optional and are not required of their department, if there is no appropriation made to cover the cost, they estimate no mandated fiscal impact for this proposal.

Officials from the **Department of Revenue** indicated they defer this fiscal note to the Office of Administration for a statewide response.

Officials from the **Department of Public Safety** indicated they will defer to the Office of Administration response to this petition.

Officials from the **Department of Social Services** indicated they will defer to the Office of Administration response to this petition. They indicated no fiscal impact on their department.

Officials from the **Governor's Office** indicated there should be no fiscal impact to their office.

Officials from the **House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated no fiscal impact.

Officials from the **Office of Administration** indicated:

This initiative petition adds 15 new sections to Chapter 285 related to sick leave.

Under this proposal, employers would be required to provide paid sick leave to employees. The amount would be dependent upon the number of employees. It does not include employees covered under a valid collective bargaining agreement and it provides employees with an avenue of recourse if the employee claims to be aggrieved.

The State of Missouri is excluded from the provisions of this proposal, therefore there would be no statewide impact related to this proposal other than potentially higher costs for services purchased by the state. However, the Department of Labor and Industrial Relations (DOLIR) will be impacted. Budget and Planning defers to the DOLIR for the specific impact to that agency.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated no fiscal impact on their office.

Officials from the **Secretary of State's office** indicated their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any impact on their office, as they are an independent department within state government and by definition state employees are exempt from this proposed legislation.

Officials from the **State Treasurer's office** indicated this would have no fiscal impact on their office.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from the **City of Columbia** indicated there is no impact on their city.

Officials from the **City of Kansas City** indicated no direct fiscal impact is anticipated if this proposal is adopted because cities are not employers. An indirect cost to cities may arise through increased labor costs of those vendors contracting with the city.

Officials from the **City of Raymore** indicated no fiscal impact.

Officials from the **City of St. Joseph** indicated this initiative petition could have a fiscal impact on local government.

Officials from **University of Missouri** indicated they have reviewed this proposed legislation and have determined that for benefit eligible employees (defined as working .75 or >) that it does not appear that the proposed legislation as written would create a significant fiscal impact to their university.

Officials from the **Missouri Lottery** indicated no fiscal impact to their agency.

Officials from the **Public Service Commission** indicated no fiscal impact on their agency.

Officials from the **State Tax Commission** indicated this initiative petition pertaining to sick leave in Chapter 285 does not directly impact their office. As a state agency this matter is under the direction of Office of Administration, Division of Personnel.

Officials from the **Missouri Veterans Commission** indicated no fiscal impact to their agency.

Officials from the **Missouri Office of Prosecution Services** indicated no measurable fiscal impact to their office.

Officials from the **Kansas City Boards of Election Commissioners** indicated there is no fiscal impact with amendments to Chapter 285, Versions 1 -12, since the State is not responsible for costs associated with the November 2018 election.

Officials from the **Platte County Board of Elections** indicated the proposed initiative would have no fiscal impact on their office.

Officials from the **Jackson County Election Board** indicated no fiscal impact on their office.

Officials from the **Lieutenant Governor's office** indicated it is anticipated that this initiative petition will impose little to no costs or savings on their office.

Officials from the **Children's Trust Fund** indicated they are part of the Office of Administration and thus will be covered by the Office of Administration's official response. They will not be responding separately.

Officials from the **Missouri Joint Municipal Electric Utility Commission** indicated:

The Missouri Association of Municipal Utilities represents approximately 120 cities in Missouri providing utility services to their customer/owners. They do not represent cities in their general business operation. That representation is undertaken by the Missouri Municipal League and its executive director Dan Ross.

Based on a review of each of the 12 versions it appears that there would be no direct cost to any of their cities since the framers of the amendment specifically excluded cities from the definition of employers and city employees from coverage of the proposed changes.

However, it is possible that cities may experience some increases in the cost of goods and services consumed in the regular course of business as a result of higher labor input costs. It is impossible to accurately predict those increases other than to make you aware of the potential.

Officials from the **State Auditor's office** indicated there is no fiscal impact for their office.

Officials from **University of Central Missouri** indicated if they are included in the definition of "employer" that would be impacted by this legislation, they would have an additional cost of roughly $340,000. In fiscal year 2016, part-time employees worked nearly 679,000 hours. If each 30 hours resulted in one sick time hour, that would be 22,634 hours. At an average rate of $15/hour, that would have a fiscal impact of $340,000.

If the definition of employer is interpreted to exclude UCM because of its status as a state agency, then there would be no fiscal impact.

Officials from **Missouri State University** indicated no fiscal impact on their university.

Officials from **Missouri Southern State University** indicated they do not anticipate any fiscal impact from this initiative petition.

Lara Granich and Missouri Jobs with Justice Voter Action provided the following information as proponents of this initiative petition.

November 28, 2016

Missouri State Auditor
Jefferson City, MO
Submitted via email to moaudit@auditor.mo.gov, fiscalnote@auditor.mo.gov

Re: Fiscal Impact Analysis of Earned Sick Time Petitions
Petitions numbered by MO SOS at 2018-28 to 2018-39

This letter is from Lara Granich and Missouri Jobs with Justice Voter Action, proponents of the above-referenced initiative petitions. Pursuant to RSMo. Section 116.175, we write to submit the following information to assist your office in its analysis of the fiscal impact of the above-mentioned twelve proposed Earned Sick Time Petitions.

This analysis uses data collected by the U.S. Bureau of Labor Statistics, the Centers for Disease Control and Prevention, and the U.S. Census Bureau to evaluate the impact of earned sick time laws in Missouri. This analysis uses findings from previous peer-reviewed research to estimate cost-savings associated with the proposed policies through reduced turnover, reduced spread of contagious disease in the workplace, prevention of productivity losses from employees working while sick, minimized nursing-home stays, and reduced norovirus outbreaks in nursing homes. We also address certain claims that have been made by opponents in the past.

I. Estimate of Number of Workers Affected Statewide

According to the Institute for Women's Policy Research, an estimated 1,002,116 private sector workers in Missouri, or 45.9 percent of the workforce, cannot earn a single paid sick day to use to recover from common illnesses or seek medical care.[1]

II. Direct Costs to State

As these proposed initiatives exclude public workers employed by the state or by local governments, the initiatives are not expected to have any direct impact on state and local payroll costs. Enforcement would be handled by existing staff at the Department of Labor.

III. Economic Literature on the Impact of Earned Sick Time on Businesses

This analysis quantifies only a subset of potential benefits, predicting a net economic benefit from both of the proposed laws. Likely additional benefits from paid sick days not quantified in this analysis include: reduced health care spending due to reduced public contagion and more timely and regular preventive care and treatment; improved economic security among families who receive pay on sick days and are less likely to be fired or disciplined for taking sick time; and improved school outcomes and reduced contagion in schools, when parents can avoid sending sick children to school or child care.

Millions of workers have gained access to paid sick days in recent years through new laws in five states, 23 cities, and one county across the country. There is no evidence of business closures/layoffs as a result of earned sick time laws. Both Seattle and San Francisco saw positive job growth in the period after their laws took effect, and this job growth was much higher than in the surrounding areas for both cities. San Francisco's growth in employment exceeded the average employment growth of surrounding counties after the paid sick days law was passed. In the 10 months after the adoption of Seattle's Paid Sick and Safe Time Ordinance, King County (where Seattle is located) did not see negative economic impacts; rather, the county saw sustained job growth and reduced unemployment rates. 2

The Washington D.C. Auditor reported "that the Accrued Sick and Safe Leave Act did not have the economic impact of encouraging business owners to move a business from the District nor did the Act have the economic impact of discouraging business owners to locate a business in the District of Columbia."3 New York City reported that "New York City's economy has thrived since the enactment of PSL [paid sick leave]. Between January 2014 and January 2015, a period that covers the law's implementation, economic indicators were a cause for celebration, not concern as many had predicted." 4

Summary of Benefits Associated With Missouri's Proposed Earned Sick Time Law

Benefits	Firms with <50 Employees			Firms with 50+ Employees		
	Dollars	Average per-worker savings		Dollars	Average per-worker costs/savings	
BENEFITS						
Lower Turnover	$32,718,875			$146,675,016		
Reduced Flu Contagion in the Workplace	$1,334,044			$5,980,370		
		Weekly	*Hourly*		*Weekly*	*Hourly*
Employers' Savings	**$34,052,920**	**$6.97**	**$0.21**	**$152,655,386**	**$9.44**	**$0.26**
Reduced Short-Term Nursing Home Stays	$2,415,006			$8,165,162		
Reduced Norovirus in Nursing Homes	$21,692			$93,129		
Reduced Flu Contagion	$233,249			$771,691		
Reduced Emergency Department Visits	$3,512,104			$11,619,581		
		Weekly	*Hourly*		*Weekly*	*Hourly*
Community Savings	**$6,182,052**	**$1.26**	**$0.04**	**$20,649,564**	**$1.28**	**$0.03**

Note: "Small" firms are defined in the proposed laws at firms employing fewer than 15 employees and "Large" firms are defined as firms employing 15 or more employees.

Source: Institute for Women's Policy Research Analysis of the 2014 American Community Survey (ACS), the 2016 National Compensation Survey (NCS), the 2013-2016 Current Population Survey Annual Social and Economic Supplement (CPS ASEC), the 2010 Current Population Survey Displaced Worker, Employee Tenure, and Occupational Mobility Supplement File, and the 2014-2015 National Health Interview Survey (NHIS).

Note on Methodology

The estimates are based on analyses of the following data sets: the 2013–2016 Current Population Survey Annual Social and Economic Supplement (CPS ASEC), the 2014-2015 National Health Interview Survey (NHIS), the 2014 American Community Survey (ACS), the 2016 National Compensation Survey and the 2014 Medical Expenditure Panel Survey along with findings from previous peer-reviewed research.

This analysis was limited to only private sector workers as the proposed legislation only covers such workers. The proposed legislation does include some small exemptions for certain employees which this analysis does not account for. Excluding such workers would result in minor reductions in both the costs and benefits estimated, but general trends would remain the same. To learn more about the methodology and sources please see "Valuing Good Health in Maryland: The Costs and Benefits of Earned Sick Days"[5]

We hope that this information is useful to your office as your prepare your analyses of the petitions.

Respectfully submitted,
Lara Granich

IWPR #B361 July 2016

Paid Sick Days Benefit Employers, Workers, and the Economy

Jessica Milli, PhD., Jenny Xia, and Jisun Min

Millions of workers have gained access to paid sick days in recent years through new laws in five states, 23 cities, and one county across the country.[1] Yet millions more still would not be paid if they need to stay at home when they are sick or need to care for a family member who is ill. As of 2014, 51 million workers lacked access to paid sick days.[2]

Research has documented many benefits of paid sick days policies for workers, businesses, and communities as a whole. These benefits would multiply substantially if more workers gained access to paid sick days. This briefing paper summarizes research on the benefits of paid sick days and the effects of paid sick days policies in places that have them.

Employers Benefit from Paid Sick Days

- **Reduced contagion in the workplace:** A 2010 survey conducted by the National Opinion Research Center found that employees without access to paid sick days are 1.5 times more likely than those with access to go to work with a contagious illness (55 percent compared with 37 percent).[3] Such "presenteeism" has serious public health consequences including flu contagion. A 2010 analysis of labor force and Centers for Disease Control data estimated that more than one in four private sector employees worked while ill with H1N1 during the 2009 H1N1 pandemic, resulting in the estimated infection of 7 million co-workers with H1N1. Work absences from illness dropped more precipitously among public sector workers than among private sector workers during the decline of the pandemic. Because employees in the public sector have greater access to paid sick days, the finding suggests that paid sick days played a role in slowing contagion and potentially in speeding recovery.[4] A 2013 study employed a model simulating influenza contagion to estimate reductions in contagion rates under a universal paid sick days policy. Using data from the American Community Survey, LandScan USA, and the U.S. Census, the study estimated that providing paid sick days would reduce workplace influenza infection in the United States by about 6 percent.[5]

- **Improved productivity:** When workers come to work sick, their productivity and performance suffer. Estimates of productivity losses vary across studies. A 1997 study polling 332 workers who had influenza-like illnesses found that workers on average reported being 46 percent less effective while ill at work.[6] A 2003 study based on interviews with more than 28,000 workers reported that on average, workers lose 1.32 hours per week of productive time due to personal health related reasons.[7] Since workers

with access to paid sick days are less likely to come to work sick and infect their co-workers,[8] paid sick days can prevent further productivity losses resulting from illness and contagion in the workplace.

- **Decreased workplace injuries:** Working while sick also puts employees at greater risk of injury on the job. A 2012 study using the 2005 through 2008 National Health Interview Survey (NHIS) found that after controlling for factors like survey year, occupational sector, firm size, region, and the availability of paid sick leave, workers with access to paid sick days are 28 percent less likely to be injured on the job than workers without this benefit.[9]

- **Decreased employee turnover:** A 2012 analysis of data collected between 2004 and 2006 through the Medical Expenditure Panel Survey (MEPS) finds that the likelihood of job separation decreases by about 25 percent when a worker has access to paid sick days, even after controlling for potential confounding factors such as workers' educational attainment, earnings, and race/ethnicity.[10] As employee turnover typically costs an employer between 10 and 30 percent of an employee's annual salary,[11] a reduction in turnover can result in significant reductions in employer costs.

Paid Sick Days Improve Public Health

- **Increased use of preventive care:** Since paid sick days can be used for doctor visits, workers with paid sick days are more likely to seek preventive care and to be screened for diseases such as cancer, which can lead to early detection and treatment. A 2012 study using 2008 National Health Interview Survey (NHIS) data finds that after controlling for sociodemographic and health-care-related factors, workers with paid sick days are significantly more likely to have had mammograms, Pap tests, and endoscopy, and to have seen a doctor during the previous year than those without the benefit.[12]

- **More timely treatment for illnesses:** Workers without paid sick days are more likely to delay medical care when they or a family member is ill which can lead to a more serious or prolonged illness.[13]A 2016 analysis of the 2013 NHIS—which controlled for demographic and health-related factors like race and ethnicity, occupation, annual family income, and health insurance coverage—indicates that workers without paid sick leave are three times more likely to forgo medical care for themselves, and 1.6 times more likely to forgo medical care for their families, compared with workers who have the benefit.[14] A 2011 analysis of the NHIS found that when they do seek care, workers without paid sick days—regardless of their educational attainment, income, race/ethnicity and other demographic characteristics—are more likely to use an emergency department for care.[15]

- **Improved family health:** Paid sick days may encourage workers to respond to their children's and family members' health needs in a timely manner, thereby improving overall health outcomes for their families. Paid sick days are a primary factor affecting whether a working parent will stay at home with a sick child rather than sending them to school or child care sick. The 2010 National Opinion Research Center Survey found that

28 percent of workers without paid sick days reported sending a sick child to school or child care, compared with 14 percent of workers with paid sick days.[16] A 2012 study analyzing the 2008 National Study of the Changing Workforce (NSCW) and controlling for worker and job characteristics finds that having paid sick days is associated with reduced work-family conflict, which lessens difficulties parents face in taking time off from work to care for a sick child.[17]

Paid Sick Days Bring Economic Benefits for Workers, Families, and Communities

- **Improved employment and earnings stability:** When incomes are not interrupted by unpaid leave, families experience greater financial stability and economic well-being. According to a 2010 poll, 16 percent of workers surveyed reported losing a job for missing work when they were sick or to care for an ill family member.[18] Research has shown that having paid sick days reduces the likelihood of a job separation by at least 25 percent.[19]

- **Improved labor force attachment among caregivers:** Informal caregivers whose work schedules are incompatible with the care needs of their family members may decrease their work hours or even leave the labor force completely.[20] One 2011 Gallup poll found that most caregivers, including parents, reported missing at least one full day of work to fulfill their caregiving duties with an average of 6.6 workdays missed per year.[21] Paid sick days, however, may provide sufficient leave to caregivers to allow them to maintain their desired level of employment while continuing to perform their caregiving work.

- **Savings from reduced utilization of hospital emergency departments and a lower monetary burden on taxpayers:** A 2011 study using the 2008 and 2009 NHIS finds that the annual number of emergency department visits per worker without paid sick days is greater than it is for those with the benefit. Using MEPS data on the cost of emergency department visits, the study estimates that a lack of paid sick days resulted in an estimated 1.3 million preventable emergency department visits every year in the United States in 2008, costing $1.1 billion more than office visits would have. Part of these costs—$500 million—were paid by public insurance programs such as Medicaid.[22]

Research Finds Benefits of Existing Paid Sick Days Laws and Minimal Costs to Employers

Since the implementation of the first paid sick days law in 2007, several studies have evaluated the impacts of the legislation, with a particular emphasis on the effects on employers. These evaluations have largely found that the overall impact on businesses was minimal. Many firms saw benefits from the policy and counted themselves as supporters after implementing it.

- **Minimal costs:** Costs to employers of providing paid sick days have been modest. In Seattle, evaluations found that the cost of providing paid sick leave in 2013 was only

about 0.4 percent of total firm revenue for the year.[23] In Connecticut, nearly half of 228 employers surveyed in 2013, a year and a half after the state's paid sick days law's implementation, reported having no increased overall cost, and 19.1 percent of employers reported an increased cost of less than 2 percent.[24] In San Francisco, the paid sick leave ordinance created additional costs for a relatively small share of employers. Six out of seven employers reported no adverse effects on profitability.[25]

- **Ease of implementation:** Research shows that paid sick days have minimal effect on business operations. Most San Francisco employers reported that implementing the Paid Sick Leave Ordinance was not difficult.[26] Likewise, about two thirds of Seattle employers reported that implementing the Paid Sick and Safe Time Ordinance was not very difficult, and 70 percent expressed support for the policy a year after implementation of the Ordinance.[27] Similarly, a large majority of Connecticut employers surveyed in 2013 indicated that the Paid Sick Leave Law did not burden business operations.[28]

- **Employees use paid sick days judiciously:** Several years after the implementation of San Francisco's paid sick days law, an IWPR survey of 1,194 workers found that employees in San Francisco used fewer than half of the sick days available under the paid sick leave ordinance.[29] Using data from the 2014 NHIS, IWPR found that most workers who do have access to paid sick days do not use any in a given year.[30] In regions that have passed paid sick day laws, surveys suggest that abuse of paid sick days is rare. Among 228 Connecticut employers surveyed by the Center for Economic and Policy Research, 86 percent reported no known cases of abuse more than a year after paid sick days was implemented.[31] A report published by the City of Seattle auditor finds that more than nine in ten Seattle employers surveyed in 2012 had never reprimanded an employee for abusing paid sick days.[32]

- **Sustained job growth and employment:** In contrast to messaging communicated by big business lobbyists prior to the laws' passage, both Seattle and San Francisco saw positive job growth in the period after their laws took effect, and this job growth was much higher than in the surrounding areas for both cities. San Francisco's growth in employment exceeded the average employment growth of surrounding counties after the paid sick days law was passed.[33] In the 10 months after the adoption of Seattle's Paid Sick and Safe Time Ordinance, King County (where Seattle is located) did not see negative economic impacts; rather, the county saw sustained job growth and reduced unemployment rates.[34]

- **Improved employee morale, motivation, loyalty, and productivity**: Over a quarter of Connecticut employers reported improved morale, 12.5 percent reported increased employee motivation, 10.6 percent reported increased loyalty, and 14.9 percent reported increased productivity after implementation of the state's paid sick days law.[35]

- **Improved work life balance for employees:** A 2010 IWPR survey found that one out of four San Francisco employees reported that paid sick days enabled them to better care for their own and their families' health needs. In addition, nearly 30 percent reported that their employers were more supportive when they needed to use their leave than they were

prior to the law's passage. More than half of all San Francisco workers reported at least one benefit as a result of the ordinance.[36]

- **Reduced flu contagion in locations with paid sick day laws:** One recent study used Google Flu data from 2003 to 2015 to show that influenza-like infection rates decrease significantly when workers gain access to paid sick days. By comparing the rates of influenza-like illnesses in regions with paid sick days policies—including the District of Columbia, Connecticut, California, Massachusetts, and Oregon—with those lacking such laws, the study finds that infection rates decrease by about 10 percent when employees without coverage obtain paid sick days.[37]

Conclusion

Literature spanning the fields of public health, economics, sociology, medicine, social work, and public policy converge to reflect the health, employment, and economic benefits of paid sick days. Research suggests that more widespread implementation of paid sick days policies would have a substantial positive impact on the well-being of children, families, and communities across the United States.

Fiscal Note Summary

State and local governments expect no direct costs from this proposal, but indicated unknown higher costs for goods and services may result. Any change in tax revenue for state and local governments is unknown.

JAMES C. KIRKPATRICK
STATE INFORMATION CENTER
(573) 751-4936

JASON KANDER
SECRETARY OF STATE
STATE OF MISSOURI

ELECTIONS DIVISION
(573) 751-2301

November 17, 2016

The Honorable Nicole Galloway
State Auditor
State Capitol Building
Jefferson City, MO 65101

RECEIVED
NOV 17 2016
STATE AUDITORS OFFICE

RE: Petition approval request from Richard Von Glahn regarding a proposed statutory amendment to Chapter 285, version 3 (2018-030)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Richard Von Glahn on November 16, 2016.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

Jason Kander

Be it enacted by the people of the State of Missouri:

Section 285.055 of the Revised Statutes of Missouri is amended and fifteen new sections to be known as sections 285.600, 285.603, 285.606, 285.609, 285.612, 285.615, 285.618, 285.621, 285.624, 285.627, 285.630, 285.633, 285.636, 285.639, and 285.642 are enacted to read as follows:

285.055. 1. As used in this section, the following terms shall mean:

(1) "Employee", an individual employed in this state by an employer;

(2) "Employer", any individual, sole proprietorship, partnership, limited liability company, corporation, or any other entity that is legally doing business in this state; provided, however, that employer shall not include any public employer as defined in section 285.525;

(3) "Employment benefits", anything of value that an employee may receive from an employer in addition to wages and salary. The term includes, but is not limited to, health, disability, retirement, profit-sharing, and death benefits; group accidental death and dismemberment benefits; paid or unpaid days off from work for holidays, [sick leave,] vacation, and personal necessity; and terms of employment, attendance, or leave policies; provided, however, that for purposes of this section, "employment benefits" does not include paid or unpaid days off from work for sick leave that can be used for the purposes listed in subsection (1) of section 285.606.

(4) "Political subdivision", any county, city, town, or village.

2. No political subdivision shall establish, mandate, or otherwise require an employer to provide to an employee:

(1) A minimum or living wage rate; or

(2) Employment benefits;

that exceed the requirements of federal or state laws, rules, or regulations. The provisions of this subsection shall not preempt any state law or local minimum wage ordinance requirements in effect on August 28, 2015.

285.600. As used in sections 285.600 through 285.642:

(1) "Construction", includes construction, reconstruction, improvement, enlargement, alteration, painting and decorating, or major repair.

(2) "Construction industry", includes any employer whose employees conduct or perform construction as a principal component of the employer's business or enterprise.

(3) "Department", Department of Labor and Industrial Relations.

(4) "Director", Director of the Department of Labor and Industrial Relations.

(5) "Earned paid sick time", time that is compensated at the same hourly rate and with the same benefits, including health care benefits, as the employee normally earns during hours worked and is provided by an employer to an employee for the purposes described in section 285.606, but in no case shall this hourly amount be less than that provided under section 290.502.

(6) "Employee", any individual employed in this state by an employer, but does not include:

(A) Any individual engaged in the activities of an educational, charitable, religious, or nonprofit organization where the employer-employee relationship does not, in fact, exist or where the services rendered to the organization are on a voluntary basis;

(B) Any individual standing in loco parentis to foster children in their care;

(C) Any individual employed for less than four months in any year in a resident or day camp for children or youth, or any individual employed by an educational conference center operated by an educational, charitable or not-for-profit organization;

(D) Any individual engaged in the activities of an educational organization where employment by the organization is in lieu of the requirement that the individual pay the cost of tuition, housing or other educational fees of the organization or where earnings of the individual employed by the organization are credited toward the payment of the cost of tuition, housing or other educational fees of the organization;

(E) Any individual employed on or about a private residence on an occasional basis for six hours or less on each occasion;

(F) Any individual employed on a casual basis to provide baby-sitting services;

(G) Any individual employed by an employer subject to the provisions of part A of subtitle IV of title 49, United States Code, 49 U.S.C. §§ 10101 et seq.;

(H) Any individual employed on a casual or intermittent basis as a golf caddy, newsboy, or in a similar occupation;

(I) Any individual who is employed in any government position defined in 29 U.S.C. §§ 203(e)(2)(C)(i)-(ii); or

(J) Any individual who is an offender, as defined in section 217.010, who is incarcerated in any correctional facility operated by the department of corrections, including offenders who provide labor or services on the grounds of such correctional facility pursuant to section 217.550.

(7) "Employer", any person acting directly or indirectly in the interest of an employer in relation to an employee; provided, however, that for the purposes of sections 285.600 through 285.642, "employer" does not include the United States Government, the state, or a political subdivision of the state, including a department, agency, officer, bureau, division, board, commission, or instrumentality of the state, or a city, county, town, village, school district, or other political subdivision of the state.

(8) "Family member", any of the following individuals:

(A) Regardless of age, a biological, adopted or foster child, stepchild or legal ward, a child of a domestic partner, a child to whom the employee stands in loco parentis, or an individual to whom the employee stood in loco parentis when the individual was a minor;

(B) A biological, foster, stepparent or adoptive parent or legal guardian of an employee or an employee's spouse or domestic partner or an individual who stood in loco parentis when the employee or employee's spouse or domestic partner was a minor child;

(C) An individual to whom the employee is legally married under the laws of any state, or a domestic partner who is registered as such under the laws of a political subdivision;

(D) A grandparent, grandchild, or sibling (whether of a biological, foster, adoptive or step relationship) of the employee or the employee's spouse or domestic partner; or

(E) A member of the employee's household.

(9) "Health care professional," any individual licensed under Federal or State law to provide medical or emergency services, including but not limited to doctors, nurses, certified nurse midwives, and emergency room personnel.

(10) "Person", any individual, partnership, association, corporation, business, business trust, legal representative, or any organized group of persons.

(11) "Retaliatory personnel action", denial of any right guaranteed under sections 285.600 through 285.642, or any threat, discharge, suspension, demotion, reduction of hours, or any other adverse action against an employee for the exercise of any right guaranteed herein. "Retaliatory personnel action" shall also include interference with or punishment for in any manner participating in or assisting an investigation, proceeding, or hearing under sections 285.600 through 285.642.

(12) "Year", a regular and consecutive twelve-month period as determined by the employer; except that for the purposes of section 285.615 and section 285.627, "year" shall mean a calendar year.

285.603. 1. Employees of an employer with fifteen or more employees shall accrue a minimum of one hour of earned paid sick time for every thirty hours worked, but such employees shall not be entitled to accrue or use more than forty hours of earned paid sick time per year, unless the employer selects a higher limit.

2. Employees of an employer with fewer than fifteen employees shall accrue a minimum of one hour of earned paid sick time for every thirty hours worked, but such employees shall not be entitled to accrue or use more than twenty-four hours of earned paid sick time per year, unless the employer selects a higher limit.

3. In determining the number of employees performing work for an employer for compensation during a given week, all employees performing work for compensation on a full-time, part-time, or temporary basis shall be counted. In situations in which the number of employees who work for an employer for compensation per week fluctuates above and below fifteen employees per week over the course of the year, an employer is required to provide earned paid sick time pursuant to subsection (1) of this section if it maintained fifteen or more employees on the payroll for some portion of a day in each of twenty different calendar weeks, whether or not the weeks were consecutive, in either the current or the preceding year (irrespective of whether the same individuals were in employment in each day).

4. All employees shall accrue earned paid sick time as follows:

(A) Earned paid sick time as provided in this section shall begin to accrue at the commencement of employment or ninety days after this law goes into effect, whichever is later. An employer may provide all paid sick time that an employee is expected to accrue in a year at the beginning of the year.

(B) An employee may use earned paid sick time as it is accrued, except that an employer may require an employee hired more than ninety days after this law goes into effect to wait until the ninetieth calendar day after commencing employment before using accrued earned paid sick time, unless otherwise permitted by the employer.

(C) Employees who are exempt from overtime requirements under 29 U.S.C. § 213(a)(1) of the Federal Fair Labor Standards Act will be assumed to work forty hours in each work week for purposes of earned paid sick time accrual unless their normal work week is less than forty hours, in which case earned paid sick time accrues based upon that normal work week.

(D) Earned paid sick time shall be carried over to the following year, subject to the limitations on usage in subsections (1) and (2) of this section. Alternatively, in lieu of carryover of unused earned paid sick time from one year to the next, an employer may pay an employee for unused earned paid sick time at the end of a year and provide the employee with an amount of paid sick time that meets or exceeds the requirements of sections 285.600 through 285.642 that is available for the employee's immediate use at the beginning of the subsequent year.

(E) If an employee is transferred to a separate division, entity, or location, but remains employed by the same employer, the employee is entitled to all earned paid sick time accrued at the prior division, entity, or location and is entitled to use all earned paid sick time as provided in this section. When there is a separation from employment and the employee is rehired within nine months of separation by the same employer,

previously accrued earned paid sick time that had not been used shall be reinstated. Further, the employee shall be entitled to use accrued earned paid sick time and accrue additional earned paid sick time at the re-commencement of employment.

(F) When a different employer succeeds or takes the place of an existing employer, all employees of the original employer who remain employed by the successor employer are entitled to all earned paid sick time they accrued when employed by the original employer, and are entitled to use earned paid sick time previously accrued.

(G) At its discretion, an employer may loan earned paid sick time to an employee in advance of accrual by such employee.

5. Any employer with a paid leave policy, such as a paid time off policy, who makes available an amount of paid leave sufficient to meet the accrual requirements of this section that may be used for the same purposes and under the same conditions as earned paid sick time under sections 285.600 through 285.642 is not required to provide additional paid sick time.

6. Nothing in this section shall be construed as requiring financial or other reimbursement to an employee from an employer upon the employee's termination, resignation, retirement, or other separation from employment for accrued earned paid sick time that has not been used.

285.606. 1. Earned paid sick time shall be provided to an employee by an employer for:

(A) An employee's mental or physical illness, injury, or health condition; an employee's need for medical diagnosis, care, or treatment of a mental or physical illness, injury, or health condition; an employee's need for preventive medical care;

(B) Care of a family member with a mental or physical illness, injury, or health condition; care of a family member who needs medical diagnosis, care, or treatment of a mental or physical illness, injury, or health condition; care of a family member who needs preventive medical care; or

(C) Closure of the employee's place of business by order of a public official due to a public health emergency, or an employee's need to care for a child whose school or place of care has been closed by order of a public official due to a public health emergency, or care for oneself or a family member when it has been determined by the health authorities having jurisdiction or by a health care provider that the employee's or family member's presence in the community may jeopardize the health of others because of his or her exposure to a communicable disease, whether or not the employee or family member has actually contracted the communicable disease.

2. Earned paid sick time shall be provided upon the request of an employee. Such request may be made orally, in writing, by electronic means or by any other means acceptable to the employer. When possible, the request shall include the expected duration of the absence.

3. When the use of earned paid sick time is foreseeable, the employee shall make a good faith effort to provide notice of the need for such time to the employer in advance of the use of the earned paid sick time and shall make a reasonable effort to schedule the use of earned paid sick time in a manner that does not unduly disrupt the operations of the employer. Where such need is not foreseeable, an employer may require an employee to provide notice of the need for the use of earned paid sick time as soon as practicable.

4. An employer that requires notice of the need to use earned paid sick time where the need is not foreseeable shall provide a written policy that contains procedures for the employee to provide notice. An employer that has not provided to the employee a copy of its written policy for providing such notice shall not deny earned paid sick time to the employee based on non-compliance with such a policy.

5. An employer may not require, as a condition of an employee's taking earned paid sick time, that the employee search for or find a replacement worker to cover the hours during which the employee is using earned paid sick time.

6. Earned paid sick time may be used in the smaller of hourly increments or the smallest increment that the employer's payroll system uses to account for absences or use of other time.

7. For earned paid sick time of three or more consecutive work days, an employer may require reasonable documentation that the earned paid sick time has been used for a purpose covered by subsection (1) of this section. Documentation signed by a heath care professional indicating that earned paid sick time is necessary shall be considered reasonable documentation for purposes of this section. An employer may not require that the documentation explain the nature of the illness unless otherwise required by law.

285.609. 1. It shall be unlawful for an employer or any other person to interfere with, restrain, or deny the exercise of, or the attempt to exercise, any right protected under sections 285.600 through 285.642.

2. An employer shall not take retaliatory personnel action or discriminate against an employee or former employee because he or she has exercised rights protected under sections 285.600 through 285.642. Such rights include, but are not limited to, the right to request or use earned paid sick time pursuant to sections 285.600 through 285.642; the right to file a complaint or inform any person about any employer's alleged violation of sections 285.600 through 285.642; the right to participate in an investigation, hearing, or proceeding or cooperate with or assist the Department in any investigations of alleged violations of sections 285.600 through 285.642; and the right to inform any person of his or her potential rights under sections 285.600 through 285.642.

3. It shall be unlawful for an employer's absence control policy to count earned paid sick time taken under sections 285.600 through 285.642 as an absence that may lead to or result in discipline, discharge, demotion, suspension, or any other adverse action.

4. Protections of this section shall apply to any individual who mistakenly but in good faith alleges violations of sections 285.600 through 285.642.

285.612. 1. Employers shall give employees written notice of the following at the commencement of employment or by ninety days after this law goes into effect, whichever is later: employees are entitled to earned paid sick time and the amount of earned paid sick time, the terms of its use guaranteed under sections 285.600 through 285.642, that retaliatory personnel action against employees who request or use earned paid sick time is prohibited, that each employee has the right to bring a civil action if earned paid sick time as required by sections 285.600 through 285.642 is denied by the employer or the employee is subjected to retaliatory personnel action for requesting or taking earned paid sick time, and, if applicable, the contact information for the Department where questions about rights and responsibilities under sections 285.600 through 285.642 may be answered.

2. Employers shall display a poster that contains the information required in subsection (1) of this section in a conspicuous and accessible place in each establishment where such employees are employed, provided that such poster has been provided by the Department.

3. The Department may create and make available to employers, model notices and posters that contain the information required under subsection (1) of this section for employers' use in complying with subsections (1) and (2) of this section. Nothing in this subsection shall be interpreted or applied, either expressly or through practical necessity, to require the Department to create or make available notices or posters if it requires the appropriation of funds to cover the costs of such acts.

285.615. 1. Employers shall retain records documenting hours worked by employees and earned paid sick time taken by employees, for a period of not less than three years, and shall allow the Department access to such records, with appropriate notice and at a mutually agreeable time, to monitor compliance with the requirements of sections 285.600 through 285.642.

2. To the extent permitted by law, the Director may inspect such records, and the records shall be open for inspection by the Director by appointment. Where the records required under this section are kept outside the state, the records shall be made available to the Director upon demand. Every such employer shall furnish to the Director on demand a sworn statement of time records and information upon forms prescribed or approved by the Director. All the records and information obtained by the Department are confidential and shall be disclosed only on order of a court of competent jurisdiction.

3. Nothing in this section shall be interpreted or applied, either expressly or through practical necessity, to require the Department or Director to access or inspect records or to create forms relating to the inspection of records if it requires the appropriation of funds to cover the costs of such acts.

285.618. 1. The Department may, in accordance with chapter 536, promulgate rules to implement the provisions of sections 285.600 through 285.642. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2018, shall be invalid and void.

2. Nothing in this section shall be interpreted or applied, either expressly or through practical necessity, to require the promulgation or adoption of rules if it requires the appropriation of funds to cover the costs of such acts.

285.621. 1. To the extent permitted by law, the Department may investigate and ascertain compliance with sections 285.600 through 285.642, establish and implement a system to receive complaints regarding non-compliance with sections 285.600 through 285.642 and to investigate and attempt to resolve complaints through mediation between the complainant and the subject of the complaint, and establish additional means of enforcement to the extent permitted by the law.

2. The Department may develop and implement an outreach program to inform employees, parents, and persons who are under the care of a health care provider about the availability of earned paid sick time under sections 285.600 through 285.642. This program may include the distribution of notices and other written materials to child care and elder care providers, domestic violence shelters, schools, hospitals, community health centers and other health care providers in Missouri.

3. Nothing in this section shall be interpreted or applied, either expressly or through practical necessity, to require the Department to conduct investigations and ascertain compliance with sections 285.600 through 285.642, to establish and implement a system to receive or resolve complaints, to establish additional means of enforcement, or to conduct outreach and education, including the creation of notices and other written materials, concerning sections 285.600 through 285.642, if it requires the appropriation of funds to cover the costs of such acts.

285.624. 1. To the extent permitted by law, any employer who violates or fails to comply with any of the provisions and requirements of sections 285.600 through 285.642 shall be guilty of a class C misdemeanor and shall be punished for each violation thereof by a fine, up to the maximum allowed under state law for violation of a class C misdemeanor; provided, however, that an employer who willfully violates the notice and posting requirements of section 285.612 shall be guilty of an infraction and shall be punished for each violation thereof by a fine, up to the maximum allowed under state law for an infraction.

2. For purposes of this section, each day of violation or failure to comply and each employee affected shall constitute a separate offense.

285.627. 1. Any individual who claims to have been aggrieved by a failure of an employer to comply with any portion of sections 285.600 through 285.642, including but not limited to the failure to provide earned paid sick time or to allow employees to use such time consistent with sections 285.600 through 285.642, or who claims to have suffered a retaliatory personnel action, shall have a right of action and may commence a civil action in the appropriate court of jurisdiction within three years of the accrual of the cause of action, to obtain appropriate relief with respect to such unlawful violation.

2. In a civil action under this section, if the court finds a violation has occurred, the court may grant as relief, as it deems appropriate and to the extent permitted by law, any permanent or temporary injunction, the full amount of any unpaid earned sick time plus any actual damages suffered as the result of the employer's violation of sections 285.600 through 285.642, an additional amount equal to twice any unpaid earned sick time as liquidated damages, costs, and reasonable attorney's fees as may be allowed by the court, and other legal or equitable relief as may be appropriate to remedy the violation, including, without limitation, reinstatement to employment and back pay. Any agreement between the employee and the employer to waive the protections of sections 285.600 through 285.642, with the exception of section 285.633, shall be no defense to the action.

285.630. 1. Except as otherwise required by law, an employer may not require disclosure of details relating to an employee's or an employee's family member's health information as a condition of providing earned paid sick time under sections 285.600 through 285.642.

2. Unless as otherwise required by law, any health information possessed by an employer regarding an employee or employee's family member must:

(A) be maintained on a separate form and in a separate file from other personnel information;

(B) be treated as confidential medical records; and

(C) not be disclosed except to the affected employee or with the express written permission of the affected employee.

285.633. 1. All or any portion of the earned paid sick time requirements of sections 285.600 through 285.642 shall not apply to employees covered by a valid collective bargaining agreement, to the extent that such requirements are expressly waived in the collective bargaining agreement in clear and unambiguous terms; provided further, that no provisions of sections 285.600 through 285.642 shall apply to any employee engaged in construction work in the construction industry who is covered by a valid collective bargaining agreement.

2. Notwithstanding subsection (1) of this section, with respect to employees covered by a valid collective bargaining agreement in effect on the effective date of sections 285.600 through 285.642, no provisions of sections 285.600 through 285.642 shall apply until the stated expiration date in the collective bargaining agreement.

3. Nothing in sections 285.600 through 285.642 shall be deemed to interfere, impede, or otherwise diminish the right of employees to bargain collectively through representatives of their own choosing.

285.636. 1. Nothing in sections 285.600 through 285.642 shall be construed to discourage or prohibit an employer from the adoption or retention of an earned paid sick time policy more generous than the one required herein.

2. Nothing in sections 285.600 through 285.642 shall be construed as diminishing the obligation of an employer to comply with any contract, collective bargaining agreement, employment benefit plan, or other agreement providing more generous paid sick time to an employee than required herein. Nothing in sections 285.600 through 285.642 shall be construed as diminishing the rights of public employees regarding paid sick time or use of paid sick time as provided in the laws of Missouri pertaining to public employees.

285.639. 1. Sections 285.600 through 285.642 provide minimum requirements pertaining to earned paid sick time and shall not be construed to preempt, limit, or otherwise affect the applicability of any other law, regulation, requirement, policy, or standard that provides for greater accrual or use by employees of earned paid sick time or that extends other protections to employees.

2. Any county, city, town, or village in the state shall have the power and authority to establish, mandate, or otherwise require an employer to provide to an employee paid or unpaid days off from work for sick leave which exceeds the requirements of sections 285.600 through 285.642.

3. Nothing in sections 285.600 through 285.642 shall be interpreted or applied to create a power or obligation contrary to any federal law, rule, or regulation.

285.642. Except as detailed in section 285.618, all of the provisions of sections 285.600 through 285.642 are severable, and if any provision, including any section, subsection, subdivision, paragraph, sentence, or clause, or the application thereof to any person or circumstance, is found by a court of competent jurisdiction to be invalid, unconstitutional, or unconstitutionally enacted, such decision shall not affect other provisions or applications of sections 285.600 through 285.642 that can be given effect without the invalid, unconstitutional, or unconstitutionally enacted provision or application, and to this end the provisions of sections 285.600 through 285.642 are declared severable.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-030)

Subject

Initiative petition from Richard Von Glahn regarding a proposed amendment to Chapter 285 of the Revised Statutes of Missouri. (Received November 17, 2016)

Date

December 7, 2016

Description

This proposal would amend Chapter 285 of the Revised Statutes of Missouri.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** the **Missouri Lottery,** the **Public Service Commission,** the **State Tax Commission,** the **Missouri Technology Corporation,** the **Missouri Life Sciences Research Board,** the **Missouri Veterans Commission,** the **Missouri Ethics Commission,** the **Missouri Office of Prosecution Services,** the **Kansas City Boards of Police Commissioners,** the **St. Louis City Board of Police Commissioners,** the **St. Louis County Board of Elections,** the **Board of Election Commissioners City of St.**

Louis, the **Kansas City Board of Election Commissioners,** the **Platte County Board of Elections,** the **Jackson County Election Board,** the **Clay County Board of Election Commissioners,** the **Lieutenant Governor's office,** the **Children's Trust Fund,** the **Missouri Joint Municipal Electric Utility Commission,** the **State Auditor's office, University of Central Missouri, Harris-Stowe State University, Lincoln University, Missouri Southern State University, Missouri Western State University, Northwest Missouri State University, Southeast Missouri State University,** and **Truman State University**.

Lara Granich and Missouri Jobs with Justice Voter Action provided information as proponents of the proposal to the State Auditor's office.

Officials from the **Attorney General's office** indicated various provisions of the proposal authorize their department to promulgate rules, establish mediation procedures "and additional means of enforcement… ." They assume that their office may provide some review of proposals, but assume that any potential costs arising from this proposal can be absorbed with existing resources. They may seek additional appropriations if there is an increased review of rules in later years.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated they will be deferring to the Office of Administration and the Department of Labor and Industrial Relations regarding any fiscal impact this initiative petition might have.

Officials from the **Department of Higher Education** indicated the state, including departments, are exempt from the definition of "employer," so this initiative petition would not have a fiscal impact on their department.

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition does not apply to public employers with respect to its employees. Therefore, this petition, if passed, would have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated there is no fiscal impact to their department as a result of this initiative petition. Section 285.600 (5) indicates "for the purposes of sections 285.600 through 285.642 "employer" does not include the United States Government, the state, …., including a department, agency, …."

Officials from the **Department of Corrections** indicated they defer to the Office of Administration.

Officials from the **Department of Labor and Industrial Relations** indicated they expect no change in revenues or expenses in fiscal years 2017, 2018, and 2019.

The petition, if passed by voters, would require businesses with 15 or more employees to provide paid sick time. It also would allow their department to educate employers, take complaints, and perform investigations of violations of the new law.

The long-range fiscal implications are the same as those of the estimate period.

Under the new language, they may educate employers and employees, promulgate rules, take complaints, and conduct investigations of alleged violations of the new provisions. They believe the education, registration of complaints, and investigations would be conducted in a manner similar to those conducted under the Minimum Wage program. Using employer information from the United States Census Bureau for employers with more than ten employees, they estimate that it would receive complaints from 1.5% of the estimated 40,886 businesses with 10 or more employees, or 613 complaints annually. (The Census Bureau does not break employers at the 15 or more level.) To investigate these 613 complaints, they would require 3.50 Wage & Hour Investigator I/IIs. In FY 2016, 578 complaints were closed by 3.50 Investigators, averaging 165 per FTE. Using this calculation, they estimate it would need 3.50 FTE and the standard per FTE expenses and equipment to complete these activities.

However, Sections 285.612, 285.615, 285.618, and 285.621 expressly state that they are not required to take on the new duties it is authorized to perform under this proposal if doing so will require an appropriation to cover the costs of performing the duties. Because these duties are optional and are not required of their department, if there is no appropriation made to cover the cost, they estimate no mandated fiscal impact for this proposal.

Officials from the **Department of Revenue** indicated they defer this fiscal note to the Office of Administration for a statewide response.

Officials from the **Department of Public Safety** indicated they will defer to the Office of Administration response to this petition.

Officials from the **Department of Social Services** indicated they will defer to the Office of Administration response to this petition. They indicated no fiscal impact on their department.

Officials from the **Governor's Office** indicated there should be no fiscal impact to their office.

Officials from the **House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated no fiscal impact.

Officials from the **Office of Administration** indicated:

This initiative petition adds 15 new sections to Chapter 285 related to sick leave.

Under this proposal, employers would be required to provide paid sick leave to employees. The amount would be dependent upon the number of employees. It does not include employees covered under a valid collective bargaining agreement and it provides employees with an avenue of recourse if the employee claims to be aggrieved.

The State of Missouri is excluded from the provisions of this proposal, therefore there would be no statewide impact related to this proposal other than potentially higher costs for services purchased by the state. However, the Department of Labor and Industrial Relations (DOLIR) will be impacted. Budget and Planning defers to the DOLIR for the specific impact to that agency.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated no fiscal impact on their office.

Officials from the **Secretary of State's office** indicated their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any impact on their office, as they are an independent department within state government and by definition state employees are exempt from this proposed legislation.

Officials from the **State Treasurer's office** indicated this would have no fiscal impact on their office.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from the **City of Columbia** indicated there is no impact on their city.

Officials from the **City of Kansas City** indicated no direct fiscal impact is anticipated if this proposal is adopted because cities are not employers. An indirect cost to cities may arise through increased labor costs of those vendors contracting with the city.

Officials from the **City of Raymore** indicated no fiscal impact.

Officials from the **City of St. Joseph** indicated this initiative petition could have a fiscal impact on local government.

Officials from **University of Missouri** indicated they have reviewed this proposed legislation and have determined that for benefit eligible employees (defined as working .75 or >) that it does not appear that the proposed legislation as written would create a significant fiscal impact to their university.

Officials from the **Missouri Lottery** indicated no fiscal impact to their agency.

Officials from the **Public Service Commission** indicated no fiscal impact on their agency.

Officials from the **State Tax Commission** indicated this initiative petition pertaining to sick leave in Chapter 285 does not directly impact their office. As a state agency this matter is under the direction of Office of Administration, Division of Personnel.

Officials from the **Missouri Veterans Commission** indicated no fiscal impact to their agency.

Officials from the **Missouri Office of Prosecution Services** indicated no measurable fiscal impact to their office.

Officials from the **Kansas City Boards of Election Commissioners** indicated there is no fiscal impact with amendments to Chapter 285, Versions 1 -12, since the State is not responsible for costs associated with the November 2018 election.

Officials from the **Platte County Board of Elections** indicated the proposed initiative would have no fiscal impact on their office.

Officials from the **Jackson County Election Board** indicated no fiscal impact on their office.

Officials from the **Lieutenant Governor's office** indicated it is anticipated that this initiative petition will impose little to no costs or savings on their office.

Officials from the **Children's Trust Fund** indicated they are part of the Office of Administration and thus will be covered by the Office of Administration's official response. They will not be responding separately.

Officials from the **Missouri Joint Municipal Electric Utility Commission** indicated:

The Missouri Association of Municipal Utilities represents approximately 120 cities in Missouri providing utility services to their customer/owners. They do not represent cities in their general business operation. That representation is undertaken by the Missouri Municipal League and its executive director Dan Ross.

Based on a review of each of the 12 versions it appears that there would be no direct cost to any of their cities since the framers of the amendment specifically excluded cities from the definition of employers and city employees from coverage of the proposed changes.

However, it is possible that cities may experience some increases in the cost of goods and services consumed in the regular course of business as a result of higher labor input costs. It is impossible to accurately predict those increases other than to make you aware of the potential.

Officials from the **State Auditor's office** indicated there is no fiscal impact for their office.

Officials from **University of Central Missouri** indicated if they are included in the definition of "employer" that would be impacted by this legislation, they would have an additional cost of roughly $340,000. In fiscal year 2016, part-time employees worked nearly 679,000 hours. If each 30 hours resulted in one sick time hour, that would be 22,634 hours. At an average rate of $15/hour, that would have a fiscal impact of $340,000.

If the definition of employer is interpreted to exclude UCM because of its status as a state agency, then there would be no fiscal impact.

Officials from **Missouri State University** indicated no fiscal impact on their university.

Officials from **Missouri Southern State University** indicated they do not anticipate any fiscal impact from this initiative petition.

Lara Granich and Missouri Jobs with Justice Voter Action provided the following information as proponents of this initiative petition.

Re: Fiscal Impact Analysis of Earned Sick Time Petitions
Petitions numbered by MO SOS at 2018-28 to 2018-39

This letter is from Lara Granich and Missouri Jobs with Justice Voter Action, proponents of the above-referenced initiative petitions. Pursuant to RSMo. Section 116.175, we write to submit the following information to assist your office in its analysis of the fiscal impact of the above-mentioned twelve proposed Earned Sick Time Petitions.

This analysis uses data collected by the U.S. Bureau of Labor Statistics, the Centers for Disease Control and Prevention, and the U.S. Census Bureau to evaluate the impact of earned sick time laws in Missouri. This analysis uses findings from previous peer-reviewed research to estimate cost-savings associated with the proposed policies through reduced turnover, reduced spread of contagious disease in the workplace, prevention of productivity losses from employees working while sick, minimized nursing-home stays, and reduced norovirus outbreaks in nursing homes. We also address certain claims that have been made by opponents in the past.

I. Estimate of Number of Workers Affected Statewide

According to the Institute for Women's Policy Research, an estimated 1,002,116 private sector workers in Missouri, or 45.9 percent of the workforce, cannot earn a single paid sick day to use to recover from common illnesses or seek medical care.[1]

II. Direct Costs to State

As these proposed initiatives exclude public workers employed by the state or by local governments, the initiatives are not expected to have any direct impact on state and local payroll costs. Enforcement would be handled by existing staff at the Department of Labor.

III. Economic Literature on the Impact of Earned Sick Time on Businesses

This analysis quantifies only a subset of potential benefits, predicting a net economic benefit from both of the proposed laws. Likely additional benefits from paid sick days not quantified in this analysis include: reduced health care spending due to reduced public contagion and more timely and regular preventive care and treatment; improved economic security among families who receive pay on sick days and are less likely to be fired or disciplined for taking sick time; and improved school outcomes and reduced contagion in schools, when parents can avoid sending sick children to school or child care.

Millions of workers have gained access to paid sick days in recent years through new laws in five states, 23 cities, and one county across the country. There is no evidence of business closures/layoffs as a result of earned sick time laws. Both Seattle and San Francisco saw positive job growth in the period after their laws took effect, and this job growth was much higher than in the surrounding areas for both cities. San Francisco's growth in employment exceeded the average employment growth of surrounding counties after the paid sick days law was passed. In the 10 months after the adoption of Seattle's Paid Sick and Safe Time Ordinance, King County (where Seattle is located) did not see negative economic impacts; rather, the county saw sustained job growth and reduced unemployment rates. 2

The Washington D.C. Auditor reported "that the Accrued Sick and Safe Leave Act did not have the economic impact of encouraging business owners to move a business from the District nor did the Act have the economic impact of discouraging business owners to locate a business in the District of Columbia."3 New York City reported that "New York City's economy has thrived since the enactment of PSL [paid sick leave]. Between January 2014 and January 2015, a period that covers the law's implementation, economic indicators were a cause for celebration, not concern as many had predicted." 4

Summary of Benefits Associated With Missouri's Proposed Earned Sick Time Law

Benefits	Firms with <50 Employees			Firms with 50+ Employees		
	Dollars	Average per-worker savings		Dollars	Average per-worker costs/savings	
BENEFITS						
Lower Turnover	$32,718,875			$146,675,016		
Reduced Flu Contagion in the Workplace	$1,334,044			$5,980,370		
		Weekly	*Hourly*		*Weekly*	*Hourly*
Employers' Savings	**$34,052,920**	**$6.97**	**$0.21**	**$152,655,386**	**$9.44**	**$0.26**
Reduced Short-Term Nursing Home Stays	$2,415,006			$8,165,162		
Reduced Norovirus in Nursing Homes	$21,692			$93,129		
Reduced Flu Contagion	$233,249			$771,691		
Reduced Emergency Department Visits	$3,512,104			$11,619,581		
		Weekly	*Hourly*		*Weekly*	*Hourly*
Community Savings	**$6,182,052**	**$1.26**	**$0.04**	**$20,649,564**	**$1.28**	**$0.03**

Note: "Small" firms are defined in the proposed laws at firms employing fewer than 15 employees and "Large" firms are defined as firms employing 15 or more employees.

Source: Institute for Women's Policy Research Analysis of the 2014 American Community Survey (ACS), the 2016 National Compensation Survey (NCS), the 2013-2016 Current Population Survey Annual Social and Economic Supplement (CPS ASEC), the 2010 Current Population Survey Displaced Worker, Employee Tenure, and Occupational Mobility Supplement File, and the 2014-2015 National Health Interview Survey (NHIS).

Note on Methodology

The estimates are based on analyses of the following data sets: the 2013–2016 Current Population Survey Annual Social and Economic Supplement (CPS ASEC), the 2014-2015 National Health Interview Survey (NHIS), the 2014 American Community Survey (ACS), the 2016 National Compensation Survey and the 2014 Medical Expenditure Panel Survey along with findings from previous peer-reviewed research.

This analysis was limited to only private sector workers as the proposed legislation only covers such workers. The proposed legislation does include some small exemptions for certain employees which this analysis does not account for. Excluding such workers would result in minor reductions in both the costs and benefits estimated, but general trends would remain the same. To learn more about the methodology and sources please see "Valuing Good Health in Maryland: The Costs and Benefits of Earned Sick Days"[5]

We hope that this information is useful to your office as your prepare your analyses of the petitions.

Respectfully submitted,
Lara Granich

Paid Sick Days Benefit Employers, Workers, and the Economy

Jessica Milli, PhD., Jenny Xia, and Jisun Min

Millions of workers have gained access to paid sick days in recent years through new laws in five states, 23 cities, and one county across the country.[1] Yet millions more still would not be paid if they need to stay at home when they are sick or need to care for a family member who is ill. As of 2014, 51 million workers lacked access to paid sick days.[2]

Research has documented many benefits of paid sick days policies for workers, businesses, and communities as a whole. These benefits would multiply substantially if more workers gained access to paid sick days. This briefing paper summarizes research on the benefits of paid sick days and the effects of paid sick days policies in places that have them.

Employers Benefit from Paid Sick Days

- **Reduced contagion in the workplace:** A 2010 survey conducted by the National Opinion Research Center found that employees without access to paid sick days are 1.5 times more likely than those with access to go to work with a contagious illness (55 percent compared with 37 percent).[3] Such "presenteeism" has serious public health consequences including flu contagion. A 2010 analysis of labor force and Centers for Disease Control data estimated that more than one in four private sector employees worked while ill with H1N1 during the 2009 H1N1 pandemic, resulting in the estimated infection of 7 million co-workers with H1N1. Work absences from illness dropped more precipitously among public sector workers than among private sector workers during the decline of the pandemic. Because employees in the public sector have greater access to paid sick days, the finding suggests that paid sick days played a role in slowing contagion and potentially in speeding recovery.[4] A 2013 study employed a model simulating influenza contagion to estimate reductions in contagion rates under a universal paid sick days policy. Using data from the American Community Survey, LandScan USA, and the U.S. Census, the study estimated that providing paid sick days would reduce workplace influenza infection in the United States by about 6 percent.[5]

- **Improved productivity:** When workers come to work sick, their productivity and performance suffer. Estimates of productivity losses vary across studies. A 1997 study polling 332 workers who had influenza-like illnesses found that workers on average reported being 46 percent less effective while ill at work.[6] A 2003 study based on interviews with more than 28,000 workers reported that on average, workers lose 1.32 hours per week of productive time due to personal health related reasons.[7] Since workers

with access to paid sick days are less likely to come to work sick and infect their co-workers,[8] paid sick days can prevent further productivity losses resulting from illness and contagion in the workplace.

- **Decreased workplace injuries:** Working while sick also puts employees at greater risk of injury on the job. A 2012 study using the 2005 through 2008 National Health Interview Survey (NHIS) found that after controlling for factors like survey year, occupational sector, firm size, region, and the availability of paid sick leave, workers with access to paid sick days are 28 percent less likely to be injured on the job than workers without this benefit.[9]

- **Decreased employee turnover:** A 2012 analysis of data collected between 2004 and 2006 through the Medical Expenditure Panel Survey (MEPS) finds that the likelihood of job separation decreases by about 25 percent when a worker has access to paid sick days, even after controlling for potential confounding factors such as workers' educational attainment, earnings, and race/ethnicity.[10] As employee turnover typically costs an employer between 10 and 30 percent of an employee's annual salary,[11] a reduction in turnover can result in significant reductions in employer costs.

Paid Sick Days Improve Public Health

- **Increased use of preventive care:** Since paid sick days can be used for doctor visits, workers with paid sick days are more likely to seek preventive care and to be screened for diseases such as cancer, which can lead to early detection and treatment. A 2012 study using 2008 National Health Interview Survey (NHIS) data finds that after controlling for sociodemographic and health-care-related factors, workers with paid sick days are significantly more likely to have had mammograms, Pap tests, and endoscopy, and to have seen a doctor during the previous year than those without the benefit.[12]

- **More timely treatment for illnesses:** Workers without paid sick days are more likely to delay medical care when they or a family member is ill which can lead to a more serious or prolonged illness.[13]A 2016 analysis of the 2013 NHIS—which controlled for demographic and health-related factors like race and ethnicity, occupation, annual family income, and health insurance coverage—indicates that workers without paid sick leave are three times more likely to forgo medical care for themselves, and 1.6 times more likely to forgo medical care for their families, compared with workers who have the benefit.[14] A 2011 analysis of the NHIS found that when they do seek care, workers without paid sick days—regardless of their educational attainment, income, race/ethnicity and other demographic characteristics—are more likely to use an emergency department for care.[15]

- **Improved family health:** Paid sick days may encourage workers to respond to their children's and family members' health needs in a timely manner, thereby improving overall health outcomes for their families. Paid sick days are a primary factor affecting whether a working parent will stay at home with a sick child rather than sending them to school or child care sick. The 2010 National Opinion Research Center Survey found that

28 percent of workers without paid sick days reported sending a sick child to school or child care, compared with 14 percent of workers with paid sick days.[16] A 2012 study analyzing the 2008 National Study of the Changing Workforce (NSCW) and controlling for worker and job characteristics finds that having paid sick days is associated with reduced work-family conflict, which lessens difficulties parents face in taking time off from work to care for a sick child.[17]

Paid Sick Days Bring Economic Benefits for Workers, Families, and Communities

- **Improved employment and earnings stability:** When incomes are not interrupted by unpaid leave, families experience greater financial stability and economic well-being. According to a 2010 poll, 16 percent of workers surveyed reported losing a job for missing work when they were sick or to care for an ill family member.[18] Research has shown that having paid sick days reduces the likelihood of a job separation by at least 25 percent.[19]

- **Improved labor force attachment among caregivers:** Informal caregivers whose work schedules are incompatible with the care needs of their family members may decrease their work hours or even leave the labor force completely.[20] One 2011 Gallup poll found that most caregivers, including parents, reported missing at least one full day of work to fulfill their caregiving duties with an average of 6.6 workdays missed per year.[21] Paid sick days, however, may provide sufficient leave to caregivers to allow them to maintain their desired level of employment while continuing to perform their caregiving work.

- **Savings from reduced utilization of hospital emergency departments and a lower monetary burden on taxpayers:** A 2011 study using the 2008 and 2009 NHIS finds that the annual number of emergency department visits per worker without paid sick days is greater than it is for those with the benefit. Using MEPS data on the cost of emergency department visits, the study estimates that a lack of paid sick days resulted in an estimated 1.3 million preventable emergency department visits every year in the United States in 2008, costing $1.1 billion more than office visits would have. Part of these costs—$500 million—were paid by public insurance programs such as Medicaid.[22]

Research Finds Benefits of Existing Paid Sick Days Laws and Minimal Costs to Employers

Since the implementation of the first paid sick days law in 2007, several studies have evaluated the impacts of the legislation, with a particular emphasis on the effects on employers. These evaluations have largely found that the overall impact on businesses was minimal. Many firms saw benefits from the policy and counted themselves as supporters after implementing it.

- **Minimal costs:** Costs to employers of providing paid sick days have been modest. In Seattle, evaluations found that the cost of providing paid sick leave in 2013 was only

about 0.4 percent of total firm revenue for the year.[23] In Connecticut, nearly half of 228 employers surveyed in 2013, a year and a half after the state's paid sick days law's implementation, reported having no increased overall cost, and 19.1 percent of employers reported an increased cost of less than 2 percent.[24] In San Francisco, the paid sick leave ordinance created additional costs for a relatively small share of employers. Six out of seven employers reported no adverse effects on profitability.[25]

- **Ease of implementation:** Research shows that paid sick days have minimal effect on business operations. Most San Francisco employers reported that implementing the Paid Sick Leave Ordinance was not difficult.[26] Likewise, about two thirds of Seattle employers reported that implementing the Paid Sick and Safe Time Ordinance was not very difficult, and 70 percent expressed support for the policy a year after implementation of the Ordinance.[27] Similarly, a large majority of Connecticut employers surveyed in 2013 indicated that the Paid Sick Leave Law did not burden business operations.[28]

- **Employees use paid sick days judiciously:** Several years after the implementation of San Francisco's paid sick days law, an IWPR survey of 1,194 workers found that employees in San Francisco used fewer than half of the sick days available under the paid sick leave ordinance.[29] Using data from the 2014 NHIS, IWPR found that most workers who do have access to paid sick days do not use any in a given year.[30] In regions that have passed paid sick day laws, surveys suggest that abuse of paid sick days is rare. Among 228 Connecticut employers surveyed by the Center for Economic and Policy Research, 86 percent reported no known cases of abuse more than a year after paid sick days was implemented.[31] A report published by the City of Seattle auditor finds that more than nine in ten Seattle employers surveyed in 2012 had never reprimanded an employee for abusing paid sick days.[32]

- **Sustained job growth and employment:** In contrast to messaging communicated by big business lobbyists prior to the laws' passage, both Seattle and San Francisco saw positive job growth in the period after their laws took effect, and this job growth was much higher than in the surrounding areas for both cities. San Francisco's growth in employment exceeded the average employment growth of surrounding counties after the paid sick days law was passed.[33] In the 10 months after the adoption of Seattle's Paid Sick and Safe Time Ordinance, King County (where Seattle is located) did not see negative economic impacts; rather, the county saw sustained job growth and reduced unemployment rates.[34]

- **Improved employee morale, motivation, loyalty, and productivity**: Over a quarter of Connecticut employers reported improved morale, 12.5 percent reported increased employee motivation, 10.6 percent reported increased loyalty, and 14.9 percent reported increased productivity after implementation of the state's paid sick days law.[35]

- **Improved work life balance for employees:** A 2010 IWPR survey found that one out of four San Francisco employees reported that paid sick days enabled them to better care for their own and their families' health needs. In addition, nearly 30 percent reported that their employers were more supportive when they needed to use their leave than they were

prior to the law's passage. More than half of all San Francisco workers reported at least one benefit as a result of the ordinance.[36]

- **Reduced flu contagion in locations with paid sick day laws:** One recent study used Google Flu data from 2003 to 2015 to show that influenza-like infection rates decrease significantly when workers gain access to paid sick days. By comparing the rates of influenza-like illnesses in regions with paid sick days policies—including the District of Columbia, Connecticut, California, Massachusetts, and Oregon—with those lacking such laws, the study finds that infection rates decrease by about 10 percent when employees without coverage obtain paid sick days.[37]

Conclusion

Literature spanning the fields of public health, economics, sociology, medicine, social work, and public policy converge to reflect the health, employment, and economic benefits of paid sick days. Research suggests that more widespread implementation of paid sick days policies would have a substantial positive impact on the well-being of children, families, and communities across the United States.

The Institute for Women's Policy Research (IWPR) conducts rigorous research and disseminates its findings to address the needs of women, promote public dialogue, and strengthen families, communities, and societies. The Institute works with policymakers, scholars, and public interest groups to design, execute, and disseminate research that illuminates economic and social policy issues affecting women and their families, and to build a network of individuals and organizations that conduct and use women-oriented policy research. IWPR's work is supported by foundation grants, government grants and contracts, donations from individuals, and contributions from organizations and corporations. IWPR is a 501(c)(3) tax-exempt organization that also works in affiliation with the women's studies, and public policy and public administration programs at The George Washington University.

STATE AUDITORS OFFICE

The Honorable Nicole Galloway
State Auditor
State Capitol Building
Jefferson City, MO 65101

RE: Petition approval request from Richard Von Glahn regarding a proposed statutory amendment to Chapter 285, version 2 (2018-029)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Richard Von Glahn on November 16, 2016.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

Jason Kander

Be it enacted by the people of the State of Missouri:

Fifteen new sections to be known as sections 285.600, 285.603, 285.606, 285.609, 285.612, 285.615, 285.618, 285.621, 285.624, 285.627, 285.630, 285.633, 285.636, 285.639, and 285.642 are enacted to read as follows:

285.600. As used in sections 285.600 through 285.642:

(1) "Department", Department of Labor and Industrial Relations.

(2) "Director", Director of the Department of Labor and Industrial Relations.

(3) "Earned paid sick time", time that is compensated at the same hourly rate and with the same benefits, including health care benefits, as the employee normally earns during hours worked and is provided by an employer to an employee for the purposes described in section 285.606, but in no case shall this hourly amount be less than that provided under section 290.502.

(4) "Employee", any individual employed in this state by an employer, but does not include:

(A) Any individual engaged in the activities of an educational, charitable, religious, or nonprofit organization where the employer-employee relationship does not, in fact, exist or where the services rendered to the organization are on a voluntary basis;

(B) Any individual standing in loco parentis to foster children in their care;

(C) Any individual employed for less than four months in any year in a resident or day camp for children or youth, or any individual employed by an educational conference center operated by an educational, charitable or not-for-profit organization;

(D) Any individual engaged in the activities of an educational organization where employment by the organization is in lieu of the requirement that the individual pay the cost of tuition, housing or other educational fees of the organization or where earnings of the individual employed by the organization are credited toward the payment of the cost of tuition, housing or other educational fees of the organization;

(E) Any individual employed on or about a private residence on an occasional basis for six hours or less on each occasion;

(F) Any individual employed on a casual basis to provide baby-sitting services;

(G) Any individual employed by an employer subject to the provisions of part A of subtitle IV of title 49, United States Code, 49 U.S.C. §§ 10101 et seq.;

(H) Any individual employed on a casual or intermittent basis as a golf caddy, newsboy, or in a similar occupation;

(I) Any individual who is employed in any government position defined in 29 U.S.C. §§ 203(e)(2)(C)(i)-(ii); or

(J) Any individual who is an offender, as defined in section 217.010, who is incarcerated in any correctional facility operated by the department of corrections, including offenders who provide labor or services on the grounds of such correctional facility pursuant to section 217.550.

(5) "Employer", any person acting directly or indirectly in the interest of an employer in relation to an employee; provided, however, that for the purposes of sections 285.600 through 285.642, "employer" does not include the United States Government, the state, or a political subdivision of the state, including a department, agency, officer, bureau, division, board, commission, or instrumentality of the state, or a city, county, town, village, school district, or other political subdivision of the state.

(6) "Family member", any of the following individuals:

(A) Regardless of age, a biological, adopted or foster child, stepchild or legal ward, a child of a domestic partner, a child to whom the employee stands in loco parentis, or an individual to whom the employee stood in loco parentis when the individual was a minor;

(B) A biological, foster, stepparent or adoptive parent or legal guardian of an employee or an employee's spouse or domestic partner or an individual who stood in loco parentis when the employee or employee's spouse or domestic partner was a minor child;

(C) An individual to whom the employee is legally married under the laws of any state, or a domestic partner who is registered as such under the laws of a political subdivision;

(D) A grandparent, grandchild, or sibling (whether of a biological, foster, adoptive or step relationship) of the employee or the employee's spouse or domestic partner; or

(E) A member of the employee's household.

(7) "Health care professional," any individual licensed under Federal or State law to provide medical or emergency services, including but not limited to doctors, nurses, certified nurse midwives, and emergency room personnel.

(8) "Person", any individual, partnership, association, corporation, business, business trust, legal representative, or any organized group of persons.

(9) "Retaliatory personnel action", denial of any right guaranteed under sections 285.600 through 285.642, or any threat, discharge, suspension, demotion, reduction of hours, or any other adverse action against an employee for the exercise of any right guaranteed herein. "Retaliatory personnel action" shall also include interference with or punishment for in any manner participating in or assisting an investigation, proceeding, or hearing under sections 285.600 through 285.642.

(10) "Year", a regular and consecutive twelve-month period as determined by the employer; except that for the purposes of section 285.615 and section 285.627, "year" shall mean a calendar year.

285.603. 1. Employees of an employer with fifteen or more employees shall accrue a minimum of one hour of earned paid sick time for every thirty hours worked, but such employees shall not be entitled to accrue or use more than forty hours of earned paid sick time per year, unless the employer selects a higher limit.

2. Employees of an employer with fewer than fifteen employees shall accrue a minimum of one hour of earned paid sick time for every thirty hours worked, but such employees shall not be entitled to accrue or use more than twenty-four hours of earned paid sick time per year, unless the employer selects a higher limit.

3. In determining the number of employees performing work for an employer for compensation during a given week, all employees performing work for compensation on a full-time, part-time, or temporary basis shall be counted. In situations in which the number of employees who work for an employer for compensation per week fluctuates above and below fifteen employees per week over the course of the year, an employer is required to provide earned paid sick time pursuant to subsection (1) of this section if it maintained fifteen or more employees on the payroll for some portion of a day in each of twenty different calendar weeks, whether or not the weeks were consecutive, in either the current or the preceding year (irrespective of whether the same individuals were in employment in each day).

4. All employees shall accrue earned paid sick time as follows:

(A) Earned paid sick time as provided in this section shall begin to accrue at the commencement of employment or ninety days after this law goes into effect, whichever is later. An employer may provide all paid sick time that an employee is expected to accrue in a year at the beginning of the year.

(B) An employee may use earned paid sick time as it is accrued, except that an employer may require an employee hired more than ninety days after this law goes into effect to wait until the ninetieth calendar day after commencing employment before using accrued earned paid sick time, unless otherwise permitted by the employer.

(C) Employees who are exempt from overtime requirements under 29 U.S.C. § 213(a)(1) of the Federal Fair Labor Standards Act will be assumed to work forty hours in each work week for purposes of earned paid sick time accrual unless their normal work week is less than forty hours, in which case earned paid sick time accrues based upon that normal work week.

(D) Earned paid sick time shall be carried over to the following year, subject to the limitations on usage in subsections (1) and (2) of this section. Alternatively, in lieu of carryover of unused earned paid sick time from one year to the next, an employer may pay an employee for unused earned paid sick time at the end of a year and provide the employee with an amount of paid sick time that meets or exceeds the requirements of sections 285.600 through 285.642 that is available for the employee's immediate use at the beginning of the subsequent year.

(E) If an employee is transferred to a separate division, entity, or location, but remains employed by the same employer, the employee is entitled to all earned paid sick time accrued at the prior division, entity, or location and is entitled to use all earned paid sick time as provided in this section. When there is a separation from employment and the employee is rehired within nine months of separation by the same employer, previously accrued earned paid sick time that had not been used shall be reinstated. Further, the employee shall be entitled to use accrued earned paid sick time and accrue additional earned paid sick time at the re-commencement of employment.

(F) When a different employer succeeds or takes the place of an existing employer, all employees of the original employer who remain employed by the successor employer are entitled to all earned paid sick time they accrued when employed by the original employer, and are entitled to use earned paid sick time previously accrued.

(G) At its discretion, an employer may loan earned paid sick time to an employee in advance of accrual by such employee.

5. Any employer with a paid leave policy, such as a paid time off policy, who makes available an amount of paid leave sufficient to meet the accrual requirements of this section that may be used for the same purposes and under the same conditions as earned paid sick time under sections 285.600 through 285.642 is not required to provide additional paid sick time.

6. Nothing in this section shall be construed as requiring financial or other reimbursement to an employee from an employer upon the employee's termination, resignation, retirement, or other separation from employment for accrued earned paid sick time that has not been used.

285.606. 1. Earned paid sick time shall be provided to an employee by an employer for:

(A) An employee's mental or physical illness, injury, or health condition; an employee's need for medical diagnosis, care, or treatment of a mental or physical illness, injury, or health condition; an employee's need for preventive medical care;

(B) Care of a family member with a mental or physical illness, injury, or health condition; care of a family member who needs medical diagnosis, care, or treatment of a mental or physical illness, injury, or health condition; care of a family member who needs preventive medical care; or

(C) Closure of the employee's place of business by order of a public official due to a public health emergency, or an employee's need to care for a child whose school or place of care has been closed by order of a public official due to a public health emergency, or care for oneself or a family member when it has been

determined by the health authorities having jurisdiction or by a health care provider that the employee's or family member's presence in the community may jeopardize the health of others because of his or her exposure to a communicable disease, whether or not the employee or family member has actually contracted the communicable disease.

2. Earned paid sick time shall be provided upon the request of an employee. Such request may be made orally, in writing, by electronic means or by any other means acceptable to the employer. When possible, the request shall include the expected duration of the absence.

3. When the use of earned paid sick time is foreseeable, the employee shall make a good faith effort to provide notice of the need for such time to the employer in advance of the use of the earned paid sick time and shall make a reasonable effort to schedule the use of earned paid sick time in a manner that does not unduly disrupt the operations of the employer. Where such need is not foreseeable, an employer may require an employee to provide notice of the need for the use of earned paid sick time as soon as practicable.

4. An employer that requires notice of the need to use earned paid sick time where the need is not foreseeable shall provide a written policy that contains procedures for the employee to provide notice. An employer that has not provided to the employee a copy of its written policy for providing such notice shall not deny earned paid sick time to the employee based on non-compliance with such a policy.

5. An employer may not require, as a condition of an employee's taking earned paid sick time, that the employee search for or find a replacement worker to cover the hours during which the employee is using earned paid sick time.

6. Earned paid sick time may be used in the smaller of hourly increments or the smallest increment that the employer's payroll system uses to account for absences or use of other time.

7. For earned paid sick time of three or more consecutive work days, an employer may require reasonable documentation that the earned paid sick time has been used for a purpose covered by subsection (1) of this section. Documentation signed by a heath care professional indicating that earned paid sick time is necessary shall be considered reasonable documentation for purposes of this section. An employer may not require that the documentation explain the nature of the illness unless otherwise required by law.

285.609. 1. It shall be unlawful for an employer or any other person to interfere with, restrain, or deny the exercise of, or the attempt to exercise, any right protected under sections 285.600 through 285.642.

2. An employer shall not take retaliatory personnel action or discriminate against an employee or former employee because he or she has exercised rights protected under sections 285.600 through 285.642. Such rights include, but are not limited to, the right to request or use earned paid sick time pursuant to sections 285.600 through 285.642; the right to file a complaint or inform any person about any employer's alleged violation of sections 285.600 through 285.642; the right to participate in an investigation, hearing, or proceeding or cooperate with or assist the Department in any investigations of alleged violations of sections 285.600 through 285.642; and the right to inform any person of his or her potential rights under sections 285.600 through 285.642.

3. It shall be unlawful for an employer's absence control policy to count earned paid sick time taken under sections 285.600 through 285.642 as an absence that may lead to or result in discipline, discharge, demotion, suspension, or any other adverse action.

4. Protections of this section shall apply to any individual who mistakenly but in good faith alleges violations of sections 285.600 through 285.642.

285.612. 1. Employers shall give employees written notice of the following at the commencement of employment or by ninety days after this law goes into effect, whichever is later: employees are entitled to earned paid sick time and the amount of earned paid sick time, the terms of its use guaranteed under sections 285.600 through 285.642, that retaliatory personnel action against employees who request or use earned paid sick time is prohibited, that each employee has the right to bring a civil action if earned paid sick time as required by sections 285.600 through 285.642 is denied by the employer or the employee is subjected to retaliatory personnel action for requesting or taking earned paid sick time, and, if applicable, the contact information for the Department where questions about rights and responsibilities under sections 285.600 through 285.642 may be answered.

2. Employers shall display a poster that contains the information required in subsection (1) of this section in a conspicuous and accessible place in each establishment where such employees are employed, provided that such poster has been provided by the Department.

3. The Department may create and make available to employers, model notices and posters that contain the information required under subsection (1) of this section for employers' use in complying with subsections (1) and (2) of this section. Nothing in this subsection shall be interpreted or applied, either expressly or through practical necessity, to require the Department to create or make available notices or posters if it requires the appropriation of funds to cover the costs of such acts.

285.615. 1. Employers shall retain records documenting hours worked by employees and earned paid sick time taken by employees, for a period of not less than three years, and shall allow the Department access to such records, with appropriate notice and at a mutually agreeable time, to monitor compliance with the requirements of sections 285.600 through 285.642.

2. To the extent permitted by law, the Director may inspect such records, and the records shall be open for inspection by the Director by appointment. Where the records required under this section are kept outside the state, the records shall be made available to the Director upon demand. Every such employer shall furnish to the Director on demand a sworn statement of time records and information upon forms prescribed or approved by the Director. All the records and information obtained by the Department are confidential and shall be disclosed only on order of a court of competent jurisdiction.

3. Nothing in this section shall be interpreted or applied, either expressly or through practical necessity, to require the Department or Director to access or inspect records or to create forms relating to the inspection of records if it requires the appropriation of funds to cover the costs of such acts.

285.618. 1. The Department may, in accordance with chapter 536, promulgate rules to implement the provisions of sections 285.600 through 285.642. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2018, shall be invalid and void.

2. Nothing in this section shall be interpreted or applied, either expressly or through practical necessity, to require the promulgation or adoption of rules if it requires the appropriation of funds to cover the costs of such acts.

285.621. 1. To the extent permitted by law, the Department may investigate and ascertain compliance with sections 285.600 through 285.642, establish and implement a system to receive complaints regarding non-compliance with sections 285.600 through 285.642 and to investigate and attempt to resolve complaints through mediation between the complainant and the subject of the complaint, and establish additional means of enforcement to the extent permitted by the law.

2. The Department may develop and implement an outreach program to inform employees, parents, and persons who are under the care of a health care provider about the availability of earned paid sick time under sections 285.600 through 285.642. This program may include the distribution of notices and other written materials to child care and elder care providers, domestic violence shelters, schools, hospitals, community health centers and other health care providers in Missouri.

3. Nothing in this section shall be interpreted or applied, either expressly or through practical necessity, to require the Department to conduct investigations and ascertain compliance with sections 285.600 through 285.642, to establish and implement a system to receive or resolve complaints, to establish additional means of enforcement, or to conduct outreach and education, including the creation of notices and other written materials, concerning sections 285.600 through 285.642, if it requires the appropriation of funds to cover the costs of such acts.

285.624. 1. To the extent permitted by law, any employer who violates or fails to comply with any of the provisions and requirements of sections 285.600 through 285.642 shall be guilty of a class C misdemeanor and shall be punished for each violation thereof by a fine, up to the maximum allowed under state law for violation of a class C misdemeanor; provided, however, that an employer who willfully violates the notice and posting requirements of section 285.612 shall be guilty of an infraction and shall be punished for each violation thereof by a fine, up to the maximum allowed under state law for an infraction.

2. For purposes of this section, each day of violation or failure to comply and each employee affected shall constitute a separate offense.

285.627. 1. Any individual who claims to have been aggrieved by a failure of an employer to comply with any portion of sections 285.600 through 285.642, including but not limited to the failure to provide earned paid sick time or to allow employees to use such time consistent with sections 285.600 through 285.642, or who claims to have suffered a retaliatory personnel action, shall have a right of action and may commence a civil action in the appropriate court of jurisdiction within three years of the accrual of the cause of action, to obtain appropriate relief with respect to such unlawful violation.

2. In a civil action under this section, if the court finds a violation has occurred, the court may grant as relief, as it deems appropriate and to the extent permitted by law, any permanent or temporary injunction, the full amount of any unpaid earned sick time plus any actual damages suffered as the result of the employer's violation of sections 285.600 through 285.642, an additional amount equal to twice any unpaid earned sick time as liquidated damages, costs, and reasonable attorney's fees as may be allowed by the court, and other legal or equitable relief as may be appropriate to remedy the violation, including, without limitation, reinstatement to employment and back pay. Any agreement between the employee and the employer to waive the protections of sections 285.600 through 285.642, with the exception of section 285.633, shall be no defense to the action.

285.630. 1. Except as otherwise required by law, an employer may not require disclosure of details relating to an employee's or an employee's family member's health information as a condition of providing earned paid sick time under sections 285.600 through 285.642.

2. Unless as otherwise required by law, any health information possessed by an employer regarding an employee or employee's family member must:

(A) be maintained on a separate form and in a separate file from other personnel information;

(B) be treated as confidential medical records; and

(C) not be disclosed except to the affected employee or with the express written permission of the affected employee.

285.633. 1. All or any portion of the earned paid sick time requirements of sections 285.600 through 285.642 shall not apply to employees covered by a valid collective bargaining agreement, to the extent that such requirements are expressly waived in the collective bargaining agreement in clear and unambiguous terms.

2. Notwithstanding subsection (1) of this section, with respect to employees covered by a valid collective bargaining agreement in effect on the effective date of sections 285.600 through 285.642, no provisions of sections 285.600 through 285.642 shall apply until the stated expiration date in the collective bargaining agreement.

3. Nothing in sections 285.600 through 285.642 shall be deemed to interfere, impede, or otherwise diminish the right of employees to bargain collectively through representatives of their own choosing.

285.636. 1. Nothing in sections 285.600 through 285.642 shall be construed to discourage or prohibit an employer from the adoption or retention of an earned paid sick time policy more generous than the one required herein.

2. Nothing in sections 285.600 through 285.642 shall be construed as diminishing the obligation of an employer to comply with any contract, collective bargaining agreement, employment benefit plan, or other agreement providing more generous paid sick time to an employee than required herein. Nothing in sections 285.600 through 285.642 shall be construed as diminishing the rights of public employees regarding paid sick time or use of paid sick time as provided in the laws of Missouri pertaining to public employees.

285.639. 1. Sections 285.600 through 285.642 provide minimum requirements pertaining to earned paid sick time and shall not be construed to preempt, limit, or otherwise affect the applicability of any other law, regulation, requirement, policy, or standard that provides for greater accrual or use by employees of earned paid sick time or that extends other protections to employees.

2. Nothing in sections 285.600 through 285.642 shall be interpreted or applied to create a power or obligation contrary to any federal law, rule, or regulation.

285.642. Except as detailed in section 285.618, all of the provisions of sections 285.600 through 285.642 are severable, and if any provision, including any section, subsection, subdivision, paragraph, sentence, or clause, or the application thereof to any person or circumstance, is found by a court of competent jurisdiction to be invalid, unconstitutional, or unconstitutionally enacted, such decision shall not affect other provisions or applications of sections 285.600 through 285.642 that can be given effect without the invalid, unconstitutional, or unconstitutionally enacted provision or application, and to this end the provisions of sections 285.600 through 285.642 are declared severable.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-029)

Subject

Initiative petition from Richard Von Glahn regarding a proposed amendment to Chapter 285 of the Revised Statutes of Missouri. (Received November 17, 2016)

Date

December 7, 2016

Description

This proposal would amend Chapter 285 of the Revised Statutes of Missouri.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** the **Missouri Lottery,** the **Public Service Commission,** the **State Tax Commission,** the **Missouri Technology Corporation,** the **Missouri Life Sciences Research Board,** the **Missouri Veterans Commission,** the **Missouri Ethics Commission,** the **Missouri Office of Prosecution Services,** the **Kansas City Boards of Police Commissioners,** the **St. Louis City Board of Police Commissioners,** the **St. Louis County Board of Elections,** the **Board of Election Commissioners City of St.**

Louis, the **Kansas City Board of Election Commissioners,** the **Platte County Board of Elections,** the **Jackson County Election Board,** the **Clay County Board of Election Commissioners,** the **Lieutenant Governor's office,** the **Children's Trust Fund,** the **Missouri Joint Municipal Electric Utility Commission,** the **State Auditor's office, University of Central Missouri, Harris-Stowe State University, Lincoln University, Missouri Southern State University, Missouri Western State University, Northwest Missouri State University, Southeast Missouri State University,** and **Truman State University**.

Lara Granich and Missouri Jobs with Justice Voter Action provided information as proponents of the proposal to the State Auditor's office.

Officials from the **Attorney General's office** indicated various provisions of the proposal authorize their department to promulgate rules, establish mediation procedures "and additional means of enforcement… ." They assume that their office may provide some review of proposals, but assume that any potential costs arising from this proposal can be absorbed with existing resources. They may seek additional appropriations if there is an increased review of rules in later years.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated they will be deferring to the Office of Administration and the Department of Labor and Industrial Relations regarding any fiscal impact this initiative petition might have.

Officials from the **Department of Higher Education** indicated the state, including departments, are exempt from the definition of "employer," so this initiative petition would not have a fiscal impact on their department.

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition does not apply to public employers with respect to its employees. Therefore, this petition, if passed, would have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated there is no fiscal impact to their department as a result of this initiative petition. Section 285.600 (5) indicates "for the purposes of sections 285.600 through 285.642 "employer" does not include the United States Government, the state, …., including a department, agency, …."

Officials from the **Department of Corrections** indicated they defer to the Office of Administration.

Officials from the **Department of Labor and Industrial Relations** indicated they expect no change in revenues or expenses in fiscal years 2017, 2018, and 2019.

The petition, if passed by voters, would require businesses with 15 or more employees to provide paid sick time. It also would allow their department to educate employers, take complaints, and perform investigations of violations of the new law.

The long-range fiscal implications are the same as those of the estimate period.

Under the new language, they may educate employers and employees, promulgate rules, take complaints, and conduct investigations of alleged violations of the new provisions. They believe the education, registration of complaints, and investigations would be conducted in a manner similar to those conducted under the Minimum Wage program. Using employer information from the United States Census Bureau for employers with more than ten employees, they estimate that it would receive complaints from 1.5% of the estimated 40,886 businesses with 10 or more employees, or 613 complaints annually. (The Census Bureau does not break employers at the 15 or more level.) To investigate these 613 complaints, they would require 3.50 Wage & Hour Investigator I/IIs. In FY 2016, 578 complaints were closed by 3.50 Investigators, averaging 165 per FTE. Using this calculation, they estimate it would need 3.50 FTE and the standard per FTE expenses and equipment to complete these activities.

However, Sections 285.612, 285.615, 285.618, and 285.621 expressly state that they are not required to take on the new duties it is authorized to perform under this proposal if doing so will require an appropriation to cover the costs of performing the duties. Because these duties are optional and are not required of their department, if there is no appropriation made to cover the cost, they estimate no mandated fiscal impact for this proposal.

Officials from the **Department of Revenue** indicated they defer this fiscal note to the Office of Administration for a statewide response.

Officials from the **Department of Public Safety** indicated they will defer to the Office of Administration response to this petition.

Officials from the **Department of Social Services** indicated they will defer to the Office of Administration response to this petition. They indicated no fiscal impact on their department.

Officials from the **Governor's Office** indicated there should be no fiscal impact to their office.

Officials from the **House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated no fiscal response.

Officials from the **Office of Administration** indicated:

This initiative petition adds 15 new sections to Chapter 285 related to sick leave.

Under this proposal, employers would be required to provide paid sick leave to employees. The amount would be dependent upon the number of employees. It does not include employees covered under a valid collective bargaining agreement and it provides employees with an avenue of recourse if the employee claims to be aggrieved.

The State of Missouri is excluded from the provisions of this proposal, therefore there would be no statewide impact related to this proposal other than potentially higher costs for services purchased by the state. However, the Department of Labor and Industrial Relations (DOLIR) will be impacted. Budget and Planning defers to the DOLIR for the specific impact to that agency.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated no fiscal impact on their office.

Officials from the **Secretary of State's office** indicated their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any impact on their office, as they are an independent department within state government and by definition state employees are exempt from this proposed legislation.

Officials from the **State Treasurer's office** indicated this would have no fiscal impact on their office.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from the **City of Columbia** indicated there is no impact on their city.

Officials from the **City of Kansas City** indicated no direct fiscal impact is anticipated if this proposal is adopted because cities are not employers. An indirect cost to cities may arise through increased labor costs of those vendors contracting with the city.

Officials from the **City of Raymore** indicated no fiscal impact.

Officials from the **City of St. Joseph** indicated this initiative petition could have a fiscal impact on local government.

Officials from **University of Missouri** indicated they have reviewed this proposed legislation and have determined that for benefit eligible employees (defined as working .75 or >) that it does not appear that the proposed legislation as written would create a significant fiscal impact to their university.

Officials from the **Missouri Lottery** indicated no fiscal impact to their agency.

Officials from the **Public Service Commission** indicated no fiscal impact on their agency.

Officials from the **State Tax Commission** indicated this initiative petition pertaining to sick leave in Chapter 285 does not directly impact their office. As a state agency this matter is under the direction of Office of Administration, Division of Personnel.

Officials from the **Missouri Veterans Commission** indicated no fiscal impact to their agency.

Officials from the **Missouri Office of Prosecution Services** indicated no measurable fiscal impact to their office.

Officials from the **Kansas City Boards of Election Commissioners** indicated there is no fiscal impact with amendments to Chapter 285, Versions 1 -12, since the State is not responsible for costs associated with the November 2018 election.

Officials from the **Platte County Board of Elections** indicated the proposed initiative would have no fiscal impact on their office.

Officials from the **Jackson County Election Board** indicated no fiscal impact on their office.

Officials from the **Lieutenant Governor's office** indicated it is anticipated that this initiative petition will impose little to no costs or savings on their office.

Officials from the **Children's Trust Fund** indicated they are part of the Office of Administration and thus will be covered by the Office of Administration's official response. They will not be responding separately.

Officials from the **Missouri Joint Municipal Electric Utility Commission** indicated:

The Missouri Association of Municipal Utilities represents approximately 120 cities in Missouri providing utility services to their customer/owners. They do not represent cities in their general business operation. That representation is undertaken by the Missouri Municipal League and its executive director Dan Ross.

Based on a review of each of the 12 versions it appears that there would be no direct cost to any of their cities since the framers of the amendment specifically excluded cities from the definition of employers and city employees from coverage of the proposed changes.

However, it is possible that cities may experience some increases in the cost of goods and services consumed in the regular course of business as a result of higher labor input costs. It is impossible to accurately predict those increases other than to make you aware of the potential.

Officials from the **State Auditor's office** indicated there is no fiscal impact for their office.

Officials from **University of Central Missouri** indicated if they are included in the definition of "employer" that would be impacted by this legislation, they would have an additional cost of roughly $340,000. In fiscal year 2016, part-time employees worked nearly 679,000 hours. If each 30 hours resulted in one sick time hour, that would be 22,634 hours. At an average rate of $15/hour, that would have a fiscal impact of $340,000.

If the definition of employer is interpreted to exclude UCM because of its status as a state agency, then there would be no fiscal impact.

Officials from **Missouri State University** indicated no fiscal impact on their university.

Officials from **Missouri Southern State University** indicated they do not anticipate any fiscal impact from this initiative petition.

Lara Granich and Missouri Jobs with Justice Voter Action provided the following information as proponents of this initiative petition.

Re: Fiscal Impact Analysis of Earned Sick Time Petitions
Petitions numbered by MO SOS at 2018-28 to 2018-39

This letter is from Lara Granich and Missouri Jobs with Justice Voter Action, proponents of the above-referenced initiative petitions. Pursuant to RSMo. Section 116.175, we write to submit the following information to assist your office in its analysis of the fiscal impact of the above-mentioned twelve proposed Earned Sick Time Petitions.

This analysis uses data collected by the U.S. Bureau of Labor Statistics, the Centers for Disease Control and Prevention, and the U.S. Census Bureau to evaluate the impact of earned sick time laws in Missouri. This analysis uses findings from previous peer-reviewed research to estimate cost-savings associated with the proposed policies through reduced turnover, reduced spread of contagious disease in the workplace, prevention of productivity losses from employees working while sick, minimized nursing-home stays, and reduced norovirus outbreaks in nursing homes. We also address certain claims that have been made by opponents in the past.

I. Estimate of Number of Workers Affected Statewide

According to the Institute for Women's Policy Research, an estimated 1,002,116 private sector workers in Missouri, or 45.9 percent of the workforce, cannot earn a single paid sick day to use to recover from common illnesses or seek medical care.[1]

II. Direct Costs to State

As these proposed initiatives exclude public workers employed by the state or by local governments, the initiatives are not expected to have any direct impact on state and local payroll costs. Enforcement would be handled by existing staff at the Department of Labor.

III. Economic Literature on the Impact of Earned Sick Time on Businesses

This analysis quantifies only a subset of potential benefits, predicting a net economic benefit from both of the proposed laws. Likely additional benefits from paid sick days not quantified in this analysis include: reduced health care spending due to reduced public contagion and more timely and regular preventive care and treatment; improved economic security among families who receive pay on sick days and are less likely to be fired or disciplined for taking sick time; and improved school outcomes and reduced contagion in schools, when parents can avoid sending sick children to school or child care.

Millions of workers have gained access to paid sick days in recent years through new laws in five states, 23 cities, and one county across the country. There is no evidence of business closures/layoffs as a result of earned sick time laws. Both Seattle and San Francisco saw positive job growth in the period after their laws took effect, and this job growth was much higher than in the surrounding areas for both cities. San Francisco's growth in employment exceeded the average employment growth of surrounding counties after the paid sick days law was passed. In the 10 months after the adoption of Seattle's Paid Sick and Safe Time Ordinance, King County (where Seattle is located) did not see negative economic impacts; rather, the county saw sustained job growth and reduced unemployment rates. 2

The Washington D.C. Auditor reported "that the Accrued Sick and Safe Leave Act did not have the economic impact of encouraging business owners to move a business from the District nor did the Act have the economic impact of discouraging business owners to locate a business in the District of Columbia."3 New York City reported that "New York City's economy has thrived since the enactment of PSL [paid sick leave]. Between January 2014 and January 2015, a period that covers the law's implementation, economic indicators were a cause for celebration, not concern as many had predicted." 4

Summary of Benefits Associated With Missouri's Proposed Earned Sick Time Law

Benefits	Firms with <50 Employees			Firms with 50+ Employees		
	Dollars	Average per-worker savings		Dollars	Average per-worker costs/savings	
BENEFITS						
Lower Turnover	$32,718,875			$146,675,016		
Reduced Flu Contagion in the Workplace	$1,334,044			$5,980,370		
		Weekly	*Hourly*		*Weekly*	*Hourly*
Employers' Savings	**$34,052,920**	**$6.97**	**$0.21**	**$152,655,386**	**$9.44**	**$0.26**
Reduced Short-Term Nursing Home Stays	$2,415,006			$8,165,162		
Reduced Norovirus in Nursing Homes	$21,692			$93,129		
Reduced Flu Contagion	$233,249			$771,691		
Reduced Emergency Department Visits	$3,512,104			$11,619,581		
		Weekly	*Hourly*		*Weekly*	*Hourly*
Community Savings	**$6,182,052**	**$1.26**	**$0.04**	**$20,649,564**	**$1.28**	**$0.03**

Note: "Small" firms are defined in the proposed laws at firms employing fewer than 15 employees and "Large" firms are defined as firms employing 15 or more employees.

Source: Institute for Women's Policy Research Analysis of the 2014 American Community Survey (ACS), the 2016 National Compensation Survey (NCS), the 2013-2016 Current Population Survey Annual Social and Economic Supplement (CPS ASEC), the 2010 Current Population Survey Displaced Worker, Employee Tenure, and Occupational Mobility Supplement File, and the 2014-2015 National Health Interview Survey (NHIS).

Note on Methodology

The estimates are based on analyses of the following data sets: the 2013–2016 Current Population Survey Annual Social and Economic Supplement (CPS ASEC), the 2014-2015 National Health Interview Survey (NHIS), the 2014 American Community Survey (ACS), the 2016 National Compensation Survey and the 2014 Medical Expenditure Panel Survey along with findings from previous peer-reviewed research.

This analysis was limited to only private sector workers as the proposed legislation only covers such workers. The proposed legislation does include some small exemptions for certain employees which this analysis does not account for. Excluding such workers would result in minor reductions in both the costs and benefits estimated, but general trends would remain the same. To learn more about the methodology and sources please see "Valuing Good Health in Maryland: The Costs and Benefits of Earned Sick Days"[5]

We hope that this information is useful to your office as your prepare your analyses of the petitions.

Respectfully submitted,
Lara Granich

Paid Sick Days Benefit Employers, Workers, and the Economy

Jessica Milli, PhD., Jenny Xia, and Jisun Min

Millions of workers have gained access to paid sick days in recent years through new laws in five states, 23 cities, and one county across the country.[1] Yet millions more still would not be paid if they need to stay at home when they are sick or need to care for a family member who is ill. As of 2014, 51 million workers lacked access to paid sick days.[2]

Research has documented many benefits of paid sick days policies for workers, businesses, and communities as a whole. These benefits would multiply substantially if more workers gained access to paid sick days. This briefing paper summarizes research on the benefits of paid sick days and the effects of paid sick days policies in places that have them.

Employers Benefit from Paid Sick Days

- **Reduced contagion in the workplace:** A 2010 survey conducted by the National Opinion Research Center found that employees without access to paid sick days are 1.5 times more likely than those with access to go to work with a contagious illness (55 percent compared with 37 percent).[3] Such "presenteeism" has serious public health consequences including flu contagion. A 2010 analysis of labor force and Centers for Disease Control data estimated that more than one in four private sector employees worked while ill with H1N1 during the 2009 H1N1 pandemic, resulting in the estimated infection of 7 million co-workers with H1N1. Work absences from illness dropped more precipitously among public sector workers than among private sector workers during the decline of the pandemic. Because employees in the public sector have greater access to paid sick days, the finding suggests that paid sick days played a role in slowing contagion and potentially in speeding recovery.[4] A 2013 study employed a model simulating influenza contagion to estimate reductions in contagion rates under a universal paid sick days policy. Using data from the American Community Survey, LandScan USA, and the U.S. Census, the study estimated that providing paid sick days would reduce workplace influenza infection in the United States by about 6 percent.[5]

- **Improved productivity:** When workers come to work sick, their productivity and performance suffer. Estimates of productivity losses vary across studies. A 1997 study polling 332 workers who had influenza-like illnesses found that workers on average reported being 46 percent less effective while ill at work.[6] A 2003 study based on interviews with more than 28,000 workers reported that on average, workers lose 1.32 hours per week of productive time due to personal health related reasons.[7] Since workers

with access to paid sick days are less likely to come to work sick and infect their co-workers,[8] paid sick days can prevent further productivity losses resulting from illness and contagion in the workplace.

- **Decreased workplace injuries:** Working while sick also puts employees at greater risk of injury on the job. A 2012 study using the 2005 through 2008 National Health Interview Survey (NHIS) found that after controlling for factors like survey year, occupational sector, firm size, region, and the availability of paid sick leave, workers with access to paid sick days are 28 percent less likely to be injured on the job than workers without this benefit.[9]

- **Decreased employee turnover:** A 2012 analysis of data collected between 2004 and 2006 through the Medical Expenditure Panel Survey (MEPS) finds that the likelihood of job separation decreases by about 25 percent when a worker has access to paid sick days, even after controlling for potential confounding factors such as workers' educational attainment, earnings, and race/ethnicity.[10] As employee turnover typically costs an employer between 10 and 30 percent of an employee's annual salary,[11] a reduction in turnover can result in significant reductions in employer costs.

Paid Sick Days Improve Public Health

- **Increased use of preventive care:** Since paid sick days can be used for doctor visits, workers with paid sick days are more likely to seek preventive care and to be screened for diseases such as cancer, which can lead to early detection and treatment. A 2012 study using 2008 National Health Interview Survey (NHIS) data finds that after controlling for sociodemographic and health-care-related factors, workers with paid sick days are significantly more likely to have had mammograms, Pap tests, and endoscopy, and to have seen a doctor during the previous year than those without the benefit.[12]

- **More timely treatment for illnesses:** Workers without paid sick days are more likely to delay medical care when they or a family member is ill which can lead to a more serious or prolonged illness.[13]A 2016 analysis of the 2013 NHIS—which controlled for demographic and health-related factors like race and ethnicity, occupation, annual family income, and health insurance coverage—indicates that workers without paid sick leave are three times more likely to forgo medical care for themselves, and 1.6 times more likely to forgo medical care for their families, compared with workers who have the benefit.[14] A 2011 analysis of the NHIS found that when they do seek care, workers without paid sick days—regardless of their educational attainment, income, race/ethnicity and other demographic characteristics—are more likely to use an emergency department for care.[15]

- **Improved family health:** Paid sick days may encourage workers to respond to their children's and family members' health needs in a timely manner, thereby improving overall health outcomes for their families. Paid sick days are a primary factor affecting whether a working parent will stay at home with a sick child rather than sending them to school or child care sick. The 2010 National Opinion Research Center Survey found that

28 percent of workers without paid sick days reported sending a sick child to school or child care, compared with 14 percent of workers with paid sick days.[16] A 2012 study analyzing the 2008 National Study of the Changing Workforce (NSCW) and controlling for worker and job characteristics finds that having paid sick days is associated with reduced work-family conflict, which lessens difficulties parents face in taking time off from work to care for a sick child.[17]

Paid Sick Days Bring Economic Benefits for Workers, Families, and Communities

- **Improved employment and earnings stability:** When incomes are not interrupted by unpaid leave, families experience greater financial stability and economic well-being. According to a 2010 poll, 16 percent of workers surveyed reported losing a job for missing work when they were sick or to care for an ill family member.[18] Research has shown that having paid sick days reduces the likelihood of a job separation by at least 25 percent.[19]

- **Improved labor force attachment among caregivers:** Informal caregivers whose work schedules are incompatible with the care needs of their family members may decrease their work hours or even leave the labor force completely.[20] One 2011 Gallup poll found that most caregivers, including parents, reported missing at least one full day of work to fulfill their caregiving duties with an average of 6.6 workdays missed per year.[21] Paid sick days, however, may provide sufficient leave to caregivers to allow them to maintain their desired level of employment while continuing to perform their caregiving work.

- **Savings from reduced utilization of hospital emergency departments and a lower monetary burden on taxpayers:** A 2011 study using the 2008 and 2009 NHIS finds that the annual number of emergency department visits per worker without paid sick days is greater than it is for those with the benefit. Using MEPS data on the cost of emergency department visits, the study estimates that a lack of paid sick days resulted in an estimated 1.3 million preventable emergency department visits every year in the United States in 2008, costing $1.1 billion more than office visits would have. Part of these costs—$500 million—were paid by public insurance programs such as Medicaid.[22]

Research Finds Benefits of Existing Paid Sick Days Laws and Minimal Costs to Employers

Since the implementation of the first paid sick days law in 2007, several studies have evaluated the impacts of the legislation, with a particular emphasis on the effects on employers. These evaluations have largely found that the overall impact on businesses was minimal. Many firms saw benefits from the policy and counted themselves as supporters after implementing it.

- **Minimal costs:** Costs to employers of providing paid sick days have been modest. In Seattle, evaluations found that the cost of providing paid sick leave in 2013 was only

about 0.4 percent of total firm revenue for the year.[23] In Connecticut, nearly half of 228 employers surveyed in 2013, a year and a half after the state's paid sick days law's implementation, reported having no increased overall cost, and 19.1 percent of employers reported an increased cost of less than 2 percent.[24] In San Francisco, the paid sick leave ordinance created additional costs for a relatively small share of employers. Six out of seven employers reported no adverse effects on profitability.[25]

- **Ease of implementation:** Research shows that paid sick days have minimal effect on business operations. Most San Francisco employers reported that implementing the Paid Sick Leave Ordinance was not difficult.[26] Likewise, about two thirds of Seattle employers reported that implementing the Paid Sick and Safe Time Ordinance was not very difficult, and 70 percent expressed support for the policy a year after implementation of the Ordinance.[27] Similarly, a large majority of Connecticut employers surveyed in 2013 indicated that the Paid Sick Leave Law did not burden business operations.[28]

- **Employees use paid sick days judiciously:** Several years after the implementation of San Francisco's paid sick days law, an IWPR survey of 1,194 workers found that employees in San Francisco used fewer than half of the sick days available under the paid sick leave ordinance.[29] Using data from the 2014 NHIS, IWPR found that most workers who do have access to paid sick days do not use any in a given year.[30] In regions that have passed paid sick day laws, surveys suggest that abuse of paid sick days is rare. Among 228 Connecticut employers surveyed by the Center for Economic and Policy Research, 86 percent reported no known cases of abuse more than a year after paid sick days was implemented.[31] A report published by the City of Seattle auditor finds that more than nine in ten Seattle employers surveyed in 2012 had never reprimanded an employee for abusing paid sick days.[32]

- **Sustained job growth and employment:** In contrast to messaging communicated by big business lobbyists prior to the laws' passage, both Seattle and San Francisco saw positive job growth in the period after their laws took effect, and this job growth was much higher than in the surrounding areas for both cities. San Francisco's growth in employment exceeded the average employment growth of surrounding counties after the paid sick days law was passed.[33] In the 10 months after the adoption of Seattle's Paid Sick and Safe Time Ordinance, King County (where Seattle is located) did not see negative economic impacts; rather, the county saw sustained job growth and reduced unemployment rates.[34]

- **Improved employee morale, motivation, loyalty, and productivity**: Over a quarter of Connecticut employers reported improved morale, 12.5 percent reported increased employee motivation, 10.6 percent reported increased loyalty, and 14.9 percent reported increased productivity after implementation of the state's paid sick days law.[35]

- **Improved work life balance for employees:** A 2010 IWPR survey found that one out of four San Francisco employees reported that paid sick days enabled them to better care for their own and their families' health needs. In addition, nearly 30 percent reported that their employers were more supportive when they needed to use their leave than they were

prior to the law's passage. More than half of all San Francisco workers reported at least one benefit as a result of the ordinance.[36]

- **Reduced flu contagion in locations with paid sick day laws:** One recent study used Google Flu data from 2003 to 2015 to show that influenza-like infection rates decrease significantly when workers gain access to paid sick days. By comparing the rates of influenza-like illnesses in regions with paid sick days policies—including the District of Columbia, Connecticut, California, Massachusetts, and Oregon—with those lacking such laws, the study finds that infection rates decrease by about 10 percent when employees without coverage obtain paid sick days.[37]

Conclusion

Literature spanning the fields of public health, economics, sociology, medicine, social work, and public policy converge to reflect the health, employment, and economic benefits of paid sick days. Research suggests that more widespread implementation of paid sick days policies would have a substantial positive impact on the well-being of children, families, and communities across the United States.

The Institute for Women's Policy Research (IWPR) conducts rigorous research and disseminates its findings to address the needs of women, promote public dialogue, and strengthen families, communities, and societies. The Institute works with policymakers, scholars, and public interest groups to design, execute, and disseminate research that illuminates economic and social policy issues affecting women and their families, and to build a network of individuals and organizations that conduct and use women-oriented policy research. IWPR's work is supported by foundation grants, government grants and contracts, donations from individuals, and contributions from organizations and corporations. IWPR is a 501(c)(3) tax-exempt organization that also works in affiliation with the women's studies, and public policy and public administration programs at The George Washington University.

STATE AUDITORS OFFICE

The Honorable Nicole Galloway
State Auditor
State Capitol Building
Jefferson City, MO 65101

RE: Petition approval request from Richard Von Glahn regarding a proposed statutory amendment to Chapter 285, version 1 (2018-028)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Richard Von Glahn on November 16, 2016.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

Jason Kander

Be it enacted by the people of the State of Missouri:

Section 285.055 of the Revised Statutes of Missouri is amended and fifteen new sections to be known as sections 285.600, 285.603, 285.606, 285.609, 285.612, 285.615, 285.618, 285.621, 285.624, 285.627, 285.630, 285.633, 285.636, 285.639, and 285.642 are enacted to read as follows:

285.055. 1. As used in this section, the following terms shall mean:

(1) "Employee", an individual employed in this state by an employer;

(2) "Employer", any individual, sole proprietorship, partnership, limited liability company, corporation, or any other entity that is legally doing business in this state; provided, however, that employer shall not include any public employer as defined in section 285.525;

(3) "Employment benefits", anything of value that an employee may receive from an employer in addition to wages and salary. The term includes, but is not limited to, health, disability, retirement, profit-sharing, and death benefits; group accidental death and dismemberment benefits; paid or unpaid days off from work for holidays, [sick leave,] vacation, and personal necessity; and terms of employment, attendance, or leave policies; provided, however, that for purposes of this section, "employment benefits" does not include paid or unpaid days off from work for sick leave that can be used for the purposes listed in subsection (1) of section 285.606.

(4) "Political subdivision", any county, city, town, or village.

2. No political subdivision shall establish, mandate, or otherwise require an employer to provide to an employee:

(1) A minimum or living wage rate; or

(2) Employment benefits;

that exceed the requirements of federal or state laws, rules, or regulations. The provisions of this subsection shall not preempt any state law or local minimum wage ordinance requirements in effect on August 28, 2015.

285.600. As used in sections 285.600 through 285.642:

(1) "Department", Department of Labor and Industrial Relations.

(2) "Director", Director of the Department of Labor and Industrial Relations.

(3) "Earned paid sick time", time that is compensated at the same hourly rate and with the same benefits, including health care benefits, as the employee normally earns during hours worked and is provided by an employer to an employee for the purposes described in section 285.606, but in no case shall this hourly amount be less than that provided under section 290.502.

(4) "Employee", any individual employed in this state by an employer, but does not include:

(A) Any individual engaged in the activities of an educational, charitable, religious, or nonprofit organization where the employer-employee relationship does not, in fact, exist or where the services rendered to the organization are on a voluntary basis;

(B) Any individual standing in loco parentis to foster children in their care;

(C) Any individual employed for less than four months in any year in a resident or day camp for children or youth, or any individual employed by an educational conference center operated by an educational, charitable or not-for-profit organization;

(D) Any individual engaged in the activities of an educational organization where employment by the organization is in lieu of the requirement that the individual pay the cost of tuition, housing or other educational fees of the organization or where earnings of the individual employed by the organization are credited toward the payment of the cost of tuition, housing or other educational fees of the organization;

(E) Any individual employed on or about a private residence on an occasional basis for six hours or less on each occasion;

(F) Any individual employed on a casual basis to provide baby-sitting services;

(G) Any individual employed by an employer subject to the provisions of part A of subtitle IV of title 49, United States Code, 49 U.S.C. §§ 10101 et seq.;

(H) Any individual employed on a casual or intermittent basis as a golf caddy, newsboy, or in a similar occupation;

(I) Any individual who is employed in any government position defined in 29 U.S.C. §§ 203(e)(2)(C)(i)-(ii); or

(J) Any individual who is an offender, as defined in section 217.010, who is incarcerated in any correctional facility operated by the department of corrections, including offenders who provide labor or services on the grounds of such correctional facility pursuant to section 217.550.

(5) "Employer", any person acting directly or indirectly in the interest of an employer in relation to an employee; provided, however, that for the purposes of sections 285.600 through 285.642, "employer" does not include the United States Government, the state, or a political subdivision of the state, including a department, agency, officer, bureau, division, board, commission, or instrumentality of the state, or a city, county, town, village, school district, or other political subdivision of the state.

(6) "Family member", any of the following individuals:

(A) Regardless of age, a biological, adopted or foster child, stepchild or legal ward, a child of a domestic partner, a child to whom the employee stands in loco parentis, or an individual to whom the employee stood in loco parentis when the individual was a minor;

(B) A biological, foster, stepparent or adoptive parent or legal guardian of an employee or an employee's spouse or domestic partner or an individual who stood in loco parentis when the employee or employee's spouse or domestic partner was a minor child;

(C) An individual to whom the employee is legally married under the laws of any state, or a domestic partner who is registered as such under the laws of a political subdivision;

(D) A grandparent, grandchild, or sibling (whether of a biological, foster, adoptive or step relationship) of the employee or the employee's spouse or domestic partner; or

(E) A member of the employee's household.

(7) "Health care professional," any individual licensed under Federal or State law to provide medical or emergency services, including but not limited to doctors, nurses, certified nurse midwives, and emergency room personnel.

(8) "Person", any individual, partnership, association, corporation, business, business trust, legal representative, or any organized group of persons.

(9) "Retaliatory personnel action", denial of any right guaranteed under sections 285.600 through 285.642, or any threat, discharge, suspension, demotion, reduction of hours, or any other adverse action against an employee for the exercise of any right guaranteed herein. "Retaliatory personnel action" shall also include interference with or punishment for in any manner participating in or assisting an investigation, proceeding, or hearing under sections 285.600 through 285.642.

(10) "Year", a regular and consecutive twelve-month period as determined by the employer; except that for the purposes of section 285.615 and section 285.627, "year" shall mean a calendar year.

285.603. 1. Employees of an employer with fifteen or more employees shall accrue a minimum of one hour of earned paid sick time for every thirty hours worked, but such employees shall not be entitled to accrue or use more than forty hours of earned paid sick time per year, unless the employer selects a higher limit.

2. Employees of an employer with fewer than fifteen employees shall accrue a minimum of one hour of earned paid sick time for every thirty hours worked, but such employees shall not be entitled to accrue or use more than twenty-four hours of earned paid sick time per year, unless the employer selects a higher limit.

3. In determining the number of employees performing work for an employer for compensation during a given week, all employees performing work for compensation on a full-time, part-time, or temporary basis shall be counted. In situations in which the number of employees who work for an employer for compensation per week fluctuates above and below fifteen employees per week over the course of the year, an employer is required to provide earned paid sick time pursuant to subsection (1) of this section if it maintained fifteen or more employees on the payroll for some portion of a day in each of twenty different calendar weeks, whether or not the weeks were consecutive, in either the current or the preceding year (irrespective of whether the same individuals were in employment in each day).

4. All employees shall accrue earned paid sick time as follows:

(A) Earned paid sick time as provided in this section shall begin to accrue at the commencement of employment or ninety days after this law goes into effect, whichever is later. An employer may provide all paid sick time that an employee is expected to accrue in a year at the beginning of the year.

(B) An employee may use earned paid sick time as it is accrued, except that an employer may require an employee hired more than ninety days after this law goes into effect to wait until the ninetieth calendar day after commencing employment before using accrued earned paid sick time, unless otherwise permitted by the employer.

(C) Employees who are exempt from overtime requirements under 29 U.S.C. § 213(a)(1) of the Federal Fair Labor Standards Act will be assumed to work forty hours in each work week for purposes of earned paid sick time accrual unless their normal work week is less than forty hours, in which case earned paid sick time accrues based upon that normal work week.

(D) Earned paid sick time shall be carried over to the following year, subject to the limitations on usage in subsections (1) and (2) of this section. Alternatively, in lieu of carryover of unused earned paid sick time from one year to the next, an employer may pay an employee for unused earned paid sick time at the end of a year and provide the employee with an amount of paid sick time that meets or exceeds the requirements of sections 285.600 through 285.642 that is available for the employee's immediate use at the beginning of the subsequent year.

(E) If an employee is transferred to a separate division, entity, or location, but remains employed by the same employer, the employee is entitled to all earned paid sick time accrued at the prior division, entity, or location and is entitled to use all earned paid sick time as provided in this section. When there is a separation from employment and the employee is rehired within nine months of separation by the same employer, previously accrued earned paid sick time that had not been used shall be reinstated. Further, the employee shall be entitled to use accrued earned paid sick time and accrue additional earned paid sick time at the re-commencement of employment.

(F) When a different employer succeeds or takes the place of an existing employer, all employees of the original employer who remain employed by the successor employer are entitled to all earned paid sick time they

accrued when employed by the original employer, and are entitled to use earned paid sick time previously accrued.

(G) At its discretion, an employer may loan earned paid sick time to an employee in advance of accrual by such employee.

5. Any employer with a paid leave policy, such as a paid time off policy, who makes available an amount of paid leave sufficient to meet the accrual requirements of this section that may be used for the same purposes and under the same conditions as earned paid sick time under sections 285.600 through 285.642 is not required to provide additional paid sick time.

6. Nothing in this section shall be construed as requiring financial or other reimbursement to an employee from an employer upon the employee's termination, resignation, retirement, or other separation from employment for accrued earned paid sick time that has not been used.

285.606. 1. Earned paid sick time shall be provided to an employee by an employer for:

(A) An employee's mental or physical illness, injury, or health condition; an employee's need for medical diagnosis, care, or treatment of a mental or physical illness, injury, or health condition; an employee's need for preventive medical care;

(B) Care of a family member with a mental or physical illness, injury, or health condition; care of a family member who needs medical diagnosis, care, or treatment of a mental or physical illness, injury, or health condition; care of a family member who needs preventive medical care; or

(C) Closure of the employee's place of business by order of a public official due to a public health emergency, or an employee's need to care for a child whose school or place of care has been closed by order of a public official due to a public health emergency, or care for oneself or a family member when it has been determined by the health authorities having jurisdiction or by a health care provider that the employee's or family member's presence in the community may jeopardize the health of others because of his or her exposure to a communicable disease, whether or not the employee or family member has actually contracted the communicable disease.

2. Earned paid sick time shall be provided upon the request of an employee. Such request may be made orally, in writing, by electronic means or by any other means acceptable to the employer. When possible, the request shall include the expected duration of the absence.

3. When the use of earned paid sick time is foreseeable, the employee shall make a good faith effort to provide notice of the need for such time to the employer in advance of the use of the earned paid sick time and shall make a reasonable effort to schedule the use of earned paid sick time in a manner that does not unduly disrupt the operations of the employer. Where such need is not foreseeable, an employer may require an employee to provide notice of the need for the use of earned paid sick time as soon as practicable.

4. An employer that requires notice of the need to use earned paid sick time where the need is not foreseeable shall provide a written policy that contains procedures for the employee to provide notice. An employer that has not provided to the employee a copy of its written policy for providing such notice shall not deny earned paid sick time to the employee based on non-compliance with such a policy.

5. An employer may not require, as a condition of an employee's taking earned paid sick time, that the employee search for or find a replacement worker to cover the hours during which the employee is using earned paid sick time.

6. Earned paid sick time may be used in the smaller of hourly increments or the smallest increment that the employer's payroll system uses to account for absences or use of other time.

7. For earned paid sick time of three or more consecutive work days, an employer may require reasonable documentation that the earned paid sick time has been used for a purpose covered by subsection (1) of this section. Documentation signed by a heath care professional indicating that earned paid sick time is necessary shall be considered reasonable documentation for purposes of this section. An employer may not require that the documentation explain the nature of the illness unless otherwise required by law.

285.609. 1. It shall be unlawful for an employer or any other person to interfere with, restrain, or deny the exercise of, or the attempt to exercise, any right protected under sections 285.600 through 285.642.

2. An employer shall not take retaliatory personnel action or discriminate against an employee or former employee because he or she has exercised rights protected under sections 285.600 through 285.642. Such rights include, but are not limited to, the right to request or use earned paid sick time pursuant to sections 285.600 through 285.642; the right to file a complaint or inform any person about any employer's alleged violation of sections 285.600 through 285.642; the right to participate in an investigation, hearing, or proceeding or cooperate with or assist the Department in any investigations of alleged violations of sections 285.600 through 285.642; and the right to inform any person of his or her potential rights under sections 285.600 through 285.642.

3. It shall be unlawful for an employer's absence control policy to count earned paid sick time taken under sections 285.600 through 285.642 as an absence that may lead to or result in discipline, discharge, demotion, suspension, or any other adverse action.

4. Protections of this section shall apply to any individual who mistakenly but in good faith alleges violations of sections 285.600 through 285.642.

285.612. 1. Employers shall give employees written notice of the following at the commencement of employment or by ninety days after this law goes into effect, whichever is later: employees are entitled to earned paid sick time and the amount of earned paid sick time, the terms of its use guaranteed under sections 285.600 through 285.642, that retaliatory personnel action against employees who request or use earned paid sick time is prohibited, that each employee has the right to bring a civil action if earned paid sick time as required by sections 285.600 through 285.642 is denied by the employer or the employee is subjected to retaliatory personnel action for requesting or taking earned paid sick time, and, if applicable, the contact information for the Department where questions about rights and responsibilities under sections 285.600 through 285.642 may be answered.

2. Employers shall display a poster that contains the information required in subsection (1) of this section in a conspicuous and accessible place in each establishment where such employees are employed, provided that such poster has been provided by the Department.

3. The Department may create and make available to employers, model notices and posters that contain the information required under subsection (1) of this section for employers' use in complying with subsections (1) and (2) of this section. Nothing in this subsection shall be interpreted or applied, either expressly or through practical necessity, to require the Department to create or make available notices or posters if it requires the appropriation of funds to cover the costs of such acts.

285.615. 1. Employers shall retain records documenting hours worked by employees and earned paid sick time taken by employees, for a period of not less than three years, and shall allow the Department access to such records, with appropriate notice and at a mutually agreeable time, to monitor compliance with the requirements of sections 285.600 through 285.642.

2. To the extent permitted by law, the Director may inspect such records, and the records shall be open for inspection by the Director by appointment. Where the records required under this section are kept outside the state, the records shall be made available to the Director upon demand. Every such employer shall furnish to the Director on demand a sworn statement of time records and information upon forms prescribed or approved by the Director. All the records and information obtained by the Department are confidential and shall be disclosed only on order of a court of competent jurisdiction.

3. Nothing in this section shall be interpreted or applied, either expressly or through practical necessity, to require the Department or Director to access or inspect records or to create forms relating to the inspection of records if it requires the appropriation of funds to cover the costs of such acts.

285.618. 1. The Department may, in accordance with chapter 536, promulgate rules to implement the provisions of sections 285.600 through 285.642. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2018, shall be invalid and void.

2. Nothing in this section shall be interpreted or applied, either expressly or through practical necessity, to require the promulgation or adoption of rules if it requires the appropriation of funds to cover the costs of such acts.

285.621. 1. To the extent permitted by law, the Department may investigate and ascertain compliance with sections 285.600 through 285.642, establish and implement a system to receive complaints regarding non-compliance with sections 285.600 through 285.642 and to investigate and attempt to resolve complaints through mediation between the complainant and the subject of the complaint, and establish additional means of enforcement to the extent permitted by the law.

2. The Department may develop and implement an outreach program to inform employees, parents, and persons who are under the care of a health care provider about the availability of earned paid sick time under sections 285.600 through 285.642. This program may include the distribution of notices and other written materials to child care and elder care providers, domestic violence shelters, schools, hospitals, community health centers and other health care providers in Missouri.

3. Nothing in this section shall be interpreted or applied, either expressly or through practical necessity, to require the Department to conduct investigations and ascertain compliance with sections 285.600 through 285.642, to establish and implement a system to receive or resolve complaints, to establish additional means of enforcement, or to conduct outreach and education, including the creation of notices and other written materials, concerning sections 285.600 through 285.642, if it requires the appropriation of funds to cover the costs of such acts.

285.624. 1. To the extent permitted by law, any employer who violates or fails to comply with any of the provisions and requirements of sections 285.600 through 285.642 shall be guilty of a class C misdemeanor and shall be punished for each violation thereof by a fine, up to the maximum allowed under state law for violation of a class C misdemeanor; provided, however, that an employer who willfully violates the notice and posting requirements of section 285.612 shall be guilty of an infraction and shall be punished for each violation thereof by a fine, up to the maximum allowed under state law for an infraction.

2. For purposes of this section, each day of violation or failure to comply and each employee affected shall constitute a separate offense.

285.627. 1. Any individual who claims to have been aggrieved by a failure of an employer to comply with any portion of sections 285.600 through 285.642, including but not limited to the failure to provide earned paid sick time or to allow employees to use such time consistent with sections 285.600 through 285.642, or who claims to have suffered a retaliatory personnel action, shall have a right of action and may commence a civil action in the appropriate court of jurisdiction within three years of the accrual of the cause of action, to obtain appropriate relief with respect to such unlawful violation.

2. In a civil action under this section, if the court finds a violation has occurred, the court may grant as relief, as it deems appropriate and to the extent permitted by law, any permanent or temporary injunction, the full amount of any unpaid earned sick time plus any actual damages suffered as the result of the employer's violation of sections 285.600 through 285.642, an additional amount equal to twice any unpaid earned sick time as liquidated damages, costs, and reasonable attorney's fees as may be allowed by the court, and other legal or equitable relief as may be appropriate to remedy the violation, including, without limitation, reinstatement to employment and back pay. Any agreement between the employee and the employer to waive the protections of sections 285.600 through 285.642, with the exception of section 285.633, shall be no defense to the action.

285.630. 1. Except as otherwise required by law, an employer may not require disclosure of details relating to an employee's or an employee's family member's health information as a condition of providing earned paid sick time under sections 285.600 through 285.642.

2. Unless as otherwise required by law, any health information possessed by an employer regarding an employee or employee's family member must:

(A) be maintained on a separate form and in a separate file from other personnel information;

(B) be treated as confidential medical records; and

(C) not be disclosed except to the affected employee or with the express written permission of the affected employee.

285.633. 1. All or any portion of the earned paid sick time requirements of sections 285.600 through 285.642 shall not apply to employees covered by a valid collective bargaining agreement, to the extent that such requirements are expressly waived in the collective bargaining agreement in clear and unambiguous terms.

2. Notwithstanding subsection (1) of this section, with respect to employees covered by a valid collective bargaining agreement in effect on the effective date of sections 285.600 through 285.642, no provisions of sections 285.600 through 285.642 shall apply until the stated expiration date in the collective bargaining agreement.

3. Nothing in sections 285.600 through 285.642 shall be deemed to interfere, impede, or otherwise diminish the right of employees to bargain collectively through representatives of their own choosing.

285.636. 1. Nothing in sections 285.600 through 285.642 shall be construed to discourage or prohibit an employer from the adoption or retention of an earned paid sick time policy more generous than the one required herein.

2. Nothing in sections 285.600 through 285.642 shall be construed as diminishing the obligation of an employer to comply with any contract, collective bargaining agreement, employment benefit plan, or other agreement providing more generous paid sick time to an employee than required herein. Nothing in sections 285.600 through 285.642 shall be construed as diminishing the rights of public employees regarding paid sick time or use of paid sick time as provided in the laws of Missouri pertaining to public employees.

285.639. 1. Sections 285.600 through 285.642 provide minimum requirements pertaining to earned paid sick time and shall not be construed to preempt, limit, or otherwise affect the applicability of any other law, regulation, requirement, policy, or standard that provides for greater accrual or use by employees of earned paid sick time or that extends other protections to employees.

2. Any county, city, town, or village in the state shall have the power and authority to establish, mandate, or otherwise require an employer to provide to an employee paid or unpaid days off from work for sick leave which exceeds the requirements of sections 285.600 through 285.642.

3. Nothing in sections 285.600 through 285.642 shall be interpreted or applied to create a power or obligation contrary to any federal law, rule, or regulation.

285.642. Except as detailed in section 285.618, all of the provisions of sections 285.600 through 285.642 are severable, and if any provision, including any section, subsection, subdivision, paragraph, sentence, or clause, or the application thereof to any person or circumstance, is found by a court of competent jurisdiction to be invalid, unconstitutional, or unconstitutionally enacted, such decision shall not affect other provisions or applications of sections 285.600 through 285.642 that can be given effect without the invalid, unconstitutional, or unconstitutionally enacted provision or application, and to this end the provisions of sections 285.600 through 285.642 are declared severable.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-028)

Subject

Initiative petition from Richard Von Glahn regarding a proposed amendment to Chapter 285 of the Revised Statutes of Missouri. (Received November 17, 2016)

Date

December 7, 2016

Description

This proposal would amend Chapter 285 of the Revised Statutes of Missouri.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** the **Missouri Lottery,** the **Public Service Commission,** the **State Tax Commission,** the **Missouri Technology Corporation,** the **Missouri Life Sciences Research Board,** the **Missouri Veterans Commission,** the **Missouri Ethics Commission,** the **Missouri Office of Prosecution Services,** the **Kansas City Boards of Police Commissioners,** the **St. Louis City Board of Police Commissioners,** the **St. Louis County Board of Elections,** the **Board of Election Commissioners City of St.**

Louis, the **Kansas City Board of Election Commissioners,** the **Platte County Board of Elections,** the **Jackson County Election Board,** the **Clay County Board of Election Commissioners,** the **Lieutenant Governor's office,** the **Children's Trust Fund,** the **Missouri Joint Municipal Electric Utility Commission,** the **State Auditor's office, University of Central Missouri, Harris-Stowe State University, Lincoln University, Missouri Southern State University, Missouri Western State University, Northwest Missouri State University, Southeast Missouri State University,** and **Truman State University**.

Lara Granich and Missouri Jobs with Justice Voter Action provided information as proponents of the proposal to the State Auditor's office.

Officials from the **Attorney General's office** indicated various provisions of the proposal authorize their department to promulgate rules, establish mediation procedures "and additional means of enforcement… ." They assume that their office may provide some review of proposals, but assume that any potential costs arising from this proposal can be absorbed with existing resources. They may seek additional appropriations if there is an increased review of rules in later years.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated they will be deferring to the Office of Administration and the Department of Labor and Industrial Relations regarding any fiscal impact this initiative petition might have.

Officials from the **Department of Higher Education** indicated the state, including departments, are exempt from the definition of "employer," so this initiative petition would not have a fiscal impact on their department.

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition does not apply to public employers with respect to its employees. Therefore, this petition, if passed, would have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated there is no fiscal impact to their department as a result of this initiative petition. Section 285.600 (5) indicates "for the purposes of sections 285.600 through 285.642 "employer" does not include the United States Government, the state, …., including a department, agency, …."

Officials from the **Department of Corrections** indicated they defer to the Office of Administration.

Officials from the **Department of Labor and Industrial Relations** indicated they expect no change in revenues or expenses in fiscal years 2017, 2018, and 2019.

The petition, if passed by voters, would require businesses with 15 or more employees to provide paid sick time. It also would allow their department to educate employers, take complaints, and perform investigations of violations of the new law.

The long-range fiscal implications are the same as those of the estimate period.

Under the new language, they may educate employers and employees, promulgate rules, take complaints, and conduct investigations of alleged violations of the new provisions. They believe the education, registration of complaints, and investigations would be conducted in a manner similar to those conducted under the Minimum Wage program. Using employer information from the United States Census Bureau for employers with more than ten employees, they estimate that it would receive complaints from 1.5% of the estimated 40,886 businesses with 10 or more employees, or 613 complaints annually. (The Census Bureau does not break employers at the 15 or more level.) To investigate these 613 complaints, they would require 3.50 Wage & Hour Investigator I/IIs. In FY 2016, 578 complaints were closed by 3.50 Investigators, averaging 165 per FTE. Using this calculation, they estimate it would need 3.50 FTE and the standard per FTE expenses and equipment to complete these activities.

However, Sections 285.612, 285.615, 285.618, and 285.621 expressly state that they are not required to take on the new duties it is authorized to perform under this proposal if doing so will require an appropriation to cover the costs of performing the duties. Because these duties are optional and are not required of their department, if there is no appropriation made to cover the cost, they estimate no mandated fiscal impact for this proposal.

Officials from the **Department of Revenue** indicated they defer this fiscal note to the Office of Administration for a statewide response.

Officials from the **Department of Public Safety** indicated they will defer to the Office of Administration response to this petition.

Officials from the **Department of Social Services** indicated they will defer to the Office of Administration response to this petition. They indicated no fiscal impact on their department.

Officials from the **Governor's Office** indicated there should be no fiscal impact to their office.

Officials from the **House of Representatives** indicated no fiscal impact to their office.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated no fiscal impact.

Officials from the **Office of Administration** indicated:

This initiative petition revises Section 285.055, RSMo, and adds 15 new sections to Chapter 285 related to sick leave.

Under this proposal, employers would be required to provide paid sick leave to employees. The amount would be dependent upon the number of employees. It does not include employees covered under a valid collective bargaining agreement and it provides employees with an avenue of recourse if the employee claims to be aggrieved.

The State of Missouri is excluded from the provisions of this proposal, therefore there would be no statewide impact related to this proposal other than potentially higher costs for services purchased by the state. However, the Department of Labor and Industrial Relations (DOLIR) will be impacted. Budget and Planning defers to the DOLIR for the specific impact to that agency.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated no fiscal impact on their office.

Officials from the **Secretary of State's office** indicated their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any impact on their office, as they are an independent department within state government and by definition state employees are exempt from this proposed legislation.

Officials from the **State Treasurer's office** indicated this would have no fiscal impact on their office.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from the **City of Columbia** indicated there appears to have no direct impact on their city.

Officials from the **City of Kansas City** indicated no direct fiscal impact is anticipated if this proposal is adopted because cities are not employers. An indirect cost to cities may arise through increased labor costs of those vendors contracting with the city.

Officials from the **City of Raymore** indicated no fiscal impact.

Officials from the **City of St. Joseph** indicated this initiative petition could have a fiscal impact on local government.

Officials from **University of Missouri** indicated they have reviewed this proposed legislation and have determined that for benefit eligible employees (defined as working .75 or >) that it does not appear that the proposed legislation as written would create a significant fiscal impact to their university.

Officials from the **Missouri Lottery** indicated no fiscal impact to their agency.

Officials from the **Public Service Commission** indicated no fiscal impact on their agency.

Officials from the **State Tax Commission** indicated this initiative petition pertaining to sick leave in Chapter 285 does not directly impact their office. As a state agency this matter is under the direction of Office of Administration, Division of Personnel.

Officials from the **Missouri Veterans Commission** indicated no fiscal impact to their agency.

Officials from the **Missouri Office of Prosecution Services** indicated no measurable fiscal impact to their office.

Officials from the **Kansas City Boards of Election Commissioners** indicated there is no fiscal impact with amendments to Chapter 285, Versions 1 -12, since the State is not responsible for costs associated with the November 2018 election.

Officials from the **Platte County Board of Elections** indicated the proposed initiative would have no fiscal impact on their office.

Officials from the **Jackson County Election Board** indicated no fiscal impact on their office.

Officials from the **Lieutenant Governor's office** indicated it is anticipated that this initiative petition will impose little to no costs or savings on their office.

Officials from the **Children's Trust Fund** indicated they are part of the Office of Administration and thus will be covered by the Office of Administration's official response. They will not be responding separately.

Officials from the **Missouri Joint Municipal Electric Utility Commission** indicated:

The Missouri Association of Municipal Utilities represents approximately 120 cities in Missouri providing utility services to their customer/owners. They do not represent cities in their general business operation. That representation is undertaken by the Missouri Municipal League and its executive director Dan Ross.

Based on a review of each of the 12 versions it appears that there would be no direct cost to any of their cities since the framers of the amendment specifically excluded cities from the definition of employers and city employees from coverage of the proposed changes.

However, it is possible that cities may experience some increases in the cost of goods and services consumed in the regular course of business as a result of higher labor input costs. It is impossible to accurately predict those increases other than to make you aware of the potential.

Officials from the **State Auditor's office** indicated there is no fiscal impact for their office.

Officials from **University of Central Missouri** indicated if they are included in the definition of "employer" that would be impacted by this legislation, they would have an additional cost of roughly $340,000. In fiscal year 2016, part-time employees worked nearly 679,000 hours. If each 30 hours resulted in one sick time hour, that would be 22,634 hours. At an average rate of $15/hour, that would have a fiscal impact of $340,000.

If the definition of employer is interpreted to exclude UCM because of its status as a state agency, then there would be no fiscal impact.

Officials from **Missouri State University** indicated no fiscal impact on their university.

Officials from **Missouri Southern State University** indicated they do not anticipate any fiscal impact from this initiative petition.

Lara Granich and Missouri Jobs with Justice Voter Action provided the following information as proponents of this initiative petition.

Re: Fiscal Impact Analysis of Earned Sick Time Petitions
Petitions numbered by MO SOS at 2018-28 to 2018-39

This letter is from Lara Granich and Missouri Jobs with Justice Voter Action, proponents of the above-referenced initiative petitions. Pursuant to RSMo. Section 116.175, we write to submit the following information to assist your office in its analysis of the fiscal impact of the above-mentioned twelve proposed Earned Sick Time Petitions.

This analysis uses data collected by the U.S. Bureau of Labor Statistics, the Centers for Disease Control and Prevention, and the U.S. Census Bureau to evaluate the impact of earned sick time laws in Missouri. This analysis uses findings from previous peer-reviewed research to estimate cost-savings associated with the proposed policies through reduced turnover, reduced spread of contagious disease in the workplace, prevention of productivity losses from employees working while sick, minimized nursing-home stays, and reduced norovirus outbreaks in nursing homes. We also address certain claims that have been made by opponents in the past.

I. Estimate of Number of Workers Affected Statewide

According to the Institute for Women's Policy Research, an estimated 1,002,116 private sector workers in Missouri, or 45.9 percent of the workforce, cannot earn a single paid sick day to use to recover from common illnesses or seek medical care.[1]

II. Direct Costs to State

As these proposed initiatives exclude public workers employed by the state or by local governments, the initiatives are not expected to have any direct impact on state and local payroll costs. Enforcement would be handled by existing staff at the Department of Labor.

III. Economic Literature on the Impact of Earned Sick Time on Businesses

This analysis quantifies only a subset of potential benefits, predicting a net economic benefit from both of the proposed laws. Likely additional benefits from paid sick days not quantified in this analysis include: reduced health care spending due to reduced public contagion and more timely and regular preventive care and treatment; improved economic security among families who receive pay on sick days and are less likely to be fired or disciplined for taking sick time; and improved school outcomes and reduced contagion in schools, when parents can avoid sending sick children to school or child care.

Millions of workers have gained access to paid sick days in recent years through new laws in five states, 23 cities, and one county across the country. There is no evidence of business closures/layoffs as a result of earned sick time laws. Both Seattle and San Francisco saw positive job growth in the period after their laws took effect, and this job growth was much higher than in the surrounding areas for both cities. San Francisco's growth in employment exceeded the average employment growth of surrounding counties after the paid sick days law was passed. In the 10 months after the adoption of Seattle's Paid Sick and Safe Time Ordinance, King County (where Seattle is located) did not see negative economic impacts; rather, the county saw sustained job growth and reduced unemployment rates. 2

The Washington D.C. Auditor reported "that the Accrued Sick and Safe Leave Act did not have the economic impact of encouraging business owners to move a business from the District nor did the Act have the economic impact of discouraging business owners to locate a business in the District of Columbia."3 New York City reported that "New York City's economy has thrived since the enactment of PSL [paid sick leave]. Between January 2014 and January 2015, a period that covers the law's implementation, economic indicators were a cause for celebration, not concern as many had predicted." 4

Summary of Benefits Associated With Missouri's Proposed Earned Sick Time Law

Benefits	Firms with <50 Employees			Firms with 50+ Employees		
	Dollars	Average per-worker savings		Dollars	Average per-worker costs/savings	
BENEFITS						
Lower Turnover	$32,718,875			$146,675,016		
Reduced Flu Contagion in the Workplace	$1,334,044			$5,980,370		
		Weekly	*Hourly*		*Weekly*	*Hourly*
Employers' Savings	**$34,052,920**	**$6.97**	**$0.21**	**$152,655,386**	**$9.44**	**$0.26**
Reduced Short-Term Nursing Home Stays	$2,415,006			$8,165,162		
Reduced Norovirus in Nursing Homes	$21,692			$93,129		
Reduced Flu Contagion	$233,249			$771,691		
Reduced Emergency Department Visits	$3,512,104			$11,619,581		
		Weekly	*Hourly*		*Weekly*	*Hourly*
Community Savings	**$6,182,052**	**$1.26**	**$0.04**	**$20,649,564**	**$1.28**	**$0.03**

Note: "Small" firms are defined in the proposed laws at firms employing fewer than 15 employees and "Large" firms are defined as firms employing 15 or more employees.

Source: Institute for Women's Policy Research Analysis of the 2014 American Community Survey (ACS), the 2016 National Compensation Survey (NCS), the 2013-2016 Current Population Survey Annual Social and Economic Supplement (CPS ASEC), the 2010 Current Population Survey Displaced Worker, Employee Tenure, and Occupational Mobility Supplement File, and the 2014-2015 National Health Interview Survey (NHIS).

Note on Methodology

The estimates are based on analyses of the following data sets: the 2013–2016 Current Population Survey Annual Social and Economic Supplement (CPS ASEC), the 2014-2015 National Health Interview Survey (NHIS), the 2014 American Community Survey (ACS), the 2016 National Compensation Survey and the 2014 Medical Expenditure Panel Survey along with findings from previous peer-reviewed research.

This analysis was limited to only private sector workers as the proposed legislation only covers such workers. The proposed legislation does include some small exemptions for certain employees which this analysis does not account for. Excluding such workers would result in minor reductions in both the costs and benefits estimated, but general trends would remain the same. To learn more about the methodology and sources please see "Valuing Good Health in Maryland: The Costs and Benefits of Earned Sick Days"[5]

We hope that this information is useful to your office as your prepare your analyses of the petitions.

Respectfully submitted,
Lara Granich

IWPR #B361 July 2016

Paid Sick Days Benefit Employers, Workers, and the Economy

Jessica Milli, PhD., Jenny Xia, and Jisun Min

Millions of workers have gained access to paid sick days in recent years through new laws in five states, 23 cities, and one county across the country.[1] Yet millions more still would not be paid if they need to stay at home when they are sick or need to care for a family member who is ill. As of 2014, 51 million workers lacked access to paid sick days.[2]

Research has documented many benefits of paid sick days policies for workers, businesses, and communities as a whole. These benefits would multiply substantially if more workers gained access to paid sick days. This briefing paper summarizes research on the benefits of paid sick days and the effects of paid sick days policies in places that have them.

Employers Benefit from Paid Sick Days

- **Reduced contagion in the workplace:** A 2010 survey conducted by the National Opinion Research Center found that employees without access to paid sick days are 1.5 times more likely than those with access to go to work with a contagious illness (55 percent compared with 37 percent).[3] Such "presenteeism" has serious public health consequences including flu contagion. A 2010 analysis of labor force and Centers for Disease Control data estimated that more than one in four private sector employees worked while ill with H1N1 during the 2009 H1N1 pandemic, resulting in the estimated infection of 7 million co-workers with H1N1. Work absences from illness dropped more precipitously among public sector workers than among private sector workers during the decline of the pandemic. Because employees in the public sector have greater access to paid sick days, the finding suggests that paid sick days played a role in slowing contagion and potentially in speeding recovery.[4] A 2013 study employed a model simulating influenza contagion to estimate reductions in contagion rates under a universal paid sick days policy. Using data from the American Community Survey, LandScan USA, and the U.S. Census, the study estimated that providing paid sick days would reduce workplace influenza infection in the United States by about 6 percent.[5]

- **Improved productivity:** When workers come to work sick, their productivity and performance suffer. Estimates of productivity losses vary across studies. A 1997 study polling 332 workers who had influenza-like illnesses found that workers on average reported being 46 percent less effective while ill at work.[6] A 2003 study based on interviews with more than 28,000 workers reported that on average, workers lose 1.32 hours per week of productive time due to personal health related reasons.[7] Since workers

with access to paid sick days are less likely to come to work sick and infect their co-workers,[8] paid sick days can prevent further productivity losses resulting from illness and contagion in the workplace.

- **Decreased workplace injuries:** Working while sick also puts employees at greater risk of injury on the job. A 2012 study using the 2005 through 2008 National Health Interview Survey (NHIS) found that after controlling for factors like survey year, occupational sector, firm size, region, and the availability of paid sick leave, workers with access to paid sick days are 28 percent less likely to be injured on the job than workers without this benefit.[9]

- **Decreased employee turnover:** A 2012 analysis of data collected between 2004 and 2006 through the Medical Expenditure Panel Survey (MEPS) finds that the likelihood of job separation decreases by about 25 percent when a worker has access to paid sick days, even after controlling for potential confounding factors such as workers' educational attainment, earnings, and race/ethnicity.[10] As employee turnover typically costs an employer between 10 and 30 percent of an employee's annual salary,[11] a reduction in turnover can result in significant reductions in employer costs.

Paid Sick Days Improve Public Health

- **Increased use of preventive care:** Since paid sick days can be used for doctor visits, workers with paid sick days are more likely to seek preventive care and to be screened for diseases such as cancer, which can lead to early detection and treatment. A 2012 study using 2008 National Health Interview Survey (NHIS) data finds that after controlling for sociodemographic and health-care-related factors, workers with paid sick days are significantly more likely to have had mammograms, Pap tests, and endoscopy, and to have seen a doctor during the previous year than those without the benefit.[12]

- **More timely treatment for illnesses:** Workers without paid sick days are more likely to delay medical care when they or a family member is ill which can lead to a more serious or prolonged illness.[13]A 2016 analysis of the 2013 NHIS—which controlled for demographic and health-related factors like race and ethnicity, occupation, annual family income, and health insurance coverage—indicates that workers without paid sick leave are three times more likely to forgo medical care for themselves, and 1.6 times more likely to forgo medical care for their families, compared with workers who have the benefit.[14] A 2011 analysis of the NHIS found that when they do seek care, workers without paid sick days—regardless of their educational attainment, income, race/ethnicity and other demographic characteristics—are more likely to use an emergency department for care.[15]

- **Improved family health:** Paid sick days may encourage workers to respond to their children's and family members' health needs in a timely manner, thereby improving overall health outcomes for their families. Paid sick days are a primary factor affecting whether a working parent will stay at home with a sick child rather than sending them to school or child care sick. The 2010 National Opinion Research Center Survey found that

28 percent of workers without paid sick days reported sending a sick child to school or child care, compared with 14 percent of workers with paid sick days.[16] A 2012 study analyzing the 2008 National Study of the Changing Workforce (NSCW) and controlling for worker and job characteristics finds that having paid sick days is associated with reduced work-family conflict, which lessens difficulties parents face in taking time off from work to care for a sick child.[17]

Paid Sick Days Bring Economic Benefits for Workers, Families, and Communities

- **Improved employment and earnings stability:** When incomes are not interrupted by unpaid leave, families experience greater financial stability and economic well-being. According to a 2010 poll, 16 percent of workers surveyed reported losing a job for missing work when they were sick or to care for an ill family member.[18] Research has shown that having paid sick days reduces the likelihood of a job separation by at least 25 percent.[19]

- **Improved labor force attachment among caregivers:** Informal caregivers whose work schedules are incompatible with the care needs of their family members may decrease their work hours or even leave the labor force completely.[20] One 2011 Gallup poll found that most caregivers, including parents, reported missing at least one full day of work to fulfill their caregiving duties with an average of 6.6 workdays missed per year.[21] Paid sick days, however, may provide sufficient leave to caregivers to allow them to maintain their desired level of employment while continuing to perform their caregiving work.

- **Savings from reduced utilization of hospital emergency departments and a lower monetary burden on taxpayers:** A 2011 study using the 2008 and 2009 NHIS finds that the annual number of emergency department visits per worker without paid sick days is greater than it is for those with the benefit. Using MEPS data on the cost of emergency department visits, the study estimates that a lack of paid sick days resulted in an estimated 1.3 million preventable emergency department visits every year in the United States in 2008, costing $1.1 billion more than office visits would have. Part of these costs—$500 million—were paid by public insurance programs such as Medicaid.[22]

Research Finds Benefits of Existing Paid Sick Days Laws and Minimal Costs to Employers

Since the implementation of the first paid sick days law in 2007, several studies have evaluated the impacts of the legislation, with a particular emphasis on the effects on employers. These evaluations have largely found that the overall impact on businesses was minimal. Many firms saw benefits from the policy and counted themselves as supporters after implementing it.

- **Minimal costs:** Costs to employers of providing paid sick days have been modest. In Seattle, evaluations found that the cost of providing paid sick leave in 2013 was only

about 0.4 percent of total firm revenue for the year.[23] In Connecticut, nearly half of 228 employers surveyed in 2013, a year and a half after the state's paid sick days law's implementation, reported having no increased overall cost, and 19.1 percent of employers reported an increased cost of less than 2 percent.[24] In San Francisco, the paid sick leave ordinance created additional costs for a relatively small share of employers. Six out of seven employers reported no adverse effects on profitability.[25]

- **Ease of implementation:** Research shows that paid sick days have minimal effect on business operations. Most San Francisco employers reported that implementing the Paid Sick Leave Ordinance was not difficult.[26] Likewise, about two thirds of Seattle employers reported that implementing the Paid Sick and Safe Time Ordinance was not very difficult, and 70 percent expressed support for the policy a year after implementation of the Ordinance.[27] Similarly, a large majority of Connecticut employers surveyed in 2013 indicated that the Paid Sick Leave Law did not burden business operations.[28]

- **Employees use paid sick days judiciously:** Several years after the implementation of San Francisco's paid sick days law, an IWPR survey of 1,194 workers found that employees in San Francisco used fewer than half of the sick days available under the paid sick leave ordinance.[29] Using data from the 2014 NHIS, IWPR found that most workers who do have access to paid sick days do not use any in a given year.[30] In regions that have passed paid sick day laws, surveys suggest that abuse of paid sick days is rare. Among 228 Connecticut employers surveyed by the Center for Economic and Policy Research, 86 percent reported no known cases of abuse more than a year after paid sick days was implemented.[31] A report published by the City of Seattle auditor finds that more than nine in ten Seattle employers surveyed in 2012 had never reprimanded an employee for abusing paid sick days.[32]

- **Sustained job growth and employment:** In contrast to messaging communicated by big business lobbyists prior to the laws' passage, both Seattle and San Francisco saw positive job growth in the period after their laws took effect, and this job growth was much higher than in the surrounding areas for both cities. San Francisco's growth in employment exceeded the average employment growth of surrounding counties after the paid sick days law was passed.[33] In the 10 months after the adoption of Seattle's Paid Sick and Safe Time Ordinance, King County (where Seattle is located) did not see negative economic impacts; rather, the county saw sustained job growth and reduced unemployment rates.[34]

- **Improved employee morale, motivation, loyalty, and productivity**: Over a quarter of Connecticut employers reported improved morale, 12.5 percent reported increased employee motivation, 10.6 percent reported increased loyalty, and 14.9 percent reported increased productivity after implementation of the state's paid sick days law.[35]

- **Improved work life balance for employees:** A 2010 IWPR survey found that one out of four San Francisco employees reported that paid sick days enabled them to better care for their own and their families' health needs. In addition, nearly 30 percent reported that their employers were more supportive when they needed to use their leave than they were

prior to the law's passage. More than half of all San Francisco workers reported at least one benefit as a result of the ordinance.[36]

- **Reduced flu contagion in locations with paid sick day laws:** One recent study used Google Flu data from 2003 to 2015 to show that influenza-like infection rates decrease significantly when workers gain access to paid sick days. By comparing the rates of influenza-like illnesses in regions with paid sick days policies—including the District of Columbia, Connecticut, California, Massachusetts, and Oregon—with those lacking such laws, the study finds that infection rates decrease by about 10 percent when employees without coverage obtain paid sick days.[37]

Conclusion

Literature spanning the fields of public health, economics, sociology, medicine, social work, and public policy converge to reflect the health, employment, and economic benefits of paid sick days. Research suggests that more widespread implementation of paid sick days policies would have a substantial positive impact on the well-being of children, families, and communities across the United States.

RE: Petition approval request from Richard Von Glahn regarding a proposed statutory amendment to Chapter 290, version 12 (2018-027)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Richard Von Glahn on November 14, 2016.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

Jason Kander

Be it enacted by the people of the state of Missouri:

18-027

Sections 290.502, 290.512, and 290.527 of the Revised Statutes of Missouri are amended and a new section to be known as section 290.529 is enacted to read as follows:

290.502. 1. Except as may be otherwise provided pursuant to sections 290.500 to 290.530, effective January 1, 2007, every employer shall pay to each employee wages at the rate of $6.50 per hour, or wages at the same rate or rates set under the provisions of federal law as the prevailing federal minimum wage applicable to those covered jobs in interstate commerce, whichever rate per hour is higher.

2. The minimum wage shall be increased or decreased on January 1, 2008, and on January 1 of successive years, by the increase or decrease in the cost of living. On September 30, 2007, and on each September 30 of each successive year, the director shall measure the increase or decrease in the cost of living by the percentage increase or decrease as of the preceding July over the level as of July of the immediately preceding year of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) or successor index as published by the U.S. Department of Labor or its successor agency, with the amount of the minimum wage increase or decrease rounded to the nearest five cents.

3. Except as may be otherwise provided pursuant to sections 290.500 to 290.530, and notwithstanding subsection (1) of this section, effective January 1, 2019, every employer shall pay to each employee wages at the rate of not less than $9.00 per hour, or wages at the same rate or rates set under the provisions of federal law as the prevailing federal minimum wage applicable to those covered jobs in interstate commerce, whichever rate per hour is higher. Thereafter, the minimum wage established by this subsection shall be increased each year by $1.00 per hour, effective January 1 of each of the next three years, until it reaches $12.00 per hour, effective January 1, 2022. Thereafter, the minimum wage established by this subsection shall be increased or decreased on January 1, 2023, and on January 1 of successive years, per the method set forth in subsection (2) of this section. If at any time the federal minimum wage rate is above or is thereafter increased above the minimum wage then in effect under this subsection, the minimum wage required by this subsection shall continue to be increased pursuant to this subsection (3), but the higher federal rate shall immediately become the minimum wage required by this subsection and shall be increased or decreased per the method set forth in subsection (2) for so long as it remains higher than the state minimum wage required and increased pursuant to this subsection.

4. For purposes of this section, the term "public employer" means an employer that is the state or a political subdivision of the state, including a department, agency, officer, bureau, division, board, commission, or instrumentality of the state, or a city, county, town, village, school district, or other political subdivision of the state. Subsection (3) of this section shall not apply to a public employer with respect to its employees. Any public employer that is subject to subsections (1) and (2) of this section shall continue to be subject to those subsections.

290.512. 1. [No] Except as provided in subsection (2) of this section, no employer of any employee who receives and retains compensation in the form of gratuities in addition to wages is required to pay wages in excess of fifty percent of the minimum wage rate specified in sections 290.500 to 290.530, however, total compensation for such employee shall total at least the minimum wage specified in sections 290.500 to 290.530, the difference being made up by the employer.

2. Beginning January 1, 2019 and effective on the dates set forth below in this subsection, and notwithstanding the percentage established in subsection (1) of this section, no employer of any employee who receives and retains compensation in the form of gratuities in addition to wages is required to pay wages in excess of the percent set forth below in this subsection of the minimum wage rate specified in subsection (3) of section 290.502 or, where applicable, the minimum wage rate otherwise specified in sections 290.500 to 290.530:

(1) fifty-one percent, effective January 1, 2019;
(2) fifty-three, effective January 1, 2020;
(3) fifty-five percent, effective January 1, 2021;
(4) fifty-seven percent, effective January 1, 2022;
(5) fifty-eight percent, effective January 1, 2023;
(6) sixty percent, effective January 1, 2024;

however, in all cases, total compensation for such employee shall total at least the minimum wage specified in subsection (3) of section 290.502 or, where applicable, the minimum wage rate otherwise specified in sections 290.500 to 290.530, the difference being made up by the employer.

3. For purposes of this section, the term "public employer" means an employer that is the state or a political subdivision of the state, including a department, agency, officer, bureau, division, board, commission, or instrumentality of the state, or a city, county, town, village, school district, or other political subdivision of the state. Subsection (2) of this section shall not apply to a public employer with respect to its employees. Any public employer that is subject to subsection (1) of this section shall continue to be subject to that subsection at

the percentage set forth therein of the minimum wage rate specified in subsections (1) and (2) of section 290.502 or, where applicable, the minimum wage rate otherwise specified in sections 290.500 to 290.530.

18-027

[2.] 4. If an employee receives and retains compensation in the form of goods or services as an incident of his employment and if he is not required to exercise any discretion in order to receive the goods or services, the employer is required to pay only the difference between the fair market value of the goods and services and the minimum wage otherwise required to be paid by sections 290.500 to 290.530. The fair market value of the goods and services shall be computed on a weekly basis. The director shall provide by regulation a method of valuing the goods and services received by any employee in lieu of the wages otherwise required to be paid under the provisions of sections 290.500 to 290.530. He shall also provide by regulation a method of determining those types of goods and services that are an incident of employment the receipt of which does not require any discretion on the part of the employee.

290.527. Any employer who pays any employee less wages than the wages to which the employee is entitled under or by virtue of sections 290.500 to 290.530 shall be liable to the employee affected for the full amount of the wage rate and an additional [equal] amount equal to twice the unpaid wages as liquidated damages, less any amount actually paid to the employee by the employer and for costs and such reasonable attorney fees as may be allowed by the court or jury. The employee may bring any legal action necessary to collect the claim. Any agreement between the employee and the employer to work for less than the wage rate shall be no defense to the action. All actions for the collection of any deficiency in wages shall be commenced within [two] three years of the accrual of the cause of action.

290.529. Except in the circumstances set forth in section 290.523, all the provisions of sections 290.500 to 290.530 are severable. If any provision, including any section, subsection, subdivision, paragraph, sentence, or clause, of sections 290.500 to 290.530, or the application thereof to any person or circumstance, is found by a court of competent jurisdiction to be invalid, unconstitutional, or unconstitutionally enacted, such decision shall not affect other provisions or applications of sections 290.500 to 290.530 that can be given effect without the invalid, unconstitutional, or unconstitutionally enacted provision or application.

18-026

Be it enacted by the people of the state of Missouri:

Sections 290.502, 290.512, and 290.527 of the Revised Statutes of Missouri are amended and a new section to be known as section 290.529 is enacted to read as follows:

290.502. 1. Except as may be otherwise provided pursuant to sections 290.500 to 290.530, effective January 1, 2007, every employer shall pay to each employee wages at the rate of $6.50 per hour, or wages at the same rate or rates set under the provisions of federal law as the prevailing federal minimum wage applicable to those covered jobs in interstate commerce, whichever rate per hour is higher.

2. The minimum wage shall be increased or decreased on January 1, 2008, and on January 1 of successive years, by the increase or decrease in the cost of living. On September 30, 2007, and on each September 30 of each successive year, the director shall measure the increase or decrease in the cost of living by the percentage increase or decrease as of the preceding July over the level as of July of the immediately preceding year of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) or successor index as published by the U.S. Department of Labor or its successor agency, with the amount of the minimum wage increase or decrease rounded to the nearest five cents.

3. Except as may be otherwise provided pursuant to sections 290.500 to 290.530, and notwithstanding subsection (1) of this section, effective January 1, 2019, every employer shall pay to each employee wages at the rate of not less than $9.00 per hour, or wages at the same rate or rates set under the provisions of federal law as the prevailing federal minimum wage applicable to those covered jobs in interstate commerce, whichever rate per hour is higher. Thereafter, the minimum wage established by this subsection shall be increased each year by $1.00 per hour, effective January 1 of each of the next three years, until it reaches $12.00 per hour, effective January 1, 2022. Thereafter, the minimum wage established by this subsection shall be increased or decreased on January 1, 2023, and on January 1 of successive years, per the method set forth in subsection (2) of this section. If at any time the federal minimum wage rate is above or is thereafter increased above the minimum wage then in effect under this subsection, the minimum wage required by this subsection shall continue to be increased pursuant to this subsection (3), but the higher federal rate shall immediately become the minimum wage required by this subsection and shall be increased or decreased per the method set forth in subsection (2) for so long as it remains higher than the state minimum wage required and increased pursuant to this subsection.

4. For purposes of this section, the term "public employer" means an employer that is the state or a political subdivision of the state, including a department, agency, officer, bureau, division, board, commission, or instrumentality of the state, or a city, county, town, village, school district, or other political subdivision of the state. Subsection (3) of this section shall not apply to a public employer with respect to its employees. Any public employer that is subject to subsections (1) and (2) of this section shall continue to be subject to those subsections.

290.512. 1. [No] Except as provided in subsection (2) of this section, no employer of any employee who receives and retains compensation in the form of gratuities in addition to wages is required to pay wages in excess of fifty percent of the minimum wage rate specified in sections 290.500 to 290.530, however, total compensation for such employee shall total at least the minimum wage specified in sections 290.500 to 290.530, the difference being made up by the employer.

2. Beginning January 1, 2019 and effective on the dates set forth below in this subsection, and notwithstanding the percentage established in subsection (1) of this section, no employer of any employee who receives and retains compensation in the form of gratuities in addition to wages is required to pay wages in excess of the percent set forth below in this subsection of the minimum wage rate specified in subsection (3) of section 290.502 or, where applicable, the minimum wage rate otherwise specified in sections 290.500 to 290.530:

(1) fifty-five percent, effective January 1, 2019;
(2) sixty percent, effective January 1, 2020;
(3) sixty-five percent, effective January 1, 2021;
(4) seventy percent, effective January 1, 2022;
(5) seventy-five percent, effective January 1, 2023;
(6) eighty percent, effective January 1, 2024;
(7) eighty-five percent, effective January 1, 2025;
(8) ninety percent, effective January 1, 2026;
(9) ninety-five percent; effective January 1, 2027;
(10) one hundred percent, effective January 1, 2028;

however, in all cases, total compensation for such employee shall total at least the minimum wage specified in subsection (3) of section 290.502 or, where applicable, the minimum wage rate otherwise specified in sections 290.500 to 290.530, the difference being made up by the employer.

3. For purposes of this section, the term "public employer" means an employer that is the state or a political subdivision of the state, including a department, agency, officer, bureau, division, board, commission, or instrumentality of the state, or a city, county, town, village, school district, or other political subdivision of the state. Subsection (2) of this section shall not apply to a public employer with respect to its employees. Any public employer that is subject to subsection (1) of this section shall continue to be subject to that subsection at the percentage set forth therein of the minimum wage rate specified in subsections (1) and (2) of section 290.502 or, where applicable, the minimum wage rate otherwise specified in sections 290.500 to 290.530.

18-026

[2.] 4. If an employee receives and retains compensation in the form of goods or services as an incident of his employment and if he is not required to exercise any discretion in order to receive the goods or services, the employer is required to pay only the difference between the fair market value of the goods and services and the minimum wage otherwise required to be paid by sections 290.500 to 290.530. The fair market value of the goods and services shall be computed on a weekly basis. The director shall provide by regulation a method of valuing the goods and services received by any employee in lieu of the wages otherwise required to be paid under the provisions of sections 290.500 to 290.530. He shall also provide by regulation a method of determining those types of goods and services that are an incident of employment the receipt of which does not require any discretion on the part of the employee.

290.527. Any employer who pays any employee less wages than the wages to which the employee is entitled under or by virtue of sections 290.500 to 290.530 shall be liable to the employee affected for the full amount of the wage rate and an additional [equal] amount equal to twice the unpaid wages as liquidated damages, less any amount actually paid to the employee by the employer and for costs and such reasonable attorney fees as may be allowed by the court or jury. The employee may bring any legal action necessary to collect the claim. Any agreement between the employee and the employer to work for less than the wage rate shall be no defense to the action. All actions for the collection of any deficiency in wages shall be commenced within [two] three years of the accrual of the cause of action.

290.529. Except in the circumstances set forth in section 290.523, all the provisions of sections 290.500 to 290.530 are severable. If any provision, including any section, subsection, subdivision, paragraph, sentence, or clause, of sections 290.500 to 290.530, or the application thereof to any person or circumstance, is found by a court of competent jurisdiction to be invalid, unconstitutional, or unconstitutionally enacted, such decision shall not affect other provisions or applications of sections 290.500 to 290.530 that can be given effect without the invalid, unconstitutional, or unconstitutionally enacted provision or application.

Be it enacted by the people of the state of Missouri:

18-025

Sections 290.502, 290.512, and 290.527 of the Revised Statutes of Missouri are amended and a new section to be known as section 290.529 is enacted to read as follows:

290.502. 1. Except as may be otherwise provided pursuant to sections 290.500 to 290.530, effective January 1, 2007, every employer shall pay to each employee wages at the rate of $6.50 per hour, or wages at the same rate or rates set under the provisions of federal law as the prevailing federal minimum wage applicable to those covered jobs in interstate commerce, whichever rate per hour is higher.

2. The minimum wage shall be increased or decreased on January 1, 2008, and on January 1 of successive years, by the increase or decrease in the cost of living. On September 30, 2007, and on each September 30 of each successive year, the director shall measure the increase or decrease in the cost of living by the percentage increase or decrease as of the preceding July over the level as of July of the immediately preceding year of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) or successor index as published by the U.S. Department of Labor or its successor agency, with the amount of the minimum wage increase or decrease rounded to the nearest five cents.

3. Except as may be otherwise provided pursuant to sections 290.500 to 290.530, and notwithstanding subsection (1) of this section, effective January 1, 2019, every employer shall pay to each employee wages at the rate of not less than $9.00 per hour, or wages at the same rate or rates set under the provisions of federal law as the prevailing federal minimum wage applicable to those covered jobs in interstate commerce, whichever rate per hour is higher. Thereafter, the minimum wage established by this subsection shall be increased each year by $1.00 per hour, effective January 1 of each of the next four years, until it reaches $13.00 per hour, effective January 1, 2023. Thereafter, the minimum wage established by this subsection shall be increased or decreased on January 1, 2024, and on January 1 of successive years, per the method set forth in subsection (2) of this section. If at any time the federal minimum wage rate is above or is thereafter increased above the minimum wage then in effect under this subsection, the minimum wage required by this subsection shall continue to be increased pursuant to this subsection (3), but the higher federal rate shall immediately become the minimum wage required by this subsection and shall be increased or decreased per the method set forth in subsection (2) for so long as it remains higher than the state minimum wage required and increased pursuant to this subsection.

4. For purposes of this section, the term "public employer" means an employer that is the state or a political subdivision of the state, including a department, agency, officer, bureau, division, board, commission, or instrumentality of the state, or a city, county, town, village, school district, or other political subdivision of the state. Subsection (3) of this section shall not apply to a public employer with respect to its employees. Any public employer that is subject to subsections (1) and (2) of this section shall continue to be subject to those subsections.

290.512. 1. [No] Except as provided in subsection (2) of this section, no employer of any employee who receives and retains compensation in the form of gratuities in addition to wages is required to pay wages in excess of fifty percent of the minimum wage rate specified in sections 290.500 to 290.530, however, total compensation for such employee shall total at least the minimum wage specified in sections 290.500 to 290.530, the difference being made up by the employer.

2. Beginning January 1, 2019 and effective on the dates set forth below in this subsection, and notwithstanding the percentage established in subsection (1) of this section, no employer of any employee who receives and retains compensation in the form of gratuities in addition to wages is required to pay wages in excess of the percent set forth below in this subsection of the minimum wage rate specified in subsection (3) of section 290.502 or, where applicable, the minimum wage rate otherwise specified in sections 290.500 to 290.530:

(1) fifty-one percent, effective January 1, 2019;
(2) fifty-three, effective January 1, 2020;
(3) fifty-five percent, effective January 1, 2021;
(4) fifty-seven percent, effective January 1, 2022;
(5) fifty-eight percent, effective January 1, 2023;
(6) sixty percent, effective January 1, 2024;

however, in all cases, total compensation for such employee shall total at least the minimum wage specified in subsection (3) of section 290.502 or, where applicable, the minimum wage rate otherwise specified in sections 290.500 to 290.530, the difference being made up by the employer.

3. For purposes of this section, the term "public employer" means an employer that is the state or a political subdivision of the state, including a department, agency, officer, bureau, division, board, commission, or instrumentality of the state, or a city, county, town, village, school district, or other political subdivision of the state. Subsection (2) of this section shall not apply to a public employer with respect to its employees. Any public employer that is subject to subsection (1) of this section shall continue to be subject to that subsection at

the percentage set forth therein of the minimum wage rate specified in subsections (1) and (2) of section 290.502 or, where applicable, the minimum wage rate otherwise specified in sections 290.500 to 290.530.

18-025

[2.] 4. If an employee receives and retains compensation in the form of goods or services as an incident of his employment and if he is not required to exercise any discretion in order to receive the goods or services, the employer is required to pay only the difference between the fair market value of the goods and services and the minimum wage otherwise required to be paid by sections 290.500 to 290.530. The fair market value of the goods and services shall be computed on a weekly basis. The director shall provide by regulation a method of valuing the goods and services received by any employee in lieu of the wages otherwise required to be paid under the provisions of sections 290.500 to 290.530. He shall also provide by regulation a method of determining those types of goods and services that are an incident of employment the receipt of which does not require any discretion on the part of the employee.

290.527. Any employer who pays any employee less wages than the wages to which the employee is entitled under or by virtue of sections 290.500 to 290.530 shall be liable to the employee affected for the full amount of the wage rate and an additional [equal] amount equal to twice the unpaid wages as liquidated damages, less any amount actually paid to the employee by the employer and for costs and such reasonable attorney fees as may be allowed by the court or jury. The employee may bring any legal action necessary to collect the claim. Any agreement between the employee and the employer to work for less than the wage rate shall be no defense to the action. All actions for the collection of any deficiency in wages shall be commenced within [two] three years of the accrual of the cause of action.

290.529. Except in the circumstances set forth in section 290.523, all the provisions of sections 290.500 to 290.530 are severable. If any provision, including any section, subsection, subdivision, paragraph, sentence, or clause, of sections 290.500 to 290.530, or the application thereof to any person or circumstance, is found by a court of competent jurisdiction to be invalid, unconstitutional, or unconstitutionally enacted, such decision shall not affect other provisions or applications of sections 290.500 to 290.530 that can be given effect without the invalid, unconstitutional, or unconstitutionally enacted provision or application.

State Capitol Building
Jefferson City, MO 65101

RE: Petition approval request from Richard Von Glahn regarding a proposed statutory amendment to Chapter 290, version 9 (2018-024)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Richard Von Glahn on November 14, 2016.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

Jason Kander

Be it enacted by the people of the state of Missouri:

Sections 290.502, 290.512, and 290.527 of the Revised Statutes of Missouri are amended and a new section to be known as section 290.529 is enacted to read as follows:

290.502. 1. Except as may be otherwise provided pursuant to sections 290.500 to 290.530, effective January 1, 2007, every employer shall pay to each employee wages at the rate of $6.50 per hour, or wages at the same rate or rates set under the provisions of federal law as the prevailing federal minimum wage applicable to those covered jobs in interstate commerce, whichever rate per hour is higher.

2. The minimum wage shall be increased or decreased on January 1, 2008, and on January 1 of successive years, by the increase or decrease in the cost of living. On September 30, 2007, and on each September 30 of each successive year, the director shall measure the increase or decrease in the cost of living by the percentage increase or decrease as of the preceding July over the level as of July of the immediately preceding year of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) or successor index as published by the U.S. Department of Labor or its successor agency, with the amount of the minimum wage increase or decrease rounded to the nearest five cents.

3. Except as may be otherwise provided pursuant to sections 290.500 to 290.530, and notwithstanding subsection (1) of this section, effective January 1, 2019, every employer shall pay to each employee wages at the rate of not less than $9.00 per hour, or wages at the same rate or rates set under the provisions of federal law as the prevailing federal minimum wage applicable to those covered jobs in interstate commerce, whichever rate per hour is higher. Thereafter, the minimum wage established by this subsection shall be increased each year by $1.00 per hour, effective January 1 of each of the next four years, until it reaches $13.00 per hour, effective January 1, 2023. Thereafter, the minimum wage established by this subsection shall be increased or decreased on January 1, 2024, and on January 1 of successive years, per the method set forth in subsection (2) of this section. If at any time the federal minimum wage rate is above or is thereafter increased above the minimum wage then in effect under this subsection, the minimum wage required by this subsection shall continue to be increased pursuant to this subsection (3), but the higher federal rate shall immediately become the minimum wage required by this subsection and shall be increased or decreased per the method set forth in subsection (2) for so long as it remains higher than the state minimum wage required and increased pursuant to this subsection.

4. For purposes of this section, the term "public employer" means an employer that is the state or a political subdivision of the state, including a department, agency, officer, bureau, division, board, commission, or instrumentality of the state, or a city, county, town, village, school district, or other political subdivision of the state. Subsection (3) of this section shall not apply to a public employer with respect to its employees. Any public employer that is subject to subsections (1) and (2) of this section shall continue to be subject to those subsections.

290.512. 1. [No] Except as provided in subsection (2) of this section, no employer of any employee who receives and retains compensation in the form of gratuities in addition to wages is required to pay wages in excess of fifty percent of the minimum wage rate specified in sections 290.500 to 290.530, however, total compensation for such employee shall total at least the minimum wage specified in sections 290.500 to 290.530, the difference being made up by the employer.

2. Beginning January 1, 2019 and effective on the dates set forth below in this subsection, and notwithstanding the percentage established in subsection (1) of this section, no employer of any employee who receives and retains compensation in the form of gratuities in addition to wages is required to pay wages in excess of the percent set forth below in this subsection of the minimum wage rate specified in subsection (3) of section 290.502 or, where applicable, the minimum wage rate otherwise specified in sections 290.500 to 290.530:

(1) fifty-five percent, effective January 1, 2019;
(2) sixty percent, effective January 1, 2020;
(3) sixty-five percent, effective January 1, 2021;
(4) seventy percent, effective January 1, 2022;
(5) seventy-five percent, effective January 1, 2023;
(6) eighty percent, effective January 1, 2024;
(7) eighty-five percent, effective January 1, 2025;
(8) ninety percent, effective January 1, 2026;
(9) ninety-five percent; effective January 1, 2027;
(10) one hundred percent, effective January 1, 2028;

however, in all cases, total compensation for such employee shall total at least the minimum wage specified in subsection (3) of section 290.502 or, where applicable, the minimum wage rate otherwise specified in sections 290.500 to 290.530, the difference being made up by the employer.

3. For purposes of this section, the term "public employer" means an employer that is the state or a political subdivision of the state, including a department, agency, officer, bureau, division, board, commission, or instrumentality of the state, or a city, county, town, village, school district, or other political subdivision of the state. Subsection (2) of this section shall not apply to a public employer with respect to its employees. Any public employer that is subject to subsection (1) of this section shall continue to be subject to that subsection at the percentage set forth therein of the minimum wage rate specified in subsections (1) and (2) of section 290.502 or, where applicable, the minimum wage rate otherwise specified in sections 290.500 to 290.530.

18-084

[2.] 4. If an employee receives and retains compensation in the form of goods or services as an incident of his employment and if he is not required to exercise any discretion in order to receive the goods or services, the employer is required to pay only the difference between the fair market value of the goods and services and the minimum wage otherwise required to be paid by sections 290.500 to 290.530. The fair market value of the goods and services shall be computed on a weekly basis. The director shall provide by regulation a method of valuing the goods and services received by any employee in lieu of the wages otherwise required to be paid under the provisions of sections 290.500 to 290.530. He shall also provide by regulation a method of determining those types of goods and services that are an incident of employment the receipt of which does not require any discretion on the part of the employee.

290.527. Any employer who pays any employee less wages than the wages to which the employee is entitled under or by virtue of sections 290.500 to 290.530 shall be liable to the employee affected for the full amount of the wage rate and an additional [equal] amount equal to twice the unpaid wages as liquidated damages, less any amount actually paid to the employee by the employer and for costs and such reasonable attorney fees as may be allowed by the court or jury. The employee may bring any legal action necessary to collect the claim. Any agreement between the employee and the employer to work for less than the wage rate shall be no defense to the action. All actions for the collection of any deficiency in wages shall be commenced within [two] three years of the accrual of the cause of action.

290.529. Except in the circumstances set forth in section 290.523, all the provisions of sections 290.500 to 290.530 are severable. If any provision, including any section, subsection, subdivision, paragraph, sentence, or clause, of sections 290.500 to 290.530, or the application thereof to any person or circumstance, is found by a court of competent jurisdiction to be invalid, unconstitutional, or unconstitutionally enacted, such decision shall not affect other provisions or applications of sections 290.500 to 290.530 that can be given effect without the invalid, unconstitutional, or unconstitutionally enacted provision or application.

Be it enacted by the people of the state of Missouri:

18-023

Sections 290.502, 290.512, and 290.527 of the Revised Statutes of Missouri are amended and a new section to be known as section 290.529 is enacted to read as follows:

290.502. 1. Except as may be otherwise provided pursuant to sections 290.500 to 290.530, effective January 1, 2007, every employer shall pay to each employee wages at the rate of $6.50 per hour, or wages at the same rate or rates set under the provisions of federal law as the prevailing federal minimum wage applicable to those covered jobs in interstate commerce, whichever rate per hour is higher.

2. The minimum wage shall be increased or decreased on January 1, 2008, and on January 1 of successive years, by the increase or decrease in the cost of living. On September 30, 2007, and on each September 30 of each successive year, the director shall measure the increase or decrease in the cost of living by the percentage increase or decrease as of the preceding July over the level as of July of the immediately preceding year of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) or successor index as published by the U.S. Department of Labor or its successor agency, with the amount of the minimum wage increase or decrease rounded to the nearest five cents.

3. Except as may be otherwise provided pursuant to sections 290.500 to 290.530, and notwithstanding subsection (1) of this section, effective January 1, 2019, every employer shall pay to each employee wages at the rate of not less than $9.00 per hour, or wages at the same rate or rates set under the provisions of federal law as the prevailing federal minimum wage applicable to those covered jobs in interstate commerce, whichever rate per hour is higher. Thereafter, the minimum wage established by this subsection shall be increased each year by $1.00 per hour, effective January 1 of each of the next five years, until it reaches $14.00 per hour, effective January 1, 2024. Thereafter, the minimum wage established by this subsection shall be increased or decreased on January 1, 2025, and on January 1 of successive years, per the method set forth in subsection (2) of this section. If at any time the federal minimum wage rate is above or is thereafter increased above the minimum wage then in effect under this subsection, the minimum wage required by this subsection shall continue to be increased pursuant to this subsection (3), but the higher federal rate shall immediately become the minimum wage required by this subsection and shall be increased or decreased per the method set forth in subsection (2) for so long as it remains higher than the state minimum wage required and increased pursuant to this subsection.

4. For purposes of this section, the term "public employer" means an employer that is the state or a political subdivision of the state, including a department, agency, officer, bureau, division, board, commission, or instrumentality of the state, or a city, county, town, village, school district, or other political subdivision of the state. Subsection (3) of this section shall not apply to a public employer with respect to its employees. Any public employer that is subject to subsections (1) and (2) of this section shall continue to be subject to those subsections.

290.512. 1. [No] Except as provided in subsection (2) of this section, no employer of any employee who receives and retains compensation in the form of gratuities in addition to wages is required to pay wages in excess of fifty percent of the minimum wage rate specified in sections 290.500 to 290.530, however, total compensation for such employee shall total at least the minimum wage specified in sections 290.500 to 290.530, the difference being made up by the employer.

2. Beginning January 1, 2019 and effective on the dates set forth below in this subsection, and notwithstanding the percentage established in subsection (1) of this section, no employer of any employee who receives and retains compensation in the form of gratuities in addition to wages is required to pay wages in excess of the percent set forth below in this subsection of the minimum wage rate specified in subsection (3) of section 290.502 or, where applicable, the minimum wage rate otherwise specified in sections 290.500 to 290.530:

(1) fifty-one percent, effective January 1, 2019;
(2) fifty-three, effective January 1, 2020;
(3) fifty-five percent, effective January 1, 2021;
(4) fifty-seven percent, effective January 1, 2022;
(5) fifty-eight percent, effective January 1, 2023;
(6) sixty percent, effective January 1, 2024;

however, in all cases, total compensation for such employee shall total at least the minimum wage specified in subsection (3) of section 290.502 or, where applicable, the minimum wage rate otherwise specified in sections 290.500 to 290.530, the difference being made up by the employer.

3. For purposes of this section, the term "public employer" means an employer that is the state or a political subdivision of the state, including a department, agency, officer, bureau, division, board, commission, or instrumentality of the state, or a city, county, town, village, school district, or other political subdivision of the state. Subsection (2) of this section shall not apply to a public employer with respect to its employees. Any public employer that is subject to subsection (1) of this section shall continue to be subject to that subsection at

the percentage set forth therein of the minimum wage rate specified in subsections (1) and (2) of section 290.502 or, where applicable, the minimum wage rate otherwise specified in sections 290.500 to 290.530.

18-023

[2.] 4. If an employee receives and retains compensation in the form of goods or services as an incident of his employment and if he is not required to exercise any discretion in order to receive the goods or services, the employer is required to pay only the difference between the fair market value of the goods and services and the minimum wage otherwise required to be paid by sections 290.500 to 290.530. The fair market value of the goods and services shall be computed on a weekly basis. The director shall provide by regulation a method of valuing the goods and services received by any employee in lieu of the wages otherwise required to be paid under the provisions of sections 290.500 to 290.530. He shall also provide by regulation a method of determining those types of goods and services that are an incident of employment the receipt of which does not require any discretion on the part of the employee.

290.527. Any employer who pays any employee less wages than the wages to which the employee is entitled under or by virtue of sections 290.500 to 290.530 shall be liable to the employee affected for the full amount of the wage rate and an additional [equal] amount equal to twice the unpaid wages as liquidated damages, less any amount actually paid to the employee by the employer and for costs and such reasonable attorney fees as may be allowed by the court or jury. The employee may bring any legal action necessary to collect the claim. Any agreement between the employee and the employer to work for less than the wage rate shall be no defense to the action. All actions for the collection of any deficiency in wages shall be commenced within [two] three years of the accrual of the cause of action.

290.529. Except in the circumstances set forth in section 290.523, all the provisions of sections 290.500 to 290.530 are severable. If any provision, including any section, subsection, subdivision, paragraph, sentence, or clause, of sections 290.500 to 290.530, or the application thereof to any person or circumstance, is found by a court of competent jurisdiction to be invalid, unconstitutional, or unconstitutionally enacted, such decision shall not affect other provisions or applications of sections 290.500 to 290.530 that can be given effect without the invalid, unconstitutional, or unconstitutionally enacted provision or application.

RE: Petition approval request from Richard Von Glahn regarding a proposed statutory amendment to Chapter 290, version 7 (2018-022)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Richard Von Glahn on November 14, 2016.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

Jason Kander

Be it enacted by the people of the state of Missouri:

18-022

Sections 290.502, 290.512, and 290.527 of the Revised Statutes of Missouri are amended and a new section to be known as section 290.529 is enacted to read as follows:

290.502. 1. Except as may be otherwise provided pursuant to sections 290.500 to 290.530, effective January 1, 2007, every employer shall pay to each employee wages at the rate of $6.50 per hour, or wages at the same rate or rates set under the provisions of federal law as the prevailing federal minimum wage applicable to those covered jobs in interstate commerce, whichever rate per hour is higher.

2. The minimum wage shall be increased or decreased on January 1, 2008, and on January 1 of successive years, by the increase or decrease in the cost of living. On September 30, 2007, and on each September 30 of each successive year, the director shall measure the increase or decrease in the cost of living by the percentage increase or decrease as of the preceding July over the level as of July of the immediately preceding year of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) or successor index as published by the U.S. Department of Labor or its successor agency, with the amount of the minimum wage increase or decrease rounded to the nearest five cents.

3. Except as may be otherwise provided pursuant to sections 290.500 to 290.530, and notwithstanding subsection (1) of this section, effective January 1, 2019, every employer shall pay to each employee wages at the rate of not less than $9.00 per hour, or wages at the same rate or rates set under the provisions of federal law as the prevailing federal minimum wage applicable to those covered jobs in interstate commerce, whichever rate per hour is higher. Thereafter, the minimum wage established by this subsection shall be increased each year by $1.00 per hour, effective January 1 of each of the next five years, until it reaches $14.00 per hour, effective January 1, 2024. Thereafter, the minimum wage established by this subsection shall be increased or decreased on January 1, 2025, and on January 1 of successive years, per the method set forth in subsection (2) of this section. If at any time the federal minimum wage rate is above or is thereafter increased above the minimum wage then in effect under this subsection, the minimum wage required by this subsection shall continue to be increased pursuant to this subsection (3), but the higher federal rate shall immediately become the minimum wage required by this subsection and shall be increased or decreased per the method set forth in subsection (2) for so long as it remains higher than the state minimum wage required and increased pursuant to this subsection.

4. For purposes of this section, the term "public employer" means an employer that is the state or a political subdivision of the state, including a department, agency, officer, bureau, division, board, commission, or instrumentality of the state, or a city, county, town, village, school district, or other political subdivision of the state. Subsection (3) of this section shall not apply to a public employer with respect to its employees. Any public employer that is subject to subsections (1) and (2) of this section shall continue to be subject to those subsections.

290.512. 1. [No] Except as provided in subsection (2) of this section, no employer of any employee who receives and retains compensation in the form of gratuities in addition to wages is required to pay wages in excess of fifty percent of the minimum wage rate specified in sections 290.500 to 290.530, however, total compensation for such employee shall total at least the minimum wage specified in sections 290.500 to 290.530, the difference being made up by the employer.

2. Beginning January 1, 2019 and effective on the dates set forth below in this subsection, and notwithstanding the percentage established in subsection (1) of this section, no employer of any employee who receives and retains compensation in the form of gratuities in addition to wages is required to pay wages in excess of the percent set forth below in this subsection of the minimum wage rate specified in subsection (3) of section 290.502 or, where applicable, the minimum wage rate otherwise specified in sections 290.500 to 290.530:

(1) fifty-five percent, effective January 1, 2019;
(2) sixty percent, effective January 1, 2020;
(3) sixty-five percent, effective January 1, 2021;
(4) seventy percent, effective January 1, 2022;
(5) seventy-five percent, effective January 1, 2023;
(6) eighty percent, effective January 1, 2024;
(7) eighty-five percent, effective January 1, 2025;
(8) ninety percent, effective January 1, 2026;
(9) ninety-five percent; effective January 1, 2027;
(10) one hundred percent, effective January 1, 2028;

however, in all cases, total compensation for such employee shall total at least the minimum wage specified in subsection (3) of section 290.502 or, where applicable, the minimum wage rate otherwise specified in sections 290.500 to 290.530, the difference being made up by the employer.

3. For purposes of this section, the term "public employer" means an employer that is the state or a political subdivision of the state, including a department, agency, officer, bureau, division, board, commission, or instrumentality of the state, or a city, county, town, village, school district, or other political subdivision of the state. Subsection (2) of this section shall not apply to a public employer with respect to its employees. Any public employer that is subject to subsection (1) of this section shall continue to be subject to that subsection at the percentage set forth therein of the minimum wage rate specified in subsections (1) and (2) of section 290.502 or, where applicable, the minimum wage rate otherwise specified in sections 290.500 to 290.530.

18-022

[2.] 4. If an employee receives and retains compensation in the form of goods or services as an incident of his employment and if he is not required to exercise any discretion in order to receive the goods or services, the employer is required to pay only the difference between the fair market value of the goods and services and the minimum wage otherwise required to be paid by sections 290.500 to 290.530. The fair market value of the goods and services shall be computed on a weekly basis. The director shall provide by regulation a method of valuing the goods and services received by any employee in lieu of the wages otherwise required to be paid under the provisions of sections 290.500 to 290.530. He shall also provide by regulation a method of determining those types of goods and services that are an incident of employment the receipt of which does not require any discretion on the part of the employee.

290.527. Any employer who pays any employee less wages than the wages to which the employee is entitled under or by virtue of sections 290.500 to 290.530 shall be liable to the employee affected for the full amount of the wage rate and an additional [equal] amount equal to twice the unpaid wages as liquidated damages, less any amount actually paid to the employee by the employer and for costs and such reasonable attorney fees as may be allowed by the court or jury. The employee may bring any legal action necessary to collect the claim. Any agreement between the employee and the employer to work for less than the wage rate shall be no defense to the action. All actions for the collection of any deficiency in wages shall be commenced within [two] three years of the accrual of the cause of action.

290.529. Except in the circumstances set forth in section 290.523, all the provisions of sections 290.500 to 290.530 are severable. If any provision, including any section, subsection, subdivision, paragraph, sentence, or clause, of sections 290.500 to 290.530, or the application thereof to any person or circumstance, is found by a court of competent jurisdiction to be invalid, unconstitutional, or unconstitutionally enacted, such decision shall not affect other provisions or applications of sections 290.500 to 290.530 that can be given effect without the invalid, unconstitutional, or unconstitutionally enacted provision or application.

Be it enacted by the people of the state of Missouri:

18-021

Sections 290.502, 290.512, and 290.527 of the Revised Statutes of Missouri are amended and a new section to be known as section 290.529 is enacted to read as follows:

290.502. 1. Except as may be otherwise provided pursuant to sections 290.500 to 290.530, effective January 1, 2007, every employer shall pay to each employee wages at the rate of $6.50 per hour, or wages at the same rate or rates set under the provisions of federal law as the prevailing federal minimum wage applicable to those covered jobs in interstate commerce, whichever rate per hour is higher.

2. The minimum wage shall be increased or decreased on January 1, 2008, and on January 1 of successive years, by the increase or decrease in the cost of living. On September 30, 2007, and on each September 30 of each successive year, the director shall measure the increase or decrease in the cost of living by the percentage increase or decrease as of the preceding July over the level as of July of the immediately preceding year of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) or successor index as published by the U.S. Department of Labor or its successor agency, with the amount of the minimum wage increase or decrease rounded to the nearest five cents.

3. Except as may be otherwise provided pursuant to sections 290.500 to 290.530, and notwithstanding subsection (1) of this section, effective January 1, 2019, every employer shall pay to each employee wages at the rate of not less than $9.00 per hour, or wages at the same rate or rates set under the provisions of federal law as the prevailing federal minimum wage applicable to those covered jobs in interstate commerce, whichever rate per hour is higher. Thereafter, the minimum wage established by this subsection shall be increased each year by $.75 per hour, effective January 1 of each of the next eight years, until it reaches $15.00 per hour, effective January 1, 2027. Thereafter, the minimum wage established by this subsection shall be increased or decreased on January 1, 2028, and on January 1 of successive years, per the method set forth in subsection (2) of this section. If at any time the federal minimum wage rate is above or is thereafter increased above the minimum wage then in effect under this subsection, the minimum wage required by this subsection shall continue to be increased pursuant to this subsection (3), but the higher federal rate shall immediately become the minimum wage required by this subsection and shall be increased or decreased per the method set forth in subsection (2) for so long as it remains higher than the state minimum wage required and increased pursuant to this subsection.

4. For purposes of this section, the term "public employer" means an employer that is the state or a political subdivision of the state, including a department, agency, officer, bureau, division, board, commission, or instrumentality of the state, or a city, county, town, village, school district, or other political subdivision of the state. Subsection (3) of this section shall not apply to a public employer with respect to its employees. Any public employer that is subject to subsections (1) and (2) of this section shall continue to be subject to those subsections.

290.512. 1. [No] Except as provided in subsection (2) of this section, no employer of any employee who receives and retains compensation in the form of gratuities in addition to wages is required to pay wages in excess of fifty percent of the minimum wage rate specified in sections 290.500 to 290.530, however, total compensation for such employee shall total at least the minimum wage specified in sections 290.500 to 290.530, the difference being made up by the employer.

2. Beginning January 1, 2019 and effective on the dates set forth below in this subsection, and notwithstanding the percentage established in subsection (1) of this section, no employer of any employee who receives and retains compensation in the form of gratuities in addition to wages is required to pay wages in excess of the percent set forth below in this subsection of the minimum wage rate specified in subsection (3) of section 290.502 or, where applicable, the minimum wage rate otherwise specified in sections 290.500 to 290.530:

(1) fifty-one percent, effective January 1, 2019;
(2) fifty-three, effective January 1, 2020;
(3) fifty-five percent, effective January 1, 2021;
(4) fifty-seven percent, effective January 1, 2022;
(5) fifty-eight percent, effective January 1, 2023;
(6) sixty percent, effective January 1, 2024;

however, in all cases, total compensation for such employee shall total at least the minimum wage specified in subsection (3) of section 290.502 or, where applicable, the minimum wage rate otherwise specified in sections 290.500 to 290.530, the difference being made up by the employer.

3. For purposes of this section, the term "public employer" means an employer that is the state or a political subdivision of the state, including a department, agency, officer, bureau, division, board, commission, or instrumentality of the state, or a city, county, town, village, school district, or other political subdivision of the state. Subsection (2) of this section shall not apply to a public employer with respect to its employees. Any public employer that is subject to subsection (1) of this section shall continue to be subject to that subsection at

the percentage set forth therein of the minimum wage rate specified in subsections (1) and (2) of section 290.502 or, where applicable, the minimum wage rate otherwise specified in sections 290.500 to 290.530.

18-021

[2.] 4. If an employee receives and retains compensation in the form of goods or services as an incident of his employment and if he is not required to exercise any discretion in order to receive the goods or services, the employer is required to pay only the difference between the fair market value of the goods and services and the minimum wage otherwise required to be paid by sections 290.500 to 290.530. The fair market value of the goods and services shall be computed on a weekly basis. The director shall provide by regulation a method of valuing the goods and services received by any employee in lieu of the wages otherwise required to be paid under the provisions of sections 290.500 to 290.530. He shall also provide by regulation a method of determining those types of goods and services that are an incident of employment the receipt of which does not require any discretion on the part of the employee.

290.527. Any employer who pays any employee less wages than the wages to which the employee is entitled under or by virtue of sections 290.500 to 290.530 shall be liable to the employee affected for the full amount of the wage rate and an additional [equal] amount equal to twice the unpaid wages as liquidated damages, less any amount actually paid to the employee by the employer and for costs and such reasonable attorney fees as may be allowed by the court or jury. The employee may bring any legal action necessary to collect the claim. Any agreement between the employee and the employer to work for less than the wage rate shall be no defense to the action. All actions for the collection of any deficiency in wages shall be commenced within [two] three years of the accrual of the cause of action.

290.529. Except in the circumstances set forth in section 290.523, all the provisions of sections 290.500 to 290.530 are severable. If any provision, including any section, subsection, subdivision, paragraph, sentence, or clause, of sections 290.500 to 290.530, or the application thereof to any person or circumstance, is found by a court of competent jurisdiction to be invalid, unconstitutional, or unconstitutionally enacted, such decision shall not affect other provisions or applications of sections 290.500 to 290.530 that can be given effect without the invalid, unconstitutional, or unconstitutionally enacted provision or application.

Be it enacted by the people of the state of Missouri:

18-020

Sections 290.502, 290.512, and 290.527 of the Revised Statutes of Missouri are amended and a new section to be known as section 290.529 is enacted to read as follows:

290.502. 1. Except as may be otherwise provided pursuant to sections 290.500 to 290.530, effective January 1, 2007, every employer shall pay to each employee wages at the rate of $6.50 per hour, or wages at the same rate or rates set under the provisions of federal law as the prevailing federal minimum wage applicable to those covered jobs in interstate commerce, whichever rate per hour is higher.

2. The minimum wage shall be increased or decreased on January 1, 2008, and on January 1 of successive years, by the increase or decrease in the cost of living. On September 30, 2007, and on each September 30 of each successive year, the director shall measure the increase or decrease in the cost of living by the percentage increase or decrease as of the preceding July over the level as of July of the immediately preceding year of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) or successor index as published by the U.S. Department of Labor or its successor agency, with the amount of the minimum wage increase or decrease rounded to the nearest five cents.

3. Except as may be otherwise provided pursuant to sections 290.500 to 290.530, and notwithstanding subsection (1) of this section, effective January 1, 2019, every employer shall pay to each employee wages at the rate of not less than $9.00 per hour, or wages at the same rate or rates set under the provisions of federal law as the prevailing federal minimum wage applicable to those covered jobs in interstate commerce, whichever rate per hour is higher. Thereafter, the minimum wage established by this subsection shall be increased each year by $.75 per hour, effective January 1 of each of the next eight years, until it reaches $15.00 per hour, effective January 1, 2027. Thereafter, the minimum wage established by this subsection shall be increased or decreased on January 1, 2028, and on January 1 of successive years, per the method set forth in subsection (2) of this section. If at any time the federal minimum wage rate is above or is thereafter increased above the minimum wage then in effect under this subsection, the minimum wage required by this subsection shall continue to be increased pursuant to this subsection (3), but the higher federal rate shall immediately become the minimum wage required by this subsection and shall be increased or decreased per the method set forth in subsection (2) for so long as it remains higher than the state minimum wage required and increased pursuant to this subsection.

4. For purposes of this section, the term "public employer" means an employer that is the state or a political subdivision of the state, including a department, agency, officer, bureau, division, board, commission, or instrumentality of the state, or a city, county, town, village, school district, or other political subdivision of the state. Subsection (3) of this section shall not apply to a public employer with respect to its employees. Any public employer that is subject to subsections (1) and (2) of this section shall continue to be subject to those subsections.

290.512. 1. [No] Except as provided in subsection (2) of this section, no employer of any employee who receives and retains compensation in the form of gratuities in addition to wages is required to pay wages in excess of fifty percent of the minimum wage rate specified in sections 290.500 to 290.530, however, total compensation for such employee shall total at least the minimum wage specified in sections 290.500 to 290.530, the difference being made up by the employer.

2. Beginning January 1, 2019 and effective on the dates set forth below in this subsection, and notwithstanding the percentage established in subsection (1) of this section, no employer of any employee who receives and retains compensation in the form of gratuities in addition to wages is required to pay wages in excess of the percent set forth below in this subsection of the minimum wage rate specified in subsection (3) of section 290.502 or, where applicable, the minimum wage rate otherwise specified in sections 290.500 to 290.530:

(1) fifty-five percent, effective January 1, 2019;
(2) sixty percent, effective January 1, 2020;
(3) sixty-five percent, effective January 1, 2021;
(4) seventy percent, effective January 1, 2022;
(5) seventy-five percent, effective January 1, 2023;
(6) eighty percent, effective January 1, 2024;
(7) eighty-five percent, effective January 1, 2025;
(8) ninety percent, effective January 1, 2026;
(9) ninety-five percent; effective January 1, 2027;
(10) one hundred percent, effective January 1, 2028;

however, in all cases, total compensation for such employee shall total at least the minimum wage specified in subsection (3) of section 290.502 or, where applicable, the minimum wage rate otherwise specified in sections 290.500 to 290.530, the difference being made up by the employer.

3. For purposes of this section, the term "public employer" means an employer that is the state or a political subdivision of the state, including a department, agency, officer, bureau, division, board, commission, or instrumentality of the state, or a city, county, town, village, school district, or other political subdivision of the state. Subsection (2) of this section shall not apply to a public employer with respect to its employees. Any public employer that is subject to subsection (1) of this section shall continue to be subject to that subsection at the percentage set forth therein of the minimum wage rate specified in subsections (1) and (2) of section 290.502 or, where applicable, the minimum wage rate otherwise specified in sections 290.500 to 290.530.

18-020

[2.] 4. If an employee receives and retains compensation in the form of goods or services as an incident of his employment and if he is not required to exercise any discretion in order to receive the goods or services, the employer is required to pay only the difference between the fair market value of the goods and services and the minimum wage otherwise required to be paid by sections 290.500 to 290.530. The fair market value of the goods and services shall be computed on a weekly basis. The director shall provide by regulation a method of valuing the goods and services received by any employee in lieu of the wages otherwise required to be paid under the provisions of sections 290.500 to 290.530. He shall also provide by regulation a method of determining those types of goods and services that are an incident of employment the receipt of which does not require any discretion on the part of the employee.

290.527. Any employer who pays any employee less wages than the wages to which the employee is entitled under or by virtue of sections 290.500 to 290.530 shall be liable to the employee affected for the full amount of the wage rate and an additional [equal] amount equal to twice the unpaid wages as liquidated damages, less any amount actually paid to the employee by the employer and for costs and such reasonable attorney fees as may be allowed by the court or jury. The employee may bring any legal action necessary to collect the claim. Any agreement between the employee and the employer to work for less than the wage rate shall be no defense to the action. All actions for the collection of any deficiency in wages shall be commenced within [two] three years of the accrual of the cause of action.

290.529. Except in the circumstances set forth in section 290.523, all the provisions of sections 290.500 to 290.530 are severable. If any provision, including any section, subsection, subdivision, paragraph, sentence, or clause, of sections 290.500 to 290.530, or the application thereof to any person or circumstance, is found by a court of competent jurisdiction to be invalid, unconstitutional, or unconstitutionally enacted, such decision shall not affect other provisions or applications of sections 290.500 to 290.530 that can be given effect without the invalid, unconstitutional, or unconstitutionally enacted provision or application.

RE: Petition approval request from Richard Von Glahn regarding a proposed statutory amendment to Chapter 290, version 4 (2018-019)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Richard Von Glahn on November 14, 2016.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

Jason Kander

Be it enacted by the people of the state of Missouri:

18-019

Sections 290.502, 290.512, and 290.527 of the Revised Statutes of Missouri are amended and a new section to be known as section 290.529 is enacted to read as follows:

290.502. 1. Except as may be otherwise provided pursuant to sections 290.500 to 290.530, effective January 1, 2007, every employer shall pay to each employee wages at the rate of $6.50 per hour, or wages at the same rate or rates set under the provisions of federal law as the prevailing federal minimum wage applicable to those covered jobs in interstate commerce, whichever rate per hour is higher.

2. The minimum wage shall be increased or decreased on January 1, 2008, and on January 1 of successive years, by the increase or decrease in the cost of living. On September 30, 2007, and on each September 30 of each successive year, the director shall measure the increase or decrease in the cost of living by the percentage increase or decrease as of the preceding July over the level as of July of the immediately preceding year of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) or successor index as published by the U.S. Department of Labor or its successor agency, with the amount of the minimum wage increase or decrease rounded to the nearest five cents.

3. Except as may be otherwise provided pursuant to sections 290.500 to 290.530, and notwithstanding subsection (1) of this section, effective January 1, 2019, every employer shall pay to each employee wages at the rate of not less than $9.05 per hour, or wages at the same rate or rates set under the provisions of federal law as the prevailing federal minimum wage applicable to those covered jobs in interstate commerce, whichever rate per hour is higher. Thereafter, the minimum wage established by this subsection shall be increased each year by $.85 per hour, effective January 1 of each of the next seven years, until it reaches $15.00 per hour, effective January 1, 2026. Thereafter, the minimum wage established by this subsection shall be increased or decreased on January 1, 2027, and on January 1 of successive years, per the method set forth in subsection (2) of this section. If at any time the federal minimum wage rate is above or is thereafter increased above the minimum wage then in effect under this subsection, the minimum wage required by this subsection shall continue to be increased pursuant to this subsection (3), but the higher federal rate shall immediately become the minimum wage required by this subsection and shall be increased or decreased per the method set forth in subsection (2) for so long as it remains higher than the state minimum wage required and increased pursuant to this subsection.

4. For purposes of this section, the term "public employer" means an employer that is the state or a political subdivision of the state, including a department, agency, officer, bureau, division, board, commission, or instrumentality of the state, or a city, county, town, village, school district, or other political subdivision of the state. Subsection (3) of this section shall not apply to a public employer with respect to its employees. Any public employer that is subject to subsections (1) and (2) of this section shall continue to be subject to those subsections.

290.512. 1. [No] Except as provided in subsection (2) of this section, no employer of any employee who receives and retains compensation in the form of gratuities in addition to wages is required to pay wages in excess of fifty percent of the minimum wage rate specified in sections 290.500 to 290.530, however, total compensation for such employee shall total at least the minimum wage specified in sections 290.500 to 290.530, the difference being made up by the employer.

2. Beginning January 1, 2019 and effective on the dates set forth below in this subsection, and notwithstanding the percentage established in subsection (1) of this section, no employer of any employee who receives and retains compensation in the form of gratuities in addition to wages is required to pay wages in excess of the percent set forth below in this subsection of the minimum wage rate specified in subsection (3) of section 290.502 or, where applicable, the minimum wage rate otherwise specified in sections 290.500 to 290.530:

(1) fifty-one percent, effective January 1, 2019;
(2) fifty-three, effective January 1, 2020;
(3) fifty-five percent, effective January 1, 2021;
(4) fifty-seven percent, effective January 1, 2022;
(5) fifty-eight percent, effective January 1, 2023;
(6) sixty percent, effective January 1, 2024;

however, in all cases, total compensation for such employee shall total at least the minimum wage specified in subsection (3) of section 290.502 or, where applicable, the minimum wage rate otherwise specified in sections 290.500 to 290.530, the difference being made up by the employer.

3. For purposes of this section, the term "public employer" means an employer that is the state or a political subdivision of the state, including a department, agency, officer, bureau, division, board, commission, or instrumentality of the state, or a city, county, town, village, school district, or other political subdivision of the state. Subsection (2) of this section shall not apply to a public employer with respect to its employees. Any public employer that is subject to subsection (1) of this section shall continue to be subject to that subsection at

the percentage set forth therein of the minimum wage rate specified in subsections (1) and (2) of section 290.502 or, where applicable, the minimum wage rate otherwise specified in sections 290.500 to 290.530.

18-019

[2.] 4. If an employee receives and retains compensation in the form of goods or services as an incident of his employment and if he is not required to exercise any discretion in order to receive the goods or services, the employer is required to pay only the difference between the fair market value of the goods and services and the minimum wage otherwise required to be paid by sections 290.500 to 290.530. The fair market value of the goods and services shall be computed on a weekly basis. The director shall provide by regulation a method of valuing the goods and services received by any employee in lieu of the wages otherwise required to be paid under the provisions of sections 290.500 to 290.530. He shall also provide by regulation a method of determining those types of goods and services that are an incident of employment the receipt of which does not require any discretion on the part of the employee.

290.527. Any employer who pays any employee less wages than the wages to which the employee is entitled under or by virtue of sections 290.500 to 290.530 shall be liable to the employee affected for the full amount of the wage rate and an additional [equal] amount equal to twice the unpaid wages as liquidated damages, less any amount actually paid to the employee by the employer and for costs and such reasonable attorney fees as may be allowed by the court or jury. The employee may bring any legal action necessary to collect the claim. Any agreement between the employee and the employer to work for less than the wage rate shall be no defense to the action. All actions for the collection of any deficiency in wages shall be commenced within [two] three years of the accrual of the cause of action.

290.529. Except in the circumstances set forth in section 290.523, all the provisions of sections 290.500 to 290.530 are severable. If any provision, including any section, subsection, subdivision, paragraph, sentence, or clause, of sections 290.500 to 290.530, or the application thereof to any person or circumstance, is found by a court of competent jurisdiction to be invalid, unconstitutional, or unconstitutionally enacted, such decision shall not affect other provisions or applications of sections 290.500 to 290.530 that can be given effect without the invalid, unconstitutional, or unconstitutionally enacted provision or application.

Be it enacted by the people of the state of Missouri:

Sections 290.502, 290.512, and 290.527 of the Revised Statutes of Missouri are amended and a new section to be known as section 290.529 is enacted to read as follows:

290.502. 1. Except as may be otherwise provided pursuant to sections 290.500 to 290.530, effective January 1, 2007, every employer shall pay to each employee wages at the rate of $6.50 per hour, or wages at the same rate or rates set under the provisions of federal law as the prevailing federal minimum wage applicable to those covered jobs in interstate commerce, whichever rate per hour is higher.

2. The minimum wage shall be increased or decreased on January 1, 2008, and on January 1 of successive years, by the increase or decrease in the cost of living. On September 30, 2007, and on each September 30 of each successive year, the director shall measure the increase or decrease in the cost of living by the percentage increase or decrease as of the preceding July over the level as of July of the immediately preceding year of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) or successor index as published by the U.S. Department of Labor or its successor agency, with the amount of the minimum wage increase or decrease rounded to the nearest five cents.

3. Except as may be otherwise provided pursuant to sections 290.500 to 290.530, and notwithstanding subsection (1) of this section, effective January 1, 2019, every employer shall pay to each employee wages at the rate of not less than $9.05 per hour, or wages at the same rate or rates set under the provisions of federal law as the prevailing federal minimum wage applicable to those covered jobs in interstate commerce, whichever rate per hour is higher. Thereafter, the minimum wage established by this subsection shall be increased each year by $.85 per hour, effective January 1 of each of the next seven years, until it reaches $15.00 per hour, effective January 1, 2026. Thereafter, the minimum wage established by this subsection shall be increased or decreased on January 1, 2027, and on January 1 of successive years, per the method set forth in subsection (2) of this section. If at any time the federal minimum wage rate is above or is thereafter increased above the minimum wage then in effect under this subsection, the minimum wage required by this subsection shall continue to be increased pursuant to this subsection (3), but the higher federal rate shall immediately become the minimum wage required by this subsection and shall be increased or decreased per the method set forth in subsection (2) for so long as it remains higher than the state minimum wage required and increased pursuant to this subsection.

4. For purposes of this section, the term "public employer" means an employer that is the state or a political subdivision of the state, including a department, agency, officer, bureau, division, board, commission, or instrumentality of the state, or a city, county, town, village, school district, or other political subdivision of the state. Subsection (3) of this section shall not apply to a public employer with respect to its employees. Any public employer that is subject to subsections (1) and (2) of this section shall continue to be subject to those subsections.

290.512. 1. [No] Except as provided in subsection (2) of this section, no employer of any employee who receives and retains compensation in the form of gratuities in addition to wages is required to pay wages in excess of fifty percent of the minimum wage rate specified in sections 290.500 to 290.530, however, total compensation for such employee shall total at least the minimum wage specified in sections 290.500 to 290.530, the difference being made up by the employer.

2. Beginning January 1, 2019 and effective on the dates set forth below in this subsection, and notwithstanding the percentage established in subsection (1) of this section, no employer of any employee who receives and retains compensation in the form of gratuities in addition to wages is required to pay wages in excess of the percent set forth below in this subsection of the minimum wage rate specified in subsection (3) of section 290.502 or, where applicable, the minimum wage rate otherwise specified in sections 290.500 to 290.530:

(1) fifty-five percent, effective January 1, 2019;
(2) sixty percent, effective January 1, 2020;
(3) sixty-five percent, effective January 1, 2021;
(4) seventy percent, effective January 1, 2022;
(5) seventy-five percent, effective January 1, 2023;
(6) eighty percent, effective January 1, 2024;
(7) eighty-five percent, effective January 1, 2025;
(8) ninety percent, effective January 1, 2026;
(9) ninety-five percent; effective January 1, 2027;
(10) one hundred percent, effective January 1, 2028;

however, in all cases, total compensation for such employee shall total at least the minimum wage specified in subsection (3) of section 290.502 or, where applicable, the minimum wage rate otherwise specified in sections 290.500 to 290.530, the difference being made up by the employer.

18-018

3. For purposes of this section, the term "public employer" means an employer that is the state or a political subdivision of the state, including a department, agency, officer, bureau, division, board, commission, or instrumentality of the state, or a city, county, town, village, school district, or other political subdivision of the state. Subsection (2) of this section shall not apply to a public employer with respect to its employees. Any public employer that is subject to subsection (1) of this section shall continue to be subject to that subsection at the percentage set forth therein of the minimum wage rate specified in subsections (1) and (2) of section 290.502 or, where applicable, the minimum wage rate otherwise specified in sections 290.500 to 290.530.

[2.] 4. If an employee receives and retains compensation in the form of goods or services as an incident of his employment and if he is not required to exercise any discretion in order to receive the goods or services, the employer is required to pay only the difference between the fair market value of the goods and services and the minimum wage otherwise required to be paid by sections 290.500 to 290.530. The fair market value of the goods and services shall be computed on a weekly basis. The director shall provide by regulation a method of valuing the goods and services received by any employee in lieu of the wages otherwise required to be paid under the provisions of sections 290.500 to 290.530. He shall also provide by regulation a method of determining those types of goods and services that are an incident of employment the receipt of which does not require any discretion on the part of the employee.

290.527. Any employer who pays any employee less wages than the wages to which the employee is entitled under or by virtue of sections 290.500 to 290.530 shall be liable to the employee affected for the full amount of the wage rate and an additional [equal] amount equal to twice the unpaid wages as liquidated damages, less any amount actually paid to the employee by the employer and for costs and such reasonable attorney fees as may be allowed by the court or jury. The employee may bring any legal action necessary to collect the claim. Any agreement between the employee and the employer to work for less than the wage rate shall be no defense to the action. All actions for the collection of any deficiency in wages shall be commenced within [two] three years of the accrual of the cause of action.

290.529. Except in the circumstances set forth in section 290.523, all the provisions of sections 290.500 to 290.530 are severable. If any provision, including any section, subsection, subdivision, paragraph, sentence, or clause, of sections 290.500 to 290.530, or the application thereof to any person or circumstance, is found by a court of competent jurisdiction to be invalid, unconstitutional, or unconstitutionally enacted, such decision shall not affect other provisions or applications of sections 290.500 to 290.530 that can be given effect without the invalid, unconstitutional, or unconstitutionally enacted provision or application.

18-017

Be it enacted by the people of the state of Missouri:

Sections 290.502, 290.512, and 290.527 of the Revised Statutes of Missouri are amended and a new section to be known as section 290.529 is enacted to read as follows:

290.502. 1. Except as may be otherwise provided pursuant to sections 290.500 to 290.530, effective January 1, 2007, every employer shall pay to each employee wages at the rate of $6.50 per hour, or wages at the same rate or rates set under the provisions of federal law as the prevailing federal minimum wage applicable to those covered jobs in interstate commerce, whichever rate per hour is higher.

2. The minimum wage shall be increased or decreased on January 1, 2008, and on January 1 of successive years, by the increase or decrease in the cost of living. On September 30, 2007, and on each September 30 of each successive year, the director shall measure the increase or decrease in the cost of living by the percentage increase or decrease as of the preceding July over the level as of July of the immediately preceding year of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) or successor index as published by the U.S. Department of Labor or its successor agency, with the amount of the minimum wage increase or decrease rounded to the nearest five cents.

3. Except as may be otherwise provided pursuant to sections 290.500 to 290.530, and notwithstanding subsection (1) of this section, effective January 1, 2019, every employer shall pay to each employee wages at the rate of not less than $8.00 per hour, or wages at the same rate or rates set under the provisions of federal law as the prevailing federal minimum wage applicable to those covered jobs in interstate commerce, whichever rate per hour is higher. Thereafter, the minimum wage established by this subsection shall be increased each year by $1.00 per hour, effective January 1 of each of the next seven years, until it reaches $15.00 per hour, effective January 1, 2026. Thereafter, the minimum wage established by this subsection shall be increased or decreased on January 1, 2027, and on January 1 of successive years, per the method set forth in subsection (2) of this section. If at any time the federal minimum wage rate is above or is thereafter increased above the minimum wage then in effect under this subsection, the minimum wage required by this subsection shall continue to be increased pursuant to this subsection (3), but the higher federal rate shall immediately become the minimum wage required by this subsection and shall be increased or decreased per the method set forth in subsection (2) for so long as it remains higher than the state minimum wage required and increased pursuant to this subsection.

4. For purposes of this section, the term "public employer" means an employer that is the state or a political subdivision of the state, including a department, agency, officer, bureau, division, board, commission, or instrumentality of the state, or a city, county, town, village, school district, or other political subdivision of the state. Subsection (3) of this section shall not apply to a public employer with respect to its employees. Any public employer that is subject to subsections (1) and (2) of this section shall continue to be subject to those subsections.

290.512. 1. [No] Except as provided in subsection (2) of this section, no employer of any employee who receives and retains compensation in the form of gratuities in addition to wages is required to pay wages in excess of fifty percent of the minimum wage rate specified in sections 290.500 to 290.530, however, total compensation for such employee shall total at least the minimum wage specified in sections 290.500 to 290.530, the difference being made up by the employer.

2. Beginning January 1, 2019 and effective on the dates set forth below in this subsection, and notwithstanding the percentage established in subsection (1) of this section, no employer of any employee who receives and retains compensation in the form of gratuities in addition to wages is required to pay wages in excess of the percent set forth below in this subsection of the minimum wage rate specified in subsection (3) of section 290.502 or, where applicable, the minimum wage rate otherwise specified in sections 290.500 to 290.530:

(1) fifty-one percent, effective January 1, 2019;
(2) fifty-three, effective January 1, 2020;
(3) fifty-five percent, effective January 1, 2021;
(4) fifty-seven percent, effective January 1, 2022;
(5) fifty-eight percent, effective January 1, 2023;
(6) sixty percent, effective January 1, 2024;

however, in all cases, total compensation for such employee shall total at least the minimum wage specified in subsection (3) of section 290.502 or, where applicable, the minimum wage rate otherwise specified in sections 290.500 to 290.530, the difference being made up by the employer.

3. For purposes of this section, the term "public employer" means an employer that is the state or a political subdivision of the state, including a department, agency, officer, bureau, division, board, commission, or instrumentality of the state, or a city, county, town, village, school district, or other political subdivision of the state. Subsection (2) of this section shall not apply to a public employer with respect to its employees. Any public employer that is subject to subsection (1) of this section shall continue to be subject to that subsection at

the percentage set forth therein of the minimum wage rate specified in subsections (1) and (2) of section 290.502 or, where applicable, the minimum wage rate otherwise specified in sections 290.500 to 290.530.

18-07

[2.] 4. If an employee receives and retains compensation in the form of goods or services as an incident of his employment and if he is not required to exercise any discretion in order to receive the goods or services, the employer is required to pay only the difference between the fair market value of the goods and services and the minimum wage otherwise required to be paid by sections 290.500 to 290.530. The fair market value of the goods and services shall be computed on a weekly basis. The director shall provide by regulation a method of valuing the goods and services received by any employee in lieu of the wages otherwise required to be paid under the provisions of sections 290.500 to 290.530. He shall also provide by regulation a method of determining those types of goods and services that are an incident of employment the receipt of which does not require any discretion on the part of the employee.

290.527. Any employer who pays any employee less wages than the wages to which the employee is entitled under or by virtue of sections 290.500 to 290.530 shall be liable to the employee affected for the full amount of the wage rate and an additional [equal] amount equal to twice the unpaid wages as liquidated damages, less any amount actually paid to the employee by the employer and for costs and such reasonable attorney fees as may be allowed by the court or jury. The employee may bring any legal action necessary to collect the claim. Any agreement between the employee and the employer to work for less than the wage rate shall be no defense to the action. All actions for the collection of any deficiency in wages shall be commenced within [two] three years of the accrual of the cause of action.

290.529. Except in the circumstances set forth in section 290.523, all the provisions of sections 290.500 to 290.530 are severable. If any provision, including any section, subsection, subdivision, paragraph, sentence, or clause, of sections 290.500 to 290.530, or the application thereof to any person or circumstance, is found by a court of competent jurisdiction to be invalid, unconstitutional, or unconstitutionally enacted, such decision shall not affect other provisions or applications of sections 290.500 to 290.530 that can be given effect without the invalid, unconstitutional, or unconstitutionally enacted provision or application.

RE: Petition approval request from Richard Von Glahn regarding a proposed statutory amendment to Chapter 290, version 1 (2018-016)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Revised Statutes of Missouri filed by Richard Von Glahn on November 14, 2016.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

Jason Kander

18-016

Be it enacted by the people of the state of Missouri:

Sections 290.502, 290.512, and 290.527 of the Revised Statutes of Missouri are amended and a new section to be known as section 290.529 is enacted to read as follows:

290.502. 1. Except as may be otherwise provided pursuant to sections 290.500 to 290.530, effective January 1, 2007, every employer shall pay to each employee wages at the rate of $6.50 per hour, or wages at the same rate or rates set under the provisions of federal law as the prevailing federal minimum wage applicable to those covered jobs in interstate commerce, whichever rate per hour is higher.

2. The minimum wage shall be increased or decreased on January 1, 2008, and on January 1 of successive years, by the increase or decrease in the cost of living. On September 30, 2007, and on each September 30 of each successive year, the director shall measure the increase or decrease in the cost of living by the percentage increase or decrease as of the preceding July over the level as of July of the immediately preceding year of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) or successor index as published by the U.S. Department of Labor or its successor agency, with the amount of the minimum wage increase or decrease rounded to the nearest five cents.

3. Except as may be otherwise provided pursuant to sections 290.500 to 290.530, and notwithstanding subsection (1) of this section, effective January 1, 2019, every employer shall pay to each employee wages at the rate of not less than $8.00 per hour, or wages at the same rate or rates set under the provisions of federal law as the prevailing federal minimum wage applicable to those covered jobs in interstate commerce, whichever rate per hour is higher. Thereafter, the minimum wage established by this subsection shall be increased each year by $1.00 per hour, effective January 1 of each of the next seven years, until it reaches $15.00 per hour, effective January 1, 2026. Thereafter, the minimum wage established by this subsection shall be increased or decreased on January 1, 2027, and on January 1 of successive years, per the method set forth in subsection (2) of this section. If at any time the federal minimum wage rate is above or is thereafter increased above the minimum wage then in effect under this subsection, the minimum wage required by this subsection shall continue to be increased pursuant to this subsection (3), but the higher federal rate shall immediately become the minimum wage required by this subsection and shall be increased or decreased per the method set forth in subsection (2) for so long as it remains higher than the state minimum wage required and increased pursuant to this subsection.

4. For purposes of this section, the term "public employer" means an employer that is the state or a political subdivision of the state, including a department, agency, officer, bureau, division, board, commission, or instrumentality of the state, or a city, county, town, village, school district, or other political subdivision of the state. Subsection (3) of this section shall not apply to a public employer with respect to its employees. Any public employer that is subject to subsections (1) and (2) of this section shall continue to be subject to those subsections.

290.512. 1. [No] Except as provided in subsection (2) of this section, no employer of any employee who receives and retains compensation in the form of gratuities in addition to wages is required to pay wages in excess of fifty percent of the minimum wage rate specified in sections 290.500 to 290.530, however, total compensation for such employee shall total at least the minimum wage specified in sections 290.500 to 290.530, the difference being made up by the employer.

2. Beginning January 1, 2019 and effective on the dates set forth below in this subsection, and notwithstanding the percentage established in subsection (1) of this section, no employer of any employee who receives and retains compensation in the form of gratuities in addition to wages is required to pay wages in excess of the percent set forth below in this subsection of the minimum wage rate specified in subsection (3) of section 290.502 or, where applicable, the minimum wage rate otherwise specified in sections 290.500 to 290.530:

(1) fifty-five percent, effective January 1, 2019;
(2) sixty percent, effective January 1, 2020;
(3) sixty-five percent, effective January 1, 2021;
(4) seventy percent, effective January 1, 2022;
(5) seventy-five percent, effective January 1, 2023;
(6) eighty percent, effective January 1, 2024;
(7) eighty-five percent, effective January 1, 2025;
(8) ninety percent, effective January 1, 2026;
(9) ninety-five percent; effective January 1, 2027;
(10) one hundred percent, effective January 1, 2028;

however, in all cases, total compensation for such employee shall total at least the minimum wage specified in subsection (3) of section 290.502 or, where applicable, the minimum wage rate otherwise specified in sections 290.500 to 290.530, the difference being made up by the employer.

3. For purposes of this section, the term "public employer" means an employer that is the state or a political subdivision of the state, including a department, agency, officer, bureau, division, board, commission, or instrumentality of the state, or a city, county, town, village, school district, or other political subdivision of the state. Subsection (2) of this section shall not apply to a public employer with respect to its employees. Any public employer that is subject to subsection (1) of this section shall continue to be subject to that subsection at the percentage set forth therein of the minimum wage rate specified in subsections (1) and (2) of section 290.502 or, where applicable, the minimum wage rate otherwise specified in sections 290.500 to 290.530.

18-016

[2.] 4. If an employee receives and retains compensation in the form of goods or services as an incident of his employment and if he is not required to exercise any discretion in order to receive the goods or services, the employer is required to pay only the difference between the fair market value of the goods and services and the minimum wage otherwise required to be paid by sections 290.500 to 290.530. The fair market value of the goods and services shall be computed on a weekly basis. The director shall provide by regulation a method of valuing the goods and services received by any employee in lieu of the wages otherwise required to be paid under the provisions of sections 290.500 to 290.530. He shall also provide by regulation a method of determining those types of goods and services that are an incident of employment the receipt of which does not require any discretion on the part of the employee.

290.527. Any employer who pays any employee less wages than the wages to which the employee is entitled under or by virtue of sections 290.500 to 290.530 shall be liable to the employee affected for the full amount of the wage rate and an additional [equal] amount equal to twice the unpaid wages as liquidated damages, less any amount actually paid to the employee by the employer and for costs and such reasonable attorney fees as may be allowed by the court or jury. The employee may bring any legal action necessary to collect the claim. Any agreement between the employee and the employer to work for less than the wage rate shall be no defense to the action. All actions for the collection of any deficiency in wages shall be commenced within [two] three years of the accrual of the cause of action.

290.529. Except in the circumstances set forth in section 290.523, all the provisions of sections 290.500 to 290.530 are severable. If any provision, including any section, subsection, subdivision, paragraph, sentence, or clause, of sections 290.500 to 290.530, or the application thereof to any person or circumstance, is found by a court of competent jurisdiction to be invalid, unconstitutional, or unconstitutionally enacted, such decision shall not affect other provisions or applications of sections 290.500 to 290.530 that can be given effect without the invalid, unconstitutional, or unconstitutionally enacted provision or application.

NOTICE: You are advised that the proposed constitutional amendment may change, repeal, or modify by implication or may be construed by some persons to change, repeal or modify by implication, the following Articles and Sections of the Constitution of Missouri: Article I, Section 8 and the following Sections of the Missouri Revised Statutes: Sections 105.450 through 105.496 and Sections 130.011 through 130.160. The proposed amendment revises Article III of the Constitution by amending Sections 2, 5, 7, and 19 and adopting three new sections to be known as Article III Sections 3, 20(c), and 20(d).

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article III of the Constitution is revised by amending Sections 2, 5, 7, 19, and adopting three new sections to be known as Article III Sections 3, 20(c), and 20(d) to read as follows:

Section 2.

After the effective date of this section, no person serving as a member of or employed by the General Assembly shall act or serve as a paid lobbyist, register as a paid lobbyist, or solicit prospective employers or clients to represent as a paid lobbyist during the time of such service until the expiration of two calendar years after the conclusion of the session of the general assembly in which the member or employee last served and where such service was after the effective date of this section.

(a) No person serving as a member of or employed by the General Assembly shall accept directly or indirectly a gift of any tangible or intangible item, service, or thing of value from any paid lobbyist or lobbyist principal in excess of five dollars per occurrence. This Article shall not prevent Candidates for the General Assembly, including candidates for reelection, or candidates for offices within the senate or house from accepting campaign contributions consistent with this Article and applicable campaign finance law. Nothing in this section shall prevent individuals from receiving gifts, family support or anything of value from those related to them within the fourth degree by blood or marriage. The dollar limitations of this section shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency and rounded to the nearest dollar amount.

(c) The General Assembly shall make no law authorizing unlimited campaign contributions to candidates for the General Assembly, nor any law that circumvents the contribution limits contained in this Constitution. In addition to other campaign contribution limitations or restrictions provided for by law, the amount of contributions made to or accepted by any candidate or candidate committee from any person other than the candidate in any one election for the General Assembly shall not exceed the following:

(1) To elect an individual to the office of state senator, two thousand five hundred dollars; and

(2) To elect an individual to the office of state representative, two thousand dollars.

The contribution limits and other restrictions of this section shall also apply to any person exploring a candidacy for a public office listed in this subsection.

For purposes of this subsection, "base year amount" shall be the contribution limits prescribed in this section. Contribution limits set forth herein shall be adjusted on the first day of January in each even-numbered year hereafter by multiplying the base year amount by the cumulative consumer price index and rounded to the nearest dollar amount, for all years after 2018.

(d) No contribution to a candidate for legislative office shall be made or accepted, directly or indirectly, in a fictitious name, in the name of another person, or by or through another person in such a manner as to, or with the intent to, conceal the identity of the actual source of the contribution. There shall be a rebuttable presumption that a contribution to a candidate for public office is made or accepted with the intent to circumvent the limitations on contributions imposed in this section when a contribution is received from a committee or organization that is primarily funded by a single person, individual, or other committee that has already reached its contribution limit under any law relating to contribution limitations. A committee or organization shall be deemed to be primarily funded by a single person, individual, or other committee when the committee or organization receives more than fifty percent of its annual funding from that single person, individual, or other committee.

(e) In no circumstance shall a candidate be found to have violated limits on acceptance of contributions if the Missouri Ethics Commission, its successor agency, or a court determines that a candidate has taken no action to indicate acceptance of or acquiescence to the making of an expenditure that is deemed a contribution pursuant to this section.

(f) No candidate shall accept contributions from any federal political action committee unless the committee has filed the same financial disclosure reports that would be required of a Missouri political action committee.

Section 3.

(a) There is hereby established the post of "non-partisan state demographer." The non-partisan state demographer shall acquire appropriate information to develop procedures in preparation for drawing legislative redistricting maps on the basis of each federal census for presentation to the house apportionment commission and the senatorial apportionment commission.

(b) The non-partisan state demographer shall be appointed by the Governor through a merit based process. The non-partisan state demographer shall serve a term of five years and may be reappointed. To be eligible for the non-partisan state demographer position an individual shall not have served in a partisan, elected position for four years prior to the appointment. The non-partisan state demographer shall be disqualified from holding office as a member of the general assembly for four years following the date of the presentation of his or her most recent legislative redistricting map to the house apportionment commission or the senatorial apportionment commission.

(c) The house of representatives shall consist of one hundred sixty-three members elected at each general election and apportioned [in the following manner:] as provided in this section.

(1) Within ten days after the population of this state is reported to the President for each decennial census of the United States or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within ten days after such a ruling has been made, the non-partisan state demographer shall begin the preparation of legislative districting plans and maps using the following methods, listed in order of priority:

(a) Districts shall be established on the basis of total population. Legislative districts shall each have a total population as nearly equal as practicable to the ideal population for such districts, determined by dividing the number of districts to be established into the total population of the state reported in the federal decennial census.

(b) Districts shall be established in a manner so as to comply with all requirements of the United States Constitution and applicable federal laws, including, but not limited to, the Voting Rights Act of 1965 (as amended). Notwithstanding any other provision of this Article, districts shall not be drawn with the intent or result of denying or abridging the equal opportunity of racial or language minorities to participate in the political process or diminishing their ability to elect representatives of their choice, whether by themselves or by voting in concert with other persons.

Districts shall be designed in a manner that achieves both partisan fairness and, secondarily,

18-015

competitiveness. Partisan fairness means that parties shall be able to translate their popular support into legislative representation with approximately equal efficiency. Competitiveness means that parties' legislative representation shall be substantially and similarly responsive to shifts in the electorate's preferences.

To this end, the non-partisan state demographer shall calculate the average electoral performance of the two parties receiving the most votes in the three preceding elections for governor, for United States Senate, and for President of the United States. This index shall be defined as the total votes received by each party in the three preceding elections for governor, for United States Senate, and for President of the United States, divided by the total votes cast for both parties in these elections. Using this index, the non-partisan state demographer shall calculate the total number of wasted votes for each party, summing across all of the districts in the plan. Wasted votes are votes cast for a losing candidate or for a winning candidate in excess of the fifty percent threshold needed for victory. In any plan of apportionment and map of the proposed districts submitted to the respective apportionment commission, the non-partisan state demographer shall ensure the difference between the two parties' total wasted votes, divided by the total votes cast for the two parties, is as close to zero as practicable.

To promote competitiveness, the non-partisan state demographer shall use the electoral performance index to simulate elections in which the hypothetical statewide vote shifts by one percent, two percent, three percent, four percent, and five percent in favor of each party. The vote in each individual district shall be assumed to shift by the same amount as the statewide vote. The non-partisan state demographer shall ensure that, in each of these simulated elections, the difference between the two parties' total wasted votes, divided by the total votes cast for the two parties, is as close to zero as practicable.

(c) Subject to the requirements of subdivisions (1)(a) and (1)(b), Districts shall be composed of contiguous territory. Areas which meet only at the points of adjoining corners are not contiguous.

(d) To the extent consistent with subdivisions (1)(a) (1)(c) of this subsection, district boundaries shall coincide with the boundaries of political subdivisions of the state. The number of counties and cities divided among more than one district shall be as small as possible. When there is a choice between dividing local political subdivisions, the more populous subdivisions shall be divided before the less populous, but this preference shall not apply to a legislative district boundary drawn along a county line which passes through a city that lies in more than one county.

(e) Preference shall be that districts are compact in form, but the standards established by subdivisions (1)(a) (1)(d) of this subsection take precedence over compactness where a conflict arises between compactness and these standards. In general, compact districts are those which are square, rectangular, or hexagonal in shape to the extent permitted by natural or political boundaries.

(2) Within sixty days after the population of this state is reported to the President for each decennial census of the United States [and] or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within sixty days [after notification by the governor] that such a ruling has been made, the congressional district committee of each of the two parties casting the highest vote for governor at the last preceding election shall meet and the members of the committee shall nominate, by a majority vote of the members of the committee present, provided that a majority of the elected members is present, two members of their party, residents in that district, as nominees for reapportionment commissioners. Neither party shall select more than one nominee from any one state legislative district. The congressional committees shall each submit to the governor their list of elected nominees. Within thirty days the governor shall appoint a commission consisting of one name from each list to reapportion the state into one hundred and sixty-three representative districts and to establish the numbers and boundaries of said districts.

If any of the congressional committees fails to submit a list within such time the governor shall appoint a member of his own choice from that district and from the political party of the committee failing to make the appointment.

Members of the commission shall be disqualified from holding office as members of the general assembly for four years following the date of the filing by the commission of its final statement of apportionment.

For the purposes of this Article, the term congressional district committee or congressional district refers to the congressional district committee or the congressional district from which a congressman was last elected, or, in the event members of congress from this state have been elected at large, the term congressional district committee refers to those persons who last served as the congressional district committee for those districts from which congressmen were last elected, and the term congressional district refers to those districts from which congressmen were last elected. Any action pursuant to this section by the congressional district committee shall take place only at duly called meetings, shall be recorded in their official minutes and only members present in person shall be permitted to vote.

(3) Within six months after the population of this state is reported to the President for each decennial census of the United States or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within six months after such a ruling has been made, the non-partisan state demographer shall make public and file with the secretary of state and with the house apportionment commission a tentative plan of apportionment and map of the proposed districts, as well as all demographic and partisan data used in the creation of the plan and map.

The commissioners so selected shall, [on the fifteenth day, excluding Sundays and holidays, after all members have been selected] within ten days of receiving the tentative plan of apportionment and map of the proposed districts, meet in the capitol building and proceed to organize by electing from their number a chairman, vice chairman and secretary [and]. The commission shall adopt an agenda establishing at least three hearing dates on which hearings open to the public shall be held to hear objections or testimony from interested persons. A copy of the agenda shall be filed with the clerk of the house of representatives within twenty-four hours after its adoption. Executive meetings may be scheduled and held as often as the commission deems advisable.

The commission may make changes to the tentative plan of apportionment and map of the proposed districts received from the non-partisan state demographer provided that such changes are consistent with this section and approved by a vote of at least seven-tenths of the commissioners. If no changes are made or approved as provided for in this subsection, the tentative plan of apportionment and map of proposed districts shall become final. Not later than two months of receiving the tentative plan of apportionment and map of the proposed districts, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts.

[The commission shall reapportion the representatives by dividing the population of the state by the number one hundred sixty-three and shall establish each district so that the population of that district shall, as nearly as possible, equal that figure.

18-015

Each district shall be composed of contiguous territory as compact as may be.

Not later than five months after the appointment of the commission the commission shall receive the tentative plan of apportionment and map of the proposed districts ordered in subsection 4 of this section and during the ensuing fifteen days shall hold such public hearings as may be necessary to hear objections or testimony of interested persons.

Not later than six months after the appointment of the commission, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts, and no statement shall be valid unless approved by at least seven-tenths of the members.

After the statement is filed members of the house of representatives shall be elected according to such districts until a reapportionment is made as herein provided, except that if the statement is not filed within six months of the time fixed for the appointment of the commission, it shall stand discharged and the house of representatives shall be apportioned by a commission of six members appointed from among the judges of the appellate courts of the state of Missouri by the state supreme court, a majority of whom shall sign and file its apportionment plan and map with the secretary of state within ninety days of the date of the discharge of the apportionment commission. Thereafter members of the house of representatives shall be elected according to such districts until a reapportionment is made as herein provided.]

Each member of the commission shall receive as compensation fifteen dollars a day for each day the commission is in session but not more than one thousand dollars, and, in addition, shall be reimbursed for his actual and necessary expenses incurred while serving as a member of the commission.

No reapportionment shall be subject to the referendum.

Section 5.

(a) The Senate shall consist of thirty-four members elected by the qualified voters of the senatorial [respective] districts for a term of four years. [For the election of senators, the state shall be divided into convenient districts of contiguous territory, as compact and nearly equal in population as may be.] Senatorial districts shall be apportioned as provided for in Article III, Section 7.

Section 7.

(1) Within ten days after the population of this state is reported to the President for each decennial census of the United States or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within ten days after such a ruling has been made, the non-partisan state demographer authorized in Article III Section 3, shall begin the preparation of senatorial districting plans and maps using the same methods and criteria as those required by Article III, Section 3 for the establishment of districts for the House of Representatives.

(2) Within sixty days after the population of this state is reported to the President for each decennial census of the United States, [and] or within sixty days after [notification by the governor that] a reapportionment has been invalidated by a court of competent jurisdiction, the state committee of each of the two political parties casting the highest vote for governor at the last preceding election shall, at a committee meeting duly called, select by a vote of the individual committee members, and thereafter submit to the governor a list of ten persons, and within thirty days thereafter the governor shall appoint a commission of ten members, five from each list, to reapportion the thirty-four senatorial districts and to establish the numbers and boundaries of said districts.

If either of the party committees fails to submit a list within such time the governor shall appoint five members of his own choice from the party of the committee so failing to act.

Members of the commission shall be disqualified from holding office as members of the general assembly for four years following the date of the filing by the commission of its final statement of apportionment.

(3) Within six months after the population of this state is reported to the President for each decennial census of the United States or in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within six months after such a ruling has been made, the non-partisan state demographer shall file with the secretary of state and with the senatorial apportionment commission a tentative plan of apportionment and map of the proposed districts.

The commissioners so selected shall [on the fifteenth day, excluding Sundays and holidays, after all members have been selected] within ten days of receiving the tentative plan of apportionment and map of the proposed districts required by subsection (d) of this section, meet in the capitol building and proceed to organize by electing from their number a chairman, vice chairman and secretary [and]. The commission shall adopt an agenda establishing at least three hearing dates on which hearings open to the public shall be held to hear objections or testimony from interested persons. A copy of the agenda shall be filed with the secretary of the senate within twenty-four hours after its adoption. Executive meetings may be scheduled and held as often as the commission deems advisable. The commission may make changes to the tentative plan of apportionment and map of the proposed districts received from the non-partisan state demographer provided that such changes are consistent with this Section and the methods and criteria required by Section 3 of this Article for the establishment of districts for the House of Representatives and approved by a vote of at least seven-tenths of the commissioners. If no changes are made or approved as provided for in this subsection, the tentative plan of apportionment and map of proposed districts shall become final. Not later than two months after receiving the tentative plan of apportionment and map of the proposed districts, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts.

[The commission shall reapportion the senatorial districts by dividing the population of the state by the number thirty-four and shall establish each district so that the population of that district shall, as nearly as possible, equal that figure; no county lines shall be crossed except when necessary to add sufficient population to a multi-district county or city to complete only one district which lies partly within such multi-district county or city so as to be as nearly equal as practicable in population. Any county with a population in excess of the quotient obtained by dividing the population of the state by the number thirty-four is hereby declared to be a multi-district county.

Not later than five months after the appointment of the commission the commission shall file with the secretary of state a tentative plan of apportionment and map of the proposed districts and during the ensuing fifteen days shall hold such public hearings as may be necessary to hear objections or testimony of interested persons.

Not later than six months after the appointment of the commission, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts, and no statement shall be valid unless approved by at least seven members.

After the statement is filed senators shall be elected according to such districts until a reapportionment is made as herein provided.

18-015

except that if the statement is not filed within six months of the time fixed for the appointment of the commission, it shall stand discharged and the senate shall be apportioned by a commission of six members appointed from among the judges of the appellate courts of the state of Missouri by the state supreme court, a majority of whom shall sign and file its apportionment plan and map with the secretary of state within ninety days of the date of the discharge of the apportionment commission. Thereafter senators shall be elected according to such districts until a reapportionment is made as herein provided.]

Each member of the commission shall receive as compensation fifteen dollars a day for each day the commission is in session, but not more than one thousand dollars, and, in addition, shall be reimbursed for his actual and necessary expenses incurred while serving as a member of the commission.

No reapportionment shall be subject to the referendum.

Section 19.

(a) Senators and representatives shall, in all cases except treason, felony, offenses under this Article, or breach of the peace, be privileged from arrest during the session of the general assembly, and for the fifteen days next before the commencement and after the termination of each session; and they shall not be questioned for any speech or debate in either house in any other place.

(b) Legislative records shall be public records and subject to generally applicable state laws governing public access to public records, including the "Sunshine Law." Legislative records include, but are not limited to, all records, in whatever form or format, of the official acts of the general assembly, of the official acts of legislative committees, of the official acts of members of the general assembly, of individual legislators, their employees and staff, of the conduct of legislative business and all records that are created, stored or distributed through legislative branch facilities, equipment or mechanisms, including electronic. Each member of the general assembly is the custodian of legislative records under the custody and control of the member, their employees and staff. The chief clerk of the house or the secretary of the senate are the custodians for all other legislative records relating to the house and the senate, respectively.

(c) Legislative proceedings, including committee proceedings, shall be public meetings subject to generally applicable law governing public access to public meetings, including the "Sunshine Law." Open public meetings of legislative proceedings shall be subject to recording by citizens, so long as the proceedings are not materially disrupted.

Section 20(c).

No political fundraising activities or political fundraising event by any member of or candidate for the general assembly, including but not limited to the solicitation or delivery of contributions, supporting or opposing any candidate, initiative petition, referendum petition, ballot measure, political party or political committee, shall occur in or on any premises, property or building owned, leased or controlled by the State of Missouri or any agency or division thereof. Any purposeful violation of this section shall be punishable by imprisonment for up to one year or a fine of up to one thousand dollars or both, plus an amount equal to three times the illegal contributions. The Missouri Ethics Commission or its successor agency is authorized to enforce this section as provided by law.

Section 20(d).

If any provision of sections 2, 3, 7, 19, or 20(c) or the application thereof to anyone or to any circumstance is held invalid, the remainder of those provisions and the application of such provisions to others or other circumstances shall not be affected thereby.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-015)

Subject

Initiative petition from Sean Soendker Nicholson regarding a proposed constitutional amendment to Article III. (Received November 14, 2016)

Date

December 5, 2016

Description

This proposal would amend Article III of the Missouri Constitution.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** the **Missouri Ethics Commission,** and the **State Auditor's office.**

Sean Soendker Nicholson provided information as a proponent of the proposal to the State Auditor's office.

Assumptions

Officials from the **Attorney General's office** indicated they assume that any potential costs arising from the adoption of this proposal can be absorbed with existing resources.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated there is no impact to their department for this petition.

Officials from the **Department of Higher Education** indicated this initiative petition would not have a fiscal impact on their department.

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no impact.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** indicated this initiative petition has no fiscal impact on their department.

Officials from the **Department of Public Safety** indicated they see no fiscal impact due to this initiative petition.

Officials from the **Department of Social Services** indicated no fiscal impact on their department.

Officials from the **Governor's office** indicated the Governor is responsible for appointing a non-partisan State Demographer; however, there should be no added costs or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to that institution.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated no fiscal impact.

Officials from the **Office of Administration** indicated this initiative petition revises Article III of the Missouri Constitution by amending Sections 2, 5, 7, and 19 and enacting three new sections.

Legislators and their employees are prohibited from lobbying for at least two years after the conclusion of the session during which they vacate office, and from acting as paid consultants while in office. Legislators and their staff are prohibited from accepting a gift in excess of five dollars, per occurrence.

The initiative creates the post of "non-partisan State Demographer" to oversee the redistricting process for the state House and Senate districts. The demographer is to be selected by the Governor through a merit-based system and shall serve a term of five years. This demographer will be unable to hold elected office for four years following the filing of the new legislative districts. The redistricting process shall maximize partisan fairness and competitiveness.

It mandates that legislative records which are created, stored or distributed through legislative branch facilities, equipment or mechanisms shall be public. It allows explicitly identifies legislative proceedings as open meetings and authorizes recording of such proceedings by citizens.

Political fundraising activities and events may not be held in any location owned by, or under the control of, the State of Missouri.

Campaign contributions for state senators are limited to $2,500 and representatives are limited to $2,000, with CPI adjustments made in even-numbered years. Also, contributions from federal political action committees are prohibited unless the committee has filed the same financial disclosure reports that would be required of a Missouri political action committee.

This proposal could have an impact on their office. There is currently a State Demographer, with statutory duties that extend beyond those of legislative reapportionment. If the existing State Demographer would be expected to assume the role of "Non-partisan State Demographer", there would be no fiscal impact. However, if that post is filled by another individual, the salary and benefits costs would be an estimated $128,513 in FY 2021, adjusted for inflation. In either scenario, the cost for other staff hired for the purposes of redistricting would remain the same.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated no fiscal impact on that institution.

Officials from the **Secretary of State's office** indicated their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any significant impact on their office.

Officials from the **State Treasurer's office** indicated this would have no fiscal impact on their office.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from the **City of Columbia** indicated no apparent impact on their city.

Officials from the **City of Kansas City** indicated no fiscal impact is anticipated if this proposal is adopted.

Officials from the **City of Raymore** indicated no fiscal impact.

Officials from the **City of St. Joseph** indicated this initiative petition should not have a fiscal impact on their local government.

Officials from the **Metropolitan Community College** indicated there is no anticipated impact for their college.

Officials from the **University of Missouri** indicated the proposed initiative petition will not have a fiscal impact on their university.

Officials from the **Missouri Ethics Commission** (MEC) indicated:

The total estimated net effect on all state funds will be $67,478 for the first year implemented, $61,107 for the second year implemented, and $61,734 for the third year implemented.

Prohibiting a statewide elected official, member of the general assembly or paid employee of general assembly from acting, serving, or registering as a lobbyist for a specified period of time after leaving office would require the following of the MEC:

- Provide information to public officials and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo., about the new statutory requirements; examples include providing education, developing informational materials, telephone and email assistance.
- Provide oversight to ensure those individuals leaving the general assembly do not register as a lobbyist with the MEC for the specified period of time. This would entail reviewing lobbyist registrations, at the time of receipt by the MEC, and comparing them to those members of the general assembly who have left office within the specified period of time. For any individual submitting a registration, create the necessary correspondence to the registrant and track the results of the correspondence.
- Respond to written complaints, as established in Section 105.955.14, RSMo., through conducting investigations and the related legal actions. Any significant increase of complaints would require additional Commission resources, including investigative staff.

Implementing prohibition for a member of general assembly, staff/employees of the general assembly to accept specified monetary lobbyist/lobbyist principal gifts would require the following of the MEC:

- Provide information to public officials and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo., about the new statutory requirements; examples include providing education, developing informational materials, telephone and email assistance.
- Provide oversight in adherence to the specific gift prohibition, including reviewing lobbyist reports as established in Section 105.959, RSMo. This oversight, it is assumed, would be primarily from receiving written complaints, as established in Section 105.955.14, RSMo., through conducting investigations and the related legal actions. It is assumed this prohibition would result in a minimal number of complaints; however, if this assumption is incorrect the Commission would require additional staff resources.

Implementing campaign finance limits would require the following of the MEC:

- Provide information to those committee officers and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo. about these limits; examples include providing education, developing informational materials, telephone and email assistance.
- Provide oversight in campaign finance committee adherence to the specific contribution limits, including reviewing, auditing, and performing cross checks of the reported contributions, as established in Section 105.955.14 (2), (3), RSMo.
- Respond to written complaints, as established in Section 105.955.14, RSMo., through conducting investigations and the related legal actions.

Oversee the prohibition of political fundraising activities or events from occurring on State of Missouri property or any agency or division thereof would require the following of the MEC:

- Provide information to those committee officers and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo. about this provision; examples include providing education, developing informational materials, telephone and email assistance.
- Provide oversight in campaign finance committee adherence to the specific restrictions, including reviewing, auditing, and performing cross checks of the reported fund raising activity, as established in Section 105.955.14 (2), (3), RSMo.
- Respond to written complaints, as established in Section 105.955.14, RSMo., through conducting investigations and the related legal actions.

In regards to all of the provisions outlined above, if the Commission identifies significant violations during the process established in Section 105.955.14 (2), (3), RSMo or complaints received increase significantly an Investigator would be required to provide the proper oversight.

The implementation of contribution limits requires the Missouri Ethics Commission to request additional funding. Below is an outline of the additional funding. In the 2016 November General Election a Constitutional Amendment implementing contribution limits was adopted by voters. At this time, the Missouri Ethics Commission has not received the additional funding required to implement contribution limits.

The proposed provisions would implement campaign finance limits. The implementation of the above responsibilities would require the following additional resources:

- $15,120 in expense and equipment to acquire contract services that would develop the MEC internal search capabilities for oversight of the campaign finance committees' adherence to the specific contribution limits, as established in 105.955.14, RSMo. Current campaign finance data collection would allow the MEC to use search capabilities, providing for a manual review by MEC staff of adherence to the established limits.

•1 Business Analyst to conduct the routine work necessary in reviewing and providing oversight for the proposed legislation. The Business Analyst would review committee reports for compliance, prepare necessary notices, track the receipt of payment, and coordinate the necessary collection efforts. Currently two Business Analysts assist 2,800 committees in filing campaign finance reports, prepare and disseminate 15,000 notices, and review 11,000 campaign finance reports.
•If the Commission identifies significant violations during the process established in Section 105.955.14 (2), (3), RSMo or complaints received increase significantly an Investigator would be required to provide the proper oversight.

Officials from the **State Auditor's office** (SAO) indicated there is no fiscal impact for their office.

Sean Soendker Nicholson provided the following information as a proponent of this initiative petition.

I am a proponent of the above listed initiative petitions. Pursuant to 116.175 RSMo, I submit the following information regarding the initiative petitions.

There is no cost to the state over the next two years as a result of passage of any of the initiatives. Any potential costs arising from the adoption of these proposals is minimal and can be absorbed with existing resources from the General Assembly, Missouri Ethics Commission, Attorney General's Office, Office of Administration, and other state agencies.

There is currently a State Demographer, with statutory duties that extend beyond those of legislative reapportionment. The existing State Demographer can be expected to assume the role of Non-partisan State Demographer, and there would be no fiscal impact. Certainly there can be no definitive judgment that the measure would add costs for the state.

The proposals do not establish a new program or agency so there is no duplication of existing programs. There is no federal mandate with regard to the proposals. There will be no fiscal impact on any subdivision of the state. There will be no economic impact on small businesses.

The Missouri Ethics Commission is already required to provide guidance and information to members of the General Assembly and Missouri public about campaign finance rules and lobbying rules, and is already required to respond to written complaints through conducting investigations and the related legal actions.

The State Auditor's office did not receive a response from the **Department of Elementary and Secondary Education, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri,** and **St. Louis Community College.**

Fiscal Note Summary

State governmental entities estimate annual operating costs may increase by $189,000. Local governmental entities report no fiscal impact.

RE: Petition approval request from Sean Soendker Nicholson regarding a proposed constitutional amendment to Article III, version 7 (2018-014)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Sean Soendker Nicholson on November 10, 2016.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

Jason Kander

It is a class A misdemeanor punishable, notwithstanding the provisions of section 560.021, RSMo, to the contrary, for a term of imprisonment not to exceed one year in the county jail or a fine not to exceed ten thousand dollars or both, for anyone to sign any initiative petition with any name other than his or her own, or knowingly to sign his or her name more than once for the same measure for the same election, or to sign a petition when such person knows he or she is not a registered voter.

INITIATIVE PETITION

To the Honorable Jason Kander, Secretary of State for the state of Missouri:

We, the undersigned, registered voters of the state of Missouri and _____ _____ County (or city of St. Louis), respectfully order that the following proposed amendment to the constitution shall be submitted to the voters of the state of Missouri, for their approval or rejection, at the general election to be held on the 6th day of November, 2018, and each for himself or herself says: I have personally signed this petition; I am a registered voter of the state of Missouri and _____ County (or city of St. Louis); my registered voting address and the name of the city, town or village in which I live are correctly written after my name.

[Official Ballot title]

CIRCULATOR'S AFFIDAVIT

STATE OF MISSOURI, COUNTY OF _____

I, _____, being first duly sworn, say (print or type names of signers)

	NAME (Signature)	DATE SIGNED	REGISTERED VOTING ADDRESS (Number) (Street), (City, Town, or Village)	ZIP CODE	CONGR. DIST.	NAME (Printed or Typed)

18-014

NOTICE: You are advised that the proposed constitutional amendment may change, repeal, or modify by implication or may be construed by some persons to change, repeal or modify by implication, the following Articles and Sections of the Constitution of Missouri: Article I, Section 8 and the following Sections of the Missouri Revised Statutes: Sections 105.450 through 105.496 and Sections 130.011 through 130.160. The proposed amendment revises Article III of the Constitution by amending Sections 2, 5, 7, and 19 and adopting three new sections to be known as Article III Sections 3, 20(c), and 20(d).

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article III of the Constitution is revised by amending Sections 2, 5, 7, 19, and adopting three new sections to be known as Article III Sections 3, 20(c), and 20(d) to read as follows:

Section 2.

After the effective date of this section, no person serving as a member of or employed by the General Assembly shall act or serve as a paid lobbyist, register as a paid lobbyist, or solicit prospective employers or clients to represent as a paid lobbyist during the time of such service until the expiration of two calendar years after the conclusion of the session of the general assembly in which the member or employee last served and where such service was after the effective date of this section.

(a) No person serving as a member of or employed by the General Assembly shall accept directly or indirectly a gift of any tangible or intangible item, service, or thing of value from any paid lobbyist or lobbyist principal in excess of five dollars per occurrence. This Article shall not prevent Candidates for the General Assembly, including candidates for reelection, or candidates for offices within the senate or house from accepting campaign contributions consistent with this Article and applicable campaign finance law. Nothing in this section shall prevent individuals from receiving gifts, family support or anything of value from those related to them within the fourth degree by blood or marriage. The dollar limitations of this section shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency and rounded to the nearest dollar amount.

(c) The General Assembly shall make no law authorizing unlimited campaign contributions to candidates for the General Assembly, nor any law that circumvents the contribution limits contained in this Constitution. In addition to other campaign contribution limitations or restrictions provided for by law, the amount of contributions made to or accepted by any candidate or candidate committee from any person other than the candidate in any one election for the General Assembly shall not exceed the following:

(1) To elect an individual to the office of state senator, two thousand five hundred dollars; and

(2) To elect an individual to the office of state representative, two thousand dollars.

The contribution limits and other restrictions of this section shall also apply to any person exploring a candidacy for a public office listed in this subsection.

For purposes of this subsection, "base year amount" shall be the contribution limits prescribed in this section. Contribution limits set forth herein shall be adjusted on the first day of January in each even-numbered year hereafter by multiplying the base year amount by the cumulative consumer price index and rounded to the nearest dollar amount, for all years after 2018.

(d) No contribution to a candidate for legislative office shall be made or accepted, directly or indirectly, in a fictitious name, in the name of another person, or by or through another person in such a manner as to, or with the intent to, conceal the identity of the actual source of the contribution. There shall be a rebuttable presumption that a contribution to a candidate for public office is made or accepted with the intent to circumvent the limitations on contributions imposed in this section when a contribution is received from a committee or organization that is primarily funded by a single person, individual, or other committee that has already reached its contribution limit under any law relating to contribution limitations. A committee or organization shall be deemed to be primarily funded by a single person, individual, or other committee when the committee or organization receives more than fifty percent of its annual funding from that single person, individual, or other committee.

(e) In no circumstance shall a candidate be found to have violated limits on acceptance of contributions if the Missouri Ethics Commission, its successor agency, or a court determines that a candidate has taken no action to indicate acceptance of or acquiescence to the making of an expenditure that is deemed a contribution pursuant to this section.

(f) No candidate shall accept contributions from any federal political action committee unless the committee has filed the same financial disclosure reports that would be required of a Missouri political action committee.

Section 3.

(a) There is hereby established the post of "non-partisan state demographer." The non-partisan state demographer shall acquire appropriate information to develop procedures in preparation for drawing legislative redistricting maps on the basis of each federal census for presentation to the house apportionment commission and the senatorial apportionment commission.

(b) The non-partisan state demographer shall be selected through the following process. First, state residents may apply for selection to the state auditor using an application developed by the state auditor to determine an applicant's qualifications and expertise relevant to the position. Second, the state auditor shall deliver to the majority leader and minority leader of the senate a list of at least three applicants with sufficient expertise and qualifications, as determined by the state auditor, to perform the duties of the non-partisan state demographer. Third, if the majority leader and minority leader of the senate together agree that a specific applicant should be selected to be the non-partisan state demographer, that applicant shall be selected and the selection process shall cease. Fourth, if the majority leader and minority leader of the senate cannot together agree on an applicant, they may each remove a number of applicants on the state auditor's list equal to one-third of the total number of applicants on that list, rounded down to the next integer, and the state auditor shall then conduct a random lottery of the applicants remaining after removal to select the non-partisan state demographer. The state auditor shall prescribe a time frame and deadlines for this application and selection process that both encourages numerous qualified applicants and avoids delay in selection. The non-partisan state demographer shall serve a term of five years and may be reappointed. To be eligible for the non-partisan state demographer position an individual shall not have served in a partisan, elected position for four years prior to the appointment. The non-partisan state demographer shall be disqualified from holding office as a member of the general assembly for four years following the date of the presentation of his or her most recent legislative redistricting map to the house apportionment commission or the senatorial apportionment commission.

(c) The house of representatives shall consist of one hundred sixty-three members elected at each general election and apportioned [in the following manner:] as provided in this section.

(1) Within ten days after the population of this state is reported to the President for each decennial census of the United States or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within ten days after such a ruling has been made, the non-partisan state demographer shall begin the preparation of legislative districting plans and maps using the following methods, listed in order of priority:

(a) Districts shall be established on the basis of total population. Legislative districts shall each have a total population as nearly equal as practicable to the ideal population for such districts, determined by dividing the number of districts to be established into the total

18-OH

population of the state reported in the federal decennial census.

(b) Districts shall be established in a manner so as to comply with all requirements of the United States Constitution and applicable federal laws, including, but not limited to, the Voting Rights Act of 1965 (, amended). Notwithstanding any other provision of this Article, districts shall not be drawn with the intent or result of denying or abridging the equal opportunity of racial or language minorities to participate in the political process or diminishing their ability to elect representatives of their choice, whether by themselves or by voting in concert with other persons.

Districts shall be designed in a manner that achieves both partisan fairness and, secondarily, competitiveness. Partisan fairness means that parties shall be able to translate their popular support into legislative representation with approximately equal efficiency. Competitiveness means that parties' legislative representation shall be substantially and similarly responsive to shifts in the electorate's preferences.

To this end, the non-partisan state demographer shall calculate the average electoral performance of the two parties receiving the most votes in the three preceding elections for governor, for United States Senate, and for President of the United States. This index shall be defined as the total votes received by each party in the three preceding elections for governor, for United States Senate, and for President of the United States, divided by the total votes cast for both parties in these elections. Using this index, the non-partisan state demographer shall calculate the total number of wasted votes for each party, summing across all of the districts in the plan. Wasted votes are votes cast for a losing candidate or for a winning candidate in excess of the fifty percent threshold needed for victory. In any plan of apportionment and map of the proposed districts submitted to the respective apportionment commission, the non-partisan state demographer shall ensure the difference between the two parties' total wasted votes, divided by the total votes cast for the two parties, is as close to zero as practicable.

To promote competitiveness, the non-partisan state demographer shall use the electoral performance index to simulate elections in which the hypothetical statewide vote shifts by one percent, two percent, three percent, four percent, and five percent in favor of each party. The vote in each individual district shall be assumed to shift by the same amount as the statewide vote. The non-partisan state demographer shall ensure that, in each of these simulated elections, the difference between the two parties' total wasted votes, divided by the total votes cast for the two parties, is as close to zero as practicable.

(c) Subject to the requirements of subdivisions (1)(a) and (1)(b), Districts shall be composed of contiguous territory. Areas which meet only at the points of adjoining corners are not contiguous.

(d) To the extent consistent with subdivisions (1)(a) - (1)(c) of this subsection, district boundaries shall coincide with the boundaries of political subdivisions of the state. The number of counties and cities divided among more than one district shall be as small as possible. When there is a choice between dividing local political subdivisions, the more populous subdivisions shall be divided before the less populous, but this preference shall not apply to a legislative district boundary drawn along a county line which passes through a city that lies in more than one county.

(e) Preference shall be that districts are compact in form, but the standards established by subdivisions (1)(a) - (1)(d) of this subsection take precedence over compactness where a conflict arises between compactness and these standards. In general, compact districts are those which are square, rectangular, or hexagonal in shape to the extent permitted by natural or political boundaries.

(2) Within sixty days after the population of this state is reported to the President for each decennial census of the United States [and] or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within sixty days [after notification by the governor] that such a ruling has been made, the congressional district committee of each of the two parties casting the highest vote for governor at the last preceding election shall meet and the members of the committee shall nominate, by a majority vote of the members of the committee present, provided that a majority of the elected members is present, two members of their party, residents in that district, as nominees for reapportionment commissioners. Neither party shall select more than one nominee from any one state legislative district. The congressional committees shall each submit to the governor their list of elected nominees. Within thirty days the governor shall appoint a commission consisting of one name from each list to reapportion the state into one hundred and sixty-three representative districts and to establish the numbers and boundaries of said districts.

If any of the congressional committees fails to submit a list within such time the governor shall appoint a member of his own choice from that district and from the political party of the committee failing to make the appointment.

Members of the commission shall be disqualified from holding office as members of the general assembly for four years following the date of the filing by the commission of its final statement of apportionment.

For the purposes of this Article, the term congressional district committee or congressional district refers to the congressional district committee or the congressional district from which a congressman was last elected, or, in the event members of congress from this state have been elected at large, the term congressional district committee refers to those persons who last served as the congressional district committee for those districts from which congressmen were last elected, and the term congressional district refers to those districts from which congressmen were last elected. Any action pursuant to this section by the congressional district committee shall take place only at duly called meetings, shall be recorded in their official minutes and only members present in person shall be permitted to vote.

(3) Within six months after the population of this state is reported to the President for each decennial census of the United States or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within six months after such a ruling has been made, the non-partisan state demographer shall make public and file with the secretary of state and with the house apportionment commission a tentative plan of apportionment and map of the proposed districts, as well as all demographic and partisan data used in the creation of the plan and map.

The commissioners so selected shall, [on the fifteenth day, excluding Sundays and holidays, after all members have been selected] within ten days of receiving the tentative plan of apportionment and map of the proposed districts, meet in the capitol building and proceed to organize by electing from their number a chairman, vice chairman and secretary [and]. The commission shall adopt an agenda establishing at least three hearing dates on which hearings open to the public shall be held to hear objections or testimony from interested persons. A copy of the agenda shall be filed with the clerk of the house of representatives within twenty-four hours after its adoption. Executive meetings may be scheduled and held as often as the commission deems advisable.

The commission may make changes to the tentative plan of apportionment and map of the proposed districts received from the non-

18-014

partisan state demographer provided that such changes are consistent with this section and approved by a vote of at least seven-tenths of the commissioners. If no changes are made or approved as provided for in this subsection, the tentative plan of apportionment and map of proposed districts shall become final. Not later than two months of receiving the tentative plan of apportionment and map of the proposed districts, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts.

[The commission shall reapportion the representatives by dividing the population of the state by the number one hundred sixty-three and shall establish each district so that the population of that district shall, as nearly as possible, equal that figure.

Each district shall be composed of contiguous territory as compact as may be.

Not later than five months after the appointment of the commission the commission shall receive the tentative plan of apportionment and map of the proposed districts ordered in subsection 4 of this section and during the ensuing fifteen days shall hold such public hearings as may be necessary to hear objections or testimony of interested persons.

Not later than six months after the appointment of the commission, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts, and no statement shall be valid unless approved by at least seven-tenths of the members.

After the statement is filed members of the house of representatives shall be elected according to such districts until a reapportionment is made as herein provided, except that if the statement is not filed within six months of the time fixed for the appointment of the commission, it shall stand discharged and the house of representatives shall be apportioned by a commission of six members appointed from among the judges of the appellate courts of the state of Missouri by the state supreme court, a majority of whom shall sign and file its apportionment plan and map with the secretary of state within ninety days of the date of the discharge of the apportionment commission. Thereafter members of the house of representatives shall be elected according to such districts until a reapportionment is made as herein provided.]

Each member of the commission shall receive as compensation fifteen dollars a day for each day the commission is in session but not more than one thousand dollars, and, in addition, shall be reimbursed for his actual and necessary expenses incurred while serving as a member of the commission.

No reapportionment shall be subject to the referendum.

Section 5.

(a) The Senate shall consist of thirty-four members elected by the qualified voters of the senatorial [respective] districts for a term of four years. [For the election of senators, the state shall be divided into convenient districts of contiguous territory, as compact and nearly equal in population as may be.] Senatorial districts shall be apportioned as provided for in Article III, Section 7.

Section 7.

(1) Within ten days after the population of this state is reported to the President for each decennial census of the United States or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within ten days after such a ruling has been made, the non-partisan state demographer authorized in Article III Section 3, shall begin the preparation of senatorial districting plans and maps using the same methods and criteria as those required by Article III, Section 3 for the establishment of districts for the House of Representatives.

(2) Within sixty days after the population of this state is reported to the President for each decennial census of the United States, [and] or within sixty days after [notification by the governor that] a reapportionment has been invalidated by a court of competent jurisdiction, the state committee of each of the two political parties casting the highest vote for governor at the last preceding election shall, at a committee meeting duly called, select by a vote of the individual committee members, and thereafter submit to the governor a list of ten persons, and within thirty days thereafter the governor shall appoint a commission of ten members, five from each list, to reapportion the thirty-four senatorial districts and to establish the numbers and boundaries of said districts.

If either of the party committees fails to submit a list within such time the governor shall appoint five members of his own choice from the party of the committee so failing to act.

Members of the commission shall be disqualified from holding office as members of the general assembly for four years following the date of the filing by the commission of its final statement of apportionment.

(3) Within six months after the population of this state is reported to the President for each decennial census of the United States or in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within six months after such a ruling has been made, the non-partisan state demographer shall file with the secretary of state and with the senatorial apportionment commission a tentative plan of apportionment and map of the proposed districts.

The commissioners so selected shall [on the fifteenth day, excluding Sundays and holidays, after all members have been selected] within ten days of receiving the tentative plan of apportionment and map of the proposed districts required by subsection (d) of this section, meet in the capitol building and proceed to organize by electing from their number a chairman, vice chairman and secretary [and]. The commission shall adopt an agenda establishing at least three hearing dates on which hearings open to the public shall be held to hear objections or testimony from interested persons. A copy of the agenda shall be filed with the secretary of the senate within twenty-four hours after its adoption. Executive meetings may be scheduled and held as often as the commission deems advisable. The commission may make changes to the tentative plan of apportionment and map of the proposed districts received from the non-partisan state demographer provided that such changes are consistent with this Section and the methods and criteria required by Section 3 of this Article for the establishment of districts for the House of Representatives and approved by a vote of at least seven-tenths of the commissioners. If no changes are made or approved as provided for in this subsection, the tentative plan of apportionment and map of proposed districts shall become final. Not later than two months after receiving the tentative plan of apportionment and map of the proposed districts, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts.

[The commission shall reapportion the senatorial districts by dividing the population of the state by the number thirty-four and shall establish each district so that the population of that district shall, as nearly as possible, equal that figure; no county lines shall be crossed except when necessary to add sufficient population to a multi-district county or city to complete only one district which lies partly within such multi-district county or city so as to be as nearly equal as practicable in population. Any county with a population in excess of the quotient obtained by dividing the population of the state by the number thirty-four is hereby declared to be a multi-district county.

18-OH

Not later than five months after the appointment of the commission the commission shall file with the secretary of state a tentative plan of apportionment and map of the proposed districts and during the ensuing fifteen days shall hold such public hearings as may be necessary to hear objections or testimony of interested persons.

Not later than six months after the appointment of the commission, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts, and no statement shall be valid unless approved by at least seven members.

After the statement is filed senators shall be elected according to such districts until a reapportionment is made as herein provided, except that if the statement is not filed within six months of the time fixed for the appointment of the commission, it shall stand discharged and the senate shall be apportioned by a commission of six members appointed from among the judges of the appellate courts of the state of Missouri by the state supreme court, a majority of whom shall sign and file its apportionment plan and map with the secretary of state within ninety days of the date of the discharge of the apportionment commission. Thereafter senators shall be elected according to such districts until a reapportionment is made as herein provided.]

Each member of the commission shall receive as compensation fifteen dollars a day for each day the commission is in session, but not more than one thousand dollars, and, in addition, shall be reimbursed for his actual and necessary expenses incurred while serving as a member of the commission.

No reapportionment shall be subject to the referendum.

Section 19.

(a) Senators and representatives shall, in all cases except treason, felony, offenses under this Article, or breach of the peace, be privileged from arrest during the session of the general assembly, and for the fifteen days next before the commencement and after the termination of each session; and they shall not be questioned for any speech or debate in either house in any other place.

(b) Legislative records shall be public records and subject to generally applicable state laws governing public access to public records, including the "Sunshine Law." Legislative records include, but are not limited to, all records, in whatever form or format, of the official acts of the general assembly, of the official acts of legislative committees, of the official acts of members of the general assembly, of individual legislators, their employees and staff, of the conduct of legislative business and all records that are created, stored or distributed through legislative branch facilities, equipment or mechanisms, including electronic. Each member of the general assembly is the custodian of legislative records under the custody and control of the member, their employees and staff. The chief clerk of the house or the secretary of the senate are the custodians for all other legislative records relating to the house and the senate, respectively.

(c) Legislative proceedings, including committee proceedings, shall be public meetings subject to generally applicable law governing public access to public meetings, including the "Sunshine Law." Open public meetings of legislative proceedings shall be subject to recording by citizens, so long as the proceedings are not materially disrupted.

Section 20(c).

No political fundraising activities or political fundraising event by any member of or candidate for the general assembly, including but not limited to the solicitation or delivery of contributions, supporting or opposing any candidate, initiative petition, referendum petition, ballot measure, political party or political committee, shall occur in or on any premises, property or building owned, leased or controlled by the State of Missouri or any agency or division thereof. Any purposeful violation of this section shall be punishable by imprisonment for up to one year or a fine of up to one thousand dollars or both, plus an amount equal to three times the illegal contributions. The Missouri Ethics Commission or its successor agency is authorized to enforce this section as provided by law.

Section 20(d).

If any provision of sections 2, 3, 7, 19, or 20(c) or the application thereof to anyone or to any circumstance is held invalid, the remainder of those provisions and the application of such provisions to others or other circumstances shall not be affected thereby.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-014)

Subject

Initiative petition from Sean Soendker Nicholson regarding a proposed constitutional amendment to Article III. (Received November 14, 2016)

Date

December 5, 2016

Description

This proposal would amend Article III of the Missouri Constitution.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** the **Missouri Ethics Commission,** and the **State Auditor's office.**

Sean Soendker Nicholson provided information as a proponent of the proposal to the State Auditor's office.

Assumptions

Officials from the **Attorney General's office** indicated they assume that any potential costs arising from the adoption of this proposal can be absorbed with existing resources.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated there is no impact to their department for this petition.

Officials from the **Department of Higher Education** indicated this initiative petition would not have a fiscal impact on their department.

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no impact.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** indicated this initiative petition has no fiscal impact on their department.

Officials from the **Department of Public Safety** indicated they see no fiscal impact due to this initiative petition.

Officials from the **Department of Social Services** indicated no fiscal impact on their department.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to that institution.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated no fiscal impact.

Officials from the **Office of Administration** indicated this initiative petition revises Article III of the Missouri Constitution by amending Sections 2, 5, 7, and 19 and enacting three new sections.

Legislators and their employees are prohibited from lobbying for at least two years after the conclusion of the session during which they vacate office, and from acting as paid consultants while in office. Legislators and their staff are prohibited from accepting a gift in excess of five dollars, per occurrence.

The initiative creates the post of "non-partisan State Demographer" to oversee the redistricting process for the state House and Senate districts. The demographer is to be selected by a process involving the State Auditor and the Senate majority and minority leaders. Note that the wording is unclear on this process because the only State Auditor list mentioned in the list of three names. Therefore, if each the minority and the majority member are allowed to remove one-third of the list, they may each remove one person, leaving only one choice left, so no random lottery would be necessary. This demographer will be unable to hold elected office for four years following the filing of the new legislative districts. The redistricting process shall maximize partisan fairness and competitiveness.

It mandates that legislative records which are created, stored or distributed through legislative branch facilities, equipment or mechanisms shall be public. It allows explicitly identifies legislative proceedings as open meetings and authorizes recording of such proceedings by citizens.

Political fundraising activities and events may not be held in any location owned by, or under the control of, the State of Missouri.

Campaign contributions for state senators are limited to $2,500 and representatives are limited to $2,000, with CPI adjustments made in even-numbered years. Also, contributions from federal political action committees are prohibited unless the committee has filed the same financial disclosure reports that would be required of a Missouri political action committee.

This proposal could have an impact on their office. There is currently a State Demographer, with statutory duties that extend beyond those of legislative reapportionment. If the existing State Demographer would be chosen to assume the role of "Non-partisan State Demographer", there would be no fiscal impact. However, if that post is filled by another individual, the salary and benefits costs would be an estimated $128,513 in FY 2021, adjusted for inflation. In either scenario, the cost for other staff hired for the purposes of redistricting would remain the same.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated no fiscal impact on that institution.

Officials from the **Secretary of State's office** indicated their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any significant impact on their office.

Officials from the **State Treasurer's office** indicated this would have no fiscal impact on their office.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from the **City of Columbia** indicated no apparent impact on their city.

Officials from the **City of Kansas City** indicated no fiscal impact is anticipated if this proposal is adopted.

Officials from the **City of Raymore** indicated no fiscal impact.

Officials from the **City of St. Joseph** indicated this initiative petition should not have a fiscal impact on their local government.

Officials from the **Metropolitan Community College** indicated there is no anticipated impact for their college.

Officials from the **University of Missouri** indicated the proposed initiative petition will not have a fiscal impact on their university.

Officials from the **Missouri Ethics Commission** (MEC) indicated:

The total estimated net effect on all state funds will be $67,478 for the first year implemented, $61,107 for the second year implemented, and $61,734 for the third year implemented.

Prohibiting a statewide elected official, member of the general assembly or paid employee of general assembly from acting, serving, or registering as a lobbyist for a specified period of time after leaving office would require the following of the MEC:

- Provide information to public officials and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo., about the new statutory requirements; examples include providing education, developing informational materials, telephone and email assistance.
- Provide oversight to ensure those individuals leaving the general assembly do not register as a lobbyist with the MEC for the specified period of time. This would entail reviewing lobbyist registrations, at the time of receipt by the MEC, and comparing them to those members of the general assembly who have left office within the specified period of time. For any individual submitting a registration, create the necessary correspondence to the registrant and track the results of the correspondence.
- Respond to written complaints, as established in Section 105.955.14, RSMo., through conducting investigations and the related legal actions. Any significant increase of complaints would require additional Commission resources, including investigative staff.

Implementing prohibition for a member of general assembly, staff/employees of the general assembly to accept specified monetary lobbyist/lobbyist principal gifts would require the following of the MEC:

- Provide information to public officials and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo., about the new statutory requirements; examples include providing education, developing informational materials, telephone and email assistance.
- Provide oversight in adherence to the specific gift prohibition, including reviewing lobbyist reports as established in Section 105.959, RSMo. This oversight, it is assumed, would be primarily from receiving written complaints, as established in Section 105.955.14, RSMo., through conducting investigations and the related legal actions. It is assumed this prohibition would result in a minimal number of complaints; however, if this assumption is incorrect the Commission would require additional staff resources.

Implementing campaign finance limits would require the following of the MEC:

- Provide information to those committee officers and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo. about these limits; examples include providing education, developing informational materials, telephone and email assistance.
- Provide oversight in campaign finance committee adherence to the specific contribution limits, including reviewing, auditing, and performing cross checks of the reported contributions, as established in Section 105.955.14 (2), (3), RSMo.
- Respond to written complaints, as established in Section 105.955.14, RSMo., through conducting investigations and the related legal actions.

Oversee the prohibition of political fundraising activities or events from occurring on State of Missouri property or any agency or division thereof would require the following of the MEC:

- Provide information to those committee officers and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo. about this provision; examples include providing education, developing informational materials, telephone and email assistance.
- Provide oversight in campaign finance committee adherence to the specific restrictions, including reviewing, auditing, and performing cross checks of the reported fund raising activity, as established in Section 105.955.14 (2), (3), RSMo.
- Respond to written complaints, as established in Section 105.955.14, RSMo., through conducting investigations and the related legal actions.

In regards to all of the provisions outlined above, if the Commission identifies significant violations during the process established in Section 105.955.14 (2), (3), RSMo or complaints received increase significantly an Investigator would be required to provide the proper oversight.

The implementation of contribution limits requires the Missouri Ethics Commission to request additional funding. Below is an outline of the additional funding. In the 2016 November General Election a Constitutional Amendment implementing contribution limits was adopted by voters. At this time, the Missouri Ethics Commission has not received the additional funding required to implement contribution limits.

The proposed provisions would implement campaign finance limits. The implementation of the above responsibilities would require the following additional resources:

- $15,120 in expense and equipment to acquire contract services that would develop the MEC internal search capabilities for oversight of the campaign finance committees' adherence to the specific contribution limits, as established in 105.955.14, RSMo. Current campaign finance data collection would allow the MEC to use search capabilities, providing for a manual review by MEC staff of adherence to the established limits.

•1 Business Analyst to conduct the routine work necessary in reviewing and providing oversight for the proposed legislation. The Business Analyst would review committee reports for compliance, prepare necessary notices, track the receipt of payment, and coordinate the necessary collection efforts. Currently two Business Analysts assist 2,800 committees in filing campaign finance reports, prepare and disseminate 15,000 notices, and review 11,000 campaign finance reports.
•If the Commission identifies significant violations during the process established in Section 105.955.14 (2), (3), RSMo or complaints received increase significantly an Investigator would be required to provide the proper oversight.

Officials from the **State Auditor's office** (SAO) indicated any additional costs can be absorbed within current appropriations.

Sean Soendker Nicholson provided the following information as a proponent of this initiative petition.

I am a proponent of the above listed initiative petitions. Pursuant to 116.175 RSMo, I submit the following information regarding the initiative petitions.

There is no cost to the state over the next two years as a result of passage of any of the initiatives. Any potential costs arising from the adoption of these proposals is minimal and can be absorbed with existing resources from the General Assembly, Missouri Ethics Commission, Attorney General's Office, Office of Administration, and other state agencies.

There is currently a State Demographer, with statutory duties that extend beyond those of legislative reapportionment. The existing State Demographer can be expected to assume the role of Non-partisan State Demographer, and there would be no fiscal impact. Certainly there can be no definitive judgment that the measure would add costs for the state.

The proposals do not establish a new program or agency so there is no duplication of existing programs. There is no federal mandate with regard to the proposals. There will be no fiscal impact on any subdivision of the state. There will be no economic impact on small businesses.

The Missouri Ethics Commission is already required to provide guidance and information to members of the General Assembly and Missouri public about campaign finance rules and lobbying rules, and is already required to respond to written complaints through conducting investigations and the related legal actions.

The State Auditor's office did not receive a response from the **Department of Elementary and Secondary Education, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri,** and **St. Louis Community College.**

Fiscal Note Summary

State governmental entities estimate annual operating costs may increase by $189,000. Local governmental entities report no fiscal impact.

STATE AUDITORS OFFICE

The Honorable Nicole Galloway
State Auditor
State Capitol Building
Jefferson City, MO 65101

RE: Petition approval request from Sean Soendker Nicholson regarding a proposed constitutional amendment to Article III, version 6 (2018-013)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Sean Soendker Nicholson on November 10, 2016.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

Jason Kander

NOTICE: You are advised that the proposed constitutional amendment may change, repeal, or modify by implication or may be construed by some persons to change, repeal or modify by implication, the following Articles and Sections of the Constitution of Missouri: Article I, Section 8 and the following Sections of the Missouri Revised Statutes: Sections 105.450 through 105.496 and Sections 130.011 through 130.160. The proposed amendment revises Article III of the Constitution by amending Sections 2, 5, 7, and 19 and adopting three new sections to be known as Article III Sections 3, 20(c), and 20(d).

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article III of the Constitution is revised by amending Sections 2, 5, 7, 19, and adopting three new sections to be known as Article III Sections 3, 20(c), and 20(d) to read as follows:

Section 2.

After the effective date of this section, no person serving as a member of or employed by the General Assembly shall act or serve as a paid lobbyist, register as a paid lobbyist, or solicit prospective employers or clients to represent as a paid lobbyist during the time of such service until the expiration of two calendar years after the conclusion of the session of the general assembly in which the member or employee last served and where such service was after the effective date of this section.

(a) No person serving as a member of or employed by the General Assembly shall accept directly or indirectly a gift of any tangible or intangible item, service, or thing of value from any paid lobbyist or lobbyist principal in excess of five dollars per occurrence. This Article shall not prevent Candidates for the General Assembly, including candidates for reelection, or candidates for offices within the senate or house from accepting campaign contributions consistent with this Article and applicable campaign finance law. Nothing in this section shall prevent individuals from receiving gifts, family support or anything of value from those related to them within the fourth degree by blood or marriage. The dollar limitations of this section shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency and rounded to the nearest dollar amount.

(c) The General Assembly shall make no law authorizing unlimited campaign contributions to candidates for the General Assembly, nor any law that circumvents the contribution limits contained in this Constitution. In addition to other campaign contribution limitations or restrictions provided for by law, the amount of contributions made to or accepted by any candidate or candidate committee from any person other than the candidate in any one election for the General Assembly shall not exceed the following:

(1) To elect an individual to the office of state senator, two thousand five hundred dollars; and

(2) To elect an individual to the office of state representative, two thousand dollars.

The contribution limits and other restrictions of this section shall also apply to any person exploring a candidacy for a public office listed in this subsection.

For purposes of this subsection, "base year amount" shall be the contribution limits prescribed in this section. Contribution limits set forth herein shall be adjusted on the first day of January in each even-numbered year hereafter by multiplying the base year amount by the cumulative consumer price index and rounded to the nearest dollar amount, for all years after 2018.

(d) No contribution to a candidate for legislative office shall be made or accepted, directly or indirectly, in a fictitious name, in the name of another person, or by or through another person in such a manner as to, or with the intent to, conceal the identity of the actual source of the contribution. There shall be a rebuttable presumption that a contribution to a candidate for public office is made or accepted with the intent to circumvent the limitations on contributions imposed in this section when a contribution is received from a committee or organization that is primarily funded by a single person, individual, or other committee that has already reached its contribution limit under any law relating to contribution limitations. A committee or organization shall be deemed to be primarily funded by a single person, individual, or other committee when the committee or organization receives more than fifty percent of its annual funding from that single person, individual, or other committee.

(e) In no circumstance shall a candidate be found to have violated limits on acceptance of contributions if the Missouri Ethics Commission, its successor agency, or a court determines that a candidate has taken no action to indicate acceptance of or acquiescence to the making of an expenditure that is deemed a contribution pursuant to this section.

(f) No candidate shall accept contributions from any federal political action committee unless the committee has filed the same financial disclosure reports that would be required of a Missouri political action committee.

Section 3.

(a) There is hereby established the post of "non-partisan state demographer." The non-partisan state demographer shall acquire appropriate information to develop procedures in preparation for drawing legislative redistricting maps on the basis of each federal census for presentation to the house apportionment commission and the senatorial apportionment commission.

(b) The non-partisan state demographer shall be selected through the following process. First, state residents may apply for selection to the state auditor using an application developed by the state auditor to determine an applicant's qualifications and expertise relevant to the position. Second, the state auditor shall deliver to the majority leader and minority leader of the senate a list of at least three applicants with sufficient expertise and qualifications, as determined by the state auditor, to perform the duties of the non-partisan state demographer. Third, if the majority leader and minority leader of the senate together agree that a specific applicant should be selected to be the non-partisan state demographer, that applicant shall be selected and the selection process shall cease. Fourth, if the majority leader and minority leader of the senate cannot together agree on an applicant, they may each remove a number of applicants on the state auditor's list equal to one-third of the total number of applicants on that list, rounded down to the next integer, and the state auditor shall then conduct a random lottery of the applicants remaining after removal to select the non-partisan state demographer. The state auditor shall prescribe a time frame and deadlines for this application and selection process that both encourages numerous qualified applicants and avoids delay in selection. The non-partisan state demographer shall serve a term of five years and may be reappointed. To be eligible for the non-partisan state demographer position an individual shall not have served in a partisan, elected position for four years prior to the appointment. The non-partisan state demographer shall be disqualified from holding office as a member of the general assembly for four years following the date of the presentation of his or her most recent legislative redistricting map to the house apportionment commission or the senatorial apportionment commission.

(c) The house of representatives shall consist of one hundred sixty-three members elected at each general election and apportioned [in the following manner:] as provided in this section.

(1) Within ten days after the population of this state is reported to the President for each decennial census of the United States or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within ten days after such a ruling has been made, the non-partisan state demographer shall begin the preparation of legislative districting plans and maps using the following methods, listed in order of priority:

(a) Districts shall be established on the basis of total population. Legislative districts shall each have a total population as nearly equal as practicable to the ideal population for such districts, determined by dividing the number of districts to be established into the total population of the state reported in the federal decennial census.

(b) Districts shall be established in a manner so as to comply with all requirements of the United States

18-013

Constitution and applicable federal laws, including, but not limited to, the Voting Rights Act of 1965 (as amended). Notwithstanding any other provision of this Article, districts shall not be drawn with the intent or result of denying or abridging the equal opportunity of racial or language minorities to participate in the political process or diminishing their ability to elect representatives of their choice, whether by themselves or by voting in concert with other persons.

Districts shall be established in a manner which maximizes partisan fairness and competitiveness treating similarly-situated parties equitably so that each receives the same fraction of legislative seats for a particular vote percentage as the other party would receive if it had received the same percentage of the vote. The non-partisan state demographer shall draw districts that meet as closely as possible the tests for partisan fairness and competitiveness.

To that end, the non-partisan state demographer shall calculate a district party partisan performance index for each district by determining the number of votes cast for the two top vote- getting parties in each district and then calculating the percentage of those votes won by each of the two parties casting the highest vote for governor at the last three preceding gubernatorial elections, for United States Senate at the last three preceding United States Senate elections, and for President of the United States at the last three preceding Presidential elections. The party partisan performance index for each district will then be averaged to create a statewide electoral performance index. Using the resultant statewide electoral performance index, the non-partisan state demographer shall test the plan, simulating an evenly split statewide election by normalizing district party partisan performance indices by the amount by which the statewide electoral performance index varies from fifty percent. In a hypothetical evenly divided statewide election under the proposed plan, the legislative seats should be distributed evenly between parties.

The non-partisan state demographer shall promote competitiveness by ensuring the plan is drawn so as to be equally responsive to surges in the electorate favoring either party. To test this, the non-partisan state demographer shall again use the normalized district-level results within the proposed plan to simulate separate elections in which the hypothetical statewide vote varies from fifty percent by one percent, two percent, three percent, four percent and five percent in favor of each party. The number of additional seats yielded by the simulation for any party for any amount it performs over fifty percent should be matched by the number of seats gained by the other party when it performs the same amount over fifty percent.

(c) Subject to the requirements of subdivisions (1)(a) and (1)(b), districts shall be composed of contiguous territory. Areas which meet only at the points of adjoining corners are not contiguous.

(d) To the extent consistent with subdivisions (1)(a) - (1)(c) of this subsection, district boundaries shall coincide with the boundaries of political subdivisions of the state. The number of counties and cities divided among more than one district shall be as small as possible. When there is a choice between dividing local political subdivisions, the more populous subdivisions shall be divided before the less populous, but this preference shall not apply to a legislative district boundary drawn along a county line which passes through a city that lies in more than one county.

(e) Preference shall be that districts are compact in form, but the standards established by subdivisions (1)(a) - (1)(d) of this subsection take precedence over compactness where a conflict arises between compactness and these standards. In general, compact districts are those which are square, rectangular, or hexagonal in shape to the extent permitted by natural or political boundaries.

(2) Within sixty days after the population of this state is reported to the President for each decennial census of the United States [and] or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within sixty days [after notification by the governor] that such a ruling has been made, the congressional district committee of each of the two parties casting the highest vote for governor at the last preceding election shall meet and the members of the committee shall nominate, by a majority vote of the members of the committee present, provided that a majority of the elected members is present, two members of their party, residents in that district, as nominees for reapportionment commissioners. Neither party shall select more than one nominee from any one state legislative district. The congressional committees shall each submit to the governor their list of elected nominees. Within thirty days the governor shall appoint a commission consisting of one name from each list to reapportion the state into one hundred and sixty-three representative districts and to establish the numbers and boundaries of said districts.

If any of the congressional committees fails to submit a list within such time the governor shall appoint a member of his own choice from that district and from the political party of the committee failing to make the appointment.

Members of the commission shall be disqualified from holding office as members of the general assembly for four years following the date of the filing by the commission of its final statement of apportionment.

For the purposes of this Article, the term congressional district committee or congressional district refers to the congressional district committee or the congressional district from which a congressman was last elected, or, in the event members of congress from this state have been elected at large, the term congressional district committee refers to those persons who last served as the congressional district committee for those districts from which congressmen were last elected, and the term congressional district refers to those districts from which congressmen were last elected. Any action pursuant to this section by the congressional district committee shall take place only at duly called meetings, shall be recorded in their official minutes and only members present in person shall be permitted to vote.

(3) Within six months after the population of this state is reported to the President for each decennial census of the United States or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within six months after such a ruling has been made, the non-partisan state demographer shall make public and file with the secretary of state and with the house apportionment commission a tentative plan of apportionment and map of the proposed districts, as well as all demographic and partisan data used in the creation of the plan and map.

The commissioners so selected shall, [on the fifteenth day, excluding Sundays and holidays, after all members have been selected] within ten days of receiving the tentative plan of apportionment and map of the proposed districts, meet in the capitol building and proceed to organize by electing from their number a chairman, vice chairman and secretary [and]. The commission shall adopt an agenda establishing at least three hearing dates on which hearings open to the public shall be held to hear objections or testimony from interested persons. A copy of the agenda shall be filed with the clerk of the house of representatives within twenty-four hours after its adoption. Executive meetings may be scheduled and held as often as the commission deems advisable.

The commission may make changes to the tentative plan of apportionment and map of the proposed districts received from the non-partisan state demographer provided that such changes are consistent with this section and approved by a vote of at least seven-tenths of the commissioners. If no changes are made or approved as provided for in this subsection, the tentative plan of apportionment and map of proposed districts shall become final. Not later than two months of receiving the tentative plan of apportionment and map of the proposed districts, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts.

18-013

[The commission shall reapportion the representatives by dividing the population of the state by the number one hundred sixty-three and shall establish each district so that the population of that district shall, as nearly as possible, equal that figure.

Each district shall be composed of contiguous territory as compact as may be.

Not later than five months after the appointment of the commission the commission shall receive the tentative plan of apportionment and map of the proposed districts ordered in subsection 4 of this section and during the ensuing fifteen days shall hold such public hearings as may be necessary to hear objections or testimony of interested persons.

Not later than six months after the appointment of the commission, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts, and no statement shall be valid unless approved by at least seven-tenths of the members.

After the statement is filed members of the house of representatives shall be elected according to such districts until a reapportionment is made as herein provided, except that if the statement is not filed within six months of the time fixed for the appointment of the commission, it shall stand discharged and the house of representatives shall be apportioned by a commission of six members appointed from among the judges of the appellate courts of the state of Missouri by the state supreme court, a majority of whom shall sign and file its apportionment plan and map with the secretary of state within ninety days of the date of the discharge of the apportionment commission. Thereafter members of the house of representatives shall be elected according to such districts until a reapportionment is made as herein provided.]

Each member of the commission shall receive as compensation fifteen dollars a day for each day the commission is in session but not more than one thousand dollars, and, in addition, shall be reimbursed for his actual and necessary expenses incurred while serving as a member of the commission.

No reapportionment shall be subject to the referendum.

Section 5.

(a) The Senate shall consist of thirty-four members elected by the qualified voters of the senatorial [respective] districts for a term of four years. [For the election of senators, the state shall be divided into convenient districts of contiguous territory, as compact and nearly equal in population as may be.] Senatorial districts shall be apportioned as provided for in Article III, Section 7.

Section 7.

(1) Within ten days after the population of this state is reported to the President for each decennial census of the United States or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within ten days after such a ruling has been made, the non-partisan state demographer authorized in Article III Section 3, shall begin the preparation of senatorial districting plans and maps using the same methods and criteria as those required by Article III, Section 3 for the establishment of districts for the House of Representatives.

(2) Within sixty days after the population of this state is reported to the President for each decennial census of the United States, [and] or within sixty days after [notification by the governor that] a reapportionment has been invalidated by a court of competent jurisdiction, the state committee of each of the two political parties casting the highest vote for governor at the last preceding election shall, at a committee meeting duly called, select by a vote of the individual committee members, and thereafter submit to the governor a list of ten persons, and within thirty days thereafter the governor shall appoint a commission of ten members, five from each list, to reapportion the thirty-four senatorial districts and to establish the numbers and boundaries of said districts.

If either of the party committees fails to submit a list within such time the governor shall appoint five members of his own choice from the party of the committee so failing to act.

Members of the commission shall be disqualified from holding office as members of the general assembly for four years following the date of the filing by the commission of its final statement of apportionment.

(3) Within six months after the population of this state is reported to the President for each decennial census of the United States or in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within six months after such a ruling has been made, the non-partisan state demographer shall file with the secretary of state and with the senatorial apportionment commission a tentative plan of apportionment and map of the proposed districts.

The commissioners so selected shall [on the fifteenth day, excluding Sundays and holidays, after all members have been selected] within ten days of receiving the tentative plan of apportionment and map of the proposed districts required by subsection (d) of this section, meet in the capitol building and proceed to organize by electing from their number a chairman, vice chairman and secretary [and]. The commission shall adopt an agenda establishing at least three hearing dates on which hearings open to the public shall be held to hear objections or testimony from interested persons. A copy of the agenda shall be filed with the secretary of the senate within twenty-four hours after its adoption. Executive meetings may be scheduled and held as often as the commission deems advisable. The commission may make changes to the tentative plan of apportionment and map of the proposed districts received from the non-partisan state demographer provided that such changes are consistent with this Section and the methods and criteria required by Section 3 of this Article for the establishment of districts for the House of Representatives and approved by a vote of at least seven-tenths of the commissioners. If no changes are made or approved as provided for in this subsection, the tentative plan of apportionment and map of proposed districts shall become final. Not later than two months after receiving the tentative plan of apportionment and map of the proposed districts, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts.

[The commission shall reapportion the senatorial districts by dividing the population of the state by the number thirty-four and shall establish each district so that the population of that district shall, as nearly as possible, equal that figure; no county lines shall be crossed except when necessary to add sufficient population to a multi-district county or city to complete only one district which lies partly within such multi-district county or city so as to be as nearly equal as practicable in population. Any county with a population in excess of the quotient obtained by dividing the population of the state by the number thirty-four is hereby declared to be a multi-district county.

Not later than five months after the appointment of the commission the commission shall file with the secretary of state a tentative plan of apportionment and map of the proposed districts and during the ensuing fifteen days shall hold such public hearings as may be necessary to hear objections or testimony of interested persons.

Not later than six months after the appointment of the commission, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts, and no statement shall be valid unless

18-013

approved by at least seven members.

After the statement is filed senators shall be elected according to such districts until a reapportionment is made as herein provided, except that if the statement is not filed within six months of the time fixed for the appointment of the commission, it shall stand discharged and the senate shall be apportioned by a commission of six members appointed from among the judges of the appellate courts of the state of Missouri by the state supreme court, a majority of whom shall sign and file its apportionment plan and map with the secretary of state within ninety days of the date of the discharge of the apportionment commission. Thereafter senators shall be elected according to such districts until a reapportionment is made as herein provided.]

Each member of the commission shall receive as compensation fifteen dollars a day for each day the commission is in session, but not more than one thousand dollars, and, in addition, shall be reimbursed for his actual and necessary expenses incurred while serving as a member of the commission.

No reapportionment shall be subject to the referendum.

Section 19.

(a) Senators and representatives shall, in all cases except treason, felony, offenses under this Article, or breach of the peace, be privileged from arrest during the session of the general assembly, and for the fifteen days next before the commencement and after the termination of each session; and they shall not be questioned for any speech or debate in either house in any other place.

(b) Legislative records shall be public records and subject to generally applicable state laws governing public access to public records, including the "Sunshine Law." Legislative records include, but are not limited to, all records, in whatever form or format, of the official acts of the general assembly, of the official acts of legislative committees, of the official acts of members of the general assembly, of individual legislators, their employees and staff, of the conduct of legislative business and all records that are created, stored or distributed through legislative branch facilities, equipment or mechanisms, including electronic. Each member of the general assembly is the custodian of legislative records under the custody and control of the member, their employees and staff. The chief clerk of the house or the secretary of the senate are the custodians for all other legislative records relating to the house and the senate, respectively.

(c) Legislative proceedings, including committee proceedings, shall be public meetings subject to generally applicable law governing public access to public meetings, including the "Sunshine Law." Open public meetings of legislative proceedings shall be subject to recording by citizens, so long as the proceedings are not materially disrupted.

Section 20(c).

No political fundraising activities or political fundraising event by any member of or candidate for the general assembly, including but not limited to the solicitation or delivery of contributions, supporting or opposing any candidate, initiative petition, referendum petition, ballot measure, political party or political committee, shall occur in or on any premises, property or building owned, leased or controlled by the State of Missouri or any agency or division thereof. Any purposeful violation of this section shall be punishable by imprisonment for up to one year or a fine of up to one thousand dollars or both, plus an amount equal to three times the illegal contributions. The Missouri Ethics Commission or its successor agency is authorized to enforce this section as provided by law.

Section 20(d).

If any provision of sections 2, 3, 5, 7, 19, or 20(c) or the application thereof to anyone or to any circumstance is held invalid, the remainder of those provisions and the application of such provisions to others or other circumstances shall not be affected thereby.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-013)

Subject

Initiative petition from Sean Soendker Nicholson regarding a proposed constitutional amendment to Article III. (Received November 14, 2016)

Date

December 5, 2016

Description

This proposal would amend Article III of the Missouri Constitution.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** the **Missouri Ethics Commission,** and the **State Auditor's office.**

Sean Soendker Nicholson provided information as a proponent of the proposal to the State Auditor's office.

Assumptions

Officials from the **Attorney General's office** indicated they assume that any potential costs arising from the adoption of this proposal can be absorbed with existing resources.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated there is no impact to their department for this petition.

Officials from the **Department of Higher Education** indicated this initiative petition would not have a fiscal impact on their department.

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no impact.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** indicated this initiative petition has no fiscal impact on their department.

Officials from the **Department of Public Safety** indicated they see no fiscal impact due to this initiative petition.

Officials from the **Department of Social Services** indicated no fiscal impact on their department.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to that institution.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated no fiscal impact.

Officials from the **Office of Administration** indicated this initiative petition revises Article III of the Missouri Constitution by amending Sections 2, 5, 7, and 19 and enacting three new sections.

Legislators and their employees are prohibited from lobbying for at least two years after the conclusion of the session during which they vacate office, and from acting as paid consultants while in office. Legislators and their staff are prohibited from accepting a gift in excess of five dollars, per occurrence.

The initiative creates the post of "non-partisan State Demographer" to oversee the redistricting process for the state House and Senate districts. The demographer is to be selected by a process involving the State Auditor and the Senate majority and minority leaders. Note that the wording is unclear on this process because the only State Auditor list mentioned in the list of three names. Therefore, if each the minority and the majority member are allowed to remove one-third of the list, they may each remove one person, leaving only one choice left, so no random lottery would be necessary. This demographer will be unable to hold elected office for four years following the filing of the new legislative districts. The redistricting process shall maximize partisan fairness and competitiveness.

It mandates that legislative records which are created, stored or distributed through legislative branch facilities, equipment or mechanisms shall be public. It allows explicitly identifies legislative proceedings as open meetings and authorizes recording of such proceedings by citizens.

Political fundraising activities and events may not be held in any location owned by, or under the control of, the State of Missouri.

Campaign contributions for state senators are limited to $2,500 and representatives are limited to $2,000, with CPI adjustments made in even-numbered years. Also, contributions from federal political action committees are prohibited unless the committee has filed the same financial disclosure reports that would be required of a Missouri political action committee.

This proposal could have an impact on their office. There is currently a State Demographer, with statutory duties that extend beyond those of legislative reapportionment. If the existing State Demographer would be chosen to assume the role of "Non-partisan State Demographer", there would be no fiscal impact. However, if that post is filled by another individual, the salary and benefits costs would be an estimated $128,513 in FY 2021, adjusted for inflation. In either scenario, the cost for other staff hired for the purposes of redistricting would remain the same.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated no fiscal impact on that institution.

Officials from the **Secretary of State's office** indicated their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any significant impact on their office.

Officials from the **State Treasurer's office** indicated this would have no fiscal impact on their office.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from the **City of Columbia** indicated no apparent impact on their city.

Officials from the **City of Kansas City** indicated no fiscal impact is anticipated if this proposal is adopted.

Officials from the **City of Raymore** indicated no fiscal impact.

Officials from the **City of St. Joseph** indicated this initiative petition should not have a fiscal impact on their local government.

Officials from the **Metropolitan Community College** indicated there is no anticipated impact for their college.

Officials from the **University of Missouri** indicated the proposed initiative petition will not have a fiscal impact on their university.

Officials from the **Missouri Ethics Commission** (MEC) indicated:

The total estimated net effect on all state funds will be $67,478 for the first year implemented, $61,107 for the second year implemented, and $61,734 for the third year implemented.

Prohibiting a statewide elected official, member of the general assembly or paid employee of general assembly from acting, serving, or registering as a lobbyist for a specified period of time after leaving office would require the following of the MEC:

- Provide information to public officials and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo., about the new statutory requirements; examples include providing education, developing informational materials, telephone and email assistance.
- Provide oversight to ensure those individuals leaving the general assembly do not register as a lobbyist with the MEC for the specified period of time. This would entail reviewing lobbyist registrations, at the time of receipt by the MEC, and comparing them to those members of the general assembly who have left office within the specified period of time. For any individual submitting a registration, create the necessary correspondence to the registrant and track the results of the correspondence.
- Respond to written complaints, as established in Section 105.955.14, RSMo., through conducting investigations and the related legal actions. Any significant increase of complaints would require additional Commission resources, including investigative staff.

Implementing prohibition for a member of general assembly, staff/employees of the general assembly to accept specified monetary lobbyist/lobbyist principal gifts would require the following of the MEC:

- Provide information to public officials and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo., about the new statutory requirements; examples include providing education, developing informational materials, telephone and email assistance.
- Provide oversight in adherence to the specific gift prohibition, including reviewing lobbyist reports as established in Section 105.959, RSMo. This oversight, it is assumed, would be primarily from receiving written complaints, as established in Section 105.955.14, RSMo., through conducting investigations and the related legal actions. It is assumed this prohibition would result in a minimal number of complaints; however, if this assumption is incorrect the Commission would require additional staff resources.

Implementing campaign finance limits would require the following of the MEC:

- Provide information to those committee officers and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo. about these limits; examples include providing education, developing informational materials, telephone and email assistance.
- Provide oversight in campaign finance committee adherence to the specific contribution limits, including reviewing, auditing, and performing cross checks of the reported contributions, as established in Section 105.955.14 (2), (3), RSMo.
- Respond to written complaints, as established in Section 105.955.14, RSMo., through conducting investigations and the related legal actions.

Oversee the prohibition of political fundraising activities or events from occurring on State of Missouri property or any agency or division thereof would require the following of the MEC:

- Provide information to those committee officers and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo. about this provision; examples include providing education, developing informational materials, telephone and email assistance.
- Provide oversight in campaign finance committee adherence to the specific restrictions, including reviewing, auditing, and performing cross checks of the reported fund raising activity, as established in Section 105.955.14 (2), (3), RSMo.
- Respond to written complaints, as established in Section 105.955.14, RSMo., through conducting investigations and the related legal actions.

In regards to all of the provisions outlined above, if the Commission identifies significant violations during the process established in Section 105.955.14 (2), (3), RSMo or complaints received increase significantly an Investigator would be required to provide the proper oversight.

The implementation of contribution limits requires the Missouri Ethics Commission to request additional funding. Below is an outline of the additional funding. In the 2016 November General Election a Constitutional Amendment implementing contribution limits was adopted by voters. At this time, the Missouri Ethics Commission has not received the additional funding required to implement contribution limits.

The proposed provisions would implement campaign finance limits. The implementation of the above responsibilities would require the following additional resources:

- $15,120 in expense and equipment to acquire contract services that would develop the MEC internal search capabilities for oversight of the campaign finance committees' adherence to the specific contribution limits, as established in 105.955.14, RSMo. Current campaign finance data collection would allow the MEC to use search capabilities, providing for a manual review by MEC staff of adherence to the established limits.

•1 Business Analyst to conduct the routine work necessary in reviewing and providing oversight for the proposed legislation. The Business Analyst would review committee reports for compliance, prepare necessary notices, track the receipt of payment, and coordinate the necessary collection efforts. Currently two Business Analysts assist 2,800 committees in filing campaign finance reports, prepare and disseminate 15,000 notices, and review 11,000 campaign finance reports.
•If the Commission identifies significant violations during the process established in Section 105.955.14 (2), (3), RSMo or complaints received increase significantly an Investigator would be required to provide the proper oversight.

Officials from the **State Auditor's office** (SAO) indicated any additional costs can be absorbed within current appropriations.

Sean Soendker Nicholson provided the following information as a proponent of this initiative petition.

I am a proponent of the above listed initiative petitions. Pursuant to 116.175 RSMo, I submit the following information regarding the initiative petitions.

There is no cost to the state over the next two years as a result of passage of any of the initiatives. Any potential costs arising from the adoption of these proposals is minimal and can be absorbed with existing resources from the General Assembly, Missouri Ethics Commission, Attorney General's Office, Office of Administration, and other state agencies.

There is currently a State Demographer, with statutory duties that extend beyond those of legislative reapportionment. The existing State Demographer can be expected to assume the role of Non-partisan State Demographer, and there would be no fiscal impact. Certainly there can be no definitive judgment that the measure would add costs for the state.

The proposals do not establish a new program or agency so there is no duplication of existing programs. There is no federal mandate with regard to the proposals. There will be no fiscal impact on any subdivision of the state. There will be no economic impact on small businesses.

The Missouri Ethics Commission is already required to provide guidance and information to members of the General Assembly and Missouri public about campaign finance rules and lobbying rules, and is already required to respond to written complaints through conducting investigations and the related legal actions.

The State Auditor's office did not receive a response from the **Department of Elementary and Secondary Education, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri,** and **St. Louis Community College.**

Fiscal Note Summary

State governmental entities estimate annual operating costs may increase by $189,000. Local governmental entities report no fiscal impact.

The Honorable Nicole Galloway
State Auditor
State Capitol Building
Jefferson City, MO 65101

RE: Petition approval request from Sean Soendker Nicholson regarding a proposed constitutional amendment to Article III, version 5 (2018-012)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Sean Soendker Nicholson on November 10, 2016.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

Jason Kander

NOTICE: You are advised that the proposed constitutional amendment may change, repeal, or modify by implication or may be construed by some persons to change, repeal or modify by implication, the following Articles and Sections of the Constitution of Missouri: Article I, Section 8 and the following Sections of the Missouri Revised Statutes: Sections 105.450 through 105.496 and Sections 130.011 through 130.160. The proposed amendment revises Article III of the Constitution by amending Sections 2, 5, 7, and 19 and adopting three new sections to be known as Article III Sections 3, 20(c), and 20(d).

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article III of the Constitution is revised by amending Sections 2, 5, 7, 19, and adopting three new sections to be known as Article III Sections 3, 20(c), and 20(d) to read as follows:

Section 2.

After the effective date of this section, no person serving as a member of or employed by the General Assembly shall act or serve as a paid lobbyist, register as a paid lobbyist, or solicit prospective employers or clients to represent as a paid lobbyist during the time of such service until the expiration of two calendar years after the conclusion of the session of the general assembly in which the member or employee last served and where such service was after the effective date of this section.

(a) No person serving as a member of or employed by the General Assembly shall accept directly or indirectly a gift of any tangible or intangible item, service, or thing of value from any paid lobbyist or lobbyist principal in excess of five dollars per occurrence. This Article shall not prevent Candidates for the General Assembly, including candidates for reelection, or candidates for offices within the senate or house from accepting campaign contributions consistent with this Article and applicable campaign finance law. Nothing in this section shall prevent individuals from receiving gifts, family support or anything of value from those related to them within the fourth degree by blood or marriage. The dollar limitations of this section shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency and rounded to the nearest dollar amount.

(c) The General Assembly shall make no law authorizing unlimited campaign contributions to candidates for the General Assembly, nor any law that circumvents the contribution limits contained in this Constitution. In addition to other campaign contribution limitations or restrictions provided for by law, the amount of contributions made to or accepted by any candidate or candidate committee from any person other than the candidate in any one election for the General Assembly shall not exceed the following:

(1) To elect an individual to the office of state senator, two thousand five hundred dollars; and

(2) To elect an individual to the office of state representative, two thousand dollars.

The contribution limits and other restrictions of this section shall also apply to any person exploring a candidacy for a public office listed in this subsection.

For purposes of this subsection, "base year amount" shall be the contribution limits prescribed in this section. Contribution limits set forth herein shall be adjusted on the first day of January in each even-numbered year hereafter by multiplying the base year amount by the cumulative consumer price index and rounded to the nearest dollar amount, for all years after 2018.

(d) No contribution to a candidate for legislative office shall be made or accepted, directly or indirectly, in a fictitious name, in the name of another person, or by or through another person in such a manner as to, or with the intent to, conceal the identity of the actual source of the contribution. There shall be a rebuttable presumption that a contribution to a candidate for public office is made or accepted with the intent to circumvent the limitations on contributions imposed in this section when a contribution is received from a committee or organization that is primarily funded by a single person, individual, or other committee that has already reached its contribution limit under any law relating to contribution limitations. A committee or organization shall be deemed to be primarily funded by a single person, individual, or other committee when the committee or organization receives more than fifty percent of its annual funding from that single person, individual, or other committee.

(e) In no circumstance shall a candidate be found to have violated limits on acceptance of contributions if the Missouri Ethics Commission, its successor agency, or a court determines that a candidate has taken no action to indicate acceptance of or acquiescence to the making of an expenditure that is deemed a contribution pursuant to this section.

(f) No candidate shall accept contributions from any federal political action committee unless the committee has filed the same financial disclosure reports that would be required of a Missouri political action committee.

Section 3.

(a) There is hereby established the post of "non-partisan state demographer." The non-partisan state demographer shall acquire appropriate information to develop procedures in preparation for drawing legislative redistricting maps on the basis of each federal census for presentation to the house apportionment commission and the senatorial apportionment commission.

(b) The non-partisan state demographer shall be appointed by the Governor through a merit based process. The non-partisan state demographer shall serve a term of five years and may be reappointed. To be eligible for the non-partisan state demographer position an individual shall not have served in a partisan, elected position for four years prior to the appointment. The non-partisan state demographer shall be disqualified from holding office as a member of the general assembly for four years following the date of the presentation of his or her most recent legislative redistricting map to the house apportionment commission or the senatorial apportionment commission.

(c) The house of representatives shall consist of one hundred sixty-three members elected at each general election and apportioned [in the following manner:] as provided in this section.

(1) Within ten days after the population of this state is reported to the President for each decennial census of the United States or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within ten days after such a ruling has been made, the non-partisan state demographer shall begin the preparation of legislative districting plans and maps using the following methods, listed in order of priority:

(a) Districts shall be established on the basis of total population. Legislative districts shall each have a total population as nearly equal as practicable to the ideal population for such districts, determined by dividing the number of districts to be established into the total population of the state reported in the federal decennial census.

(b) Districts shall be established in a manner so as to comply with all requirements of the United States Constitution and applicable federal laws, including, but not limited to, the Voting Rights Act of 1965 (as amended). Notwithstanding any other provision of this Article, districts shall not be drawn with the intent or result of denying or abridging the equal opportunity of racial or language minorities to participate in the political process or diminishing their ability to elect representatives of their choice, whether by themselves or by voting in concert with other persons.

Districts shall be established in a manner which maximizes partisan fairness and competitiveness treating similarly-situated parties equitably so that each receives the same fraction of legislative seats for a particular vote percentage as the other party

18-012

would receive if it had received the same percentage of the vote. The non-partisan state demographer shall draw districts that meet as closely as possible the tests for partisan fairness and competitiveness.

To that end, the non-partisan state demographer shall calculate a district party partisan performance index for each district by determining the number of votes cast for the two top vote- getting parties in each district and then calculating the percentage of those votes won by each of the two parties casting the highest vote for governor at the last three preceding gubernatorial elections, for United States Senate at the last three preceding United States Senate elections, and for President of the United States at the last three preceding Presidential elections. The party partisan performance index for each district will then be averaged to create a statewide electoral performance index. Using the resultant statewide electoral performance index, the non-partisan state demographer shall test the plan, simulating an evenly split statewide election by normalizing district party partisan performance indices by the amount by which the statewide electoral performance index varies from fifty percent. In a hypothetical evenly divided statewide election under the proposed plan, the legislative seats should be distributed evenly between parties.

The non-partisan state demographer shall promote competitiveness by ensuring the plan is drawn so as to be equally responsive to surges in the electorate favoring either party. To test this, the non-partisan state demographer shall again use the normalized district-level results within the proposed plan to simulate separate elections in which the hypothetical statewide vote varies from fifty percent by one percent, two percent, three percent, four percent and five percent in favor of each party. The number of additional seats yielded by the simulation for any party for any amount it performs over fifty percent should be matched by the number of seats gained by the other party when it performs the same amount over fifty percent.

(c) Subject to the requirements of subdivisions (1)(a) and (1)(b), districts shall be composed of contiguous territory. Areas which meet only at the points of adjoining corners are not contiguous.

(d) To the extent consistent with subdivisions (1)(a) – (1)(c) of this subsection, district boundaries shall coincide with the boundaries of political subdivisions of the state. The number of counties and cities divided among more than one district shall be as small as possible. When there is a choice between dividing local political subdivisions, the more populous subdivisions shall be divided before the less populous, but this preference shall not apply to a legislative district boundary drawn along a county line which passes through a city that lies in more than one county.

(e) Preference shall be that districts are compact in form, but the standards established by subdivisions (1)(a) – (1)(d) of this subsection take precedence over compactness where a conflict arises between compactness and these standards. In general, compact districts are those which are square, rectangular, or hexagonal in shape to the extent permitted by natural or political boundaries.

(2) Within sixty days after the population of this state is reported to the President for each decennial census of the United States [and] or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within sixty days [after notification by the governor] that such a ruling has been made, the congressional district committee of each of the two parties casting the highest vote for governor at the last preceding election shall meet and the members of the committee shall nominate, by a majority vote of the members of the committee present, provided that a majority of the elected members is present, two members of their party, residents in that district, as nominees for reapportionment commissioners. Neither party shall select more than one nominee from any one state legislative district. The congressional committees shall each submit to the governor their list of elected nominees. Within thirty days the governor shall appoint a commission consisting of one name from each list to reapportion the state into one hundred and sixty-three representative districts and to establish the numbers and boundaries of said districts.

If any of the congressional committees fails to submit a list within such time the governor shall appoint a member of his own choice from that district and from the political party of the committee failing to make the appointment.

Members of the commission shall be disqualified from holding office as members of the general assembly for four years following the date of the filing by the commission of its final statement of apportionment.

For the purposes of this Article, the term congressional district committee or congressional district refers to the congressional district committee or the congressional district from which a congressman was last elected, or, in the event members of congress from this state have been elected at large, the term congressional district committee refers to those persons who last served as the congressional district committee for those districts from which congressmen were last elected, and the term congressional district refers to those districts from which congressmen were last elected. Any action pursuant to this section by the congressional district committee shall take place only at duly called meetings, shall be recorded in their official minutes and only members present in person shall be permitted to vote.

(3) Within six months after the population of this state is reported to the President for each decennial census of the United States or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within six months after such a ruling has been made, the non-partisan state demographer shall make public and file with the secretary of state and with the house apportionment commission a tentative plan of apportionment and map of the proposed districts, as well as all demographic and partisan data used in the creation of the plan and map.

The commissioners so selected shall, [on the fifteenth day, excluding Sundays and holidays, after all members have been selected] within ten days of receiving the tentative plan of apportionment and map of the proposed districts, meet in the capitol building and proceed to organize by electing from their number a chairman, vice chairman and secretary[and]. The commission shall adopt an agenda establishing at least three hearing dates on which hearings open to the public shall be held to hear objections or testimony from interested persons. A copy of the agenda shall be filed with the clerk of the house of representatives within twenty-four hours after its adoption. Executive meetings may be scheduled and held as often as the commission deems advisable.

The commission may make changes to the tentative plan of apportionment and map of the proposed districts received from the non-partisan state demographer provided that such changes are consistent with this section and approved by a vote of at least seven-tenths of the commissioners. If no changes are made or approved as provided for in this subsection, the tentative plan of apportionment and map of proposed districts shall become final. Not later than two months of receiving the tentative plan of apportionment and map of the proposed districts, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts.

[The commission shall reapportion the representatives by dividing the population of the state by the number one hundred sixty-three and shall establish each district so that the population of that district shall, as nearly as possible, equal that figure.

Each district shall be composed of contiguous territory as compact as may be.

Not later than five months after the appointment of the commission the commission shall receive the tentative plan of apportionment and map of the proposed districts ordered in subsection 4 of this section and during the ensuing fifteen days shall hold such public hearings as may be necessary to hear objections or testimony of interested persons.

18-012

Not later than six months after the appointment of the commission, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts, and no statement shall be valid unless approved by at least seven-tenths of the members.

After the statement is filed members of the house of representatives shall be elected according to such districts until a reapportionment is made as herein provided, except that if the statement is not filed within six months of the time fixed for the appointment of the commission, it shall stand discharged and the house of representatives shall be apportioned by a commission of six members appointed from among the judges of the appellate courts of the state of Missouri by the state supreme court, a majority of whom shall sign and file its apportionment plan and map with the secretary of state within ninety days of the date of the discharge of the apportionment commission. Thereafter members of the house of representatives shall be elected according to such districts until a reapportionment is made as herein provided.]

Each member of the commission shall receive as compensation fifteen dollars a day for each day the commission is in session but not more than one thousand dollars, and, in addition, shall be reimbursed for his actual and necessary expenses incurred while serving as a member of the commission.

No reapportionment shall be subject to the referendum.

Section 5.

(a) The Senate shall consist of thirty-four members elected by the qualified voters of the senatorial [respective] districts for a term of four years. [For the election of senators, the state shall be divided into convenient districts of contiguous territory, as compact and nearly equal in population as may be.] Senatorial districts shall be apportioned as provided for in Article III, Section 7.

Section 7.

(1) Within ten days after the population of this state is reported to the President for each decennial census of the United States or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within ten days after such a ruling has been made, the non-partisan state demographer authorized in Article III Section 3, shall begin the preparation of senatorial districting plans and maps using the same methods and criteria as those required by Article III, Section 3 for the establishment of districts for the House of Representatives.

(2) Within sixty days after the population of this state is reported to the President for each decennial census of the United States, [and] or within sixty days after [notification by the governor that] a reapportionment has been invalidated by a court of competent jurisdiction, the state committee of each of the two political parties casting the highest vote for governor at the last preceding election shall, at a committee meeting duly called, select by a vote of the individual committee members, and thereafter submit to the governor a list of ten persons, and within thirty days thereafter the governor shall appoint a commission of ten members, five from each list, to reapportion the thirty-four senatorial districts and to establish the numbers and boundaries of said districts.

If either of the party committees fails to submit a list within such time the governor shall appoint five members of his own choice from the party of the committee so failing to act.

Members of the commission shall be disqualified from holding office as members of the general assembly for four years following the date of the filing by the commission of its final statement of apportionment.

(3) Within six months after the population of this state is reported to the President for each decennial census of the United States or in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within six months after such a ruling has been made, the non-partisan state demographer shall file with the secretary of state and with the senatorial apportionment commission a tentative plan of apportionment and map of the proposed districts.

The commissioners so selected shall [on the fifteenth day, excluding Sundays and holidays, after all members have been selected] within ten days of receiving the tentative plan of apportionment and map of the proposed districts required by subsection (d) of this section, meet in the capitol building and proceed to organize by electing from their number a chairman, vice chairman and secretary [and]. The commission shall adopt an agenda establishing at least three hearing dates on which hearings open to the public shall be held to hear objections or testimony from interested persons. A copy of the agenda shall be filed with the secretary of the senate within twenty-four hours after its adoption. Executive meetings may be scheduled and held as often as the commission deems advisable. The commission may make changes to the tentative plan of apportionment and map of the proposed districts received from the non-partisan state demographer provided that such changes are consistent with this Section and the methods and criteria required by Section 3 of this Article for the establishment of districts for the House of Representatives and approved by a vote of at least seven-tenths of the commissioners. If no changes are made or approved as provided for in this subsection, the tentative plan of apportionment and map of proposed districts shall become final. Not later than two months after receiving the tentative plan of apportionment and map of the proposed districts, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts.

[The commission shall reapportion the senatorial districts by dividing the population of the state by the number thirty-four and shall establish each district so that the population of that district shall, as nearly as possible, equal that figure; no county lines shall be crossed except when necessary to add sufficient population to a multi-district county or city to complete only one district which lies partly within such multi-district county or city so as to be as nearly equal as practicable in population. Any county with a population in excess of the quotient obtained by dividing the population of the state by the number thirty-four is hereby declared to be a multi-district county.

Not later than five months after the appointment of the commission the commission shall file with the secretary of state a tentative plan of apportionment and map of the proposed districts and during the ensuing fifteen days shall hold such public hearings as may be necessary to hear objections or testimony of interested persons.

Not later than six months after the appointment of the commission, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts, and no statement shall be valid unless approved by at least seven members.

After the statement is filed senators shall be elected according to such districts until a reapportionment is made as herein provided, except that if the statement is not filed within six months of the time fixed for the appointment of the commission, it shall stand discharged and the senate shall be apportioned by a commission of six members appointed from among the judges of the appellate courts of the state of Missouri by the state supreme court, a majority of whom shall sign and file its apportionment plan and map with the secretary of state within ninety days of the date of the discharge of the apportionment commission. Thereafter senators shall be elected according to such districts until a reapportionment is made as herein provided.]

18-012

Each member of the commission shall receive as compensation fifteen dollars a day for each day the commission is in session, but not more than one thousand dollars, and, in addition, shall be reimbursed for his actual and necessary expenses incurred while serving as a member of the commission.

No reapportionment shall be subject to the referendum.

Section 19.

(a) Senators and representatives shall, in all cases except treason, felony, offenses under this Article, or breach of the peace, be privileged from arrest during the session of the general assembly, and for the fifteen days next before the commencement and after the termination of each session; and they shall not be questioned for any speech or debate in either house in any other place.

(b) Legislative records shall be public records and subject to generally applicable state laws governing public access to public records, including the "Sunshine Law." Legislative records include, but are not limited to, all records, in whatever form or format, of the official acts of the general assembly, of the official acts of legislative committees, of the official acts of members of the general assembly, of individual legislators, their employees and staff, of the conduct of legislative business and all records that are created, stored or distributed through legislative branch facilities, equipment or mechanisms, including electronic. Each member of the general assembly is the custodian of legislative records under the custody and control of the member, their employees and staff. The chief clerk of the house or the secretary of the senate are the custodians for all other legislative records relating to the house and the senate, respectively.

(c) Legislative proceedings, including committee proceedings, shall be public meetings subject to generally applicable law governing public access to public meetings, including the "Sunshine Law." Open public meetings of legislative proceedings shall be subject to recording by citizens, so long as the proceedings are not materially disrupted.

Section 20(c).

No political fundraising activities or political fundraising event by any member of or candidate for the general assembly, including but not limited to the solicitation or delivery of contributions, supporting or opposing any candidate, initiative petition, referendum petition, ballot measure, political party or political committee, shall occur in or on any premises, property or building owned, leased or controlled by the State of Missouri or any agency or division thereof. Any purposeful violation of this section shall be punishable by imprisonment for up to one year or a fine of up to one thousand dollars or both, plus an amount equal to three times the illegal contributions. The Missouri Ethics Commission or its successor agency is authorized to enforce this section as provided by law.

Section 20(d).

If any provision of sections 2, 3, 5, 7, 19, or 20(c) or the application thereof to anyone or to any circumstance is held invalid, the remainder of those provisions and the application of such provisions to others or other circumstances shall not be affected thereby.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-012)

Subject

Initiative petition from Sean Soendker Nicholson regarding a proposed constitutional amendment to Article III. (Received November 14, 2016)

Date

December 5, 2016

Description

This proposal would amend Article III of the Missouri Constitution.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** the **Missouri Ethics Commission,** and the **State Auditor's office.**

Sean Soendker Nicholson provided information as a proponent of the proposal to the State Auditor's office.

Assumptions

Officials from the **Attorney General's office** indicated they assume that any potential costs arising from the adoption of this proposal can be absorbed with existing resources.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated there is no impact to their department for this petition.

Officials from the **Department of Higher Education** indicated this initiative petition would not have a fiscal impact on their department.

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no impact.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** indicated this initiative petition has no fiscal impact on their department.

Officials from the **Department of Public Safety** indicated they see no fiscal impact due to this initiative petition.

Officials from the **Department of Social Services** indicated no fiscal impact on their department.

Officials from the **Governor's office** indicated the Governor is responsible for appointing a non-partisan State Demographer; however, there should be no added costs or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to that institution.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated no fiscal impact.

Officials from the **Office of Administration** indicated this initiative petition revises Article III of the Missouri Constitution by amending Sections 2, 5, 7, and 19 and enacting three new sections.

Legislators and their employees are prohibited from lobbying for at least two years after the conclusion of the session during which they vacate office, and from acting as paid consultants while in office. Legislators and their staff are prohibited from accepting a gift in excess of five dollars, per occurrence.

The initiative creates the post of "non-partisan State Demographer" to oversee the redistricting process for the state House and Senate districts. The demographer is to be selected by the Governor through a merit-based process. This demographer will be unable to hold elected office for four years following the filing of the new legislative districts. The redistricting process shall maximize partisan fairness and competitiveness.

It mandates that legislative records which are created, stored or distributed through legislative branch facilities, equipment or mechanisms shall be public. It allows explicitly identifies legislative proceedings as open meetings and authorizes recording of such proceedings by citizens.

Political fundraising activities and events may not be held in any location owned by, or under the control of, the State of Missouri.

Campaign contributions for state senators are limited to $2,500 and representatives are limited to $2,000, with CPI adjustments made in even-numbered years. Also, contributions from federal political action committees are prohibited unless the committee has filed the same financial disclosure reports that would be required of a Missouri political action committee.

This proposal could have an impact on their office. There is currently a State Demographer, with statutory duties that extend beyond those of legislative reapportionment. If the existing State Demographer would be chosen to assume the role of "Non-partisan State Demographer", there would be no fiscal impact. However, if that post is filled by another individual, the salary and benefits costs would be an estimated $128,513 in FY 2021, adjusted for inflation. In either scenario, the cost for other staff hired for the purposes of redistricting would remain the same.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated no fiscal impact on that institution.

Officials from the **Secretary of State's office** indicated their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any significant impact on their office.

Officials from the **State Treasurer's office** indicated this would have no fiscal impact on their office.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from the **City of Columbia** indicated no apparent impact on their city.

Officials from the **City of Kansas City** indicated no fiscal impact is anticipated if this proposal is adopted.

Officials from the **City of Raymore** indicated no fiscal impact.

Officials from the **City of St. Joseph** indicated this initiative petition should not have a fiscal impact on their local government.

Officials from the **Metropolitan Community College** indicated there is no anticipated impact for their college.

Officials from the **University of Missouri** indicated the proposed initiative petition will not have a fiscal impact on their university.

Officials from the **Missouri Ethics Commission** (MEC) indicated:

The total estimated net effect on all state funds will be $67,478 for the first year implemented, $61,107 for the second year implemented, and $61,734 for the third year implemented.

Prohibiting a statewide elected official, member of the general assembly or paid employee of general assembly from acting, serving, or registering as a lobbyist for a specified period of time after leaving office would require the following of the MEC:

- Provide information to public officials and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo., about the new statutory requirements; examples include providing education, developing informational materials, telephone and email assistance.
- Provide oversight to ensure those individuals leaving the general assembly do not register as a lobbyist with the MEC for the specified period of time. This would entail reviewing lobbyist registrations, at the time of receipt by the MEC, and comparing them to those members of the general assembly who have left office within the specified period of time. For any individual submitting a registration, create the necessary correspondence to the registrant and track the results of the correspondence.
- Respond to written complaints, as established in Section 105.955.14, RSMo., through conducting investigations and the related legal actions. Any significant increase of complaints would require additional Commission resources, including investigative staff.

Implementing prohibition for a member of general assembly, staff/employees of the general assembly to accept specified monetary lobbyist/lobbyist principal gifts would require the following of the MEC:

- Provide information to public officials and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo., about the new statutory requirements; examples include providing education, developing informational materials, telephone and email assistance.
- Provide oversight in adherence to the specific gift prohibition, including reviewing lobbyist reports as established in Section 105.959, RSMo. This oversight, it is assumed, would be primarily from receiving written complaints, as established in Section 105.955.14, RSMo., through conducting investigations and the related legal actions. It is assumed this prohibition would result in a minimal number of complaints; however, if this assumption is incorrect the Commission would require additional staff resources.

Implementing campaign finance limits would require the following of the MEC:

- Provide information to those committee officers and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo. about these limits; examples include providing education, developing informational materials, telephone and email assistance.
- Provide oversight in campaign finance committee adherence to the specific contribution limits, including reviewing, auditing, and performing cross checks of the reported contributions, as established in Section 105.955.14 (2), (3), RSMo.
- Respond to written complaints, as established in Section 105.955.14, RSMo., through conducting investigations and the related legal actions.

Oversee the prohibition of political fundraising activities or events from occurring on State of Missouri property or any agency or division thereof would require the following of the MEC:

- Provide information to those committee officers and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo. about this provision; examples include providing education, developing informational materials, telephone and email assistance.
- Provide oversight in campaign finance committee adherence to the specific restrictions, including reviewing, auditing, and performing cross checks of the reported fund raising activity, as established in Section 105.955.14 (2), (3), RSMo.
- Respond to written complaints, as established in Section 105.955.14, RSMo., through conducting investigations and the related legal actions.

In regards to all of the provisions outlined above, if the Commission identifies significant violations during the process established in Section 105.955.14 (2), (3), RSMo or complaints received increase significantly an Investigator would be required to provide the proper oversight.

The implementation of contribution limits requires the Missouri Ethics Commission to request additional funding. Below is an outline of the additional funding. In the 2016 November General Election a Constitutional Amendment implementing contribution limits was adopted by voters. At this time, the Missouri Ethics Commission has not received the additional funding required to implement contribution limits.

The proposed provisions would implement campaign finance limits. The implementation of the above responsibilities would require the following additional resources:

- $15,120 in expense and equipment to acquire contract services that would develop the MEC internal search capabilities for oversight of the campaign finance committees' adherence to the specific contribution limits, as established in 105.955.14, RSMo. Current campaign finance data collection would allow the MEC to use search capabilities, providing for a manual review by MEC staff of adherence to the established limits.

•1 Business Analyst to conduct the routine work necessary in reviewing and providing oversight for the proposed legislation. The Business Analyst would review committee reports for compliance, prepare necessary notices, track the receipt of payment, and coordinate the necessary collection efforts. Currently two Business Analysts assist 2,800 committees in filing campaign finance reports, prepare and disseminate 15,000 notices, and review 11,000 campaign finance reports.
•If the Commission identifies significant violations during the process established in Section 105.955.14 (2), (3), RSMo or complaints received increase significantly an Investigator would be required to provide the proper oversight.

Officials from the **State Auditor's office** (SAO) indicated there is no fiscal impact for their office.

Sean Soendker Nicholson provided the following information as a proponent of this initiative petition.

I am a proponent of the above listed initiative petitions. Pursuant to 116.175 RSMo, I submit the following information regarding the initiative petitions.

There is no cost to the state over the next two years as a result of passage of any of the initiatives. Any potential costs arising from the adoption of these proposals is minimal and can be absorbed with existing resources from the General Assembly, Missouri Ethics Commission, Attorney General's Office, Office of Administration, and other state agencies.

There is currently a State Demographer, with statutory duties that extend beyond those of legislative reapportionment. The existing State Demographer can be expected to assume the role of Non-partisan State Demographer, and there would be no fiscal impact. Certainly there can be no definitive judgment that the measure would add costs for the state.

The proposals do not establish a new program or agency so there is no duplication of existing programs. There is no federal mandate with regard to the proposals. There will be no fiscal impact on any subdivision of the state. There will be no economic impact on small businesses.

The Missouri Ethics Commission is already required to provide guidance and information to members of the General Assembly and Missouri public about campaign finance rules and lobbying rules, and is already required to respond to written complaints through conducting investigations and the related legal actions.

The State Auditor's office did not receive a response from the **Department of Elementary and Secondary Education, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri,** and **St. Louis Community College.**

Fiscal Note Summary

State governmental entities estimate annual operating costs may increase by $189,000. Local governmental entities report no fiscal impact.

STATE AUDITORS OFFICE

November 14, 2016

The Honorable Nicole Galloway
State Auditor
State Capitol Building
Jefferson City, MO 65101

RE: Petition approval request from Sean Soendker Nicholson regarding a proposed constitutional amendment to Article III, version 4 (2018-011)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Sean Soendker Nicholson on November 10, 2016.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

Jason Kander

NOTICE: You are advised that the proposed constitutional amendment may change, repeal, or modify by implication or may be construed by some persons to change, repeal or modify by implication, the following Articles and Sections of the Constitution of Missouri: Article I, Section 8 and the following Sections of the Missouri Revised Statutes: Sections 105.450 through 105.496 and Sections 130.011 through 130.160. The proposed amendment revises Article III of the Constitution by amending Sections 2, 5, 7, and 19 and adopting three new sections to be known as Article III Sections 3, 20(c), and 20(d).

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article III of the Constitution is revised by amending Sections 2, 5, 7, 19, and adopting three new sections to be known as Article III Sections 3, 20(c), and 20(d) to read as follows:

Section 2.

After the effective date of this section, no person serving as a member of or employed by the General Assembly shall act or serve as a paid lobbyist, register as a paid lobbyist, or solicit prospective employers or clients to represent as a paid lobbyist during the time of such service until the expiration of one calendar year after the conclusion of the session of the general assembly in which the member or employee last served and where such service was after the effective date of this section.

(a) No person serving as a member of or employed by the General Assembly shall accept directly or indirectly a gift of any tangible or intangible item, service, or thing of value from any paid lobbyist or lobbyist principal in excess of five dollars per occurrence. This Article shall not prevent Candidates for the General Assembly, including candidates for reelection, or candidates for offices within the senate or house from accepting campaign contributions consistent with this Article and applicable campaign finance law. Nothing in this section shall prevent individuals from receiving gifts, family support or anything of value from those related to them within the fourth degree by blood or marriage. The dollar limitations of this section shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency and rounded to the nearest dollar amount.

(c) The General Assembly shall make no law authorizing unlimited campaign contributions to candidates for the General Assembly, nor any law that circumvents the contribution limits contained in this Constitution. In addition to other campaign contribution limitations or restrictions provided for by law, the amount of contributions made to or accepted by any candidate or candidate committee from any person other than the candidate in any one election for the General Assembly shall not exceed the following:

(1) To elect an individual to the office of state senator, two thousand five hundred dollars; and

(2) To elect an individual to the office of state representative, two thousand dollars.

The contribution limits and other restrictions of this section shall also apply to any person exploring a candidacy for a public office listed in this subsection.

For purposes of this subsection, "base year amount" shall be the contribution limits prescribed in this section. Contribution limits set forth herein shall be adjusted on the first day of January in each even-numbered year hereafter by multiplying the base year amount by the cumulative consumer price index and rounded to the nearest dollar amount, for all years after 2018.

(d) No contribution to a candidate for legislative office shall be made or accepted, directly or indirectly, in a fictitious name, in the name of another person, or by or through another person in such a manner as to, or with the intent to, conceal the identity of the actual source of the contribution. There shall be a rebuttable presumption that a contribution to a candidate for public office is made or accepted with the intent to circumvent the limitations on contributions imposed in this section when a contribution is received from a committee or organization that is primarily funded by a single person, individual, or other committee that has already reached its contribution limit under any law relating to contribution limitations. A committee or organization shall be deemed to be primarily funded by a single person, individual, or other committee when the committee or organization receives more than fifty percent of its annual funding from that single person, individual, or other committee.

(e) In no circumstance shall a candidate be found to have violated limits on acceptance of contributions if the Missouri Ethics Commission, its successor agency, or a court determines that a candidate has taken no action to indicate acceptance of or acquiescence to the making of an expenditure that is deemed a contribution pursuant to this section.

(f) No candidate shall accept contributions from any federal political action committee unless the committee has filed the same financial disclosure reports that would be required of a Missouri political action committee.

Section 3.

(a) There is hereby established the post of "non-partisan state demographer." The non-partisan state demographer shall acquire appropriate information to develop procedures in preparation for drawing legislative redistricting maps on the basis of each federal census for presentation to the house apportionment commission and the senatorial apportionment commission.

(b) The non-partisan state demographer shall be appointed by the Governor through a merit based process. The non-partisan state demographer shall serve a term of five years and may be reappointed. To be eligible for the non-partisan state demographer position an individual shall not have served in a partisan, elected position for four years prior to the appointment. The non-partisan state demographer shall be disqualified from holding office as a member of the general assembly for four years following the date of the presentation of his or her most recent legislative redistricting map to the house apportionment commission or the senatorial apportionment commission.

(c) The house of representatives shall consist of one hundred sixty-three members elected at each general election and apportioned [in the following manner:] as provided in this section.

(1) Within ten days after the population of this state is reported to the President for each decennial census of the United States or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within ten days after such a ruling has been made, the non-partisan state demographer shall begin the preparation of legislative districting plans and maps using the following methods, listed in order of priority:

(a) Districts shall be established on the basis of total population. Legislative districts shall each have a total population as nearly equal as practicable to the ideal population for such districts, determined by dividing the number of districts to be established into the total population of the state reported in the federal decennial census.

(b) Districts shall be established in a manner so as to comply with all requirements of the United States Constitution and applicable federal laws, including, but not limited to, the Voting Rights Act of 1965 (as amended). Notwithstanding any other provision of this Article, districts shall not be drawn with the intent or result of denying or abridging the equal opportunity of racial or language minorities to participate in the political process or diminishing their ability to elect representatives of their choice, whether by themselves or by voting in concert with other persons.

Districts shall be designed in a manner that achieves both partisan fairness and, secondarily,

18-011

competitiveness. Partisan fairness means that parties shall be able to translate their popular support into legislative representation with approximately equal efficiency. Competitiveness means that parties' legislative representation shall be substantially and similarly responsive to shifts in the electorate's preferences.

To this end, the non-partisan state demographer shall calculate the average electoral performance of the two parties receiving the most votes in the three preceding elections for governor, for United States Senate, and for President of the United States. This index shall be defined as the total votes received by each party in the three preceding elections for governor, for United States Senate, and for President of the United States, divided by the total votes cast for both parties in these elections. Using this index, the non-partisan state demographer shall calculate the total number of wasted votes for each party, summing across all of the districts in the plan. Wasted votes are votes cast for a losing candidate or for a winning candidate in excess of the fifty percent threshold needed for victory. In any plan of apportionment and map of the proposed districts submitted to the respective apportionment commission, the non-partisan state demographer shall ensure the difference between the two parties' total wasted votes, divided by the total votes cast for the two parties, is as close to zero as practicable.

To promote competitiveness, the non-partisan state demographer shall use the electoral performance index to simulate elections in which the hypothetical statewide vote shifts by one percent, two percent, three percent, four percent, and five percent in favor of each party. The vote in each individual district shall be assumed to shift by the same amount as the statewide vote. The non-partisan state demographer shall ensure that, in each of these simulated elections, the difference between the two parties' total wasted votes, divided by the total votes cast for the two parties, is as close to zero as practicable.

(c) Subject to the requirements of subdivisions (1)(a) and (1)(b), Districts shall be composed of contiguous territory. Areas which meet only at the points of adjoining corners are not contiguous.

(d) To the extent consistent with subdivisions (1)(a) – (1)(c) of this subsection, district boundaries shall coincide with the boundaries of political subdivisions of the state. The number of counties and cities divided among more than one district shall be as small as possible. When there is a choice between dividing local political subdivisions, the more populous subdivisions shall be divided before the less populous, but this preference shall not apply to a legislative district boundary drawn along a county line which passes through a city that lies in more than one county.

(e) Preference shall be that districts are compact in form, but the standards established by subdivisions (1)(a) – (1)(d) of this subsection take precedence over compactness where a conflict arises between compactness and these standards. In general, compact districts are those which are square, rectangular, or hexagonal in shape to the extent permitted by natural or political boundaries.

(2) Within sixty days after the population of this state is reported to the President for each decennial census of the United States [and] or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within sixty days [after notification by the governor] that such a ruling has been made, the congressional district committee of each of the two parties casting the highest vote for governor at the last preceding election shall meet and the members of the committee shall nominate, by a majority vote of the members of the committee present, provided that a majority of the elected members is present, two members of their party, residents in that district, as nominees for reapportionment commissioners. Neither party shall select more than one nominee from any one state legislative district. The congressional committees shall each submit to the governor their list of elected nominees. Within thirty days the governor shall appoint a commission consisting of one name from each list to reapportion the state into one hundred and sixty-three representative districts and to establish the numbers and boundaries of said districts.

If any of the congressional committees fails to submit a list within such time the governor shall appoint a member of his own choice from that district and from the political party of the committee failing to make the appointment.

Members of the commission shall be disqualified from holding office as members of the general assembly for four years following the date of the filing by the commission of its final statement of apportionment.

For the purposes of this Article, the term congressional district committee or congressional district refers to the congressional district committee or the congressional district from which a congressman was last elected, or, in the event members of congress from this state have been elected at large, the term congressional district committee refers to those persons who last served as the congressional district committee for those districts from which congressmen were last elected, and the term congressional district refers to those districts from which congressmen were last elected. Any action pursuant to this section by the congressional district committee shall take place only at duly called meetings, shall be recorded in their official minutes and only members present in person shall be permitted to vote.

(3) Within six months after the population of this state is reported to the President for each decennial census of the United States or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within six months after such a ruling has been made, the non-partisan state demographer shall make public and file with the secretary of state and with the house apportionment commission a tentative plan of apportionment and map of the proposed districts, as well as all demographic and partisan data used in the creation of the plan and map.

The commissioners so selected shall, [on the fifteenth day, excluding Sundays and holidays, after all members have been selected] within ten days of receiving the tentative plan of apportionment and map of the proposed districts, meet in the capitol building and proceed to organize by electing from their number a chairman, vice chairman and secretary[and]. The commission shall adopt an agenda establishing at least three hearing dates on which hearings open to the public shall be held to hear objections or testimony from interested persons. A copy of the agenda shall be filed with the clerk of the house of representatives within twenty-four hours after its adoption. Executive meetings may be scheduled and held as often as the commission deems advisable.

The commission may make changes to the tentative plan of apportionment and map of the proposed districts received from the non-partisan state demographer provided that such changes are consistent with this section and approved by a vote of at least seven-tenths of the commissioners. If no changes are made or approved as provided for in this subsection, the tentative plan of apportionment and map of proposed districts shall become final. Not later than two months of receiving the tentative plan of apportionment and map of the proposed districts, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts.

[The commission shall reapportion the representatives by dividing the population of the state by the number one hundred sixty-three and shall establish each district so that the population of that district shall, as nearly as possible, equal that figure.

18-011

Each district shall be composed of contiguous territory as compact as may be.

Not later than five months after the appointment of the commission the commission shall receive the tentative plan of apportionment and map of the proposed districts ordered in subsection 4 of this section and during the ensuing fifteen days shall hold such public hearings as may be necessary to hear objections or testimony of interested persons.

Not later than six months after the appointment of the commission, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts, and no statement shall be valid unless approved by at least seven-tenths of the members.

After the statement is filed members of the house of representatives shall be elected according to such districts until a reapportionment is made as herein provided, except that if the statement is not filed within six months of the time fixed for the appointment of the commission, it shall stand discharged and the house of representatives shall be apportioned by a commission of six members appointed from among the judges of the appellate courts of the state of Missouri by the state supreme court, a majority of whom shall sign and file its apportionment plan and map with the secretary of state within ninety days of the date of the discharge of the apportionment commission. Thereafter members of the house of representatives shall be elected according to such districts until a reapportionment is made as herein provided.]

Each member of the commission shall receive as compensation fifteen dollars a day for each day the commission is in session but not more than one thousand dollars, and, in addition, shall be reimbursed for his actual and necessary expenses incurred while serving as a member of the commission.

No reapportionment shall be subject to the referendum.

Section 5.

(a) The Senate shall consist of thirty-four members elected by the qualified voters of the senatorial [respective] districts for a term of four years. [For the election of senators, the state shall be divided into convenient districts of contiguous territory, as compact and nearly equal in population as may be.] Senatorial districts shall be apportioned as provided for in Article III, Section 7.

Section 7.

(1) Within ten days after the population of this state is reported to the President for each decennial census of the United States or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within ten days after such a ruling has been made, the non-partisan state demographer authorized in Article III Section 3, shall begin the preparation of senatorial districting plans and maps using the same methods and criteria as those required by Article III, Section 3 for the establishment of districts for the House of Representatives.

(2) Within sixty days after the population of this state is reported to the President for each decennial census of the United States, [and] or within sixty days after [notification by the governor that] a reapportionment has been invalidated by a court of competent jurisdiction, the state committee of each of the two political parties casting the highest vote for governor at the last preceding election shall, at a committee meeting duly called, select by a vote of the individual committee members, and thereafter submit to the governor a list of ten persons, and within thirty days thereafter the governor shall appoint a commission of ten members, five from each list, to reapportion the thirty-four senatorial districts and to establish the numbers and boundaries of said districts.

If either of the party committees fails to submit a list within such time the governor shall appoint five members of his own choice from the party of the committee so failing to act.

Members of the commission shall be disqualified from holding office as members of the general assembly for four years following the date of the filing by the commission of its final statement of apportionment.

(3) Within six months after the population of this state is reported to the President for each decennial census of the United States or in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within six months after such a ruling has been made, the non-partisan state demographer shall file with the secretary of state and with the senatorial apportionment commission a tentative plan of apportionment and map of the proposed districts.

The commissioners so selected shall [on the fifteenth day, excluding Sundays and holidays, after all members have been selected] within ten days of receiving the tentative plan of apportionment and map of the proposed districts required by subsection (d) of this section, meet in the capitol building and proceed to organize by electing from their number a chairman, vice chairman and secretary [and]. The commission shall adopt an agenda establishing at least three hearing dates on which hearings open to the public shall be held to hear objections or testimony from interested persons. A copy of the agenda shall be filed with the secretary of the senate within twenty-four hours after its adoption. Executive meetings may be scheduled and held as often as the commission deems advisable. The commission may make changes to the tentative plan of apportionment and map of the proposed districts received from the non-partisan state demographer provided that such changes are consistent with this Section and the methods and criteria required by Section 3 of this Article for the establishment of districts for the House of Representatives and approved by a vote of at least seven-tenths of the commissioners. If no changes are made or approved as provided for in this subsection, the tentative plan of apportionment and map of proposed districts shall become final. Not later than two months after receiving the tentative plan of apportionment and map of the proposed districts, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts.

[The commission shall reapportion the senatorial districts by dividing the population of the state by the number thirty-four and shall establish each district so that the population of that district shall, as nearly as possible, equal that figure; no county lines shall be crossed except when necessary to add sufficient population to a multi-district county or city to complete only one district which lies partly within such multi-district county or city so as to be as nearly equal as practicable in population. Any county with a population in excess of the quotient obtained by dividing the population of the state by the number thirty-four is hereby declared to be a multi-district county.

Not later than five months after the appointment of the commission the commission shall file with the secretary of state a tentative plan of apportionment and map of the proposed districts and during the ensuing fifteen days shall hold such public hearings as may be necessary to hear objections or testimony of interested persons.

Not later than six months after the appointment of the commission, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts, and no statement shall be valid unless approved by at least seven members.

After the statement is filed senators shall be elected according to such districts until a reapportionment is made as herein provided.

18-011.

except that if the statement is not filed within six months of the time fixed for the appointment of the commission, it shall stand discharged and the senate shall be apportioned by a commission of six members appointed from among the judges of the appellate courts of the state of Missouri by the state supreme court, a majority of whom shall sign and file its apportionment plan and map with the secretary of state within ninety days of the date of the discharge of the apportionment commission. Thereafter senators shall be elected according to such districts until a reapportionment is made as herein provided.]

Each member of the commission shall receive as compensation fifteen dollars a day for each day the commission is in session, but not more than one thousand dollars, and, in addition, shall be reimbursed for his actual and necessary expenses incurred while serving as a member of the commission.

No reapportionment shall be subject to the referendum.

Section 19.

(a) Senators and representatives shall, in all cases except treason, felony, offenses under this Article, or breach of the peace, be privileged from arrest during the session of the general assembly, and for the fifteen days next before the commencement and after the termination of each session; and they shall not be questioned for any speech or debate in either house in any other place.

(b) Legislative records shall be public records and subject to generally applicable state laws governing public access to public records, including the "Sunshine Law." Legislative records include, but are not limited to, all records, in whatever form or format, of the official acts of the general assembly, of the official acts of legislative committees, of the official acts of members of the general assembly, of individual legislators, their employees and staff, of the conduct of legislative business and all records that are created, stored or distributed through legislative branch facilities, equipment or mechanisms, including electronic. Each member of the general assembly is the custodian of legislative records under the custody and control of the member, their employees and staff. The chief clerk of the house or the secretary of the senate are the custodians for all other legislative records relating to the house and the senate, respectively.

(c) Legislative proceedings, including committee proceedings, shall be public meetings subject to generally applicable law governing public access to public meetings, including the "Sunshine Law." Open public meetings of legislative proceedings shall be subject to recording by citizens, so long as the proceedings are not materially disrupted.

Section 20(c).

No political fundraising activities or political fundraising event by any member of or candidate for the general assembly, including but not limited to the solicitation or delivery of contributions, supporting or opposing any candidate, initiative petition, referendum petition, ballot measure, political party or political committee, shall occur in or on any premises, property or building owned, leased or controlled by the State of Missouri or any agency or division thereof. Any purposeful violation of this section shall be punishable by imprisonment for up to one year or a fine of up to one thousand dollars or both, plus an amount equal to three times the illegal contributions. The Missouri Ethics Commission or its successor agency is authorized to enforce this section as provided by law.

Section 20(d).

If any provision of sections 2, 3, 7, 19, or 20(c) or the application thereof to anyone or to any circumstance is held invalid, the remainder of those provisions and the application of such provisions to others or other circumstances shall not be affected thereby.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-011)

Subject

Initiative petition from Sean Soendker Nicholson regarding a proposed constitutional amendment to Article III. (Received November 14, 2016)

Date

December 5, 2016

Description

This proposal would amend Article III of the Missouri Constitution.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** the **Missouri Ethics Commission,** and the **State Auditor's office.**

Sean Soendker Nicholson provided information as a proponent of the proposal to the State Auditor's office.

Assumptions

Officials from the **Attorney General's office** indicated they assume that any potential costs arising from the adoption of this proposal can be absorbed with existing resources.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated there is no impact to their department for this petition.

Officials from the **Department of Higher Education** indicated this initiative petition would not have a fiscal impact on their department.

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no impact.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** indicated this initiative petition has no fiscal impact on their department.

Officials from the **Department of Public Safety** indicated they see no fiscal impact due to this initiative petition.

Officials from the **Department of Social Services** indicated no fiscal impact on their department.

Officials from the **Governor's office** indicated the Governor is responsible for appointing a non-partisan State Demographer; however, there should be no added costs or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to that institution.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated no fiscal impact.

Officials from the **Office of Administration** indicated this initiative petition revises Article III of the Missouri Constitution by amending Sections 2, 5, 7, and 19 and enacting three new sections.

Legislators and their employees are prohibited from lobbying for at least one year after the conclusion of the session during which they vacate office, and from acting as paid consultants while in office. Legislators and their staff are prohibited from accepting a gift in excess of five dollars, per occurrence.

The initiative creates the post of "non-partisan State Demographer" to oversee the redistricting process for the state House and Senate districts. The demographer is to be selected by the Governor through a merit-based process. This demographer will be unable to hold elected office for four years following the filing of the new legislative districts. The redistricting process shall maximize partisan fairness and competitiveness.

It mandates that legislative records which are created, stored or distributed through legislative branch facilities, equipment or mechanisms shall be public. It allows explicitly identifies legislative proceedings as open meetings and authorizes recording of such proceedings by citizens.

Political fundraising activities and events may not be held in any location owned by, or under the control of, the State of Missouri.

Campaign contributions for state senators are limited to $2,500 and representatives are limited to $2,000, with CPI adjustments made in even-numbered years. Also, contributions from federal political action committees are prohibited unless the committee has filed the same financial disclosure reports that would be required of a Missouri political action committee.

This proposal could have an impact on their office. There is currently a State Demographer, with statutory duties that extend beyond those of legislative reapportionment. If the existing State Demographer would be chosen to assume the role of "Non-partisan State Demographer", there would be no fiscal impact. However, if that post is filled by another individual, the salary and benefits costs would be an estimated $128,513 in FY 2021, adjusted for inflation. In either scenario, the cost for other staff hired for the purposes of redistricting would remain the same.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated no fiscal impact on that institution.

Officials from the **Secretary of State's office** indicated their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any significant impact on their office.

Officials from the **State Treasurer's office** indicated this would have no fiscal impact on their office.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from the **City of Columbia** indicated no apparent impact on their city.

Officials from the **City of Kansas City** indicated no fiscal impact is anticipated if this proposal is adopted.

Officials from the **City of Raymore** indicated no fiscal impact.

Officials from the **City of St. Joseph** indicated this initiative petition should not have a fiscal impact on their local government.

Officials from the **Metropolitan Community College** indicated there is no anticipated impact for their college.

Officials from the **University of Missouri** indicated the proposed initiative petition will not have a fiscal impact on their university.

Officials from the **Missouri Ethics Commission** (MEC) indicated:

The total estimated net effect on all state funds will be $67,478 for the first year implemented, $61,107 for the second year implemented, and $61,734 for the third year implement.

Prohibiting a statewide elected official, member of the general assembly or paid employee of general assembly from acting, serving, or registering as a lobbyist for a specified period of time after leaving office would require the following of the MEC:

- Provide information to public officials and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo., about the new statutory requirements; examples include providing education, developing informational materials, telephone and email assistance.
- Provide oversight to ensure those individuals leaving the general assembly do not register as a lobbyist with the MEC for the specified period of time. This would entail reviewing lobbyist registrations, at the time of receipt by the MEC, and comparing them to those members of the general assembly who have left office within the specified period of time. For any individual submitting a registration, create the necessary correspondence to the registrant and track the results of the correspondence.
- Respond to written complaints, as established in Section 105.955.14, RSMo., through conducting investigations and the related legal actions. Any significant increase of complaints would require additional Commission resources, including investigative staff.

Implementing prohibition for a member of general assembly, staff/employees of the general assembly to accept specified monetary lobbyist/lobbyist principal gifts would require the following of the MEC:

- Provide information to public officials and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo., about the new statutory requirements; examples include providing education, developing informational materials, telephone and email assistance.
- Provide oversight in adherence to the specific gift prohibition, including reviewing lobbyist reports as established in Section 105.959, RSMo. This oversight, it is assumed, would be primarily from receiving written complaints, as established in Section 105.955.14, RSMo., through conducting investigations and the related legal actions. It is assumed this prohibition would result in a minimal number of complaints; however, if this assumption is incorrect the Commission would require additional staff resources.

Implementing campaign finance limits would require the following of the MEC:

- Provide information to those committee officers and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo. about these limits; examples include providing education, developing informational materials, telephone and email assistance.
- Provide oversight in campaign finance committee adherence to the specific contribution limits, including reviewing, auditing, and performing cross checks of the reported contributions, as established in Section 105.955.14 (2), (3), RSMo.
- Respond to written complaints, as established in Section 105.955.14, RSMo., through conducting investigations and the related legal actions.

Oversee the prohibition of political fundraising activities or events from occurring on State of Missouri property or any agency or division thereof would require the following of the MEC:

- Provide information to those committee officers and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo. about this provision; examples include providing education, developing informational materials, telephone and email assistance.
- Provide oversight in campaign finance committee adherence to the specific restrictions, including reviewing, auditing, and performing cross checks of the reported fund raising activity, as established in Section 105.955.14 (2), (3), RSMo.
- Respond to written complaints, as established in Section 105.955.14, RSMo., through conducting investigations and the related legal actions.

In regards to all of the provisions outlined above, if the Commission identifies significant violations during the process established in Section 105.955.14 (2), (3), RSMo or complaints received increase significantly an Investigator would be required to provide the proper oversight.

The implementation of contribution limits requires the Missouri Ethics Commission to request additional funding. Below is an outline of the additional funding. In the 2016 November General Election a Constitutional Amendment implementing contribution limits was adopted by voters. At this time, the Missouri Ethics Commission has not received the additional funding required to implement contribution limits.

The proposed provisions would implement campaign finance limits. The implementation of the above responsibilities would require the following additional resources:

- $15,120 in expense and equipment to acquire contract services that would develop the MEC internal search capabilities for oversight of the campaign finance committees' adherence to the specific contribution limits, as established in 105.955.14, RSMo. Current campaign finance data collection would allow the MEC to use search capabilities, providing for a manual review by MEC staff of adherence to the established limits.

•1 Business Analyst to conduct the routine work necessary in reviewing and providing oversight for the proposed legislation. The Business Analyst would review committee reports for compliance, prepare necessary notices, track the receipt of payment, and coordinate the necessary collection efforts. Currently two Business Analysts assist 2,800 committees in filing campaign finance reports, prepare and disseminate 15,000 notices, and review 11,000 campaign finance reports.

•If the Commission identifies significant violations during the process established in Section 105.955.14 (2), (3), RSMo or complaints received increase significantly an Investigator would be required to provide the proper oversight.

Officials from the **State Auditor's office** (SAO) indicated there is no fiscal impact for their office.

Sean Soendker Nicholson provided the following information as a proponent of this initiative petition.

I am a proponent of the above listed initiative petitions. Pursuant to 116.175 RSMo, I submit the following information regarding the initiative petitions.

There is no cost to the state over the next two years as a result of passage of any of the initiatives. Any potential costs arising from the adoption of these proposals is minimal and can be absorbed with existing resources from the General Assembly, Missouri Ethics Commission, Attorney General's Office, Office of Administration, and other state agencies.

There is currently a State Demographer, with statutory duties that extend beyond those of legislative reapportionment. The existing State Demographer can be expected to assume the role of Non-partisan State Demographer, and there would be no fiscal impact. Certainly there can be no definitive judgment that the measure would add costs for the state.

The proposals do not establish a new program or agency so there is no duplication of existing programs. There is no federal mandate with regard to the proposals. There will be no fiscal impact on any subdivision of the state. There will be no economic impact on small businesses.

The Missouri Ethics Commission is already required to provide guidance and information to members of the General Assembly and Missouri public about campaign finance rules and lobbying rules, and is already required to respond to written complaints through conducting investigations and the related legal actions.

The State Auditor's office did not receive a response from the **Department of Elementary and Secondary Education, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,**

the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri,** and **St. Louis Community College.**

Fiscal Note Summary

State governmental entities estimate annual operating costs may increase by $189,000. Local governmental entities report no fiscal impact.

STATE AUDITORS OFFICE

The Honorable Nicole Galloway
State Auditor
State Capitol Building
Jefferson City, MO 65101

RE: Petition approval request from Sean Soendker Nicholson regarding a proposed constitutional amendment to Article III, version 3 (2018-010)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Sean Soendker Nicholson on November 10, 2016.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

Jason Kander

NOTICE: You are advised that the proposed constitutional amendment may change, repeal, or modify by implication or may be construed by some persons to change, repeal or modify by implication, the following Articles and Sections of the Constitution of Missouri: Article I, Section 8 and the following Sections of the Missouri Revised Statutes: Sections 105.450 through 105.496 and Sections 130.011 through 130.160. The proposed amendment revises Article III of the Constitution by amending Sections 2, 5, 7, and 19 and adopting three new sections to be known as Article III Sections 3, 20(c), and 20(d).

18-010

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article III of the Constitution is revised by amending Sections 2, 5, 7, 19, and adopting three new sections to be known as Article III Sections 3, 20(c), and 20(d) to read as follows:

Section 2.

After the effective date of this section, no person serving as a member of or employed by the General Assembly shall act or serve as a paid lobbyist, register as a paid lobbyist, or solicit prospective employers or clients to represent as a paid lobbyist during the time of such service until the expiration of one calendar year after the conclusion of the session of the general assembly in which the member or employee last served and where such service was after the effective date of this section.

(a) No person serving as a member of or employed by the General Assembly shall accept directly or indirectly a gift of any tangible or intangible item, service, or thing of value from any paid lobbyist or lobbyist principal in excess of five dollars per occurrence. This Article shall not prevent Candidates for the General Assembly, including candidates for reelection, or candidates for offices within the senate or house from accepting campaign contributions consistent with this Article and applicable campaign finance law. Nothing in this section shall prevent individuals from receiving gifts, family support or anything of value from those related to them within the fourth degree by blood or marriage. The dollar limitations of this section shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency and rounded to the nearest dollar amount.

(c) The General Assembly shall make no law authorizing unlimited campaign contributions to candidates for the General Assembly, nor any law that circumvents the contribution limits contained in this Constitution. In addition to other campaign contribution limitations or restrictions provided for by law, the amount of contributions made to or accepted by any candidate or candidate committee from any person other than the candidate in any one election for the General Assembly shall not exceed the following:

(1) To elect an individual to the office of state senator, two thousand five hundred dollars; and

(2) To elect an individual to the office of state representative, two thousand dollars.

The contribution limits and other restrictions of this section shall also apply to any person exploring a candidacy for a public office listed in this subsection.

For purposes of this subsection, "base year amount" shall be the contribution limits prescribed in this section. Contribution limits set forth herein shall be adjusted on the first day of January in each even-numbered year hereafter by multiplying the base year amount by the cumulative consumer price index and rounded to the nearest dollar amount, for all years after 2018.

(d) No contribution to a candidate for legislative office shall be made or accepted, directly or indirectly, in a fictitious name, in the name of another person, or by or through another person in such a manner as to, or with the intent to, conceal the identity of the actual source of the contribution. There shall be a rebuttable presumption that a contribution to a candidate for public office is made or accepted with the intent to circumvent the limitations on contributions imposed in this section when a contribution is received from a committee or organization that is primarily funded by a single person, individual, or other committee that has already reached its contribution limit under any law relating to contribution limitations. A committee or organization shall be deemed to be primarily funded by a single person, individual, or other committee when the committee or organization receives more than fifty percent of its annual funding from that single person, individual, or other committee.

(e) In no circumstance shall a candidate be found to have violated limits on acceptance of contributions if the Missouri Ethics Commission, its successor agency, or a court determines that a candidate has taken no action to indicate acceptance of or acquiescence to the making of an expenditure that is deemed a contribution pursuant to this section.

(f) No candidate shall accept contributions from any federal political action committee unless the committee has filed the same financial disclosure reports that would be required of a Missouri political action committee.

Section 3.

(a) There is hereby established the post of "non-partisan state demographer." The non-partisan state demographer shall acquire appropriate information to develop procedures in preparation for drawing legislative redistricting maps on the basis of each federal census for presentation to the house apportionment commission and the senatorial apportionment commission.

(b) The non-partisan state demographer shall be selected through the following process. First, state residents may apply for selection to the state auditor using an application developed by the state auditor to determine an applicant's qualifications and expertise relevant to the position. Second, the state auditor shall deliver to the majority leader and minority leader of the senate a list of at least three applicants with sufficient expertise and qualifications, as determined by the state auditor, to perform the duties of the non-partisan state demographer. Third, if the majority leader and minority leader of the senate together agree that a specific applicant should be selected to be the non-partisan state demographer, that applicant shall be selected and the selection process shall cease. Fourth, if the majority leader and minority leader of the senate cannot together agree on an applicant, they may each remove a number of applicants on the state auditor's list equal to one-third of the total number of applicants on that list, rounded down to the next integer, and the state auditor shall then conduct a random lottery of the applicants remaining after removal to select the non-partisan state demographer. The state auditor shall prescribe a time frame and deadlines for this application and selection process that both encourages numerous qualified applicants and avoids delay in selection. The non-partisan state demographer shall serve a term of five years and may be reappointed. To be eligible for the non-partisan state demographer position an individual shall not have served in a partisan, elected position for four years prior to the appointment. The non-partisan state demographer shall be disqualified from holding office as a member of the general assembly for four years following the date of the presentation of his or her most recent legislative redistricting map to the house apportionment commission or the senatorial apportionment commission.

(c) The house of representatives shall consist of one hundred sixty-three members elected at each general election and apportioned [in the following manner:] as provided in this section.

(1) Within ten days after the population of this state is reported to the President for each decennial census of the United States or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within ten days after such a ruling has been made, the non-partisan state demographer shall begin the preparation of legislative districting plans and maps using the following methods, listed in order of priority:

(a) Districts shall be established on the basis of total population. Legislative districts shall each have a total population as nearly equal as practicable to the ideal population for such districts, determined by dividing the number of districts to be established into the total

18-010

population of the state reported in the federal decennial census.

(b) Districts shall be established in a manner so as to comply with all requirements of the United States Constitution and applicable federal laws, including, but not limited to, the Voting Rights Act of 1965 (as amended). Notwithstanding any other provision of this Article, districts shall not be drawn with the intent or result of denying or abridging the equal opportunity of racial or language minorities to participate in the political process or diminishing their ability to elect representatives of their choice, whether by themselves or by voting in concert with other persons.

Districts shall be designed in a manner that achieves both partisan fairness and, secondarily, competitiveness. Partisan fairness means that parties shall be able to translate their popular support into legislative representation with approximately equal efficiency. Competitiveness means that parties' legislative representation shall be substantially and similarly responsive to shifts in the electorate's preferences.

To this end, the non-partisan state demographer shall calculate the average electoral performance of the two parties receiving the most votes in the three preceding elections for governor, for United States Senate, and for President of the United States. This index shall be defined as the total votes received by each party in the three preceding elections for governor, for United States Senate, and for President of the United States, divided by the total votes cast for both parties in these elections. Using this index, the non-partisan state demographer shall calculate the total number of wasted votes for each party, summing across all of the districts in the plan. Wasted votes are votes cast for a losing candidate or for a winning candidate in excess of the fifty percent threshold needed for victory. In any plan of apportionment and map of the proposed districts submitted to the respective apportionment commission, the non-partisan state demographer shall ensure the difference between the two parties' total wasted votes, divided by the total votes cast for the two parties, is as close to zero as practicable.

To promote competitiveness, the non-partisan state demographer shall use the electoral performance index to simulate elections in which the hypothetical statewide vote shifts by one percent, two percent, three percent, four percent, and five percent in favor of each party. The vote in each individual district shall be assumed to shift by the same amount as the statewide vote. The non-partisan state demographer shall ensure that, in each of these simulated elections, the difference between the two parties' total wasted votes, divided by the total votes cast for the two parties, is as close to zero as practicable.

(c) Subject to the requirements of subdivisions (1)(a) and (1)(b), Districts shall be composed of contiguous territory. Areas which meet only at the points of adjoining corners are not contiguous.

(d) To the extent consistent with subdivisions (1)(a) – (1)(c) of this subsection, district boundaries shall coincide with the boundaries of political subdivisions of the state. The number of counties and cities divided among more than one district shall be as small as possible. When there is a choice between dividing local political subdivisions, the more populous subdivisions shall be divided before the less populous, but this preference shall not apply to a legislative district boundary drawn along a county line which passes through a city that lies in more than one county.

(e) Preference shall be that districts are compact in form, but the standards established by subdivisions (1)(a) – (1)(d) of this subsection take precedence over compactness where a conflict arises between compactness and these standards. In general, compact districts are those which are square, rectangular, or hexagonal in shape to the extent permitted by natural or political boundaries.

(2) Within sixty days after the population of this state is reported to the President for each decennial census of the United States [and] or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within sixty days [after notification by the governor] that such a ruling has been made, the congressional district committee of each of the two parties casting the highest vote for governor at the last preceding election shall meet and the members of the committee shall nominate, by a majority vote of the members of the committee present, provided that a majority of the elected members is present, two members of their party, residents in that district, as nominees for reapportionment commissioners. Neither party shall select more than one nominee from any one state legislative district. The congressional committees shall each submit to the governor their list of elected nominees. Within thirty days the governor shall appoint a commission consisting of one name from each list to reapportion the state into one hundred and sixty-three representative districts and to establish the numbers and boundaries of said districts.

If any of the congressional committees fails to submit a list within such time the governor shall appoint a member of his own choice from that district and from the political party of the committee failing to make the appointment.

Members of the commission shall be disqualified from holding office as members of the general assembly for four years following the date of the filing by the commission of its final statement of apportionment.

For the purposes of this Article, the term congressional district committee or congressional district refers to the congressional district committee or the congressional district from which a congressman was last elected, or, in the event members of congress from this state have been elected at large, the term congressional district committee refers to those persons who last served as the congressional district committee for those districts from which congressmen were last elected, and the term congressional district refers to those districts from which congressmen were last elected. Any action pursuant to this section by the congressional district committee shall take place only at duly called meetings, shall be recorded in their official minutes and only members present in person shall be permitted to vote.

(3) Within six months after the population of this state is reported to the President for each decennial census of the United States or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within six months after such a ruling has been made, the non-partisan state demographer shall make public and file with the secretary of state and with the house apportionment commission a tentative plan of apportionment and map of the proposed districts, as well as all demographic and partisan data used in the creation of the plan and map.

The commissioners so selected shall, [on the fifteenth day, excluding Sundays and holidays, after all members have been selected] within ten days of receiving the tentative plan of apportionment and map of the proposed districts, meet in the capitol building and proceed to organize by electing from their number a chairman, vice chairman and secretary[and]. The commission shall adopt an agenda establishing at least three hearing dates on which hearings open to the public shall be held to hear objections or testimony from interested persons. A copy of the agenda shall be filed with the clerk of the house of representatives within twenty-four hours after its adoption. Executive meetings may be scheduled and held as often as the commission deems advisable.

The commission may make changes to the tentative plan of apportionment and map of the proposed districts received from the non-

18-010

partisan state demographer provided that such changes are consistent with this section and approved by a vote of at least seven-tenths of the commissioners. If no changes are made or approved as provided for in this subsection, the tentative plan of apportionment and map of proposed districts shall become final. Not later than two months of receiving the tentative plan of apportionment and map of the proposed districts, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts.

[The commission shall reapportion the representatives by dividing the population of the state by the number one hundred sixty-three and shall establish each district so that the population of that district shall, as nearly as possible, equal that figure.

Each district shall be composed of contiguous territory as compact as may be.

Not later than five months after the appointment of the commission the commission shall receive the tentative plan of apportionment and map of the proposed districts ordered in subsection 4 of this section and during the ensuing fifteen days shall hold such public hearings as may be necessary to hear objections or testimony of interested persons.

Not later than six months after the appointment of the commission, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts, and no statement shall be valid unless approved by at least seven-tenths of the members.

After the statement is filed members of the house of representatives shall be elected according to such districts until a reapportionment is made as herein provided, except that if the statement is not filed within six months of the time fixed for the appointment of the commission, it shall stand discharged and the house of representatives shall be apportioned by a commission of six members appointed from among the judges of the appellate courts of the state of Missouri by the state supreme court, a majority of whom shall sign and file its apportionment plan and map with the secretary of state within ninety days of the date of the discharge of the apportionment commission. Thereafter members of the house of representatives shall be elected according to such districts until a reapportionment is made as herein provided.]

Each member of the commission shall receive as compensation fifteen dollars a day for each day the commission is in session but not more than one thousand dollars, and, in addition, shall be reimbursed for his actual and necessary expenses incurred while serving as a member of the commission.

No reapportionment shall be subject to the referendum.

Section 5.

(a) The Senate shall consist of thirty-four members elected by the qualified voters of the senatorial [respective] districts for a term of four years. [For the election of senators, the state shall be divided into convenient districts of contiguous territory, as compact and nearly equal in population as may be.] Senatorial districts shall be apportioned as provided for in Article III, Section 7.

Section 7.

(1) Within ten days after the population of this state is reported to the President for each decennial census of the United States or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within ten days after such a ruling has been made, the non-partisan state demographer authorized in Article III Section 3, shall begin the preparation of senatorial districting plans and maps using the same methods and criteria as those required by Article III, Section 3 for the establishment of districts for the House of Representatives.

(2) Within sixty days after the population of this state is reported to the President for each decennial census of the United States, [and] or within sixty days after [notification by the governor that] a reapportionment has been invalidated by a court of competent jurisdiction, the state committee of each of the two political parties casting the highest vote for governor at the last preceding election shall, at a committee meeting duly called, select by a vote of the individual committee members, and thereafter submit to the governor a list of ten persons, and within thirty days thereafter the governor shall appoint a commission of ten members, five from each list, to reapportion the thirty-four senatorial districts and to establish the numbers and boundaries of said districts.

If either of the party committees fails to submit a list within such time the governor shall appoint five members of his own choice from the party of the committee so failing to act.

Members of the commission shall be disqualified from holding office as members of the general assembly for four years following the date of the filing by the commission of its final statement of apportionment.

(3) Within six months after the population of this state is reported to the President for each decennial census of the United States or in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within six months after such a ruling has been made, the non-partisan state demographer shall file with the secretary of state and with the senatorial apportionment commission a tentative plan of apportionment and map of the proposed districts.

The commissioners so selected shall [on the fifteenth day, excluding Sundays and holidays, after all members have been selected] within ten days of receiving the tentative plan of apportionment and map of the proposed districts required by subsection (d) of this section, meet in the capitol building and proceed to organize by electing from their number a chairman, vice chairman and secretary [and]. The commission shall adopt an agenda establishing at least three hearing dates on which hearings open to the public shall be held to hear objections or testimony from interested persons. A copy of the agenda shall be filed with the secretary of the senate within twenty-four hours after its adoption. Executive meetings may be scheduled and held as often as the commission deems advisable. The commission may make changes to the tentative plan of apportionment and map of the proposed districts received from the non-partisan state demographer provided that such changes are consistent with this Section and the methods and criteria required by Section 3 of this Article for the establishment of districts for the House of Representatives and approved by a vote of at least seven-tenths of the commissioners. If no changes are made or approved as provided for in this subsection, the tentative plan of apportionment and map of proposed districts shall become final. Not later than two months after receiving the tentative plan of apportionment and map of the proposed districts, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts.

[The commission shall reapportion the senatorial districts by dividing the population of the state by the number thirty-four and shall establish each district so that the population of that district shall, as nearly as possible, equal that figure: no county lines shall be crossed except when necessary to add sufficient population to a multi-district county or city to complete only one district which lies partly within such multi-district county or city so as to be as nearly equal as practicable in population. Any county with a population in excess of the quotient obtained by dividing the population of the state by the number thirty-four is hereby declared to be a multi-district county.

18-010

Not later than five months after the appointment of the commission the commission shall file with the secretary of state a tentative plan of apportionment and map of the proposed districts and during the ensuing fifteen days shall hold such public hearings as may be necessary to hear objections or testimony of interested persons.

Not later than six months after the appointment of the commission, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts, and no statement shall be valid unless approved by at least seven members.

After the statement is filed senators shall be elected according to such districts until a reapportionment is made as herein provided, except that if the statement is not filed within six months of the time fixed for the appointment of the commission, it shall stand discharged and the senate shall be apportioned by a commission of six members appointed from among the judges of the appellate courts of the state of Missouri by the state supreme court, a majority of whom shall sign and file its apportionment plan and map with the secretary of state within ninety days of the date of the discharge of the apportionment commission. Thereafter senators shall be elected according to such districts until a reapportionment is made as herein provided.]

Each member of the commission shall receive as compensation fifteen dollars a day for each day the commission is in session, but not more than one thousand dollars, and, in addition, shall be reimbursed for his actual and necessary expenses incurred while serving as a member of the commission.

No reapportionment shall be subject to the referendum.

Section 19.

(a) Senators and representatives shall, in all cases except treason, felony, offenses under this Article, or breach of the peace, be privileged from arrest during the session of the general assembly, and for the fifteen days next before the commencement and after the termination of each session; and they shall not be questioned for any speech or debate in either house in any other place.

(b) Legislative records shall be public records and subject to generally applicable state laws governing public access to public records, including the "Sunshine Law." Legislative records include, but are not limited to, all records, in whatever form or format, of the official acts of the general assembly, of the official acts of legislative committees, of the official acts of members of the general assembly, of individual legislators, their employees and staff, of the conduct of legislative business and all records that are created, stored or distributed through legislative branch facilities, equipment or mechanisms, including electronic. Each member of the general assembly is the custodian of legislative records under the custody and control of the member, their employees and staff. The chief clerk of the house or the secretary of the senate are the custodians for all other legislative records relating to the house and the senate, respectively.

(c) Legislative proceedings, including committee proceedings, shall be public meetings subject to generally applicable law governing public access to public meetings, including the "Sunshine Law." Open public meetings of legislative proceedings shall be subject to recording by citizens, so long as the proceedings are not materially disrupted.

Section 20(c).

No political fundraising activities or political fundraising event by any member of or candidate for the general assembly, including but not limited to the solicitation or delivery of contributions, supporting or opposing any candidate, initiative petition, referendum petition, ballot measure, political party or political committee, shall occur in or on any premises, property or building owned, leased or controlled by the State of Missouri or any agency or division thereof. Any purposeful violation of this section shall be punishable by imprisonment for up to one year or a fine of up to one thousand dollars or both, plus an amount equal to three times the illegal contributions. The Missouri Ethics Commission or its successor agency is authorized to enforce this section as provided by law.

Section 20(d).

If any provision of sections 2, 3, 7, 19, or 20(c) or the application thereof to anyone or to any circumstance is held invalid, the remainder of those provisions and the application of such provisions to others or other circumstances shall not be affected thereby.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-010)

Subject

Initiative petition from Sean Soendker Nicholson regarding a proposed constitutional amendment to Article III. (Received November 14, 2016)

Date

December 5, 2016

Description

This proposal would amend Article III of the Missouri Constitution.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** the **Missouri Ethics Commission,** and the **State Auditor's office.**

Sean Soendker Nicholson provided information as a proponent of the proposal to the State Auditor's office.

Assumptions

Officials from the **Attorney General's office** indicated they assume that any potential costs arising from the adoption of this proposal can be absorbed with existing resources.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated there is no impact to their department for this petition.

Officials from the **Department of Higher Education** indicated this initiative petition would not have a fiscal impact on their department.

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no impact.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** indicated this initiative petition has no fiscal impact on their department.

Officials from the **Department of Public Safety** indicated they see no fiscal impact due to this initiative petition.

Officials from the **Department of Social Services** indicated no fiscal impact on their department.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to that institution.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated no fiscal impact.

Officials from the **Office of Administration** indicated this initiative petition revises Article III of the Missouri Constitution by amending Sections 2, 5, 7, and 19 and enacting three new sections.

Legislators and their employees are prohibited from lobbying for at least one year after the conclusion of the session during which they vacate office, and from acting as paid consultants while in office. Legislators and their staff are prohibited from accepting a gift in excess of five dollars, per occurrence.

The initiative creates the post of "non-partisan State Demographer" to oversee the redistricting process for the state House and Senate districts. The demographer is to be selected by a process involving the State Auditor and the Senate majority and minority leaders. Note that the wording is unclear on this process because the only State Auditor list mentioned in the list of three names. Therefore, if each the minority and the majority member are allowed to remove one-third of the list, they may each remove one person, leaving only one choice left, so no random lottery would be necessary. This demographer will be unable to hold elected office for four years following the filing of the new legislative districts. The redistricting process shall maximize partisan fairness and competitiveness.

It mandates that legislative records which are created, stored or distributed through legislative branch facilities, equipment or mechanisms shall be public. It allows explicitly identifies legislative proceedings as open meetings and authorizes recording of such proceedings by citizens.

Political fundraising activities and events may not be held in any location owned by, or under the control of, the State of Missouri.

Campaign contributions for state senators are limited to $2,500 and representatives are limited to $2,000, with CPI adjustments made in even-numbered years. Also, contributions from federal political action committees are prohibited unless the committee has filed the same financial disclosure reports that would be required of a Missouri political action committee.

This proposal could have an impact on their office. There is currently a State Demographer, with statutory duties that extend beyond those of legislative reapportionment. If the existing State Demographer would be chosen to assume the role of "Non-partisan State Demographer", there would be no fiscal impact. However, if that post is filled by another individual, the salary and benefits costs would be an estimated $128,513 in FY 2021, adjusted for inflation. In either scenario, the cost for other staff hired for the purposes of redistricting would remain the same.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated no fiscal impact on that institution.

Officials from the **Secretary of State's office** indicated their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any significant impact on their office.

Officials from the **State Treasurer's office** indicated this would have no fiscal impact on their office.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from the **City of Columbia** indicated no apparent impact on their city.

Officials from the **City of Kansas City** indicated no fiscal impact is anticipated if this proposal is adopted.

Officials from the **City of Raymore** indicated no fiscal impact.

Officials from the **City of St. Joseph** indicated this initiative petition should not have a fiscal impact on their local government.

Officials from the **Metropolitan Community College** indicated there is no anticipated impact for their college.

Officials from the **University of Missouri** indicated the proposed initiative petition will not have a fiscal impact on their university.

Officials from the **Missouri Ethics Commission** (MEC) indicated:

The total estimated net effect on all state funds will be $67,478 for the first year implemented, $61,107 for the second year implemented, and $61,734 for the third year implemented.

Prohibiting a statewide elected official, member of the general assembly or paid employee of general assembly from acting, serving, or registering as a lobbyist for a specified period of time after leaving office would require the following of the MEC:

- Provide information to public officials and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo., about the new statutory requirements; examples include providing education, developing informational materials, telephone and email assistance.
- Provide oversight to ensure those individuals leaving the general assembly do not register as a lobbyist with the MEC for the specified period of time. This would entail reviewing lobbyist registrations, at the time of receipt by the MEC, and comparing them to those members of the general assembly who have left office within the specified period of time. For any individual submitting a registration, create the necessary correspondence to the registrant and track the results of the correspondence.
- Respond to written complaints, as established in Section 105.955.14, RSMo., through conducting investigations and the related legal actions. Any significant increase of complaints would require additional Commission resources, including investigative staff.

Implementing prohibition for a member of general assembly, staff/employees of the general assembly to accept specified monetary lobbyist/lobbyist principal gifts would require the following of the MEC:

- Provide information to public officials and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo., about the new statutory requirements; examples include providing education, developing informational materials, telephone and email assistance.
- Provide oversight in adherence to the specific gift prohibition, including reviewing lobbyist reports as established in Section 105.959, RSMo. This oversight, it is assumed, would be primarily from receiving written complaints, as established in Section 105.955.14, RSMo., through conducting investigations and the related legal actions. It is assumed this prohibition would result in a minimal number of complaints; however, if this assumption is incorrect the Commission would require additional staff resources.

Implementing campaign finance limits would require the following of the MEC:

- Provide information to those committee officers and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo. about these limits; examples include providing education, developing informational materials, telephone and email assistance.
- Provide oversight in campaign finance committee adherence to the specific contribution limits, including reviewing, auditing, and performing cross checks of the reported contributions, as established in Section 105.955.14 (2), (3), RSMo.
- Respond to written complaints, as established in Section 105.955.14, RSMo., through conducting investigations and the related legal actions.

Oversee the prohibition of political fundraising activities or events from occurring on State of Missouri property or any agency or division thereof would require the following of the MEC:

- Provide information to those committee officers and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo. about this provision; examples include providing education, developing informational materials, telephone and email assistance.
- Provide oversight in campaign finance committee adherence to the specific restrictions, including reviewing, auditing, and performing cross checks of the reported fund raising activity, as established in Section 105.955.14 (2), (3), RSMo.
- Respond to written complaints, as established in Section 105.955.14, RSMo., through conducting investigations and the related legal actions.

In regards to all of the provisions outlined above, if the Commission identifies significant violations during the process established in Section 105.955.14 (2), (3), RSMo or complaints received increase significantly an Investigator would be required to provide the proper oversight.

The implementation of contribution limits requires the Missouri Ethics Commission to request additional funding. Below is an outline of the additional funding. In the 2016 November General Election a Constitutional Amendment implementing contribution limits was adopted by voters. At this time, the Missouri Ethics Commission has not received the additional funding required to implement contribution limits.

The proposed provisions would implement campaign finance limits. The implementation of the above responsibilities would require the following additional resources:

- $15,120 in expense and equipment to acquire contract services that would develop the MEC internal search capabilities for oversight of the campaign finance committees' adherence to the specific contribution limits, as established in 105.955.14, RSMo. Current campaign finance data collection would allow the MEC to use search capabilities, providing for a manual review by MEC staff of adherence to the established limits.

•1 Business Analyst to conduct the routine work necessary in reviewing and providing oversight for the proposed legislation. The Business Analyst would review committee reports for compliance, prepare necessary notices, track the receipt of payment, and coordinate the necessary collection efforts. Currently two Business Analysts assist 2,800 committees in filing campaign finance reports, prepare and disseminate 15,000 notices, and review 11,000 campaign finance reports.
•If the Commission identifies significant violations during the process established in Section 105.955.14 (2), (3), RSMo or complaints received increase significantly an Investigator would be required to provide the proper oversight.

Officials from the **State Auditor's office** (SAO) indicated any additional costs can be absorbed within current appropriations.

Sean Soendker Nicholson provided the following information as a proponent of this initiative petition.

I am a proponent of the above listed initiative petitions. Pursuant to 116.175 RSMo, I submit the following information regarding the initiative petitions.

There is no cost to the state over the next two years as a result of passage of any of the initiatives. Any potential costs arising from the adoption of these proposals is minimal and can be absorbed with existing resources from the General Assembly, Missouri Ethics Commission, Attorney General's Office, Office of Administration, and other state agencies.

There is currently a State Demographer, with statutory duties that extend beyond those of legislative reapportionment. The existing State Demographer can be expected to assume the role of Non-partisan State Demographer, and there would be no fiscal impact. Certainly there can be no definitive judgment that the measure would add costs for the state.

The proposals do not establish a new program or agency so there is no duplication of existing programs. There is no federal mandate with regard to the proposals. There will be no fiscal impact on any subdivision of the state. There will be no economic impact on small businesses.

The Missouri Ethics Commission is already required to provide guidance and information to members of the General Assembly and Missouri public about campaign finance rules and lobbying rules, and is already required to respond to written complaints through conducting investigations and the related legal actions.

The State Auditor's office did not receive a response from the **Department of Elementary and Secondary Education, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri,** and **St. Louis Community College.**

Fiscal Note Summary

State governmental entities estimate annual operating costs may increase by $189,000. Local governmental entities report no fiscal impact.

November 14, 2016

RECEIVED
NOV 14 2016
STATE AUDITORS OFFICE

The Honorable Nicole Galloway
State Auditor
State Capitol Building
Jefferson City, MO 65101

RE: Petition approval request from Sean Soendker Nicholson regarding a proposed constitutional amendment to Article III, version 2 (2018-009)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Sean Soendker Nicholson on November 10, 2016.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

Jason Kander

INITIATIVE PETITION

To the Honorable Jason Kander, Secretary of State for the state of Missouri:

We, the undersigned, registered voters of the state of Missouri and _____ County (or city of St. Louis), respectfully order that the following proposed amendment to the constitution shall be submitted to the voters of the state of Missouri, for their approval or rejection, at the general election to be held on the 6th day of November, 2018, and each for himself or herself says: I have personally signed this petition; I am a registered voter of the state of Missouri and _____ County (or city of St. Louis); my registered voting address and the name of the city, town or village in which I live are correctly written after my name.

RECEIVED

[Official Ballot title]

CIRCULATOR'S AFFIDAVIT

STATE OF MISSOURI, COUNTY OF _____

My commission expires _____.

NOTICE: You are advised that the proposed constitutional amendment may change, repeal, or modify by implication or may be construed by some persons to change, repeal or modify by implication, the following Articles and Sections of the Constitution of Missouri: Article I, Section 8 and the following Sections of the Missouri Revised Statutes: Sections 105.450 through 105.496 and Sections 130.011 through 130.160. The proposed amendment revises Article III of the Constitution by amending Sections 2, 5, 7, and 19 and adopting three new sections to be known as Article III Sections 3, 20(c), and 20(d).

18-009

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article III of the Constitution is revised by amending Sections 2, 5, 7, 19, and adopting three new sections to be known as Article III Sections 3, 20(c), and 20(d) to read as follows:

Section 2.

After the effective date of this section, no person serving as a member of or employed by the General Assembly shall act or serve as a paid lobbyist, register as a paid lobbyist, or solicit prospective employers or clients to represent as a paid lobbyist during the time of such service until the expiration of one calendar year after the conclusion of the session of the general assembly in which the member or employee last served and where such service was after the effective date of this section.

(a) No person serving as a member of or employed by the General Assembly shall accept directly or indirectly a gift of any tangible or intangible item, service, or thing of value from any paid lobbyist or lobbyist principal in excess of five dollars per occurrence. This Article shall not prevent Candidates for the General Assembly, including candidates for reelection, or candidates for offices within the senate or house from accepting campaign contributions consistent with this Article and applicable campaign finance law. Nothing in this section shall prevent individuals from receiving gifts, family support or anything of value from those related to them within the fourth degree by blood or marriage. The dollar limitations of this section shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency and rounded to the nearest dollar amount.

(c) The General Assembly shall make no law authorizing unlimited campaign contributions to candidates for the General Assembly, nor any law that circumvents the contribution limits contained in this Constitution. In addition to other campaign contribution limitations or restrictions provided for by law, the amount of contributions made to or accepted by any candidate or candidate committee from any person other than the candidate in any one election for the General Assembly shall not exceed the following:

(1) To elect an individual to the office of state senator, two thousand five hundred dollars; and

(2) To elect an individual to the office of state representative, two thousand dollars.

The contribution limits and other restrictions of this section shall also apply to any person exploring a candidacy for a public office listed in this subsection.

For purposes of this subsection, "base year amount" shall be the contribution limits prescribed in this section. Contribution limits set forth herein shall be adjusted on the first day of January in each even-numbered year hereafter by multiplying the base year amount by the cumulative consumer price index and rounded to the nearest dollar amount, for all years after 2018.

(d) No contribution to a candidate for legislative office shall be made or accepted, directly or indirectly, in a fictitious name, in the name of another person, or by or through another person in such a manner as to, or with the intent to, conceal the identity of the actual source of the contribution. There shall be a rebuttable presumption that a contribution to a candidate for public office is made or accepted with the intent to circumvent the limitations on contributions imposed in this section when a contribution is received from a committee or organization that is primarily funded by a single person, individual, or other committee that has already reached its contribution limit under any law relating to contribution limitations. A committee or organization shall be deemed to be primarily funded by a single person, individual, or other committee when the committee or organization receives more than fifty percent of its annual funding from that single person, individual, or other committee.

(e) In no circumstance shall a candidate be found to have violated limits on acceptance of contributions if the Missouri Ethics Commission, its successor agency, or a court determines that a candidate has taken no action to indicate acceptance of or acquiescence to the making of an expenditure that is deemed a contribution pursuant to this section.

(f) No candidate shall accept contributions from any federal political action committee unless the committee has filed the same financial disclosure reports that would be required of a Missouri political action committee.

Section 3.

(a) There is hereby established the post of "non-partisan state demographer." The non-partisan state demographer shall acquire appropriate information to develop procedures in preparation for drawing legislative redistricting maps on the basis of each federal census for presentation to the house apportionment commission and the senatorial apportionment commission.

(b) The non-partisan state demographer shall be selected through the following process. First, state residents may apply for selection to the state auditor using an application developed by the state auditor to determine an applicant's qualifications and expertise relevant to the position. Second, the state auditor shall deliver to the majority leader and minority leader of the senate a list of at least three applicants with sufficient expertise and qualifications, as determined by the state auditor, to perform the duties of the non-partisan state demographer. Third, if the majority leader and minority leader of the senate together agree that a specific applicant should be selected to be the non-partisan state demographer, that applicant shall be selected and the selection process shall cease. Fourth, if the majority leader and minority leader of the senate cannot together agree on an applicant, they may each remove a number of applicants on the state auditor's list equal to one-third of the total number of applicants on that list, rounded down to the next integer, and the state auditor shall then conduct a random lottery of the applicants remaining after removal to select the non-partisan state demographer. The state auditor shall prescribe a time frame and deadlines for this application and selection process that both encourages numerous qualified applicants and avoids delay in selection. The non-partisan state demographer shall serve a term of five years and may be reappointed. To be eligible for the non-partisan state demographer position an individual shall not have served in a partisan, elected position for four years prior to the appointment. The non-partisan state demographer shall be disqualified from holding office as a member of the general assembly for four years following the date of the presentation of his or her most recent legislative redistricting map to the house apportionment commission or the senatorial apportionment commission.

(c) The house of representatives shall consist of one hundred sixty-three members elected at each general election and apportioned [in the following manner:] as provided in this section.

(1) Within ten days after the population of this state is reported to the President for each decennial census of the United States or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within ten days after such a ruling has been made, the non-partisan state demographer shall begin the preparation of legislative districting plans and maps using the following methods, listed in order of priority:

(a) Districts shall be established on the basis of total population. Legislative districts shall each have a total population as nearly equal as practicable to the ideal population for such districts, determined by dividing the number of districts to be established into the total population of the state reported in the federal decennial census.

(b) Districts shall be established in a manner so as to comply with all requirements of the United States

Constitution and applicable federal laws, including, but not limited to, the Voting Rights Act of 1965 (as amended). Notwithstanding any other provision of this Article, districts shall not be drawn with the intent or result of denying or abridging the equal opportunity of racial or language minorities to participate in the political process or diminishing their ability to elect representatives of their choice, whether by themselves or by voting in concert with other persons.

18-009

Districts shall be established in a manner which maximizes partisan fairness and competitiveness treating similarly-situated parties equitably so that each receives the same fraction of legislative seats for a particular vote percentage as the other party would receive if it had received the same percentage of the vote. The non-partisan state demographer shall draw districts that meet as closely as possible the tests for partisan fairness and competitiveness.

To that end, the non-partisan state demographer shall calculate a district party partisan performance index for each district by determining the number of votes cast for the two top vote- getting parties in each district and then calculating the percentage of those votes won by each of the two parties casting the highest vote for governor at the last three preceding gubernatorial elections, for United States Senate at the last three preceding United States Senate elections, and for President of the United States at the last three preceding Presidential elections. The party partisan performance index for each district will then be averaged to create a statewide electoral performance index. Using the resultant statewide electoral performance index, the non-partisan state demographer shall test the plan, simulating an evenly split statewide election by normalizing district party partisan performance indices by the amount by which the statewide electoral performance index varies from fifty percent. In a hypothetical evenly divided statewide election under the proposed plan, the legislative seats should be distributed evenly between parties.

The non-partisan state demographer shall promote competitiveness by ensuring the plan is drawn so as to be equally responsive to surges in the electorate favoring either party. To test this, the non-partisan state demographer shall again use the normalized district-level results within the proposed plan to simulate separate elections in which the hypothetical statewide vote varies from fifty percent by one percent, two percent, three percent, four percent and five percent in favor of each party. The number of additional seats yielded by the simulation for any party for any amount it performs over fifty percent should be matched by the number of seats gained by the other party when it performs the same amount over fifty percent.

(c) Subject to the requirements of subdivisions (1)(a) and (1)(b), districts shall be composed of contiguous territory. Areas which meet only at the points of adjoining corners are not contiguous.

(d) To the extent consistent with subdivisions (1)(a) – (1)(c) of this subsection, district boundaries shall coincide with the boundaries of political subdivisions of the state. The number of counties and cities divided among more than one district shall be as small as possible. When there is a choice between dividing local political subdivisions, the more populous subdivisions shall be divided before the less populous, but this preference shall not apply to a legislative district boundary drawn along a county line which passes through a city that lies in more than one county.

(e) Preference shall be that districts are compact in form, but the standards established by subdivisions (1)(a) – (1)(d) of this subsection take precedence over compactness where a conflict arises between compactness and these standards. In general, compact districts are those which are square, rectangular, or hexagonal in shape to the extent permitted by natural or political boundaries.

(2) Within sixty days after the population of this state is reported to the President for each decennial census of the United States [and] or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within sixty days [after notification by the governor] that such a ruling has been made, the congressional district committee of each of the two parties casting the highest vote for governor at the last preceding election shall meet and the members of the committee shall nominate, by a majority vote of the members of the committee present, provided that a majority of the elected members is present, two members of their party, residents in that district, as nominees for reapportionment commissioners. Neither party shall select more than one nominee from any one state legislative district. The congressional committees shall each submit to the governor their list of elected nominees. Within thirty days the governor shall appoint a commission consisting of one name from each list to reapportion the state into one hundred and sixty-three representative districts and to establish the numbers and boundaries of said districts.

If any of the congressional committees fails to submit a list within such time the governor shall appoint a member of his own choice from that district and from the political party of the committee failing to make the appointment.

Members of the commission shall be disqualified from holding office as members of the general assembly for four years following the date of the filing by the commission of its final statement of apportionment.

For the purposes of this Article, the term congressional district committee or congressional district refers to the congressional district committee or the congressional district from which a congressman was last elected, or, in the event members of congress from this state have been elected at large, the term congressional district committee refers to those persons who last served as the congressional district committee for those districts from which congressmen were last elected, and the term congressional district refers to those districts from which congressmen were last elected. Any action pursuant to this section by the congressional district committee shall take place only at duly called meetings, shall be recorded in their official minutes and only members present in person shall be permitted to vote.

(3) Within six months after the population of this state is reported to the President for each decennial census of the United States or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within six months after such a ruling has been made, the non-partisan state demographer shall make public and file with the secretary of state and with the house apportionment commission a tentative plan of apportionment and map of the proposed districts, as well as all demographic and partisan data used in the creation of the plan and map.

The commissioners so selected shall, [on the fifteenth day, excluding Sundays and holidays, after all members have been selected] within ten days of receiving the tentative plan of apportionment and map of the proposed districts, meet in the capitol building and proceed to organize by electing from their number a chairman, vice chairman and secretary [and]. The commission shall adopt an agenda establishing at least three hearing dates on which hearings open to the public shall be held to hear objections or testimony from interested persons. A copy of the agenda shall be filed with the clerk of the house of representatives within twenty-four hours after its adoption. Executive meetings may be scheduled and held as often as the commission deems advisable.

The commission may make changes to the tentative plan of apportionment and map of the proposed districts received from the non-partisan state demographer provided that such changes are consistent with this section and approved by a vote of at least seven-tenths of the commissioners. If no changes are made or approved as provided for in this subsection, the tentative plan of apportionment and map of proposed districts shall become final. Not later than two months of receiving the tentative plan of apportionment and map of the proposed districts, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts.

[The commission shall reapportion the representatives by dividing the population of the state by the number one hundred sixty-three and shall establish each district so that the population of that district shall, as nearly as possible, equal that figure.

18-009

Each district shall be composed of contiguous territory as compact as may be.

Not later than five months after the appointment of the commission the commission shall receive the tentative plan of apportionment and map of the proposed districts ordered in subsection 4 of this section and during the ensuing fifteen days shall hold such public hearings as may be necessary to hear objections or testimony of interested persons.

Not later than six months after the appointment of the commission, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts, and no statement shall be valid unless approved by at least seven-tenths of the members.

After the statement is filed members of the house of representatives shall be elected according to such districts until a reapportionment is made as herein provided, except that if the statement is not filed within six months of the time fixed for the appointment of the commission, it shall stand discharged and the house of representatives shall be apportioned by a commission of six members appointed from among the judges of the appellate courts of the state of Missouri by the state supreme court, a majority of whom shall sign and file its apportionment plan and map with the secretary of state within ninety days of the date of the discharge of the apportionment commission. Thereafter members of the house of representatives shall be elected according to such districts until a reapportionment is made as herein provided.]

Each member of the commission shall receive as compensation fifteen dollars a day for each day the commission is in session but not more than one thousand dollars, and, in addition, shall be reimbursed for his actual and necessary expenses incurred while serving as a member of the commission.

No reapportionment shall be subject to the referendum.

Section 5.

(a) The Senate shall consist of thirty-four members elected by the qualified voters of the senatorial [respective] districts for a term of four years. [For the election of senators, the state shall be divided into convenient districts of contiguous territory, as compact and nearly equal in population as may be.] Senatorial districts shall be apportioned as provided for in Article III, Section 7.

Section 7.

(1) Within ten days after the population of this state is reported to the President for each decennial census of the United States or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within ten days after such a ruling has been made, the non-partisan state demographer authorized in Article III Section 3, shall begin the preparation of senatorial districting plans and maps using the same methods and criteria as those required by Article III, Section 3 for the establishment of districts for the House of Representatives.

(2) Within sixty days after the population of this state is reported to the President for each decennial census of the United States, [and] or within sixty days after [notification by the governor that] a reapportionment has been invalidated by a court of competent jurisdiction, the state committee of each of the two political parties casting the highest vote for governor at the last preceding election shall, at a committee meeting duly called, select by a vote of the individual committee members, and thereafter submit to the governor a list of ten persons, and within thirty days thereafter the governor shall appoint a commission of ten members, five from each list, to reapportion the thirty-four senatorial districts and to establish the numbers and boundaries of said districts.

If either of the party committees fails to submit a list within such time the governor shall appoint five members of his own choice from the party of the committee so failing to act.

Members of the commission shall be disqualified from holding office as members of the general assembly for four years following the date of the filing by the commission of its final statement of apportionment.

(3) Within six months after the population of this state is reported to the President for each decennial census of the United States or in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within six months after such a ruling has been made, the non-partisan state demographer shall file with the secretary of state and with the senatorial apportionment commission a tentative plan of apportionment and map of the proposed districts.

The commissioners so selected shall [on the fifteenth day, excluding Sundays and holidays, after all members have been selected] within ten days of receiving the tentative plan of apportionment and map of the proposed districts required by subsection (d) of this section, meet in the capitol building and proceed to organize by electing from their number a chairman, vice chairman and secretary [and]. The commission shall adopt an agenda establishing at least three hearing dates on which hearings open to the public shall be held to hear objections or testimony from interested persons. A copy of the agenda shall be filed with the secretary of the senate within twenty-four hours after its adoption. Executive meetings may be scheduled and held as often as the commission deems advisable. The commission may make changes to the tentative plan of apportionment and map of the proposed districts received from the non-partisan state demographer provided that such changes are consistent with this Section and the methods and criteria required by Section 3 of this Article for the establishment of districts for the House of Representatives and approved by a vote of at least seven-tenths of the commissioners. If no changes are made or approved as provided for in this subsection, the tentative plan of apportionment and map of proposed districts shall become final. Not later than two months after receiving the tentative plan of apportionment and map of the proposed districts, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts.

[The commission shall reapportion the senatorial districts by dividing the population of the state by the number thirty-four and shall establish each district so that the population of that district shall, as nearly as possible, equal that figure; no county lines shall be crossed except when necessary to add sufficient population to a multi-district county or city to complete only one district which lies partly within such multi-district county or city so as to be as nearly equal as practicable in population. Any county with a population in excess of the quotient obtained by dividing the population of the state by the number thirty-four is hereby declared to be a multi-district county.

Not later than five months after the appointment of the commission the commission shall file with the secretary of state a tentative plan of apportionment and map of the proposed districts and during the ensuing fifteen days shall hold such public hearings as may be necessary to hear objections or testimony of interested persons.

Not later than six months after the appointment of the commission, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts, and no statement shall be valid unless

approved by at least seven members.

After the statement is filed senators shall be elected according to such districts until a reapportionment is made as herein provided, except that if the statement is not filed within six months of the time fixed for the appointment of the commission, it shall stand discharged and the senate shall be apportioned by a commission of six members appointed from among the judges of the appellate courts of the state of Missouri by the state supreme court, a majority of whom shall sign and file its apportionment plan and map with the secretary of state within ninety days of the date of the discharge of the apportionment commission. Thereafter senators shall be elected according to such districts until a reapportionment is made as herein provided.]

Each member of the commission shall receive as compensation fifteen dollars a day for each day the commission is in session, but not more than one thousand dollars, and, in addition, shall be reimbursed for his actual and necessary expenses incurred while serving as a member of the commission.

No reapportionment shall be subject to the referendum.

18-009

Section 19.

(a) Senators and representatives shall, in all cases except treason, felony, offenses under this Article, or breach of the peace, be privileged from arrest during the session of the general assembly, and for the fifteen days next before the commencement and after the termination of each session; and they shall not be questioned for any speech or debate in either house in any other place.

(b) Legislative records shall be public records and subject to generally applicable state laws governing public access to public records, including the "Sunshine Law." Legislative records include, but are not limited to, all records, in whatever form or format, of the official acts of the general assembly, of the official acts of legislative committees, of the official acts of members of the general assembly, of individual legislators, their employees and staff, of the conduct of legislative business and all records that are created, stored or distributed through legislative branch facilities, equipment or mechanisms, including electronic. Each member of the general assembly is the custodian of legislative records under the custody and control of the member, their employees and staff. The chief clerk of the house or the secretary of the senate are the custodians for all other legislative records relating to the house and the senate, respectively.

(c) Legislative proceedings, including committee proceedings, shall be public meetings subject to generally applicable law governing public access to public meetings, including the "Sunshine Law." Open public meetings of legislative proceedings shall be subject to recording by citizens, so long as the proceedings are not materially disrupted.

Section 20(c).

No political fundraising activities or political fundraising event by any member of or candidate for the general assembly, including but not limited to the solicitation or delivery of contributions, supporting or opposing any candidate, initiative petition, referendum petition, ballot measure, political party or political committee, shall occur in or on any premises, property or building owned, leased or controlled by the State of Missouri or any agency or division thereof. Any purposeful violation of this section shall be punishable by imprisonment for up to one year or a fine of up to one thousand dollars or both, plus an amount equal to three times the illegal contributions. The Missouri Ethics Commission or its successor agency is authorized to enforce this section as provided by law.

Section 20(d).

If any provision of sections 2, 3, 5, 7, 19, or 20(c) or the application thereof to anyone or to any circumstance is held invalid, the remainder of those provisions and the application of such provisions to others or other circumstances shall not be affected thereby.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-009)

Subject

Initiative petition from Sean Soendker Nicholson regarding a proposed constitutional amendment to Article III. (Received November 14, 2016)

Date

December 5, 2016

Description

This proposal would amend Article III of the Missouri Constitution.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** the **Missouri Ethics Commission,** and the **State Auditor's office.**

Sean Soendker Nicholson provided information as a proponent of the proposal to the State Auditor's office.

Assumptions

Officials from the **Attorney General's office** indicated they assume that any potential costs arising from the adoption of this proposal can be absorbed with existing resources.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated there is no impact to their department for this petition.

Officials from the **Department of Higher Education** indicated this would not have a fiscal impact on their department.

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no impact.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** indicated this initiative petition has no fiscal impact on their department.

Officials from the **Department of Public Safety** indicated they see no fiscal impact due to this initiative petition.

Officials from the **Department of Social Services** indicated no fiscal impact on their department.

Officials from the **Governor's office** indicated there should be no added costs or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to that institution.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated no fiscal impact.

Officials from the **Office of Administration** indicated this initiative petition revises Article III of the Missouri Constitution by amending Sections 2, 5, 7, and 19 and enacting three new sections.

Legislators and their employees are prohibited from lobbying for at least one year after the conclusion of the session during which they vacate office, and from acting as paid consultants while in office. Legislators and their staff are prohibited from accepting a gift in excess of five dollars, per occurrence.

The initiative creates the post of "non-partisan State Demographer" to oversee the redistricting process for the state House and Senate districts. The demographer is to be selected by a process involving the State Auditor and the Senate majority and minority leaders. Note that the wording is unclear on this process because the only State Auditor list mentioned in the list of three names. Therefore, if each the minority and the majority member are allowed to remove one-third of the list, they may each remove one person, leaving only one choice left, so no random lottery would be necessary. This demographer will be unable to hold elected office for four years following the filing of the new legislative districts. The redistricting process shall maximize partisan fairness and competitiveness.

It mandates that legislative records which are created, stored or distributed through legislative branch facilities, equipment or mechanisms shall be public. It allows explicitly identifies legislative proceedings as open meetings and authorizes recording of such proceedings by citizens.

Political fundraising activities and events may not be held in any location owned by, or under the control of, the State of Missouri.

Campaign contributions for state senators are limited to $2,500 and representatives are limited to $2,000, with CPI adjustments made in even-numbered years. Also, contributions from federal political action committees are prohibited unless the committee has filed the same financial disclosure reports that would be required of a Missouri political action committee.

Officials indicated this proposal could have an impact on their office as follows. There is currently a State Demographer, with statutory duties that extend beyond those of legislative reapportionment. If the existing State Demographer would be chosen to assume the role of "Non-partisan State Demographer", there would be no fiscal impact. However, if that post is filled by another individual, the salary and benefits costs would be an estimated $128,513 in FY 2021, adjusted for inflation. In either scenario, the cost for other staff hired for the purposes of redistricting would remain the same.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated no fiscal impact on that institution.

Officials from the **Secretary of State's office** indicated their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any impact on their office.

Officials from the **State Treasurer's office** indicated this would have no fiscal impact on their office.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from the **City of Columbia** indicated no apparent impact on their city.

Officials from the **City of Kansas City** indicated no fiscal impact is anticipated if this proposal is adopted.

Officials from the **City of Raymore** indicated no fiscal impact.

Officials from the **City of St. Joseph** indicated this initiative petition should not have a fiscal impact on their local government.

Officials from the **Metropolitan Community College** indicated there is no anticipated impact for their college.

Officials from the **University of Missouri** indicated the proposed initiative petition will not have a fiscal impact on their university.

Officials from the **Missouri Ethics Commission** (MEC) indicated:

The total estimated net effect on all state funds will be $67,478 for the first year implemented, $61,107 for the second year implemented, and $61,734 for the third year implemented.

Prohibiting a statewide elected official, member of the general assembly or paid employee of general assembly from acting, serving, or registering as a lobbyist for a specified period of time after leaving office would require the following of the MEC:

- Provide information to public officials and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo., about the new statutory requirements; examples include providing education, developing informational materials, telephone and email assistance.
- Provide oversight to ensure those individuals leaving the general assembly do not register as a lobbyist with the MEC for the specified period of time. This would entail reviewing lobbyist registrations, at the time of receipt by the MEC, and comparing them to those members of the general assembly who have left office within the specified period of time. For any individual submitting a registration, create the necessary correspondence to the registrant and track the results of the correspondence.
- Respond to written complaints, as established in Section 105.955.14, RSMo., through conducting investigations and the related legal actions. Any significant increase of complaints would require additional Commission resources, including investigative staff.

Implementing prohibition for a member of general assembly, staff/employees of the general assembly to accept specified monetary lobbyist/lobbyist principal gifts would require the following of the MEC:

- Provide information to public officials and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo., about the new statutory requirements; examples include providing education, developing informational materials, telephone and email assistance.
- Provide oversight in adherence to the specific gift prohibition, including reviewing lobbyist reports as established in Section 105.959, RSMo. This oversight, it is assumed, would be primarily from receiving written complaints, as established in Section 105.955.14, RSMo., through conducting investigations and the related legal actions. It is assumed this prohibition would result in a minimal number of complaints; however, if this assumption is incorrect the Commission would require additional staff resources.

Implementing campaign finance limits would require the following of the MEC:

- Provide information to those committee officers and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo. about these limits; examples include providing education, developing informational materials, telephone and email assistance.
- Provide oversight in campaign finance committee adherence to the specific contribution limits, including reviewing, auditing, and performing cross checks of the reported contributions, as established in Section 105.955.14 (2), (3), RSMo.
- Respond to written complaints, as established in Section 105.955.14, RSMo., through conducting investigations and the related legal actions.

Oversee the prohibition of political fundraising activities or events from occurring on State of Missouri property or any agency or division thereof would require the following of the MEC:

- Provide information to those committee officers and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo. about this provision; examples include providing education, developing informational materials, telephone and email assistance.
- Provide oversight in campaign finance committee adherence to the specific restrictions, including reviewing, auditing, and performing cross checks of the reported fund raising activity, as established in Section 105.955.14 (2), (3), RSMo.
- Respond to written complaints, as established in Section 105.955.14, RSMo., through conducting investigations and the related legal actions.

In regards to all of the provisions outlined above, if the Commission identifies significant violations during the process established in Section 105.955.14 (2), (3), RSMo or complaints received increase significantly an Investigator would be required to provide the proper oversight.

The implementation of contribution limits requires the Missouri Ethics Commission to request additional funding. Below is an outline of the additional funding. In the 2016 November General Election a Constitutional Amendment implementing contribution limits was adopted by voters. At this time, the Missouri Ethics Commission has not received the additional funding required to implement contribution limits.

The proposed provisions would implement campaign finance limits. The implementation of the above responsibilities would require the following additional resources:

- $15,120 in expense and equipment to acquire contract services that would develop the MEC internal search capabilities for oversight of the campaign finance committees' adherence to the specific contribution limits, as established in 105.955.14, RSMo. Current campaign finance data collection would allow the MEC to use search capabilities, providing for a manual review by MEC staff of adherence to the established limits.

•1 Business Analyst to conduct the routine work necessary in reviewing and providing oversight for the proposed legislation. The Business Analyst would review committee reports for compliance, prepare necessary notices, track the receipt of payment, and coordinate the necessary collection efforts. Currently two Business Analysts assist 2,800 committees in filing campaign finance reports, prepare and disseminate 15,000 notices, and review 11,000 campaign finance reports.

•If the Commission identifies significant violations during the process established in Section 105.955.14 (2), (3), RSMo or complaints received increase significantly an Investigator would be required to provide the proper oversight.

Officials from the **State Auditor's office** (SAO) indicated any additional costs can be absorbed within current appropriations.

Sean Soendker Nicholson provided the following information as a proponent of this initiative petition.

I am a proponent of the above listed initiative petitions. Pursuant to 116.175 RSMo, I submit the following information regarding the initiative petitions.

There is no cost to the state over the next two years as a result of passage of any of the initiatives. Any potential costs arising from the adoption of these proposals is minimal and can be absorbed with existing resources from the General Assembly, Missouri Ethics Commission, Attorney General's Office, Office of Administration, and other state agencies.

There is currently a State Demographer, with statutory duties that extend beyond those of legislative reapportionment. The existing State Demographer can be expected to assume the role of Non-partisan State Demographer, and there would be no fiscal impact. Certainly there can be no definitive judgment that the measure would add costs for the state.

The proposals do not establish a new program or agency so there is no duplication of existing programs. There is no federal mandate with regard to the proposals. There will be no fiscal impact on any subdivision of the state. There will be no economic impact on small businesses.

The Missouri Ethics Commission is already required to provide guidance and information to members of the General Assembly and Missouri public about campaign finance rules and lobbying rules, and is already required to respond to written complaints through conducting investigations and the related legal actions.

The State Auditor's office did not receive a response from the **Department of Elementary and Secondary Education, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,**

the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri,** and **St. Louis Community College.**

Fiscal Note Summary

State governmental entities estimate annual operating costs may increase by $189,000. Local governmental entities report no fiscal impact.

The Honorable Nicole Galloway
State Auditor
State Capitol Building
Jefferson City, MO 65101

RE: Petition approval request from Sean Soendker Nicholson regarding a proposed constitutional amendment to Article III, version 1 (2018-008)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Sean Soendker Nicholson on November 10, 2016.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

Jason Kander

NOTICE: You are advised that the proposed constitutional amendment may change, repeal, or modify by implication or may be construed by some persons to change, repeal or modify by implication, the following Articles and Sections of the Constitution of Missouri: Article I, Section 8 and the following Sections of the Missouri Revised Statutes: Sections 105.450 through 105.496 and Sections 130.011 through 130.160. The proposed amendment revises Article III of the Constitution by amending Sections 2, 5, 7, and 19 and adopting three new sections to be known as Article III Sections 3, 20(c), and 20(d).

18-008

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Section A. Article III of the Constitution is revised by amending Sections 2, 5, 7, 19, and adopting three new sections to be known as Article III Sections 3, 20(c), and 20(d) to read as follows:

Section 2.

After the effective date of this section, no person serving as a member of or employed by the General Assembly shall act or serve as a paid lobbyist, register as a paid lobbyist, or solicit prospective employers or clients to represent as a paid lobbyist during the time of such service until the expiration of one calendar year after the conclusion of the session of the general assembly in which the member or employee last served and where such service was after the effective date of this section.

(a) No person serving as a member of or employed by the General Assembly shall accept directly or indirectly a gift of any tangible or intangible item, service, or thing of value from any paid lobbyist or lobbyist principal in excess of five dollars per occurrence. This Article shall not prevent Candidates for the General Assembly, including candidates for reelection, or candidates for offices within the senate or house from accepting campaign contributions consistent with this Article and applicable campaign finance law. Nothing in this section shall prevent individuals from receiving gifts, family support or anything of value from those related to them within the fourth degree by blood or marriage. The dollar limitations of this section shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency and rounded to the nearest dollar amount.

(c) The General Assembly shall make no law authorizing unlimited campaign contributions to candidates for the General Assembly, nor any law that circumvents the contribution limits contained in this Constitution. In addition to other campaign contribution limitations or restrictions provided for by law, the amount of contributions made to or accepted by any candidate or candidate committee from any person other than the candidate in any one election for the General Assembly shall not exceed the following:

(1) To elect an individual to the office of state senator, two thousand five hundred dollars; and

(2) To elect an individual to the office of state representative, two thousand dollars.

The contribution limits and other restrictions of this section shall also apply to any person exploring a candidacy for a public office listed in this subsection.

For purposes of this subsection, "base year amount" shall be the contribution limits prescribed in this section. Contribution limits set forth herein shall be adjusted on the first day of January in each even-numbered year hereafter by multiplying the base year amount by the cumulative consumer price index and rounded to the nearest dollar amount, for all years after 2018.

(d) No contribution to a candidate for legislative office shall be made or accepted, directly or indirectly, in a fictitious name, in the name of another person, or by or through another person in such a manner as to, or with the intent to, conceal the identity of the actual source of the contribution. There shall be a rebuttable presumption that a contribution to a candidate for public office is made or accepted with the intent to circumvent the limitations on contributions imposed in this section when a contribution is received from a committee or organization that is primarily funded by a single person, individual, or other committee that has already reached its contribution limit under any law relating to contribution limitations. A committee or organization shall be deemed to be primarily funded by a single person, individual, or other committee when the committee or organization receives more than fifty percent of its annual funding from that single person, individual, or other committee.

(e) In no circumstance shall a candidate be found to have violated limits on acceptance of contributions if the Missouri Ethics Commission, its successor agency, or a court determines that a candidate has taken no action to indicate acceptance of or acquiescence to the making of an expenditure that is deemed a contribution pursuant to this section.

(f) No candidate shall accept contributions from any federal political action committee unless the committee has filed the same financial disclosure reports that would be required of a Missouri political action committee.

Section 3.

(a) There is hereby established the post of "non-partisan state demographer." The non-partisan state demographer shall acquire appropriate information to develop procedures in preparation for drawing legislative redistricting maps on the basis of each federal census for presentation to the house apportionment commission and the senatorial apportionment commission.

(b) The non-partisan state demographer shall be appointed by the Governor through a merit based process. The non-partisan state demographer shall serve a term of five years and may be reappointed. To be eligible for the non-partisan state demographer position an individual shall not have served in a partisan, elected position for four years prior to the appointment. The non-partisan state demographer shall be disqualified from holding office as a member of the general assembly for four years following the date of the presentation of his or her most recent legislative redistricting map to the house apportionment commission or the senatorial apportionment commission.

(c) The house of representatives shall consist of one hundred sixty-three members elected at each general election and apportioned [in the following manner:] as provided in this section.

(1) Within ten days after the population of this state is reported to the President for each decennial census of the United States or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within ten days after such a ruling has been made, the non-partisan state demographer shall begin the preparation of legislative districting plans and maps using the following methods, listed in order of priority:

(a) Districts shall be established on the basis of total population. Legislative districts shall each have a total population as nearly equal as practicable to the ideal population for such districts, determined by dividing the number of districts to be established into the total population of the state reported in the federal decennial census.

(b) Districts shall be established in a manner so as to comply with all requirements of the United States Constitution and applicable federal laws, including, but not limited to, the Voting Rights Act of 1965 (as amended). Notwithstanding any other provision of this Article, districts shall not be drawn with the intent or result of denying or abridging the equal opportunity of racial or language minorities to participate in the political process or diminishing their ability to elect representatives of their choice, whether by themselves or by voting in concert with other persons.

Districts shall be established in a manner which maximizes partisan fairness and competitiveness treating similarly-situated parties equitably so that each receives the same fraction of legislative seats for a particular vote percentage as the other party

18-008

would receive if it had received the same percentage of the vote. The non-partisan state demographer shall draw districts that meet as closely as possible the tests for partisan fairness and competitiveness.

To that end, the non-partisan state demographer shall calculate a district party partisan performance index for each district by determining the number of votes cast for the two top vote- getting parties in each district and then calculating the percentage of those votes won by each of the two parties casting the highest vote for governor at the last three preceding gubernatorial elections, for United States Senate at the last three preceding United States Senate elections, and for President of the United States at the last three preceding Presidential elections. The party partisan performance index for each district will then be averaged to create a statewide electoral performance index. Using the resultant statewide electoral performance index, the non-partisan state demographer shall test the plan, simulating an evenly split statewide election by normalizing district party partisan performance indices by the amount by which the statewide electoral performance index varies from fifty percent. In a hypothetical evenly divided statewide election under the proposed plan, the legislative seats should be distributed evenly between parties.

The non-partisan state demographer shall promote competitiveness by ensuring the plan is drawn so as to be equally responsive to surges in the electorate favoring either party. To test this, the non-partisan state demographer shall again use the normalized district-level results within the proposed plan to simulate separate elections in which the hypothetical statewide vote varies from fifty percent by one percent, two percent, three percent, four percent and five percent in favor of each party. The number of additional seats yielded by the simulation for any party for any amount it performs over fifty percent should be matched by the number of seats gained by the other party when it performs the same amount over fifty percent.

(c) Subject to the requirements of subdivisions (1)(a) and (1)(b), districts shall be composed of contiguous territory. Areas which meet only at the points of adjoining corners are not contiguous.

(d) To the extent consistent with subdivisions (1)(a) – (1)(c) of this subsection, district boundaries shall coincide with the boundaries of political subdivisions of the state. The number of counties and cities divided among more than one district shall be as small as possible. When there is a choice between dividing local political subdivisions, the more populous subdivisions shall be divided before the less populous, but this preference shall not apply to a legislative district boundary drawn along a county line which passes through a city that lies in more than one county.

(e) Preference shall be that districts are compact in form, but the standards established by subdivisions (1)(a) – (1)(d) of this subsection take precedence over compactness where a conflict arises between compactness and these standards. In general, compact districts are those which are square, rectangular, or hexagonal in shape to the extent permitted by natural or political boundaries.

(2) Within sixty days after the population of this state is reported to the President for each decennial census of the United States [and] or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within sixty days [after notification by the governor] that such a ruling has been made, the congressional district committee of each of the two parties casting the highest vote for governor at the last preceding election shall meet and the members of the committee shall nominate, by a majority vote of the members of the committee present, provided that a majority of the elected members is present, two members of their party, residents in that district, as nominees for reapportionment commissioners. Neither party shall select more than one nominee from any one state legislative district. The congressional committees shall each submit to the governor their list of elected nominees. Within thirty days the governor shall appoint a commission consisting of one name from each list to reapportion the state into one hundred and sixty-three representative districts and to establish the numbers and boundaries of said districts.

If any of the congressional committees fails to submit a list within such time the governor shall appoint a member of his own choice from that district and from the political party of the committee failing to make the appointment.

Members of the commission shall be disqualified from holding office as members of the general assembly for four years following the date of the filing by the commission of its final statement of apportionment.

For the purposes of this Article, the term congressional district committee or congressional district refers to the congressional district committee or the congressional district from which a congressman was last elected, or, in the event members of congress from this state have been elected at large, the term congressional district committee refers to those persons who last served as the congressional district committee for those districts from which congressmen were last elected, and the term congressional district refers to those districts from which congressmen were last elected. Any action pursuant to this section by the congressional district committee shall take place only at duly called meetings, shall be recorded in their official minutes and only members present in person shall be permitted to vote.

(3) Within six months after the population of this state is reported to the President for each decennial census of the United States or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within six months after such a ruling has been made, the non-partisan state demographer shall make public and file with the secretary of state and with the house apportionment commission a tentative plan of apportionment and map of the proposed districts, as well as all demographic and partisan data used in the creation of the plan and map.

The commissioners so selected shall, [on the fifteenth day, excluding Sundays and holidays, after all members have been selected] within ten days of receiving the tentative plan of apportionment and map of the proposed districts, meet in the capitol building and proceed to organize by electing from their number a chairman, vice chairman and secretary [and]. The commission shall adopt an agenda establishing at least three hearing dates on which hearings open to the public shall be held to hear objections or testimony from interested persons. A copy of the agenda shall be filed with the clerk of the house of representatives within twenty-four hours after its adoption. Executive meetings may be scheduled and held as often as the commission deems advisable.

The commission may make changes to the tentative plan of apportionment and map of the proposed districts received from the non-partisan state demographer provided that such changes are consistent with this section and approved by a vote of at least seven-tenths of the commissioners. If no changes are made or approved as provided for in this subsection, the tentative plan of apportionment and map of proposed districts shall become final. Not later than two months of receiving the tentative plan of apportionment and map of the proposed districts, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts.

[The commission shall reapportion the representatives by dividing the population of the state by the number one hundred sixty-three and shall establish each district so that the population of that district shall, as nearly as possible, equal that figure.

Each district shall be composed of contiguous territory as compact as may be.

Not later than five months after the appointment of the commission the commission shall receive the tentative plan of apportionment and map of the proposed districts ordered in subsection 4 of this section and during the ensuing fifteen days shall hold such public hearings as may be necessary to hear objections or testimony of interested persons.

Not later than six months after the appointment of the commission, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts, and no statement shall be valid unless approved by at least seven-tenths of the members.

18-008

After the statement is filed members of the house of representatives shall be elected according to such districts until a reapportionment is made as herein provided, except that if the statement is not filed within six months of the time fixed for the appointment of the commission, it shall stand discharged and the house of representatives shall be apportioned by a commission of six members appointed from among the judges of the appellate courts of the state of Missouri by the state supreme court, a majority of whom shall sign and file its apportionment plan and map with the secretary of state within ninety days of the date of the discharge of the apportionment commission. Thereafter members of the house of representatives shall be elected according to such districts until a reapportionment is made as herein provided.]

Each member of the commission shall receive as compensation fifteen dollars a day for each day the commission is in session but not more than one thousand dollars, and, in addition, shall be reimbursed for his actual and necessary expenses incurred while serving as a member of the commission.

No reapportionment shall be subject to the referendum.

Section 5.

(a) The Senate shall consist of thirty-four members elected by the qualified voters of the senatorial [respective] districts for a term of four years. [For the election of senators, the state shall be divided into convenient districts of contiguous territory, as compact and nearly equal in population as may be.] Senatorial districts shall be apportioned as provided for in Article III, Section 7.

Section 7.

(1) Within ten days after the population of this state is reported to the President for each decennial census of the United States or, in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within ten days after such a ruling has been made, the non-partisan state demographer authorized in Article III Section 3, shall begin the preparation of senatorial districting plans and maps using the same methods and criteria as those required by Article III, Section 3 for the establishment of districts for the House of Representatives.

(2) Within sixty days after the population of this state is reported to the President for each decennial census of the United States, [and] or within sixty days after [notification by the governor that] a reapportionment has been invalidated by a court of competent jurisdiction, the state committee of each of the two political parties casting the highest vote for governor at the last preceding election shall, at a committee meeting duly called, select by a vote of the individual committee members, and thereafter submit to the governor a list of ten persons, and within thirty days thereafter the governor shall appoint a commission of ten members, five from each list, to reapportion the thirty-four senatorial districts and to establish the numbers and boundaries of said districts.

If either of the party committees fails to submit a list within such time the governor shall appoint five members of his own choice from the party of the committee so failing to act.

Members of the commission shall be disqualified from holding office as members of the general assembly for four years following the date of the filing by the commission of its final statement of apportionment.

(3) Within six months after the population of this state is reported to the President for each decennial census of the United States or in the event that a reapportionment has been invalidated by a court of competent jurisdiction, within six months after such a ruling has been made, the non-partisan state demographer shall file with the secretary of state and with the senatorial apportionment commission a tentative plan of apportionment and map of the proposed districts.

The commissioners so selected shall [on the fifteenth day, excluding Sundays and holidays, after all members have been selected] within ten days of receiving the tentative plan of apportionment and map of the proposed districts required by subsection (d) of this section, meet in the capitol building and proceed to organize by electing from their number a chairman, vice chairman and secretary [and]. The commission shall adopt an agenda establishing at least three hearing dates on which hearings open to the public shall be held to hear objections or testimony from interested persons. A copy of the agenda shall be filed with the secretary of the senate within twenty-four hours after its adoption. Executive meetings may be scheduled and held as often as the commission deems advisable. The commission may make changes to the tentative plan of apportionment and map of the proposed districts received from the non-partisan state demographer provided that such changes are consistent with this Section and the methods and criteria required by Section 3 of this Article for the establishment of districts for the House of Representatives and approved by a vote of at least seven-tenths of the commissioners. If no changes are made or approved as provided for in this subsection, the tentative plan of apportionment and map of proposed districts shall become final. Not later than two months after receiving the tentative plan of apportionment and map of the proposed districts, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts.

[The commission shall reapportion the senatorial districts by dividing the population of the state by the number thirty-four and shall establish each district so that the population of that district shall, as nearly as possible, equal that figure; no county lines shall be crossed except when necessary to add sufficient population to a multi-district county or city to complete only one district which lies partly within such multi-district county or city so as to be as nearly equal as practicable in population. Any county with a population in excess of the quotient obtained by dividing the population of the state by the number thirty-four is hereby declared to be a multi-district county.

Not later than five months after the appointment of the commission the commission shall file with the secretary of state a tentative plan of apportionment and map of the proposed districts and during the ensuing fifteen days shall hold such public hearings as may be necessary to hear objections or testimony of interested persons.

Not later than six months after the appointment of the commission, the commission shall file with the secretary of state a final statement of the numbers and the boundaries of the districts together with a map of the districts, and no statement shall be valid unless approved by at least seven members.

After the statement is filed senators shall be elected according to such districts until a reapportionment is made as herein provided, except that if the statement is not filed within six months of the time fixed for the appointment of the commission, it shall stand discharged and the senate shall be apportioned by a commission of six members appointed from among the judges of the appellate courts of the state of Missouri by the state supreme court, a majority of whom shall sign and file its apportionment plan and map with the secretary of state within ninety days of the date of the discharge of the apportionment commission. Thereafter senators shall be elected according to such districts until a reapportionment is made as herein provided.]

Each member of the commission shall receive as compensation fifteen dollars a day for each day the commission is in session, but not more than one thousand dollars, and, in addition, shall be reimbursed for his actual and necessary expenses incurred while serving as a member of the commission.

No reapportionment shall be subject to the referendum.

18-008

Section 19.

(a) Senators and representatives shall, in all cases except treason, felony, offenses under this Article, or breach of the peace, be privileged from arrest during the session of the general assembly, and for the fifteen days next before the commencement and after the termination of each session; and they shall not be questioned for any speech or debate in either house in any other place.

(b) Legislative records shall be public records and subject to generally applicable state laws governing public access to public records, including the "Sunshine Law." Legislative records include, but are not limited to, all records, in whatever form or format, of the official acts of the general assembly, of the official acts of legislative committees, of the official acts of members of the general assembly, of individual legislators, their employees and staff, of the conduct of legislative business and all records that are created, stored or distributed through legislative branch facilities, equipment or mechanisms, including electronic. Each member of the general assembly is the custodian of legislative records under the custody and control of the member, their employees and staff. The chief clerk of the house or the secretary of the senate are the custodians for all other legislative records relating to the house and the senate, respectively.

(c) Legislative proceedings, including committee proceedings, shall be public meetings subject to generally applicable law governing public access to public meetings, including the "Sunshine Law." Open public meetings of legislative proceedings shall be subject to recording by citizens, so long as the proceedings are not materially disrupted.

Section 20(c).

No political fundraising activities or political fundraising event by any member of or candidate for the general assembly, including but not limited to the solicitation or delivery of contributions, supporting or opposing any candidate, initiative petition, referendum petition, ballot measure, political party or political committee, shall occur in or on any premises, property or building owned, leased or controlled by the State of Missouri or any agency or division thereof. Any purposeful violation of this section shall be punishable by imprisonment for up to one year or a fine of up to one thousand dollars or both, plus an amount equal to three times the illegal contributions. The Missouri Ethics Commission or its successor agency is authorized to enforce this section as provided by law.

Section 20(d).

If any provision of sections 2, 3, 5, 7, 19, or 20(c) or the application thereof to anyone or to any circumstance is held invalid, the remainder of those provisions and the application of such provisions to others or other circumstances shall not be affected thereby.

MISSOURI STATE AUDITOR'S OFFICE
FISCAL NOTE (18-008)

Subject

Initiative petition from Sean Soendker Nicholson regarding a proposed constitutional amendment to Article III. (Received November 14, 2016)

Date

December 5, 2016

Description

This proposal would amend Article III of the Missouri Constitution.

The amendment is to be voted on in November 2018.

Public comments and other input

The State Auditor's office requested input from the **Attorney General's office,** the **Department of Agriculture,** the **Department of Economic Development,** the **Department of Elementary and Secondary Education,** the **Department of Higher Education,** the **Department of Health and Senior Services,** the **Department of Insurance, Financial Institutions and Professional Registration,** the **Department of Mental Health,** the **Department of Natural Resources,** the **Department of Corrections,** the **Department of Labor and Industrial Relations,** the **Department of Revenue,** the **Department of Public Safety,** the **Department of Social Services,** the **Governor's office,** the **Missouri House of Representatives,** the **Department of Conservation,** the **Department of Transportation,** the **Office of Administration,** the **Office of State Courts Administrator,** the **Missouri Senate,** the **Secretary of State's office,** the **Office of the State Public Defender,** the **State Treasurer's office, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Greene County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Columbia,** the **City of Jefferson,** the **City of Joplin,** the **City of Kansas City,** the **City of Kirksville,** the **City of Mexico,** the **City of Raymore,** the **City of St. Joseph,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri, Metropolitan Community College, University of Missouri, St. Louis Community College,** the **Missouri Ethics Commission,** and the **State Auditor's office.**

Sean Soendker Nicholson provided information as a proponent of the proposal to the State Auditor's office.

Assumptions

Officials from the **Attorney General's office** indicated they assume that any potential costs arising from the adoption of this proposal can be absorbed with existing resources.

Officials from the **Department of Agriculture** indicated no fiscal impact on their department.

Officials from the **Department of Economic Development** indicated there is no impact to their department for this petition.

Officials from the **Department of Higher Education** indicated this initiative petition would not have a fiscal impact on their department.

Officials from the **Department of Health and Senior Services** indicated no fiscal impact on their department.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** indicated this petition, if passed, will have no cost or savings to their department.

Officials from the **Department of Mental Health** indicated this proposal creates no direct obligations or requirements to their department that would result in a fiscal impact.

Officials from the **Department of Natural Resources** indicated they would not anticipate a direct fiscal impact from this proposal.

Officials from the **Department of Corrections** indicated no impact.

Officials from the **Department of Labor and Industrial Relations** indicated no fiscal impact on their department.

Officials from the **Department of Revenue** indicated this initiative petition has no fiscal impact on their department.

Officials from the **Department of Public Safety** indicated they see no fiscal impact due to this initiative petition.

Officials from the **Department of Social Services** indicated no fiscal impact on their department.

Officials from the **Governor's office** indicated the Governor is responsible for appointing a non-partisan State Demographer; however, there should be no added costs or savings to their office.

Officials from the **Missouri House of Representatives** indicated no fiscal impact to that institution.

Officials from the **Department of Conservation** indicated that no adverse fiscal impact to their department would be expected as a result of this proposal.

Officials from the **Department of Transportation** indicated no fiscal impact.

Officials from the **Office of Administration** indicated this initiative petition revises Article III of the Missouri Constitution by amending Sections 2, 5, 7, and 19 and enacting three new sections.

Legislators and their employees are prohibited from lobbying for at least one year after the conclusion of the session during which they vacate office, and from acting as paid consultants while in office. Legislators and their staff are prohibited from accepting a gift in excess of five dollars, per occurrence.

The initiative creates the post of "non-partisan State Demographer" to oversee the redistricting process for the state House and Senate districts. The demographer is to be selected by the Governor through a merit-based system and shall serve a term of five years. This demographer will be unable to hold elected office for four years following the filing of the new legislative districts. The redistricting process shall maximize partisan fairness and competitiveness.

It mandates that legislative records which are created, stored or distributed through legislative branch facilities, equipment or mechanisms shall be public. It allows explicitly identifies legislative proceedings as open meetings and authorizes recording of such proceedings by citizens.

Political fundraising activities and events may not be held in any location owned by, or under the control of, the State of Missouri.

Campaign contributions for state senators are limited to $2,500 and representatives are limited to $2,000, with CPI adjustments made in even-numbered years. Also, contributions from federal political action committees are prohibited unless the committee has filed the same financial disclosure reports that would be required of a Missouri political action committee.

Officials indicated this proposal could have an impact on their office as follows. There is currently a State Demographer, with statutory duties that extend beyond those of legislative reapportionment. If the existing State Demographer would be expected to assume the role of "Non-partisan State Demographer", there would be no fiscal impact. However, if that post is filled by another individual, the salary and benefits costs would be an estimated $128,513 in FY 2021, adjusted for inflation. In either scenario, the cost for other staff hired for the purposes of redistricting would remain the same.

Officials from the **Office of State Courts Administrator** indicated there is no fiscal impact on the courts.

Officials from the **Missouri Senate** indicated no fiscal impact on that institution.

Officials from the **Secretary of State's office** indicated their office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Their office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with $1.3 million historically appropriated in odd numbered fiscal years and $100,000 appropriated in even numbered fiscal years to meet these requirements. Through FY (fiscal year) 2013, the appropriation had historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2015, the General Assembly changed the appropriation so that it was no longer an estimated appropriation. In FY 2017 their office was appropriated $2.6 million to publish the full text of the measures. In FY 2017, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost $2.4 million to publish (an average of $400,000 per issue). Their office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, they reserve the right to request funding to meet the cost of their publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Officials from the **Office of the State Public Defender** indicated this initiative petition will not have any impact on their office.

Officials from the **State Treasurer's office** indicated this would have no fiscal impact on their office.

Officials from **Greene County** indicated there are no estimated costs or savings to report from their county for this initiative petition.

Officials from the **City of Columbia** indicated no apparent impact on their city.

Officials from the **City of Kansas City** indicated no fiscal impact is anticipated if this proposal is adopted.

Officials from the **City of Raymore** indicated no fiscal impact.

Officials from the **City of St. Joseph** indicated this initiative petition should not have a fiscal impact on their local government.

Officials from the **Metropolitan Community College** indicated there is no anticipated impact for their college.

Officials from the **University of Missouri** indicated the proposed initiative petition will not have a fiscal impact on their university.

Officials from the **Missouri Ethics Commission** (MEC) indicated:

The total estimated net effect on all state funds will be $67,478 for the first year implemented, $61,107 for the second year implemented, and $61,734 for the third year implemented.

Prohibiting a statewide elected official, member of the general assembly or paid employee of general assembly from acting, serving, or registering as a lobbyist for a specified period of time after leaving office would require the following of the MEC:

- Provide information to public officials and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo., about the new statutory requirements; examples include providing education, developing informational materials, telephone and email assistance.
- Provide oversight to ensure those individuals leaving the general assembly do not register as a lobbyist with the MEC for the specified period of time. This would entail reviewing lobbyist registrations, at the time of receipt by the MEC, and comparing them to those members of the general assembly who have left office within the specified period of time. For any individual submitting a registration, create the necessary correspondence to the registrant and track the results of the correspondence.
- Respond to written complaints, as established in Section 105.955.14, RSMo., through conducting investigations and the related legal actions. Any significant increase of complaints would require additional Commission resources, including investigative staff.

Implementing prohibition for a member of general assembly, staff/employees of the general assembly to accept specified monetary lobbyist/lobbyist principal gifts would require the following of the MEC:

- Provide information to public officials and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo., about the new statutory requirements; examples include providing education, developing informational materials, telephone and email assistance.
- Provide oversight in adherence to the specific gift prohibition, including reviewing lobbyist reports as established in Section 105.959, RSMo. This oversight, it is assumed, would be primarily from receiving written complaints, as established in Section 105.955.14, RSMo., through conducting investigations and the related legal actions. It is assumed this prohibition would result in a minimal number of complaints; however, if this assumption is incorrect the Commission would require additional staff resources.

Implementing campaign finance limits would require the following of the MEC:

- Provide information to those committee officers and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo. about these limits; examples include providing education, developing informational materials, telephone and email assistance.
- Provide oversight in campaign finance committee adherence to the specific contribution limits, including reviewing, auditing, and performing cross checks of the reported contributions, as established in Section 105.955.14 (2), (3), RSMo.
- Respond to written complaints, as established in Section 105.955.14, RSMo., through conducting investigations and the related legal actions.

Oversee the prohibition of political fundraising activities or events from occurring on State of Missouri property or any agency or division thereof would require the following of the MEC:

- Provide information to those committee officers and the public as specified in the Commission duties in Section 105.491, 105.955.14 (4), RSMo. about this provision; examples include providing education, developing informational materials, telephone and email assistance.
- Provide oversight in campaign finance committee adherence to the specific restrictions, including reviewing, auditing, and performing cross checks of the reported fund raising activity, as established in Section 105.955.14 (2), (3), RSMo.
- Respond to written complaints, as established in Section 105.955.14, RSMo., through conducting investigations and the related legal actions.

In regards to all of the provisions outlined above, if the Commission identifies significant violations during the process established in Section 105.955.14 (2), (3), RSMo or complaints received increase significantly an Investigator would be required to provide the proper oversight.

The implementation of contribution limits requires the Missouri Ethics Commission to request additional funding. Below is an outline of the additional funding. In the 2016 November General Election a Constitutional Amendment implementing contribution limits was adopted by voters. At this time, the Missouri Ethics Commission has not received the additional funding required to implement contribution limits.

The proposed provisions would implement campaign finance limits. The implementation of the above responsibilities would require the following additional resources:

- $15,120 in expense and equipment to acquire contract services that would develop the MEC internal search capabilities for oversight of the campaign finance committees' adherence to the specific contribution limits, as established in 105.955.14, RSMo. Current campaign finance data collection would allow the MEC to use search capabilities, providing for a manual review by MEC staff of adherence to the established limits.

•1 Business Analyst to conduct the routine work necessary in reviewing and providing oversight for the proposed legislation. The Business Analyst would review committee reports for compliance, prepare necessary notices, track the receipt of payment, and coordinate the necessary collection efforts. Currently two Business Analysts assist 2,800 committees in filing campaign finance reports, prepare and disseminate 15,000 notices, and review 11,000 campaign finance reports.
•If the Commission identifies significant violations during the process established in Section 105.955.14 (2), (3), RSMo or complaints received increase significantly an Investigator would be required to provide the proper oversight.

Officials from the **State Auditor's office** (SAO) indicated there is no fiscal impact for their office.

Sean Soendker Nicholson provided the following information as a proponent of this initiative petition.

I am a proponent of the above listed initiative petitions. Pursuant to 116.175 RSMo, I submit the following information regarding the initiative petitions.

There is no cost to the state over the next two years as a result of passage of any of the initiatives. Any potential costs arising from the adoption of these proposals is minimal and can be absorbed with existing resources from the General Assembly, Missouri Ethics Commission, Attorney General's Office, Office of Administration, and other state agencies.

There is currently a State Demographer, with statutory duties that extend beyond those of legislative reapportionment. The existing State Demographer can be expected to assume the role of Non-partisan State Demographer, and there would be no fiscal impact. Certainly there can be no definitive judgment that the measure would add costs for the state.

The proposals do not establish a new program or agency so there is no duplication of existing programs. There is no federal mandate with regard to the proposals. There will be no fiscal impact on any subdivision of the state. There will be no economic impact on small businesses.

The Missouri Ethics Commission is already required to provide guidance and information to members of the General Assembly and Missouri public about campaign finance rules and lobbying rules, and is already required to respond to written complaints through conducting investigations and the related legal actions.

The State Auditor's office did not receive a response from the **Department of Elementary and Secondary Education, Adair County, Boone County, Callaway County, Cass County, Clay County, Cole County, Jackson County, Jasper County, St. Charles County, St. Louis County, Taney County,** the **City of Cape Girardeau,** the **City of Jefferson,** the **City of Joplin,** the **City of Kirksville,** the **City of Mexico,** the **City of St. Louis,** the **City of Springfield,** the **City of Union,** the **City of Wentzville,** the **City of West Plains, Cape Girardeau 63 School District, Hannibal 60 School District, State Technical College of Missouri,** and **St. Louis Community College.**

Fiscal Note Summary

State governmental entities estimate annual operating costs may increase by $189,000. Local governmental entities report no fiscal impact.

STATE AUDITORS OFFICE

The Honorable Nicole Galloway
State Auditor
State Capitol Building
Jefferson City, MO 65101

RE: Petition approval request from Damien Johnson regarding a proposed constitutional amendment to Article IV, version 2 (2018-007)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Damien Johnson on November 9, 2016.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

Jason Kander

If this form is followed substantially and the requirements of section 116.050 and section 116.080 are met, it shall be sufficient, disregarding clerical and merely technical errors. (L. 1980 S.B. 658, A.L. 1986 H.B. 1471, et al., A.L. 1997 S.B. 132, A.L. 1999 H.B. 676, A.L. 2013 H.B. 117) *Effective 11-04-14

18-007

This measure amends the Missouri Constitution by adding Section 54 to Article 4. This amendment implicitly repeals, in part or in whole, and amends various statutes and subsections including but not necessarily limited to RSMo 105.1105, 105.1108, 105.1112, 195.010.(10)(b)e,195.010.(10)(d), 195.010.(17)(m)(b), 195.010.(17)(g), 195.010.(17)(l),195.010(24), 195.015.4, 195.017.2(4)(r), 195.017.2(4)(z), 195.017.2(4)(ii),195.140.2(2), 195.202.2, 195.202.3, 195.211.2, 195.211.3, 195.211.4, 195.222.7,195.223.7, 195.223.8, 263.250.1.

1. Be it resolved by the people of the state of Missouri that the Constitution be amended:Marijuana shall immediately be removed from the Missouri Revised Statutes list of controlled substances and shall no longer be listed among Missouri's drugs schedules. The state legislature have until the end of the following legislature session of passage to rename marijuana to cannabis in all the statutes or the statutes is null or void

2. Definition of terms, as used in this Act:

a) 1. "cannabis" and "cannabis hemp" refer to the cannabis, marihuana, marijuana, cannabis sativa, cannabis indica, cannabis ruderalis, or any variety of cannabis, including any derivative, concentrate, extract, flower, leaf, particle, preparation, resin, root, salt, seed, stalk, stem, or any product thereof.

b) "hemp": he fiber of this plant, extracted from the stem and used to make rope, stout fabrics, fiberboard, and paper. the sister plant of cannabis

c) "medical cannabis" refers to the medical use of cannabis.

d) "personal use" refers to the non-medical consumption of cannabis.

e) "Expungeable marijuana offense" are any convictions committed prior to this amendment.

f) "home grow amounts" a total of 60 square feet or less of cultivation of cannabis or hemp or a combination of both for personal and/or medical use.

g) "cannabis accessories" means any equipment, products, or materials of any kind that are used, intended for use, or designed for use in planting, propagating, cultivating, growing, harvesting, manufacturing, compounding, converting, producing, processing, preparing, testing, analyzing, packaging, repackaging, storing, or containing cannabis, or for ingesting, inhaling, vaporizing, smoking or otherwise introducing cannabis into and/or onto the human body.

h) "establishment" refers to a cannabis cultivation facility, a cannabis testing facility, a cannabis product manufacturing facility, or a retail cannabis store or other entity that cultivates, prepares, manufactures, packages, transports or sells cannabis, cannabis products and/or cannabis accessories.

3.The following acts are not unlawful and shall not be an offense under Missouri law or be a basis for seizer or forfeiture.

a) Adult Possession of cannabis for personal at 21 years or older.

b) Possession, production, cultivation and distribution of hemp, marijuana and cannabis.

c) Cultivation, harvesting processing, manufacturing, packaging, distributing, transferring, displaying or possessing cannabis, cannabis accessories, and cannabis products for commercial purposes provided the person has current applicable licensing to operate a commercial establishment. No special licensing will be required beyond that which is applicable for the cultivation, harvest, processing, manufacturing, packaging, distribution, transferal, display or possessing of any non-toxic food or food product.

d) Leasing or otherwise allowing the use of property owned, occupied or controlled by any person, corporation or other entity for any of the activities conducted lawfully in accordance with paragraphs (a) through (d) of this subsection.

4. Medical cannabis shall be available to patients who have a physician's recommendation.

(a) All patients engaged in cannabis therapy shall be afforded the same rights and privileges afforded to any patient treated through other pharmaceutical means.

(b) Cannabis acquisition, possession, and consumption shall be permitted to patients under the age of twenty-one with the consent of a parent or legal guardian and through the supervision of a parent or legal custodian and a licensed physician.

(c) Licensed physicians shall not be penalized for nor restricted from recommending cannabis for medical purposes to any person.

(d) Opinions pertaining to, and willingness to recommend medical cannabis therapy shall not be a criteria for the licensure of physicians; no physician shall be subject to any professional licensing review or hearing as a result of recommending or approving medical cannabis therapy.

(e) Any individual who is a legal cannabis patient in another state shall be granted the same rights and privileges as a legal Missouri cannabis patient.

1. Medical care, including organ transplants, shall not be restricted in any way based on a person's use of cannabis.

5. Nothing in this section shall:

(a) Require an employer to retain an employee who is impaired on the job by his use of cannabis.

(b) Permit operation of a motor vehicle, watercraft, aircraft, train, or any transportation device of vehicle by anyone who is impaired by marijuana, cannabis or any other controlled substance.

18-007

(c) Permit the transfer or sale of cannabis intended for adult use to a person younger than twenty-one years of age.

1. Forbid any individual, corporate property owner, elementary education institutions, and secondary education institutions from prohibiting the distribution, sale or cultivation of cannabis within their dwelling for personal use.

6. The dictates of this Initiative shall be implemented no later than January 1, following the election that placed this Initiative before the people.

7. Upon the passage of this Act, all persons incarcerated or under supervision of the Missouri Board of Probation and Parole for non-violent, cannabis-only offenses which are no longer illegal in the State of Missouri under this Act shall be immediately released.

(a) The Court shall order the immediate expungement of civil and criminal records pertaining to all non-violent cannabis only offenses which are no longer illegal in the State of Missouri under this Act.

(b) Within 60 days of the passage of this Act, The Attorney General shall develop and make available to the public a legal document ordering the immediate destruction of all cannabis-related non-violent civil and criminal records in Missouri and for any offense covered by this amendment. This document shall be distributed to all Circuit Court clerks within the State.

8. No Missouri law enforcement personnel or state funds shall be used to assist or aid in the enforcement of federal cannabis laws involving acts which are no longer illegal in the State of Missouri under this amendment

9. Any person who willfully impedes the lawful exercise of these provisions is guilty of a Class A misdemeanor.

10. Cannabis farmers, manufacturers, processors, and distributors shall not be subject to any special zoning requirement, licensing fee that is excessive, discriminatory, prohibitive, or in any way contrary to that which is relative to any other commercial or agricultural farmer, manufacturer, processor or distributor.

11. Taxes and regulations not conflicting with sections may be imposed on the production, distribution, cultivation and possession of cannabis, marijuana and hemp shall be subjected to duly authorized powers, if any, conferred by article III and VI of the Constitution of Missouri:

12. All provisions of this section are self-executing and severable, and, except where otherwise indicated in the text of this document, shall supersede conflicting city, county, state or federal statutory, local charter, ordinance, or resolution.

RE: Petition approval request from Sheila Dundon regarding a proposed constitutional amendment to Article XVI (2018-006)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Sheila Dundon on November 9, 2016.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

Jason Kander

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Article XVI is created by enacting one new section to be known as Section 1 of Article XVI, to read as follows:

Section 1. Right to Access Medical Marijuana

1. Purposes

This section is intended to permit state-licensed physicians to recommend marijuana for medical purposes to patients with serious illnesses and medical conditions. The section allows patients with qualifying medical conditions the right to discuss freely with their physicians the possible benefits of medical marijuana use, the right of their physicians to provide professional advice concerning the same, and the right to use medical marijuana for treatment under the supervision of a physician.

This section is intended to make only those changes to Missouri laws that are necessary to protect patients, their primary caregivers, and their physicians from civil and criminal penalties, and to allow for the limited legal production, distribution, sale and purchase of marijuana for medical use. This section is not intended to change current civil and criminal laws governing the use of marijuana for nonmedical purposes. The section does not allow for the public use of marijuana and driving under the influence of marijuana.

2. Definitions

(1) "Administer" means the direct application of marijuana to a qualifying patient by way of any of the following methods:

(a) Ingestion of capsules, teas, oils, and other marijuana-infused products;

(b) Vaporization or smoking of dried flowers, buds, plant material, extracts, or oils;

(c) Application of ointments or balms;

(d) Transdermal patches and suppositories;

(e) Consuming marijuana-infused food products; or

(f) Any other method recommended by a qualifying patient's physician.

(2) "Department" means the Department of Health and Senior Services, or its successor agency.

(3) "Entity" means a natural person, corporation, professional corporation, nonprofit corporation, cooperative corporation, unincorporated association, business trust, limited liability company, general or limited partnership, limited liability partnership, joint venture, or any other legal entity.

(4) "Flowering plant" means a marijuana plant from the time it exhibits the first signs of sexual maturity through harvest.

(5) "Marijuana" means *Cannabis indica*, *Cannabis sativa*, and *Cannabis ruderalis*, hybrids of such species, and any other strains commonly understood within the scientific community to constitute marijuana, as well as resin extracted from the plant and marijuana-infused products. "Marijuana" does not include industrial hemp containing a crop-wide average tetrahydrocannabinol concentration that does not exceed three-tenths of one percent on a dry weight basis, or commodities or products manufactured from industrial hemp.

(6) "Marijuana-Infused Products" means products that are infused with marijuana or an extract thereof and are intended for use or consumption other than by smoking, including but not limited to edible products, ointments, and tinctures.

(7) "Medical Marijuana Cultivation Facility" means a facility licensed by the Department, to acquire, cultivate, process, transport, and sell marijuana to a Medical Marijuana Dispensary Facility or to a Medical Marijuana-Infused Products Manufacturing Facility.

18-006

(8) "Medical Marijuana Dispensary Facility" means a facility licensed by the Department, to acquire, sell, transport, and deliver marijuana, marijuana-infused products, and drug paraphernalia used to administer marijuana as provided for in this section.

(9) "Medical Marijuana-Infused Products Manufacturing Facility" means a facility licensed by the Department, to acquire, manufacture, transport, and sell marijuana-infused products to a Medical Marijuana Dispensary Facility.

(10) "Medical use" means the production, possession, delivery, distribution, transportation, or administration of marijuana or a marijuana-infused product, or drug paraphernalia used to administer marijuana or a marijuana-infused product, for the benefit of a qualifying patient to mitigate the symptoms or effects of the patient's qualifying medical condition.

(11) "Physician" means an individual who is licensed and in good standing to practice medicine or osteopathy under Missouri law.

(12) "Physician certification" means a document, whether handwritten, electronic or in another commonly used format, signed by a physician and stating that in the physician's professional opinion, the patient suffers from a qualifying medical condition and is likely to receive therapeutic or palliative benefit from the medical use of marijuana to treat or alleviate the patient's qualifying medical condition or symptoms associated with the qualifying medical condition.

(13) "Primary caregiver" means an individual twenty-one years of age or older who has significant responsibility for managing the well-being of a qualifying patient and who is designated as such on the primary caregiver's application for an identification card under this section or in other written notification to the Department.

(14) "Qualifying medical condition" means the condition of, symptoms related to, or side-effects from the treatment of:

(a) Cancer;

(b) Epilepsy;

(c) Glaucoma;

(d) Intractable migraines unresponsive to other treatment;

(e) A chronic medical condition that causes severe, persistent pain or persistent muscle spasms, including but not limited to those associated with multiple sclerosis, seizures, Parkinson's disease, and Tourette's syndrome;

(f) Debilitating psychiatric disorders, including but not limited to post-traumatic stress disorder, if diagnosed by a state licensed psychiatrist;

(g) Human immunodeficiency virus or acquired immune deficiency syndrome;

(h) A chronic medical condition that is normally treated with a prescription medication that could lead to physical or psychological dependence, when a physician determines that medical use of marijuana could be effective in treating that condition and would serve as a safer alternative to the prescription medication;

(i) Any terminal illness; or

(j) In the professional judgment of a physician, any other chronic, debilitating or otherwise equivalent condition, including, but not limited to, hepatitis C, amyotrophic lateral sclerosis, inflammatory bowel disease, agitation of Alzheimer's disease, cachexia, and wasting syndrome.

(15) "Qualifying Patient" means a Missouri resident diagnosed with at least one qualifying medical condition.

18-006

3. **Creating Patient Access to Medical Marijuana**

(1) In carrying out the implementation of this section, the Department shall have the authority to:

(a) Grant or refuse state licenses for the cultivation, manufacture, distribution, and sale of marijuana for medical use as provided by law; suspend, fine, restrict, or revoke such licenses upon a violation of this section or a rule promulgated pursuant to this section; and impose any administrative penalty authorized by this section or any rule promulgated pursuant to this section.

(b) Promulgate rules and emergency rules necessary for the proper regulation and control of the cultivation, manufacture, distribution, and sale of marijuana for medical use and for the enforcement of this section.

(c) Develop such forms, licenses, identification cards, and applications as are necessary or convenient in the discretion of the Department for the administration of this section or any of the rules promulgated under this section;

(d) Require a seed-to-sale tracking system that tracks medical marijuana from either the seed or immature plant stage until the medical marijuana or medical marijuana-infused product is sold to a qualifying patient or primary caregiver at a Medical Marijuana Dispensary Facility to ensure that no medical marijuana grown by a Medical Marijuana Cultivation Facility or manufactured by a Medical Marijuana-Infused Products Manufacturing Facility is sold or otherwise transferred except by a Medical Marijuana Dispensary Facility. If it creates a seed-to-sale tracking system, the Department shall certify, if possible, at least two commercially available systems to licensees as compliant with its tracking standards and issue standards for the creation or use of other systems by licensees.

(e) Prepare and transmit annually a publicly available report accounting to the Governor for the efficient discharge of all responsibilities assigned to the Department under this section;

(2) The Department may issue any rules or emergency rules necessary for the implementation and enforcement of this section and to ensure the right to, availability, and safe use of marijuana for medical use by qualifying patients. In developing such rules or emergency rules, the Department may consult with other public agencies. In addition to any other rules or emergency rules necessary to carry out the mandates of this section, the Department may issue rules or emergency rules relating to the following subjects:

(a) Compliance with, enforcement of, or violation of any provision of this section or any rule issued pursuant to this section, including procedures and grounds for denying, suspending, fining, restricting, or revoking a state license issued pursuant to this section;

(b) Specifications of duties of officers and employees of the Department;

(c) Instructions or guidance for local authorities and law enforcement officers;

(d) Requirements for inspections, investigations, searches, seizures, and such additional enforcement activities as may become necessary from time to time;

(e) Creation of a range of administrative penalties for use by the Department;

(f) Prohibition of misrepresentation and unfair practices;

(g) Control of informational and product displays on licensed premises;

18-006

(h) Development of individual identification cards for owners, officers, managers, contractors, employees, and other support staff of entities licensed pursuant to this section, including a fingerprint-based federal and state criminal record check in accordance with U.S. Public Law 92-544, or its successor provisions, as may be required by the Department prior to issuing a card and procedures to ensure that cards for new applicants are issued within fourteen days;

(i) Security requirements for any premises licensed pursuant to this section, including, at a minimum, lighting, physical security, video, alarm requirements, and other minimum procedures for internal control as deemed necessary by the Department to properly administer and enforce the provisions of this section, including reporting requirements for changes, alterations, or modifications to the premises;

(j) Regulation of the storage of, warehouses for, and transportation of marijuana for medical use;

(k) Sanitary requirements for, including, but not limited to, the preparation of medical marijuana-infused products;

(l) The specification of acceptable forms of picture identification that a Medical Marijuana Dispensary Facility may accept when verifying a sale;

(m) Labeling and packaging standards;

(n) Records to be kept by licensees and the required availability of the records;

(o) State licensing procedures, including procedures for renewals, reinstatements, initial licenses, and the payment of licensing fees;

(p) The reporting and transmittal of tax payments;

(q) Authorization for the Department of Revenue to have access to licensing information to ensure tax payment and the effective administration of this section; and

(r) Such other matters as are necessary for the fair, impartial, stringent, and comprehensive administration of this section.

(3) The Department shall issue rules or emergency rules for a medical marijuana and medical marijuana-infused products independent testing and certification program for medical marijuana licensees and requiring licensees to test medical marijuana using an impartial, independent laboratory to ensure, at a minimum, that products sold for human consumption do not contain contaminants that are injurious to health and to ensure correct labeling.

(4) The Department shall maintain the confidentiality of reports or other information obtained from an applicant or licensee containing any individualized data, information, or records related to the licensee or its operation, including sales information, financial records, tax returns, credit reports, cultivation information, testing results, and security information and plans, or revealing any patient information, or any other records that are exempt from public inspection pursuant to state or federal law. Such reports or other information may be used only for a purpose authorized by this section. Any information released related to patients may be used only for a purpose authorized by federal law and this section, including verifying that a person who presented a patient identification card to a state or local law enforcement official is lawfully in possession of such card.

(5) Within ninety days of the effective date of this section, the Department shall make available to the public license application forms and application instructions for Medical Marijuana Cultivation Facilities, Medical Marijuana Dispensary Facilities, and Medical Marijuana-Infused Products Manufacturing Facilities.

18-006

(6) Within ninety days of the effective date of this section, the Department shall make available to the public application forms and application instructions for qualifying patient, qualifying patient cultivation, and primary caregiver identification cards. Within one hundred fifty days of the effective date of this section, the Department shall begin accepting applications for such identification cards.

(7) An entity may apply to the Department for and obtain a license to grow marijuana as a Medical Marijuana Cultivation Facility. Each facility in operation shall require a separate license. Each indoor facility utilizing artificial lighting may be limited by the Department to thirty thousand square feet of flowering plant canopy space. Each outdoor facility utilizing natural lighting may be limited by the Department to two thousand eight hundred flowering plants. Each greenhouse facility using a combination of natural and artificial lighting may be limited by the Department, at the election of the licensee, to two thousand eight hundred flowering plants or thirty thousand square feet of flowering plant canopy space. The license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The Department shall charge each applicant a non-refundable fee of three thousand dollars per license application or renewal. Once granted, the Department shall charge each licensee an annual fee of twenty thousand dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. No more than three Medical Marijuana Cultivation Facility licenses shall be issued to any entity under substantially common control, ownership, or management.

(8) An entity may apply to the Department for and obtain a license to operate a Medical Marijuana Dispensary Facility. Each facility in operation shall require a separate license. A license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The Department shall charge each applicant a non-refundable fee of three thousand dollars per license application or renewal. Once granted, the Department shall charge each licensee an annual fee of ten thousand dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. No more than six Medical Marijuana Dispensary Facility licenses shall be issued to any entity under substantially common control, ownership, or management.

(9) An entity may apply to the Department for and obtain one or more licenses to operate a Medical Marijuana-Infused Products Manufacturing Facility. Each facility in operation shall require a separate license. A license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The Department shall charge each applicant a non-refundable fee of three thousand dollars per license application or renewal. Once granted, the Department shall charge each licensee an annual fee of ten thousand dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. No more than five Medical Marijuana-Infused Products Manufacturing Facility licenses shall be issued to any entity under substantially common control, ownership, or management.

(10) Except for good cause, a qualifying patient or his or her primary caregiver may obtain an identification card from the Department to cultivate up to six flowering marijuana plants for the exclusive use of that qualifying patient. The card shall be valid for twelve months from its date of issuance and shall be renewable with the annual submittal of a new or updated physician's certification. The Department shall charge an annual fee for the card of one hundred dollars, with such rate to be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency.

(11) The Department may set a limit on the amount of marijuana that may be purchased by or on behalf of a single qualifying patient in a thirty day period, provided that limit is not less than six ounces of dried, unprocessed marijuana, or its

18-006

equivalent. Any such limit shall not apply to a qualifying patient with written certification from two independent physicians that there are compelling reasons why the qualifying patient needs a greater amount than the limit established by the Department.

(12) The Department may set a limit on the amount of marijuana that may be possessed by or on behalf of each qualifying patient, provided that limit is not less than a sixty day supply of dried, unprocessed marijuana, or its equivalent. A primary caregiver may possess a separate legal limit for each qualifying patient under their care and a separate legal limit for themselves if they are a qualifying patient. Qualifying patients cultivating marijuana for medical use may possess up to a ninety day supply, so long as the supply remains on property under their control. Any such limit shall not apply to a qualifying patient with written certification from two independent physicians that there are compelling reasons for additional amounts. Possession of between the legal limit and up to twice the legal limit shall subject the possessor to Department sanctions, including an administrative penalty and loss of their patient identification card for up to a year. Purposefully possessing amounts in excess of twice the legal limit shall be punishable by imprisonment of up to one year and a fine of up to two thousand dollars.

(13) The Department may restrict the aggregate number of licenses granted for Medical Marijuana Cultivation Facilities, provided, however, that the number may not be limited to fewer than one license per every eighty thousand inhabitants, or any portion thereof, of the state of Missouri, according to the most recent census of the United States. In any year, if the number of qualifying applicants and any renewals exceed such a restriction, the Department shall, after renewing all qualifying licenses, rank new applicants using the following factors: site security; capacity or experience with agriculture, horticulture, health care, or a legal cannabis market; acceptance in the site community; potential for positive economic impact in the site community; and maintaining competitiveness in the marijuana for medical use marketplace. In ranking applicants and awarding licenses, the Department may consult or contract with other public agencies with relevant expertise regarding these factors. The Department shall lift or ease any limit on the number Medical Marijuana Cultivation Facilities to meet the demand for medical marijuana by qualifying patients.

(14) The Department may restrict the aggregate number of licenses granted for Marijuana-Infused Products Manufacturing Facilities, provided, however, that the number may not be limited to fewer than one license per every fifty thousand inhabitants, or any portion thereof, of the state of Missouri, according to the most recent census of the United States. In any year, if the number of qualifying applicants and any renewals exceed such a restriction, the Department shall, after renewing all qualifying licenses, rank new applicants using the following factors: site security; capacity or experience with food and beverage manufacturing or a legal cannabis market; acceptance in the site community; potential for positive economic impact in the site community; and maintaining competitiveness in the marijuana for medical use marketplace. In ranking applicants and awarding licenses, the Department may consult or contract with other public agencies with relevant expertise regarding these factors.

(15) If a county has restricted the number of licenses for Medical Marijuana Dispensary Facilities, then, in any year that the number of qualifying applicants and any renewals exceed such restriction, the Department shall, after renewing all qualifying licenses, rank new applicants using the following factors: site security; experience or capacity with health care or a legal cannabis market; acceptance in the site community; potential for positive economic impact in the site community; and maintaining competitiveness in the marijuana for medical use marketplace. In ranking applicants and awarding licenses, the Department may consult or contract with other public agencies with relevant expertise regarding these factors.

(16) The Department shall begin accepting license applications for Medical Marijuana Dispensary Facilities, Medical Marijuana Cultivation Facilities, and Medical Marijuana-Infused Products Manufacturing Facilities no later than one hundred fifty days after the effective date of this section. Applications for licenses under this section shall be approved or denied by the Department no later than one hundred fifty days after their submission. If the Department fails to carry out its non-

discretionary duty to approve or deny an application within one hundred fifty days of submission, an applicant may immediately seek a court order compelling the Department to approve or deny the application.

(17) Qualifying patients under this section shall obtain and annually renew an identification card or cards from the Department. The Department shall charge a fee of twenty-five dollars per year per card with such fee to be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor or its successor agency. Upon receiving an application for a qualifying patient identification card or qualifying patient cultivation identification card, the Department shall, within thirty days, either issue the card or provide a written explanation for its denial. If the Department fails to issue a card to an eligible qualifying patient within thirty days, then their physician certification shall serve as their patient identification card or qualifying patient cultivation identification card for up to one year from the date of physician certification. All initial applications for or renewals of a qualifying patient identification card or qualifying patient cultivation identification card shall be accompanied by a physician certification that is less than thirty days old.

(18) Primary caregivers under this section shall obtain and annually renew an identification card from the Department. The Department shall charge a fee of twenty-five dollars per year, with such fee to be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. Upon receiving an application for a primary caregiver identification card, the Department shall, within thirty days, either issue the card or provide a written explanation for its denial.

(19) All marijuana for medical use sold in Missouri shall be cultivated in a licensed Medical Marijuana Cultivation Facility located in Missouri.

(20) All marijuana-infused products for medical use sold in the state of Missouri shall be manufactured in a Medical Marijuana-Infused Products Manufacturing Facility.

(21) The denial of a license, license renewal, or identification card by the Department shall be appealable to the Administrative Hearing Commission, or its successor entity. Following the exhaustion of administrative review, denial of a license, license renewal, or identification card by the Department shall be subject to judicial review as provided by law.

(22) No elected official shall interfere directly or indirectly with the Department's obligations and activities under this section.

4. Taxation and Reporting

(1) A tax is levied upon the retail sale of marijuana for medical use sold at Medical Marijuana Dispensary Facilities within the state. The tax shall be at a rate of four percent of the retail price. The tax shall be collected by each licensed Medical Marijuana Dispensary Facility and paid to the Department of Revenue. After retaining no more than five percent for its actual collection costs, amounts generated by the tax levied in this section shall be deposited by the Department of Revenue into the Missouri Veterans' Health and Care Fund. Licensed entities making retail sales within the state shall be allowed approved credit for returns provided the tax was paid on the returned item and the purchaser was given the refund or credit.

(2) There is hereby created in the state treasury the "Missouri Veterans' Health and Care Fund," which shall consist of taxes and fees collected under this section. The State Treasurer shall be custodian of the fund, and he or she shall invest moneys in the fund in the same manner as other funds are invested. Any interest and moneys earned on such investments shall be credited to the fund. Notwithstanding any other provision of law, any moneys remaining in the fund at the end of a biennium shall not revert to the credit of the general revenue fund. The Commissioner of Administration is authorized to make cash operating transfers to the fund for purposes of meeting the cash requirements of the Department in advance of it

18-006

receiving annual application, licensing, and tax revenue, with any such transfers to be repaid as provided by law. The fund shall be a dedicated fund and shall stand appropriated without further legislative action as follows:

(a) First, to the Department, an amount necessary for the Department to carry out this section, including repayment of any cash operating transfers, payments made through contract or agreement with other state and public agencies necessary to carry out this section, and a reserve fund to maintain a reasonable working cash balance for the purpose of carrying out this section;

(b) Next, the remainder of such funds shall be transferred to the Missouri Veterans Commission for health and care services for military veterans, including the following purposes: operations, maintenance and capital improvements of the Missouri Veteran's Homes, the Missouri Service Officer's Program, and other services for veterans approved by the Commission, including but not limited to health care services, mental health services, drug rehabilitation services, housing assistance, job training, tuition assistance, and housing assistance to prevent homelessness. The Missouri Veterans Commission shall contract with other public agencies for the delivery of services beyond its expertise.

(c) All moneys from the taxes authorized under this subsection shall provide additional dedicated funding for the purposes enumerated above and shall not replace existing dedicated funding.

(3) For all retail sales of marijuana for medical use, a record shall be kept by the seller which identifies by secure and encrypted patient number issued by the seller to the qualifying patient involved in the sale, all amounts and types of marijuana involved in the sale and the total amount of money involved in the sale, including itemizations, taxes collected and grand total sale amounts. All such records shall be kept on the premises in a readily available format and be made available for review by the Department and the Department of Revenue upon request. Such records shall be retained for five years from the date of the sale.

(4) The tax levied pursuant to this subsection is separate from and in addition to any general state and local sales and use taxes that apply to retail sales, which shall continue to be collected and distributed as provided by general law.

(5) Except as authorized in this subsection, no additional taxes shall be imposed on the sale of marijuana for medical use.

5. Additional Patient, Physician, Caregiver and Provider Protections

(1) Except as provided in this section, the possession of marijuana in quantities less than the limits of this section or established by the Department and transportation of marijuana from a Medical Marijuana Dispensary Facility to the qualifying patient residence shall not subject the possessor to arrest, criminal or civil liability, or sanctions under Missouri law, provided that the possessor produces on demand to the appropriate authority a valid qualifying patient identification card; a valid patient cultivation identification card; a valid physician certification while making application for an identification card; or a valid primary caregiver identification card. Production of the respective equivalent identification card or authorization issued by another state or political subdivision of another state shall also meet the requirements of this subdivision.

(2) No patient shall be denied access to or priority for an organ transplant because they hold a qualifying patient identification card or use marijuana for medical use.

(3) A physician shall not be subject to criminal or civil liability or sanctions under Missouri law or discipline by the Missouri State Board of Registration for the Healing Arts, or its successor agency, for issuing a physician certification to a patient diagnosed with a qualifying medical condition in a manner consistent with this section and legal standards of professional conduct.

(4) A health care provider shall not be subject to civil or criminal prosecution, denial of any right or privilege, civil or administrative penalty or sanction, or disciplinary action by any accreditation or licensing board or commission for providing health

18-006

care services that involve the medical use of marijuana consistent with this section and legal standards of professional conduct.

(5) A testing laboratory shall not be subject to civil or criminal prosecution, denial of any right or privilege, civil or administrative penalty or sanction, or disciplinary action by any accreditation or licensing board or commission for providing laboratory testing services that relate to the medical use of marijuana consistent with this section and otherwise meeting legal standards of professional conduct.

(6) A health care provider shall not be subject to mandatory reporting requirements for the medical use of marijuana by non-emancipated qualifying patients under eighteen years of age in a manner consistent with this section and with consent of a parent or guardian.

(7) A primary caregiver shall not be subject to criminal or civil liability or sanctions under Missouri law for purchasing, transporting, or administering marijuana for medical use by a qualifying patient or participating in the patient cultivation of up to six flowering marijuana plants per patient in a manner consistent with this section and generally established legal standards of personal or professional conduct.

(8) An attorney shall not be subject to disciplinary action by the state bar association or other professional licensing body for providing legal assistance to prospective or licensed Medical Marijuana Cultivation Facilities, Medical Marijuana Dispensary Facilities, Medical Marijuana-Infused Products Manufacturing Facilities, qualifying patients, primary caregivers, physicians, health care providers or others related to activity that is no longer subject to criminal penalties under state law pursuant to this section.

(9) Actions and conduct by Qualifying Patients, Primary Caregivers, Medical Marijuana Cultivation Facilities, Medical Marijuana-Infused Products Manufacturing Facilities, or Medical Marijuana Dispensary Facilities licensed or registered with the Department, or their employees or agents, as permitted by this section and in compliance with Department regulations and other standards of legal conduct, shall not be subject to criminal or civil liability or sanctions under Missouri law, except as provided for by this section.

(10) Nothing in this section shall provide immunity for negligence, either common law or statutorily created, nor criminal immunities for operating a vehicle, aircraft, dangerous device, or navigating a boat under the influence of marijuana.

(11) It is the public policy of the state of Missouri that contracts related to marijuana for medical use that are entered into by Qualifying Patients, Primary Caregivers, Medical Marijuana Cultivation Facilities, Medical Marijuana-Infused Products Manufacturing Facilities, or Medical Marijuana Dispensary Facilities and those who allow property to be used by those entities, should be enforceable. It is the public policy of the state of Missouri that no contract entered into by Qualifying Patients, Primary Caregivers, Medical Marijuana Cultivation Facilities, Medical Marijuana-Infused Products Manufacturing Facilities, or Medical Marijuana Dispensary Facilities, or by a person who allows property to be used for activities that are exempt from state criminal penalties by this section, shall be unenforceable on the basis that activities related to medical marijuana may be prohibited by federal law.

6. Legislation

Nothing in this section shall limit the General Assembly from enacting laws consistent with this section, or otherwise effectuating the patient rights of this section. The legislature shall not enact laws that hinder the right of qualifying patients to access marijuana for medical use as granted by this section

7. Additional Provisions

(1) Nothing in this section permits a person to:

(a) Consume marijuana for medical use in a jail or correctional facility;

18-006

(b) Undertake any task under the influence of marijuana when doing so would constitute negligence or professional malpractice; or

(c) Operate, navigate, or be in actual physical control of any dangerous device or motor vehicle, aircraft or motorboat while under the influence of marijuana; or

(d) Bring a claim against any employer, former employer, or prospective employer for wrongful discharge, discrimination, or any similar cause of action or remedy, based on the employer, former employer, or prospective employer prohibiting the employee, former employee, or prospective employee from being under the influence of marijuana while at work or disciplining the employee or former employee, up to and including termination from employment, for working or attempting to work while under the influence of marijuana.

(2) No Medical Marijuana Cultivation Facility, Medical Marijuana Dispensary Facility, or Medical Marijuana-Infused Products Manufacturing Facility shall be owned, in whole or in part, or have as an officer, director, board member, manager, or employee, any individual with a disqualifying felony offense. A "disqualifying felony offense" is a violation of, and conviction or guilty plea to, state or federal law that is, or would have been, a felony under Missouri law, regardless of the sentence imposed, unless the Department determines that:

(a) The person's conviction was for the medical use of marijuana or assisting in the medical use of marijuana; or

(b) The person's conviction was for a non-violent crime for which he or she was not incarcerated and that is more than five years old; or

(c) More than five years have passed since the person was released from parole or probation, and he or she has not been convicted of any subsequent criminal offenses.

The Department may consult with and rely on the records, advice and recommendations of the Attorney General and the Department of Public Safety, or their successor entities, in applying this subdivision.

(3) All Medical Marijuana Cultivation Facility, Medical Marijuana Dispensary Facility, or Medical Marijuana-Infused Products Manufacturing Facility licenses shall be held by entities that are majority owned by natural persons who have been citizens of the state of Missouri for at least one year prior to the application for such license or licenses. Notwithstanding the forgoing, entities outside the state of Missouri may own a minority stake in such entities.

(4) A county may require a site permit for a Medical Marijuana Dispensary Facility utilizing generally applicable permitting standards. In addition, by February 1, 2019, a county may limit the number of site permits to be granted for Medical Marijuana Dispensary Facilities, provided, however, that the number may not be limited to fewer than one site for every thirty thousand inhabitants, or any portion thereof, in such county, according to the most recent census of the United States. After a county's initial site permit limit notification, a county shall notify the Department of any change to its site permit limit within ten days of such decision; however, the number of site permits shall not be less than the number of licenses previously issued by the Department for that county.

(5) No Medical Marijuana Cultivation Facility, Medical Marijuana Dispensary Facility, or Medical Marijuana-Infused Products Manufacturing Facility shall manufacture, package or label marijuana or marijuana-infused products in a false or misleading manner. No person shall sell any product in a manner designed to cause confusion between a marijuana or marijuana-infused product and any product not containing marijuana. A violation of this subdivision shall be punishable by an appropriate and proportional Department sanction, up to and including loss of license.

(6) All edible marijuana-infused products shall be sold in individual, child-resistant containers that are labeled with dosage amounts, instructions for use, and estimated length of effectiveness. All marijuana and marijuana-infused products shall be sold in containers clearly and conspicuously labeled, in a font size at least as large as the largest other font size used on the package, as containing "Marijuana," or a

18-006

"Marijuana-Infused Product." Violation of this prohibition shall subject the violator to Department sanctions, including an administrative penalty.

(7) No individual shall serve as the primary caregiver for more than three qualifying patients.

(8) No qualifying patient shall consume marijuana for medical use in a public place. Violation of this prohibition shall subject the violator to sanctions as provided by general law.

(9) No person shall extract resins from marijuana using dangerous materials or combustible gasses without a Medical Marijuana-Infused Products Manufacturing Facility license. Violation of this prohibition shall subject the violator to Department sanctions, including an administrative penalty and loss of their identification card or license for up to one year.

(10) All patient cultivation shall take place in an enclosed, locked facility that is equipped with security devices that permit access only by the qualifying patient or by such patient's primary caregiver. Two qualifying patients, who both hold valid patient cultivation identification cards, may share one enclosed, locked facility. No more than twelve patient or primary caregiver cultivated flowering marijuana plants may be cultivated in a single, enclosed locked facility, except when a primary caregiver also holds a patient cultivation identification card, in which case no more than eighteen flowering marijuana plants may be cultivated in a single, enclosed, locked facility.

(11) No Medical Marijuana Cultivation Facility, Medical Marijuana Dispensary Facility, or Medical Marijuana-Infused Products Manufacturing Facility shall assign, sell, give, lease, sublicense, or otherwise transfer its license to any other entity without the express consent of the Department, not to be unreasonably withheld.

(12) Unless allowed by the local government, no new Medical Marijuana Cultivation Facility, Medical Marijuana Dispensary Facility, or Medical Marijuana-Infused Products Manufacturing Facility shall be initially sited within one thousand feet of any then-existing elementary or secondary school, child day-care center, or church. No local government shall prohibit Medical Marijuana Cultivation Facilities, Medical Marijuana-Infused Products Manufacturing Facilities, or Medical Marijuana Dispensary Facilities, either expressly or through the enactment of ordinances or regulations that make their operation unduly burdensome in the jurisdiction. However, local governments may enact ordinances or regulations not in conflict with this section, or with regulations enacted pursuant to this section, governing the time, place, and manner of such facilities in the locality. A local government may establish civil penalties for violation of an ordinance or regulations governing the time, place, and manner of operation of a Medical Marijuana Cultivation Facility, Medical Marijuana Infused Products Manufacturing Facility, or Medical Marijuana Dispensary Facility that may operate in such locality.

(13) Unless superseded by federal law or an amendment to this Constitution, a physician shall not recommend the medical use of marijuana to a patient by any means other than providing a physician certification for the patient, whether handwritten, electronic or in another commonly used format. In any year, no physician shall issue more physician certifications than a number equivalent to twenty-five percent of their total number of prescriptions for other drugs. A qualifying patient must obtain a new physician certification at least annually.

(14) A physician shall not issue a certification for the medical use of marijuana for a non-emancipated qualifying patient under the age of eighteen without the written consent of the qualifying patient's parent or legal guardian. The Department shall not issue a patient identification card on behalf of a non-emancipated qualifying patient under the age of eighteen without the written consent of the qualifying patient's parent or legal guardian. Such card shall be issued to one of the parents or guardians and not directly to the patient. Only a parent or guardian may serve as a primary caregiver for a non-emancipated qualifying patient under the age of eighteen. Only the qualifying patient's parent or guardian shall purchase or possess

18-006

medical marijuana for a non-emancipated patient under the age of eighteen. A parent or guardian shall supervise the administration of medical marijuana to a non-emancipated patient under the age of eighteen

(15) Nothing in this section shall be construed as mandating health insurance coverage of medical marijuana for qualifying patient use.

(16) Real and personal property used in the cultivation, manufacture, transport, testing, distribution, sale, and administration of marijuana for medical use or for activities otherwise in compliance with this section shall not be subject to asset forfeiture solely because of that use.

8. Severability

The provisions of this section are severable, and if any clause, sentence, paragraph or section of this measure, or an application thereof, is adjudged invalid by any court of competent jurisdiction, the other provisions shall continue to be in effect to the fullest extent possible.

9. Effective Date

The provisions of this section shall become effective on December 6, 2018, as provided by this Constitution.

RE: Petition approval request from Damien Johnson regarding a proposed constitutional amendment to Article IV, version 1 (2018-005)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Damien Johnson on November 9, 2016.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

Jason Kander

18-005

This measure amends the Missouri Constitution by adding Section 54 to Article 4. This amendment implicitly repeals, in part or in whole, and amends various statutes and subsections including but not necessarily limited to RSMo 105.1105, 105.1108, 105.1112, 195.010.(10)(b)c,195.010.(10)(d), 195.010.(17)(m)(b), 195.010.(17)(g), 195.010.(17)(l),195.010(24), 195.015.4, 195.017.2(4)(r), 195.017.2(4)(z), 195.017.2(4)(ii),195.140.2(2), 195.202.2, 195.202.3, 195.211.2, 195.211.3, 195.211.4, 195.222.7,195.223.7, 195.223.8, 263.250.1.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

Marijuana shall immediately be removed from the Missouri Revised Statutes list of controlled substances and shall no longer be listed among Missouri's drugs schedules. The state legislature have until the end of the following legislature session of passage to rename marijuana to cannabis in all the statutes or the statutes is null or void

1. Definition of terms, as used in this Act:

a) 1. "cannabis" and "cannabis hemp" refer to the cannabis, marihuana, marijuana, cannabis sativa, cannabis indica, cannabis ruderalis, or any variety of cannabis, including any derivative, concentrate, extract, flower, leaf, particle, preparation, resin, root, salt, seed, stalk, stem, or any product thereof.

b) "hemp": he fiber of this plant, extracted from the stem and used to make rope, stout fabrics, fiberboard, and paper. the sister plant of cannabis

c) "medical cannabis" refers to the medical use of cannabis.

d) "personal use" refers to the non-medical consumption of cannabis.

e) "Expungeable marijuana offense" are any convictions committed prior to this amendment.

f) "home grow amounts" a total of 60 square feet or less of cultivation of cannabis or hemp or a combination of both for personal and/or medical use.

g) "cannabis accessories" means any equipment, products, or materials of any kind that are used, intended for use, or designed for use in planting, propagating, cultivating, growing, harvesting, manufacturing, compounding, converting, producing, processing, preparing, testing, analyzing, packaging, repackaging, storing, or containing cannabis, or for ingesting, inhaling, vaporizing, smoking or otherwise introducing cannabis into and/or onto the human body.

h) "establishment" refers to a cannabis cultivation facility, a cannabis testing facility, a cannabis product manufacturing facility, or a retail cannabis store or other entity that cultivates, prepares, manufactures, packages, transports or sells cannabis, cannabis products and/or cannabis accessories.

3.The following acts are not unlawful and shall not be an offense under Missouri law or be a basis for seizer or forfeiture.

a) Adult Possession of cannabis for personal at 21 years or older.

b) Possession, production, cultivation and distribution of hemp, marijuana and cannabis.

c) Cultivation, harvesting processing, manufacturing, packaging, distributing, transferring, displaying or possessing cannabis, cannabis accessories, and cannabis products for commercial purposes provided the person has current applicable licensing to operate a commercial establishment. No special licensing will be required beyond that which is applicable for the cultivation, harvest, processing, manufacturing, packaging, distribution, transferal, display or possessing of any non-toxic food or food product.

d) Leasing or otherwise allowing the use of property owned, occupied or controlled by any person, corporation or other entity for any of the activities conducted lawfully in accordance with paragraphs (a) through (d) of this subsection.

4. Medical cannabis shall be available to patients who have a physician's recommendation.

(a) All patients engaged in cannabis therapy shall be afforded the same rights and privileges afforded to any patient treated through other pharmaceutical means.

(b) Cannabis acquisition, possession, and consumption shall be permitted to patients under the age of twenty-one with the consent of a parent or legal guardian and through the supervision of a parent or legal custodian and a licensed physician.

(c) Licensed physicians shall not be penalized for nor restricted from recommending cannabis for medical purposes to any person.

(d) Opinions pertaining to, and willingness to recommend medical cannabis therapy shall not be a criteria for the licensure of physicians; no physician shall be subject to any professional licensing review or hearing as a result of recommending or approving medical cannabis therapy.

(e) Any individual who is a legal cannabis patient in another state shall be granted the same rights and privileges as a legal Missouri cannabis patient.

1. Medical care, including organ transplants, shall not be restricted in any way based on a person's use of cannabis.

5. Nothing in this section shall:

(a) Require an employer to retain an employee who is impaired on the job by his use of cannabis.

(b) Permit operation of a motor vehicle, watercraft, aircraft, train, or any transportation device of vehicle by anyone who is impaired by marijuana, cannabis or any other controlled substance.

18-005

(c) Permit the transfer or sale of cannabis intended for adult use to a person younger than twenty-one years of age.

1. Forbid any individual, corporate property owner, elementary education institutions, and secondary education institutions from prohibiting the distribution, sale or cultivation of cannabis within their dwelling for personal use.

6. The dictates of this Initiative shall be implemented no later than January 1, following the election that placed this Initiative before the people.

7. Upon the passage of this Act, all persons incarcerated or under supervision of the Missouri Board of Probation and Parole for non-violent, cannabis-only offenses which are no longer illegal in the State of Missouri under this Act shall be immediately released.

(a) The Court shall order the immediate expungement of civil and criminal records pertaining to all non-violent cannabis only offenses which are no longer illegal in the State of Missouri under this Act.

(b) Within 60 days of the passage of this Act,the Attorney General shall develop and make available to the public a legal document ordering the immediate destruction of all cannabis-related non-violent civil and criminal records in Missouri and for any offense covered by this amendment. This document shall be distributed to all Circuit Court clerks within the State.

8. No Missouri law enforcement personnel or state funds shall be used to assist or aid in the enforcement of federal cannabis laws involving acts which are no longer illegal in the State of Missouri under this amendment

9. Any person who willfully impedes the lawful exercise of these provisions is guilty of a Class A misdemeanor.

10. Cannabis farmers, manufacturers, processors, and distributors shall not be subject to any special zoning requirement, licensing fee that is excessive, discriminatory, prohibitive, or in any way contrary to that which is relative to any other commercial or agricultural farmer, manufacturer, processor or distributor.

11. Taxes and regulations not conflicting with sections may be imposed on the production, distribution, cultivation and possession of cannabis, marijuana and hemp shall be subjected to duly authorized powers, if any, conferred by article III and VI of the Constitution of Missouri:

12. All provisions of this section are self-executing and severable, and, except where otherwise indicated in the text of this document, shall supersede conflicting city, county, state or federal statutory, local charter, ordinance, or resolution.

Right to farm.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

35 of Article I of the Constitution of Missouri is amended by modifying section 35. The existing section 35 is set forth hereinafter with the new matter bold and deleted matter in brackets.

Definitions of terms, as used in this Act:

a) **Cannabis: refers to the cannabis, marihuana, marijuana, cannabis, sativa, cannabis indica, cannabis ruderalis, or any variety of cannabis, including but not limited to, derivative, concentrate, extract, flower, leaf, particle, preparation, resin, root, salt, seed, stalk, stem, or any product thereof**

b) **Hemp: The fiber of this plant, extracted from the stem and used to make rope, fabrics, fiberboard, clothing, and paper. The sister plant of cannabis**

That agriculture which provides food, energy, health benefits, and security is the foundation and stabilizing force of Missouri's economy. **This section shall protect the right to grow cannabis and hemp.** To protect this vital sector of Missouri's economy, the right of farmers and ranchers to engage in farming and ranching practices shall be forever guaranteed in this state, subject to duly authorized powers, if any, conferred by article VI of the Constitution of Missouri.

RE: Petition approval request from Damien Johnson regarding a proposed constitutional amendment to Article VIII (2018-003)

Dear Auditor Galloway:

Enclosed please find an initiative petition sample sheet for a proposal to amend the Missouri Constitution filed by Damien Johnson on November 9, 2016.

We are referring the enclosed petition sample sheet to you for the purposes of preparing a fiscal note and fiscal note summary as required by Section 116.332, RSMo. Section 116.175.2, RSMo requires the state auditor to forward the fiscal note and fiscal note summary to the attorney general within twenty days of receipt of the petition sample sheet.

Thank you for your immediate consideration of this request.

Sincerely,

Jason Kander

This measure amends the Missouri Constitution by adding Section 54 to Article IV. This amendment implicitly repeals, in part or in whole, and amends various statutes and subsections including but not necessarily limited to RSMo 105.1105, 105.1108, 105.1112, 195.010.(10)(b)c, 195.010.(10)(d), 195.010.(17)(m)(b), 195.010.(17)(g), 195.010.(17)(l), 195.010(24), 195.015.4, 195.017.2(4)(r), 195.017.2(4)(z), 195.017.2(4)(ii), 195.140.2(2), 195.202.2, 195.202.3, 195.211.2, 195.211.3, 195.211.4, 195.222.7, 195.223.7, 195.223.8, 263.250.1.

Be it resolved by the people of the state of Missouri that the Constitution be amended:

One new section is adopted to be known as Article IV, Section 54 and to read as follows:

1) Cannabis shall immediately be removed from the Missouri list of controlled substances and shall no longer be listed among Missouri's drug schedules.
2) Definitions: cannabis and cannabis hemp refer to Cannabis, Marijuana, Cannabis Sativa, Cannabis Indica, Cannabis Ruderalis or any variety of cannabis, including any derivative, concentrate, extract, flower, leaf, particle, preparation, resin, root, salt, seed, stalk, stem, or any product thereof.
   a. Medical cannabis refers to physician recommended use.
   b. Personal use refers to any use not recommended by physician.
   c. Cannabis accessories means any equipment, products or materials of any kind that are used or intended for use planting, propagating, cultivating, growing, harvesting, manufacturing, compounding , converting, producing, processing, preparing, testing, analyzing, packaging, repackaging, storing, or containing cannabis or for ingesting, inhaling, vaporizing, smoking or otherwise introducing cannabis into or onto the human body.
   d. Establishment refers to a cannabis cultivation facility, a cannabis manufacturing facility or retail store or other entity that cultivates, prepares, manufactures, packages, transports, or sells cannabis products or accessories.
   e. Minor refers to anyone under the age 18.
3) Cannabis or its products shall not be sold to anyone under the age 18.
   Anyone under the age of 18 shall have access to cannabis through physician recommendation or consent from parent/legal guardian.
   a. No minor shall be criminally prosecuted for possession of cannabis or its products.
4) The following acts are not unlawful and shall not be an offense under Missouri law
   a. Possession of cannabis for personal or medical use.
   b. Cultivating cannabis for personal or medical use, to obey zoning restrictions.
   c. Cultivating, harvesting, processing, manufacturing, packaging, distributing, transferring, displaying or possessing cannabis, cannabis accessories, and cannabis products for commercial purposes, provided the person has current applicable licenses to run a business in Missouri.
   d. Providing cannabis, cannabis accessories and products for sale to consumers. Any product to be sold to public must be tested for purity and weight.
   e. Leasing or otherwise allowing the use of property owned, occupied or controlled by any person, corporation or other entity for any of the activities conducted lawfully in accordance with paragraphs (a) through (e) of this section.
   f. The use and/or possession of cannabis is not to be the sole reason for issuing a D.U.I (driving under the influence), arrest or fines when operating a motor vehicle.
5) Patient rights: Cannabis shall be available to all patients regardless of age, without taxation when physician recommended.
6) All prisoners that have been incarcerated for nonviolent cannabis related crimes shall immediately be released and all charges for cannabis crimes expunged.
   a. Within 60 days of passage of this act, the attorney general's office shall develop and make available to the public a legal document ordering the immediate destruction of all cannabis related non-violent civil and criminal records in Missouri, to be distributed to all circuit court judges within the state.
7) No state or federal funds shall be used to enforce federal laws which are no longer illegal in the state of Missouri.
   a. Any person who willfully impedes the lawful exercise of these provisions is guilty of a class A misdemeanor.
8) Cannabis farmers, manufacturers, processors, and distributors shall not be subject to any special zoning requirements, licensing fee that is discriminant, prohibitive, or in any way contrary to that which is relative to any other commercial or agriculture farmer, manufacturer, processor or distributor.
9) Pursuant to the ninth and tenth amendments to the Constitution of the United States, the people of Missouri hereby repudiate and challenge federal cannabis prohibitions that conflict with this act.
10) All provisions of this section are self-executing and severable and, except where otherwise indicated in the text of this document, shall supersede conflicting city, county, state or federal statutory, local charter, ordinance or resolution.
11) If any rival or conflicting initiative regulating any matter addressed by this act receives the higher affirmative vote, then all non-conflicting parts shall become operative.
12) The dictates of this Initiative shall be implemented no later than April 20th following the election that placed this initiative before the people.

Be it resolved by the people of the State of Missouri that the Constitution be amended:

One new article and twelve new sections are adopted by adding twelve new sections to a new Article, to be known as Sections 1 through Section 12 of Article XIV to read as follows:

Section 1. Purpose.

(a) For the purpose of benefiting the citizens of Missouri by providing for medical research to find and develop cures and treatments for cancer and other incurable and chronic diseases or medical conditions, and by funding said medical research by the legalization and use of medical marijuana or its derivatives as palliative or ameliorative treatment for any such condition, with taxes on medical marijuana or any derivatives thereof as set forth herein, with the proceeds of such taxes to be used to establish, provide for, and continue such medical research as provided herein. This Article XIV permits authorized physicians to recommend marijuana for medical purposes to patients with serious illnesses and medical conditions. The Article XIV allows patients with qualifying medical conditions the right to discuss freely with their physicians the possible benefits of medical marijuana use, the right of their physicians to provide professional advice concerning the same, and the right to use medical marijuana for treatment under the supervision of a physician. This Article XIV is not intended to change current civil and criminal laws governing the use of marijuana for nonmedical purposes. The section does not allow for the public use of marijuana or driving under the influence of marijuana.

Section 2. Definitions:

As used in this Article XIV, the following terms shall mean:

(a) "Administer" means the direct application of marijuana to the body of a qualifying patient by any approved methods, as defined herein.

(b) "Approved methods" for the administration of marijuana are defined to include ingestion of capsules, teas and other sanctioned marijuana-infused products, vaporization or smoking of dried flowers/buds, oils, resins, or plant material, application of ointments, patches, suppositories or balms, consuming marijuana-infused food products or any other method recommended by a qualifying patient's physician and approved by the Research Board.

(c) "Article XIV Coordinator" means the individual who coordinates activation and implementation of this Article XIV and its subsections by initially and temporarily functioning as the Chairperson of the Research Board of the Biomedical Research and Drug Development Institute and Chairperson of the Land Acquisition Board until those positions are otherwise filled pursuant to this Article XIV.

(d) "Authorized physician" means an individual who is licensed and in good standing to practice medicine or osteopathy under Missouri law and has not in the past ten years had their licensed suspended, or in the last twenty years revoked, for excessively dispensing controlled substances.

(e) "Building and construction" means the erection, renovation, development or remodeling of any structure allowed for in this article including, but not limited to, marijuana cultivation facilities, offices, buildings, clinics, hospitals, sidewalks, roads, public transit systems and structures, public recreational and entertainment facilities, community developments, landscaping, green spaces, enterprise zones, housings, parks, recreational areas and the planning, design, development, architectural design and engineering of any of the same.

(f) "Campus" means the primary and main physical location of a campus where medical research and treatment shall be performed, medical marijuana and the diseases it ameliorates may be cultivated and studied, and headquarters of the Research Board and where the Research Board shall primarily operate, also including but not limited to, the campus selected and developed under land acquisition and land development, and used as the primary physical location for jobs, building and construction, land development, improvements, research, cures and education in Missouri in the endeavor to find cures for presently incurable diseases under this Article XIV.

(g) "Cures" means any and all cures, also including but not limited to, medical treatments, psychiatric and psychological treatments, medications, protocols, therapies, surgeries, genetic material, biologicals, behavioral treatments, clinical trials, laboratory studies, diagnostic tests, evaluations, counseling, treatments, implants, grafts, hardware, orthotics, machines, electronic devices, computers, software programs, studies, and endeavors that help or may help in studying, slowing, curing, eliminating, halting, placing in remission, ameliorating, ending, or regressing any or all presently incurable diseases, targeted diseases, or conditions, illnesses and diseases that are otherwise incurable.

(h) "Designated primary caregiver" means an individual twenty-one (21) years of age or older who has significant responsibility for managing the well-being of a person who has a physician certification and has been designated as such on that person's application for a designated primary caregiver identification card consistent with the regulations of the Research Board.

18-001

(i) "Designated primary caregiver identification card" means a card issued by the Research Board to a designated primary caregiver.

(j) "Education" means any and all education, also including but not limited to, teaching, training and education that is, directly or indirectly, necessary, helpful or supportive to jobs, building and construction, land development, campus development, campus improvement, research, jobs and education in Missouri in the endeavor to find cures for incurable diseases.

(k) "Endeavor" means any and all endeavors, also including but not limited to, attempts, quests, searches, championing, pursuit, travel, work, inquiries, treatments, protocols, implementations, and research relating to jobs, building and construction, land development, campus, research and education in Missouri in the effort to find cures for presently incurable diseases.

(l) "In Missouri" means within the geographic boundaries of the State of Missouri as established by law and this Constitution.

(m) "Jobs" means any and all forms of jobs and work pursuant to this Article XIV, also including but not limited to, salaries, consultants and fees, employment of individuals where the work classification is directly or indirectly related to building and construction, land development, campus, research, cures and education in Missouri in the endeavor to find cures for presently incurable diseases.

(n) "Land acquisition" means the acquisition of real and personal property, also including but not limited to investigations, inquiries, studies, plans and review of data to determine five potential locations for land development and acquisition for a campus where jobs will be had, building and construction will occur and research and education in Missouri will take place in the endeavor to find cures for presently incurable diseases and where the Research Board shall be primarily located.

(o) "Land development" means any and all land planning and development, also including but not limited to studies, inquiries, exploration, research, planning, and actual purchase of lands, buildings, real estate and property related to site development and campus, land acquisition, land design and use, covenants, restrictions, and ancillary jobs, building and construction, research and education in Missouri in the endeavor to find cures for presently incurable diseases.

(p) "Local government" means a county or city not within a county, or any city, town or village under Chapters 71-82 RSMo.

(q) "Marijuana" means *Cannabis indica*, *Cannabis sativa*, and *Cannabis ruderalis*, hybrids of such species, and any other strains, including but not limited to extractions, resins, concentrates and infusions, commonly understood within the scientific community to constitute or contain marijuana, and the seeds of such plants. "Marijuana" does not include industrial hemp containing a crop-wide average tetrahydrocannabinol concentration that does not exceed three-tenths of one percent on a dry weight basis, or commodities or products manufactured from industrial hemp, or synthetic marijuana.

(r) "Medical Marijuana Cultivation Facility" means a facility, person or entity, licensed by the Research Board, to cultivate in Missouri, store and transport in Missouri and sell in Missouri, marijuana to a Medical Marijuana Dispensary Facility for sale for medical use or to a Medical Marijuana-Infused/Extraction Products Manufacturing Facility for use and manufacture in marijuana-infused/extraction products for sale to a Medical Marijuana Dispensary Facility for sale for medical use.

(s) "Medical Marijuana Research Cultivation Facility" means a facility, person or entity, licensed by the Research Board, to cultivate in Missouri, store and transport in Missouri and sell in Missouri, marijuana for research purposes or to a Medical Marijuana Dispensary Facility for sale for medical use or to a Medical Marijuana-Infused/Extraction Products Manufacturing Facility for use and manufacture in marijuana-infused/extraction products for sale to a Medical Marijuana Dispensary Facility for sale for medical use, with such Medical Marijuana Dispensary Facilities participating in the research in some fashion directed towards the use of medical marijuana, by voluntary surveys, or otherwise, with qualifying patients who purchase the research cultivated marijuana.

(t) "Medical Marijuana Dispensary Facility" means a facility, licensed by the Research Board, to transport, store and sell in Missouri marijuana or marijuana-infused/extraction products for medical use, as provided in this Article XIV.

(u) "Medical Marijuana-Infused/Extraction Products Manufacturing Facility" means a facility, licensed by the Research Board, to manufacture products which are infused with marijuana or its extracts, or products produced from extracts or derivatives of marijuana, and store and transport marijuana-infused/extraction products in Missouri for sale to a Medical Marijuana Dispensary Facility for sale for medical use.

(v) "Medical use of marijuana" means the production, possession, delivery, transportation, distribution or administration of marijuana, or paraphernalia used to administer marijuana, as necessary for the exclusive benefit of a person to mitigate the symptoms or effects of the person's qualifying medical condition.

(w) "Missouri Resident" means for purposes of this Article XIV that the natural person was physically present and maintained a residence in the state of Missouri for greater than one hundred and eighty (180) days out of any calendar year in question and was legally in both the United States and Missouri during that entire time period.

(x) "Participating research entities" means public, private, quasi-public or quasi-private entities or individuals that enter into contracts with the Research Board for research, building and construction and endeavors to facilitate finding cures for presently incurable diseases.

(y) "Physician certification" means a written document, valid for up to twenty-four (24) months from the date of the authorized physician's signature, signed by an authorized physician, that states in the physician's professional opinion, the qualifying patient suffers from a qualifying medical condition, is likely to receive therapeutic or palliative benefit from the medical use of marijuana to treat or alleviate the patient's qualifying medical condition or symptoms associated with the qualifying medical condition, and that the potential benefits of the medical use of marijuana may outweigh the health risks to the qualifying patient.

(z) "Plant canopy" means the area dedicated to live marijuana plants, such as maintaining mother plants, propagating plants from seed to plant tissue, clones, vegetative or flowering area. Plant canopy does not include areas such as space used for the storage of fertilizers, pesticides, or other products, quarantine, office space, walkways and the like.

(aa) "Presently incurable diseases" means any and all diseases and disorders that are presently as well as in the future determined/classified to be incurable, including but not limited to, illnesses, diseases, ailments, conditions and syndromes that are terminal, fatal, progressive, not necessarily progressive but result in long term and frequently permanent injury, disability or suffering, or such conditions that are not readily or not effectively treatable to a full cure.

(bb) "Qualifying medical condition" means diseases that medical marijuana ameliorates, including but not limited to:

i. cancer,
ii. epilepsy,
iii. multiple sclerosis,
iv. human immunodeficiency virus and acquired immune deficiency syndrome,
v. glaucoma,
vi. intractable migraines unresponsive to other treatment,
vii. a chronic medical condition that causes persistent pain and/or persistent muscle spasms including but not limited to those associated with paralysis, Parkinson's disease, Bell's Palsy, and Tourette's syndrome,
viii. debilitating psychiatric disorders that benefit from medical marijuana and have been treated at some point in the patient's medical history by a physician who has received at least three months or more of training in a psychiatric internship, residency program, or through a continuing education program sponsored by an accredited psychiatric residency program, approved by the Research Board and directed toward the recommendations or use of medical marijuana for psychiatric disorders,
ix. a terminal illness,
x. end stage illness as defined by the Research Board, and
xi. any other diseases that the Research Board determines, based upon reliable data and generally accepted scientific principles, will benefit from treatment with medical marijuana.

(cc) "Qualifying patient" means 1) a patient, eighteen (18) years old or older, with one or more qualifying medical conditions, or 2) a patient, under eighteen (18) years old, with one or more qualifying medical conditions who also has notarized written consent from a parent or legal guardian to use medical marijuana or medical marijuana-infused products, as well as verbal in person consent from a parent or legal guardian to an authorized physician writing the physician certification.

(dd) "Qualifying patient identification card" means a card issued by the Research Board for a qualifying patient with a valid physician certification.

(ee) "Research" means any and all research and development, also including but not limited to, teaching, training, studies, analysis, evaluations, and education that is, directly or indirectly, necessary, helpful or supportive to discovering, implementing, or finding cures, and studies for cures of illnesses and diseases that are presently incurable diseases and ancillary jobs, building and construction, research and education in Missouri in the endeavor to find cures for presently incurable diseases.

(ff) "Research Board" means the Board of the Biomedical Research and Drug Development Institute.

(gg) "Rule" or "Rules" has the meaning in this article as it does in Section 536.010 of RSMo. 18-001

(hh) "Secondary Campus" means Research Board discretionary secondary physical locations, including but not limited to building and construction of such secondary campuses that will operate in collaboration with any accredited medical or pharmacy school located within Missouri under this Article XIV, section 5, and used for jobs, building and construction, research, cures, and education in Missouri in the endeavor to find cures for presently incurable diseases under this Article XIV.

(ii) "Shall" means must in this Article XIV.

(jj) "Targeted Disease(s)" means any and all presently incurable diseases that are, or may be, specifically identified or singled out, or otherwise isolated, whether by type, sub-type, sub-sub-type, and to show by example: breast cancer, or interlobular breast cancer, or estrogen positive breast cancer, or estrogen negative interlobular breast cancer, or poorly differentiated estrogen positive interlobular breast cancer, etc.; or leukemia or chronic lymphocytic leukemia or acute lymphocytic leukemia, or acute lymphocytic leukemia with certain genetic markers, or chronic myelogenous leukemia, etc.; or Parkinson's disease, or early onset Parkinson's disease, etc.; or endogenous depression, or depression secondary to bipolar disorder, etc.

Section 3. Research Board and Duties.

(a) There is hereby created and established as a governmental instrumentality of the State of Missouri the "Biomedical Research and Drug Development Institute" which shall constitute a body corporate and politic and operate pursuant to this Article XIV. The Biomedical Research and Drug Development Institute shall exist on a campus established by building and construction on land acquired and land developed pursuant to this Article. On this Biomedical Research and Drug Development Institute campus research shall be performed in the endeavors to find cures for presently incurable diseases. The Biomedical Research and Drug Development Institute shall have located on its campus targeted disease research groups to further this research.

(b) "Biomedical Research and Drug Development Institute" shall be governed by the "Board of Biomedical Research and Drug Development" hereafter "Research Board".

(c) It is expressly directed and permitted that the "Biomedical Research and Drug Development Institute" and the "Research Board" shall not be assigned to any Missouri Department but rather shall be an independent institute existing and operating pursuant to this Article XIV under the direction of the Research Board.

(d) In the event Section 3 subsection (c) of this Article XIV is contrary to existing superseding constitutional law the "Biomedical Research and Drug Development Institute" and "Research Board" shall be transferred by operation of Article IV section 12 to a department, then they shall be assigned to the Department of Health and Senior Services with supervision of the department extending only to budgeting and reporting as provided by subdivisions (4) and (5) of subsection 6 of section 1 of the Reorganization Act of 1974. Supervision by the department shall not extend to matters relating to policies, regulatory functions or other matters specifically entrusted to the Research Board by this Article XIV, and neither the director of the department nor any employee of the department shall, directly or indirectly, interfere with the activities of the Research Board or the research provided by this Article XIV.

(e) The Research Board is charged by the people of the State of Missouri to effectuate this Article XIV, to find cures for currently incurable diseases, and to the extent reasonably practicable generate income pursuant to this Article XIV to the State of Missouri with such cures.

(f) It is the duty of the Research Board to promulgate rules in accordance with the provisions of this Article, and to effectuate the provisions of this Article. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this article shall become effective only if it complies with and is subject to all of the provisions of chapter 536 RSMo.

i. For purposes of only rule making and adjudicated cases, as defined in RSMo 536.010, the Research Board is an agency who is subject to chapter 536 RSMo, except;

ii. For purposes of adjudicated cases as defined in 536.010, the Research board is not subject to chapter 536 RSMo if it has established written procedures to assure that constitutionally required due process safeguards exist and apply to proceedings that would otherwise constitute a contested cases as defined in section 536.010 RSMo.

(g) Any member of a Board established by this Article XIV may be removed for cause by a vote of three fourths of both the Missouri House of Representatives and Senate, with the concurrence of the Governor.

(h) The Research Board shall issue, renew, regulate, restrict, and revoke licenses for marijuana facilities, including but not limited to Medical Marijuana Cultivation Facilities, Medical Marijuana-Infused/Extraction Products Manufacturing Facilities, and Medical Marijuana Dispensary Facilities, and issue, renew, regulate, restrict, and revoke qualifying patient identification cards and designated primary caregiver cards.

(i) The Research Board shall issue rules for licensure of marijuana facilities, including but not limited to procedures for:

i. issuing, renewing, regulating, restricting and revoking licenses for Medical Marijuana Cultivation Facilities, Medical Marijuana-Infused/Extraction Products Manufacturing Facilities, and Medical Marijuana Dispensary Facilities,

ii. the issuance, renewal, regulating, restricting and revocation of qualifying patient identification cards and designated primary caregiver identification cards, and

iii. the creation of a confidential qualifying patient, confidential cultivation location and confidential designated primary caregiver registry. Patients may be issued confidential patient identification numbers for purposes of identity protection and medical marijuana sales. The purpose of the regulations within this subsection is to ensure the availability and safe confidential use of marijuana by qualifying patients.

(j) The Research Board shall develop rules whereby the denial or revocation of a license, license renewal, identification card or other adverse action by the Research Board shall be:

i. appealable to the Administrative Hearing Commission and otherwise subject to judicial review as provided by law, or

ii. subject to Biomedical Research and Drug Development Institute established written procedures to assure that constitutionally required due process safeguards exist and apply to such a denial, revocation, or adverse action of the Research Board.

(k) The Research Board shall consist of nine members to be selected, as soon as practicable, by the Article XIV Coordinator as set forth in this Article XIV, one of whom shall be selected by the Article XIV Coordinator as Research Chairperson. The Article XIV Coordinator shall serve as Research Chairperson until the nine members are selected, at which time the Article XIV Coordinator is terminated from the Research Board. The members of the Board, other than the temporary "then existing Research Board" in section 3(t), selected by the Article XIV Coordinator shall serve the following terms: four shall serve three years, and five, including the Research Chairperson, shall serve six years. Thereafter, each appointment shall be for a term of six years. Upon conclusion of the Research Chairperson's first term, or vacancy, whichever comes first, the Research Board shall choose from within their members a Research Chairperson. If for any reason a vacancy occurs, the Research Chairperson shall appoint a new member to fill the unexpired term. Members are eligible for up to four reappointments. Although members of the Research Board and Article XIV Coordinator may hold other employment, no member of such Research Board shall hold any public office, and no member shall hold any official position in a political party.

i. It is expressly directed and permitted that the person who is designated on the initially submitted Initiative Petition Submission Cover Page to be the contact person to whom any notices shall be sent under sections 116.140 and 116.180 RSMo for the initiative petition filed for this Article XIV pursuant to RSMo 116.100 and 116.332, shall serve as the Article XIV Coordinator.

ii. If the person who is designated on the initially submitted Initiative Petition Submission Cover Page to be the contact person to whom any notices shall be sent under sections 116.140 and 116.180 RSMo for the initiative petition filed for this Article XIV pursuant to RSMo 116.100 and 116.332 for any reason does not serve as the Article XIV Coordinator the Governor shall appoint an individual who is both a licensed Missouri physician and licensed Missouri attorney, but if no such person is available or accepts the appointment, then any Missouri resident who also holds a Missouri license to practice medicine and a PhD in Biology, Chemistry, Biochemistry, Physics, Genetics, Anatomy or equivalent degree, from an accredited university that has been in existence at least fifty (50) years.

iii. The Article XIV Coordinator shall serve without compensation but shall receive reimbursement for expenses associated with the performance and delegation of duties pursuant to this Article XIV, and shall have two administrative assistants who shall each be paid out of the General Purpose Account at the rate of a Missouri State Representative, so long as there are funds available. If no funds are immediately available, the administrative assistants may serve with deferred compensation until funds are available and when funds become available the administrative assistants shall be paid the full compensation owed, as shall the expenses of the Article XIV Coordinator be reimbursed.

(l) Five members of the Research Board shall constitute a quorum. No vacancy in the membership of the Board shall impair the right of a quorum to exercise all the rights and perform all the duties of the Board. The Research Board may act only by the concurrence of a majority of a quorum, with such quorum meeting in person when practicable but by video teleconference or similar means when approved by a majority of the quorum. Failure to regularly and frequently participate in Board business shall be grounds for dismissal from the Board upon a vote of six members of the Board.

(m) The Research Board is hereby granted, has and may exercise all powers necessary or appropriate to implement, carry out, enforce and effectuate its purpose, and the purposes of this Article XIV including but not limited to the following:

i. To make, purchase or participate in the purchase of property;

ii. Adopt bylaws for the regulation of its affairs and the conduct or discharge of its business and define terms so as to reasonably and effectively carry out the purpose of this Article XIV;

iii To accept appropriations, gifts, grants, bequests, and devises and to utilize or dispose of the same to carry out its purpose;

iv. To make and execute contracts, releases, compromises, and other instruments necessary or convenient for the exercise of its powers, or to carry out its purpose;

v. To sue and be sued;

18-001

vi. To have a seal and alter the same at will;

vii. To make, promulgate and from time to time, amend and repeal rules;

viii. To perform all administrative duties necessary or that reasonably assist in the discharge and conduct of its business as defined in this Article, including, but not limited to, the formation of committees and subcommittees and the delegation of its authority, to the extent permitted by law, to such committees and subcommittees.

ix. To form advisory panels of licensed cultivators, infusers/extractors, and dispensaries;

x. To acquire, hold, lease, sell and dispose of personal property for its purpose;

xi. To sell, at public or private sale, any mortgage, negotiable instrument or obligation securing building and construction or land development;

xii. To enter into agreements or other transactions with any federal or state agency, international entity, any person or any domestic or foreign partnership, corporation, association or organization;

xiii. To acquire real property, or an interest therein, in its own name, to hold, not sell, and may lease for up to 100 years and one option to renew up to another 100 years such property to a tenant to develop, for building and construction, and to manage and operate such property, to enter into management contracts with respect to such property and to mortgage such property;

xiv. To procure insurance against any loss in connection with its property in such amounts, and from such insurers, as may be necessary or desirable;

xv. To develop a retirement or pension plan for employees, staff and board members working for the Research Board or the Biomedical Research and Drug Development Institute;

xvi. To issue and sell revenue bonds to fund any purpose authorized by this Article. Any bonds issued under the provisions of this Article shall not be deemed to be an indebtedness of the State of Missouri or of any political subdivision thereof, and shall not be deemed to be an indebtedness within the meaning of any constitutional or statutory limitation upon the incurring of indebtedness. The proceeds of the sale or sales of any bonds issued hereunder shall be paid into the state treasury and be credited to a fund to be designated the "Biomedical Research and Drug Development Institute Trust Fund". The bonds shall be retired serially and by installments within a period not to exceed twenty-five years from their date of issue and shall bear interest at a rate or rates not exceeding the rate permitted by law.

(n) The Research Board shall charge fees for each applicant for each license to operate a Medical Marijuana Cultivation Facility, Medical Marijuana Research Cultivation Facility, Medical Marijuana Dispensary Facility or Medical Marijuana-Infused/Extraction Products Manufacturing Facility as follows: 1. Except for Medical Marijuana Research Cultivation Facilities, a non-refundable $25,000 application fee for each type of facility which shall constitute the licensure fee for the first year of licensure; 2. For Medical Marijuana Research Cultivation Facilities a non-refundable $5,000 application fee which shall constitute the licensure fee for the first year of licensure and, in addition 3. For each type of facility in each subsequent licensure year, a fee equal to 125% of the pro-rata estimated average yearly cost to the Research Board of administrating and enforcing this Article XIV application and licensing process, estimated over a five (5) year period, divided equally among all applicants based on the yearly estimated number of applicants for such licenses over the same five (5) year period, as reasonably estimated by the Research Board.

(o) The Research Board shall set a limit on the amount of marijuana that may be purchased per month, provided that limit is not less than three (3) ounces every thirty (30) days of dried unprocessed marijuana or its extract equivalent as reasonably determined by the Research Board. A requested waiver of any such limit may be reviewed by the Research Board for a qualifying patient with written certification from two physicians, not of the same clinic, setting forth compelling reasons for additional amounts requested.

(p) The Research Board shall restrict the number of licenses granted for Medical Marijuana-Infused/Extraction Products Manufacturing Facilities within the state of Missouri to a total of not less than fifty (50) licenses. Upon the written request of a local government to the Research Board for an exception to increase the specific number of available licenses within that local government, above the restriction, such exception for a specific number of licenses may be granted by the Research Board for such licenses. Alternatively, upon the written request of local government for an exception to exclude local government from Medical Marijuana-Infused/Extraction Products Manufacturing Facilities, the Research Board may provide such a requesting local government a five (5) year exclusion, which thereafter may be reconsidered by the Research Board for renewal every five (5) years if the local government has placed the matter to a vote of the local government population and such vote resulted in a majority vote for a continued ban upon infused/extraction products facilities.

18-001

(q) The Research Board shall restrict the number of licenses granted for Medical Marijuana Dispensary Facilities within each county or city not within a county to two (2) for every twenty thousand (20,000) inhabitants. If a county or city not within a county has fewer than twenty thousand (20,000) inhabitants, the Research Board may restrict the number of licenses granted for Medical Marijuana Dispensary Facilities to two (2). Upon the written request of a local government to the Research Board for an exception to increase the specific number of available licenses within that local government, above the restriction, such exception for a specific number of licenses may be granted by the Research Board for such licenses. Alternatively, upon the written request of a local government for an exception to exclude local government from Medical Marijuana Dispensary Facilities, the Research Board may provide such a requesting local government a five (5) year exclusion, which thereafter may be reconsidered by the Research Board for renewal every five (5) years if the local government has placed the matter to a vote of the local government population and such vote resulted in a majority vote for a continued ban upon dispensaries.

(r) The Research Board may restrict the number of licenses granted for Medical Marijuana Cultivation Facilities within the state of Missouri to a total of not less than fifty (50) licenses, and the number of Medical Marijuana Research Cultivation facilities to a total of not less than four hundred (400) licenses. If the number of licenses is restricted by the Research Board, upon the written request of a local government to the Research Board for an exception to increase the specific number of available licenses within that local government, above the restriction, such exception for a specific number of licenses may be granted by the Research Board for such licenses. Alternatively, upon the written request of a local government for an exception to exclude local government from Medical Marijuana Cultivation Facilities and Medical Marijuana Research Cultivation Facilities, the Research Board may provide such a requesting local government a five (5) year exclusion, which thereafter may be reconsidered by the Research Board for renewal every five (5) years if the local government has placed the matter to a vote of the local government population and such vote resulted in a majority vote for a continued ban upon cultivation.

(s) The initial nine members of the Research Board shall have their compensation set as the annual salary received by the Missouri Supreme Court Chief Justice. Thereafter, for new members of the Board, the compensation shall be an amount agreed upon by at least one half of the Research Board, and approved by the Governor, but not less than the annual salary received by the Missouri Supreme Court Chief Justice. Upon further years of service, the compensation shall be increased every three years by the greater of a cost of living increase based upon the Consumer Price Index (CPI), or successor index as published by the U.S. Board of Labor or its successor agency, or at a raised amount agreed upon unanimously by the Research Board and approved by the Governor.

(t) A nonpartisan scientific nominating committee, hereafter nonpartisan commission, of five (5) individuals shall review applications, interview candidates and for each vacancy in the Research Board and shall select a panel of four (4) individuals from which the Research Chairperson shall appoint as member(s) of the Research Board. The five individuals on the nonpartisan commission members shall be elected from the combined pool of licensed Missouri physicians and pharmacists as set out in this subsection (t). Residents of the State of Missouri who are licensed Missouri physicians or licensed Missouri pharmacists and living in the State of Missouri at least six (6) months over the twelve (12) months before the election in this subsection (t) shall elect a grand total of five individuals from the combined pool of licensed Missouri physicians and pharmacists to serve as members of said nonpartisan commission. Each member shall serve four (4) year terms except that from the initial election of members of the nonpartisan commission, the three (3) with the lowest number of votes shall be elected to two (2) year terms, and the other two (2) members which shall be elected to a four (4) year term, and the members of the nonpartisan commission shall select one of their number to serve as chairperson. No member of the nonpartisan commission shall hold any public office, and no member shall hold any official position in a political party. The nonpartisan commission may act only by the concurrence of a majority of its members. The members of such nonpartisan commission shall receive a salary equal to that of an elected state senator as compensation for their services and they shall receive their necessary traveling and other expenses incurred while actually engaged in the discharge of their official duties. Except as provided otherwise in this Article XIV, any and all such nonpartisan commissions shall be governed, and all nonpartisan commission elections provided for under this section shall be held by, and regulated under, such rules as a panel of three retired Missouri judges appointed by the Research Chairperson, or Article XIV Coordinator prior to the Research Chairperson, shall promulgate. Said rules shall be presented to the Research Chairperson who shall file such rules with the secretary of state on behalf of the Research Board within twenty-one (21) days of receiving them from the three judge panel. The three judge panel shall be compensated the standard rate of retired senior judges paid out of the General Purpose Account during the weeks in which they perform work. Pending selection and appointment that will fill the Research Board, the Article XIV Coordinator shall appoint four (4) temporary acting members and the Governor shall appoint four (4) temporary acting members who together with the Article XIV Coordinator shall be the "then existing Research Board" and shall have the power and duties of the Research Board until such member positions are otherwise filled pursuant to this Article. Those temporary members shall serve at the same rate as Research Board members so long as there are funds available. If no funds are immediately available, the members may serve with deferred compensation until funds are available and when funds become available the members shall be paid for time served from appointment, and for their reasonable expenses incurred to effectuate their duties.

(u) Applications for vacancies in the Research Board are permitted by any licensed physician or licensed pharmacist residing in the State of Missouri for at least three years prior to their application who also holds a PhD in Biology, Chemistry, Biochemistry, Physics, Genetics, Anatomy, Biomedical Engineering, Neuroscience, a Juris Degree, or equivalent degree who may submit an application to the nonpartisan commission for consideration. Additionally, any citizen of the United States, or Nobel Laureate in the field of medicine or science with permanent residence in the United States, who also holds a PhD in Biology, Chemistry, Biochemistry, Physics, Genetics, Anatomy, Biomedical engineering, Neuroscience, a Juris Degree, or equivalent degree, from an accredited university that has been in existence at least fifty (50) years, upon nomination of a Dean of the School of Medicine of the University of Missouri – Columbia, Kansas City, St. Louis, St. Louis University, or Washington University in St. Louis, or upon nomination of a member of the Missouri State Senate may submit their application to the nonpartisan commission for consideration.

18-001

(v) The Research Board shall establish targeted diseases research groups, hereafter research groups, aimed at research, finding cures, and endeavors for fighting specific targeted diseases consistent with the purpose of the charge of this Article XIV. Specific targeted diseases shall be identified by the Research Board, and such targeted diseases may be identified for receiving segregated donations and contributions before and after the targeted disease research group is established. Research groups shall be governed by a panel of not less than three (3) individuals and not more than seven (7), chosen by the Research Board, who shall oversee, supervise, steer, and regulate the group's research to find cures. Individuals on the Research Board may sit on up to four (4) targeted disease group governing panels. Research group panel members, except for Research Board members who shall receive no additional compensation, shall have their compensation set as the annual salary determined by the Research Board, but in no event less than 70% of the annual compensation of the Missouri Supreme Court Chief Justice. When a targeted disease group governing panel includes five (5) or more members, up to two (2) of those members may be non-compensated non-voting advisory members of a 501c3 charitable organization(s) that has demonstrated a commitment, as determined by the Research Board, to finding a cure for the targeted disease.

(w) Members of the Research Board, except as allowed under this Article XIV shall not enter into any financial or business relationships with an entity that profits from medical research or medications and therapies to treat incurable disease under this Article XIV, other than in an accredited university faculty position, during the member's tenure on the Research Board, and for a period of two (2) years after that member's tenure on the Research Board ends, nor may a Research Board member ever steer research to or toward a particular direction or activity with the purpose of helping a private company for personal or for family financial gain, either directly or indirectly. Nothing in this subsection shall prohibit or prejudice a board member or Article XIV Coordinator from entering into any employment, financial or business relationship so long as such does not steer or influence Article XIV research toward a particular company nor toward a result/outcome for personal financial gain.

(x) The monies, including but not limited to all revenues and taxes generated, obtained and distributed under this Article XIV, and all other monies generated, obtained, and distributed under this Article XIV shall not be included within the definition of "total state revenues" as that term is used in section 17 of Article X of this constitution nor be considered as an "expense of state government" as that term is used in section 20 of article X of this constitution.

(y) The Research Board shall establish a public website for transmission and receipt of information to and from the public.

(z) Within ninety (90) days of the effective date of this Article XIV if practicable, but in no event shall the time exceed six (6) months after the effective date of this Article XIV, the Research Board shall make available to the public license application forms and application instructions for Medical Marijuana Cultivation Facilities, Medical Marijuana Research Cultivation Facilities, Medical Marijuana Dispensary Facilities, and Medical Marijuana-Infused/Extraction Products Manufacturing Facilities.

(aa) Within ninety (90) days of the effective date of this Article XIV if practicable, but in no event shall the time exceed six (6) months after the effective date of this Article XIV, the Research Board shall make available to the public application forms and application instructions for qualifying patient and primary caregiver identification cards. Within one hundred and twenty (120) days of the effective date of this Article XIV, if practicable, but in no event more than eight (8) months after the effective date of this Article XIV, the Research Board shall begin accepting applications for such identification.

18-001

Section 4. Licensure, Taxation and Reporting.

(a) A cultivation tax is hereby imposed on each wholesale sale in Missouri by a Medical Marijuana Cultivation Facility and Medical Marijuana Research Cultivation Facility to a Medical Marijuana-Infused/Extraction Products Manufacturing Facility, and a Medical Marijuana Cultivation Facility and Medical Marijuana Research Cultivation Facility to a Medical Marijuana Dispensary Facility, at a rate for marijuana flowers of nine dollars and twenty five cents ($9.25) per dry-weight ounce, and the tax rate for marijuana leaves shall be set at two dollars and seventy five cents ($2.75) per dry-weight ounce, with such rate to be increased or decreased each year by the percentage of increase or decrease of the Consumer Price Index (CPI), or successor index as published by the U.S. Board of Labor or its successor agency.

i. For all wholesale sales of marijuana, a receipt must be given by the seller which identifies all the parties involved in the sale, all amounts and types of marijuana involved in the sale and the total amount of money involved in the sale, including itemizations and grand total sale amounts.

(b) A tax is hereby imposed on each retail sale in Missouri of Marijuana and Marijuana Infused/Extraction products by a Medical Marijuana Dispensary Facility at a rate of fifteen percent (15%) of the purchase price paid or charged, or in case such sale involves the exchange of property, to fifteen percent (15%) of the consideration paid or charged, including the fair market value of the property exchanged at the time and place of the exchange.

i. The tax must be collected by the Medical Marijuana Dispensary Facility and paid to the Department of Revenue within thirty (30) days of the retail sale.

ii. For all retail sales of marijuana, a receipt must be given by the seller which identifies all the parties involved in the sale, all amounts and types of marijuana involved in the sale and the total amount of money involved in the sale, including itemizations and grand total sale amounts. The seller of the product must issue a copy of the receipt to the Department of Revenue or be subject to an automatic penalty up to $100 per-occurrence; failure to submit such receipts may further subject a seller to prohibition on obtaining a future license for Medical Marijuana Cultivation, a Medical Marijuana Dispensary Facility, or a Medical Marijuana-Infused/Extraction Products Manufacturing Facility, for a minimum of 30 days to a maximum of life, and if a non-human entity a maximum of forever.

(c) Subject to the limitations within this Article a person who is a Missouri resident for three or more years, or entity that is registered to do business in the State of Missouri and owned at least seventy percent (70%) or more by three year or longer duration Missouri residents, may apply for and obtain from the Research Board a license to operate a Medical Marijuana Cultivation Facility or Medical Marijuana Research Cultivation Facility in Missouri.

i. Such person or entity may apply to the Research Board for and obtain:

a. A yearly Medical Marijuana Cultivation Facility license to grow marijuana. Each such license shall be valid for growing marijuana in up to twenty thousand (20,000) square feet of plant canopy. Each such license shall be taxed at an initial rate of $25,000 for the first year per license (which must be by money order, cashier's check, or other means as determined by the Research Board and accompany the application and will be returned if the application is unsuccessful) and then annually at $15,000 per license upon renewal; or

b. A yearly Medical Marijuana Research Cultivation Facility license to grow marijuana. Each such license shall be valid for growing marijuana in up to two thousand five hundred (2,500) square feet of plant canopy. Each such license shall be taxed at an initial rate of $10,000 for the first year per license (which must be by money order, cashier's check, or other means as determined by the Research Board and accompany the application and will be returned if the application is unsuccessful) and then annually at $5,000 per license upon renewal.

c. Such licenses may be renewed each year, and rates for both licenses may be increased or decreased each year by the percentage of increase or decrease of the Consumer Price Index (CPI), or successor index as published by the U.S. Board of Labor or its successor agency.

d. No more than three Medical Marijuana Cultivation Facility licenses shall be issued to or possessed by any individual, group of individuals, or entity(s) under substantially common control, ownership, or management, whether directly, indirectly or by derivative.

e. No more than five Medical Marijuana Research Cultivation Facility licenses shall be issued to or possessed by any individual, group of individuals, or entity(s) under substantially common control, ownership, or management, whether directly, indirectly or by derivative.

ii. When there are more applications for licenses than are available, except as stated in 4(c)ii.a. of this subsection immediately below, licenses shall be on the basis of competitive bids (such bids must be by money order, cashier's check, or other means as determined by the Research Board, and accompany the application and will be returned if the bid is unsuccessful), with licenses awarded to the highest bidder. Such bids shall be made in a manner prescribed by the Research Board to avoid disclosure of bid amounts to competing bidders during the bidding process.

a. The Research Board may set aside up to 50% of the Medical Marijuana Cultivation Facility licenses and 50% of the Medical Marijuana Research Cultivation Facility licenses to be awarded based upon a ranking using the following factors: site security, including capacity for ease of cultivation, experience with understanding the medicine and law surrounding the cultivation and use of medical marijuana, experience with agriculture, horticulture, health care and the cannabis market, and sufficient available capital to maximize probable success; acceptance in the site community; business plan for

Medical Marijuana Cultivation Facility licenses and business plan plus research plan for Medical Marijuana Research Cultivation Facility licenses; potential for positive economic impact in the site community and maintaining competitiveness in the marijuana for medical use marketplace. In ranking applicants and awarding licenses, the Research Board may consult with or contract other public agencies with relevant expertise regarding these factors. The Research Board may lift or ease any limit on the number Medical Marijuana Cultivation Facilities and Medical Marijuana Research Cultivation Facilities to meet the demand for medical marijuana by qualifying patients and research. 18-001

iii. Marijuana must be grown indoors in an enclosed, locked facility: a room, warehouse or greenhouse, or other enclosed area equipped with locks or other security devices that permit access only by authorized personnel, meeting the Research Board standards and industry standards for safety and safe use of electricity.

iv. Upon request to the Research Board, state institutions of higher education governed by sections 174.020 to 174.500 Revised Statutes of Missouri and chapter 172 Revised Statutes of Missouri shall be granted, without charge, up to one (1) medical marijuana research cultivation facility license per institution per year to grow marijuana.

v. Upon request to the Research Board by an entity operating under authority of section 10 of this Article XIV, the Research Board may grant, without charge, up to one (1) medical marijuana research cultivation facility license to a total of no more than ten (10) such entities for purposes of researching the benefits of medical marijuana for various presently incurable diseases.

vi. Initial applications for licenses shall be accepted beginning no more than seven (7) months after passage of this Article. The initial application period shall remain open for ninety (90) days.

vi. After the initial application period, when one or more licenses become available, the opening shall be published on the Research Board's website for ninety (90) days, at the close of which an additional application period of ninety (90) days shall immediately commence.

(d) Subject to the limitations within this Article a person who is a Missouri resident for three or more years, or entity that is registered to do business in the State of Missouri and owned at least seventy percent (70%) or more by three year or longer duration Missouri residents, may apply for and obtain a license to operate a Medical Marijuana Dispensary Facility in Missouri. Such person or entity may apply to the Research Board for and obtain a yearly Medical Marijuana Dispensary Facility license to sell marijuana or marijuana-infused/extraction products for medical use within a county or city not within a county. Each such license shall be taxed at an initial rate of $25,000 for the first year per license (which must be by money order, cashier's check, or other means as determined by the Research Board and accompany the application and will be returned if the application is unsuccessful) and then annually at $10,000 per license upon renewal, with such rates to be increased or decreased each year by the percentage of increase or decrease of the Consumer Price Index (CPI), or successor index as published by the U.S. Research Board of Labor or its successor agency.

i. No more than five (5) Medical Marijuana Dispensary Facility licenses shall be issued to or possessed by any one individual, group of individuals, or entity(s) under substantially common control, ownership, or management, whether directly, indirectly or by derivative, nor shall such one individual, group of individuals, or entity ever possess more than fifty percent (50%) of the licenses for a given county or city not within a county.

ii. When there are more applications for licenses than are available, in total or for particular locations, except as stated in 4(d)ii.a, licenses shall be on the basis of a three prong test established by the board, 1) knowledge of pharmacy and ability to have a pharmacist available for consultation to qualifying patients purchasing marijuana, 2) knowledge of medicine and medical research, and 3) competitive bids (such bids must be by money order, cashier's check, or other means as determined by the Research Board, and accompany the application and will be returned if the bid is unsuccessful), with licenses awarded to the individual, individuals or entities with the highest score. Such bids shall be made in a manner prescribed by the Research Board to avoid disclosure of bid amounts to competing bidders during the bidding process.

a. The Research Board may set aside up to 50% of the Medical Marijuana Dispensary Facility licenses to be awarded based upon a ranking using the following factors: knowledge of pharmacy, knowledge of neuroscience and marijuana interactions, site security, experience with understanding the medicine and law surrounding the use of medical marijuana, experience with retail pharmacy, health care and the cannabis market, business plan, and sufficient available capital to maximize probable success; acceptance in the site community; potential for positive economic impact in the site community and maintaining competitiveness in the marijuana for medical use marketplace. In ranking applicants and awarding licenses, the Research Board may consult with or contract other public agencies with relevant expertise regarding these factors.

iii. Initial applications for licenses shall be accepted beginning no more than seven (7) months after passage of this Article. The initial application period shall remain open for ninety (90) days.

iv. After the initial application period, when one or more licenses become available, the opening shall be published on the Research Board's website for ninety (90) days, at the close of which an additional application period of ninety (90) days shall immediately commence.

(e) Subject to the limitations within this Article a person who is a Missouri resident for three or more years, or entity that is registered to do business in the State of Missouri and owned at least seventy percent (70%) or more by three year or longer duration Missouri residents, may apply for and operate a Medical Marijuana-Infused/Extraction Products Manufacturing Facility in Missouri. Such person or entity may apply to the Research Board for and obtain a yearly Medical Marijuana-Infused/Extraction Manufacturing Products Facility

18-001

a license to buy marijuana from Medical Marijuana Cultivation Facility or Medical Marijuana Research Cultivation Facility and sell medical marijuana-infused/extracted products to a Medical Marijuana Dispensary Facility. Each such license shall be taxed at an initial rate of $20,000 for the first year per license (which must be by money order, cashier's check, or other means as determined by the Research Board and accompany the application and will be returned if the application is unsuccessful) and then annually at $10,000 per license upon renewal, with such rates to be increased or decreased each year by the percentage of increase or decrease of the Consumer Price Index (CPI), or successor index as published by the U.S. Research Board of Labor or its successor agency.

i. No more than five (5) Medical Marijuana-Infused/Extraction Products Manufacturing Facility licenses shall be issued to or possessed by any one individual, group of individuals, or entity(s) under substantially common control, ownership, or management, whether directly, indirectly or by derivative, nor shall such one individual, group of individuals, or entity ever possess more than fifty percent (50%) of the licenses for a given county or city not within a county.

ii. When there are more applications for licenses than are available, except as stated in 4(e)ii.a, licenses shall be on the basis of competitive bids (such bids must be by money order, cashier's check, or other means as determined by the Research Board, and accompany the application and will be returned if the bid is unsuccessful), with licenses awarded to the highest bidder. Such bids shall be made in a manner prescribed by the Research Board to avoid disclosure of bid amounts to competing bidders during the bidding process.

a. The Research Board may set aside up to 50% of the Medical Marijuana Dispensary Facility licenses to be awarded based upon a ranking using the following factors: site security, experience with understanding the medicine and law surrounding the use of medical marijuana, experience with retail pharmacy, health care and the cannabis market, business plan, and sufficient available capital to maximize probable success; acceptance in the site community; potential for positive economic impact in the site community and maintaining competitiveness in the marijuana for medical use marketplace. In ranking applicants and awarding licenses, the Research Board may consult with or contract other public agencies with relevant expertise regarding these factors.

iii. Initial applications for licenses shall be accepted beginning no more than seven (7) months after passage of this Article. The initial application period shall remain open for ninety (90) days.

iv. After the initial application period, when one or more licenses become available, the opening shall be published on the Research Board's website for ninety (90) days, at the close of which an additional application period of ninety (90) days shall immediately commence.

(f) A qualifying patient must obtain annually a qualifying patient identification card from the Research Board and shall be taxed at an annual rate of $100 per issuance, with such rate to be increased or decreased each year by the percentage of increase or decrease of the Consumer Price Index (CPI), or successor index as published by the U.S. Board of Labor or its successor agency. Upon application for a qualifying patient identification card, the Research Board must, within thirty (30) days, provide either the card or a written explanation for its denial of the card. It shall not be grounds for denial that use of medical marijuana is not approved under federal law.

(g) A designated primary caregiver must obtain annually a designated primary caregiver identification card from the Research Board for each designated qualifying patient and shall be taxed at an annual rate of $100 per issuance, with such rate to be increased or decreased each year by the percentage of increase or decrease of the Consumer Price Index (CPI), or successor index as published by the U.S. Board of Labor or its successor agency. Upon application for a designated primary caregiver identification card, the Research Board must, within thirty (30) days, provide either the card or a written explanation for its denial of the card. It shall not be grounds for denial that use of medical marijuana is not approved under federal law.

(h) Marijuana in Missouri for retail sale may only be sold by a licensed Medical Marijuana Dispensary Facility.

(i) No Medical Marijuana Cultivation Facility, Medical Marijuana Dispensary Facility, or Medical Marijuana-Infused/Extraction Products Manufacturing Facility shall assign, sell, give, lease, sublease, or otherwise transfer its license to any other individual or entity for at least five (5) years from the time of the initial application by the licensee, and then not without the express consent of the Research Board, not to be unreasonably withheld. Licenses are transferable upon death by will or inheritance.

(j) No taxes or fees shall be imposed on the sale of medical marijuana except as provided in this Article.

(k) In event subsection (j) of this section 4, immediately above, is found unconstitutional, the taxes imposed pursuant to this section are separate from and in addition to any general state and local sales and use taxes that apply to retail sales of tangible personal property.

(l) All revenues collected from the taxes imposed on the sale of marijuana pursuant to this section must be deposited in the Biomedical Research and Drug Development Institute Trust Fund. All revenues and taxes collected from the issuance of licenses to Medical Marijuana Cultivation Facilities, Medical Marijuana Research Cultivation Facilities, Medical Marijuana-Infused/Extraction Products Manufacturing Facilities, and Medical Marijuana Dispensary Facilities, except as provided elsewhere in this Article XIV, must likewise be deposited in the Biomedical Research and Drug Development Institute Trust Fund.

Section 5. Trust Fund

18-001

(a) The "Biomedical Research and Drug Development Institute Trust Fund" is hereby established in the state treasury. Within the Biomedical Research and Drug Development Institute Trust Fund shall be the following accounts which include but are not necessarily limited to:

i. General Purpose Account;
ii. Land Acquisition Account;
iii. Targeted Diseases Account and its sub-accounts; and
iv. Section 10 Account.

(b) Except for repayment of bonds under this Section 5, subsection b, which shall be paid first, at the conclusion of each fiscal year, the state treasurer shall allocate all monies in the Biomedical Research and Drug Development Institute Trust Fund that are not otherwise in an account to the Research Board for disbursement and investment as directed in this section. During the first five (5) years, the monies shall be deposited 50% into the General Purpose Account, 25% into the Land Acquisition Account and 25% into the targeted disease account. Thereafter the Research Board shall direct the percentage of money to be deposited into each account. Monies deposited in the fund shall include but are not limited to the designated funds received from sections 4, 5 and 10 of Article XIV, money transferred from the Research Board and any other amounts which may be received from grants, gifts, devises, bequests, contributions, donations, and money from contracts, from the state or federal government, derivative of intellectual property rights, or any other source. Monies in the fund shall be used solely for the purposes established by this Article XIV.

(c) Monies deposited into the General Purpose Account shall be used for research, presently incurable diseases, targeted diseases, building and construction, the campus, cures, endeavors, jobs, payment and compensation for jobs, administrative expenses, and education in Missouri pursuant to the performed pursuant to this Article XIV. Up to 10% of the annual General Purpose Account may be allocated by the Board to various universities in the State of Missouri with accredited medical or pharmacy schools, or currently existing at the time of passage of this Article XIV independently accredited medical or pharmacy schools within the State of Missouri, for collaborative efforts pursuant to section 10 of Article XIV, and to the development of secondary campuses in Missouri at these in-state universities with accredited medical schools and pharmacy schools, plus up to a further 5% annually maybe allocated for research purposes to various such universities who have developed, or have in the past 12 months before passage of this Article XIV been actively taking steps to develop, including but not limited to providing classes that will count as credit for, graduate programs in biomedical engineering and neuroscience. Additionally, up to 10% more of the General Purpose Account may be allocated by the Research Board to various joint collaborative in-Missouri/non-Missouri research efforts pursuant to section 10 of Article XIV, and up to 2% more of the General Purpose Account may be allocated by the Research Board as grants to Missouri local law enforcement agencies to assist with costs associated with medical marijuana law enforcement and safety.

(d) Monies deposited into the Land Acquisition Account shall be used for Land Acquisition and Land Development. The Land Acquisition Account may receive specific designated grants, gifts, devises, bequests, contributions, donations, and money from contracts, from the state or federal government, derivative of intellectual property rights, or any other source, and such specific designated monies shall be segregated for the Land Acquisition and Land Development, not commingled with other money.

(e) Monies deposited into the Targeted Diseases Account shall be used for research performed by targeted disease research groups, targeted diseases research building and construction, targeted disease research jobs, ancillary activities of the research groups and for support of the research of targeted diseases research groups as set forth in this Article XIV. Individual targeted diseases groups may receive specific designated grants, gifts, bequests, contributions, donations, and money from contracts, from the state or federal government, derivative of intellectual property rights, or any other source, and such specific designated monies shall be segregated into targeted disease sub accounts for that individual targeted disease group, not commingled with other money, and shall be used only for the purposes of that research group.

(f) Except where specifically stated otherwise, all administrative costs, expenses, jobs and compensation for duties performed and incurred under this Article XIV and by the Research Board shall be paid from the General Purpose Account of this fund.

(g) The unexpended balance existing in the fund and any of its accounts at the end of any biennium year shall be exempt from the provisions of section 33.080 relating to the transfer of unexpended balances to the general revenue fund.

(h) All monies deposited in the Biomedical Research and Drug Development Institute Trust Fund and its accounts shall remain separate and apart from the general revenue of the State of Missouri and shall be used only for the purposes of this Article XIV. Monies in the Biomedical Research and Drug Development Institute Trust Fund shall be first used to repay bonds and any other form of indebtedness, if any, issued by the Board for the purposes authorized by Article XIV. The unexpended balances of such monies shall remain in the Biomedical Research and Drug Development Institute Trust Fund and in the particular account in which the monies are placed, and such balances shall not revert to the general revenue fund.

(i) To maintain transparency, each year the Research Board shall publish the itemized income and expenses from the fund and its accounts in a report made available on the Research Board's website using general accepted accounting principles.

18-001

Section 6. Land Acquisition.

(a) It is expressly directed and permitted that within the Research Board shall be established a subcommittee known as the Land Acquisition Board. Such subcommittee members shall not receive any additional pay. The Land Acquisition Board shall consist of five individuals, four members of the Research Board selected by the Article XIV Coordinator and the fifth member being the Article XIV Coordinator. The members of the Land Acquisition Board selected by the Article XIV Coordinator shall serve the following initial terms: one shall serve two years, one shall serve three years, and two shall serve four years. Thereafter, each appointment shall be for a term of four years. If for any reason a vacancy occurs, the Article XIV Coordinator shall appoint a new member from within the Research Board to fill the unexpired term. Members are eligible for reappointment. Before the appointments by way of the nonpartisan commission that will fill the Research Board and then in turn the Land Acquisition Board, the Article XIV Coordinator shall appoint four temporary members of the Land Acquisition Board, who may or may not be members of the then existing Research Board, who together shall be the "then existing Land Acquisition Board" and shall have the power and duties of the Land Acquisition Board. Those temporary members shall serve at the same rate as Research Board members so long as there are funds available. If no funds are immediately available, the members may serve with deferred compensation until funds are available and when funds become available the members shall be paid for time served from appointment, and reasonable expenses incurred to effectuate their duties.

(b) The Land Acquisition Board shall make investigations, inquiries, studies and review data to identify no more than five but no less than three potential locations for land development and Land Acquisition and for a campus.

(c) The Land Acquisition Board shall have the authority to promulgate any necessary and supportive rules, regulations and procedures to fulfill its duties and authorized activities under this Article XIV, by and through the Research Board.

(d) The Land Acquisition Board shall report an overview of activities and status of the Land Acquisition Board to the Research Board no less than once every one hundred and twenty days.

(e) No earlier than one year after the Land Acquisition Board is formed, and no later than four years after it is formed, the Land Acquisition Board shall submit a report of final proposed locations for a campus and designated on maps for each proposed location. Such maps shall be drawn, by lines of longitude and latitude or by use of historical boundaries such as state lines, rivers, long standing thoroughfares, and county or city boundaries. The final dimensions and geographic inclusions of the land for campus development, which shall at a minimum include the inner one contiguous square mile, layered by additional increments at two, four, nine, sixteen, twenty five and thirty six contiguous square miles, with thirty six being the maximum that could be purchased pursuant to this Article XIV for campus development, will be determined by the Land Acquisition Board. The proposed locations of the campus and maps must be approved by 2/3 of the Research Board, or if the Research Board is not yet formed then by a unanimous vote of the then-existing Research Board members and the consent of the Governor.

(f) Upon approval pursuant to section 6 subsection (e) in the next general election more than 6 months after the section 6 subsection (e) approval occurs, voters of the affected county or counties, shall have a "yes" or "no" vote on whether they desire to allow the land to be acquired and the campus developed, along with its building and construction and Article XIV activities, on the proposed location that is within their respective county. Maps that include more than one county shall be designated a multi-county map, and the votes of all affected counties within the multi-county map shall be counted as though one county.

(g) The proposed campus location county which receives the most votes by percentage of votes cast, in the respective proposed campus location counties, shall be the approved campus development site.

(h) The question presented to voters pursuant to Section 6, subsection (f) shall be in the following format:

> Shall a campus for research, development, building and construction, jobs, cures and education in Missouri for endeavors to find cures for incurable diseases, and all that entails under Article XIV of the Missouri Constitution, be built on the proposed campus development site that includes the county in which I live and will result in land, in and around the vicinity set forth on the Biomedical Research and Drug Development Institute Map below, being affected, and/or purchased from the landowners:
>
> Yes _____ No
>
> [map here]

The amount to be acquired shall be a minimum of one square mile of contiguous property, but otherwise limited only by purchasing funds to a maximum of thirty six contiguous square miles.

18-001

(i) As funds become available, the Land Acquisition Board shall have authority to negotiate, acquire, and purchase property for the research campus. The Land Acquisition Board may use any and all legal means to acquire and purchase such property for the campus.

(j) The amount to be acquired for the campus shall be a minimum of one square mile of contiguous property, but otherwise limited only by purchasing funds to a maximum of thirty six square miles of contiguous property. The final dimensions and geographic inclusions of the land for campus development, which shall at a minimum include the inner one contiguous square mile, will be determined by the Land Acquisition Board.

(k) The Land Acquisition Board shall begin acquiring land by purchasing land, as outlined in this section of Article XIV, six (6) months after the general election referenced in section 6(f), takes place, or as soon thereafter as practicable. The purchasing shall proceed in a manner consistent with reasonable campus development.

(l) Clerical, research and general administrative support staff for the Land Acquisition Board shall be provided wages or salaries by the Land Acquisition Account. The Research Board, and the then existing Land Acquisition Board members until the Research Board members are all appointed and fill the Land Acquisition Board, shall have the authority to employ, hire, fire and set wages for all clerical, research and general administrative support staff for the Land Acquisition Board and to fulfill its functions under this Article XIV.

(m) The Land Acquisition Board, until the board is terminated and its powers and duties then transferred to the Research Board, may establish a land use plan and set aside up to twenty five percent of the acquired land for enterprise zones, housing and parks and recreational activities within the campus. Such land, at the Research Board's discretion, may be leased but not purchased from the Research Board.

(n) By unanimous vote of the Land Acquisition Board, upon the final payment for land made, or on January 1, 2028, whichever occurs first, the Land Acquisition Board shall terminate and all powers and duties shall transfer to the Research Board, including but not limited to all those powers and duties under this section 6.

Section 7. Immunities.

(a) Upon passage of this Article XIV, and beginning with its effective date, the use of medical marijuana by a qualifying patient with a valid physician certification shall not be subject to criminal or civil liability or sanctions under Missouri law, except as provided for by this Article XIV. Pending rules for, and issuance of, Qualifying Patient Identification Cards, the use of medical marijuana by a qualifying patient with a valid Physician Certification only, shall be valid in place of the Qualifying Patient Identification Card.

(b) A Medical Marijuana Dispensary Facility may sell medical marijuana or medical marijuana-infused products/extractions to a qualifying patient or designated primary caregiver upon production of a valid qualifying patient identification card or designated primary caregiver identification card, respectively and shall not be subject to criminal or civil liability or sanctions under Missouri law except as provided for by this Article XIV.

(c) Medical marijuana cultivation, transportation, storage, infusion and extraction of products, and sale pursuant to this Article XIV is hereby legal, and shall not be subject to criminal or civil liability or sanctions under Missouri law except as provided for by this Article XIV.

(d) The possession of marijuana, in quantities less than the monthly limit established by the Research Board, shall not subject the possessor to arrest, criminal or civil liability, or sanctions under Missouri law, provided that a valid qualifying patient identification card, a designated primary caregiver identification card, or the equivalent issued to a non-Missouri resident by another state or political subdivision of another state that is that non-Missouri resident's place of residency, is produced upon demand.

(e) A physician shall not be subject to criminal or civil liability or sanctions under Missouri law or discipline by the Missouri State Board of Registration for the Healing Arts, or other agency, for issuing a physician certification or recommending the use of Medical Marijuana to a person diagnosed with a qualifying medical condition in a manner consistent with this Article.

(f) A health care provider, including but not limited to any pharmacist, shall not be subject to professional discipline, or to criminal or civil liability or sanctions under Missouri law, for providing health care services that involve the medical use of marijuana consistent with this Article.

18-001

(g) A designated primary caregiver shall not be subject to criminal or civil liability or sanctions under Missouri law for purchasing or administering marijuana for medical use by a qualifying patient in a manner consistent with this Article. No individual shall serve as the designated primary caregiver for more than three (3) qualifying patients at one time.

(h) Actions and conduct by a Medical Marijuana Cultivation Facility, Medical Marijuana Research Cultivation Facility, Medical Marijuana Dispensary Facility or a Medical Marijuana-Infused/Extraction Products Manufacturing Facility, licensed and registered with the Research Board, or employees of such facilities, pursuant to and as permitted by this Article and in compliance with Research Board regulations, shall not be subject to criminal or civil liability or sanctions relating to marijuana under Missouri law except as provided for by this Article.

i. A Medical Marijuana Cultivation Facility, Medical Marijuana Research Cultivation Facility, Medical Marijuana Dispensary Facility or Medical Marijuana-Infused Product Manufacturing Facility who allows any license under this Article to lapse or expire through failure to timely renew or reapply for such license shall still be subject to the protections of this Article, provided the licensee obtain a valid license within ninety (90) days of the date of the lapse or expiration of the prior license and pay all fines called for in this Article.

ii. A Medical Marijuana Cultivation Facility, Medical Marijuana Research Cultivation Facility, Medical Marijuana Dispensary Facility or Medical Marijuana-Infused/Extraction Products Manufacturing Facility who allows any license under this Article to lapse or expire through failure to timely renew or reapply for such license shall be subject to and must pay a fine of $5,000 if a valid license is obtained within ninety (90) days of the lapse or expiration of the prior license.

(i) There shall be no immunities for negligence, either common law or statutorily created, nor criminal immunities for operating a vehicle, aircraft, dangerous device, or navigating a boat, under the influence of marijuana, and except as specifically set out in this Article the use of marijuana shall not be a defense to any civil liability or criminal activity.

(j) Missouri attorneys providing legal advice or representation relative to this Article XIV shall not be subject to professional discipline, or to criminal or civil liability or sanctions under Missouri law for providing such legal advice or representation.

(k) Patient information under this Article shall be afforded the same protection and confidentiality under the law as other patient medical information.

(l) No patient shall be denied access to medical care or priority for an organ transplant because they hold a qualifying patient identification card or use marijuana for medical use.

(m) No patient shall be denied Medicaid or other medical insurance or other governmental benefits because they hold a qualifying patient identification card or use marijuana for medical use.

(n) No testing laboratory shall be subject to civil or criminal prosecution, denial of any right or privilege, civil or administrative penalty or sanction, or disciplinary action by any accreditation or licensing board or commission for providing laboratory testing services that relate to the medical use of marijuana consistent with this Article XIV and otherwise meeting legal standards of professional conduct.

(o) No health care provider shall be subject to mandatory reporting requirements for the medical use of marijuana by non-emancipated qualifying patients under eighteen years of age in a manner consistent with this Article XIV and with consent of a parent or guardian.

(p) Subject to provisions to the contrary within this Article XIV, any individual acting within the scope of this Article XIV shall not be subject to professional discipline, or to criminal or civil liability or sanctions under Missouri law for actions authorized within this Article XIV.

Section 8. Legislation.

(a) Nothing in this Article shall limit the legislature from enacting laws consistent with this Article, or otherwise effectuating this Article, but the legislature shall not be allowed to enact laws to hinder the effectiveness of this Article or otherwise alter this Article. Except as specifically provided in this Article, nothing in this Article shall limit the authority of a municipality or county under its land planning and zoning regulations to restrict the location, but not the number of or presence of in a municipality or county of Medical Marijuana Cultivation Facilities, Medical Marijuana Research Cultivation Facility, Medical Marijuana Dispensary Facilities or Medical Marijuana-Infused/Extraction Products Manufacturing Facilities.

(b) No elected official shall interfere directly or indirectly with the Research Board's obligations and activities under this Article XIV.

18-001

Section 9. Limitations and Other Provisions.

(a) Nothing in this Article permits a person to:

i. Undertake any task under the influence of marijuana when doing so would constitute negligence or professional malpractice; or

ii. Operate, navigate, or be in actual physical control of any dangerous device or motor vehicle, aircraft or motorboat while under the influence of marijuana; or

iii. Bring a claim against any employer, former employer or prospective employer for wrongful discharge, discrimination, or any similar cause of action or remedy, based on the employer, former employer or prospective employer prohibiting the employee, former employee or prospective employee from being under the influence of marijuana while at work or disciplining the employer or former employee, up to and including termination from employment, for working or attempting to work while under the influence of marijuana; or

iv. Consume, smoke, or use marijuana in a jail, prison, or other correctional facility; or

v. Consume, smoke, or use marijuana in a drug rehabilitation facility; or

vi. Consume, smoke, or use marijuana in a hospital or medical facility without a hospital or facility's consent; or

vii. Consume, smoke or use marijuana in a public place, including specifically, but not limited to, sidewalks, parks, playgrounds, sporting facilities, businesses, airports, bus stations, trains, casinos, government buildings, churches, synagogues or mosques; or

viii. Undertake growing or processing marijuana in a negligent or dangerous manner.

(b) A physician certification may only be given after the physician has conducted a full assessment of the patient's medical history and an in-person physical examination. A physician certification may be valid for up to twenty four (24) months.

(c) No Medical Marijuana Cultivation Facility, Medical Marijuana Research Cultivation Facility, Medical Marijuana Dispensary Facility or Medical Marijuana-Infused/Extraction Products Manufacturing Facility shall be owned, in whole or in part, or have as an officer, director, board member, manager or employee, any individual who has been convicted of a felony. However, the Research Board may on a case by case basis find an exception based upon letters of recommendation and proof of rehabilitation by community service and lack of subsequent convictions if:

i. The person's conviction was for the medical use of marijuana or assisting in the medical use of marijuana; or

ii. The person's conviction was for a non-violent crime for which the person was not incarcerated in the Missouri Department of Corrections, or its equivalent in other jurisdictions, that is more than ten (10) years old; or

iii. The person's conviction was for a non-violent crime for which the person was incarcerated in the Missouri Department of Corrections, or its equivalent in other jurisdictions, that is more than fifteen (15) years old; provided that at least five (5) years has elapsed since that person's release from incarceration.

(d) A Medical Marijuana Cultivation Facility and Medical Marijuana Research Cultivation Facility shall not be owned or controlled, in whole or in part, by any person who has not been a resident of Missouri for at one year prior to the date of the Medical Marijuana Cultivation Facility's application.

(e) No marijuana or medical marijuana-infused product may be brought into the State of Missouri from outside of the state for use, sale, distribution, or otherwise.

(f) No Medical Marijuana Cultivation Facility, Medical Marijuana Research Cultivation Facility, Medical Marijuana Dispensary Facility or Medical Marijuana-Infused/Extraction Products Manufacturing Facility shall manufacture, package or label marijuana or marijuana-infused products in a false, misleading or confusing manner or in any manner likely to cause confusion between the marijuana or marijuana-infused product and any product not containing marijuana.

(g) All edible marijuana-infused product must be sold in individual child-resistant re-closeable containers that are labeled with dosage amounts, instructions for use, and estimated length of effectiveness. All marijuana and marijuana-infused products must be sold in containers clearly and consciously labeled, in a font size at least as large as the largest other font size used on the package, as containing "Marijuana," or a "Marijuana-Infused/extraction Product." The product itself must additionally be imprinted with the conspicuous lettering "THC", when practicable. A label of at least 12 point bold font must be used alerting patients if processed or packed with nuts or allergens, or in a facility where nuts or other allergens are processed or used.

(h) No poisonous or deleterious substances shall be added to any marijuana or marijuana-infused/extracted product. Doing so shall be punishable by law as established by the State of Missouri.

18-001

(i) It shall be the responsibility of the Medical Marijuana Cultivation Facility, Medical Marijuana Research Cultivation Facility, Medical Marijuana Dispensary Facility and Medical Marijuana-Infused/Extraction Products Facility to provide each subsequent person or entity in the stream of commerce a listing of all substances used in the growth and processing of marijuana, other than soil, water, and seed. All Marijuana sold for approved methods, in addition to other labels required by this Article XIV, subject to modification by the Research Board, shall be labeled or include the following information on package inserts, in at least 8 point type:

i. "GOVERNMENT WARNING: THIS PACKAGE CONTAINS MARIJUANA, A CONTROLLED SUBSTANCE. KEEP OUT OF REACH OF CHILDREN AND ANIMALS. MARIJUANA MAY ONLY BE CONSUMED BY A QUALIFYING PATIENT WITH A QUALIFYING PATIENT IDENTIFICATION CARD. MARIJUANA USE WHILE PREGNANT OR BREASTFEEDING MAY BE HARMFUL. CONSUMPTION OF MARIJUANA IMPAIRS YOUR ABILITY TO DRIVE AND OPERATE MACHINERY. DO NOT USE WHEN OPERATING A MOTOR VEHICLE OR DANGEROUS MACHINERY. THE INTOXICATING EFFECTS OF INGESTED MARIJUANA PRODUCTS MAY BE DELAYED UP TO TWO HOURS."

ii. For packages containing only dried flower, the net weight of marijuana in the package.

iii. Identification of the source and date of cultivation, the type of marijuana, or for marijuana infused products the date of manufacturing and packaging.

iv. The appellation of origin, if any.

v. List of pharmacologically active ingredients, by percentage, including, but not limited to, tetrahydrocannabinol (THC), cannabidiol (CED), and other cannabinoid content, the THC and other cannabinoid amount in milligrams per serving, servings per package, and the THC and other cannabinoid amount in milligrams for the package total, and the potency of the marijuana or marijuana product by reference to the amount of tetrahydrocannabinol and cannabidiol in each serving.

vi. For marijuana infused products, a list of all ingredients and disclosure of nutritional information.

vii. A list of any solvents, nonorganic pesticides, herbicides, and fertilizers that were used in the cultivation, production, and manufacture of such marijuana or marijuana product.

viii. A warning if nuts or other known allergens are used in the product, or place of processing or sale.

(j) No Medical Marijuana Cultivation Facility, Medical Marijuana Research Cultivation Facility, Medical Marijuana Dispensary Facility or Medical Marijuana-Infused/Extraction Products Manufacturing Facility shall assign, sell, give, lease, sublicense, or otherwise transfer its license to any other facility, person, or entity except as provided in this Article XIV.

(k) This Article XIV shall not be construed as requiring health insurance companies to provide coverage for medical marijuana use.

(l) No new license shall be granted to any Medical Marijuana Cultivation Facility, Medical Marijuana Research Cultivation Facility, Medical Marijuana Dispensary Facility or Medical Marijuana-Infused/Extraction Products Manufacturing Facility that is located within one thousand feet of any then-existing school, group day care home, child day care center, church, synagogue or mosque.

(m) A physician:

i. shall not issue physician certifications for the use of medical marijuana exceeding twenty five percent (25%) of the number of prescriptions written by that physician in the same calendar year; and

ii. shall not have an income from treating qualifying patients with primarily medical marijuana exceeding twenty five percent (25%) of the physician's gross income.

(n) It is the public policy of the state of Missouri that contracts related to marijuana for medical use that are entered into by Qualifying Patients, Designated Primary Caregivers, Medical Marijuana Cultivation Facilities, Medical Marijuana Research Cultivation Facilities, Medical Marijuana-Infused/Extraction Products Manufacturing Facilities, or Medical Marijuana Dispensary Facilities and those who allow property to be used by those entities, should be enforceable. It is the public policy of the state of Missouri that no contract entered into by Qualifying Patients, Designated Primary Caregivers, Medical Marijuana Research Cultivation Facility, Medical Marijuana Cultivation Facilities, Medical Marijuana-Infused/Extraction Products Manufacturing Facilities, or Medical Marijuana Dispensary Facilities, or by a person who allows property to be used for activities that are exempt from state criminal penalties by this Article XIV, shall be unenforceable on the basis that activities related to medical marijuana may be prohibited by federal law.

(o) Marijuana cultivation of all types must occur indoors in an enclosed, locked facility; a warehouse, room, greenhouse, or other enclosed area equipped with locks or other security devices that permit access only by authorized personnel, Research Board requirements, and meeting industry standards for safety and safe use of electricity.

(p) Real and personal property used in the cultivation, manufacture, transport, testing, distribution, sale, and administration of marijuana for medical use or for activities otherwise in compliance with this Article XIV shall not be subject to asset forfeiture solely because of that use.

(q) The Research Board may require Medical Marijuana Dispensary Facility to have, on call during all operating hours, an individual licensed in Missouri to the practice of pharmacy as defined in Chapter 338 of the Revised Statutes of Missouri who is available for on-site or telephone consultation within thirty (30) minutes.

18-001

Section 10. Public-Private Collaborative Ventures.

(a) The Research Board may enter into leases of property owned or to be acquired by the Research Board on the campus with participating research entities for building and construction, jobs, education, research to find cures, and in such endeavors enter into contracts for joint ventures and collaborative efforts and to find cures and treatments for presently incurable diseases and targeted diseases and to develop cures that may be discovered, improved or patented, in whole or part, and lease property for reasonable campus development and pursuant to this Article XIV.

(b) Any participating research entities, whether public, private, quasi-public or quasi-private, which develops cures or treatments which occurs in whole or part, directly or indirectly, by having its presence on the Biomedical Research and Drug Development Institute campus or in participation by written agreement with the Research Board, shall pay to the Biomedical Research and Drug Development Trust Fund – Section 10 Account an agreed upon contractual amount but if no contract has been entered into as to an amount, then the greater of three percent of all gross revenues or seventeen percent of all profits derived from the participating research entities cures or treatments, whether such monies were produced, earned, derivative, interest or otherwise received. All contracts when practicable shall be published on the Research Board's website at least 14 calendar days before any contract is finalized and published again after the contract is finalized.

(c) The Research Board may, along with or in conjunction with the participating research entity, or other entities, or on its own, make, produce, develop, market, distribute, license, and sell cures, goods, services and products, both of a medical and non-medical nature.

(d) All participating research entities shall establish a physical presence in Missouri, be licensed to do business in the State of Missouri and consent to jurisdiction of Missouri courts, and all contracts shall be governed by Missouri law.

(e) Participating research entities shall not provide anything of value to any member of the Research Board or their employees that could influence academic or research freedom, or otherwise interfere with the academic or research freedom of any member of the Research Board, nor to targeted disease groups or panels. Participating research entities who violate this prohibition shall have leases voided, and shall surrender all profits derived from the participating cures and treatments produced, earned or received, to the State of Missouri, and shall be liable for any actual and consequential damages and in appropriate circumstances also punitive damages, to the Research Board with all such damage awards being credited to the Biomedical Research and Drug Development Trust Fund – Section 10 Account.

(f) Any monies received pursuant to this section 10 shall be paid into the Biomedical Research and Drug Development Trust Fund – Section 10 Account and annually disbursed by the following formula:

i. Fifty percent (50%) to the Biomedical Research and Drug Development Institute Trust Fund General Purpose Account;

ii. Twenty-five percent (25%) to general revenue of the State of Missouri with

a) 1/4 of this 25% for the exclusive purpose of funding Missouri state roads and bridges infrastructure repairs,

b) 1/4 of this 25% for the exclusive purpose of funding public pre-school programs, public elementary and secondary school programs, and to provide grants to in-state Missouri students to attend state institutions of higher education governed at the time of the enactment of this Article XIV by sections of 174.020 to 174.500 Revised Statutes of Missouri and chapter 172 Revised Statutes of Missouri., and

c) 1/4 of this 25% for the exclusive purpose of funding medical care for Missouri residents;

d) 1/4 of this 25% to fund Missouri public employee retirement trust funds; and

iii. Twenty-five percent (25%) to be refunded to Missouri state income tax paying citizens, refunded equally to all citizens of Missouri who have paid state income taxes of more than five hundred dollars ($500) or more in the year prior to the payments being received by the Research Board pursuant to this section 10, up to the total amount of state income tax paid by such Missouri citizen in that year. Any residual amounts above and beyond the tax refund shall be paid equally to all Missouri state income tax paying Missouri residents. The refund check to Missouri citizens shall clearly state "Research Board Tax Refund".

(g) All contracts entered into pursuant to this section 10 and this Article XIV shall require that any cures obtained pursuant to section 10 and this Article XIV shall be made available to the residents of the State of Missouri at cost, with no mark-up.

Section 11. Effective Date.

(a) The provisions of this Article shall become effective on December 31, 2018.

18-001

Section 12. Severability.

(a) All of the provisions of this Article, all sections, all subsections and all clauses and phrases shall be self-enforcing. All of the sections, subsections, provisions, clauses, phrases, and words within them are severable. If any of the sections, subsections, provisions, clauses, phrases, or words within them are found by a court of competent jurisdiction to be unconstitutional or unconstitutionally enacted, the remaining sections, subsections, provisions, clauses, phrases, or words within them shall be and remain valid. If any appointment or selection pursuant to this Article, except 3(k)i-iii., are found by a court of competent jurisdiction to be unconstitutional or unconstitutionally enacted, the appointment and selection, subject to any valid qualification requirement, shall be made by the Governor with the consent of a majority of the Senate. If all appointments or selections pursuant to 3(k)i-iii. are found by a court of competent jurisdiction to be unconstitutional or unconstitutionally enacted, the appointment and selection, subject to any valid qualification requirement, shall be made by the Governor with the consent of a majority of the Senate.
